Regulatory Utility Commissioners

ACKNOWLEDGEMENTS

The preparation of this Annual Report was greatly facilitated by the dedication, competence and energy of untold numbers of State and Federal regulatory personnel who reviewed and revised draft submissions of the contents.

PREFACE

The *1988 Annual Report on Utility and Carrier Regulation*, like the earlier editions, is a one-stop publication of pertinent information about regulatory agencies, and covers a broad base of reference that makes this Report a virtual encyclopedia of regulatory materials. The Report is in five major parts:

Part I presents Agency profiles in alphabetical order by agency name. It includes historical data on each agency as well as the names and abbreviated biographies of the commissioners and names and titles of key staff personnel. Federal agencies are listed first, followed by State agencies and Canadian agencies last.

Part II contains two sections covering rate cases. The information is arranged in tables by type of utility and carrier. The first section summarizes utility rate cases that were under consideration by the agencies during the year. The second section contains similar information concerning transportation rate cases.

Part III is composed of national tables listing the jurisdictional, ratemaking and other general aspects of utility regulation by the Agencies.

Part IV is composed of national tables listing parallel information on regulation of transportation.

Part V contains national tables treating miscellaneous subjects such as commissioner terms and methods of selection, agency salaries, assessment of costs of regulation, judicial review, assistance to intervenors, news media coverage, administrative law judges, and consumer representatives.

A detailed subject index appears in the back, preceded by the Glossary of Terms used in utility and carrier regulation. This edition has been significantly revised for clarity, to account for technological changes in the industries, as well as for appearance; use of new fonts and software has improved the general readability of the charts and tables. However, the book is in a state of constant change; readers and researchers are encouraged to point out any areas where additional improvements may be made.

This Annual Report is respectfully dedicated to the men and women of the State and Federal regulatory community who labor so unselfishly during these trying times to provide the American consumer with good service at a reasonable cost.

1988 UTILITY AND CARRIER RATE CASES

INTRODUCTORY STATEMENT 341
1988 UTILITY RATE CASES
Electric Utility 342
Gas Utility 352
Telephone Utility 361
Water Utility 370
Sewer Utility 384
Multi-Utility 388

1988 CARRIER RATE CASES
Bus Carriers 390
Motor Carriers 392
Taxi Carriers 408
Miscellaneous Carriers 389
Gas Pipeline Carriers 409
Common Carrier Oil Pipeline 410

PART III

NATIONAL TABLES ON UTILITY REGULATION

INTRODUCTORY STATEMENT 411

SECTION
A. NUMBER OF UTILITIES 412

Table 1. Number of Utilities Operating in the State (Electric and Gas) 413
(Privately and publicly owned electric and gas, electric cooperatives, Combination electric and gas and other)

Table 2. Number of Electric Utilities Subject to State Regulation 415
(Private, public and cooperative with citation of jurisdictional authority)

Table 3. Number of Gas, Combination Electric and Gas and Petroleum Pipelines Subject to State Regulation 417
(Gas both private and public and citation of jurisdictional authority for all)

B. REGULATION OF ELECTRIC, GAS AND TELEPHONE RATES 419

Table 4. Agency Authority to Regulate Rates on Sales to End Users (Electric, Gas and Telephone) 420
(Ultimate consumers; industrial customers of interstate pipelines and natural gas producers; public authorities for public use; and US government)

Table 5. Agency Authority to Regulate Rates on Sales to Resellers 422

TABLE OF CONTENTS

(Public authorities; US government; privately owned utilities; publicly owned utilities)

Table 6. Other Agency Rate Regulation Authority 424
(Transmission on account of others, prescribe temporary rates pending investigation; require prior authorization of rate changes; define/prescribe rates for interexchange power)

Table 7. Agency Authority to Prescribe Temporary Rates Under Bond for Utilities Pending Investigation . 401
(Bond required, amount of bond, interest paid on refunds)

Table 8. Agency Authority to Suspend Rate Changes or Initiate Rate Investigations 427
(Private and public electric and gas; electric co-op; telephone)

Table 9. State Agency Authority to Regulate Rates of Municipal Utilities (Electric and Gas) 429
(Authority to regulate, utility regulated inside/outside municipal boundaries, Municipal sales regulated - ultimate consumer, public authorities, wholesale)

Table 10. Description of State Agency Regulation of Municipal Utilities (Electric and Gas) 431

Table 11. Authority of Municipalities to Regulate Municipal Utility Rates 433
(Extent of authority, including overlapping, joint or jurisdiction of mutually exclusive agencies)

Table 12. Regulation of Energy Cost Adjustment Clauses 434
(Authority to establish clause in tariff, allows automatic adjustment clause, requires that hearing be held on adjustment clause)

Table 13. Type of Test Year Used in Determining Rates 436
(Electric, Gas, Telephone, Water)

Table 14. Regulation of Rates - Miscellaneous 438
(Agency staff authority to appeal decisions in court and cross-examine, % of cross-examination by non-attorneys; year agency received jurisdiction over rates. Regulation of LNG and LPG)

Table 15. Who May File a Rate Complaint Before the Agency 440
(Persons having standing before the agency)

Table 16. Other Methods of Rate Control 442
(Methods by which rates are controlled by other than formal rate cases)

Table 17. Introduction 444

Table 17. State Statutes or Commission Rulings Specifically Authorizing Special Reduced Rates for Houses of Worship 445

C. RATE BASE 447

Table 18. Method of Valuation Generally Applied 448
(Method of determining rate base specifically prescribed by statute, regulation, or court decision; section number or case citation; method prescribed; brief description)

Table 19. Items Allowed in Rate Base of Electric, Gas and Telephone Utilities 450
(Land or property held for future use, AFUDC, CIAC credit, advance payment, research & development, inflation factor, excess of cost over original cost, materials & supplies, allowance for working capital, customer advance credit, accumulated deferred tax credit, pollution control equipment.)

Table 20. State Regulatory Treatment of CWIP 452
(Allowed in rate base, AFUDC offset required, first year CWIP included, basis of authority, post-1976 legislation)

TABLE OF CONTENTS

Table 21. Method of Determining Rate Base 453
(Agency determines, method prescribed either for general application or in a recent specific rate case)

Table 22. Treatment of Depreciation and Deferred Taxes in Rate Base 457
(Method of determining and treatment of accrued depreciation; treatment of deferred taxes)

Table 23. Year End or Average Rate Base Prescribed 459
(Year-end versus average, which average is used)

Table 24. Approved Method of Determining Working Capital 461

D. OTHER COST OF SERVICE ALLOWANCES 463

Table 25. Contributions and Dues Allowed in Cost of Service 464
(Specific types of organizations)

Table 26. Agency Policy With Respect to Contribution and Dues 466
(Statement of Agency policy on allowing contributions and dues in cost of service)

Table 27. Disallowance of Association Dues 468
(Agency disallows dues to specific organizationsAGA, EEI, USCEA, EPRI)

Table 28. Treatment of Advertising Expenses 470
(Agency policy on limiting or excluding various types of advertising and promotion expenses)

Table 29. Treatment of Local Referenda Campaign Expenses 472
(Allows advertising connected with local referenda, agency policy, revenue and items connected with appliance merchandising disallowed, pollution abatement expense or financing interventions allowed)

E. DETERMINATION OF DEPRECIATION POLICIES AND PRACTICES 474

Table 30. Depreciation Policies and Practices 475
(Depreciation method, specific rates for various classes of property, requires depreciation rate studies)

Table 31. Specific Depreciation Rates Established by Major Classes of Property 477

F. BASIS OF RATE OF RETURN 479

Table 32. Agency Authority Over Rate of Return 480
(Authority, capital structure excludes non-utility financing, favored method, influence of call provision)

Table 33. Most Recent Rate of Return Prescribed 482
(Date, rate of return prescribed and actual rate earned, valuation standards generally applied)

Table 34. Most Recently Approved Return on Common Stock Equity 484
(Rates prescribed, date and actual rate earned in two most recent rate cases)

G. ACCOUNTING, AUDITING AND REPORTS 487

Table 35A. Agency Authority Over Accounting 488
(Agency can prescribe system of accounts, require specific entries or adjustments)

Table 35B. Agency Authority Over Accounting 489
(Preservation of records, interpretations of Uniform Systems of Accounts, prescribe units of property)

TABLE OF CONTENTS

Table 36. Agency Exercises Authority Over Accounting 491
(Types of account systems prescribed, interpretations, continuing property records, units of property prescribed)

Table 37A. Prescribed Accounting Treatment 493
(Gains and losses from reacquired securities, research and development expenditures)

Table 37B. Prescribed Accounting Treatment 495
(Contributions in aid of construction, amortization of plant acquisition, amortization of extraordinary property losses, allocation of negative income taxes to a department of a company)

Table 37C. Prescribed Accounting Treatment 498
(Operating units or system, extraordinary property losses defined by agency)

Table 38. Accounting Treatment of AFUDC 499
(Capitalization period, interest rate, method of determining allowance base defined by agency)

Table 39A. Audits 501
(Requires audits by independent accountants, has authority to do so, requires copies of audit reports, periodically audits regulated companies, number of audits completed last calendar year, number of utilities subject to audit)

Table 39B. Audits 503
(Staff time spent on audits, independent accountants used, year most recent audit completed, uses independent accountants or consultants for agency work)

Table 40. Number of Utilities Receiving Comprehensive, Desk-Type or Rate Case Audits 505

Table 41. Number of Utilities Receiving Original Cost or Other Audit 507

Table 42. Management Audits 509
(Agency has ordered management audit in the past five years for electric, gas, telephone, water & sewerage or other)

Table 43. Commission-Ordered Management Audits in the Last Five Years 511
(Utility studied, consultant's name, size of contract)

Table 44. Agency In-House Performance of Management Audits 516
(Agency's in-house capability for management auditing)

Table 45. Agency Use of Management Audit Results 517
(General input in a rate case, general use not in rate case, used in rate case to determine rate level)

Table 46. Changes in Operating Procedure Resulting From Management Audits 518
(Specific changes in utility practices as a result of management audit)

Table 47. Annual Accounting Report Forms 520
(Authority to require annual accounting reports, has prescribed specific form)

Table 48. Miscellaneous Report Forms 522
(Title of form, frequency of collection)

H. FINANCIAL AND CORPORATE REGULATION 528

Table 49A. Agency Authority Over Financial and Corporate Matters 529
(Agency must approve: sale or purchase of facilities, merger, issuing of securities, purchase of other utility securities, purchase or issuance of securities by utility incorporated in another state, issuing restricted stock options, leases)

Table 49B. Agency Authority Over Financial and Corporate Matters 531

TABLE OF CONTENTS

(Requires submission of proposed accounting, participates in reorganization proceedings, requires procurement policy, approves procurement contracts, audits equipment procurement)

Table 49C. Agency Authority Over Financial and Corporate Matters 533
(Disqualify directors/officers for cause; require advance submission of capital budget; regulate declaration of dividends, entry into non-utility activity, approved diversifications; treatment of call protection; industrial revenue bonds; other bonds)

Table 50. Transactions with Affiliates 535
(Special requirements for accounting and reporting)

I. COMPETITIVE BIDDING 537

Table 51A. Agency Has Authority to Require Competitive Bidding 538
(Various types of bonds, notes, stock, equipment, material, services)

Table 51B. Agency Exercises Authority to Require Competitive Bidding 539

J. ELECTRONIC DATA PROCESSING 541

Table 52. Agency Data Processing Capability 542
(Agency mainframe or personal computers, use of service center; make and model of computers in use)

Table 53. Agency Software, Staff and Budget for Data Processing 544
(Number of Agency EDP staff, applications software in use, approximate total EDP Budget including staff)

K. SAFETY AND ADEQUACY OF SERVICE 546

Table 54A. Agency Authority to Regulate Standards 547
(Testing meters or setting standards for measuring, standards for voltage levels, standards for BTU content of gas, standards for pressure of gas)

Table 54B. Agency Authority to Regulate Standards 548
(Setting safety standards, authorizing interconnections, requiring interconnections)

Table 54C. Agency Authority to Regulate Standards 549
(Requiring: utility to act as common carrier, joint use of facilities, line extensions within service area)

Table 55. Agency Enforcement of Safety Standards 551
(Inspecting materials and/or periodically inspecting facilities and operations)

Table 56. Agency Regulation of Service During Emergency 553
(Emergency regulations for service during outages and curtailments, standards for attaching new customers during shortages)

Table 57. Priorities During Short Supply 555
(Agency has authority to require establishment of priorities among customer classes, description of such priorities)

L. CERTIFICATES, LICENSES AND PERMITS 557

Table 58A. Agency Authority to Require Certificates of Convenience and Necessity 558
(For initiating service, constructing major additions to generating plant, transmission lines)

Table 58B. Agency Authority to Require Certificates of Convenience and Necessity 559
(For constructing major additions to distribution lines or other plant, abandonment of facilities or service)

Table 59. Other Agency Permit Authority 561
(Issue indeterminate permits, regulate state exports, allocate unincorporated territory among utilities)

Table 60. Agency's Authority to Certificate 563
(Source of authority, authority contingent on prior approval of other agency, legislation pending)

Table 61. Agency Authority to Set Standards for Certification 565
(Effects of rights-of-way, etc. on environmental values, environmental effect of alternative sites, 10-year projections published annually, procedures to assure public participation in certification)

Table 62A. Other Agency Authority Over Certification 567
(Regional certifying bodies, multi-state impact, publication of standards, require underground transmission or distribution lines)

Table 62B. Other Agency Authority Over Certification 568
(Authority is from other agencies, interstate compacts affecting hydroelectric development, authority to grant eminent domain, agency granting damages, certificates contingent on approval from environmental agency, compliance with new environmental standards)

Table 63. Foregoing Authorities, Table 62B, Which Rest With Other Agencies 570
(Name of other agency, description of authority)

Table 64. Interstate Compacts Affecting Hydroelectric Developments 572
(Congressional citation, description of compact)

M. ENVIRONMENTAL DATA 573

Table 65. Agency Environmental Regulation of Electric Generating Fuels 574
(Standards for electric generation, compliance with clean air and water standards, other state agency with same authority)

N. SPECIAL PROVISIONS OF THE INCOME TAX LAWS 576

Table 66. Ratemaking Treatment of Tax Reductions 577
(Actual or normalized accelerated amortization, interperiod tax allocation, accumulated deferrals)

Table 67. Accounting Treatment of Tax Reductions 579
(Flow-through or deferral accelerated amortization, interperiod tax allocation)

O. MISCELLANEOUS TABLES 581

NARUC Questionnaire on Utility Billing Practices - Electric and Gas 582

Table 68A. Utility Billing Practices - Electric and Gas - Part I 583
(Penalties, discounts, authority, penalty period, late pay, usual billing period)

Table 68B. Utility Billing Practices - Electric and Gas - Part II. 584
(Deposits, interest on deposit, return of deposit, authority)

Table 68C. Utility Billing Practices - Electric and Gas - Part III 587
(Accuracy of billing - information available for customer to check; itemized billing; agency analysis of billing)

Table 69. Introduction 589

Table 69. Service Disconnection and Reconnection Policies (Electric and Natural Gas) 590
(Authority, notice to disconnect - number of days, special procedures; reconnection - additional

deposit, installment payments of outstanding balance, charge to reconnect; restrictions on disconnection in winter)

Table 70. State Laws or Commission rules to Prevent Damage to Underground Utility Plant 595
(Excavator must find out underground plant location, notify utility before excavating, report damage, backfill excavation, minimize interference)

Table 71. Federal and State Ratemaking Treatment of Plant Abandonment Costs 597

Table 72. Introduction. 599

Table 72. Agency Energy Conservation Policy 600
(Conservation policies, rate structures, conservation measures)

P. CABLE TELEVISION 602

Table 73. Regulation of Cable Television Companies 603
(Entry, territory, abandonment, rates, service, accounting, safety, construction, security, mergers, insurance, siting, reporting, pole attachments)

Table 74. Introduction 605

Table 74. Cable-Telco Cross-Ownership and Provision of Services 606

Q. COMMUNICATIONS 607

Table 75A. Number of Communications Utilities Operating in the State, Under Agency Jurisdiction or Not 608
(LEC, IXC, OSP, Cellular, RCC, Mobile Radio, Paging, STS, COPT, CATV, Co-op, Telegraph, Other)

Table 75B. Number of Communications Utilities Under Agency Jurisdiction 610

Table 76. Bell System Intrastate Rate Increases, January 1, 1970 to Present 612
(Utility name, date filed, date ordered, amount requested, amount granted)

Table 77. Introduction. 622

Table 77. Regulation of Radio Common Carriers 623
(Certificate, rates, service, financing, number regulated, 2-way mobile, paging, statute, service area, FCC license, etc)

Table 78. Uniform System of Accounts for Radio Common Carriers 625
(System prescribed)

Table 79. Regulation of Cellular Communications Service 626
(Degree of regulation - full, partial, none; wholesale and retail level; relevant docket numbers; number of operating systems)

Introduction. Telephone Subscriber Privacy 627

Table 80A. Telephone Subscriber Conversation Privacy 628

Table 80B. Telephone Subscriber Conversation Privacy - Part II 631

Table 81A. Telephone Subscriber Records Privacy 635

Table 81B. Telephone Subscriber Records Privacy - Part II 638

Introduction. Telephone Directory Assistance Charges 641

TABLE OF CONTENTS

Table 82. Telephone Directory Assistance Charges 642
(Charge per call, free calls, handicapped exemption, built-in charge prior to separate charge, % of subscribers billed for DA calls - residential, commercial - % DA calls have diminished, savings due to DA charges)

Introduction. Dial-It or 976 information Service 644

Table 83. Pay-Per-Call (976) Telephone Information Service 645

Table 84. Introduction. Agency Regulation of Telephone Directory Listing 647

Table 84. Agency Regulation of Telephone Directory Listing 648
(Yellow pages: contents, advertising rates and contents; white pages: contents, listing charges, charges for additional listing, etc.)

Table 85. Introduction 650

Table 85. Telephone Company Provision of Free or Reduced Rate Service to Its Employees 651
(Company, class of employee, amount and type of discount)

GLOSSARY OF TERMS. Simple explanations of terms and phrases used in utility and carrier regulation 906

SUBJECT INDEX 919

PART I

REGULATORY AGENCY PROFILES

Introductory Statement

Part I is presented in alphabetical order, by regulatory agency, with Federal agencies listed first and Canadian agencies listed last. It includes two major sections.

The first section contains the names and abbreviated biographies of the commissioners and names and titles of key staff members. This information is as current as it can be; most commissioner information is current as of the Summer of 1989. An organization chart is included for most agencies. This section also contains summaries of agency receipts and expenditures, volume of proceedings and complaint tabulations when this information is provided by the individual agencies.

The second section includes each agency's history, the qualifications a person must have to hold the office of commissioner, and the grounds and procedure for the removal of a commissioner from office. It also sets forth the agency practice and procedure, staff recruitment policy, and summarizes fringe benefits.

FEDERAL COMMUNICATIONS COMMISSION

Headquarters - 1919 M Street, NW, Washington, DC 20554, Area Code (202), Information: 632-7000, FAX (202) 653-5402

Regional Offices

Atlanta Region: Massell Bldg., Room 433, 1365 Peachtree St., NE, Atlanta, Georgia 30309. Telephone: (404) 347-7070
Boston Region: NFPA Building, Batterymarch Park, Quincy, Massachusetts 02169. Telephone: (617) 770-4325
Chicago Region: Park Ridge Office Center, Room 306, 1550 Northwest Highway, Park Ridge, Illinois 60068. Telephone: (312) 353-0368
Kansas City Region: Brywood Office Tower, Room 320, 8800 East 63rd Street, Kansas City, Missouri 64133. Telephone: (816) 926-5179
San Francisco Region: 211 Main Street, Room 537, San Francisco, California 94105. Telephone: (415) 974-0702
Seattle Region: One Newport, Room 414, 3605 132nd Ave., SE, Bellevue, Washington 98006. Telephone: (206) 764-3324

COMMISSIONERS

Commissioners appointed by the President and confirmed by the Senate for five-year staggered terms.

Jurisdiction: Radio and television broadcasting; telephone, telegraph and cable television operation; two-way radio and radio operators; and satellite communication.

Alfred C. Sikes, Chairman, 632-6600, Room 814: Republican; born December 16, 1939, in Sikeston, Missouri; Westminster College (BA), University of Missouri (LLB); Assistant Secretary of Commerce and Administrator, National Telecommunications and Information Administration (NTIA) at Department of Commerce (1986-89), President of Sikes and Associates, Inc. (1978-86), Officer of various radio stations (1977-78), Director Missouri Department of Consumer Affairs, Regulations & Licensing (1973-76), Director Missouri Department of Consumer Affairs (1973-74), Director Transition Government of Governor-Elect Bond (1972-73), Assistant Attorney-General State of Missouri (1969-72), Campaign Manager for Attorney General John C. Danforth Senate race (1970), attorney, Allen, Woolsey and Fisher (1964-68); assumed Commissionership August 9, 1989, current term ends June 30, 1993.

James H. Quello, Commissioner, 632-7557, Room 802: Democrat; born April 21, 1914, in Laurium, Michigan; Michigan State University (BA): newscaster, Remington-Rand salesman, U.S. Army officer in World War II, broadcasting official, civic activist; assumed Commissionership April 30, 1974, current term ends June 30, 1991; married (Mary Elizabeth), two sons.

Andrew C. Barrett, Commissioner, 632-7116, Room 844; Republican; born April 14, 1942, in Chicago, Illinois; Loyola University of Chicago (BA, MA), DePaul University (JD); Commissioner, Illinois Commerce Commission (1980-89), Assistant Director of Illinois Department of Business and Economic Development (1979-80), Director of Operations Illinois Law Enforcement Commission (1975-79), Associate Director Chicago NAACP (1971-75), Associate Director National Conference of Christians and Jews (1968-71), assumed Commissionership September 1989, current term ends June 30, 1990.

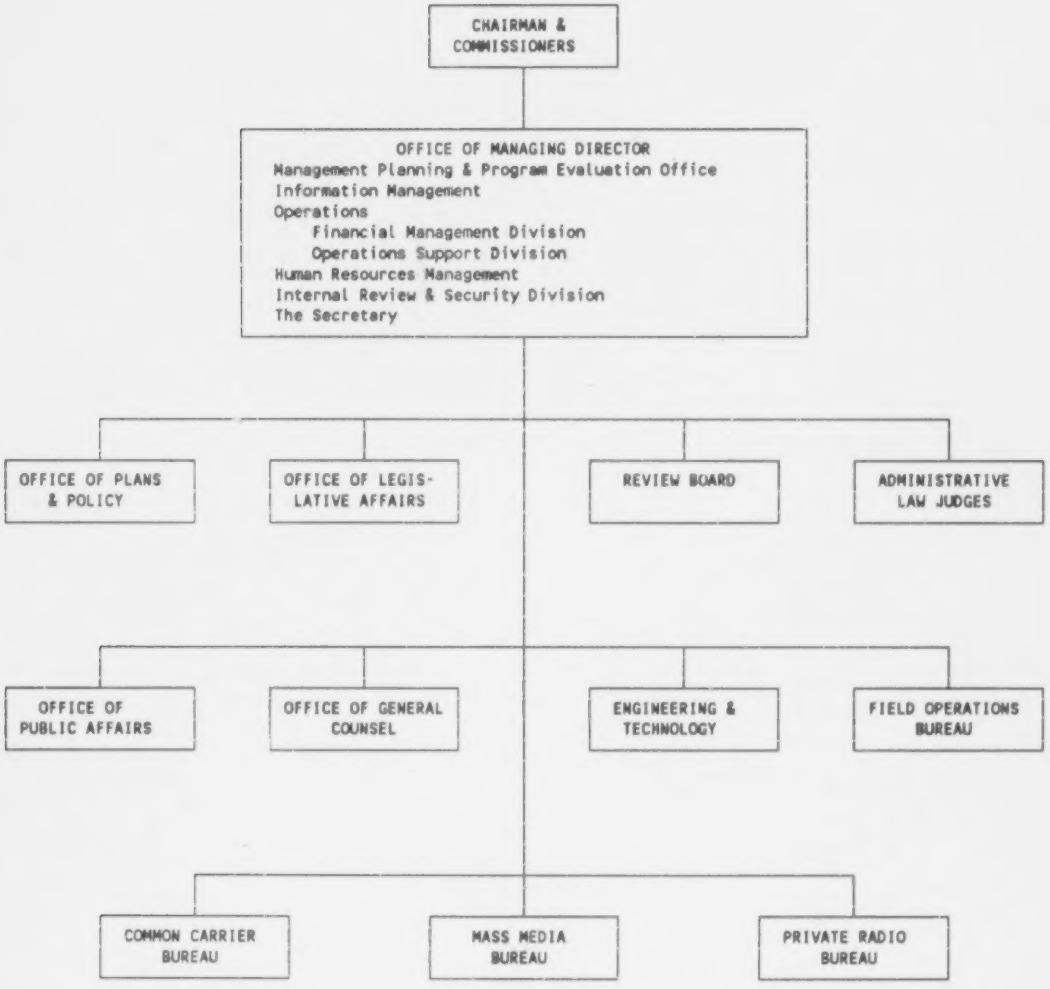
Vacant.
Vacant.

KEY PERSONNEL - Effective 1989

Vacant, Managing Director	632-6390
Donna Searcy, Secretary	632-6410
John F. Kamp, Dir. Office of Public Affairs	632-5050
John Haring, Chief, Office of Plans and Policy	632-5940
Thomas Spavins, Dep. Ch., Off. of Plans & Policy	632-5940
Joseph A. Marino, Chairman, Review Board	632-7180
Thomas B. Fitzpatrick, Chief Judge, Office of Administrative Law Judges	632-7680
Diane S. Killory, General Counsel	632-7020
J. Gregory Sidak, Deputy General Counsel	632-7020
Thomas P. Stanley, Chief Engineer, Office of Engineering and Technology	632-7060
Gerald W. Brock, Chief, Common Carrier Bureau	632-6910
Gerald P. Vaughan, Deputy Common Carrier Bureau Chief (Operations)	632-6910
Carl D. Lawson, Deputy Common Carrier Bureau Chief (Policy)	632-6910
Kenneth P. Moran, Chief, Accounting and Audits Division, Common Carrier Bur.	634-1861
James R. Keegan, Ch., Domestic Facil. Division	634-1860
John Cimko, Jr., Chief, Tariff Division	632-6387
Judy A. Nitsche, Chief, Tariff Review Branch	632-5550
Gregory J. Vogt, Chief, Mobile Services Division	632-6400
Peyton Wynns, Chief, Industry Analysis Division	632-0745
Thomas Sugrue, Ch., Pol./Program Planning Div.	632-9342
Cynthia L. Work, Dep. Ch., Pol./Prog. Plng. Div.	632-9342
Mary Beth Hess, Chief, Enforcement Division	632-4890
Peter K. Pitsch, Chief of Staff, Office of the Chairman	632-6600
John Camp, Acting Director, Office of Legislative Affairs	

FEDERAL COMMUNICATIONS COMMISSION
(Continued)

ORGANIZATION CHART
December 1988



FEDERAL COMMUNICATIONS COMMISSION
(Continued)

RECEIPTS AND EXPENDITURES
Summary of Receipts and Expenditures as of Fiscal Year ended September 30, 1988

Receipts		
General Fund Appropriations		99,913,000
Expenditures		
Compensation and Benefits		77,748,000
Travel and Transportation of Persons		895,000
Transportation of Things		187,000
Rents, Communications, Utilities		13,276,000
Printing and Reproduction		944,000
Other Services		3,610,000
Supplies and Materials		1,019,000
Equipment		2,104,000
Land, Buildings, Structures		93,000
Insurance Claims and Indemnities		37,000
	Total	99,913,000

COMPLAINTS

Complaint Tabulation for the Year Ended December 1988

Informal complaints regarding telephone/telegram carriers, informal comments and inquiries		30,078
Formal complaints		152
Pole attachment complaints		23
	TOTAL	30,253

FEDERAL ENERGY REGULATORY COMMISSION

Main Office: 825 North Capitol Street NE, Washington, DC 20426, Area Code (202) Public Information: 357-8118, FAX 357-8406, Bulletin Board 357-8997

Jurisdiction: Electric utilities and licenses (private), electric (public-Federal Power Marketing agencies, confirmation and approval authority), Interstate natural gas (private) and Interstate oil pipelines (carriers).

FERC Regional Offices

Atlanta: Regional Director, 730 Peachtree Street, N.E., Room 800, Atlanta, Georgia 30308. (404) 347-4134
Chicago: Regional Director, 230 South Dearborn Street, Room 3130, Chicago, Illinois 60604. (312) 353-6173
New York: Regional Director, 201 Varick Street, Room 664, New York, New York 10014. (212) 337-2609
Portland: Regional Director, 1120 South West Fifth Avenue, Suite 1340, Portland, Oregon 97204. (503) 294-5840
San Francisco: Regional Director, 901 Market Street, 3rd Floor, San Francisco, California 94103. (415) 974-7150

COMMISSIONERS

Commissioners appointed by the President and confirmed by the Senate for four-year staggered terms.

Martha O. COMPLAINTS

One of the functions of this Commission is the investigation of informal complaints and inquiries from consumers on utility and transportation service and billings. The majority of these complaints and inquiries are received by telephone, and resolved and disposed of wherever possible.

Service interruption reports are prepared by the utilities for all interruptions of service of more than one minute duration and submitted to the Commission for review on a regular basis. These interruptions occur from causes within the control of the utility company system such as failure or malfunction of equipment or from causes beyond the control of the utility such as storms, flood, earthquake, etc.

RECEIPTS AND EXPENDITURES

Summary of Receipts and Expenditures Administered by Nevada PSC, Fiscal Year Ended June 30, 1988

Receipts:		Expenditures	
Mill Levy *	$3,716,466	Salaries and Payroll	$4,088,947
		Out-of-state Travel	20,939
Other Receipts:		In-state Travel	139,897
Highway	1,725,027	Total Operating Expenses	605,781
Other	121,733	Equipment	156,708
Reserve	282,270	Expert Consultants	97,602
		Training	29,161
Total	$5,280,956	Data Processing	141,920
		Total	$5,280,956

* The maximum mill levy is set by the State Legislature and currently is 4.25 mills per dollar, which is 0.425 percent of utility gross revenue. By state statute, the maximum allocation to the Commission is 3.50 mills. The remainder (0.75 mills) is the maximum funding allowed for the Attorney General's Office of Advocate for Customers of Public Utilities. The PSC and the Office of Consumer Advocate can adjust their portion of the mill levy as long as the statutory cap is not exceeded. During the 1987-88 fiscal year, the Commission assessed 3.5 mills to fund its operation. Other funding sources include balances forward (reserves) from the previous fiscal year, a $36 annual fee levied on each taxicab and tow truck under PSC jurisdiction, application and filing fees, and minimal federal grants for gas pipeline safety and railroad safety.

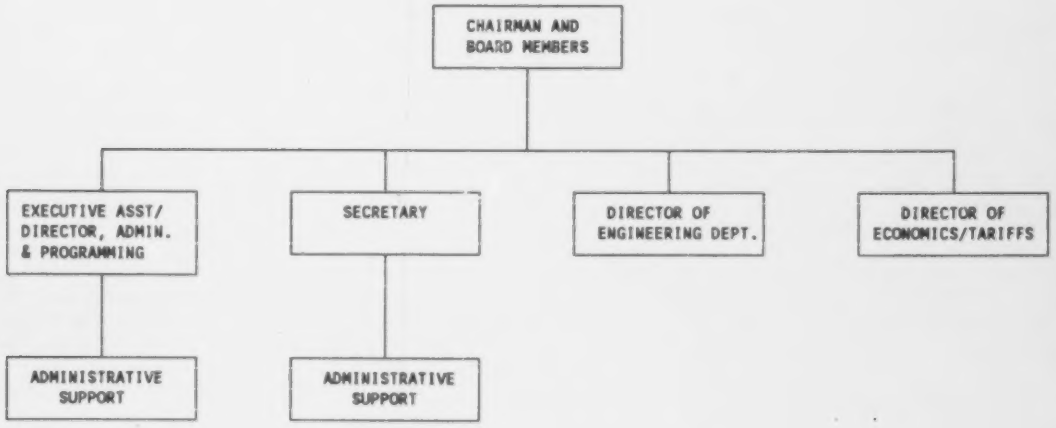
From June 30, 1987 to June 30, 1988, in telephone matters, 51 decisions were rendered in summary proceedings and the Board only acknowledged the receipt of 98 other filings in summary proceedings. During that period, 136 proceedings were instituted under the summary procedure. On June 30, 1988, eight summary proceedings were still pending.

COMPLAINTS

The Quebec Telecommunications Board reported a total of 658 telephone complaints for year ended December 31, 1988, as follows: Service - 271; Tariff - 59; Billing - 328.

ORGANIZATION CHART



AGENCY HISTORY

Significant events of the member agency histories are reflected below in alphabetical order with Federal agencies listed first and Canadian agencies last.

FEDERAL COMMUNICATIONS COMMISSION

Prior to 1934, jurisdiction over wire and radio communications was handled, at various times, by the Department of Commerce, Post Office Department, Interstate Commerce Commission and the Federal Radio Commission. Technological developments and broadcasting interference necessitated coordination of these regulatory functions in a single agency.

The Communications Act of 1934, signed June 19, 1934, created the Federal Communications Commission for that purpose. A major purpose of the Communications Act of 1934 was "to make available, so far as possible, to all the people of the United States a rapid, efficient, nation-wide, and world-wide wire and radio communication service with adequate facilities at reasonable charges..." The Commission was assigned additional regulatory jurisdiction under the provisions of the Communications Satellite Act of 1962, which provided for the establishment, in cooperation with other countries, of a commercial communications satellite system as part of an improved global communications network.

The scope of the Commission's regulatory activities include radio and television broadcasting; telephone, telegraph, and cable television operation; two-way radio and radio operators; and satellite communication.

FEDERAL ENERGY REGULATORY COMMISSION

The Federal Energy Regulatory Commission (Commission) was established by the Department of Energy Organization Act (Act), which was enacted on August 4, 1977. **(Public Law No. 95-91, 91 Stat. 565)**. The effective date of the provisions of the Act was prescribed as October 1, 1977 by Executive Order No. 12009, signed by the President on September 13, 1977. **(42 FR 46267**, September 15, 1977). The Act created the Federal Energy Regulatory Commission as a five-member independent regulatory commission within the Department of Energy.

The authority and jurisdiction of the Commission is set forth in **§§ 401, 402, 403, 404, 406, 407, 503 and 504** of the Act. These functions are listed below. The Secretary of Energy, on October 1, 1977, delegated and assigned to the Commission certain powers, authorities and responsibilities as set forth below.

Functions of the Federal Energy Regulatory Commission

1. The investigation, issuance, transfer, renewal, revocation, and enforcement of licenses and permits for the construction, operation, and maintenance of dams, water conduits, reservoirs, powerhouses, transmission lines, or other works for the development and improvement of navigation and for the development and utilization of power across, along, from, or in navigable waters under Part I of the Federal Power Act;

2. The establishment, review, and enforcement of rates and charges for the transmission or sale of electric energy, including determinations on construction work in progress, under Part II of the Federal Power Act, and the interconnection, under §202(b), of such Act, of facilities for the generation, transmission, and sale of electric energy (other than emergency interconnection);

3. The establishment, review, and enforcement of rates and charges for the transportation and sale of natural gas by a producer or gatherer or by a natural gas pipeline or natural gas company under **§§1, 4, 5, and 6** of the Natural Gas Act;

4. The issuance of a certificate of public convenience and necessity, including abandonment of facilities or services, and the establishment of physical connections under section 7 of the Natural Gas Act;

5. The establishment, review, and enforcement of curtailments, other than the establishment and review of priorities for such curtailments, under the Natural Gas Act;

6. The regulation of mergers and securities acquisitions under the Federal Power Act and the Natural Gas Act;

7. The authority to exercise any power under (a) **§§4, 301, 302, 306 through 309 and 312 through 316** of the Federal Power Act, and (b) **§§8, 9, 13 through 17, 20, and 21** of the Natural Gas Act to the extent the Commission determines such power to be necessary to the exercise of any function within its jurisdiction;

AGENCY HISTORY

FEDERAL ENERGY REGULATORY COMMISSION
(Continued)

8. The establishment of rates or charges for the transportation of oil by pipeline or the establishment of the valuation of any such pipeline, under the Interstate Commerce Act (**49 USC §1, et seq.**), as amended, and the Trans-Alaska Pipeline Authorization Act (**Pub. L. 93-135**);

9. The jurisdiction to consider any proposal by the Secretary of Energy to amend any regulation required to be issued under **§4(a)** of the Emergency Petroleum Allocation Act of 1973 which is required by **§8 or 12** of such Act to be transmitted by the President to, and reviewed by, each House of Congress, under **§551** of the Energy Policy and Conservation Act, except in the event that the President determines that an emergency situation of overriding national importance exists, as provided in **§402-(c)(2)** of the DOE Act;

10. The jurisdiction to hear and determine any matter arising under any function of the Secretary of Energy involving any agency determination required by law to be, or which the Secretary determines shall be, made on the record after an opportunity for agency hearing, **except** for those functions of the Secretary under **§§105 and 106** of the Energy Policy and Conservation Act and except for the authority of the Secretary to regulate the exports and imports of natural gas or electricity unless the Secretary assigns such a function to FERC;

11. The authority to prescribe rules, regulations, and statements of policy of general applicability with respect to any function under the jurisdiction of FERC pursuant to **§402** of the DOE Act;

12. The authority to prescribe such procedural and administrative rules as necessary to the exercise of its functions;

13. The powers authorized by the law under which the FERC's functions are exercised to holding hearings, sign and issue subpoenas, administer oaths, examine witnesses, and receive evidence;

14. The authority to consider and take final action on any rules, regulations, and statements of policy of general applicability respecting any function within the jurisdiction of the FERC under **§402** of the DOE Act proposed by the Secretary pursuant to **§403(a)** of the DOE Act;

15. The consideration of any rule, regulation, or statement of policy of general applicability proposed by the Secretary of Energy in the exercise of any function transferred to the Secretary by **§301 or §306** of the DOE Act, for the purpose of providing an opportunity for public comment on such rule, regulation, or statement of policy should the Commission determine that the proposed action may significantly affect any function within the jurisdiction of the Commission and issuance of a recommendation on the proposed action to the Secretary;

16. The jurisdiction to review remedial orders issued by the Secretary, when the person receiving the order has notified the Secretary he intends to contest such order, and to issue and order, based upon findings of fact, affirming, modifying, or vacating the remedial order, or directing other appropriate relief; and the authority, upon receipt of notice from the Secretary that the remedial order will be contested, to stay the effect of the remedial order unless FERC finds that the public interest requires immediate compliance with such remedial order; and

17. The jurisdiction to review and to issue such orders as may be necessary or appropriate with respect to a denial of a request for adjustment under **§504(a)** of the DOE Act.

Delegations and Assignments to the Federal Energy Regulatory Commission from the Secretary of Energy

1. Part I of the Federal Power Act (**Pub. L. 280, 66th Cong., 2d Sess.**), to the extent that such authority is not transferred to, and vested in, FERC by **§402(a)(1)(A)** of the DOE Act, **provided** that this paragraph does not delegate functions under (i) **§4(a)** of the Federal Power Act as it relates to river basin appraisals and (ii) **§24** of the Federal Power Act as it relates to the disposition of power site lands;

2. Section 203 of the Federal Power Act (relating to the disposition, merger or consolidation of facilities and the acquisition of securities);

3. Section 204 of the Federal Power Act (relating to the issuance of securities and the assumption of liabilities);

AGENCY HISTORY

FEDERAL ENERGY REGULATORY COMMISSION
(Continued)

4. Section 206(b) of the Federal Power Act (relating to the investigation and determination of the cost of production or transmission of electric energy), as FERC determines appropriate to perform its vested or delegated functions;

5. Section 207 of the Federal Power Act (relating to adequate and sufficient interstate service);

6. Section 209 of the Federal Power Act (relating to use of boards composed of State representatives and cooperation with State commissions);

7. Section 304 of the Federal Power Act (relating to annual and periodic or special reports), as FERC determines appropriate to perform its vested or delegated functions;

8. Section 305 of the Federal Power Act (relating to officers or directors benefiting from the sale of issued securities and to interlocking directories);

9. Section 311 of the Federal Power Act (relating to investigations regarding the generation, transmission, distribution, and sale of electric energy), as FERC determines appropriate to perform its vested or delegated functions;

10. Sections 1(b) and 1(c) of the Natural Gas Act (**Pub. L. 688, 75th Cong., 2d Sess.**) (relating to certain exemptions from the provisions of the Natural Gas Act;

11. Sections 3, 4, 5 and 7 of the Natural Gas Act, to the extent necessary to approve or disapprove the place of importation or exportation of natural gas (if the import or export involves construction of new pipeline facilities), to approve or disapprove the construction and operation of new pipeline facilities used to import or export natural gas that does not flow in interstate commerce, and to implement and regulate downstream sales and transportation of natural gas that the Administrator of the Department of Energy's Economic Regulatory Administration has authorized to be imported. Executive Order No. 10485, as amended, to approve the construction and operation of pipeline facilities at the international border of the US and a foreign country.

12. Section 5(b) of the Natural Gas Act (relating to the investigation and determination of the cost of production or transportation of natural gas), as FERC determines appropriate to perform its vested or delegated functions;

13. Section 10 of the Natural Gas Act (relating to annual and periodic or special reports), as FERC determines appropriate to perform its vested or delegated functions;

14. Section 12 of the Natural Gas Act (relating to officers or directors benefiting from the sale of issued securities);

15. Section 19 of the Natural Gas Act (relating to rehearing on orders);

16. The Interstate Commerce Act (**49 U.S.C. §1, et seq.**) and other statutes which formerly vested authority in the Interstate Commerce Commission or the Chairman and members thereof, as such statutes re-late to the transportation of oil by pipeline, to the extent that such statutes are not transferred to, and vested in, FERC by §402(b) of the DOE Act, **provided** that this paragraph does not include any of the authority under §11 of the Clayton Act (**15 USC §21**);

17. To issue orders, and take such other action as may be necessary and appropriate, to direct the Energy Information Administration to gather energy information pursuant to the Federal Energy Administration Act of 1974 or the Energy Supply and Environmental Coordination Act of 1974 to the extent necessary or appropriate to the exercise of regulatory functions vested in or delegated to the Federal Energy Regulatory Commission; and

18. The authority to take such other action as the Secretary or his authorized delegates may, from time to time, authorize.

Additional Duties and Responsibilities of FERC Resulting From 1978 Congressional Legislation

The Natural Gas Policy Act of 1978 authorized FERC to regulate sales, transmission and distribution of Natural Gas. The Natural Gas Policy Act expands FERC jurisdictional scope to encompass not only sales of gas made in interstate commerce

AGENCY HISTORY

FEDERAL ENERGY REGULATORY COMMISSION
(Continued)

but in intrastate commerce as well. Section 101(b)(9) of the NGPA sets ceiling prices for the sale of natural gas. FERC is directed to administer essentially all of the NGPA and is authorized to perform any and all acts to prescribe and issue such rules and orders as it finds necessary to carry out the NGPA.

Section 605 of the Public Utilities Regulatory Policies Act of 1978 authorized FERC to prescribe by rule the methods of measuring volumes of natural gas as it applies to curtailment plans for high priority and conservation entitlements.

Section 401 of the Natural Gas Policy Act of 1978 empowered the Secretary of Energy with the authority to prescribe a rule for the prohibition of curtailments of an interstate pipeline to essential agricultural and high priority users. Section 403 of the NGPA identifies FERC as the agency who shall establish, review and enforce curtailment procedures under NGPA. FERC enacted **§§281.201 through 281.215** to implement **§401** of NGPA.

Section 103(a)(18)(D) of the Powerplant and Industrial Fuel Use Act of 1979 directs FERC to prescribe rules under which a powerplant's design capacity may be determined for peak load, intermediate and base load powerplants. FERC established powerplants design capacity in Order No. 37, issued June 28, 1979.

Section 731(b)(2) of the Powerplant and Industrial Fuel Use Act of 1978, authorized FERC to establish by rule, guidelines for the application on a regional and national basis of the criteria specified in subsection (e)(1) to determine the maximum consideration permitted as just compensation for the transfer of contractual rights under **§731.**

Section 731(a)(2) states that any person who would have transported or distributed natural gas subject to a contract with respect to which contractual interest are transferred shall be entitled to just compensation to be determined by FERC.

Section 731(b)(2) allows a person transferring contractual rights to agree to certain consideration to be paid for transfer and certify such consideration to FERC.

Section 731(b)(3) orders the FERC to prescribe the amount of or methods of determining which consideration when parties fail to agree on just consideration in transferral of contractual rights.

Section 731(b)(4) authorized FERC to approve agreed upon consideration which exceeds the guidelines if FERC determines the agreed upon consideration does not exceed the maximum consideration permitted as just compensation.

Section 731(b)(5) directs FERC not to order refunds for agreed upon consideration under paragraph (2) if the consideration exceeds the consideration determined by the guidelines unless;

(A) Agreed upon consideration was fraudulently established;
(B) The processing of the Request for approval of such agreed upon consideration was willfully delayed by a party to the transfer; or
(C) Such agreed upon consideration exceeds the maximum consideration permitted as just compensation under **§731.**

Section 202 of the Public Utilities Regulatory Policies Act of 1978 (PURPA) added **§210** of the Federal Power Act (FPA) which permits FERC to order physical interconnections between applicants and electric utilities.

Section 203 of PURPA added **§211** of the FPA which gave FERC authority to order wheeling of electrical power if it is (1) in the public interest; (2) would (A) conserve energy; (B) promote efficient use of facilities and resources; (C) improve the reliability of the electrical system; and (3) meets the requirements discussed below in **§212.**

Section 204 of PURPA added **§212** of the FPA which sets out general terms and conditions for issuing interconnection and wheeling orders under **§§210 and 211** of the FPA. Section 212 prohibits FERC from issuing an order under **§210 or 211** unless it makes certain findings as to the economic loss, burden, effects on reliability, and ability to render adequate service as a result of the order. FERC is prohibited from compelling the enlargement of generating facilities for purposes of an order under **§§210 and 211.** Section 212 also requires the applicant for an order under **§210 or §211** to demonstrate that he is ready, willing and able to reimburse the utility subject to the order for various costs incurred by the utility subject to the order. This provision identifies the procedures that FERC must follow in the determination of the terms and conditions under which the order will be carried out.

AGENCY HISTORY

FEDERAL ENERGY REGULATORY COMMISSION
(Continued)

Section 212 provides for limited jurisdiction to the Commission under the Federal Power Act for electric utilities subject to an order under §210 or §211 of the Act and not otherwise subject to FERC jurisdiction under part II of the Act.

Section 205 "Pooling" of PURPA authorizes the Commission on its own motion, and requires the Commission on application, to exempt electric utilities, where the circumstances specified in this section exist, from State laws, rules or regulations that prohibit or prevent voluntary pooling. No exemption is authorized where FERC finds that the law, regulation, or rule is required by the Federal law or is designed to protect public health, safety or welfare of the environment or conserve energy or mitigate emergencies resulting from fuel shortages. This prohibition would include State siting laws, regulations under the Clean Air Act, and zoning laws, among others. Second, this section requires an 18-month Commission study on pooling. Third, it authorized the Commission to recommend to electric utilities that they voluntarily negotiate to establish pooling arrangements where there is an opportunity through such an arrangement to conserve energy, to optimize the efficiency of use of facilities and resources, or to increase reliability.

Section 206 "Continuance of Service" of PURPA helps insure the continuity of service to customers of public utilities. Public Utilities are required to promptly report any anticipated shortages which would affect their capability to serve their wholesale customers, to submit contingency plans and to accommodate shortages (or circumstances which may result from such shortages) consistent with the provisions of this section. The phrase in paragraph (3)(A) of subsection (g) "give due consideration to the public health, safety, and welfare" is intended to convey the idea that contingency plans, if implemented should have a minimum adverse effect on the public health, safety, and welfare.

Section 207 "Consideration of Proposed Rate Increase" of PURPA amends the Federal Power Act to increase the number of days of notice that a public utility must provide to the Commission and the public prior to such public utility making any change in the rate schedule then in effect. It also requires that the Commission conduct a study of the legal requirements and administrative practices and procedures involved in the consideration of applications for proposed wholesale electric rate increases under the Federal Power Act. The Commission was required to report to the Congress regarding the results of its study within 9 months after the date of enactment.

Section 208 "Automatic Adjustment Clauses" of PURPA amends §205 of the Federal Power Act to require that, not less often than every 4 years, the Commission make a thorough review of automatic adjustment clauses in public utility rate schedules to examine whether or not each such clause effectively provides incentives for the efficient use of resources (including economical purchase and use of fuel and electric energy) and whether each clause reflects any cost other than those subject to periodic fluctuations and not

susceptible to precise determination in rate cases in individual rate proceedings or in separate proceedings. Since this is an amendment to part II of the Federal Power Act, these requirements apply only to the rates of public utilities which rates are subject to the jurisdiction of the Commission as provided in §201. If a public utility has both nonjurisdictional and jurisdictional rates, the amendment would still apply only to the jurisdictional rates of the utility.

Section 209 "Reliability" of PURPA requires the Secretary of Energy to study ways to improve the reliability of service to electrical consumers, to authorize the Secretary to recommend to the electric utility industry standards for reliability, and to require the Secretary, in his annual report, make recommendations concerning reliability of service to electrical consumers.

Section 210 "Cogeneration" and small power production requires that States and utilities follow rules which the Federal Energy Regulatory Commission was required to prescribe within one year after the date of enactment of this legislation.

Section 211 "Interlocking Directories" of PURPA amends §305 of the Federal Power Act by adding this section which requires any person who was an officer or director of a public utility, and who held the position of officer, director, partner, appointee, or representative of a utility holding company, investment banks, foreign banks, or subsidiary shall file a disclosure statement with FERC on or before April 30 annually.

Section 212 of PURPA, "Public Participation Before Federal Energy Regulatory Commission," amends the Federal Power Act by inserting a new section (designated 319) which creates the Office of Public Participation. The Director of the Office coordinates assistance to persons intervening or participating or proposing to intervene or participate in proceedings before the Commission. The Commission, by regulation, may also compensate intervenors for reasonable fees of attorneys and expert witnesses.

AGENCY HISTORY

FEDERAL ENERGY REGULATORY COMMISSION (Continued)

Section 213 "Conduct Hydroelectric Facilities" PURPA amends the Federal Power Act by adding §30 which requires the Commission to grant an exemption from any licensing or other requirements of part I of the Federal Power Act for any hydroelectric facilities using the hydroelectric potential of a manmade conduit on non-Federal lands if the installed capacity of the facility is not more than 15 megawatts. Such conduit must be operated for the distribution of water and for agricultural, municipal, or industrial consumption and not primarily for the generation of electricity.

Section 214 "Prior Action Effect on Other Authorities" is to ensure that the provisions of title II of PURPA and any amendments to other laws contained in title II, will operate prospectively and will not have a retroactive effect with respect to actions taken by the FERC before the date of enactment of this act. In addition, this section is intended to establish the policy that title II of PURPA serves to create authorities in addition to those established under other Federal law for the FERC and all other Federal agencies. Title II does not affect any existing authorities of the Commission or other Federal agencies under any other provision of law except as specifically provided therein.

Section 133 of Title I of PURPA "Gathering Information on Cost of Service" purpose is to require electric utilities to gather information (under rules prescribed by the Commission) which is necessary to determine the cost associated with providing electric service and to provide for the filing and publication of this information. Subsection (a) contains a list of four items the Commission is mandated to include in these rules, these items being basic to any determination with respect to the cost of providing electric service. These four items are not meant to be exclusive list of what the Commission could require to be gathered under these rules, but rather intended to be minimum requirements.

INTERSTATE COMMERCE COMMISSION

The Interstate Commerce Commission was created as an independent establishment by the act to regulate commerce on February 4, 1887 (24 Stat. 379, 383; 49 USC 1-22), now known as the Interstate Commerce Act. The Commission's authority has been strengthened and the scope of its jurisdiction has been broadened by subsequent legislation, such as the Hepburn Act, the Panama Canal Act, the Motor Carrier Act of 1935, the Transportation Acts of 1920, 1940, and 1958, the Regional Rail Reorganization Act of 1973, and the Railroad Revitalization and Regulatory Reform Act of 1976. However, beginning in 1980, Congress significantly contracted the Commission's regulatory controls with enactment of the Staggers Rail Act of 1980, the Motor Carrier Act of 1980, and the Intercity Bus Act of 1982.

ALABAMA PUBLIC SERVICE COMMISSION

The Alabama Public Service Commission was designated as such in 1915 by the Alabama Legislature. It evolved from the Railroad Commission of Alabama which had been created in 1881 to regulate railroads operating as common carriers for hire. Between 1881 and 1915, the Legislature gradually extended the Railroad Commission's jurisdiction to include regulation of express companies, sleeping car companies and railroad depot or terminal stations, telephone and telegraph companies, transportation companies operating as common carriers for hire by water, toll bridges, toll ferries, and toll roads.

In 1915, the Legislature changed the name of the Railroad Commission to the Alabama Public Service Commission and greatly increased its authority. The new Alabama Public Service Commission was charged with the regulation of the utilities providing electricity, gas, water, and steam companies operating streets or inter-urban railways, as well as all rail transportation and communications companies being regulated by its predecessor, the Railroad Commission. The new Public Service Commission's regulation of utilities included approving the sale or lease of utility property or franchises. In 1915, the Commission was composed of three elected members: a president and two associate commissioners.

The Commission's regulatory authority over the utilities was broadened and strengthened in 1920. The Legislature made the Commission responsible for the rates charged by the utilities and appropriated adequate funds to enable an effective exercise of increased regulatory authority.

As Alabama's highway system developed in the late 1920's, the operation of trucks and buses as common carriers increased greatly. In 1927, the Legislature placed all motor transportation companies operating as common carriers of freight or passengers for hire over regular routes or fixed termini on Alabama highways under the Commission's regulatory authority. The Legislature further broadened and strengthened the Commission's authority over the motor carriers in 1931 and 1932 by extending its jurisdiction to include motor carriers not operating over regular routes. The Commission's regulatory authority was further extended to include air carriers of persons or property for compensation in intrastate commerce in 1945.

AGENCY HISTORY

ALABAMA PUBLIC SERVICE COMMISSION
(Continued)

The Legislature placed all natural gas transmission and distribution systems under the Commission's jurisdiction for safety purposes in 1968. The Legislature adopted and authorized the Commission to enforce the Minimum Safety Standards outlined in the Natural Gas Pipeline Safety Act.

In 1971, the Commission's regulatory authority over motor carriers was further broadened and strengthened. Members of the Transportation Enforcement Division were delegated the powers of peace officers and deputy sheriffs to enforce the rules and regulations of the Commission. In 1971, radio common carriers were also placed under the Commission's regulatory authority. The Commission's safety jurisdiction was extended to include railroad tracks and equipment in 1976 when the Commission was certified to enforce the State Participation Program of the Federal Railroad Safety Act of 1970.

Legislation enacted in 1977 assigned the Attorney General's office the responsibility of representing the consumers and the State of Alabama in all proceedings before the Commission. Furthermore, legislation enacted in 1978 provided that appeals of Commission orders would be made directly to the Alabama Supreme Court.

ALASKA PUBLIC UTILITIES COMMISSION

The Alaska Public Utilities Commission (PUC), was initially created as the Alaska Public Service Commission (PSC) with jurisdiction over both public utilities and transportation (ch. 199 SLA 1959). Effective July 1, 1966, jurisdiction over transportation matters was vested in a separate body, the Alaska Transportation Commission. Subsequently, the PUC's original act was repealed and reenacted by ch. 113 SLA 1970, effective July 1, 1970, and resulted in creation of the PUC.

Originally, the PUC consisted of three members who were appointed by the Governor for six-year staggered terms, each seat with certain separate qualifications and education. In 1975, the PUC was increased to five members by the addition of two "consumer" seats.

In 1981, the PUC's act was again modified to include regulation of oil products pipeline regulation under AS 42.06 which previously had been under the jurisdiction of the Alaska Pipeline Commission (ch. 110 SLA 1981).

An earlier history of the PUC is contained in the 75th NARUC Annual Convention Proceedings, page 65 (1963), and 1973 NARUC Annual Report on Utility and Carrier Regulation, page 4.

ARIZONA CORPORATION COMMISSION

The Arizona Corporation Commission (ACC) was created by Article XV of the Arizona Constitution at statehood in 1912. It is composed of three Commissioners elected by the people for a six-year term, with one Commission seat standing for election every two years. In the case of a vacancy, the Governor appoints a Commissioner who must stand for election at the next general election to fulfill the unexpired term. The ACC is required to maintain its chief office at the State Capitol and must by statute meet in session at least once per month. (Current hearing schedules require almost daily sessions).

The ACC's constitutional jurisdiction has remained static since Statehood, although at various times its specific responsibilities pursuant to jurisdiction has been expanded and contracted by both legislative action and by the courts.

A change in the basic jurisdictional areas of the ACC would require a constitutional amendment which must be ratified by a vote of the people at a general election. Several attempts to do so have failed to achieve voter ratification.

Motor Transportation Division: By law and referendum, the regulated carrier's function (all public common carriers) was deregulated effective July 1, 1982. The Commission continues to regulate railroad safety. One-way radio paging was deregulated by Commission order, effective June 1, 1985.

ARKANSAS PUBLIC SERVICE COMMISSION

The Arkansas Public Service Commission (PSC or Commission) regulates 87 public utilities which provide electric, gas, telephone and water services to Arkansas consumers. These utilities generate annual jurisdictional revenues exceeding $3 billion.

The PSC was created by the General Assembly which delegated to the Commission the power to regulate the service and rates of those utilities subject to its jurisdiction. The Commission's primary duties are to allow each utility to charge rates which

AGENCY HISTORY

ARKANSAS PUBLIC SERVICE COMMISSION
(Continued)

will allow it to earn a fair return on its investment and to likewise ensure that the public does not pay more than necessary to provide a fair return to the utility. The current delegation of legislative authority to the PSC is the product of legislative evolution.

In 1899, acting pursuant to an amendment to **Ark. Const. Art. 17, §10**, the legislature created the Arkansas Railroad Commission. Though relating only to railroads and express companies, the act creating the Railroad Commission charged it with the duty to ensure that rates were just and reasonable. Since then, this has been the cornerstone duty of the PSC. Likewise, the duty to file an annual report originated with the 1899 Act, as did the Commission's obligation to hear complaints from the public about rates.

In 1919, the Arkansas Corporation Commission was created as the successor to the Railroad Commission. Its regulatory powers were extended to services and facilities and its jurisdiction was enlarged to include regulation of telegraph and telephone companies; pipeline companies for the transportation of oil, gas and water; gas companies; electric lighting companies; hydro-electric companies for the generation and transmission of light, heat or power; and water companies, furnishing water. This enlarged jurisdiction was in addition to the transfer of the Corporation Commission's jurisdiction over railroads and express companies. Additionally, the Corporation Commission was given authority over new construction and additions to plant by the requirement that "certificates of convenience and necessity" be obtained for such construction.

In 1921, the Corporation Commission was abolished and the Railroad Commission was recreated. In doing so, the Corporation Commission's original jurisdiction over utilities operating within the limits of any municipality was removed and that regulatory jurisdiction was placed with the municipalities.

In 1933, the Arkansas Corporation Commission was reestablished and vested with the powers of several other commissions, including the Railroad Commission, which were abolished.

A comprehensive 1935 act created the Department of Public Utilities within the Arkansas Corporation Commission and transferred the Corporation Commission's powers over utilities to the Department. Since the adoption of this act, regulated utilities have paid an annual fee based on gross earnings to finance the PSC's operations. The 1935 act also gave the Department and municipalities concurrent and original jurisdiction over public utilities operating within the limits of a municipality and authorized municipalities to extend service into contiguous rural territory and to set rates for such service subject to the Department's approval.

In 1937, electric cooperatives were exempted from Department jurisdiction in all respects except that such cooperatives were required to obtain a certificate of convenience and necessity from the Department before constructing or operating any equipment or facilities for supplying electric service in rural areas.

In 1945, the Arkansas Corporation Commission was renamed the Arkansas Public Service Commission and vested with the authority and powers of the Corporation Commission and the Department of Public Utilities, which was abolished.

In 1951, telephone cooperatives were made subject to PSC regulation to the same extent as telephone companies and allocated territories for telephone companies were established by reference to then existing service areas. Similarly, in 1957, the legislature provided explicit protection for territories allocated to electric cooperatives pursuant to a certificate of convenience and necessity.

Also in 1957, the powers and duties of the Arkansas Public Service Commission, with respect to transportation by air, rail, water, carrier pipelines and motor carriers, were transferred to the Arkansas Commerce Commission, which was renamed the Arkansas Transportation Commission in 1971. Since this separation, the PSC's activities have primarily been limited to regulating jurisdictional utilities and that jurisdiction has been subsequently altered at various times by the legislature.

In 1967, the legislature made electric cooperatives subject to PSC regulation in the same manner as public utilities and provided for PSC allocation of territories for electric public utilities, just as it had earlier provided allocated territories for electric cooperatives. Twenty years later, in 1987, the legislature reduced PSC jurisdiction over rural electric distribution cooperatives by providing that such cooperatives are not subject to PSC rate case procedures except under certain circumstances.

In the 1971 reorganization of state government, the Arkansas Public Service Commission was transferred to the Department of Commerce and located in the Division of Utilities and Transportation. The PSC retained its powers, authorities, duties and functions, however its budgeting, purchasing and related management functions were placed under the supervision of

AGENCY HISTORY

ARKANSAS PUBLIC SERVICE COMMISSION
(Continued)

the Director of the Department of Commerce.

In 1977, the General Assembly restored exclusive rate making jurisdiction to the PSC except for utilities owned or operated by municipalities. A 1985 enactment extended that exception by specifically exempting from PSC regulation the municipal rates and rules for rural electric service. This same act also effectively exempted any municipal service or commodity from any PSC regulation, with the exception of the Commission's authority under a 1971 act to regulate and inspect the natural gas pipeline facilities of municipal gas utilities.

In 1983, the Department of Commerce was abolished and the Arkansas Public Service Commission was restored to its status as an independent state agency and was authorized to function as it had prior to its 1971 transfer to the Department of Commerce.

In 1987, small water and sewer utilities were removed from PSC jurisdiction. The next year, the legislature created an exception to that exclusion by providing that some water companies could voluntarily submit to PSC jurisdiction is certain conditions were satisfied.

ARKANSAS TRANSPORTATION SAFETY AGENCY

The Arkansas Commerce Commission was created by the General Assembly of the State of Arkansas March 27, 1957 to succeed the Transportation Division of the Arkansas Public Service Commission. By Act 38 of 1971, the name of the agency was changed to the Arkansas Transportation Commission (ATC); in 1987 it was replaced by the Transportation Safety Agency.

The TSA is both a court and an administrative agency. It may take testimony in the same manner as a court, issue decisions and orders. The TSA's major duty is to regulate transportation; railroads, intrastate common carriers and intrastate contract motor carriers. In addition, innumerable matters are informally processed; investigations and studies, informal complaints handled, records maintained, and work done on a cooperative basis with other State departments.

It has three Commissioners appointed by the Governor. One acts as Chairman. These members are appointed with consent of the Senate. The terms of the Commissioners are staggered. The General and

Administrative Division consists of the Commissioners, Attorney, Director, Rate Analyst, Chief Enforcement Officer, Assistant Chief Enforcement Officer, Court Reporter, Secretary to the Commission and Stenographers. The TSA operates wholly from funds derived from fees, assessments and various enterprises regulated.

Effective July 1, 1987, the Arkansas Transportation Commission was abolished and all its responsibilities transferred to the Arkansas Transportation Safety Agency. The three full-time Commissioners were replaced by a part-time Regulatory Board. No changes were made in regulatory jurisdiction.

CALIFORNIA PUBLIC UTILITIES COMMISSION

The California Public Utilities Commission (PUC) formerly the California Railroad Commission, was created by constitutional amendment in 1911. Implementing the legislation, which clarified its duties and powers, became effective in 1912. The PUC's jurisdiction was extended from time to time; and all this legislation was codified in the Public Utilities Code, effective in 1951.

The PUC consists of five members, appointed by the Governor with consent of the Senate, for terms of six years. One of the five is elected annually as president by his fellow commissioners.

The PUC is a quasi-legislative and quasi-judicial body. It may take testimony in the same manner as a court; issue decisions and orders. It has the power to cite for contempt and it has power of subpoena.

The PUC has regulatory responsibility of the rates, service, financing and safety of utilities.

The PUC regulates the rates and services of more than 1,500 privately-owned utilities and transportation companies. These include gas, electric, water, telephone and telegraph companies, railroads, buses, trucks, airlines and vessels transporting passengers or freight in intrastate commerce, warehousemen, wharfingers and pipeline companies. There are, in addition, more than 18,000 highway carriers with permits to transport property for the public.

AGENCY HISTORY

CALIFORNIA PUBLIC UTILITIES COMMISSION
(Continued)

Rate regulation is based on a reasonable rate of return according to a rate base premised on the original cost, less depreciation.

The PUC has been given safety jurisdiction over certain publicly-owned transit districts, such as BART, by the legislature.

COLORADO PUBLIC UTILITIES COMMISSION

Regulation of public service companies in the State of Colorado dates from 1885, when a Railroad Commissioner was elected with very limited powers. In 1893, the Act creating the said office was abrogated by the Legislature. In 1907 the Legislature enacted the State Railroad Commission Act. This Act was attacked in the Courts and while the suit was pending in said Courts, the Act was repealed by the Legislature. In 1910 another Act was passed by the Legislature creating a State Railroad Commission of Colorado with three Commissioners. The 1910 Act was supplanted by the Public Utilities Act.

The Public Utilities Commission (PUC) was created by an Act of the Nineteenth General Assembly approved April 12, 1913, which gave jurisdiction to the PUC for the regulation and control of public utilities in Colorado. The Act also transferred to the PUC certain powers of the old Railroad Commission (1907 to 1913) relative to regulation of common carriers within the State.

Gradually, the functions of the PUC have been broadened by various Acts of the Legislature.

Jurisdiction over highway grade crossing was clarified and power granted the PUC to determine and prescribe the terms upon which separation of the expense of establishing or changing crossing should be made and the proportion of the expense to be assessed by the affected parties.

Power was granted to determine the need for construction of new facilities, plants or systems of public utilities and to issue certificates of public convenience and necessity therefor.

Jurisdiction was granted over: common carriers by motor vehicle for hire; private carriers by motor vehicle for hire; and commercial carriers by motor vehicle.

The PUC determined that it had jurisdiction over air carriers operating intrastate when transporting passenger and freight for hire as common carriers, and has assumed such jurisdiction.

The Thirty-Sixth General Assembly (1949) further extended the jurisdiction of the PUC to include the approval by it of the issuance of stocks, bonds, notes and other evidence of indebtedness by gas and electrical corporations.

The most difficult obstacle that confronted the PUC in effecting fair and uniform regulation of the utilities under its jurisdiction was the fact that there were fourteen home rule cities in the State that formerly regulated the utilities within their city limits. The PUC regulated all utilities of the State outside the city limits of the home-ruled cities. This resulted in fifteen different forms of regulation by the fifteen different agencies.

On November 2, 1954, an amendment to the Constitution of the State of Colorado was adopted by the people which provided the utilities of home-ruled cities would be under the jurisdiction of the PUC.

In 1961, the Legislature passed an Act providing that every cooperative electric association, or non-profit electric corporation or association, and every other supplier of electric energy, whether supplying electric energy for the use of the public or for the use of its own members, was declared to be affected with a public interest and to be a public utility and to be subject to the jurisdiction, control and regulation of the PUC. Colorado has been a member of the NARUC since 1940. Effective June 30, 1980, ash and trash carriers were removed from PUC jurisdiction.

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL

Effective July 1, 1980 the former Division of Public Utility Control became a department with the elimination of the super agency, the Department of Business Regulation, of which DPUC was a part for 18 months. The Division was the successor agency of the Public Utilities Control Authority (which now consists only of five member commissioners) which in turn succeeded the Public Utilities Commission on December 1, 1975. The Public Utilities Commission had been created by Legislative Act in 1911,

AGENCY HISTORY

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL
(Continued)

and in part succeeded the Office of Railroad Commissioners, which had been created in 1853.

The major duty of the DPUC is the regulation of public service companies and common carriers of property for hire. Jurisdiction over carriers of passengers for hire has been gradually transferred to the State Department of Transportation. Regulation of railroads was transferred January 1, 1979 by Public Act 77-614; DOT jurisdiction over buses and taxis was authorized by P.A. 79-610, effective October 1, 1979; P.A. 80-372, effective October 1, 1980, transferred to DOT authority for livery service.

Adequacy of service, reasonable and fair rates, disposition of assets, issuance of securities, consolidations and mergers, and safety of operations are the major factors of regulatory control exercised by the DPUC, as well as the entry into or abandonment of service.

The DPUC regulates the rates and service of 143 privately-owned electric, gas, water, telephone, telegraph, cable television, and pipeline companies. In addition, at the end of 1987 the DPUC had jurisdiction over more than 13,000 interstate and 585 intrastate motor carriers of property for hire. Effective July 1, 1989, all remaining authority over motor carriers was transferred to the Department of Transportation.

The Public Utilities Control Authority (PUCA) within the DPUC consists of five commissioners appointed by the Governor with the advice and consent of the General Assembly. The PUCA performs the quasi-judicial decision-making function of the Department of Public Utility Control, and is designated the department head.

The five commissioners were appointed for terms beginning July 1, 1979, two for six-year terms and three for four-year terms. All subsequent terms are for four years. The Chairperson and Vice Chairperson are elected in June of each year by fellow commissioners for terms commencing July 1. Not more than three members of the Authority in office at any one time shall be members of any one political party.

In addition to the PUCA, the DPUC is divided into several divisions: Administrative and Regulatory Operations, Adjudication and Utility Regulation and Research. Effective July 1, 1980, the Office of Consumer Counsel became a part of the DPUC for administrative purposes only.

DELAWARE PUBLIC SERVICE COMMISSION

The first board regulating utilities in Delaware was created by the General Assembly in 1911. Known as the "Board of Public Utility Commissioners", it consisted of three members who were appointed by the Mayor of the City of Wilmington and paid from the Treasury of the City of Wilmington. The Secretary or the Mayor of the City acted as the Secretary of the Board. The Board has supervision over all public utilities operating within the limits of the City and had appreciably the same duties and powers as the present Commission. This Board was superseded in 1949 when the present Public Service Commission (PSC) came into being.

The PSC as it is known today was created by the 115th General Assembly in June, 1949. Temporary offices of this new PSC were located in the Legislative Hall, and during March 1950 the PSC moved to the offices in the Old State House at Dover. During April 1975 the PSC moved to the offices it now occupies on South duPont Highway in Dover.

The PSC consists of five members, one from each county and no more than three of the same political party, who are appointed by the Governor with consent of the Senate for a term of five years. The appointments are arranged so that one term expires each year. Their salary is fixed by the State Legislature and paid by the State Treasurer. The PSC is required to have an office in Dover and Wilmington, and provide itself with a seal for the authentication of its Orders and proceedings. An Executive Director, as well as experts, technicians and other necessary personnel, is appointed by the PSC, which fixes all compensation, subject to the provisions of the State of Delaware Merit System.

The PSC is empowered to regulate and supervise the rates, property rights, equipment, facilities, service territories and franchises of public utilities in the State, which are defined to include every individual partnership, association, corporation, joint stock company, agency or department of the State, or any association of individuals engaged in the prosecution in common of a productive enterprise (commonly called a "cooperative") their lessees, trustees, or receivers appointed by any court whatsoever, that now operates or hereafter may operate, within the State, any steam, manufactured gas, natural gas, electric light, heat, power, water, telephone, excluding telephone service provided by cellular technology, or by domestic public land mobile radio service, or heating oil (for residential consumption directly to residences by means of a pipeline) service, system, plant or equipment, for

AGENCY HISTORY

DELAWARE PUBLIC SERVICE COMMISSION
(Continued)

public use. This power does not extend to any public utility that is municipally owned.

The powers of this PSC include the investigation concerning any matter involving a public utility not municipally owned. The PSC of Delaware has been a member of the NARUC since 1953.

DISTRICT OF COLUMBIA PUBLIC SERVICE COMMISSION

The Public Utilities Commission of the District of Columbia came into existence through the provisions of **§8 of Public Law No. 435 (62nd Congress, 3d Sess.)**, approved March 4, 1913. This law granted the powers and authority and imposed the duties of a Public Utilities Commission on the Commissioners of the District of Columbia. The Organic Act of the Commission designated the Corporation Counsel of the District of Columbia as the General Counsel of the Commission.

On March 31, 1913, the General Counsel of the Commission submitted a formal opinion designating the following utilities as those subject to the jurisdiction of the Commission: street railways, Washington Gas Light Company, Potomac Electric Power Company, Western Union Telegraph Company, The Chesapeake and Potomac Telephone Company, and taxicab companies.

By enactment of Public Law 88-503, the District of Columbia Securities Act, dated August 30, 1964, the name of the Public Utilities Commission was changed to the Public Service Commission (PSC).

The Commission regulates the operations of all utilities providing telephone, telegraph, gas and electric services within the District of Columbia, and establishes the rates for these services and taxicabs.

On January 28, 1986, the Mayor signed Bill 6-159, The District of Columbia Taxicab Act which excluded taxicabs from the definition of common carrier and created the District of Columbia Taxicab Commission. The law took effect in March 1987.

The Commission is composed of three Commissioners who are appointed by the Mayor with the advice and consent of City Council to four year terms. The Chairman is also appointed by the Mayor with the advice and consent of City Council and serves for the length of the designated Commissioner's term or until otherwise terminated by the Mayor. **DC Code, 1985, §43-401.**

In 1981, the Office of the General Counsel was established within the Commission. The General Counsel is appointed by and serves at the pleasure of the Commission and represents the Commission in all actions and proceedings. **DC Code, 1985, §43-405.**

The Office of the People's Counsel was established in 1981 to represent the residents of the District in all matters concerning the users of products and services furnished by public utilities. The People's Counsel is a party, as of right, in all actions and proceedings before the Commission and may conduct independent investigations to ensure that the interests of those it represents are adequately protected. **DC Code, 1985, §43-406.**

The Office of Securities was created in 1964 by the District of Columbia Securities Act. Its function is to supervise the licensing of brokers-dealers and their compliance with the provisions of the Securities Act. **DC Code, 1985, §43-406.**

On September 15, 1960, Congress approved Public Law 86-794 whereby the District of Columbia and the States of Maryland and Virginia were authorized to enter into a compact for the regulation and improvement of mass transportation in the Washington Metropolitan Area. The three signatories entered into such a compact on December 22, 1960, and the Washington Area Transit Commission was created; its duties were assumed on March 22, 1961, when regulatory authority over mass transportation operations, with certain limitations, within the Washington Metropolitan Area were transferred from the Public Utilities Commission to the new agency. A ruling by the Corporation Counsel of the District of Columbia made it clear that the enactment of Public Law 86-794 did not affect the duties of the Commission with respect to licensing under paragraph 31 of the License Act of 1932, as amended, or to motor vehicle fuel and real estate taxes under **§9 of Public Law 757, 84th Congress.**

In exercising its regulatory powers the PSC must be constantly aware of the necessity of providing the best utility service at fair and reasonable prices, consistent with good management and public requirement.

The PSC has been a member of the NARUC since 1913.

AGENCY HISTORY

FLORIDA PUBLIC SERVICE COMMISSION

The Florida Public Service Commission (PSC), originally called the Railroad Commission, was created in 1887, abolished in 1891 and re-established in 1897. In 1947, its name was changed to Florida Railroad and Public Utilities Commission which, in turn, was changed by Legislature of 1963 to Florida Public Utilities Commission and later to its present name.

Pursuant to revisions to Chapter 350, F.S. enacted by the 1978 Florida Legislature, effective January, 1979, the PSC consists of five members appointed by the Governor, subject to Senate confirmation, from a list recommended by the nine-member Florida Public Service Commission Nominating Council. Biennially one of the five is elected to serve as Chairman. The PSC is a charter member of the NARUC, having been represented at the organization meeting on March 5, 1889, by Commissioner William Hines.

Originally the scope of the PSC's jurisdiction was confined to the regulation of railroads, express companies and sleeping car companies, but over the years has been gradually extended to the broad jurisdiction which it now has. The regulation of certain types of boat lines was added and in 1911 telephone and telegraph companies became subject to regulation by the PSC. The power to fix schedules of tolls to be charged on public bridges and ferries were placed under the PSC's jurisdiction in 1929 and in the same year it commenced the regulation of motor carriers transporting freight or passengers for compensation. The 1949 Legislature added to the PSC's duties the responsibility of cooperating with the State Attorney General and local law enforcement officers in combating the use of telephone and telegraph lines in the dissemination of information for gambling purposes. In 1951, the PSC was given the power to regulate the rates and service of privately owned gas and electric utilities and in 1959 was charged with the duty of administering the gas piping systems safety code. In 1955, the licensing of those performing auto transportation brokerage services was brought under the PSC's jurisdiction. The 1959 Legislature enacted a law placing under regulation by the PSC privately owned water and sewer systems in counties in which the Boards of County Commissioners adopt resolutions declaring such systems in their respective counties to be subject to the regulatory law.

More recent enactments of the Legislature, relating to the authority of the PSC, are summarized below:

Florida Statutes Citation	Year Of Enactment	Subject
Ch. 364	1964	PSC vested with jurisdiction over Radio Common Carriers.
Sec. 366.041	1967	PSC empowered to consider quality of service in rate proceedings of all public utilities.
Ch. 67-358	1967	PSC vested with jurisdiction to regulate Freight Forwarders.
Ch. 67-319	1967	The enactment exempted motor common carriers of road-building and construction aggregates from rate regulation.
Ch. 67-476	1967	The enactment made urban household movers subject to PSC regulation by removing a previously enacted exemption.
Ch. 67-525	1967	Empowered PSC to adopt rules and regulations relating to sanitation and shelter affecting health and welfare of railroad employees. (See PSC Rule 25-3.125(8) of 6/12/74).
Ch. 72-374	1972	PSC authorized to regulate intrastate air transportation.
Sec. 323.15	1973	Road tax, assessments, and registration certificates of motor carriers were changed from fiscal year to calendar year to comply with Public Law 89-170.
Sec. 323.28	1965-1974	Requires interstate motor carriers (a) subject to ICC regulation and (b) those exempt from ICC regulation to obtain State certificate of registration.
Ch. 74-357	1974	Established "911" as emergency telephone number.
Ch. 74-195	1974	Created office of "Public Counsel" to represent general public in PSC proceedings.
Ch. 74-1976	1974	PSC empowered to develop a coordinated electric "Power Grid" within the State, and to have limited jurisdiction to approve territorial agreements between the regulated electric utilities, municipally owned utilities and REA utilities.
Ch. 86-173	1986	Gave PSC power to prescribe and enforce electric safety standards.

The PSC and its examiners hold public hearings in all parts of the State. In such hearings it is not as strictly bound by the rules of evidence as are Circuit Courts. It has the power to summons and require the attendance of witnesses, require the production of books and records, and levy fines. In fixing rates for the various utilities under its jurisdiction, it acts as an agent of the Legislature and its rules have the effect of law. The PSC's functions, therefore, are legislative, executive and judicial - combining in one single State agency all three primary functions of government.

Recent significant events include the 1980 Florida Legislature's decision to deregulate radio common carriers, motor carriers, private wires and intrastate air carriers. The 1980 Florida Legislature also divested the Commission of its own hearing examiners. Formal hearings are now conducted either by the Commission staff or by a hearing examiner from the Division of

AGENCY HISTORY

FLORIDA PUBLIC SERVICE COMMISSION
(Continued)

Administrative Hearings under Chapter 120, F.S., the Florida Administrative Procedures Act.

Pursuant to the Regulatory Sunset Act, **§11.51, Florida Statutes**, the 1985 Florida Legislature reviewed the need for continued State regulation of intrastate rail rates. The Legislature elected not to continue regulation and Commission authority to regulate intrastate rates expired October 1, 1985, with the Interstate Commerce Commission assuming jurisdiction.

GEORGIA PUBLIC SERVICE COMMISSION

The Georgia Public Service Commission (PSC) is one of the oldest regulatory commissions in the United States, having been created by the Act and Resolutions of the General Assembly of the State of Georgia in 1879 as the Railroad Commission of Georgia, thus antedating the creation of the Interstate Commerce Commission by eight years. The term of office was fixed at six years, which it is still and as early as 1907, the number of Commissioners to be elected by the voters of the State was increased from three to five. One of the five is elected bi-annually as chairman by his fellow commissioners. In 1920, the name of the commission was changed to Georgia Public Service Commission. In 1943 the Commission was made a Constitutional body. In 1957, the position of Public Service Commissioner Emeritus was created to apply only to those Commissioners who have attained the age of 65 years and who have been in continuous service for more than twenty years. The salary is two-thirds that of the Commissioner at the time of retirement but not more than $12,000 per annum.

The PSC has jurisdiction over all railroads, telephone companies, electric power companies, gas utility companies, electric railway and bus utility companies, express companies, telegraph companies, terminal companies, compress companies, dock and wharf companies and all "for hire" motor carriers as provided in the Motor Carrier Acts of 1931, and subsequent amendments thereto.

All actions of the PSC are concluded as a result of a majority vote of the PSC in executive session.

The final authority in enforcement of the laws over which the PSC has jurisdiction is in the courts, as with any other law or statute. The PSC is authorized to issue only administrative orders.

Proceeding against the PSC is usually by injunction. A petition of mandamus cannot be brought against the PSC unless it is alleged that the PSC has acted in a capricious or arbitrary manner, amounting to abuse of its discretion.

HAWAII PUBLIC UTILITIES COMMISSION

The Hawaii Public Utilities Commission was established in 1913 by the Territorial Legislature under Act 89. The regulation of public utilities and transportation companies since then essentially followed Act 89 which was codified in 1967 as Chapter 269, Revised Laws of Hawaii. In 1961, the regulation of motor common and contract carriers was placed under the Commission's jurisdiction under a separate governing statute. In 1974, a separate water carrier act was enacted governing water common carriers. Between 1913 and May 31, 1976, the Public Utilities Commission consisted of five part-time Commissioners with two members from the City and County of Honolulu and one each from the counties of Hawaii, Maui and Kauai.

A three member full-time Commission was created under Act 165 passed by the 1976 Legislature. Members of the Commission are appointed by the Governor with consent of the State Senate; the first appointees served staggered terms of six, four and two years. Thereafter, the appointments are for six-year terms.

The Commission regulates all franchised and certificated public service companies operating in the State. Regulated companies consist of electric, gas, telephone, telecommunications carriers, one barge carrier, private water and/or sewerage companies, and numerous property and passenger carriers by motor vehicles. When regulation of airline carriers was repealed on June 17, 1981 pursuant to Act 167, two inter-island airline carriers were excluded from the authority of this Commission.

The Commission is empowered to conduct investigations, hold hearings, prescribe rules and regulations and issue orders governing the conduct and activities of regulated industries. The Commission is responsible for operational and financial aspects of public service companies' activities with respect to adequacy of service to the public; determines whether rates, charges and practices are just and reasonable; determines compliance with safety of operations and public safety under prescribed rules and regulations and authorizes the issuance of certificates of public convenience and necessity.

Under Act 165, Session Laws of 1976, PUC was placed in the Dept. of Budget and Finance for administrative purposes.

AGENCY HISTORY

IDAHO PUBLIC UTILITIES COMMISSION

The Idaho Public Utilities Commission (PUC) was established by the enactment of the Public Utility Act by the Twelfth Session of the Idaho Legislature. It was approved by the Governor on March 13, 1913, and became effective on May 8, 1913. The original act gave the PUC jurisdiction over all public utilities doing business in the State and defined such public utilities as persons or corporations owning, controlling, or managing railroads, street railways, pipelines, gas plants, electric plants, telephone lines, telegraph lines, public wharves and warehouses, other than public warehouses, in which property was stored for compensation.

The original act provided for the appointment of a three-man commission by the governor for a term of six years. The original PUC's members were appointed on a staggered basis for terms of two, four and six years. The PUC retained its jurisdiction over the persons or corporations that were included in the original act, until the 1951 Session of the Legislature transferred the jurisdiction of public wharves and warehouses from the PUC to the State Commissioner of Agriculture. Also, during the 1951 Session of the Legislature, the name of the Commission changed from the Public Utilities Commission of the State of Idaho to the Idaho Public Utilities Commission and changed the term of office of the commissioners from six years to four years. At this time the appointment of commissioners by the Governor was made subject to confirmation by the State Senate. The commissioners continued to serve on a four-year term until the 1961 Session of the Legislature when the term of office was again changed to a six-year term, appointed by the Governor, subject to confirmation by the State Senate.

The PUC has statutory authority to issue certificates of public convenience and necessity to regulate the rates and services of electric, gas, telephone and water utilities; railroads, intrastate common motor carriers and intrastate contract motor carriers. It has jurisdiction covering the issuance of securities by all electric, gas and water utilities and telephone utilities who derive less than 3/4 of their gross revenue from within the State of Idaho.

For the conduct of its business, the PUC's staff is divided into divisions, with a director responsible for each division. The Utilities Division has responsibilities for the administration of the regulation of gas, electric, telephone, telegraph and water utilities. The Transportation Division has responsibilities for the administration of the regulation of railroads and intrastate common motor carriers and contract motor carriers. For its legal services, the PUC is dependent upon attorneys assigned by the State Attorney General. The PUC has quasi-legislative powers and quasi-judicial powers. Its general duties are imposed upon it by the State Legislature and the decisions of the PUC are appealable directly to the State Supreme Court.

ILLINOIS COMMERCE COMMISSION

The State of Illinois was a pioneer State in mandatory supervision and regulation of public utilities.

The first utility regulatory body in Illinois was the Railroad and Warehouse Commission, created by the State Legislature in 1871.

In 1873 the Legislature granted the Commission power to establish rates for railroads, the State thus becoming the first to approve mandatory ratemaking. This Act was vigorously contested but in 1880 the State Supreme Court upheld the Assembly.

In June 1913, the Railroad and Warehouse Commission, by a legislative enactment, was changed into the Illinois Public Utilities Commission and then in 1921, the law again was changed and the Illinois Commerce Commission was created. Establishment of such a regulatory body was made possible, chiefly through the activity and cooperation of the smaller municipalities of the State.

Passage of the Public Utilities Act wiped away home rule of the public utilities and centralized such control in the hands of the Commission.

Centralizing control of all public utilities in the Commission brought two important results: First, the municipalities were relieved of the heavy burden of employing engineering, rate and accounting experts necessary to conduct investigations needed for proper regulation of such utilities; second, by permitting carefully regulated utilities to render service in communities without opposition so long as such service met all of the requirements of the Commission, much useless and wasteful competition between two or more utility companies was eliminated.

Rate regulation is based on reasonable rate of return accorded to a rate base premised on original cost.

Regulation of the trucking industry was devolved upon the Illinois Commerce Commission beginning in January 1954. In 1963, the Commission lost jurisdiction over warehouses, air carriers and CATV.

AGENCY HISTORY

ILLINOIS COMMERCE COMMISSION
(Continued)

The Commission regulates for hire carriers in the areas of operating authority, route to be traversed, safety, fees and rates to be charged.

In 1983, Section I of the Public Utilities Act was amended by Public Act 83-613 to provide for a seven-member Commission from a five-member Commission.

In 1985, the Commission underwent extensive changes with a complete rewrite of the Illinois Public Utilities Act, PA-84-0617; a complete rewrite of the Illinois Commercial Transportation Law, PA-84-0796; and

the addition of Universal Telephone Service Protection Law as part of the Public Utilities Act, PA-84-1063.

A major change in the Public Utilities Act was the addition of an Executive Director who is responsible for the supervision and direction of the Commission staff including all administrative activities.

The Public Utilities Act underwent a major rewrite effective January 1, 1986. Numerous legislative mandates for studies, programs and reports were included in the Utility Act rewrite. The following represents the major new duties of the Act:

1. Least-cost energy planning
2. Cogeneration study
3. Promotional rates study
4. Annual report on public utilities
5. Rulemaking on temporary rate increases
6. Rulemaking regarding cancellation costs of plants
7. Develop a lifeline program for telephone subscribers
8. Monitor telephone subscriber line connections
9. Investigate the necessity and feasibility of establishing fund to subsidize rural phone use
10. Analysis of telecommunications markets
11. Design, implement a teletypewriter system for deaf and severely hearing-impaired phone users

The Illinois Energy Assistance Act (PA84-1034) requires the Commission to design and implement an affordable payment plan for low-income residential electric and gas consumers. This has required extensive staff time to develop a pilot program (12% plan) and monitor results under this program.

An audit of the Illinois Commerce Commission by the Auditor General's Office analyzed the new duties and responsibilities of the Public Utilities Act and recommended an additional 40-45 staff members be added to the Commerce Commission head count to carry out these new responsibilities.

The Illinois Commerce Commission has been a member of the NARUC for over thirty years.

INDIANA UTILITY REGULATORY COMMISSION

The Railroad Commission was formed and approved by law February 28, 1905, to control the railroads in their practices in Indiana. This law was lacking in many essential features and in the railroad commission's first annual report to Governor Hanly, the Commission made 20 basic recommendations for changes in the law. This led to a new act approved March 9, 1907, in which the Railroad Commission was given power to regulate the rates, practices, facilities, construction, safety and require reports from steam railroads, electric inter-urban lines, sleeping car companies and express companies when transporting persons or property between points in Indiana.

The powers of the Railroad Commission, under the original act of 1905 and under the revised acts of 1907 and under the numerous amendments passed later, were contested in the courts by the corporations affected by adverse decisions of the Railroad Commission, but it was finally established that the State had the power to control these large corporations in their acts and practices affecting the general welfare.

The Public Service Commission of Indiana (PSC) was formed in 1913 to regulate public utilities, including gas, water, electric telephone, and street railways and all the powers of the Railroad Commission were also transferred to the new PSC. The first act of the new PSC was to transfer all the employees of the old Railroad Commission to the new PSC.

AGENCY HISTORY

INDIANA UTILITY REGULATORY COMMISSION
(Continued)

The original Public Service Commission Act was amended many times until 1933 when the PSC was reorganized with three commissioners in place of five and municipal utilities were almost completely removed from the jurisdiction of the PSC. In 1926, the first Motor Vehicle act was passed, placing the regulation of buses and motor contract carriers under the jurisdiction of the PSC.

Included in the regulation of utilities and motor carriers-for-hire, it becomes the duty of the PSC to investigate and act upon all petitions for authority to serve the public within given areas; for Certificate of Convenience and Necessity; for authority to incur indebtedness, mortgage property, issue stocks, bonds, notes or other evidence of indebtedness; investigate complaints against any utility, person or firm coming within the jurisdiction of the PSC; conduct public hearings in all controversial proceedings; be an impartial fact-finding body and draft orders upon the facts so found; to insure compliance with all orders of the Commission; to enforce any forfeiture or penalty provided by State law; to improve sales and transfers of permits and certificates issued by the PSC, as well as territorial operating rights of some utilities and utility properties; and to approve all fees, rates, tariffs or minimum fee schedules which shall be charged, as prescribed by law, by all utilities and carriers-for-hire coming within its jurisdiction.

The PSC also promulgates rules and regulations pertaining to the conduct of all utilities and carriers- for-hire coming under its jurisdiction; provides for the registration of all vehicles and payment of appropriate fees by motor carriers-for-hire, as required under the Motor Vehicle Act, and collects all statutory fees and related administrative fees. Effective July 1, 1988, the Motor Carrier Division was transferred by statute to the Department of Revenue, Special Tax Division.

The various fields of public service under the jurisdiction of the PSC include gas, electric, water, telephone, rural sewage disposal service, steam heat, and passenger and freight transportation by rail, truck and bus. Since different laws, rules, engineering and accounting procedures prevail in each category of public service, much of the PSC work is highly technical and requires the competence of employees with special training and long experience in order that the best interest of the public may be served.

Until December 31, 1983, the Commission comprised three members. As of the beginning of 1984, the Commission again numbered five. The same 1983 Legislation which expanded the membership also created a nominating Commission, comprising legislators and others, who submit a panel of three candidates to the Governor for selection of each Commissioner.

Effective July 1, 1986, all powers, duties and liabilities of the PSC relating to railroad operations or tariffs were transferred to the Department of Transportation, **PL 89-1985.**

Effective July 1, 1987 the name was changed to the Indiana Utility Regulatory Commission.

IOWA STATE UTILITIES BOARD

The Iowa Board of Railroad Commissioners was created in 1878 by the 17th General Assembly of the Iowa Legislature. The primary purpose of this three-member board was the regulation of railroad passenger and freight rates and operations. The Commission's jurisdiction was gradually expanded to include the regulation of other areas of public transportation, such as passenger and freight motor carriers, truck operators, pipe lines, and transmission lines.

As Iowa progressed, it was necessary for the Board to expand. In 1911, the Legislature established the Office of Commerce Counsel. That same year, the Commission established the agency's rate department. In 1916 a statistical department was organized by the Commissioners and the following year an engineering department was formed. Because the Legislature had added to the Board's duties the responsibility of checking the valuations of Iowa's railroads, a valuation department was established in 1921.

The growing use of electricity mandated State regulation and, in 1913, the Board was given the responsibility of controlling the location of electric transmission lines throughout the State. In 1921, the Legislature gave the Board the authority to regulate grain warehouses and the Grain Warehouse Department was created. The Legislature in 1923 passed laws which gave the Board the power to regulate passenger and freight rates for intrastate motor truck transportation giving rise to the creation of the Motor Transportation Department.

In order that the name of the agency would more accurately indicate the scope of the duties assigned to it, the 47th General Assembly in 1937, changed the Board's name to Iowa State Commerce Commission.

AGENCY HISTORY

IOWA STATE UTILITIES BOARD
(Continued)

In 1963, the Sixtieth General Assembly of the Iowa Legislature provided for regulation by the Commerce Commission of rates and services of public utilities to the extent and manner provided in Chapter 476 of the Code.

In July 1975, the Commission's Motor Transportation Department and Railroad Department were transferred to the newly created Department of Transportation.

The Sixty-sixth General Assembly of the State of Iowa expanded the jurisdiction of the Commission. As of July 1, 1976, the Commission was empowered to regulate all retail rates of rural electric cooperatives and to establish exclusive service areas for all electric utilities. In addition, the Commission was given authority effective January 1, 1977, to issue certificates of public convenience, use and necessity for the construction of electric generating facilities.

Effective July 1, 1986, the name of the Commission was changed to Iowa State Utilities Board. The Grain Warehouse Division was transferred to the Iowa Department of Agriculture.

IOWA DEPARTMENT OF TRANSPORTATION

Legislative action in 1986 abolished the Iowa Transportation Regulation Authority and transferred all statutory responsibilities to the Department of Transportation. These responsibilities are: (1) fix and approve the intrastate rates and fares of motor carrier common carriers, including the issuance of certificates of public convenience and necessity; (2) regulate the intrastate practice of railroads and; (3) regulate the entry and exit of motor vehicle franchised dealers.

KANSAS STATE CORPORATION COMMISSION

A three-member Board of Railroad Commissioners was established by an Act of the Legislature in March 1883; most of its early activities were confined to rates and services of common carriers. In fact, the first case on record was filed by an individual on April 19, 1883, in the form of a complaint against a railroad, alleging overcharges for transportation of freight which in turn produced discrimination in favor of one particular city over another. The Railroad Commission had power and authority to regulate all steam-operated railroads, express companies, sleeping car companies and inter-county electric lines. The members were elected by popular vote.

As telephone service and electric energy become a part of daily life, the Legislature created the three-member Public Utilities Commission in 1911 to replace the Railroad Commission, and added to it the regulation of telegraph and telephone companies, pipeline companies, water, light, heat and power companies except municipally owned companies, mutual telephone companies and public utilities and common carriers situated and operated wholly or principally within a city. The members of this Commission were appointed.

For a time in 1920, the Kansas Court of Industrial Relations took over the duties of regulation. However, after nine months the Legislature restored the Public Utilities Commission.

An appointed five-member Public Service Commission was created by an Act of the 1925 Legislature, and eight years later the present regulatory body, the State Corporation Commission (SCC), was established with its jurisdiction extended to include the regulation of motor carriers, speculative securities, and oil proration. Some time later gas conservation and the supervision of the plugging of abandoned wells were added to its jurisdiction.

The State's objectives with respect to regulation of public utilities and common carriers are the same as those nationwide - to see that public interest is served by the rendering of sufficient, nondiscriminatory service at such prices as will be fair, equitable and reasonable to the customer, yet allow the enterprises such a return on investment as will be adequate to enable them to render continuing efficient service. The same applies to the regulation of common carrier motor carriers. As to the regulation of oil and gas production, the purpose is to conserve these natural resources and to protect correlative rights. Effective July 1, 1974, jurisdiction over mined-land conservation and reclamation (strip-mining) was transferred to the SCC. Effective July 1, 1988, jurisdiction over mined-land conservation and reclamation was transferred to the Kansas Department of Health and Environment. On July 1, 1982, the Kansas Securities Commission was established. Speculative securities are no longer under the jurisdiction of the SCC.

The SCC consists of three members, one of whom is elected chairman, appointed by the Governor with the advice and consent of the Senate, for four-year staggered terms. The work of the SCC is apportioned to various divisions consisting of General

AGENCY HISTORY

KANSAS STATE CORPORATION COMMISSION
(Continued)

and Administrative, Utilities, Transportation (Motor Carrier and Rate Sections), Oil and Gas Conservation and Energy programs. Each division has its head or director, and the duties of each are indicated by its title. The General and Administrative Division consists of the Commissioners, the Secretary, official reporters, legal staff, Commissioners' secretaries, accounting staff, word processing and graphics, management analysts, public information and Commissioners' aides. The SCC operates wholly from funds derived from fees, assessments and levies made upon the various enterprises regulated. The SCC has been a member of NARUC since 1892.

KENTUCKY PUBLIC SERVICE COMMISSION

The Commission of Kentucky was created by the Kentucky General Assembly of 1934. It originally had a chairman and two commissioners, appointed by the Governor. In 1973, it was enlarged to five members.

The regulation of rates and services of utilities are subject to the jurisdiction of the Commission.

Upon proper application and hearing, the Commission grants certificates of public convenience and necessity for the construction of all new facilities, and for the acquisition or extension and improvement of existing facilities, with which to serve the public, except ordinary extensions of existing systems. The Commission, in addition, has supervision and control of utility services and fixes service standards, including meter inspection and correction; supervision and direction of utility accounting, requiring reports and maintenance of satisfactory records; supervision of extensions, rates, and services affecting rural electric cooperative corporation; supervision over the major financial transactions of utility companies, especially the issuance and disposition of securities; and investigation and disposition of various complaints made by the public.

The Commission has quasi-legislative powers and its general duties are imposed upon the Commission by the State Legislature.

The Commission expenses are defrayed by an annual pro rata assessment against all privately owned utility companies, rural electric cooperative corporations, and rural telephone companies, based on their gross receipts derived from intrastate business. This assessment is made at the beginning of each fiscal year. The balance at the end of any fiscal year does not revert to the General Fund, but is carried as a revolving fund for the benefit of the Commission.

The Commission has initiated, during the past few years, a new program known as "Utility Seminar" meetings. Delegates of the utilities, in addition to representatives of State and Federal government agencies, preside at different meetings, the primary purpose of which is to stimulate an exchange of ideas between representatives of the various types of utility service.

Effective April 1, 1979, two separate commissions were established--the Kentucky Energy Regulatory Commission (ERC) and the Kentucky Utility Regulatory Commission (URC).

The Energy Regulatory Commission and the Utility Regulatory Commission were abolished by executive order March 1, 1981, and replaced by the Public Service Commission. The Commission has three full-time members compared to three full-time members of the ERC and three part-time members of the URC.

A management audit by Touche Ross and Company on Commission operations, completed in November 1985, concluded that " ... The Commission is effectively meeting its stated objective of balancing the interest of the consumers and the interest of the utilities. ... The Commissioners are conscientious about their responsibilities and are active in each case review. ... No major problems were discovered in our interviews with utility officials and attorneys. ... The Commission operates basically in an efficient manner." The Commission reorganized its staff in August 1986 largely as a result of the management audit recommendations. The Secretary and Executive Director's positions were merged in July 1986 as a result of legislation passed during 1986 General Assembly.

KENTUCKY RAILROAD COMMISSION

The Kentucky Railroad Commission is concerned primarily with the regulation of rates, services, and facilities of intrastate rail freight commerce. This authority, based on the State Constitution of 1891, and on subsequent statutes, has been superseded in final authority by federal legislation and by Kentucky's expression of assert in its June 22, 1981 document of compliance, known as the Kentucky Standards and Compliance, and filed with the US Interstate Commerce Commission. Under Section II of this Kentucky document entitled "Standards", the Kentucky Railroad Commission agreed to "apply standards consistent with the

AGENCY HISTORY

KENTUCKY RAILROAD COMMISSION
(Continued)

Interstate Commerce Act, 49 USC §10101 et seq., and particularly (but not by way of limitation) those standards set out in 49 USC 10701a and sections referred to therein."

KENTUCKY TRANSPORTATION CABINET
Department of Vehicle Regulation

The Kentucky Transportation Cabinet is divided into four departments: Highways, Fiscal Management, Administrative Services and Vehicle Regulation.

The primary responsibilities of the Department of Vehicle Regulation are: driver licensing, vehicle licensing, motor carrier regulations (fuel tax, operating authority, fuel and authority permits, oversize/overweight permits, hazardous materials, intrastate rates and service regulations and enforcement of all motor carrier statutes, including safety).

The one-stop truck regulatory department was created in its present form in 1973 when Kentucky State Government underwent major reorganization. Prior to that, the agency was called the Department of Motor Transportation, with responsibilities similar to the present DVR.

LOUISIANA PUBLIC SERVICE COMMISSION

The first regulatory commission to govern the rates and service of carriers and utilities on the State level in Louisiana was created by the Louisiana Constitution of 1898, which, in Article 283, provided for the creation of a "railroad, express, telephone, telegraph, steamboat and other watercraft, and sleeping car commission."

However, the actual organization of the Railroad Commission of Louisiana, as it was called, did not take place until December 9, 1899. It consisted of three Commissioners, to serve for six-year terms, one elected from each of three Railroad Commission Districts into which the State was divided. In order to stagger the terms, one Commissioner served for two years, one for four, and one for six, the terms having been decided by lot, after which each District elected a Commissioner for six years.

The new Commission was endowed with the usual regulatory powers over rates and services, the power to subpoena witnesses, books and papers, and to punish for contempt. The constitutional provision authorized appeal from the Commission's decisions to the District Court at Baton Rouge, from which appeal lay to the Louisiana Supreme Court, bypassing the Courts of Appeal.

A large part of the work of the Railroad Commission was in connection with the transportation by water. At the inception, only two other State regulatory commissions--those of North Carolina and Virginia-had jurisdiction over steamboats. In Louisiana with its 3,771 miles of navigable waterways, the transportation of both freight and passengers was still an important factor in the State's economy, even though the heyday of the great Mississippi River packets had passed.

The new Commission began by fixing flat maximum rates for telegraph and Pullman service. Western Union was required to charge 25 cents for a ten-word message between any two points in Louisiana, with two cents for each additional word in day messages and one cent for each additional word at night.

The maximum rate for a berth on the "Pullman Palace Cars" was fixed at $2.00 between any two points in Louisiana. Prior to this regulation, the rate between New Orleans and Shreveport had been $2.50, which the new Commission regarded as exorbitant.

The Railroad Commission of Louisiana functioned until 1921, when a new State Constitution replaced it with the Louisiana Public Service Commission (PSC) as presently constituted.

The same three Public Service Commission Districts were continued, and the same procedure for the election of Commissioners, and the PSC's jurisdiction was extended to include the regulation of "common carrier railroads, steamboats and other water craft, sleeping car, express, telephone, telegraph, gas, electric light, heat and power, water works, common carrier pipelines, canals (except irrigation canals), and other public utilities". Further, the new Constitution provided that the right of the Legislature "to place other public utilities under the control of and confer other powers upon the Louisiana Public Service Commission respecting common carriers and public utilities is hereby declared to be unlimited by any provision of this Constitution."

AGENCY HISTORY

LOUISIANA PUBLIC SERVICE COMMISSION
(Continued)

The new Constitution gave the PSC what is perhaps the broadest and most comprehensive grant of power possible within the limitations of the English language. It provided that "the power, authority and duties of the Commission shall affect and include all matters and things connected with, concerning, and growing out of the service to be given or rendered by the common carriers and public utilities hereby, or which may hereafter be made subject to supervision, regulation and control of by the Commission." The Louisiana courts, however, have not given this provision a literal interpretation but have tended to restrict the powers of the PSC, so that this constitutional grant of power does not today, as a practical matter, mean that the dictionary definitions of its terms would ordinarily convey.

In January, 1976, two new Commissioners took office, elected from single member districts pursuant to Louisiana Constitution Article IV, §21. The Louisiana Commission now consists of five members.

MAINE PUBLIC UTILITIES COMMISSION

Regulation of transportation by State Authority in Maine dates from the year 1858 when Chapter 36 of the Public Laws, effective March 3, 1858, established a Board of Railroad Commissioners consisting of three members who were authorized "to examine into the conditions of railroads in this State, their rolling stock, rates of speed, time tables and terms of connection and junction or crossing and the rates at which passengers and merchandise, coming from one road are transported over another, to the end that the public safety and convenience in the transportation of passengers and merchandise may be provided for and secured."

Chapter 212 of the Public Laws of 1909, effective April 2 of that year, created the Water Storage Commission consisting of the Governor, the State Land Agent and three citizens. It was empowered "to proceed at once to collect information relating to water powers of the State, the flow of rivers and their drainage areas, the location, nature and size of the lakes and ponds of the State and their respective value and capacity as storage reservoirs, and such other by hydrographic data as they may deem of value in devising the best methods for the improvement of the natural storage basins of the State, and the creation of new storage reservoirs, with a view to conserving and increasing the capacity of the water powers of the State."

Chapter 129 Public Laws of 1913, effective by Proclamation after Referendum on October 30, 1914, created the Public Utilities Commission (PUC) consisting of three members. It was organized December 1, 1914. Section 71 of the Act abolished the Board of Railroad Commissioners and the State Water Storage Commission and imposed and conferred upon the PUC all powers vested in said boards by and under the existing laws. The PUC was given custody and control of all records, maps and papers pertaining to the offices of the Railroad Commissioners and the State Water Storage Commission. In addition, the PUC acquired jurisdiction, control and regulation over all "public utilities" (every common carrier, gas company, natural gas pipeline company, electrical company, telephone company, telegraph company, water company, public heating company, wharfinger and warehouseman).

By subsequent legislation any person, firm or corporation before operating motor buses or trucks for hire over any street or highway, or any inboard motor boat used for hire for transporting passengers or freight upon the inland waters of the State is required to procure a certificate from the PUC.

Chapter 469 of the Public Laws of 1981, effective January 1, 1982, removed the PUC jurisdiction over transportation by motor vehicles. The PUC retains jurisdiction over water carriers in Casco Bay.

The Executive Division of the present PUC consists of three members appointed by the Governor, subject to confirmation by the Legislature, for a term of six years. One member of the PUC is designated by the Governor as Chairman. Any vacancy occurring in the PUC is filled by appointment for the unexpired portion of the term in which such vacancy occurs.

MARYLAND PUBLIC SERVICE COMMISSION

The Public Service Commission, created by an Act of the General Assembly in 1910, is a State agency charged with the responsibility of regulating all public utilities which operate within the State. Among the utilities which are presently regulated by the Commission are gas companies, electric companies, telephone companies, water and sewage companies, railroads, common carriers, steam heating and taxicabs.

In order to carry out its regulatory and supervisory responsibilities, the Public Service Commission has a staff that is organized into four major components: General Counsel, Administrative Division, Hearing Examiner Division, and Technical

MARYLAND PUBLIC SERVICE COMMISSION
(Continued)

Staff.

The Commission consists of five full-time Commissioners serving five-year staggered terms. The term of each commissioner begins on the expiration of his predecessor's term. A commissioner, including the chairman, continues in office after his term expires until his successor has qualified, but without lengthening his successor's term. Vacancies are filled by the Governor for any unexpired term.

The Commission is empowered to hear and decide matters relative to (1) rate adjustments; (2) applications to exercise or abandon franchises; (3) applications to modify type or scope of service; (4) approval of issuance of securities; (5) promulgation of new rules and regulations; and (6) quality of utility and common carrier service. The Commission has the authority to issue a certificate of convenience and necessity with an electric utility's application to construct a new generating plant or transmission lines.

It should be noted that the Commission's jurisdiction is limited to intrastate service.

The Commission has much broader authority for supervision and regulation of activities of public service companies. In addition to setting rates, the Commission collects and maintains records and reports of public service companies; reviews plans for service; inspects equipment; audits financial records; handles consumer complaints; promulgates and enforces rules and regulations; defends its decisions on appeal to State courts; and intervenes in relevant cases before federal regulatory commissions and federal courts.

MASSACHUSETTS DEPARTMENT OF PUBLIC UTILITIES

The Massachusetts system of utility regulation antedates all others in the United States. The balance it has maintained throughout its history, preserving the integrity and stability of utility companies' investments while protecting the interests of those using their services, proves the wisdom of the philosophy that has guided such regulation since its inception in 1804.

Beginning in that year with direct legislative regulation of turnpike rates, and continuing in 1836 with statutes affecting the then-nascent field of railroad transportation, the Massachusetts Legislature defined and developed this theory of public utility regulation: that stockholders in such companies did not have an absolute right or title to property or plant acquired by their capital, but that such property was held in trust for the public benefit, and must be used in a particular manner for the accomplishment of a well-defined public objective; and that stockholders, having devoted their capital to such public use and benefit, were entitled to a fair return, not upon the value of the property so employed, but upon the invested capital itself.

This principle of Massachusetts utility regulation, that regulation of rates should be determined by the amount of capital honestly and prudently invested rather than by the value of the property employed, led the Legislature in 1852 to enact the first of several provisions regulating the issuance of stock for cash and for not less than the par value thereof. Such measures have been an important element in the regulatory scheme to safeguard the soundness and solvency of the State's utility companies and thus ensure their ability to provide adequate service to their customers at reasonable rates.

Regulation by Commission rather than by direct action of the Legislature began in 1869 with the establishment of the Board of Railroad Commissioners. The three-member Board exercised general supervision over railroads and street railways and heard complaints on rail service. While its powers were purely advisory, its recommendations were always followed. In 1906 the Board's jurisdiction was expanded to cover steamship companies, and its powers were enlarged to include inspection of equipment and service and approval of incorporation, location, financing and rates. In 1913 the Board of Railroad Commissioners was renamed the Public Service Commission, a change which reflected the expansion of its jurisdiction to express and telephone and telegraph companies. The three-member Commission's powers were also substantially enlarged.

It was during this period that other utilities also came under regulation, beginning in 1885 with the establishment of the Board of Gas Commissioners. This three-member body was charged with the supervision of gas manufacturing companies for gas purity and with inspection of the general condition of such companies. In 1889 the Board's powers were increased to include rate regulation, and its jurisdiction was enlarged to cover electric companies; it was renamed the Board of Gas and Electric Light Commissioners. In 1891 the Board's regulatory authority was extended to municipal gas and electric companies, and in 1914 water companies were brought within its jurisdiction. That year also saw the Board's powers increased to include approval of a uniform system of accounts, rates, ownerships and consolidations, and inspection of gas purity and gas meters.

In 1919 the Massachusetts Legislature consolidated the Public Service Commission and the Board of Gas and Electric

AGENCY HISTORY

MASSACHUSETTS DEPARTMENT OF PUBLIC UTILITIES
(Continued)

Light Commissioners to form the Department of Public Utilities, which was given additional powers over rates of gas and electric companies. The Department was placed under the supervision of a five-member Commission (expanded to seven members in 1958), serving staggered terms, whose members preside as adjudicatory officers in hearings and decisions. The Department was reorganized in 1973, when the present system of three full-time Commissioners serving co-terminously with the Governor was instituted. Of the Divisions within the Department, Commercial Motor Vehicles was established by statute, while such others as Railway and Bus, Engineering and Accounting have been set up by the Department's own rules.

Many additional powers have been conferred on the Department since its organization in 1919, in many cases on the Department's own recommendation. A sampling of important additions includes: authority to order companies under its jurisdiction to set aside from earnings allowances to a depreciation fund; authorization of electric companies to cooperate in the establishment of generating plants; general jurisdiction over rates of gas, electric and water companies with provision for filing of their rates; facilitating establishment of municipal plants; and supervision and control of sales of securities.

The Department was reorganized by statute passed in 1973, with the first Commissioners under the new system taking office in 1975. From a seven-member body whose part-time members served staggered seven-year terms, the Commission was changed to three members, serving full-time, whose terms are coterminous with the Governor's.

From its inception in 1804 to the present day, the regulatory policy of Massachusetts has been directed toward ensuring sound securities and rates calculated to produce a fair rate of return on prudently invested capital while at the same time assuring adequate service to the public at reasonable rates. The evolution of the Commonwealth's regulatory system illustrates Massachusetts' continuing commitment to these twin goals and the requisite flexibility to meet the changing demands of changing times.

MICHIGAN DEPARTMENT OF TRANSPORTATION

The Michigan State Highway Department, under the leadership of an elective Highway Commissioner, changed significantly following a revision in Michigan's Constitution and in Public Act 286 of 1964. The administration fell to a four-man State Highway Commission. A 1978 Amendment to the State Constitution enlarged the Commission to a six-member State Transportation Commission. Executive Orders 1973-1 and 1a established the responsibility for coordination and administration of all transportation agencies within State government to the department. Executive Order 1975-1 transferred all railroad regulation functions to the State Highway Commission from the Michigan Public Service Commission. In 1979, the department officially became the Michigan Department of Transportation.

MICHIGAN PUBLIC SERVICE COMMISSION

In 1873 the State Legislature established the Michigan Railroad Commission with a single Commissioner as its head. The Railroad Commission was created to regulate railroad rates and conditions of service. Later, generation and distribution of electricity, telephone service, and gas production and distribution was included. In 1933, motor transportation over highways was added.

In 1919 the Michigan Railroad Commission was abolished and replaced by the Michigan Public Utilities Commission with five members making up the Commission. In 1939 the name of the Commission was changed to the Michigan Public Service Commission. In 1947 the size of the Commission was changed from five to three members. In 1951 a bi-partisan provision was enacted into law which provided that not more than two members of the Commission shall be members of the same political party. The Commissioners are appointed by the Governor, with the advice and consent of the Senate, for terms of six years each.

The powers, duties and functions of the Weighmaster Section of the Department of State Highways, relating to the administration and enforcement of the size, weight and load of vehicles were transferred to the Public Service Commission effective July 1, 1968.

By Executive Order 1975-10, dated October 17, 1975, the Railroad Division's functions of the Public Service Commission were transferred to the Department of State Highways effective January 1, 1976. Executive Order 1982-1 transferred the highway enforcement activities to the Department of State Police, October 1, 1982. Act 432, PA 1982, transferred regulation of Passenger Carriers to the Department of Highways and Transportation. Executive Order 1986-17 transferred the authority, functions and responsibilities of the Energy Administration to the PSC effective January 1, 1987.

AGENCY HISTORY

MINNESOTA DEPARTMENT OF TRANSPORTATION

The 1976 Legislature established a Department of Transportation which assumed the functions of the former Departments of Highways and Aeronautics and certain transportation segments of the State Planning Agency and the Public Service Department. On November 8, 1976, 26 employees of the Department of Public Service officially became a part of the Minnesota Department of Transportation. Those employees came from the Bus and Truck Division, Transportation Rates Division, and those sections of the Department having railroad-related responsibilities.

The function of those divisions which had to do with enforcement and administration were assumed by the DOT. The Public Service Commission, however, retained all functions having to do with ratemaking and motor carrier authority approval until 1983, when the Transportation Regulation Board took over these duties.

MINNESOTA PUBLIC UTILITIES COMMISSION

In 1871 the Minnesota Legislature established the office of Railroad Commissioner. It was expanded to a three-member Commission in 1874, but quickly went back to having a single Commissioner in 1875. In 1885 the Railroad and Warehouse Commission was established, made up of three members appointed by the Governor. It was vested with more meaningful authority than its predecessors, laying the foundation from which the present Commission derives its power.

Along with overseeing various aspects of railroad regulation, the Railroad and Warehouse Commission was charged with establishing grain standards and licensing and supervising country elevators as of 1885. Over the years, additional authority over railroad safety and engineering as well as storage warehouses was given to the Commission. The Commission was granted authority over weights and measures in 1911. In that same year, the statute was changed to provide for the election of Commissioners for six-year terms, with one to be chosen every two years.

In 1915 the Railroad and Warehouse Commission was given jurisdiction over telephone companies. In 1921 the Commission began regulating the fares of street railways. In 1925 auto transportation companies, or regular route common carriers, were placed under Commission authority; irregular route common carriers were added in 1933.

In 1967 the Public Service Commission was created, under the umbrella of the newly-established Department of Public Service. The agency was vested with the authorities formerly exercised by the Railroad and Warehouse Commission. Significant changes were enacted by the legislature effective January 1, 1975. On that date, Minnesota became the 48th state to undertake state level regulation of retail electric and gas utilities. The Public Service Commission was expanded from three to five members, who were appointed by the Governor rather than elected.

More grain and livestock functions were transferred to the Department of Agriculture in 1974; authority over warehouses was transferred several years later. In 1976 the Department of Transportation was established, assuming transportation, safety, registration and enforcement functions; the Commission retained jurisdiction over ratemaking for rail and motor carriers and granting of motor carrier authority. This remaining jurisdiction over transportation matters was theoretically transferred to the Transportation Regulation Board in 1980. However, the Commission actually retained these functions until the Board began operations in 1983.

Effective July 1, 1980, the Department of Public Service became two separate state agencies: the Department of Public Service and the Public Utilities Commission. The Commission is the decision-making body with respect to natural gas, electric and telephone matters. The Department is charged with representing the public interest before the Commission and enforcing Commission order and rules. The Department also retains authority over weights and measures.

In 1983, the Commission was given authority over certificate of need for large energy facilities, formerly vested in the Minnesota Energy Agency and its successors. In 1987, the energy-related functions of the then Department of Energy and Economic Development were incorporated into the Department of Public Service.

MINNESOTA TRANSPORTATION REGULATION BOARD

The Transportation Regulation Board was established by the 1980 Legislature. Due to budgetary problems, it was not funded until 1983, and Board appointments were made August 15, 1983. The Board was fully functional by October 1, 1983, taking over the transportation duties previously handled by the Minnesota Public Utilities Commission and some of the transportation duties previously handled by the Minnesota Department of Transportation.

The Board was established to consolidate a number of quasi-legislative (rulemaking and policy setting) and quasi-

AGENCY HISTORY

MINNESOTA TRANSPORTATION REGULATION BOARD
(Continued)

judicial (rulings on appeals and variances) functions that related to both the railroad and motor carrier industry. These functions were previously performed by either the Minnesota Department of Transportation (MN DOT) or Public Utilities Commission (PUC) previously the Public Service Commission.

When legislation created MN DOT in 1976, numerous PUC functions were transferred to MN DOT; however, two types of quasi-legislative and quasi-judicial functions were left with PUC: ratemaking for certificated carriers; and grants of operating authority for motor carriers. This created several problems. Conflicts existed within MN DOT when the Commissioner must act as both judge and advocate. He had to regulate, enforce and adjudicate. The PUC was becoming more and more occupied with utility matters; hence the creation of the Transportation Regulation Board.

MISSISSIPPI PUBLIC SERVICE COMMISSION

Governor Robert Lowery signed the Act creating the Mississippi Railroad Commission on March 11, 1884. The Governor appointed the first three Commissioners - Stone, Augustus and McWillie - to serve for two years, and then until 1892 the Legislature elected the Commissioners to serve two-year terms.

In 1886, by Act of the Legislature, the Commissioners were made the "Board of Control" for the State penitentiary. All convicts were immediately leased to the Gulf, Mobile and Ship Island Railroad Company for a period of six years for construction work.

In 1892 express, telephone and telegraph were placed under Commission jurisdiction and in 1906 the Commission was relieved of its duty as the Board of Control for the State Penitentiary after twenty years.

For many years the Commission served as Tax Assessor for the utilities under its jurisdiction but this function has been delegated to the State Tax Commission.

In 1926 the Commission was given limited authority to regulate Motor Carriers for hire. In 1938 motor carriage activity had increased and more extensive regulation was necessary. The Legislature then passed the Motor Carrier Regulatory Act, changing the name of the body to the Public Service Commission, and placed regulation and supervision of motor carriers under its jurisdiction.

In the 1956 Session of the Legislature, the Public Utilities Act was passed, placing electric, gas and water utilities under the jurisdiction of the PSC. At the 1958 Session of the Legislature, legislation was passed amending the Motor Carrier Regulatory Act of 1938, broadening the scope of exceptions under the Act and providing for the employment of a Chief Law Enforcement Officer and six Inspectors.

In 1968 legislation was passed to amend the 1956 utility act to include the regulation of sewage disposal systems by the Public Service Commission.

The year 1983 brought about several changes that enabled the Public Service Commission to better serve the people of the State. The Public Utilities Reform Act of 1983 was signed by Governor William Sinter on April 6, 1983. Major points of the Act are as follows:

1. Does not permit rate increases under bond before the Commission decides a case. Allows rates under bond during the appeal process.

2. After a change is made in the Constitution, will allow direct appeal to Supreme Court.

3. Shortens time for Public Service Commission to decide a case, from 180 days to 120 days.

4. Provides for additional staff to handle added duties. Also calls for hiring of hearing examiners.

5. All contracts over $1 million are to be filed with the Public Service Commission. All contracts with affiliates or subsidiaries are to be filed with Commission. Any unreasonable expenses are to be disallowed for ratemaking purposes.

AGENCY HISTORY

MISSISSIPPI PUBLIC SERVICE COMMISSION
(Continued)

6. Major construction projects will be monitored. All construction work over $200,000 is to be awarded to the lowest and best bid.

7. Public utilities may have no more than one major change in rates in effect under bond at the same time.

8. The Public Service Commission will monitor fuel adjustment clauses in greater detail.

9. Management reviews are to be conducted on the utility companies.

10. Most advertising expenses will not be paid by the ratepayers. Reasonable charitable or civic contributions will be allowed.

The PSC of the State of Mississippi is composed of three (3) elected Commissioners, one from each of the Supreme Court Districts. The Commissioners are elected in the general election at the same time as all other State and county officials for four-year terms.

The PSC is required by law to meet at its office on the first Tuesday of each month, with the provision that it is to have such other meetings at such a time and place that is deemed necessary to conduct the business of the people before the PSC.

The PSC regulates the rates and services of railroads, motor carriers of property and passengers, telephone, telegraph, electric natural gas and water companies.

The PSC became a member of the NARUC in 1890.

MISSOURI DIVISION OF TRANSPORTATION

The Division of Transportation was previously part of the Public Service Commission (PSC). On July 1, 1985, Senate Bill No. 2, transferred the transportation functions from the PSC to the Division of Transportation under the Department of Economic Development.

The transfer established an agency with a director and three administrative law judges. The law judges are appointed for the division. They are nominated by the department director and appointed by the governor with the advice and consent of the senate. Each is appointed for a term of six years, except of those first appointed, one shall be appointed for a term of four years, and one for a term of two years. Each shall be an attorney-at-law admitted to practice before the supreme court of Missouri. Not more than two of the administrative law judges shall be members of the same political party.

MISSOURI PUBLIC SERVICE COMMISSION

The Missouri Public Service Commission (PSC) was created by an Act of the Forty-Seventh General Assembly of Missouri. The Act became effective April 15, 1913. The Act conferred upon the Commission all the power formerly given to the Board of Railroad and Warehouse Commissioners. The Act gave the Commission jurisdiction for general supervision of railroads, street railroads, express companies, all kinds of car companies, steamboat companies, gas, electric and water corporations, telegraph and telephone corporations, and all heating companies. The Commission on July 3, 1927 established a Bus Division after the Fifty-Fourth General Assembly enacted a law granting the Commission jurisdiction over motor carriers. The Bus Division became the Bus and Truck Division effective September 14, 1931 after the General Assembly extended jurisdiction of the transportation industry to freight motor carriers. Effective June 1, 1967 the Commission acquired jurisdiction over sewer utilities. In 1973 the General Assembly gave the Commission responsibility for enforcing safety standards covering mobile homes and recreational vehicles. In 1985 the Legislature transferred from the Public Service Commission to a newly created Transportation Division within the Department of Economic Development, effective July 1, 1985, all responsibility for regulation of common carriers, railroad corporations, motor carriers and express companies, and street railroads.

The Omnibus State Reorganization Act of 1974 transferred the Commission to the Department of Consumer Affairs, Regulation and Licensing for administrative purposes but the Commission operates independently in the exercise of its quasi-judicial functions. Missouri voters in 1984 approved a measure which changed the name of Department of Consumer Affairs, Regulation and Licensing to the Department of Economic Development.

The PSC is composed of five members appointed by the Governor with advice and consent of the Senate for a statutory

AGENCY HISTORY

MISSOURI PUBLIC SERVICE COMMISSION
(Continued)

term of six years. The terms of the commissioners are staggered so that the terms of not more than two commissioners expire at any one time. Since its inception, the PSC, by tradition, has functioned on a bipartisan basis with a three-to-two majority of the members drawn from the party in power.

There are four Divisions within the Commission. The Executive Division consists of the Commission, the Staff Director, Hearing Examiners and Hearing Reporters. Other Divisions include the General Counsel, Utility and the Secretary to the Commission. The PSC acts as an administrative agent of the legislative department of the State. Its functions are similar to those of Federal agencies such as the Interstate Commerce Commission, Federal Energy Regulatory Commission and the Federal Communications Commission.

Offices of the PSC are open for business every day except Saturday, Sunday and legal holidays. Formal hearings are conducted in the Commission hearing rooms, fifth floor, Harry S. Truman State Office Building, 301 West High Street, Jefferson City, and when necessary are held at other locations in the State. Procedure at hearings outside the formal hearing room, generally referred to as public hearings, is informal and the technical rules of pleadings, evidence and procedure of the court are relaxed. Parties interested in any matter before the PSC are given an opportunity to present to the Commission all facts bearing upon the case. Complaints may be filed as to the service rendered by any utility under jurisdiction of the PSC. Only licensed attorneys are permitted to practice before the PSC. In addition to the formal hearing process, the Commission deals with a great volume of matters through informal hearings and conferences.

MONTANA PUBLIC SERVICE COMMISSION

The Board of Railroad Commissioners of the State of Montana was created by legislative act in 1907. Legislation passed in 1913 made the Board Ex-Officio the Public Service Commission of Montana. Originally, the duties and jurisdiction of the Board related to supervision and regulation of the railroads. The Board's jurisdiction was extended to include regulation of motor carriers, street railways, express companies, public utilities of all types, issuance of securities by certain public utilities, pipelines and electrical construction. At a later date the name was officially changed to the Public Service Commission (PSC).

In 1975, membership of the PSC was changed from three members elected Statewide for 6-year terms, to five members elected by district for 4-year terms. Three of the five members are elected during presidential election years, while the other two face election during the off-years. One of the members is selected as chairman every two years by the Commission members. The chairman serves at the will of the majority of the PSC. All actions of the PSC are concluded as a result of a majority vote in executive session.

The final authority in enforcement of the laws under the PSC's jurisdiction rests in appellate courts which are required to give priority to actions involving decisions of the PSC.

Applications by common carriers and public utilities for various types of authority, including increases in rates and charges, are normally subject to public hearings. Complaints made by consumers or shippers are also usually subject to public hearings before an order is issued. The PSC may also conduct investigations on its own motion and issue appropriate orders applicable thereto.

NEBRASKA PUBLIC SERVICE COMMISSION

The Railway Commission of 1885 consisted of the Attorney General, Secretary of State, and Auditor of Public Accounts, each authorized to appoint one secretary. The Commissioners were empowered to supervise all railroads operated within the State, to examine the books and papers of any railroad; and to issue subpoenas and administer oaths. The Board of Railway Commissioner existed for only two years.

The Legislature of 1887 created a Board of Transportation composed of the Attorney General, Secretary of State, Auditor of Public Accounts, State Treasurer, Commissioner of Public Lands and Buildings, and three appointed secretaries. This Board was given power to investigate, set dates for hearings, and inquire into the management of the business of all common carriers. The Legislature expanded the functions of this Board by placing the licensing and regulations of public warehouses under its jurisdiction in 1891. In 1893, the Board of Transportation undertook the task of classifying and fixing maximum freight rates to be charged by the railroads within the State. Jurisdiction over telephone, telegraph, and express companies and their rates was given the Board by law in 1897.

AGENCY HISTORY

NEBRASKA PUBLIC SERVICE COMMISSION
(Continued)

In 1901, the Supreme Court found the law creating the Board of Transportation to be unconstitutional and from 1901 to 1906 control of railroads was the responsibility of the Legislature. The Legislature of 1905 drew up a proposal for a constitutional amendment to create an electric Railway Commission, to be made up of three members to hold office for six years. This amendment was ratified by the voters of the State in 1906. Validity of the amendment creating the Railway Commission was tested in 1907; the Supreme Court held that the amendment was legal and the elected Commissioners were fully qualified to perform their duties.

The last change in the structure of the Nebraska State Railway Commission occurred in January 1964 when the Commission was enlarged to five members. The State was divided into five districts, each electing one Commissioner.

The first annual report of the Railway Commission to the Governor covered only railroads and telegraph and telephone companies. The Commission's current annual report also includes transmission lines, motor carriers, grain buyers' licenses, itinerant merchants, joint board activities, grain warehouse, moisture testing of grain, and the registration of interstate carriers. To accommodate this workload, the Commission has divided the agency into the following departments: General Administration, Rates and Services, Engineering, Warehousing, Communications and Motor Transportation.

In November of 1972, the citizens of Nebraska voted to change the name of this agency; and in December 1972, the Nebraska State Railway Commission became the Nebraska Public Service Commission (PSC).

NEVADA PUBLIC SERVICE COMMISSION

By an act approved March 28, 1919, the Legislature created the Public Service Commission (PSC) of Nevada superseding the Railroad Commission which had existed since 1907 and which had served as an ex-officio Public Service Commission since 1911. The members were appointed by the Public Service Board (Governor, Lieutenant Governor and Attorney General) and consisted of one full-time Commissioner, one part-time, and the State Engineer as ex-officio Commissioner. In 1957, the Legislature empowered the Governor to appoint three full-time Commissioners, all serving staggered four-year terms. The Commission was expanded to five members in 1983.

The PSC was given regulatory powers including supervision and control of rates and services of railroads; automobiles; auto-trucks transporting persons or property for hire over State highways as common carriers; express; telephone and telegraph; heat, light, power in any form; water and sewer companies.

During 1923-24 motor common carrier jurisdiction reverted to the counties, and in 1925 the legislature, at the request of the County Commissioners restored jurisdiction to the State body.

Starting in the early twenties the Chairman acted, and continues to act, as ex-officio Tax Commissioner without compensation, representing the Tax Commission in the assessment and equalization of railroad and public utility property.

A special session of the Legislature in 1928 placed air common carriers, radio and broadcasting instrumentalities under the PSC.

The 1933 session passed the motor carrier licensing and regulation act, placing under the PSC's jurisdiction the collection of fees for, and licensing of, private and contract carriers, as well as certificated common carriers.

In 1935 jurisdiction over the creation only of power districts was added. In 1939 contract motor carriers were placed under regulation and 75 permits issued under the "grandfather" clause.

The 1949 session of the Legislature combined several State departments under the jurisdiction of the PSC - Driver's License, Highway Safety, Motor Vehicle (registration), Nevada Highway Patrol (newly created), Safety Responsibility (providing protection from financially irresponsible motor vehicle owners and operators involved in accidents), with a director for each division and a staff of some additional 60 employees. These remained under PSC jurisdiction until a Department of Motor Vehicles was created and became active in July 1959, transferring the foregoing divisions, together with the third-structure motor carrier licensing to that department. However, the issuance, regulation and control of motor carrier common and contract authority remained with the PSC, as did supervision for licensing purposes of common, contract and private carriers.

In 1975 an Executive Director was appointed to handle commission administrative matters. A new Consumer Affairs Division was also formed within the Division.

AGENCY HISTORY

NEVADA PUBLIC SERVICE COMMISSION
(Continued)

The 1983 Nevada Legislature expanded the Commission from three to five members. It provided that the governor shall appoint as members individuals having at least two years of experience in one or more of the following fields "accounting, business administration, finance, administrative law, professional engineering, the operation of motor carriers. One commissioner may be appointed to represent the general public."

The 1983, 1985 and 1987 Legislatures have encouraged the Commission to continue the economic and safety regulation of the intra-state motor carrier industry.

The 1983 Legislature approved Senate Bill 161, known as the Utility Resource Planning Act. This requires the state's two largest electrical utilities (Sierra Pacific Power Co. and Nevada Power Co.) to undertake long-range forecasts. The law specifically directs the utilities to take into consideration cogeneration, conservation and alternative forms of energy to provide new energy resources instead of building new generation facilities. The Commission subsequently adopted regulations governing information that should be contained in the plans and methodologies the utilities should use. The Commission has approved, with some modifications, resource plans for both utilities.

The 1985 Legislature approved legislation that will allow Sierra Pacific Resources, the holding company for Sierra Pacific Power Co., to build a series of coal-fired power plants in North Central Nevada with minimal PSC approval. Under the revised law, the PSC has to ascertain that all environmental concerns are met before issuing a construction permit under the Utility Environmental Protection Act. The PSC is not required to establish the "need" for the project.

As of July 1, 1985, Commissioner Jo Ann Kelly was based full-time out of the Las Vegas office. Commissioner Rose McKinney-James joined her in the Las Vegas office on January 4, 1989.

The 1987 Legislature made a number of statutory changes that will enhance the Commission's regulation of small water companies and, hopefully, will ensure improved quality of service. The Legislature also approved resource planning for natural gas utilities and expanded the Commission's jurisdiction over LPG systems by declaring that any master meter system with 10 or more customers was a public utility. The Legislature also passed a resolution directing an interim committee to study changing Nevada's ratemaking from a historic test year to a future test year.

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

The Public Utilities Commission was created by an 1838 statute which appointing commissioners in each New Hampshire county having limited powers regarding railroads. This was the first attempt by any State in the United States to regulate transportation. The State Board of Railroad Commissioners was established in 1844 and was the first such board in the nation.

In 1911, the New Hampshire Legislature enacted comprehensive legislation by instituting a new system for the establishment and regulation of public utilities and railroads in the State. As a result, the Public Service Commission was created as a State tribunal and given broad supervisory and regulatory powers over public utilities.

In 1951, the name Public Service Commission was changed to Public Utilities Commission, its present title.
On June 26, 1985, Governor Sununu signed public law 402 which established a Department of Transportation (DOT) and transferred the commission's transportation department to the DOT. The statutory definition of "public utility" was to exclude railroads, passenger carriers, toll bridges, toll roads, carriers of household goods for hire by motor vehicle and motor vehicles carrying property for hire. Much of the deleted jurisdiction was transferred to the new Department of Transportation.

Also during this biennium, the commission gradually increased its Seabrook contingent to include a Nuclear Engineer, a Chief Auditor, three PUC examiners and a secretary permanently posted to Seabrook Station.

NEW JERSEY BOARD OF PUBLIC UTILITIES

The predecessor to the Board of Public Utility Commissioners, the Board of Railroad Commissioners, was established in 1907 with general supervision over all railroads operating in New Jersey. By law approved March 24, 1910, the 1907 law was amended and supplemented. Also, the name of the Board was changed to Board of Public Utility Commissioners. The jurisdiction of the Board was extended over all public utilities specified in the Act; namely, railroad, express, street railway, traction, canal, subway, pipeline, gas, electric light, heat and power, water, sewer, telephone, telegraph, or other corporations operating in New Jersey for public use under State or municipal privileges. Among other powers, the Board was authorized to require utilities to

AGENCY HISTORY

NEW JERSEY BOARD OF PUBLIC UTILITIES
(Continued)

furnish safe and adequate service; to prohibit discriminations such as rebates; and to direct the keeping of a uniform system of accounting. Although the Board's jurisdiction was somewhat limited, the law was significant in that there was created an administrative body concerned solely with utility regulation.

Effective May 1, 1911, a new utility law was passed creating the Board of Public Utility Commissioners. The expanded powers of the Board included the fixing of just and reasonable rates, regulation of security issues, approval of franchises, and fixing of service standards and accounting procedures. In general, the Board was vested with supervision and regulation of all public utilities enumerated in the statute.

The Board consists of three members, not more than two of the same political party, appointed by the Governor with the advice and consent of the Senate, for six-year terms. One of the Commissioners is designated President by the Governor.

Statutory revisions throughout the years have expanded the Board's powers. In 1921, the Board was given limited jurisdiction over autobuses commonly called jitneys. The jurisdiction was extended in 1926 to all autobuses. The Board's grade crossing elimination program came into being by law in 1930 where State bond proceeds of the $18 million were earmarked for the grade crossing elimination fund to pay the public share of the eliminations, on other than State highways, at the rate of $2 million per year. A motor fuels tax was imposed in New Jersey in 1935 whereby $2 million was appropriated annually to the Board for the elimination of grade crossings, which was not to be used if moneys were available in the grade crossing elimination fund. Presently, the Board surveys and inspects 2,365 public grade crossings. The crossing program was extended in 1960 to include bridges, passages, and protective devices.

The New Jersey Constitution of 1947 authorized a maximum of 20 principal departments in the executive branch of the government. By subsequent legislation creating 14 such departments, the Department of Public Utilities was formed. The Board is the head of the Department, and the President is its chief administrative officer, as well as being a member of the Governor's Cabinet.

Formal and informal proceedings before the Board are governed by the Board's Rules of Practice, Suggested Procedures, Administrative Orders, and Regulations. Formal proceedings encompass public hearings after which the Board issues its decision or order.

The Board's jurisdiction was further extended by a major amendment in 1962 of the Public Utility Law, effective March 12, 1963. The major changes in the new law were:

Condemnation--To exercise eminent domain powers, all public utilities must first obtain Board approval (heretofore such provision applied only to electric and gas companies).

Discontinuation of Service--No utility may discontinue service without Board consent (previously only sewer and railroad companies were so affected).

Incorporation--Formation of utilities is to be affected under the general corporation law whereas before varied incorporation acts were contained in the utility law, which are now repealed.

Railroads--The cost formula for work on railroad bridges, passages, and safety devices may be changed from State 85%- to State 70% -railroad, 15%-municipality or county-15%.

Rates--Suspension of rates is extended from six to eight months allowing more time for decision on complex rate matters and, in certain instances, no rate base need be approved.

The Solid Waste Utility Control Act of 1970 charged the Board with the duty of "setting and enforcing standards and rates for regulating economic aspects of solid waste collection, disposal and utilization [resource recovery].

In 1972, the Cable Television Act vested the Board with the authority to regulate the rates, services and operations of cable television companies. The Office of Cable Television is within the Board but functions independently of the Board with respect to the regulation of cable companies doing business in the State.

The Board of Public Utility Commissioners was reorganized effective July 1977, and is now known as the Board of

AGENCY HISTORY

NEW JERSEY BOARD OF PUBLIC UTILITIES
(Continued)

Public Utilities, a division of the newly created Department of Energy. By Executive Order in 1979, the Department of Transportation assumed responsibility for the regulation of autobuses and railroads.

When the Department of Energy was dismantled in 1987, the Board was placed "in, but not of" the Department of Treasury.

NEW MEXICO PUBLIC SERVICE COMMISSION

The New Mexico Public Service Commission (PSC) was established by the Legislature of the State of New Mexico in 1941. Members of the PSC are appointed by the Governor for six-year terms, one every two years.

Prior to 1941 there had been no regulation of water, gas, electric or steam utilities in New Mexico by a State agency. The constitution of the State of New Mexico, adopted in 1912, had established the State Corporation Commission and gave it jurisdiction over communications companies and common carriers. However, in **La Follette v. Albuquerque Gas & Electric Company**, the Supreme Court of New Mexico ruled that the State Corporation Commission had no jurisdiction over gas or electric public utilities.

A committee was established in the 1930's to prepare legislation for the regulation of public utilities to be presented to the 1941 Legislature which enacted the Public Utility Act defining Public Utility Service as the transmission, distribution, sale and furnishing to or for the public of electricity, gas, water or steam. The PSC immediately organized itself and adopted rules and regulations necessary to its function of regulating public utilities.

The Public Utility Act gives the PSC plenary jurisdiction over gas, electric, water and steam public utilities operating within the State of New Mexico. The most important phases of regulation relate to rate control, control over the areas wherein service is rendered by utilities through issuance of certificates of public convenience and necessity and the approval of financing to be used for the construction, maintenance and improvement of public utility facilities.

In 1955 the Legislature gave the PSC jurisdiction over the sale and furnishing of liquefied petroleum gas to consumers. The regulation of this industry was for safety purposes and the PSC did not regulate the rates or charges made by the companies selling liquefied petroleum gas. The Legislature established a separate Liquefied Petroleum Gas Commission in 1955 and transferred the PSC's liquefied petroleum gas regulation functions to the new commission.

In 1961 the Legislature gave the PSC jurisdiction over corporations organized under the New Mexico Rural Electric Cooperative Act and made such corporations partially subject to the Public Utility Act. The PSC has no jurisdiction over the cooperative's rates in most instances and has no jurisdiction over financing obtained from Federal agencies.

In 1960 the Supreme Court in **Socorro Electric Cooperative, Inc., a corporation, Petitioner–Applicant v. Public Service Company of New Mexico, a corporation, and the New Mexico Public Service Commission, Respondents– Appellees, 66 N.M. 343, 348 P.2d 88**, ruled that rural electric cooperatives were not public utilities as defined in the Public Utility Act and therefore were not subject to PSC jurisdiction and could not obtain effective relief in a proceeding before the PSC and could not be bound by Orders of the PSC. The Act bringing the cooperatives within the PSC's jurisdiction provided that each such company would apply to the PSC for an initial certificate covering its existing plant, lines and system and directed the PSC to issue a certificate to each such corporation upon proof of the existence and operation of such facilities. It is interesting to note that in 1941 when the Public Utility Act was originally enacted the public utilities were not required to apply for and obtain certificates of public convenience and necessity to their existing facilities. The act provided that the companies could continue to operate such facilities and to extend into territory contiguous to territory being served without obtaining authority from the PSC. However, new construction and service outside of areas contiguous to territory presently served required that the utility first obtain a certificate from the PSC. Thus the traditional, investor-owned utilities continued to operate existing facilities without certificates, whereas the group of rural electric cooperatives were required to obtain certificates to existing facilities promptly after they became subject to the PSC's jurisdiction.

Legislation passed in the 1985 legislative session changed the jurisdiction of the Commission as follows: (1) With proper notice procedures, water utilities with annual revenues of less than $500,000 can file rate increases of less than 50% with Commission approval, unless 10% of water users petition for a hearing; (2) With proper notice procedures, rural electric cooperatives can file rate increases without Commission approval unless one or more members petition for a hearing; (3) Water and sanitation districts will not be subject to Commission jurisdiction unless: (a) Their governing board votes to become subject

AGENCY HISTORY

NEW MEXICO PUBLIC SERVICE COMMISSION
(Continued)

to Commission jurisdiction; or, (b) 25 members or 5% of the membership, whichever is less, petition for Commission jurisdiction.

In 1986, the legislature gave the PSC jurisdiction over private sewer companies.

NEW MEXICO STATE CORPORATION COMMISSION

The New Mexico State Corporation Commission (SCC) was created by the Constitution of 1912. The Constitution charged the SCC with the duty of fixing, determining, supervising, regulating and controlling all charges and rates of railway, express, telegraph, telephone, sleeping-car and other transportation and transmission companies and common carriers within the State. This last catch-all phrase gave the SCC jurisdiction over such industries as motor carriers, airlines and pipelines. The Constitution also provided that unreasonable orders of the SCC could be removed to the Supreme Court for final determination and the Court can obtain additional testimony in the cause involved.

The Constitution provided for three elective Commissioners, one to be elected every two years for a six year term. This system has worked rather successfully and several Commissioners have served three and four terms. From time to time constitutional referendums have been proposed to change the elective process to appointive and to invest the SCC with the regulation of utilities now under the jurisdiction of the New Mexico Public Service Commission, but all efforts to merge the two have failed.

The SCC is divided into five program elements, the basic duties of each area are as follows:

Insurance Department--License, approve rates and generally regulate all insurance companies doing business in New Mexico.
Transportation Department--Regulates common carriers as to certification, insurance and certain taxes. Regulates and approves rates of telecommunications utilities and common carriers.
Corporation Department--Issues charters to corporations doing business in the State.
Pipeline Division--Has jurisdiction over trunk pipelines and also regulates cotton gins.
State Fire Marshal's Office--Has jurisdiction over fire prevention, fire safety and education. Conducts investigations of fires.

NEW YORK PUBLIC SERVICE COMMISSION

The New York Commission has had many forebears. The first of these was the Board of Railroad Commissioners created by the Legislature in 1855. This early Commission was given limited administrative powers. Railroad rates were fixed in a statute by the Legislature. A statute enacted in 1850 permitted the railroads to earn profits of ten percent of capital actually expended. This first Commission died in a manner unusual for a governmental agency--it recommended its own demise. Its successor, the Board of Railroad Commissioners, created in 1882, had broader powers, but it did not have any ratemaking authority; this power remained in the Legislature.

Meanwhile the transit situation in New York City had become acute and the State created in 1891 a Board of Rapid Transit Railroad Commissioners to deal with that local situation.

The first important powerful ratemaking agency was created by the Legislature in 1905 when the Commission of Gas and Electricity came into existence. It was empowered to fix the maximum prices to be charged by gas and electric companies and the constitutionality of such delegation under an implied standard of "reasonable rates" was upheld by the State's highest court. The statute creating the Commission was itself held unconstitutional because it would have irrevocably frozen the rates for a three-year period.

Meanwhile Governor Hughes, who had been Counsel to a 1905 Legislative Committee which investigated gas and electric rates, recommended the enactment of the first Public Service Commission Law. That statute was enacted in 1907 and under it the State was divided into two districts, each with a separate Commission. The Commissions had broad general supervisory powers over railroads, common carriers and gas and electric corporations, including effective ratemaking power. The First District Commission was given supervision of the New York City utilities and the powers of the old Board of Rapid Transit Railroad Commissioners. The Second District Commission was given jurisdiction in the balance of the State. The period from 1907 through 1930 witnessed an expansion of the jurisdiction of these Commissions over additional types of utilities. In 1910 telephone and telegraph companies were placed under the supervision of the Second District Commission. In 1913 steam companies, stockyards and certain baggage and transfer companies were also brought under the Second District Commission's jurisdiction. Both Commissions were given limited jurisdiction to issue certificates of convenience and necessity to omnibus corporations in

AGENCY HISTORY

NEW YORK PUBLIC SERVICE COMMISSION
(Continued)

the same year. In 1917 water carriers were subjected to regulation as common carriers.

In a reorganization of the State government in 1926 a new Department of Public Service was created. It was comprised of two divisions. One, the State Division headed by the Public Service Commission (old Second District Commission) and the Metropolitan Division, headed by the Transit Commission (old First District Commission). In 1930 the Legislature, after a thorough investigation of the Public Service Commission's law enacted many changes to strengthen the powers of the Public Service Commission in dealing with capitalization matters, holding and affiliated companies, utility accounts and records, financial transactions, etc. Later the Public Service Commission's jurisdiction was expanded to include water-works corporations (1931), motor carriers of property (1938) and charter bus operators, i.e., omnibus operators not within the common carrier concept of omnibus corporations (1955). Meanwhile the earlier vague and limited jurisdiction over omnibus corporations was broadened so that such companies could feel the full impact of the Commission's broad regulatory powers.

In 1953 the Metropolitan Division and Transit Commission were abolished and all of their remaining duties and powers were transferred to the present Public Service Commission (PSC). The PSC is composed of seven members appointed by the Governor with the consent of the Senate. One member is designated as Chairman by the Governor. All Commissioners hold office for staggered six year terms. Secretary and General Counsel are statutory positions. In 1949 the PSC became affiliated with NARUC.

In March of 1971, all regulatory transportation functions and records of the PSC were transferred to the New York State Department of Transportation.

Legislation enacted in 1972 established within the PSC the State Board on Electric Generation Siting and the Environment.

In 1978 the New York Legislature amended Article VII of the Public Service Law pertaining to Siting of Major Steam Electric Generating Facilities. The Article VIII that was enacted in 1972 is still in force and effect with regard to applications filed on or before December 31, 1978. The Legislature, however, added to the Public Service Law a new Article VIII that applies to applications filed after December 31, 1978. In addition, the Legislature repealed §149-b of the Public Service Law, in which the Commission's jurisdiction over long-range electric system planning was contained. That jurisdiction was transferred from the Commission to the New York State Energy Office and is contained in Article 5 of the Energy Law, §5-112 - Long-Range Electric and Gas System Planning. (Added L. 1978, c. 707, §4.)

Chapter 713 of the Laws of 1981 added new Article 2 to the Public Service Law. This addition codified and consolidated the rights and responsibilities of electric, gas and steam utilities and their residential customers to ensure the continued and uninterrupted provision of utility service. The legislation authorized funding for a new Consumer Services Division to implement this statute. The Consumer Service Sections formerly associated with the Power, Gas and Communications Divisions of the Department of Public Service were integrated into the Consumer Services Division.

In August 1982, the Consumer Services Division was formulated to expand and consolidate activities involved with consumer complaints and rights. This division, the largest in the agency, responds to all consumer complaints, educates the public on rules, regulations and new energy saving methods, staffs and monitors a HOTLINE for utility-related problems and promotes the activities and functions of the agency. Previously, the Water, Communications, Gas and Power Division each had sections doing some of this work; the consolidation allowed for improved efficiency through centralization and expansion of the former consumer-related activities.

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

In 1970 the New York State Legislature transferred responsibility for the economic and safety regulation of transportation companies from the New York PSC to the Department of Transportation as of March 1, 1971. This responsibility extends to carriers of property and passengers operating wholly or partially within the State, and includes railroads, bus companies and trucking firms. The interstate operations of these carriers are subject to regulation by Federal agencies.

Broadly, the Department's objective is to ensure that all regulated carriers render adequate service at reasonable rates and perform their services with due regard to public safety. The safety aspects include both the use of safe, properly maintained equipment and the conduct of transportation operations in a safe manner. Other State agencies--particularly the Department of Motor Vehicles--also play an important part in safety regulation.

AGENCY HISTORY

NEW YORK STATE DEPARTMENT OF TRANSPORTATION
(Continued)

Statutory authority over the rates, finances and service of common and contract carriers, together with the ability to influence Federal law and policy bearing upon public transportation within the State, enables the Department to give direction to the use of private capital in the transportation industry. These activities are correlated with the Department's capital improvements program through which public investment in the industry is accomplished. By this means, the Department can effectively guide the use of both public and private funds in developing transportation capabilities which respond to needs identified by Statewide and regional studies.

All vehicles used to transport children to and from school, all vehicles used by contract carriers under Departmental jurisdiction and all transit and intercity buses operated by private companies must pass a comprehensive safety inspection at least twice a year. The Department's bumper-to-bumper inspections are conducted by its specialized field personnel. Certificates are issued for each vehicle, without which they may not legally carry passengers. When safety deficiencies are discovered, certification is withheld until repairs are made.

Railroads operating within the State are regularly visited by Department specialists who make sure that safe equipment is used and safe operating practices are observed. Spot checks are made at terminals for equipment deficiencies and frequent inspections are conducted to check track condition, switches, signal systems and grade crossing protection devices. Inspections are made of rolling stock and all significant derailments and accidents are investigated.

Complaints from the public as well as reports by Department field personnel may result in the institution of formal proceedings, involving public hearings, to further investigate the safety practices of rail or motor carriers or the safety of environmental implications of their operations.

Determinations as to the need for improved highway/railroad grade crossing protection are made by the Department after public hearings on the matter. Questions involving the manner in which new crossings should be constructed or existing crossings rehabilitated are also the subject of formal proceedings and may result in orders to the affected railroads as to their discharge of responsibility.

Common carriers under jurisdiction include some 32 railroads, 135 franchised bus lines, 1,400 trucking firms (including inter-city household goods movers) and 700 movers within the New York City area. These companies are obliged under terms of their certification to provide service to the general public according to schedules of rates and charges approved by the Department. Contract carriers, which include charter bus operators, limousine operators, private school bus contractors and more than 430 specialized trucking firms, enter into individual contracts with specific customers. Copies of their contracts and schedules of charges must be filed with the Department.

Constant surveillance of the operations of all regulated carriers is maintained by the Department's decentralized staff of service and financial experts.

In recent years, rising operating costs magnified by the inflationary trend have necessarily resulted in a significant rise in the cost of transportation service. An important aspect of the Department's regulatory work is to determine the reasonableness of any revisions a carrier seeks to make in its fares or rates. In making such determinations, the Department must not only protect the consumer from unreasonable charges, but also permit the carrier a rate of return commensurate with business risk. The Department also must consider the impact of its decision upon the carrier's ability to meet the consumer's future expectations of good, reasonably priced service.

To revise the schedule of charges for the various services it holds forth to the public, a carrier must file amendments to its tariff together with a statement in support of the changes proposed.

The Department permits tariff revisions to go into effect only after thorough analysis finds the company's position fully justified. The public must also have been given proper notification. If supporting data are insufficient, or if equitability or reasonableness is not demonstrated, the Department will institute a formal investigation of the propriety of the proposed tariff amendments and may postpone the effective date of the changes pending the outcome of the investigation.

Such investigations involve public hearings, and final determination is based upon testimony and evidence presented. Ultimately, the Department may accept the tariff amendments or order them cancelled, and may invite the carrier to submit modified amendments.

AGENCY HISTORY

NEW YORK STATE DEPARTMENT OF TRANSPORTATION (Continued)

The Department conducts many other types of proceedings in performing its regulatory role--some self-initiated and others arising from the petitions of carriers or complaints of consumers and local governments, including requests by truck and bus companies for operating authority. Others concern carrier operating practices, change or discontinuance of service, revocation of authority, financial practices and the need for improved railroad crossings.

NORTH CAROLINA UTILITIES COMMISSION

The North Carolina Utilities Commission (NCUC), a department of the State government, had its inception in 1891 when the Legislature established what was then known as the Railroad Commission. The Railroad Commission was vested with rate-making and supervisory authority over railroads, steamboats, canals, telegraph and express companies. In 1892, the NCUC became affiliated with the National Association in existence at that time and the present NARUC. In 1893 the Railroad Commission was given authority to regulate the rates and service of telephone companies, and in 1897, street railways. In 1899, the Railroad Commission was changed to the Corporation Commission and given additional duties and functions. By action of the Legislature in 1933 the office of Utilities Commissioner was established, with the assignment of two assistants on a part-time basis. Later, in 1941, this office was changed to the North Carolina Utilities Commission, consisting of three full-time members. In 1947 motor vehicle common and contract carriers of property over irregular routes were brought under regulation. In 1949, the membership was changed to five members, three of whom were appointed for six years and two for four years for the first appointments and for six year staggered terms thereafter.

The utility laws of North Carolina were updated and rewritten in 1963. Also in 1963 the Commissioner's term of office was expanded to eight years, the term of Chairman being four years. In 1965 Electric Membership Corporations were brought under limited jurisdiction of the Commission relating to assignment of service and promotional payments. The General Statutes of the Public Utilities Act were amended in 1969 to grant the Utilities Commission authorization to require all interstate carriers to file copies of their respective interstate authority or register their exempt operation; the registration for the ICC exempt carriers for the first time being the significant feature of this Act. In 1971 the General Assembly of North Carolina approved amendments to the General Statutes creating the North Carolina Department of Commerce and transferred the Utilities Commission to the Department of Commerce.

The General Assembly of 1975 required the Commission to develop, publicize and keep current an analysis of the long range needs for expansion of facilities for the generation of electricity in North Carolina, including its estimates of the probable growth of the use of electricity, the probable needed generating reserve, the extent, size, mix and general location of generating plants and arrangements for pooling power to the extent not regulated by the Federal Power Commission (now the Federal Energy Regulatory Commission).

The North Carolina General Assembly amended the Public Utilities Act to increase the size of the Commission from five Commissioners to seven effective July 1, 1975, and to authorize the Commission to sit in panels of three Commissioners to issue final Orders, with certain exceptions for full Commission review. The NCUC now consists of seven members appointed by the Governor for terms of eight years. One member of the NCUC is appointed Chairman by the Governor. Each Commissioner is required to take and file with the Secretary of State an oath of office to support the Constitution and laws of the United States and the State of North Carolina and is prohibited from the practice of law while serving as a Commissioner.

The 1977 North Carolina General Assembly amended General Statutes Chapter 62 to provide for a Public Staff in the Utilities Commission to represent the using and consuming public. On July 1, 1977, the Commission was completely restructured into two staffs, the Commission Staff consisting of about 73 employees and the Public Staff consisting of approximately 87 employees, under the direct supervision of an Executive Director. The Statute provides that it is the duty and responsibility of the Public Staff to review, investigate, and make appropriate recommendations to the Commission with respect to the reasonableness of rates and service, and to petition the Commission and assist the Commission on behalf of the using and consuming public on matters concerning the regulation of public utilities.

The General Assembly of 1977 amended G.S. 62-135 entitled "How rates fixed" to require that rate applications filed on and after July 1, 1979, the Commission must use as the rate base for fixing rates of electric, gas, telephone and water and/or sewer utilities (unless the operating ratio is used for water and sewer companies) the reasonable original cost, less depreciation plus the reasonable original cost of construction work in progress (CWIP) of the public utility's property. This method replaces the previously used Fair Value formula (which excludes the value of CWIP) in determining the rate base for the fixing of rates. In conjunction with the enactment of the above amendment the General Assembly also amended G.S. 62.2 entitled "Declaration of Policy" by adding a new subsection (5) which reads as follows:

NORTH CAROLINA UTILITIES COMMISSION
(Continued)

"(5) Require each public utility to discontinue capitalization of the composite carrying cost of capital funds used to finance construction (allowance for funds) or the construction work in progress included in its rate base upon the effective date of the first and each subsequent general rate order issued with respect to it after the effective date of this subsection; allowance for funds may be capitalized with respect to expenditures for construction work in progress not included in the utility's property upon which the rates were fixed. In determining net operating income for return, the Commission shall not include any capitalized allowance for funds used during construction on the construction work in progress included in the utility's rate base."

The 1982 General Assembly (Short Session) changed the method and times per year the fuel clause adjustment may be considered and the treatment of Construction Work in Progress (CWIP) for rate-making purposes. Chapter 62 of the General Statutes was amended by adding a new section, G.S. 62-133.2, providing that the Commission conduct only one hearing for each electric utility within 12 months of the last general rate case for the purpose of determining whether an increment or decrement rider is required to reflect actual changes in the cost of fuel and the fuel cost component of purchased power over or under base rates established in the last preceding general rate case. The amended law also provided that the Commission allow only that portion, if any, of a requested fuel adjustment that is based on adjusted and reasonable fuel expenses prudently incurred under efficient management and economic operations. Before enactment of this amendment, there were fuel cost adjustment proceedings three times a year, and the Commission had been barred by Court decisions from reducing fuel charges because of inefficient management or poor plant performance. The old fuel adjustment procedure in G.S. 62-134(e) was repealed. In 1988 the fuel clause was expanded to consider management efficiency in minimizing fuel costs.

CWIP changes for rate-making purposes were implemented by the General Assembly by changing words in the second sentence of G.S. 62-133(b)(1) from "shall be included" to "may be included, to the extent the Commission considers such inclusion in the public interest and necessary to the financial stability of the utility in question." Prior to this change (since July 1, 1979) in the wording of G.S. 62-133(b)(1), the Commission had been required to include in the rate base for rate-making purposes the reasonable original cost of CWIP which had the effect of allowing the utilities to recover through rates the cost of obtaining money to build new facilities. The new law gives the Commission discretionary authority on whether to include CWIP costs in rates. The new law was effective June 17, 1982, the date of ratification.

1983 Legislation affecting the activities of the North Carolina Utilities Commission included a change in the appeals procedure of general rate cases and the transfer of certain functions of the Commission. Appeals in a general rate case from decisions of the Utilities Commission now go directly to the Supreme Court (G.S. 7A-29). In the past, the appeal was made to the Court of Appeals. The safety regulation of all motor carrier transportation services was transferred from the Utilities Commission, Department of Commerce, to the Department of Motor Vehicles, Department of Transportation.

The 1984 House Bill 1513 changed the State tax structure for commodities and services provided by certain utilities. This act enables individuals to deduct the taxes on these commodities and services from their Federal Income. This does not change rates, it simply converts about one-half the franchise tax to a sales tax so that the sales tax can be deducted from an individual's Federal Income Tax liability as an itemized deduction. The bill was ratified July 6, 1984, and was made effective January 1, 1985.

The major duty of the NCUC is to regulate the rates and services of privately owned utilities such as electric, telephone, telegraph, gas, water and sewer, flume, and all forms of motor and rail transportation companies.

NORTH DAKOTA PUBLIC SERVICE COMMISSION

The Office of Board of Railroad Commissioners was created by the constitution (1889) with the provision that the Legislature would define its powers and duties. Members are elected by popular vote of the people. The first session of the Legislature provided that the Board should meet at least five times annually for the purpose of hearing complaints and taking evidence; the first meeting to be held at Bismarck, the second at Minot, third at Fargo, fourth in Grand Forks and the fifth in Carrington, each session to be not less than three days. The president of the Commission could also call special sessions if he deemed it necessary.

The earliest duties imposed upon the Board of Railroad Commissioners were those relative to the regulations of railroad rates and practices, railroad crossings, stockyards, depots, industrial sites, marketing of grain, ferries, toll bridges, and river transportation.

In 1919 the Commission was given supervision of all public utilities, and it was also made a full-time position requiring the Commissioners to reside at Bismarck. Since that time, and practically at every session of the Legislature, added duties have

AGENCY HISTORY

NORTH DAKOTA PUBLIC SERVICE COMMISSION
(Continued)

been given to the Commission, including supervision of telegraph companies, telephone companies, water, gas, light, heating and power companies, pipeline, motor carriers, grain elevators, public storage warehouses other than grain, weigh masters, weights and measures, and public auctioneers. Jurisdiction over public utilities extends to certificates of public convenience and necessity, rates and services.

In 1940, by initiated referendum the name of the Commission was changed from Board of Railroad Commissioners to that of Public Service Commission (PSC). Originally the terms of office were for two years but in 1908 the constitution was amended to provide for six-year staggered terms. The PSC has been a member of the NARUC since 1916.

OHIO PUBLIC UTILITIES COMMISSION
Highlights of the PUCO's History

1867--The Ohio General Assembly established the office of the Commissioner of Railroads to secure adequate service at a reasonable cost.

1911--Due to advent and rapidly increasing use of gas, electric, and telephone service, it became evident that additional regulatory authority would be required. These utilities were combined with the responsibilities of the Railroad Commission to form the newly named Public Service Commission.

1913--The Ohio Legislature established Public Utilities Commission of Ohio with increased regulatory authority.

1923--The regulation of buses and trucks were included under PUCO jurisdiction.

1933--The regulation of contract permit motor carriers was added to the PUCO's responsibilities.

1961--The Ohio Legislature added sewage disposal to the PUCO's regulatory responsibilities.

1969--The regulation of investor-owned water companies and railroad bridge safety was assigned to the PUCO by the Ohio Legislature.

1972--The Ohio Power Siting Commission (OPSC) was established to regulate the location and construction of power plants and transmission lines in the State of Ohio. The PUCO's chairman was assigned as a member of this five-member agency.

1981--The Ohio General Assembly incorporated the Ohio Power Siting Commission into the PUCO and renamed it the Power Siting Board (PSB). The Chairman of the PUCO is now the Chairman of the PSB.

1983--By statute, the composition of the Commission was expanded from three Commissioners to five Commissioners.

June 24, 1988--Law was passed requiring all hazardous material carriers in the State of Ohio to register with the Public Utilities Commission of Ohio (PUCO), identifying which trucks are carrying hazardous materials throughout the State, which routes are being used, and amount of material being transported.

OKLAHOMA CORPORATION COMMISSION

The Corporation Commission of the State of Oklahoma (OCC) is a Constitutionally created body comprised of three elected members. The six-year terms are staggered so that one Commissioner vacancy occurs every two years. At the time of Statehood in 1907, the provisions originally creating the Corporation Commission were adopted almost verbatim from provisions of the Virginia Constitution. The Oklahoma Constitution gave the OCC limited legislative, administrative and judicial powers over railroads and other transportation and transmission companies and specifically provided that the Legislature could, from time to time, delegate other and additional duties to the OCC.

In its early days the Corporation Commission was primarily engaged in the regulation of railroads, the major form of transportation in the State at the time of Statehood. A most unique feature in this delegation of authority by the Legislature was the declaration of cotton gins to be public utilities in Oklahoma. Since that time this Commission has regulated the practice, services and charges of gins as well as issuing certificates for new construction of cotton gins and facilities, and authorizing dismantling of the same.

AGENCY HISTORY

OKLAHOMA CORPORATION COMMISSION
(Continued)

Shortly after Statehood, the Legislature declared ice plants to be public utilities and placed regulatory responsibility for these on the Corporation Commission. The OCC exercised that jurisdiction until, in the classic case of **New State Ice Company v. Liebmann**, the US Supreme Court held that the legislation declaring the ice plant a public utility was unconstitutional.

With the development of the Motor Carrier Industry, the Legislature gave the OCC regulatory responsibility for motor carrier transportation of persons and property. The basic Motor Carrier Act, under which the Commission still operates, was passed in 1929, although there was some regulation prior to that date.

The Oklahoma Corporation Commission has broad supervisory responsibilities over public utilities, with power to regulate rates, practices and charges of all entities under its jurisdiction, but does not have jurisdiction over municipal utilities. In 1986, HB 1717 was passed which streamlined procedures followed by rural telephone companies in changing rates and charges for telephone service in the state. Also in 1986, Commission Order Number 282453 was issued which permitted intrastate interLATA telephone companies to modify rates and charges for service in Oklahoma upon thirty days notice to the OCC and affected ratepayers, subject to Commission suspension. Save for these, the Corporation Commission regulates the rates of all traditional utility services: gas, electricity, telephone, water and cotton gins.

The Corporation Commission has had progressively greater responsibilities placed on it by the Legislature in connection with the conservation of oil and gas, one of the principal natural resources of Oklahoma. The Legislature has given the Commission authority and responsibility for general supervisory control over the production of oil and gas, to assure the maximum production under an orderly process of development, at a reasonable cost. This includes the setting of allowables for production of wells; spacing of wells based on geological and other technical data to prevent drilling of unnecessary wells; provision for pooling and unitization of fields; and regulation of the disposal of salt water, oil and other dilatory substances so as to prevent pollution of streams and other water sources.

In addition, the Commission has been charged with responsibility for testing brake fluid, anti-freeze and certain other automotive fuels and gases sold in the State of Oklahoma, to insure that the products reach certain reasonable standards prescribed either by statute or by rules and regulations of the Commission. The Commission also has the responsibility to calibrate gasoline pumps and other measuring devices to assure the purchaser that s/he is receiving the amount represented.

The Public Utility Division (PUD) Staff audits, investigates and makes recommendations to the Commission through public hearings concerning rate adjustments and changes in service sought by utility companies and cooperatives.

The PUD Staff also monitors fuel procurement prices and procedures, application of fuel adjustment clauses of gas and electric utilities and maintains quality-of-service surveillance of all Corporation Commission regulated utilities.

In 1988, the Commission regulated 211 utilities: 35 electric, 22 gas, 46 local exchange telephone, 6 long-distance telephone, 34 water companies and 68 cotton gins. Public Utility Division Staff investigated and made recommendations on 39 rate adjustment applications, 166 service modification applications, policy and tariff modification applications, and fuel applications; and 9,795 complaints concerning utility and jurisdictional issues. In addition, staff investigated and verified data submitted for 8 HB 1496 cases.

Several major decisions occurred during 1988:

In 17 OS §158.27 (HB 1496), the Oklahoma Legislature created streamlined procedures for electric cooperatives to use in implementing rate changes with limited intervention by the OCC provided certain criteria are met.

In Order 325146, the OCC adopted rules governing the procedures to be followed in processing public requests for extended area service.

In Order 324535, The OCC approved expansion of Oklahoma Natural Gas Company's "Special Industrial Sales Program" to include all customers on the 301D rate schedule, schools, hospitals and churches. This program freezes the cost of gas to participating customers at $2.00 per Mcf plus the approved 301D margin, thereby allowing the company to remain competitive while protecting the company's customer base.

In Order 330170, the OCC ruled that Oklahoma Natural Gas Company was within its rights in refusing to offer natural gas for "stand-by" service.

AGENCY HISTORY

OREGON PUBLIC UTILITY COMMISSION

Though the Commission does not regulate people's utility districts, municipally owned utilities or cooperatives, its jurisdiction extends to those utilities in matters involving public safety and allocation of service areas to those who sell and distribute electricity and gas as well as those who provide telephone service.

Oregon statutes also give the Commission the responsibility of investigating intrastate rates and service of transportation companies and public utilities, and to appear before federal regulatory agencies on behalf of the public.

In 1933, the Oregon Legislature enacted a weight-mile road use tax for trucks, adding this important and unusual responsibility to the Commission's powers and duties in 1933. The Commission regulates the service and rates of the motor transportation industry on the one hand and collects revenue from them on the other.

Part of the weight-mile tax revenue is used to finance regulation of the motor carriers. Another small portion of the tax is used to help support the Oregon State Police. Most of the tax is used to help finance the State Highway Department's maintenance and construction program.

The regulated railroads and utilities bear the cost of administering the laws applying to their operation through assessments on their intrastate revenues.

Special appropriations are provided by the State to finance the Commission's appearance before federal agencies.

Oregon government experienced a number of regulatory acts and commissions prior to the creation of an appointed Public Utility Commissioner, some of them predating statehood.

The first recorded act, adopted July 5, 1843, regulated mills and ferrymen. It was enacted six years before a territorial government was formed and 16 years before the territory became a State. Other than the provisions of this act, reliance during the period was placed on competition as a regulatory device.

The regulatory inadequacies of competition subsequently led to the establishment in 1887 of a Board of Railroad Commissioners. Operating under a defective statute and adverse economic conditions, the Board did not prove effective and it was abandoned in 1898.

There were some gains from this experience, though, since the public had been attracted to the possibility of regulation by a strong, full-time board, and in 1907 a new Railroad Commission was formed. It became the Oregon Public Service Commission in 1911. The Legislature that year extended the jurisdiction of the Commission, which had been limited to railroads only, to include public utilities. The term was defined to mean companies or individuals owning or operating any plant or equipment for the conveyance of telephone messages, for the transportation of persons or property by street railroads or common carriers, or for the production, transmission, delivery or furnishing of heat, light, water or power.

Subsequently, the Commission's jurisdiction was extended in 1917 to include log booming and rafting companies (now discontinued), motor carriers in 1921 and water carriers in 1949 (the latter was discontinued in 1961).

A significant addition to the single Commissioner's authority was made in 1961 when the Legislature passed an act which allows State certification of service areas to electric, gas and telephone utilities. The law was designed to put an end to wasteful duplication of facilities.

As a result of a Law Review Committee Study and subsequent adoption of its recommendations by the 1971 Legislative Session, many outdated statutes were deleted or rewritten.

The 1973 Legislature placed intrastate air regulation under the jurisdiction of the Public Utility Commissioner.

As the result of a ballot measure approved by Oregon voters in November 1986, the Oregon Public Utility Commission was expanded from one to three members effective April 1, 1987. Before then, Oregon was for many years the only state with a single-commissioner system of transportation and utility regulation, a system the state adopted in 1931.

The powers and duties of the three-member Commission are essentially the same as under a single commissioner. The members of the Commission are appointed by the Governor for staggered four-year terms.

AGENCY HISTORY

OREGON PUBLIC UTILITY COMMISSION
(Continued)

The Commission is charged with the regulation of intrastate rates and services of privately-owned utilities and transportation companies. As before, appeals from a Commission decision go directly to the Circuit courts.

Landmark legislation approved in 1987 brought the new three-member Commission into the arena of administering social programs. The Commission is responsible for two new telephone assistance services, the Oregon Telephone Assistance Plan, which provides telephone bill reductions for qualified low-income households, and the Telecommunications for the Deaf Access Program, which provides for purchase and loan of special telecommunications devices to the hearing and speech impaired.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

The Act of March 31, 1937, and the Public Utility Law of May 28, 1937, abolished the Public Service Commission of the Commonwealth of Pennsylvania, successor to the Pennsylvania State Railroad Commission by the Public Service Law of July 26, 1913, effective January 1, 1914, and created and empowered its successor, the Pennsylvania Public Utility Commission (PUC), to regulate the intrastate rates and services of public utilities operating within the Commonwealth. The regulatory functions of the Pennsylvania State Railroad Commission had been limited by its creating Act of May 31, 1907, effective January 1, 1908, to the regulation, control and management of common carriers within the Commonwealth.

The Pennsylvania PUC, serving as an independent administrative commission established by the Legislature in 1937 "supervises and regulates" all public utilities doing business in the Commonwealth.

Supervision and regulation of the public utilities includes: establishing just and reasonable rates; providing for adequate, efficient, safe service and facilities; conducting audits, inspections and investigations; developing energy forecasts, plans and conservation guidelines; providing consumer services; and ensuring the enforcement of, and compliance with, public utility regulations.

The Commission regulates approximately 5,000 public utility corporate and individual entities furnishing the following in-state services for compensation: electricity, natural gas, telephone, telegraph, water, sewage collection and disposal, steam heat, transportation of passengers and property by train, bus, truck taxicab, aircraft, ferry and boat; and pipeline transmission of gas and oil.

Supplemental to its primary duty of seeing that adequate service at reasonable rates is available to the public, the Commission is required or empowered to:

Prescribe rates for common carriers by motor vehicle, and to establish accounting and service requirements for them;

Regulate the formation, merger, and consolidation of public utilities and transfers between them of like property to municipalities;

Determine whether a public utility should be permitted to discontinue service to the public other than for nonpayment for service rendered;

Regulate the crossing of public highways by the facilities of public utilities;

Inspect the properties, test the equipment and examine the books and other records of utilities;

Prescribe systems of accounts for public utilities; to require them to restate their plant accounts in their books of original cost; and to require them to keep a continuing property record (perpetual inventory) of plant used or useful in the public service;

Determine whether the issuance of utility stocks and long-term debt by public utilities is necessary or proper for the present and probable future capital needs of the utilities;

Inquire into the reasonableness, from the point of view of the public interest, of contracts between public utilities and municipalities, and of contracts for services between public utilities and their affiliates;

Assess all its expenses on utilities in accordance with Act 215 of October 6, 1976.

AGENCY HISTORY

PENNSYLVANIA PUBLIC UTILITY COMMISSION
(Continued)

The Commission is vested with and exercises broad powers in the discharge of its regulatory obligations in behalf of consumers and utilities. Commission decisions in both the rates and services area are reached at weekly public meetings in conformity with the State's "Sunshine Law."

Under present law, operation of a public utility requires Commission approval, as does extension or abandonment of service. Utility service by municipalities is exempt from regulation, with exception of that part furnished beyond their corporate boundaries. Municipal authorities furnishing water, sewage and transit service also are beyond PUC control; except for those operating on a lease-back arrangement with a political subdivision.

When the PUC allows a utility to provide service within specific geographical boundaries, the company becomes a geographic monopoly since it is the only company permitted to operate in that delineated area. Such monopolies are allowed by law because construction of two or more sets of facilities would be more expensive than a single plant and could create chaotic service and economic conditions. In return for their service rights, utilities are subject to regulation to assure that rates are fair and service adequate for customers who cannot choose a different company.

The law prescribes specific guidelines as to how rates must be set; with Commission decisions appealable to Commonwealth Court. The PUC must determine a utility's allowable operating expense and revenue requirements; ie, how much money the company needs to operate properly. It must also decide how charges for residential, commercial, industrial and other types of customers should be structured to collect the total amount of allowable revenue.

Under the law, within 60 days after a company files a request for a general rate increase, the Commission must decide whether to hold hearings or to permit the increase to go into effect. At the hearings, the company has the burden of proving justification for a rate increase. If hearings are held, staff members of the Commission's Office of Trial Staff challenge the requested rate increase. In addition to the formal hearings, members of the public are given an opportunity to provide information concerning the rate proposal to the PUC staff for possible use in the hearings. In major cases, special meetings are held for this purpose.

Hearings are presided over by Administrative Law Judges (ALJs) who prepare written decisions for review and response by interested parties prior to Commission action.

Furthermore, the law requires affirmative action be taken by a majority of the Commissioners before a rate increase can take effect. Only if seven months from the proposed effective date of the increase have elapsed without a final decision does the increase go into effect automatically, subject to refund.

The Office of Trial Staff is charged with representing the public interest in hearings before the Commission's Administrative Law Judges. Staff personnel may not advise the Commissioners on a case in which they are taking a prosecutorial role. Certain communications to or by any member of the Commission, ALJ or other employee of the Commission are prohibited in contested, on-the-record proceedings.

Fundamental to the many other pertinent factors in establishing rates is the determination of the value of a utility's property devoted to the public service and a fair rate of return (profit) on investment. Once rates are established, utilities cannot legally make charges other than those officially on file with the Commission. Advance customer payments, except as may be allowed in special circumstances, are prohibited; and utilities must observe strict Commission safeguards before service may be terminated in the event of bill delinquencies.

In rate adjudications, the Commission has the right to examine the physical property of utilities and to audit their books and accounts.

The Commission has established uniform accounting systems for utilities and requires them to maintain perpetual property inventories and to carry on their books proper sums for annual depreciation. Burden of proof is on the utility to justify accounting entries.

The PUC in 1978 eliminated what had become a controversial surcharge added to electric and gas bills to recover increases in cost of coal and oil used in generating power and recoup higher price of substitute gases. The surcharge, which was known as the fuel cost adjustment, was replaced by an energy clause for electric companies and a cost rate for gas utilities. Most of the additional expense in both cases is "rolled" into base rates to create a more stabilized and equitable mechanism for

AGENCY HISTORY

PENNSYLVANIA PUBLIC UTILITY COMMISSION
(Continued)

recovery of higher fuel costs. A team of auditors closely monitors the surcharges. The Commission orders refunds to customers where excessive charges have been made and prohibits unreasonable rate discrimination.

Utilities are required, with certain exceptions, to get approval for the transfer, sale, or merger to another utility, or municipality, of property used and useful in the public service. Issuance of utility securities is controlled through Commission authority to approve or reject them.

Relations of companies with affiliated interests also are carefully scrutinized to give the Commission complete information in this area. Utilities must file all service contracts with affiliated interest, and, if investigation shows contract charges are improper or unreasonable, the PUC may order elimination of excessive amounts affecting cost of service to the public.

The Commission is composed of five full time members appointed by the Governor for staggered five year terms, and subject to confirmation by a majority of the members of the Senate.

The PUC's authorized complement includes attorneys, rate and financial analysts, auditors, economists, engineers, motor vehicle and railroad specialists, safety inspectors, and enforcement officers. They work together with administrative, fiscal, computer, stenographic and clerical personnel in thirteen offices and bureaus: Director of Operations; Office of Special Assistants; Office of Trial Staff; Office of Intergovernmental Affairs; Public Information; Safety and Compliance; Audits; Law; Transportation; Secretary; Administrative Law Judge; Consumer Services; and Conservation, Economics and Energy Planning. The latter three bureaus were created under 1976 reorganization legislation, which also made Law Bureau attorneys appointees of the Commission rather than the Attorney General.

With the passage of Act 1986-114 on July 10, 1986, the Office of Trial Staff was established. This Office is responsible for and assists in the development of, challenge of, and representation on the record of all matters in the public interest in all Commission proceedings except those involving transportation, safety, eminent domain, siting, service issues having no impact on rates, and ability to pay cases. The Director of Trial Staff, who is also the Chief Prosecutor, may petition the Commission or be directed by the Commission, to intervene to protect the public interest in those excepted proceedings.

The PUC has its headquarters and a regional office in Harrisburg, and other regional offices in Philadelphia, Pittsburgh, Scranton and Altoona. These offices serve as administrative coordinating points for our enforcement officers; and where written and telephone inquiries are acted on, or sent to Harrisburg for processing. Colocated at the regional offices in Philadelphia and Pittsburgh are elements of our Consumer Services Bureau.

In maintaining close scrutiny over utility service and facilities, the PUC is particularly concerned with safety and reliability of natural gas, water and telephone lines, and railroad grade crossings. Utilities must report accidents to the Commission, which regularly inspects facilities to determine whether they are safe and adequate. Gas explosions and railroad grade crossing accidents are promptly investigated in an effort to prevent recurrences.

During the past several years, the PUC, with federal aid, has accelerated elimination of hazardous rail-highway grade crossings. In the further interest of train and motor vehicle safety, the Commission also examines the structural strength of railroad bridges and underpasses.

In addition to a team of railroad safety inspectors, the PUC has a force of motor carrier investigators who check on safety, cargo and certificated routes of truck, taxi and bus operators.

The Commission annually processes thousands of applications and other documents, including numerous consumer complaints and questions about size of bills, fuel surcharges, billing procedures, late payment penalties, meter readings, and general service problems. A meter testing laboratory is maintained in Harrisburg to settle disputes over gas, electric and water meter readings and tamperings.

The Consumer Services Bureau was established to make consumers aware of their rights and responsibilities, provide timely procedural information, and speed efforts to settle customer-utility controversies informally to avoid the cost and delay of formal litigation. Consumers are urged to contact their utilities and the PUC's Consumer Services unit to expedite resolution of their problems.

Because the supply of energy is expected to be a major concern well into the future, the Legislature vested the Bureau

AGENCY HISTORY

PENNSYLVANIA PUBLIC UTILITY COMMISSION
(Continued)

of Conservation, Economics and Energy Planning with responsibility to research and study utility matters within the PUC jurisdiction, including long range forecasting of energy needs and conservation. Electric and gas companies are required to file annual reports on energy conservation measures.

With the enactment of Act No. 33 (PL 90) House Bill No. 1180 on March 3, 1972, the Commission became fully funded by assessment of the regulated public utilities. Subject to budget approval, the PUC may assess utilities up to three-tenths of one percent of gross intrastate revenue to cover the cost of regulation; recoverable through rates.

Each utility is billed in advance by the Commission for its share of an approved estimate of expenditures for the following fiscal year. All assessments and fees received, collected, or recovered under Act No. 33 are paid into the General Fund of the State Treasury through the Department of Revenue for use solely by the Commission.

Isaac B. Brown of Pennsylvania was Chairman of the NARUC in 1897, and W.D.B. Ainey was First Vice-President in 1924. George I. Bloom was NARUC President in 1971.

PUERTO RICO PUBLIC SERVICE COMMISSION

The history of the Puerto Rico Public Service Commission (PSC) is reported in the 75th NARUC Annual Convention Proceedings, page 101 (1963), and 1973 NARUC Annual Report on Utility and Carrier Regulation page 507, and is supplemented by the following information.

The PSC examiners hold public hearings in all parts of the Commonwealth of Puerto Rico. The PSC is endowed with powers to regulate rates and services, subpoena witnesses, books and papers and to punish for contempt and levy fines. The Public Service Commission Act authorizes revision from the Commission decisions to the Superior Court, from which appeal goes to the Supreme Court.

The PSC consists of a Public Service Commissioner who shall be its Chairman and two Commissioners, all appointed by the Governor with the advice and consent of the Senate. The term of each Commissioner is four years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the Commissioner whom he succeeds. Upon expiration of the term of any Commissioner, he may continue to hold office until his successor is appointed and has been confirmed.

RHODE ISLAND PUBLIC UTILITIES COMMISSION

An "Act Regulating Ferries" was approved by the General Assembly of the State of Rhode Island and Providence Plantations about 1798. Also an "Act Establishing the Rates of Toll, demandable at the several Toll Bridges in this State" was approved in the same period.

The area of the State of Rhode Island and Providence Plantations is 1,214 square miles of which inland water constitutes 156 square miles. Thirty-six islands, large and small, within the territorial waters necessitated ferries and bridges in those early days. Legislative regulatory jurisdiction over same was also evidently considered necessary.

Toll roads were also an early legislative regulatory area, and were regulated through elected and appointed Turnpike Commissions and Turnpike Inspectors.

The granting of railroad charters became more frequent during the years following 1828. An "Act to Establish a Railroad Commission" was approved by the General Assembly in 1839. This act provided for the appointment and election of three railroad commissioners by the General Assembly. The number of commissioners was increased to five in 1857.

The duties and responsibilities of the railroads were specified in considerable detail, as were the duties and powers of the Commission. Penalties for violations of various regulations were also specified.

The railroad commission continued from 1839 until 1858, when it was temporarily abolished. In 1872, a new act provided for a single railroad commissioner. This act authorized the Governor to appoint the railroad commissioner for a term of one year.

The railroad commissioner's position was abolished by an act creating a Public Utility Commission in 1912. This commission was given all the powers and duties of the railroad commissioner.

AGENCY HISTORY

RHODE ISLAND PUBLIC UTILITIES COMMISSION
(Continued)

This 1912 amendment is entitled: "An Act to create and establish a Public Utilities Commission and Prescribe its Powers and Duties and to provide for the Regulation and Control of Public Utilities."

The numerous sections of this act were quite comprehensive in the coverage of the title requirements. Many of these sections remain intact in the State's present 1963 public utility law.

This Act provided for appointment by the Governor of three commissioners, "with the advice and consent of the Senate." Their terms were for six years, with one appointment every two years. Salaries of the chairman and the other commissioners were specified, also the operating expense budget. Regulation by a Public Utility Commission continued until 1935.

An "Act to Recognize the State Government" was approved by the General Assembly on January 1, 1935.

In this reorganization the "Division of Public Utilities" was placed within the Department of Taxation and Regulation. In 1936, the name of the Department was changed to Revenue and Regulation. All the duties of the prior commission were assigned to the Division of Public Utilities.

An act known as "Administration Act of 1939" again changed the name of the Department to the Department of Business Regulation, and designated the head of the Division of Public Utilities as "Administrator".

The following types of utilities are regulated: Electric, Gas, Water, Telephone, Telegraph, Express, Water Transportation, Motor Carriers-Property, Motor Carriers-Passengers, Railroads and Cable Television.

SOUTH CAROLINA PUBLIC SERVICE COMMISSION

The history of the South Carolina Public Service Commission must begin with the creation of the position of Railroad Commissioner in 1876 by the General Assembly. This position was filled by the appointment of Milledge L. Bonham, former Governor of the State during the Civil War and father of a later prominent Chief Justice of the South Carolina Supreme Court. Commissioner Bonham began his duties in 1879, initially being responsible solely for the regulation of the railroad and in particular of the freight rates. In 1884, the scope of regulation was increased to include passenger rate fares, services, additions of sidings, etc. At that time two additional commissioners were appointed. The Railroad Commission continued to operate in this form until 1922.

In 1915 the General Assembly created a separate three-man commission known as the Public Service Commission and conferred upon it the duty of regulating utility companies dealing in electrical power distribution, telephone communications and water distribution companies. In 1922 the Railroad Commission and the Public Service Commission were combined, a seventh commissioner being added, and operating until 1935 under the name of the Railroad Commission. This Act provided that the seven commissioners would be elected by the General Assembly from the seven Congressional Districts in the State at that time. Based on the 1930 census, South Carolina lost one Congressional District and the General Assembly created seven commission districts based on the old Congressional District areas.

In 1928, regulation of truck and motor bus operations in the State was transferred from the State Highway Department to the Commission, a division known as the Motor Transportation Division being set up. In 1929 a Power Rate Investigating Committee was set up by the General Assembly to study the advisability of reducing electrical rates. This Committee, after one year's study and considerable detailed work, recommended that an Electrical Utilities Division staffed with competent engineers, accountants and statisticians be established with the idea of making detailed studies of the operating electrical utilities, particularly relating to inventory and appraised value and original cost studies. This division was placed under the supervision and made a part of the Railroad Commission.

In 1935 the General Assembly, by special act, changed the name of this Commission from the Railroad Commission to that of Public Service Commission (PSC).

The records in the office of the PSC indicate that its affiliation with the NARUC was in 1889 at its first meeting. However, there is a record of the proceedings of a meeting of State commissioners at a conference held in Saratoga Springs, New York, June 10, 1879.

AGENCY HISTORY

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION

The Board of Railroad Commissioners was established in 1885 by the Territorial Legislature. The duties and powers of the Board as originally created had reference only to service and facilities of rail carriers. At the time of the division of the territory and its admission into the Union the States of South Dakota and North Dakota each continued the Railroad Commission.

The first session of the State Legislature in 1889 amended the 1885 law establishing in effect the Board of Railroad Commissioners of the State of South Dakota and largely increasing the powers and duties of such Board. The Board consisted of three members, each appointed for a term of two years or at the pleasure of the Governor. In 1897, a law was enacted making the Board of Railroad Commissioners an elective office and the term of office six years, one commissioner to be elected each two years, the evident purpose of the Legislature being to perpetuate experienced members upon the Board and to make the Board of Railroad Commissioners responsible directly to the people. By the enactment of the Laws of 1897 the powers and duties of the Board were increased to include the establishment of railroad rates. Up to that time the said powers and duties of the Board were restricted to those of a fact finding body with authority to publish its findings. It did not have authority to establish or promulgate rates.

In 1907, there was created by Legislative enactment a telephone commission with limited jurisdiction over telephone and telegraph companies, composed of the State Treasurer, State Auditor, and a Telephone Commissioner, said Commissioner to be appointed by the Governor for a period of two years. In the session of 1909 the Legislature repealed the 1907 law and abolished the telephone commission and enacted a law under which the rates and service of telephone and telegraph companies were placed under the jurisdiction of the Board of Railroad Commissioners under comprehensive regulatory law, which, with certain changes by succeeding legislatures, is now the law relating to rates and service of telephone and telegraph companies.

In 1890, the Legislature placed the regulation of grain warehouses under the jurisdiction of the Board. That law, with amendments, subsequently enacted, is still in force.

In 1925, the Legislature enacted laws under which the property storage warehouses were placed under the supervision of the Board of Railroad Commissioners. Previous to such enactment this supervision was exercised by the Secretary of State.

Under the laws of 1923, the Supervision and control of motor carriers were placed under the jurisdiction of the Board of Railroad Commissioners with more or less limited powers and duties. In 1925, the Legislature enacted a very comprehensive Motor Carrier Act under which supervision or regulation of motor carriers is now conducted.

The name was changed from Board of Railroad Commissioners to Public Utilities Commission (PUC) on July 1, 1939. For over thirty-five years the South Dakota PUC membership has remained intact, the three members thereof being re-elected from time to time at general elections for terms of office being staggered for a term of six years each.

The 1973 South Dakota Legislature transferred the Public Utilities Commission to the Department of Commerce.

In 1975, the South Dakota Legislature extended the Public Utilities regulatory authority jurisdiction over regulation of gas and electric utilities in the State of South Dakota. The Rural Electric Associations were exempted in 1976 and the Rural Telephone Association was also granted exemption from Public Utilities Commission regulation in 1979. In 1980, municipal telephone companies were removed from rate regulation and in 1982, independent telephone companies were removed.

The 1979 South Dakota Legislature transferred all regulatory authority of railroads, with minor exceptions, to the Department of Transportation Railroad Division.

Additionally, the 1979 South Dakota Legislature granted the Public Utilities Commission authority to grant permits for energy conversion or transmission facilities.

A Telecommunications Act passed by the 1988 Legislature provided for partial deregulation by placing telecommunication services into three categories: fully competitive, emerging competitive and non-competitive.

TENNESSEE PUBLIC SERVICE COMMISSION

The Tennessee Public Service Commission (PSC), formerly the Railroad and Public Utilities Commission was created in 1897.

The PSC consists of three members, each elected by popular vote for a six-year term. By statute each grand division of

TENNESSEE PUBLIC SERVICE COMMISSION
(Continued)

the State of Tennessee has a representative member on the PSC and the Commissioners themselves elect a Chairman and Secretary biennially.

The PSC regulates the rates and service of electric, gas, telephone, telegraph, power transmission, pipeline, and water utilities; railroads, railway express, intrastate common motor carriers and intrastate contract motor carriers. It also has jurisdiction over highway-railroad crossings, issuance of public utility securities. In addition innumerable matters are informally processed; investigations and studies, informal complaints handled.

The PSC must apply legal standards set forth in the regulatory statutes, such as "reasonably adequate service and facilities, charges which are reasonable and just, public safety, and public convenience and necessity". These standards must be applied in light of the facts and circumstances as developed in each specific case.

The PSC assesses for ad valorem taxes all utilities, railroads, and motor carriers under its jurisdiction, and inspects all gas, railroad and motor carrier companies for safety.

Tennessee has been a member of the NARUC since 1898.

TEXAS PUBLIC UTILITY COMMISSION

The Public Utility Commission of Texas was created by an Act of the 64th Legislature (Art. 1446c, Vernons Annotated Civil Statutes) in June of 1975. The Rules of Practice and Procedure were adopted November 17, 1975. The purpose of these rules is to provide an orderly and efficient system of procedure before the PUC in order to facilitate the administration of the laws of the State within the jurisdiction of the Commission. On May 24, 1976, the Substantive Rules were adopted. These rules are intended to establish a comprehensive regulatory system to assure rates, operations and services which are just and reasonable to the consumer and utilities and to establish the rights and responsibilities of both the utility and consumer.

On September 1, 1976, the PUC obtained original jurisdiction over telephone and radio-telephone utilities Statewide and original jurisdiction over electric, water and sewer in unincorporated areas with appellate jurisdiction in other areas. In 1979, radio-telephone utilities were removed from PUC jurisdiction and in the same year nonprofit water supply corporations were removed from PUC rate jurisdiction. In 1983, two new divisions became a part of the PUC. One, the Energy Efficiency Division, was transferred from the Texas Energy and Natural Resources Advisory Council which was not renewed by the Legislature. The other, Utility Evaluation, was created to evaluate fuel activities of the electric utilities and to provide or monitor management audits of all the utilities under PUC jurisdiction. In 1985, the Legislature removed water and sewer from the Commission's jurisdiction. After March 1, 1986, all water and sewer regulation previously administered by this Commission was transferred to the Texas Water Commission. In September and October of 1986, the Commission an internal reorganization. The Economic Research, Accounting, Engineering and Utility Evaluation Divisions were replaced by the Electric, Telephone and Operations Review Divisions. The staff was reassigned accordingly. In 1987 the Legislature moved the Energy Efficiency Division to the Governor's Office Effective September 1, 1987. In November 1988, the Information Systems and Services Division was created to assume responsibility for data processing, printing and word processing functions where were previously part of the Administration Division.

RAILROAD COMMISSION OF TEXAS

Responsibilities

The Railroad Commission of Texas was created in 1891 to regulate rates and operations of "railroads, and wharves, docks, piers elevators, warehouses, sheds, tracks, and other property used in connection therewith." It is the oldest agency in the state and one of the oldest of its kind in the nation.

Given new responsibilities over the years by the Texas Legislature, the Commission now oversees a broad range of activities that include the vital areas of energy, transportation, environmental protection, and public safety.

Today, the Railroad Commission's responsibilities include regulation of:

* the oil and gas industry to prevent waste of valuable resources and to protect property rights and the environment.

* trucks and busses in intrastate service.

AGENCY HISTORY

RAILROAD COMMISSION OF TEXAS
(Continued)

* railroad safety.

* natural gas utilities, the safe operation of hazardous materials pipelines and natural gas pipelines and distribution systems.

* propane, butane, and compressed natural gas safety, including licensing and seminars for dealers and their employees.

* surface mining for coal, uranium, iron ore, and iron ore gravel, as well as reclamation of the land when mining is complete.

Under the direction of three Commissioners, regulation is carried out by four regulatory divisions: Oil and Gas, Transportation/Gas Utilities, Surface Mining and Reclamation, and Liquefied Petroleum Gas. Oversight of Commission support functions is provided by the agency's Executive Director.

The Commissioners, elected by Texas voters, serve overlapping six year terms. One Commissioner is elected in the state's general election every two years.

Over the years, the Railroad Commission has earned worldwide recognition, particularly for its leadership in petroleum regulation and conservation. The Commission has been credited with preventing waste of millions of barrels of oil and billions of cubic feet of gas from producing areas of the state. The Commission operates from its headquarters in Austin and district offices throughout the state.

Oil and Gas Division

Largest of the Commission's divisions, the Oil and Gas Division has been given these responsibilities by law:

* to prevent waste of oil, gas, and geothermal resources

* to protect fresh water from pollution that might result from oil and gas operations

* to collect resource data

* to provide for equitable production among operators

* to ensure the safety of the public

To do this, the division works with the Legal Division to develop statewide rules to be followed by oil and gas operators, conducts public hearings on technical issues and recommends action to the Commissioners, and regulates production of oil and gas through a system of proration and allocation.

The Commission has regulated the underground injection of fluids in oilfield operations since the 1930s. Its underground injection control program has been approved by the US Environmental Protection Agency under the federal Safe Drinking Water Act.

The Oil and Gas Division maintains 10 district offices across the state where field enforcement and support personnel monitor and inspect oil and gas operations.

Oil and gas leases, payment of royalties, damage to surface property, and related items are matters of contract between the owners of mineral or surface rights for a piece of land and oil and gas operators. They do not fall under Railroad Commission jurisdiction. Nor does the Commission have the authority to regulate oil and gas prices .

Transportation/Gas Utilities Division

A major function of this division is to help establish safe and economical ground-based transportation systems to serve the needs of Texas citizens and industry.

The division oversees motor carriers, motor bus operators, certain commercial vehicles, railroads, and transportation brokers operating only in Texas. It also has some oversight responsibilities for certified and exempt interstate carriers operating in the state.

AGENCY HISTORY

RAILROAD COMMISSION OF TEXAS
(Continued)

Under provisions of state law, the Commission grants applications for new motor carrier authority if there is a proven need for the service and current service is inadequate to meet that need. A truck or bus company that wants to operate in Texas must also file proof of adequate insurance coverage and register its vehicles with the Commission and charge Commission-approved rates.

In approving rates, the division staff, working with the Legal Division, studies whether a proposed rate provides a reasonable return on investment and whether the rate covers the company's expenses.

Federal law now preempts Commission authority over applications for new bus authority, bus schedule changes, rate reductions, and route changes. Commission decisions on bus rate increases are subject to review by the Interstate Commerce Commission.

Transportation/Gas Utilities rate enforcement is handled by the division's audit section. Auditors also investigate complaints against carriers and review records, accounts, cost of gas reports, unaccounted-for gas reports, and gross receipts taxes paid by gas utility companies.

Another part of the division monitors the state's rail lines and safety inspects railroad equipment, operations, and track. This section also maintains the state's rail plan and oversees the use of federal funds for track rehabilitation in the state.

Another major responsibility of the Transportation/Gas Utilities Division is to ensure a continuous, safe supply of natural gas at a just and reasonable price for Texas consumers, through regulation of the transmission, distribution, and sale of gas by gas utility companies operating in the state.

The Commission approves rates for unincorporated areas of the state. City governments approve rates for citizens living inside their city limits. The Commission becomes involved in the rate-setting process inside cities only when the city government and the utility company can't agree on rates. Then, the Commission can hear appeals from either. Rate recommendations, based on evidence presented, are made to the Commissioners for final approval.

To determine a reasonable rate, the Commission examines a utility's expenses and revenues to make sure the company can adequately serve its customers. By law, a utility must have rates that give it the opportunity to buy gas, pay its employees, earn a reasonable return on invested capital, and maintain its system as safely as possible.

The division's pipeline safety section is responsible for enforcing safety rules and regulations governing the transmission and distribution of natural gas throughout the state. Personnel based in field offices inspect natural gas facilities in the state to evaluate their design, construction, operation, and maintenance. The emergency procedures of utility companies are also reviewed. Safety of hazardous liquids pipelines is another responsibility of this section.

The Texas Motor Carrier Acts of 1927 and 1929 brought motor busses and trucks under the Commission's jurisdiction; while the Cox Act of 1920 placed natural gas utilities under its jurisdiction.

Surface Mining and Reclamation Division

This division oversees all exploration and surface mining in the state for coal, uranium, iron ore, and iron ore gravel, as well as reclamation of land disturbed by mining operations.

Mining companies must have a permit for each mining site they operate in the state. Before the Commission issues a permit, the company must present a performance bond which would provide funds for reclamation if the company can't adequately do the job.

The division studies mining sites to make sure mining will not harm the quality or quantity of water in the area. Studies are also made to determine if the mine operator should replace topsoil and what kind of grass or other vegetation should be used in reclaiming the land.

Division staff can also recommend to the Commissioners that the land be declared unsuitable for surface mining where mining is too difficult or expensive, or where it would violate state law.

The division also enforces the federal surface mining and reclamation laws as they apply to Texas; and administers a

AGENCY HISTORY

RAILROAD COMMISSION OF TEXAS
(Continued)

special federal program for reclaiming mine lands that were abandoned before state laws regulating mining activities were enacted.

The Surface Mining and Reclamation Division was created after the state legislature approved the Texas Surface Mining and Reclamation Act in 1975 and gave the Railroad Commission jurisdiction. In 1980, Texas became the first state in the nation with a federally-approved coal regulatory program.

Liquefied Petroleum Gas Division

The Liquefied Petroleum Gas Division regulates the safe handling of liquefied petroleum gas (commonly known as propane and butane) and compressed natural gas to protect public safety.

The division issues licenses to companies in the LP gas industry, approves equipment used to store LP gas, and registers trucks and other vehicles that move LP gas. Plans for proposed LP gas installations at public buildings, bulk storage areas, cylinder-filling plants, service stations, and industrial plants must be approved by the division. Field personnel inspect LP gas facilities in the state and help in the investigation of LP gas accidents.

Division staff members hold seminars for and administer licensing tests to LP gas dealers and their employees, and train firemen and law enforcement officers to deal with LP gas accidents.

The Liquefied Petroleum Gas Division was created by the legislature in 1951.

Legal Division

This division provides legal support to the Commission through six sections: oil and gas, transportation, gas utilities/LP gas, surface mining, enforcement, and general law. The first four sections consist of examiners with expertise in particular areas who hold hearings and report findings and conclusions to the Commissioners.

The oil and gas section employs legal examiners who, in conjunction with technical examiners in the Oil and Gas Division, hold hearings on matters dealing with producing, storing, transporting, reclaiming, and processing oil and gas. The section also conducts hearings to determine responsibility for proper plugging of abandoned wells and preventing and controlling pollution from oil and gas wastes.

The gas utilities and LP gas section handles rate-setting cases for gas transportation and utility companies and safety compliance cases involving the natural gas distribution and liquefied petroleum gas industries.

The surface mining section reviews and processes applications for permits, revisions, renewals, variances and bond releases and conducts rulemaking hearings involving surface mining for coal, uranium, iron ore, iron ore gravel, and land reclamation.

The Commission's trial staff is included in the legal enforcement section which ensures that Commission orders and rules are followed. The section handles enforcement cases for all Commission regulatory areas.

The general law section provides legal research and advice in various areas including personnel, procurement, federal grants and contracts, administrative procedures, and open meetings and records. The section also tracks federal regulatory agencies and legislation for the Commissioners and other divisions.

Investigation Division

The oil Field Theft Investigative Unit was created by the 70th Legislature and came into existence in September, 1987. Also known as the Investigation Division, the unit investigates oil field thefts, including theft of equipment and oil and gas. Ten investigators, assigned across the state, assist various law enforcement agencies in oil field investigations. Upon the request of a local county or district attorney, the division provides assistance in the prosecution of oil field thefts and related matters. The division also conducts audits of used equipment dealers, reclamation facilities, and trucks transporting oil and related products.

UTAH PUBLIC SERVICE COMMISSION

The Act creating the Public Utilities Commission of Utah was passed in 1917 Legislature. The name of the Commission was changed to the Public Service Commission (PSC) in 1935. Prior to 1969 the members of the PSC were members of the Commission of Business Regulation which exercised the administration, quasi-judicial functions, and rulemaking functions of the

AGENCY HISTORY

UTAH PUBLIC SERVICE COMMISSION
(Continued)

Department of Business Regulation. In 1969 the Legislature reorganized the PSC and removed all duties and power related to administrative functions and transferred them to an executive director of the Department of Business Regulation. The quasi-judicial functions and rulemaking functions are exercised by the PSC usually in a formal hearing process. The three members of the PSC are appointed by the Governor with the consent of the Senate. Their term of office is for six years with one member's term expiring each odd numbered year.

The PSC is "... vested with power and jurisdiction to supervise and regulate every public utility in this State ..." The term "public utility" includes common carriers (railroads, street railroads, motor carriers, and others), gas companies, electric companies, telephone companies, telegraph companies, culinary water companies, sewerage companies, warehousemen, and companies providing heating service. Under a decision of the Utah Supreme Court handed down in 1928, municipally owned and operated utility systems are not subject to the PSC's jurisdiction.

The major function of the PSC is to regulate public utilities in such a manner that adequate service is rendered at the lowest reasonable price commensurate with the financial stability of the agencies performing the service. In addition to regulating the rates the PSC's authority extends to such matters as service standards, safety appliances and protection devices, and accounting. It also issues certificates of convenience and necessity to motor carriers and other utilities, investigates accidents occurring on the properties of public utilities, and handles many informal complaints against utilities.

The PSC's orders are reviewable by the Supreme Court of Utah on a writ certiorari. Cases taken to the Supreme Court are heard by that Court on the record of the PSC as certified by it.

In July 1983 the Public Service Commission and the Division of Public Utilities were separated by the Legislature. The Division of Public Utilities no longer acts as the staff of the Public Service Commission.

Legal services are provided to the Division of Public Utilities and the Committee of Consumer Services by the Attorney General's Office. The Public Service Commission has two legal counsel on its staff.

VERMONT PUBLIC SERVICE BOARD

The Vermont Public Service Commission was originally organized in 1886; Commission laws were changed in 1908 and on March 1, 1961, the Legislature changed the name from the Public Service Commission to the Public Service Board.

In 1975 the Vermont Agency of Transportation assumed the PSB's responsibility in regard to railroads, common carrier trucks, motor buses and ferries.

On February 1, 1981, legislation was enacted reorganizing the Board and separating the Board and the Department into two separate entities. The Board consists of a full-time Chairman and two half-time Board members who are appointed by the Governor for staggered six-year terms.

The Board conducts hearings and exercises functions of a policy-making, regulatory and quasi-judicial nature. It regulates municipal, cooperative and privately owned electric companies, privately owned water companies and telephone, gas and cable television companies. In addition the Board also regulates the sale of electricity of small power producers to Vermont electric utilities.

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION

The Virgin Islands Public Services Commission (PSC) was called the Virgin Islands Public Utilities Commission until its name was changed by Act 2722 (May 22, 1970). Under Act 3799 of April 13, 1976, the PSC consists of nine members selected as follows: (1) seven members appointed by the Governor with the advice and consent of the Legislature; and (2) two members of the Legislature appointed by the President thereof, one a resident of St. Thomas-St. John, and one a resident of St. Croix, who serve as nonvoting members.

Of the seven members appointed by the Governor, three members are citizens residing in St. Thomas, three members are citizens residing in St. Croix, and one member shall be a citizen residing in St. John.

The PSC has regulatory responsibility over the rates and services of the following types of public utility services when

AGENCY HISTORY

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION
(Continued)

provided by a private entity for compensation: lighterage and cargo handling; dockage, wharfage, or related cargo services; telephone service; water supply services, except retail deliveries; electric power service; and passenger services by motor buses or trucks.

Unless otherwise fixed by law, the rates for any such public utility services supplied by the Government of the Virgin Islands shall be fixed in the same manner as the rates for public utility services furnished by a private entity. When supplied by the Federal Government, none of these services shall be deemed to be a public utility.

Joint or combined use of tracks, conduits, poles, wires, switchboards, exchange work, or other equipment, including arrangements for interexchange and interconnection, by two or more public utilities (including those provided by any agency or instrumentality of the Government of the Virgin Islands) is permitted, and may be required by the PSC, for reasonable compensation if such joint use will not result in (1) irreparable injury to the owners or other users of such equipment; or (2) substantial detriment to the service to be rendered by such owners or other users. Any agency or instrumentality of the Federal Government may consent to such joint use or arrangement applicable to Federally-owned facilities. The PSC has authority to enforce compliance with its regulations and may suspend proposed rates for not more than five months beyond the time when they would otherwise go into effect. Subject to certain limitations, the PSC may assess the cost of any proceeding involving a public utility with a net investment of $1 million or more against the utility.

Effective November 11, 1976, the PSC was given regulatory responsibilities over certain ferryboat services.

VIRGINIA STATE CORPORATION COMMISSION

The State Corporation Commission (SCC) of Virginia was created by the Constitution of 1902 to create, supervise and regulate corporations; all corporations and not merely public utility corporations. Consequently, it is the supervisory agency for banking, insurance, motor carriers, securities, etc. in Virginia. The Legislature of the State can add to the SCC's duties and can pass regulatory laws; but the SCC is vested with the sole legislative power to fix the rates of telephone, gas and electric companies. Such additional legislative powers as the Legislature has delegated to it from time to time are purely legislative.

The Constitution also makes the SCC a court of record with power to enforce its own judgments through its own bailiff. In other words, it has legislative, judicial, administrative and executive powers; and the doctrine of the separation of powers does not apply to it. A person aggrieved by the action or inaction of the SCC is given his "day in court" in the SCC's own courtroom. Any interested party has the right to appeal from any decision of the SCC to the Supreme Court in Virginia. Anyone whose interests can be expected to be affected by Commission action in a particular proceeding has a right to appear in the case as an intervenor or protestant. Appeals from the SCC directly to the Virginia Supreme Court are a matter of right. However, the Supreme Court will dismiss an appeal if the appellant has failed to appear before the Commission and establish his interest in the case.

The SCC is composed of three members elected for staggered six-year terms by the General Assembly of Virginia. The Assembly has never failed to reelect a Commissioner. The Constitution forbids Commissioners to practice law or to own stock in any corporation whose rates they regulate or in any bank, insurance company or other financial corporation subject to detailed supervision. The SCC can revoke the charter of any corporation that persists in violating the law; but that is not the same thing as detailed supervision.

The SCC assesses for local taxation the property of all public utilities, and assesses and collects the State taxes on them. The SCC has a staff of 450 plus and its expenses are paid for mainly by fees and special taxes. Its expenses of collecting motor fuel taxes are paid out of the collections.

The principal reason that motivated the framers of the 1902 Constitution to make this SCC both a legislative and a judicial body was so that it could curb the abuses of the railroads. (In 1902 the Interstate Commerce Commission did not have authority to fix railroad rates). Its predecessors were the Railroad Commissioner and the Board of Public Works.

The Constitution provides that the SCC shall adopt its own rules of practice and procedure not inconsistent with those made by the General Assembly. The present Rules of Practice and Procedure were adopted by the Commission, effective September 1, 1974 and last revised on August 1, 1986. Many matters coming before the Commission can be handled informally without formal hearing while in some cases a hearing is mandated by statute.

AGENCY HISTORY

VIRGINIA STATE CORPORATION COMMISSION
(Continued)

In 1983, the power to assess railroad companies, gas pipeline transmission companies and freight car companies for the purpose of taxation was removed from the Virginia State Corporation Commission and was given to the Department of Taxation. The Commission's Division of Public Service Taxation, however, still maintains jurisdiction over the assessment of public utilities.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

Prior to the adoption of Commission form of regulation the Legislature undertook, among other things, the task of prescribing maximum rates. With the growth of the State, problems of ratemaking and regulation increased in complexity and in 1905 the Legislature provided for a railroad commission with jurisdiction limited to railroad and express companies and expanded it in 1909 to include telephone and telegraph companies, and in 1911 vested it with jurisdiction over steam boats, sleeping cars, wharfingers, port districts, electric, gas, water and irrigation public service companies. In 1911 the name was changed to Public Service Commission.

In 1915 pipelines were placed under Commission jurisdiction. In 1919 toll bridges were also placed under Commission jurisdiction.

Numerous changes in the physical makeup of the Commission and its responsibilities followed during the ensuing years. For instance, in 1921 the Public Service Commission of the State of Washington was abolished and in its place the Department of Public Works was created under which there was a Division of Transportation and of Utilities and of Highways.

In 1923 the Division of Highways was abolished and a new Department created. At the same time certain responsibilities relating to safety and inspection of appliances and equipment were transferred to the Department of Labor and Industries and jurisdiction over public terminal warehouses relating to shipping, grading, weighing and inspection of grain was transferred to the Department of Agriculture.

However, in 1921 the Commission was vested with jurisdiction over motor vehicle carriers of property and persons for hire. In 1933 storage warehouses were placed under Commission jurisdiction.

In 1935 the Department of Public Works was abolished and the Department of Public Service created. Jurisdictional responsibilities were not changed but by that time, perhaps the title "Department of Public Works" because of its similarity in name to the Federal Public Works Administration, had an unhappy connotation which offended sensitive public officials. It is true, too, that this departmental description prompted many requests from a confused public for services and information entirely foreign to public service regulation.

In 1945 the Department of Public Service was abolished and instead two departments were created - that of Public Utilities and that of Transportation. Then, in 1949 the two departments were again consolidated into the Washington Public Service Commission, composed of three members, the latest change occurring in 1951 when the Legislature made the Commission bipartisan, requiring by law that no more than two members of the Commission shall belong to the same political party. It was further provided that Commissioners should be appointed by the Governor, with the consent of the Senate, for staggered six-year terms. One Commissioner is designated by the Governor to serve as Chairman of the Commission. No member may be removed except for inefficiency, malfeasance or misfeasance in office upon specific written charges filed by the Governor and after a hearing before a special tribunal appointed by the Chief Justice of the Supreme Court. In 1961 the Legislature again changed the name, this time to the Washington Utilities and Transportation Commission (WUTC), but organization and functions of the Commission remained unchanged as did the appointment and terms of office of the Commissioners.

The jurisdiction of the WUTC consists of the regulation, in the public interest, of the rates, services, facilities and practices in the broadest terms of those engaged in the transportation of persons and property and related activities; and those engaged in supplying any utility service or commodity to the public for compensation, and related activities; and to prescribe such rules and regulations as may be necessary to carry out its duties. It also regulates interstate common and contract carriers of persons and property by motor vehicle to the extent permitted by the Constitution and laws of the United States and cooperates with the Federal agencies delegated or authorized to regulate interstate or foreign commerce. The WUTC is also required to regulate certain activities of non-public service companies to the extent considered in the interest of public safety, such as the safety of interstate natural gas pipelines and logging and industrial railroads with respect to establishment, inspection and maintenance of grade crossings and separations, and as to apportioning the cost of signals, safety devices and traffic separations when parties in interest are unable to agree on the division of costs.

AGENCY HISTORY

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION
(Continued)

In 1969, the Washington Legislature authorized the Commission to regulate passenger charter carriers whereby no charter party carrier of passengers shall engage in transportation services without first having obtained from the Commission a certificate that public convenience and necessity require such operation.

Also in 1969, the Legislature created in the State Treasury a Grade Crossing Protective Fund and gave the responsibility of administering said Fund to the Commission. Briefly stated, the Grade Crossing Protective Fund provides for a definite division of costs relative to installing and maintaining automatic grade crossing signals or other protective devices among the Fund, the city, town, county or State highway authorities and the railroad companies on new and existing railroad grade crossings. It further provides a definite division of costs between the Fund and the railroad companies for the annual maintenance of such signals or devices. The percentages by which the costs are divided are specified by statute.

Jurisdiction over logging and industrial railroads has been retained insofar as it concerns annual inspections of all grade crossings, undercrossings and overcrossings of such railroads.

WEST VIRGINIA PUBLIC SERVICE COMMISSION

The Public Service Commission (PSC) for the State of West Virginia was created by the State Legislature in 1913.

Previously, all regulation of utilities had been in the hands of either the Board of Public Works or the State Road Commission. Following the enactment of the original legislation, the Governor appointed four Commissioners who met June 5, 1913, and elected a Chairman. The Commissioners were appointed for two, four, six, and eight years on a staggered basis.

In addition to public carriers, public utilities, and hydro-electric dams, the Commission was charged with administration of a newly enacted Workmen's Compensation Fund--the first in the State's history. Each Commissioner was assigned to a different branch in the new department and was required to report to the Chairman. Some 488 public utilities came under the Commission's jurisdiction the first year, including 141 different telephone and telegraph companies.

Two divisions were set up in the original organization, one dealing with utilities and carriers, and the other with the Workmen's Compensation Fund. Under the divisions, bureaus were formed for various phases of regulatory work.

However, after two years it became apparent that further legislation was needed, and laws were passed which reduced the Commission to three members. At the same time the Workmen's Compensation Fund was removed from the PSC's jurisdiction and set up as a separate department of State government. In that same year the Commission was given powers to prescribe and enforce accounting systems, require reports from utilities, and employ experts to determine facts upon which lawful rates might be based. The 1915 reorganized Commission became active on June 1, with two former governors and a future United States Circuit Judge as Commissioners. The three-person Commission is in effect today.

The Commissioners are appointed by the Governor, with the advice and consent of the Senate, for alternating terms of six years. The Commission is not bound by technical rules of evidence or procedure. It conducts hearings, enters orders, and its secretary is charged with keeping true records of all the acts and proceedings.

The first adequate financing became a reality in 1935 when the Legislature broadened its functions and increased its facilities by providing $150,000 annually for its support. This amount was to be levied by the State Auditor upon all utilities in proportion to their intrastate revenues, and was in addition to the $80,000 previously apportioned among the utilities on a basis of assessed valuations. Increased financial support has been provided for by the Legislature since that time as staff organization and duties of the Commission have expanded.

Today the Commission supervises and regulates rates, charges, services and facilities of all public utilities, and of all common and contract carriers of passengers and property by railroads, highways and street, water and air; hears and acts upon complaints against utilities and common carriers, and passes upon applications for increases in rates and for discontinuances of service of facilities, and upon application for the privilege of installing plants and facilities; prescribes uniform systems of accounts to be used by utilities and carriers; fixes valuations of properties and requires the submission of reports by utilities and carriers. In addition, the Commission has legal authority to enforce its decisions through the assessment of fines and penalties.

Divisions of the Commission consist of Commissioners, Legal, Administration, Executive Secretary, Customer Relations, Administrative Law Judges, Utilities (including Public Service District, Audit, Energy and Telecommunications), Transportation

AGENCY HISTORY

WEST VIRGINIA PUBLIC SERVICE COMMISSION
(Continued)

(including Railroad Safety, Gas Pipeline Safety and Motor Carrier), and a separate Consumer Advocate Division.

WISCONSIN COMMISSIONER OF TRANSPORTATION

The Transportation Commission was created by Chapter 29, Laws of 1977, to perform quasi-judicial responsibilities for motor carrier and rail regulation and to provide the citizens with an independent body for appeal on any transportation matters. All regulatory responsibility previously performed by the Public Service Commission as outlined under Wisconsin Statutes, Chapter 194 for the motor carrier regulation and Chapters 190-193 and 195 for railroad regulation, are now the responsibility of the Commissioner of Transportation or the Wisconsin Department of Transportation.

On October 1, 1982, the Wisconsin Motor Carrier Deregulation Act went into effect. It eliminated entry carriers and repealed all economic regulations.

In 1984 the Transportation Commission's name was changed to Wisconsin Commissioner of Transportation.

WISCONSIN DEPARTMENT OF TRANSPORTATION

The Wisconsin Department of Transportation was created in 1967 by the Reorganization Act (Chapter 75). The units merged into the department were the Highway Commission, originally created by Chapter 337, Laws of 1911, when the Legislature authorized State aid for road building; the former Aeronautics Commission, established by Chapter 513, Laws of 1945 (although the State had actively participated in aeronautics since 1937 through several predecessor agencies); and the former Motor Vehicle Department, created in 1939 when Chapter 410 consolidated functions of several other agencies into one department.

The 1967 Reorganization Act also transferred to the department the Governor's Council on Traffic Law Enforcement, created by Chapter 232, Laws of 1965, and named it the Council on Traffic Law Enforcement.

Chapter 500, Laws of 1969, defined the lines of authority within the department, which was headed by the secretary and consisted of the Divisions of Aeronautics, Highways under the Highway Commission, and Motor Vehicles. Under authority given to the secretary, the department subsequently organized two additional divisions: the Division of Planning and of Business Management, mostly with personnel from the original three.

Chapter 29, Laws of 1977, transferred transportation regulation from the Public Service Commission to an independent Transportation Commission reconstituted from the Highway Commission and attached to the department; and vested statutory responsibilities and accountability with the department rather than specific divisions, thus providing the Secretary with program authority for fulfilling his or her assigned budgetary responsibility.

Chapter 29 also eliminated a statutory requirement for Divisions of Motor Vehicles and Aeronautics, although requiring the department to maintain district offices throughout the State. It eliminated gubernatorially appointed division heads, giving that authority to the Secretary and enabling the Secretary, with the Governor's approval, to organize the department to promote balanced, efficient solutions to transportation problems.

Exercising this authority, the Secretary reorganized the department in December 1977. Continuing, in compliance with statutes, the Secretary on September 15, 1978, announced further restructuring of the department, establishing the current organization. Chapter 34, Laws of 1979, transferred the Council on Highway Safety and the highway safety coordination function from the Office of the Governor to the Department of Transportation.

Agency Responsibility: The department is charged by law to protect, promote and plan for all transportation in the State. Major programs assigned to the department by the Legislature include highway, motor vehicle, traffic, enforcement, rail, harbor, transit, and aeronautic activities. Department responsibilities include administration of Public Law 89-170.

The Office of the Secretary provides overall direction to the department's programs, concentrating on improving the all-mode aspects of transportation facilities and services in Wisconsin with the goal of providing adequate, efficient, and environmentally sound movement of commodities and people.

The Division of Motor Vehicles provides for the titling and registration of vehicles, the regulation and licensing of motor carriers, the examining and licensing of drivers, commercial driver school instructors and vehicle salespersons; the licensing of

AGENCY HISTORY

WISCONSIN DEPARTMENT OF TRANSPORTATION
(Continued)

commercial driving school, vehicle dealers, manufacturers and distributors; the investigation of consumer complaints regarding vehicle sales fair trade practices; the suspension of vehicle registration, the revocation and suspension of operating privileges and licenses of driving instructors and driving schools for proper cause; and the development and operation of the traffic violation and vehicle registration system. Other objectives are to maintain records of titled and registered vehicles, security interests on vehicles and driving records of motor vehicle operators; collect fees for all licenses, titles, sales taxes, abstracts of records, etc. and see that such monies are adequately secured and promptly deposited, provide appropriate public counter walk-in service, a driver improvement service and a traffic accident data service to enforcement officials, highway engineers and traffic safety and public information people.

The Division of Motor Vehicles is responsible for motor carrier insurance filings and issuance of identification stamps under Public Law 89-170, apportioned vehicle registration under the International Registration Plan, issuance of vehicle trip permits and enforcement of the federal heavy vehicle use tax.

WISCONSIN PUBLIC SERVICE COMMISSION

The Public Service Commission (PSC) of Wisconsin is one of the pioneer State utility regulatory bodies and has broad supervision over public utilities.

Regulation of public service companies in Wisconsin dates to 1874, when railroads were first regulated by a three-person Board of Railroad Commissioners. In 1876 a single Railroad Commissioner replaced this board, and in 1881 the office became elective. The single Commissioner system was used until 1905, when the three-member Railroad Commission was created. In 1931, the present PSC succeeded the Railroad Commission. Regulation of gas, electric, telephone and water utilities began in Wisconsin in 1907; and of common carriers in 1927. A comprehensive law for the regulation of buses and trucks was adopted in 1933. In 1975 regulation of motor carriers and railroads was removed from the PSC and transferred to the newly created Wisconsin Transportation Commission.

The PSC is comprised of three commissioners appointed by the Governor for six-year terms and confirmed by the Senate. These staggered terms consecutively expire on March 1 of each odd-numbered year. The Governor designates a member as Chairman for a two-year term.

The Wisconsin PSC regulates the rates and services of electric, gas, telephone, heating, water and some sewer utilities. It also has jurisdiction over the issuance of public utility securities. Innumerable matters are informally processed, investigations and studies performed, informal complaints handled, continuing records maintained and work performed on a cooperative basis with other State agencies.

In recent years the focus of energy utility regulation has been on conservation to delay the need for expensive power plant construction. The Commission has also been adapting to cope with utility diversification and increasing elements of competition in the telecommunications industry.

For efficient conduct of its business the PSC staff is divided into the following divisions: Administrative Services, Systems Planning, Environmental Review and Consumer Analysis, Examining, Engineering, Utility Rates and the Accounts and Finance Divisions.

Wisconsin PSC has been a NARUC member since 1905.

WYOMING PUBLIC SERVICE COMMISSION

The Public Service Commission (PSC) of Wyoming was created as a statutory agency in 1915 by the 13th State Legislature with three members consisting of the Governor, State Treasurer, and State Auditor. In 1919 the Legislature provided that the three appointed members of the State Board of Equalization act as ex-officio members of the PSC. In 1963, the agency was increased to five members, and in 1968 the 40th Legislature split the PSC and the Board into separate agencies, the Board becoming the State Tax Commission. The three Commissioners are appointed by the Governor with the advice and consent of the Senate, to staggered six-year terms expiring March 1 each odd numbered year. No more than two Commissioners may be from the same political party.

The Wyoming Public Utilities Act (Title 37, Chapters 1, 2, 3, 6, 8, 9, 10, 11 and 12, Wyoming Statutes 1977) gives the

AGENCY HISTORY

WYOMING PUBLIC SERVICE COMMISSION
(Continued)

PSC general and exclusive power to regulate public utilities as defined thereby which includes: electric, gas, water, steam, pipeline, telephone, telegraph, rail, motor carriers, and airline utilities. Under the Act the following activities are exempted: Interstate operations when preempted by the Federal government, municipal electric and gas operations within municipal corporate limits, municipal water operations, mutual water and telephone operations, gas and oil field development uses, producer sales to industry, and taxicab operation within municipal corporate limits.

The PSC is certificated and authorized by the Federal Department of Transportation to act in the area of Wyoming intrastate and interstate natural gas pipeline safety. It has been designated by the Governor and is empowered by statute to meet the Federal requirements to enable it to continue to act in the area of railroad safety, but the Wyoming Legislature has not authorized the program.

The PSC has jurisdiction and authority under the Public Utilities Act to:

Determine and fix just reasonable, and nondiscriminatory rates and charges and service rules and regulations for all utilities as defined by law;

Suspend rate increases pending investigation and investigate any matter if required by ~~the public interest~~;

Regulate safety and other aspects of utility construction and operation;

Inspect and examine books, records, accounts, property, plant and facilities of Wyoming public utilities and to prescribe uniform methods to be observed and followed by them in keeping such books, records, and accounts;

Adjudicate in public hearings matters presented to it on formal application and matters of public interest import which the PSC has, under its statutory prerogative, determined should be heard;

Grant rehearings and prosecute appeals;

Issue subpoenas, administer oaths, and take depositions;
Hear and/or determine formal and informal complaints relating to any aspect of a utility's operation;

Formulate rules and regulations relating to practice and procedure before the PSC, filing of rates and tariffs, reporting, and any other aspect of utility endeavor;

Act on all matters relating to the issuance, amendment, transfer, cancellation, and enforcement of certificates of public convenience and necessity;

Fix safety, service and construction standards for utility operations and to enforce the same; Act as statutory arbitrators of controversies between a public utility and other persons;

Approve or deny applications of Wyoming gas and electric utilities for authority to issue and sell securities;

Represent the State's interest in matters concerning public highway-railroad grade crossings and protective devices installed in conjunction therewith (Chapter 10 of Title 37, Wyoming Statutes) and to regulate railroad fireguard protection on railroad rights-of-way and adjacent thereto;

Other matters relating to the regulation of Wyoming public utilities in the public interest in accordance with the Act; and

Represent the PSC before and cooperate with the Federal Energy Regulatory Commission, Federal Communications Commission, Interstate Commerce Commission, Securities and Exchange Commission, Department of Transportation and other Federal regulatory agencies.

The PSC coordinates its regulatory action with those of other State and Federal agencies by:

Maintaining lists of all State agencies which have an interest in any particular type of matter before the PSC; and prior

AGENCY HISTORY

WYOMING PUBLIC SERVICE COMMISSION
(Continued)

to the PSC granting requested authority it contacts or requires utilities to contact and obtain authority from such interested agencies;

Contacting other State agencies with the additional purpose of serving the public interest swiftly without undue expense or delay;

Providing information or assistance as requested by the Highway Department in the enforcement of motor carrier laws;

Cooperating and coordinating directly and on a continuing basis with Federal and other State regulatory agencies in carrying out utility and motor carrier safety programs.

The PSC is a quasi-judicial body which conducts its business on the basis of the majority vote of the three Commissioners in open meeting. Its administrative orders and determinations are subject to review by the Courts.

The Attorney General or his appointed assistant is the legal counsel for the PSC.

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION

The Canadian Radio-Television Commission came into existence by Act of Parliament on April 1, 1968 that incorporated regulatory authority over the broadcasting companies which constitute the Canadian broadcasting system. The Broadcasting Act refers to these entities as broadcasting transmitting undertakings (radio and television stations) and broadcasting receiving undertakings (cable television systems and networks). Broadcasting itself is defined to mean any radio communication in which the transmission is intended for direct reception by the general public.

Broadcasting jurisdiction is separate from that pertaining to private radio communication such as citizen band radios. The latter is licensed and regulated by the Minister of Communications under the Radio Act. No broadcasting license may be issued by the CRTC until the Minister of Communications has certified that the technical requirements for such undertakings have been satisfied by virtue of a technical certificate.

Under the Broadcasting Act, the CRTC is given full power to regulate and supervise the Canadian broadcasting system as well as power to issue, renew, amend, suspend and revoke licenses.

Since April 1, 1976, with the coming into force of the Canadian Radio-Television and Telecommunications Commission Act, the Commission has also exercised authority over the federally regulated telecommunications carriers. These include Bell Canada, British Columbia Telephone Company, CNCP Telecommunications, Northwest Tel Inc., Teleglobe Canada and Telesat Canada. Whereas broadcasting regulation is principally concerned with licensing, the regulation of telecommunication carriers centers on insuring that the rates or tolls charged to the public for various telecommunications services are just and reasonable and that the carriers do not engage in any unjust discrimination or afford any undue preference or advantage in the provision of telecommunications services or facilities.

In certain respects, as set out in §19.7 of the Broadcasting Act and §45.3 of the National Transportation Act, the Commission has all the powers, rights and privileges as are vested in a superior court.

Legal Mandate - The legal mandate for broadcasting and telecommunications derives from various statutes including the Broadcasting Act and the Railway Act.

Broadcasting - Under § 15 of the Broadcasting Act, the CRTC is given the responsibility to regulate and supervise all aspects of the Canadian broadcasting system with a view to implementing the broadcasting policy enunciated in §3 of the Act. Section 3 enunciates seven major objectives relating to programming and other important aspects of the broadcasting system. With respect to programming, which is possibly the most important element of broadcasting policy, § 3(d) states that: "The programming provided by the Canadian broadcasting system should be varied and comprehensive and should provide reasonable, balanced opportunity for the expression of differing views on matters of public concern, and the programming provided by each broadcaster should be of high standard, using predominantly Canadian creative and other resources."

The powers conferred on the Commission by Parliament include the authority to issue, renew, amend, suspend and revoke a broadcasting license. They include the power to prescribe classes of broadcasting licenses and to make regulations

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION (Continued)

applicable to all persons holding broadcasting licenses of one or more classes. They also include the power to impose conditions of licenses.

Every decision and order of the Commission is final and conclusive except that the issue, amendment or renewal by the Commission of any license may be set aside, or may be referred back to the Commission for reconsideration and hearing by the Commission by order of the Governor in Council.

An appeal against a decision or order of the Commission may be made to the Federal Court of Appeal upon a question of law, or a question of jurisdiction.

Telecommunications - The CRTC's mandate for telecommunications derives from several statutes, including the Railway Act and certain provision of the National Transportation Act which are made applicable to telecommunications, and the acts of incorporation of the federally-regulated carriers. Section 321 of the Railway Act states that all rates shall be just and reasonable, and that a carrier shall not give any undue preference in respect of its rates, services, or facilities.

Under § 64 of the National Transportation Act, the Cabinet can vary or rescind, but not refer back, decisions made by the Commission relating to the federally-regulated telecommunications carriers.

NATIONAL ENERGY BOARD (CANADA)

The National Energy Board was established by the National Energy Board Act, an Act of the Parliament of Canada, on 2 November 1959. The Board's regulatory powers set out in this Act include the authorization of oil, natural gas and electricity exports, the authorization of interprovincial and international pipelines and international and designated interprovincial power lines, and the setting of tolls and tariffs for oil and gas pipelines under federal jurisdiction. The Act also requires that the Board exercise advisory functions by reviewing Canadian supplies of all major energy commodities, with emphasis on electricity, oil, natural gas, and the by-products derived from oil and natural gas, as well as reviewing the demand for Canadian energy in domestic and export markets.

In addition to the mandate assigned to it by the National Energy Board Act, the Board has been given responsibilities under the Northern Pipeline Act and the Energy Administration Act.

Under the Northern Pipeline Act, the Board's responsibilities concern the Canadian portion of the Alaska Natural Gas Transportation System and relate mainly to the regulation of tolls and tariffs, the approval of pipe specifications, the granting of leave-to-open orders, and the regulation of the operation of the line.

The Board's responsibilities under the Energy Administration Act, relate to the collection of oil export charges. Although the charges on crude oil and bulk petroleum product exports were reduced to zero in 1985, some activity remains in the areas of collection and write-off of outstanding assessments.

The National Energy Board is a court of record and is vested with the powers, rights and privileges of a superior court of record which are necessary or proper for the due exercise of its jurisdiction.

The Board may review, rescind or change any of its orders or decisions, or re-hear any application before deciding on it. It may also change a previously issued certificate or license, but no such change is effective until approved by the Governor in Council. Parties may apply to the Board requesting that an order or decision be reviewed, or that a license or certificate be amended.

An appeal against a decision or order of the Board may be made to the Federal Court of Appeal, with leave, upon a question of law or a question of jurisdiction.

ALBERTA PETROLEUM MARKETING COMMISSION

The Commission is the agent of the Crown in marketing the Crown's royalty share of crude oil production and acts as a marketer of freehold crude oil production on a contract basis. Under legislative authority the Commission collects pricing and sales information relative to the provinces natural gas production and provides market information to the Alberta government; determines the existence of producer support for downstream prices proposed by shippers operating under netback pricing

AGENCY HISTORY

ALBERTA PETROLEUM MARKETING COMMISSION
(Continued)

arrangements; and offers its services to shippers and producers in the verification of payments to producers operating under netback contracts.

The Commission and staff deal extensively with the oil and gas industry and government bodies in Canada and the USA. Advice is provided to the Alberta government on matters dealing with oil and natural gas markets and revenues. The Commission also represents the government's interests at regulatory proceedings dealing with oil and gas matters. Policy and administrative directives are developed through weekly management meetings of Commission members and senior staff.

Commissioners are appointed by Order-in-Council of the Provincial Cabinet on the basis of experience and expertise in the energy industry, for indeterminate terms.

ALBERTA PUBLIC UTILITIES BOARD

The Alberta Public Utilities Board (PUB) was initiated primarily by the Public Utilities Act, being Chapter 6, Statutes of Alberta, 1915. The Act provided that three commissioners were to be appointed by the Lieutenant Governor in Council, one of whom would be Chairman. The Board was to constitute a court of record with an official seal which would be judicially noted.

The original Act was repealed and re-enacted by Chapter 53, Statutes of Alberta, 1923, in which re-enactment reference to the court of record was deleted, but judicial noting of the official seal was retained.

This Act was repealed in 1960 by Chapter 85, Statutes of Alberta, 1923, and re-enacted as (a) The Public Utilities Board Act, and (b) The Gas Utilities Act, being Chapter 37, Statutes of Alberta, 1960.

The above statutes are now incorporated as Chapters P-37 and G-4 respectively of the Revised Statutes of Alberta, 1980. A 1981 amendment to these statutes had the effect of removing the statutory limit on the number of members and acting members. Numbers are now at the discretion of the Lieutenant Governor in Council.

BRITISH COLUMBIA UTILITIES COMMISSION

The British Columbia Utilities Commission was established September 11, 1980 through proclamation of the Utilities Commission Act. It replaced the predecessor Commission, the British Columbia Energy Commission, which had functioned since May, 1973.

New Act - The proclamation of the Utilities Commission Act provided a dramatic change in the role of the Commission and its staff. The Chairman is the chief executive officer of the Commission and has supervision over and direction of the work and the staff of the Commission. The Commission is subject to any general or special direction of the Lieutenant Governor in Council with respect to the exercise of its powers and functions. British Columbia Hydro and Power Authority, heretofore exempt from the jurisdiction and authority of the Commission except for matters arising out of complaint, is now subject, as a public utility, to the regulatory jurisdiction of the Commission. All matters pertaining to financing in B.C. Hydro, however, remain the responsibility of the Ministry of Finance. Municipal utility systems are exempt from Commission jurisdiction only in respect of utility services furnished within their own boundaries. Provision is included in the Act for recognition, as public utilities, of companies owning or operating in the province, equipment and facilities for "the convenience of transmission of information, messages or communications by guided or unguided electromagnetic waves, including systems of cable, microwave, optical fibre or radio communications where that service is offered to the public for compensation."

New provisions in the Act relate to procedures for reviewing proposed major energy producing and consuming projects and requiring Energy Project Certificates and Energy Operation Certificates. Such matters are required to be submitted to the Minister who may, in accordance with § 19 of the Utilities Commission Act (a) with the concurrence of the Minister of Environment, refer the Application to the Commission for a review, (b) order, in a case where the Application is made by a public utility, that the Application be dealt with by the Commission under Part 3 as an application for a Certificate of Public Convenience and Necessity, or (c) with the concurrence of the Minister of Environment, order that the construction and operation of the regulated project is exempt from the provisions of the Utilities Commission Act.

An application for an Energy Project Certificate which has been referred to the Commission for a review requires the Commission to hear it in a public hearing in accordance with the terms of reference specified jointly by the Minister of Energy, Mines and Petroleum Resources and the Minister of Environment. On conclusion of the hearing the Commission will submit a

AGENCY HISTORY

BRITISH COLUMBIA UTILITIES COMMISSION
(Continued)

report and recommendation to the Lieutenant Governor in Council.

Other Responsibilities - The Commission conducts annual reviews of each of the regulated utilities; reviews and adjudicates complaints received from customers of utilities; administers the Rural Electrification

Assistance (REA) program for investor and municipally-owned electric utilities; issues Orders under the Common Carrier/Purchaser/Processor provisions of the Act and carries out a number of ancillary functions.

Utility applications for approval of the addition of major new facilities and for changes in the rates to be charged for utility service are usually subject to public hearings, where the utility must justify its proposals and where customers and other interested parties have an opportunity to be heard. The Commission issues a Decision following the completion of a public hearing, and such Decisions are only subject to appeal to the Court of Appeal on questions of law or excess of jurisdiction.

NEWFOUNDLAND AND LABRADOR BOARD OF COMMISSIONERS OF PUBLIC UTILITIES

The Board was first constituted under the Public Utilities Act, 1949.

Road transport was placed under the Board's jurisdiction in 1968 by proclamation - The Motor Carrier Act.

Electrical Power Control Act passed in 1977 to control the rates of Newfoundland and Labrador Hydro and to declare a provincial power policy.

The Automobile Insurance Act was amended in 1977 to give the Board the general supervision of the rates an insurer charges or proposes to charge for automobile insurance.

NOVA SCOTIA BOARD OF COMMISSIONERS OF PUBLIC UTILITIES

The Board was formed in 1913 after the passage of the Public Utilities Act by the Provincial Legislature. For many years the Board consisted of three Commissioners and was primarily concerned with regulation of telephone, electric and water utilities. In the 1970's the number of Commissioners was increased to seven.

In 1959 a Motor Carrier Act was passed by the Legislature and administration of this Act is carried out by the Board. In 1976 the Nova Scotia Power Corporation, a provincial crown agency, came under the jurisdiction of the Board. In addition, the Board is responsible for the administration of the Gasoline and Fuel Oil Licensing Act and the Salvage Yards Act.

ONTARIO ENERGY BOARD

In 1858 James Miller Williams completed the drilling of North America's first recorded oil well, at Oil Springs, Lambton County, Ontario. Before the turn of the century more than 2,500 wells had been completed in the area.

By the early 1900's Ontario was self-sufficient in oil and natural gas and was an exporter of energy to Detroit, Toledo, Buffalo and other areas in the US. But a lot of natural gas was being wasted, primarily from the flow of abandoned wells, and in 1907 the first legislation was passed by the Government of Ontario which provided for the plugging of such wells and also for the appointment of Provincial Inspectors. In 1914 this legislation became known as "The Natural Gas and Oil Wells Act" under "The Revised Statutes of Ontario". This Act and the subsequent amendments thereto were repealed in 1924, at which time the Well Drillers Act came into effect. The new Act was enforced by the Commissioner of Natural Gas and his Inspectors.

In 1950 provision was made in the Well Drillers Act for the Lieutenant Governor in Council (the Lieutenant Governor is the Queen's appointed representative for the Province) to make regulations with respect to many aspects of the industry, and these remained in effect until repealed by the Ontario Fuel Board Act of 1954, which provided for the appointment and structure of the Board, and empowered it to control and regulate the production, storage, transmission, distribution, sale, disposal, supply and use of natural gas in the Province. In the exercise of these powers the Board carried out a wide range of inspection and licensing functions, and was responsible for the fixing of rates and other charges payable by the ultimate consumers of natural gas.

In addition to these powers the Board had the authority, under The Municipal Franchises Act, to issue certificates of

AGENCY HISTORY

ONTARIO ENERGY BOARD
(Continued)

public convenience and necessity to gas companies wishing to construct distribution facilities to serve a given market area, and the authority to approve municipal by-laws granting or renewing gas franchises. In 1958 The Pipelines Act further provided that leave to construct oil and gas transmission lines in the Province had to be obtained from the Board, as did leave to expropriate land for pipeline construction.

The Department of Energy Resources was formed in 1959, with a mandate to integrate the various forms of energy production and supply and to plan for the Province's future energy requirements. At that time the administrative functions of the Ontario Fuel Board--those involving supervision, inspection and licensing -were vested in the new Department, which was later renamed the Department of Energy and Resources Management. The remaining quasi-judicial functions were vested in a new Ontario Energy Board, which reported to the Minister of Energy Resources Management, all of which was provided for, in 1960, by repeal of the Fuel Board Act and enactment of The Ontario Energy Board Act. The Ontario Energy Board now reports to the Minister of Energy.

ONTARIO TELEPHONE SERVICE COMMISSION

The first Telephone Act, passed in 1910, brought all independent systems in the Province under the control and regulation of the Ontario Railway and Municipal Board. In 1948, the Smythe Report recommended that a government authority or commission be established which would set standards of service and be responsible for overall planning of communication needs.

In 1951 the Rural Telephone Act was passed and gave the Hydro Electric Power Commission of Ontario the duty of investigating ways and means of promoting improved telephone service in rural areas of the Province. As a result of their study a revised Telephone Act was passed in 1954 and the Ontario Telephone Authority was instituted. The new OTA reported directly to the Minister of Agriculture in regards to the 465 independent telephone companies then operating 176,000 telephones in Ontario.

In 1960, the Telephone Act was amended to change the name of the Ontario Telephone Authority to the Ontario Telephone Service Commission to more accurately reflect the aims and duties of the agency. In 1971 it was decided that the OTSC should report to the Minister of Transportation and Communications. Presently the Commission, composed of the chairman and four commissioners regulate 36 independent telephone companies (over 262,000 telephones) which are either municipal systems, incorporated companies, or systems operated as public utilities by municipal corporations.

In 1977 a Memorandum of Understanding was entered into by the Minister of Transportation and Communications and the Chairman of the Commission. The purpose of the Memorandum is to state, in general terms, government policy respecting the regulation of the independent telephone systems under the jurisdiction of the Ontario Telephone Service Commission. It further states the relationship between the Minister and the Commission, the Commission and the Ministry of Transportation and Communications, and the Commission and other agencies.

QUEBEC NATURAL GAS BOARD
(Regie du gaz naturel du Quebec)

In 1932, the government appointed a commission known as Lapointe Commission, to study the status of the electricity in the Province of Quebec. The report of this Commission covered the following subjects: (1) nature, role and importance of electricity; (2) electricity in the Province of Quebec; (3) the different types of enterprises adaptable to the electrical industry; (4) energy rate design; and (5) rural electrification.

In 1935, following the above study, the first provincial organism was constituted, and was given the task of the supervision and control of the production, distribution and sale of electricity in Quebec. This body, called the Quebec Electricity Commission, was replaced in 1937 by the Provincial Electricity Board. In August 1940, the Public Service Board had been substituted for the Provincial Electricity Board, and in addition to assuming jurisdiction over electricity, it was given similar prerogatives over gas. In August 1945, the Quebec Legislation entrusted the Provincial Transportation and Communication Board with that on gas.

In 1949, the jurisdiction of the Provincial Transportation and Communication Board on gas was transferred to the Public Service Board.

In 1957, the jurisdiction on gas was again transferred to the Provincial Electricity Board.

AGENCY HISTORY

QUEBEC NATURAL GAS BOARD
(Continued)

Finally, in 1959, the name of the Provincial Electricity Board was changed into Electricity and Gas Board and the government entrusted it also with the jurisdiction on matters of public safety in relation to gas.

Since 1964, the Board's main offices are located at 2100 Drummond Street, Montreal, Quebec H3G 1X1.

Effective June 17, 1988, the Board's jurisdiction was changed to cover natural gas only.

QUEBEC TELECOMMUNICATIONS BOARD
(Regie des telecommunications du Quebec)

Before 1972, the Quebec Public Service Board exercised jurisdiction over expropriation matters and also over provincial telephone and telegraph undertakings. In 1972 (S.Q. 1972, C-56), the Quebec National Assembly gave the Board jurisdiction over CATV. The following year, the Board's jurisdiction over expropriation matters was transferred to the newly-formed Expropriation Tribunal (S.Q. 1973, C-38).

On November 30, 1977, the Supreme Court of Canada decided, in the case of **Regie des Services Publics C. Dionne**, that CATV per se was under exclusive federal jurisdiction and that, therefore, the Quebec Regulation over CATV public undertakings and the Quebec Public Service Board Act insofar as they purported to apply to CATV were ultra vires of the Province.

On November 15, 1978, the Lieutenant-Governor-in-Council adopted the Regulation relating to Pay TV (O.C. 2521-78). This regulation applies only to closed circuit Pay TV undertakings. On March 15, 1982, the Quebec Government adopted a second Regulation concerning pay-television enterprises (O.C. 546-82 - Supplement-Revised Regulations of Quebec up to August 1, 1982, p. 900). This Regulation replaces the 1978 Regulation on the same subject.

On January 23, 1980, the Government proclaimed an Act respecting educational programming (S.Q. 1979, C-52) and Art. 21.1 of an Act relating to the Office de radio-television du Quebec (S.Q. 1979, C-11). These laws gave the Board jurisdiction to declare educational the programming of certain radio, television and CATV enterprises, notably Radio-Quebec.

On March 16, 1981, the Regie rendered its first decision on Radio-Quebec declaring educational that network's programming (ordinance no. 9567). In that decision, the Regie made certain comments as to the changes that Radio-Quebec would have to bring to its programming in order to conform itself more completely to the Quebec Educational Programming Act (Loi concernant la programmation educative) and to the Radio-Quebec Act (Loi concernant Radio-Quebec). On September 30, 1981, the Regie gave to the Quebec Minister of Communications its written advice on the subject of terminal and network interconnection, after holding hearings on the subject. The Minister, who had requested this advice, made it public October 16.

On June 7, 1988, the Quebec National Assembly adopted an Act respecting the Regie des telecommunications, effective November 9, 1988. It replaces the former Regie des services publics (Public Service Board) with the Regie des telecommunications (Telecommunications Board). The new Board has jurisdiction in the same areas as the former; although this Board's powers differ in some respects.

QUALIFICATIONS OF COMMISSIONERS

The qualifications for the position of Commissioner, and the legal citation therefor when reported, are summarized below alphabetically with Federal agencies listed first and Canadian agencies last.

* * * * * * * * *

FEDERAL COMMUNICATIONS COMMISSION. A Commissioner must be a citizen of the United States. Commissioners are appointed by the President, with the advice and consent of the Senate. No Commissioner can have a financial interest in any Commission-regulated business. No more than 3 Commissioners may be members of the same political party. Appointments are for 5 years, except in filling an unexpired term.

FEDERAL ENERGY REGULATORY COMMISSION. **§204 of the DOE Organization Act**: Chairman and Members of the Commission must demonstrate ability, background, training or experience to assess fairly the needs and concerns of all interests affected by Federal Energy Policy.

INTERSTATE COMMERCE COMMISSION. Commissioners are appointed by the President of the United States with advice and consent of the Senate. No law specifies particular qualifications for Commissioners, but at least in recent years, each member has faced searching questions relating to qualifications in the Senate confirmation process. Chairman is designated by the President from among the Commissioners **§3 of Reorganization Plan No. 1 of 1969.** Commissioners choose the Vice Chairman from the members. Prior to enactment of the Omnibus Budget Reconciliation Act of 1982, the Interstate Commerce Act provided for Commissioners to be appointed for terms of 7 years each, except that any person chosen to fill a vacancy is appointed only for the unexpired term. New appointees are now limited to a five-year term. Each may serve beyond the term until a successor is qualified and takes office.

* * * * * * * * *

ALABAMA PUBLIC SERVICE COMMISSION. A person may not own any stock in, be in the employ of, or have any pecuniary interest in any utility **§37-1-6, Code of AL 1975.**

ALASKA PUBLIC UTILITIES COMMISSION. **AS 42.05.040.** One member must be a graduate of an accredited school of law; one a graduate of an accredited university with a major in engineering; one member a graduate of an accredited university with a major in finance, accounting, or business administration; and two members shall be consumers. **(§2 ch 199 SLA 1959; am §1 ch 156 SLA 1960; am §2 ch 213 SLA 1975).**

ARIZONA CORPORATION COMMISSION. **Arizona Constitution, Article XV, Section 1**: "The qualifications of Commissioners may be prescribed by law." **Arizona Code, §38-201**: public officers must be at least 18 years old, a citizen of the United States and able to speak, write and read English. Also, the 1939 decision in **Stapelton v. Frohmiller**, 53 Ariz. 11, 85 p. 49, declared that an officer of the State must be a qualified elector of the political division in which said person shall be elected or appointed.

ARKANSAS PUBLIC SERVICE COMMISSION. At least one of the three Commissioners "shall be a lawyer" and none shall have a pecuniary interest in any utility or affiliate (ACA §23-2-101). Each Commissioner must be a State resident for five years before appointment and be bondable.

CALIFORNIA PUBLIC UTILITIES COMMISSION. Each Commissioner must be a qualified elector of the State. He may not be in the employ of or hold official relation to a regulated entity or hold stock, bonds, or be pecuniarily interested therein. **California Constitution, Article XII, §22.**

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL. **§16-2(a)**: the 5 members, appointed to four-year terms by the governor with the advice and consent of both houses of the general assembly, must be registered voters. No more than three may be members of the same political party. Any matter coming before the authority may be assigned by the chairperson to a panel of three commissioners, of which no more than two may be members of the same political party; members must devote full time to their duties and must make full financial disclosure upon appointment and annually during term of office. At least three commissioners must have training or experience in at least one of the following fields: Economics, engineering, law, accounting or finance and, further, at least two of these fields must be represented on the authority at all times.

DELAWARE PUBLIC SERVICE COMMISSION. The Commission consists of 5 members, each appointed by the Governor and confirmed by a majority of the Members elected by the Senate. No more than 3 members may be members of the same political party. One of the members must be a resident of the City of Wilmington, one a resident of New Castle County outside of Wilmington, one a resident of Kent County, one a resident of Sussex County, and one must be a resident of Delaware at large. A Commissioner must continue to reside in the political subdivision of which he was a resident at the time of his appointment.

QUALIFICATIONS OF COMMISSIONERS

FLORIDA PUBLIC SERVICE COMMISSION. Ch. 350, Florida Statutes, 1978, (revised): no person shall be recommended to the Governor by the Public Service Commission Nominating Council unless the Council is satisfied that the person is competent and knowledgeable in one or more fields which include, but are not limited to, public affairs, law, economics, accounting, engineering, finance, natural resource conservation, energy, or another field substantially related to the duties and functions of the Commission. **§350.04, Florida Statutes:** Commissioners may not, in any way, be holders of any stocks or bonds of, agent or employee of, or have any interest in, any railroad or utility company during their respective terms of office.

GEORGIA PUBLIC SERVICE COMMISSION. 93-202: Commissioners may not in any way hold any stocks or bonds of, be agents or employees of, or have any interest in, any railroad company or other corporation under the jurisdiction of the Commission, during the term of office. Any commissioner acquiring such pecuniary interest must either immediately divest himself of the interest or resign. Failure to do so will result in suspension from office by the Governor. Any person 30 years of age, who is qualified to vote as an elector, and who has no direct or indirect interest in any entity that participates in any way in any arrangement that has the effect of increasing the cost of any commodity sold to the public, is eligible to for membership. **(Acts 1878-79, pp. 125, 126, 1907, p. 72).**

HAWAII PUBLIC UTILITIES COMMISSION. §269-2 of Hawaii Revised Statutes: in appointing Commissioners, the Governor shall select persons who have had experience in accounting, business, engineering, government, finance, law or other similar fields. Commissioners must devote full-time to their duties as members and may no hold any other public office or employment during his term of office. No person owning any stock or bonds of any public utility or having any interest in any public utility may be appointed a Commissioner.

IDAHO PUBLIC UTILITIES COMMISSION. Commissioner: must be a qualified elector of the State; may not have any official relation to, or any pecuniary interest in, any entity subject to commission regulation; provided that, if he acquires such pecuniary interest in such corporation other than voluntarily, he shall divest himself of such interest; failing to do so, his office becomes vacant. **§61-207, Idaho Code.**

ILLINOIS COMMERCE COMMISSION. By statute, 7 members are appointed by the Governor with the advice and consent of the Senate to serve non-concurrent five-year terms; no more than 4 may be members of the same political party. One member is designated by the Governor as Chairman.

INDIANA UTILITY REGULATORY COMMISSION. One of the 5 commissioners must be an attorney qualified to practice law before the Supreme Court of Indiana. Not more than three may belong to the same political party. **Indiana Code 8-1-1-2.**

IOWA STATE UTILITIES BOARD. Ch. 474.2, Code of Iowa 1977 - Certain Persons Barred from Office. No person in the employ of any common carrier or other public utility, or owning any bonds, stock or property in any railroad or other public utility is eligible to be a Board Member or secretary; entering into the employ of or acquiring any interest in any such common carrier or other public utility after appointment disqualifies the member or secretary from holding that office.

IOWA DEPARTMENT OF TRANSPORTATION. Section 307.3 and 307.4, **Code of Iowa 1987** establish the DOT commission and conditions for service.

KANSAS STATE CORPORATION COMMISSION. Kansas Statutes Annotated 74-605: commissioners must be qualified electors and precludes a conflict of interest. As a matter of practice, the majority of commissioners have been attorneys.

KENTUCKY PUBLIC SERVICE COMMISSION. At the time of appointment, each commissioner must be a resident (for at least 3 years prior to appointment) and qualified voter of the State, and not less than 25 years old .

KENTUCKY RAILROAD COMMISSION. A person must be at least 21 years of age, a resident of Kentucky for two years, and live in the District from which he is chosen for a period of one year next preceding his election.

KENTUCKY TRANSPORTATION CABINET (Department of Vehicle Regulation). The Department consists of one commissioner appointed by the Governor; no specific statutory qualifications to hold that office.

LOUISIANA PUBLIC SERVICE COMMISSION. Five years of State citizenship, an elector, and a citizen of the United States **(Art IV, §2 of the 1974 Constitution).**

MAINE PUBLIC UTILITIES COMMISSION. There are no statutory qualifications a person must have to hold the office of Commissioner.

QUALIFICATIONS OF COMMISSIONERS

MARYLAND PUBLIC SERVICE COMMISSION. The 5 commissioners are appointed by the Governor with the advice and consent of the Senate, one of whom is the chairman. The Commission is broadly representative of the public interest, composed of persons with diverse training or experience. Each commissioner, upon taking office, must be a resident and registered voter of Maryland and must remain so during his term of office. **§5, Article 78 of the Annotated Code of Maryland.**

MASSACHUSETTS DEPARTMENT OF PUBLIC SERVICE. Commissioners are appointed by the Governor to terms of office coterminous with his. They must devote full time to the duties of their office. No more than two members of the Commission may be members of the same political party. **GL c. 25, §2.**

MICHIGAN DEPARTMENT OF TRANSPORTATION. Commissioners are appointed by the Governor with the advice and consent of the Senate and serve at the pleasure of the Governor. Full terms run for three years on a staggered basis, with three members being Democrats and three Republicans.

MICHIGAN PUBLIC SERVICE COMMISSION. Act No. 3: Created the Commission, which consists of 3 members, no more than 2 of whom may be members of the same political party, appointed by the governor with the advice and consent of the senate to six-year staggered terms. Each must be a citizen of the United States, and of the state; no member may have any pecuniary interest in any entity subject to the jurisdiction of the commission. During his term, member: may not hold any other position in this State; and for 6 months after, may not be retained or employed by any entity subject to commission regulation; and, if a member of the Michigan bar, may not practice his profession (he is not required to retire from or dissolve any partnership, but the partnership may not engage in public utility practice while When appointments expire, Commissioners serve until successors are appointed and qualified.

MINNESOTA PUBLIC UTILITIES COMMISSION. **Minn. Statute** 216A.03: The 5 Commissioners are appointed by the Governor with the consent of the Senate. No more than three may belong to the same political party. The Governor shall give consideration to persons learned in the law or who have engaged in engineering, public accounting or property and utility valuation as well as being representative of the general public.

MINNESOTA DEPARTMENT OF TRANSPORTATION. **Minn. Stat.** 174.02: "The department shall be supervised and controlled by the commissioner of transportation, who shall be appointed by the governor and serve under the provisions of §15.06."

MINNESOTA TRANSPORTATION REGULATION BOARD. **Minn. Stat. 174A. 01-06,** The 3 members are appointed by the Governor with the advice and consent of the Senate. Members serve in unclassified service. No more than two members may belong to the same political party. Members may not have any pecuniary interest in any regulated entity.

MISSISSIPPI PUBLIC SERVICE COMMISSION. Commissioners must be at least 25 years old, a citizen of the State five years next preceding the day of election, and shall continue in office during the term of four years. Commissioners may not operate, own any stock in, or be in the employment of any entity under Commission jurisdiction. **Mississippi Code, 1942, §77-1-1.**

MISSOURI PUBLIC SERVICE COMMISSION. Commissioner, at the time of appointment, must be a resident of the State and must have resided in Missouri for a period of five years next preceding his appointment and must be a qualified voter therein and not less than 25 years old. **§386.050, RSMo, 1978.**

MONTANA PUBLIC SERVICE COMMISSION. No qualifications for Commissioner other than those required of other State officers; one Commissioner is elected from each of 5 districts for four-year terms. Two Commissioners are elected at one election and the following election, two years later, the other three are elected, so that there can be no chance of having all new Commissioners at the same time. If any Commissioner's office becomes vacant, a successor is appointed by the Governor to fill the unexpired term.

NEBRASKA PUBLIC SERVICE COMMISSION. Members must be: resident citizens of Nebraska; qualified voters; if members of or practitioners in any profession, in good standing according to established standards of such profession". **§75-101, R.R.S. 1943.**

NEVADA PUBLIC SERVICE COMMISSION. The 1983 Legislature expanded the Commission from 3 to 5 members; the Governor appoints members with at least two years experience in one or more of the following fields: accounting, business administration, finance, administrative law, professional engineering, motor carriers. One commissioner may be appointed to represent the general public. **NRS 703.030 and NRS 703.110.** Commissioners serve staggered four-year terms and no more than three can belong to the same political party. The Governor names the Chairman.

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION. **§363:1 Commission.** The commission is composed of 3 members who are full-time employees and engage in no other gainful employment during their term. One commissioner must be an attorney

and a member of State Bar and one shall have either background or experience or both in one or more of the following: engineering, economics, accounting or finance.

NEW JERSEY BOARD OF PUBLIC UTILITIES. The Board consists of three citizens of the State who shall devote their entire time to the duties of the Board and shall not engage in any occupation, profession or other gainful employment. **NJSA 48: 2-1.**

NEW MEXICO PUBLIC SERVICE COMMISSION. The Commission consists of three persons appointed by the governor with the advice and consent of the Senate. No specific qualifications are required by law; members may not have any pecuniary interest in any New Mexico public utility. The chair is the commissioner with the longest continuous service. Commissioners must devote full time to the Commission. **NMSA 62-5-5.**

NEW MEXICO STATE CORPORATION COMMISSION. There are no specific qualifications. Members of the SCC are elected by popular vote.

NEW YORK PUBLIC SERVICE COMMISSION. Public Service Law, §4: no more than a majority of the Commission may be members of the same political party. §9: Members may not have any official relationship to the utilities regulated nor own stocks or bonds in said utilities. Commissioners are subject to the Public Officers Law: §3 of the Public Officers Law: among other things, to be eligible to hold civil office a person shall be 18 years of age, a citizen of the US and a resident of New York. **McKinney's Consolidated Laws of New York Annotated.**

NEW YORK STATE DEPARTMENT OF TRANSPORTATION. There are no specific statutory qualifications of Commissioners. The Commissioner is appointed by the Governor, with advice and consent of the Senate, for an indefinite term and is subject to the Public Officers Law which provides, among other things, that to be eligible to hold civil office a person must be 18 years old, a US citizen and a resident of New York (§3). The Director of the Regulation Division is a competitive Civil Service position and is filled according to Civil Service Law.

NORTH CAROLINA UTILITIES COMMISSION. 1975 legislation: Commissioners are appointed by the Governor, subject to confirmation by the General Assembly. Each Commissioner is required to take and file with the Secretary of State an oath of office to support the Constitution and laws of the United States and the State of North Carolina and is prohibited from engaging in any other employment, business, profession, or vocation while in office. **G.S. 62-10-13.**

NORTH DAKOTA PUBLIC SERVICE COMMISSION. Members of the PSC are elected by popular vote of the people, the three persons choosing to run for the office must be at least 25 years old and have the qualifications of State electors.

OHIO PUBLIC UTILITIES COMMISSION. **§4901.02(D), Ohio Rev. Code.** "Public utilities commissioners shall have at least three years of experience in one or more of the following fields: economics, law, finance, accounting, engineering, physical or natural sciences, natural resources, or environmental studies. At least one commissioner shall be an attorney admitted to the practice of law in any State or the District of Columbia."

OKLAHOMA CORPORATION COMMISSION. A person must be a citizen of the State for a minimum of two years, be a registered voter, and 30 years of age. **Oklahoma Constitution - Act 9, §16.**

OREGON PUBLIC UTILITY COMMISSION. The Commission is composed of three members appointed by the Governor and confirmed by the Senate for four-year staggered terms. No more than two members may be of the same political party. **ORS 756.014.**

PENNSYLVANIA PUBLIC UTILITY COMMISSION. Each Commissioner, at the time of his appointment and qualification, must be a resident of Pennsylvania, and a qualified elector therein for a period of at least one year next preceding his appointment, and not less than 25 years old. **66 P.S. §454, 454.1 §§3 and 4 of Act 216 of October 7, 1976):** certain employment restrictions and a Code of Ethics were imposed on Commissioners.

PUERTO RICO PUBLIC SERVICE COMMISSION. **§1052, Title 27, Laws of Puerto Rico Annotated:** Members of the Commission must be citizens of the United States and of the Commonwealth. Members are appointed by the Governor and may not hold any other remunerated office or position, or serve in or under any political party committee, but must devote full time to the duties of the office. Commissioners may not have any direct or indirect interest in any entity or its affiliate under Commission jurisdiction, or in entities within, or outside of Puerto Rico affiliated with or interested in such entities.

RHODE ISLAND PUBLIC UTILITIES COMMISSION. Qualifications and experience in law, government, economics, finance, engineering, accounting. **RI General Laws, §39-1-4.**

QUALIFICATIONS OF COMMISSIONERS

SOUTH CAROLINA PUBLIC SERVICE COMMISSION. SC Code Ann., §58-3-20 (1979, Cum. Supp.): members of the Commission are elected by the General Assembly upon nomination by the Public Service Merit Selection Panel. §58-3-25: the Panel "shall consider the knowledge and experience of the potential appointees in such varied fields as business, government, accounting, law, engineering, statistics, consumer affairs and finance." The Panel is further required "to find the best qualified people giving due consideration to their ability and integrity."

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION. SDCL 49-1-3. A person must be a citizen of the United States; a qualified elector of this State; at least 25 years old; a resident of the State for at least two years next preceding his election; at the time of election a resident of the district for which he is elected; and may not own any bonds or stocks in any company, or be employed by or in any manner pecuniarily interested in any entity under Commission jurisdiciton.

TENNESSEE PUBLIC SERVICE COMMISSION. Commissioners shall be residents of Tennessee and qualified voters and no less than 25 years of age. §65-102, TN Code Ann.

TEXAS PUBLIC UTILITY COMMISSION. V.A.T.S. Article 1446c. §6:(a): a person must be a qualified voter, not less than 30 years of age, a citizen of the United States, and a resident of the State of Texas. No person is eligible for appointment as a commissioner if at any time during the two-year period immediately preceding his appointment he personally had any official relation to any public utility or its affilieate, or owned or controlled in any way stocks or bonds of any class with a value of $10,000 or more in a public utility or any affiliated interest. Each commissioner must take the oath prescribed for other State officers and execute a bond for $5,000 payable to the State conditioned on the faithful performance of his duties. A person who is required to register as a lobbyist under Ch 422, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Art. 6252-9c, Vernon's Texas Civil Statutes), may not serve as a commissioner or public utility counsel or act as the general counsel to the commission.

TEXAS RAILROAD COMMISSION. Members must be resident citizens of Texas, qualified voters, and not less than 25 years old. No member may be in any way interested in any railroad, or in any kind of security or earnings of any railroad; if a member voluntarily becomes so interested his office becomes vacant; if he becomes so interested other than voluntarily, he must within a reasonable time divest himself of such interest; failing this, his office becomes vacant. No commissioner may hold any other office of any character during his term, nor engage in any occupation or business inconsistent with his duties as a commissioner. Art. 6447 Tex. Rev. Civ. Stat. Ann. (1925).

UTAH PUBLIC SERVICE COMMISSION. Each commissioner at the time of appointment must be a resident citizen of the United States and of Utah and not less than 30 years old. Except as provided by law, no commissioner may hold any other office, either under the US government or of this State or of any municipal corporation within this State. Utah Code Annotated, §54-1-1.5.

VERMONT PUBLIC SERVICE BOARD. §4, Title 30, Vermont Statutes Annotated, prohibits Board members from having any financial or contractual relationship with, or any other interest in, a regulated utility company.

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION. Title 30, Virgin Island Code §1 states: "No member of the Commission shall have any interest in, or be an agent or employee of, any public utility subject to this chapter."

VIRGINIA STATE CORPORATION COMMISSION. Code of Virginia, §12.1-9: At the time of appointment or election, member must be a qualified voter under the Constitution and Laws. At least one member must have the qualifications prescribed for judges of courts of record. Code 1950 (Repl. Vol. 1964), §12-10; 1971, Ex Sess., c. 157.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION. Commissioner must be a qualified elector of the State, be financially disinterested in any person or corporation subject to Commission regulation, be willing to take the constitutional oath of office and give bond of $20,000 for the faithful discharge of his or her duties. No more than two commissioners may belong to the same political party. RCW 80.01.020.

WEST VIRGINIA PUBLIC SERVICE COMMISSION. Commissioners must be resident citizens of the State; at least one must be licensed to practice law in West Virginia, with at least ten years' actual experience at the bar. No more than two Commissioners may be members of the same political party. Each must take and subscribe to an oath which is filed in the office of the Secretary of State. The Governor designates one of the members to serve as Chairman at the Governor's pleasure. The Chairman is the chief administrative officer of the Commission. WV Code §24-1-3 (1979 Cum. Supp.).

WISCONSIN PUBLIC SERVICE COMMISSION. No member of the PSC may have a financial interest in a railroad, public utility or motor carrier. No Commissioner may serve on or under any committee of a political party. §15.791, Wisconsin Statutes.

WYOMING PUBLIC SERVICE COMMISSION. Wyoming Statutes 1977, § 37-2-101, no more than two members may be of the

same political party and they must take, subscribe and file with the Secretary of State the prescribed oath of office within thirty days after notice of appointment.

NATIONAL ENERGY BOARD (CANADA). A person must be a Canadian citizen and may not, in any manner, be engaged in the business of producing, selling, buying, transmitting, exporting, importing or otherwise dealing in hydrocarbons or power and may not hold any kind of security of a corporation engaged in any such business. **(National Energy Board Act, RSC 1970, c. N-6, §3(5), as am. SC 1980-81-82-83, c. 116, §2(2).)** No other specific qualifications are prescribed by the Act.

ALBERTA PETROLEUM MARKETING COMMISSION. The qualifications of commissioners are not prescribed by law.

ALBERTA PUBLIC UTILITIES BOARD. The legislation is silent with respect to qualifications of Members of the Board.

BRITISH COLUMBIA UTILITIES COMMISSION. Commissioners are appointed by the Lieutenant Governor in Council of the Province to serve at pleasure for a full-time or temporary term not to exceed five years and may be reappointed. The Chairman, designated by the Lieutenant Governor in Council, is chief executive officer and has supervision over and direction of the work and staff of the Commission. One or more Commissioners may be designated by the Lieutenant Governor in Council as Deputy Chairman.

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION. A person must be a Canadian resident citizen. Commissioners may not hold any interest in a telecommunications undertaking **(§5, Canadian Radio-Television and Telecommunications Act, S.C. 1975, c. 49).** Commissioners must retire at age seventy. **(Subsec. 3(4), CRTC Act).**

NEWFOUNDLAND AND LABRADOR BOARD OF COMMISSIONERS OF PUBLIC UTILITIES. No prescribed qualifications for Commissioners, however, the Board generally has a mix of expertise. At present it consists of a Professional Engineer, a Chartered Accountant, a Queen's Counsel and two former businessmen knowledgeable in the Newfoundland economy.

NOVA SCOTIA BOARD OF COMMISSIONERS OF PUBLIC UTILITIES. There are no specifications as to the qualifications a person must have to be a Commissioner. **§2(1), Public Utilities Act.**

ONTARIO ENERGY BOARD. Ontario Energy Board Act, §2(2): Lieutenant Governor in Council appoints Members. No specific qualifications are prescribed.

ONTARIO TELEPHONE SERVICE COMMISSION. There is no statutory qualification for appointment to the Commission. The Chairman, a barrister, is the only full-time member. All of the Commissioners are appointed by the Lieutenant Governor in Council for a term certain **(The Telephone Act, Revised Statutes of Ontario 1970, Chapter 457, §2).**

QUEBEC NATURAL GAS BOARD (Regie du gaz naturel du Quebec). The President and Commissioners are appointed by the Lieutenant-Governor in Council for a period of ten years and shall remain in office, notwithstanding the expiration of their term of office, until they have been replaced or reappointed.

REMOVAL OF COMMISSIONERS FROM OFFICE

The grounds and procedure for the removal of a Commissioner from office, and the legal citations when reported, are summarized below alphabetically with Federal agencies listed first and Canadian agencies last.

* * * * * * * * *

FEDERAL COMMUNICATIONS COMMISSION - The Communications Act of 1934, as amended, does not address the question of removal of Commissioners.

FEDERAL ENERGY REGULATORY COMMISSION - Section 401(b) of the DOE Organization Act states that Members may be removed by the President only for inefficiency, neglect of duty or malfeasance in office.

INTERSTATE COMMERCE COMMISSION - The Chairman is designated by and serves at the pleasure of the President of the United States. No Commissioner may be removed from office during his or her term except for cause.

* * * * * * * * *

ALABAMA PUBLIC SERVICE COMMISSION. Commissioners may be impeached and removed from office by the Supreme Court for the same causes and in the same manner as other State officers; and any Commissioner who shall accept directly or indirectly any gift, gratuity, emolument, or employment from any person, firm, corporation, company or association, owning or operating in whole or in part in this State a utility, during his continuance in office, except a pass from himself or any employee of the Commission on official business, shall forfeit his office and may be impeached and removed from office therefore, or for any other, cause of impeachment. **§37-1-7, Code of AL 1975.**

ALASKA PUBLIC UTILITIES COMMISSION. A Commissioner may be removed by the Governor, by and with the consent of a majority of the legislature. **§4 ch 113 SLA 1970, as 42.05.035.**

ARIZONA CORPORATION COMMISSION. **Recall:** Commissioners are subject to recall by the qualified electors of the electoral district from which they were elected to office. Such electoral district may include the whole State. A number of qualified voters equaling 25% of the number of votes cast at the last preceding general election for the office held by such officer, may by a Recall Petition, demand his recall. Every Recall Petition must contain a general statement, in not more than two hundred words, of the grounds for such demand, and must be filed in the office in which petitions for nominations to the office held by the incumbent are required to be filed.

If such officer offers his resignation it shall be accepted, and the vacancy filled as may be provided by law. If he does not resign within five days after a Recall Petition is filed as provided by law, a special election shall be ordered to be held as provided by law, to determine whether such officer shall be recalled.

Unless he otherwise requests, in writing, his name shall be placed as a candidat[illegible] the official ballot without nomination. Other candidates for the office may be nominated to be voted for at said election. The candidate who receives the highest number of votes shall be declared elected for the remainder of the term. Unless the incumbent received the highest number of votes, he shall be deemed to be removed from office upon qualification of his successor. **Art. 8 Pt. 1 §1-4.**

Impeachment: The House of Representatives have the sole power of impeachment. The concurrence of a majority of all the members shall be necessary to an impeachment.

No person shall be convicted without a concurrence of two-thirds of the Senators elected. The Governor and other State and judicial officers, except justices of courts not of record, shall be liable to impeachment for high crimes, misdemeanors, or malfeasance in office, but judgment in such cases shall extend only to removal from office and disqualification to hold any office of honor, trust, or profit in the State. The party, whether convicted or acquitted, shall nevertheless, be liable to trial and punishment according to law. **Art. 8 Pt. 2 §1-2.**

ARKANSAS PUBLIC SERVICE COMMISSION. No legal authority to remove a Commissioner once confirmed by the Senate.

CALIFORNIA PUBLIC UTILITIES COMMISSION. A Commissioner may be removed for dereliction of duty, corruption, or incompetency. Removal requires a vote of two-thirds of all members of each house of the Legislature. **California Constitution, Article XII, §22.**

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL. "Sec. 16-5. Removal. Misconduct, material neglect of duty, incompetence in the conduct of his office or active participation in political management or campaigns by any commissioner shall

constitute cause for removal. Such removal shall be made only after judgment of the Superior Court rendered upon written complaint of the Attorney General. The Attorney General may file such complaint in his discretion and shall file such complaint if so directed by the Governor. Upon the filing of such complaint, a rule to show cause shall issue to the accused, who may make any proper answer within such time as the court may limit and shall have the right to be heard in his own defense and by witnesses and counsel. The procedure upon such complaint shall be similar to that in civil actions, but such complaint shall be privileged in order of trial and shall be heard as soon as practicable. If, after hearing, the court finds cause for removal, it shall render judgment to that effect, and thereupon the office of such commissioner shall become vacant." **1949 Rev., §5394.**

Continued violation of statutory duty would constitute "material neglect of duty". **111 C. 639.** Statute does not violate due process, id. 647. Former provision required Attorney General to file complaint on petition of one hundred electors alleging facts not manifestly untrue. **112 C. 586.**

DELAWARE PUBLIC SERVICE COMMISSION. The Governor, with the advice and consent of the Senate, may remove any member of the PSC for neglect of duty or misconduct in office, giving to the member a copy of the charges against such person and affording an opportunity of being publicly heard in person or by counsel, upon ten days notice. **Title 26 Delaware Code.**

FLORIDA PUBLIC SERVICE COMMISSION. §350.03, Florida Statutes, authorizes the Governor to remove commissioners and fill vacancies as follows: "The Governor shall have the same power to remove, suspend, or appoint to fill vacancies in the office of commissioners as in other offices."

GEORGIA PUBLIC SERVICE COMMISSION. The commissioners shall not jointly or severally, or in any way be the holders of any railroad stock or bonds, or be agents or employees of any railroad company, or have any interest in any way in any railroad or other corporation under the jurisdiction of the Commission, and shall so continue during the term of office; and in case any commissioner becomes disqualified in any way, he shall at once remove the disqualification or resign, and on failure so to do he must be suspended from office by the Governor and dealt with as hereinafter provided. **Acts 1878-79, pp. 125, 126, 1907, p. 72.**

HAWAII PUBLIC UTILITY COMMISSION. Pursuant to §26-34 of Hawaii Revised Statutes, the Governor may remove or suspend for cause any member of any board or commission after due notice and public hearing.

IDAHO PUBLIC UTILITIES COMMISSION. The Governor may remove one or more commissioners from office for dereliction of duty or corruption or incompetency upon filing with the secretary of the commission charges against the commissioner(s) setting forth the grounds of the contemplated removal and giving an opportunity for commissioner(s) to be heard. **§61-202, Idaho Code.**

ILLINOIS COMMERCE COMMISSION. A Commissioner may be removed for holding other positions for profit, financial conflict of interest, soliciting or accepting gifts, money or favors from regulated companies. **IL Rev. Statutes, Ch 111 2/3, §4.**

INDIANA UTILITY REGULATORY COMMISSION. The Governor may remove any Commissioner at any time for cause. **Indiana Code, 1971, §8-1-1-2(c).**

IOWA STATE UTILITIES BOARD and DEPARTMENT OF TRANSPORTATION. Members may be removed or suspended from office or impeached pursuant to specific guidelines set forth in **Iowa Code, Chapter 66, 67 and 68 (1987).**

KANSAS STATE CORPORATION COMMISSION. Article 4, §3 of the Constitution of Kansas, popular recall of officials. **Kansas Statutes Annotated, §60-1205, et. seq.** removal in case of willful misconduct, neglect, or moral turpitude.

KENTUCKY PUBLIC SERVICE COMMISSION. The Governor may remove any Commissioner for cause after giving him a copy of the charges against him and an opportunity of being publicly heard in person, or by cause in his own defense upon not less than ten days notice.

KENTUCKY RAILROAD COMMISSION. Removal of a Commissioner is under the jurisdiction of the State Attorney General.

KENTUCKY TRANSPORTATION CABINET. The Governor may remove any Commissioner for cause.

LOUISIANA PUBLIC SERVICE COMMISSION. The Louisiana Constitution, **Article 8, §24**, provides for removal of commissioners for a felony, malfeasance or gross misconduct. **Article X, §26**, provides for recall by election.

MAINE PUBLIC UTILITIES COMMISSION. Any willful violation of the Public Utilities Law in Maine by any commissioner shall constitute sufficient cause for removal by the Governor on the address of both branches of the Legislature, or by impeachment, pursuant to Maine Constitution. **35 MRSA §2.**

REMOVAL OF COMMISSIONERS FROM OFFICE

MARYLAND PUBLIC SERVICE COMMISSION. The Governor may remove any Commissioner for incompetency or misconduct in office, in accordance with **Article 41, §§2-501 through 2-504. §8, Article 78 of the Annotated Code of Maryland.**

MASSACHUSETTS DEPARTMENT OF PUBLIC UTILITIES. No provisions relating specifically to the Department of Public Utilities. Any public officer appointed by the Governor may at any time be removed by the Governor for cause. **G.L. c. 30, §9.**

MICHIGAN DEPARTMENT OF TRANSPORTATION. Commission members may be removed by the Governor **(Article 5, §10, Michigan Constitution of 1963).**

MICHIGAN PUBLIC SERVICE COMMISSION. Act No. 3 provides that "Any member of the Commission may be removed by the Governor for misfeasance, malfeasance or nonfeasance in office after hearing."

MINNESOTA DEPARTMENT OF TRANSPORTATION. The Governor may remove the commissioner at any time for cause after notice and hearing. **Chapter 174, Minnesota Statutes.**

MINNESOTA PUBLIC UTILITIES COMMISSION. Under the provisions of **M.S. §15.0575 Subd. 4 (1976)** commissioners may be removed by the Governor at any time for cause after notice and hearing.

MINNESOTA TRANSPORTATION REGULATION BOARD. Minn. Stat. 174A.01 Subd. 2: "The removal of board members and the filling of vacancies shall be as provided in Sec. 15.0575."

MISSISSIPPI PUBLIC SERVICE COMMISSION. If any public officer, state, district, county, or municipal, shall be convicted of misconduct or misdemeanor in office, of any felony or other infamous crime, of corruption in office or peculation therein, or of gambling or dealing in futures with money coming to his hands by virtue of his office, the court, in addition to such other punishment as may be prescribed, shall adjudge the defendant removed from office, and the office of the defendant shall thereby become vacant. If any such officer be found by inquest to be of unsound mind during the term for which he was elected or appointed, or shall be removed from office by the judgment of a court of competent jurisdiction or otherwise lawfully, his office shall thereby be vacated; and in any such case the vacancy shall be filled as provided by law. **Mississippi Code, 1942 §25-5-1.**

MISSOURI DIVISION OF TRANSPORTATION. The governor may remove any administrative law judge from office for inefficiency, neglect of duty, or misconduct in office. The legislature can remove any administrative law judge from office, by a two-thirds vote, for dereliction of duty, corruption, or incompetency. Any such administrative law judge must be given written notice of the charges and public hearing. §386.060, RSMo 1986, is made applicable to Division of Transportation administrative law judges pursuant to the provisions of §622.015, RSMo 1986.

MISSOURI PUBLIC SERVICE COMMISSION. The governor may remove any commissioner for inefficiency, neglect of duty, or misconduct in office. The legislature also shall have power, by a two-thirds vote of all members elected to each house to remove one or more commissioners from office for dereliction of duty, or corruption, or incompetency. **§386.060, RSMo 1978.**

MONTANA PUBLIC SERVICE COMMISSION. A Commissioner may be removed from office by recall according to the **Montana Recall Act, §2-16-602, MCA.**

NEBRASKA PUBLIC SERVICE COMMISSION. "If any Commissioner shall become directly or indirectly interested, after his election or appointment, in any common carrier in the State or out of it, or who is any way or matter pecuniarily interested in any common carrier subject to regulation of this Commission, his office shall become vacant." **§75-101 R.R.S. 1943.**

NEVADA PUBLIC SERVICE COMMISSION. NRS 703.060 governs the removal of commissioners. "The governor shall have the power to remove any commissioner for inefficiency, neglect of duty or malfeasance in office. Such removal shall be upon public hearing after 10 days notice and the service of a copy of the charges upon the commissioner. The record of any such proceedings shall be filed with the secretary of state if a commissioner is removed." The commission is structured so that no more than three members can belong to the same political party. The law of appointment (NRS 281.057) stipulates that an appointment is invalid on this type of board if an individual changed their party registration within two years before appointment.

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION. The governor and council may at any time remove any commissioner for inefficiency, neglect of duty or malfeasance in office; but no commissioner shall be removed without a hearing after notice in writing of the charges against him. **RSA 363:7.**

NEW JERSEY BOARD OF PUBLIC UTILITIES. "After notice, the service of charges and the opportunity to be heard at public hearing the Governor may remove any such officer or employee for cause. Such officer or employee shall have the right to judicial

review, on both the laws and the facts, in such manner as shall be provided by law." **NJSA Const. Art. V. §IV, par. 5.**

NEW MEXICO PUBLIC SERVICE COMMISSION. A Commissioner may be removed from office for incompetency, neglect of duty, malfeasance in office, and acceptance of gift, gratuity, emolument or employment from any public utility. A Commissioner being charged is entitled to a copy of charges and public hearing before the Governor on ten days notice. **NMSA 62-5-6.**

NEW MEXICO STATE CORPORATION COMMISSION. A commissioner may be removed from office for malfeasance in office, fraud, etc.

NEW YORK PUBLIC SERVICE COMMISSION. Pursuant to §4-b of the Public Service Law the Governor may remove a Commissioner for inefficiency, neglect of duty or misconduct in office. The Commissioner in question has a right to a copy of the charges against him and to a public hearing. If the Commissioner is removed, the Governor must file the charges, findings, and a record of the proceeding with the Department of State. There are also procedures for the removal of public officers in **§§33, 34 and 35 of the New York Public Officers Law.** These sections roughly parallel the provisions of the Public Service Law.

NEW YORK STATE DEPARTMENT OF TRANSPORTATION. There is no specific citation in Transportation Law regarding this subject. **§§33, 34 and 35 of the New York Public Officers Law** establishes removal procedures.

NORTH CAROLINA UTILITIES COMMISSION. The grounds for the removal of a Commissioner from office in North Carolina are such common law grounds as apply to all public officials generally. There are no specific statutory provisions for removal.

NORTH DAKOTA PUBLIC SERVICE COMMISSION. Commissioners may be removed from office by recall or impeachment.

OHIO PUBLIC UTILITIES COMMISSION. The governor may remove any public utilities commissioner for inefficiency, neglect of duty, or a failure to abide by sections 4901.04 or 4903.081 of the Revised Code, (or) malfeasance in office, giving to such commissioner a copy of the charges against him and an opportunity to be publicly heard, in person or by counsel, in his own defense, upon not less than ten days' notice. If such commissioner is removed, the governor shall file a complete statement of all charges made against such commissioner, his findings on such charges, and a complete record of the proceedings with the Secretary of State. The Governor's decision is final. **§4901.07 Removal of public utilities commissioner.**

OKLAHOMA CORPORATION COMMISSION. Commissioners are subject to Article VIII (Impeachment and Removal from Office) of the Constitution of Oklahoma. State ex rel Blankenship v. Freeman, OK 440 P. 2d 744.

OREGON PUBLIC UTILITY COMMISSION. "The Governor may at any time remove the commissioner for any cause deemed by him sufficient. Before such removal he shall give the commissioner a copy of the charges against him, and shall fix a time when he can be heard in his own defense, which shall not be less than 10 days thereafter. The hearing shall be open to the public. If the commissioner is removed, the Governor shall file in the office of the Secretary of State a complete statement of all charges made against the commissioner, and his findings thereon with a record of the proceedings. Such power of removal is absolute, and there is no right of review of the same in any court." **Oregon Revised Statute 756.014 (4).**

PENNSYLVANIA PUBLIC UTILITY COMMISSION. **§5 of Act 216, 66 P.S. §455,** provides that the Governor, by and with the consent of two-thirds of all the members of the Senate, shall remove from office any Commissioner who violates the provisions of §3 (66 P.S. §454) requiring Commissioners to devote full time to their official duties and may remove any Commissioner for inefficiency, neglect of duty or misconduct in office.

PUERTO RICO PUBLIC SERVICE COMMISSION. **§1052, Title 27, Laws of Puerto Rico Annotated** states that "...and if he voluntarily acquired any interest, his office shall become vacant ipso facto; or if he acquired any interest in any other manner which is not voluntary he shall within a period of not more than one hundred and eighty (180) days after the date on which he may convey his title thereto, rid himself of such interest; and should he fail to do so, his office shall become vacant."

RHODE ISLAND PUBLIC UTILITIES COMMISSION. A Commissioner may at any time be removed from office by the Governor for inefficiency, neglect of duty or malfeasance in office but no Commissioner shall be removed from office without an opportunity to be heard, publicly before the Governor after being given notice in writing of the charges against him. A copy of such charges and a transcript of the record of such hearing is filed with the Secretary of State. **RI General Laws, §39-1-5.**

SOUTH CAROLINA PUBLIC SERVICE COMMISSION. There are no provisions in the statute as to the grounds and procedure for the removal of a commissioner from office.

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION. SDCL 49-1-4. Residence of commissioners--Sessions of public utilities

commission. Each public utilities commissioner during his term of office must reside at the state capital and devote his entire time and attention to the duties of his office; and the public utilities commission must remain in continuous session at its office at the state capital except when necessarily absent in the performance of its duties. If any public utilities commissioner shall fail to comply with the provisions of this section, it shall be cause for his removal by the Governor. **SDCL 49-1-18.** Misfeasance of commissioner--Misdemeanor--Forfeiture of office. If any public utilities commissioner shall willfully neglect or refuse to perform the duties imposed upon him by this title, he shall be guilty of a misdemeanor and in addition to the punishment provided by law, such public utilities commissioner shall upon conviction forfeit his office.

TENNESSEE PUBLIC SERVICE COMMISSION. Any Commissioner convicted of violating any provisions in §§65-110 and 65-111 shall be dismissed from office by judgment of the Court trying the cause.

TEXAS PUBLIC UTILITY COMMISSION. No Commissioner or employee of the Commission may do any of the following during his period of service with the Commission and for two years thereafter: (1) have any pecuniary interest, either as an officer, director, partner, owner, employee, attorney, consultant, or otherwise, in any public utility or affiliated interest, or in any person or corporation or other business entity a significant portion of whose business consists of furnishing goods or services to public utilities or affiliated interest, but not including a nonprofit group or association solely supported by gratuitous contributions of money, property or services; (2) own or control any securities in a public utility or affiliated interest, either directly or indirectly; (3) accept any gift, gratuity, or entertainment whatsoever from any public utility or affiliated interest, or from any person, corporation, agent, representative, employee, or other business entity a significant portion of whose business consists of furnishing goods or services to public utilities or affiliated interests, or from any agency, representative, attorney, employee, officer, owner, director, or partner of such business entity or of any public utility or affiliated interest; provided, however, that the receipt of acceptance of any gifts, gratuities, or entertainment after termination of service with the Commission whose cumulative value in any one-year period is less than $100 shall not constitute a violation of this Act. Any member, officer, or employee of the Commission found in any action by a preponderance of the evidence to have violated any provision of §6 of this Act shall be removed from his office of employment.

The Attorney General shall institute suit on his own initiative or at the request of, in the name of, and on behalf of the Commission, or Railroad Commission, in a court of competent jurisdiction to recover the penalty under this section. **Article II. §6(b) of the Public Utility Regulatory Act (Art: 1446 C V.A.C.S.); Article XI. § § 71 through 73 of the Public Utility Regulatory Act (Art. 1446 C.V.A.C.S.)**

TEXAS RAILROAD COMMISSION. Article 5961-3, Texas Revised Civil Statutes Annotated (1925), provides for removal from office by impeachment in the Texas House of Representatives and conviction by two-thirds vote in the Texas Senate.

UTAH PUBLIC SERVICE COMMISSION. Any member of the Commission may be removed from office for cause by the Governor. **Utah Code Annotated, §54-1-1.5.**

VERMONT PUBLIC SERVICE BOARD. See **McFeeters v. Parker (1943) 113 Vt. 139, 30 A. 2d 300.**

VIRGIN ISLANDS PUBLIC SERVICE COMMISSION. A Commissioner may be removed "for cause," which is not defined in the Virgin Islands Code.

VIRGINIA STATE CORPORATION COMMISSION. Constitution of Virginia: Article IX, Corporations, §1. There shall be a permanent commission which shall be known as the State Corporation Commission and which shall consist of three members. The General Assembly may, by majority vote of the members elected to each house, increase the size of the Commission to no more than five members. Members of the Commission shall be elected by the General Assembly and shall serve for regular terms of six years. At least one member of the Commission shall have the qualifications prescribed for judges of courts of record and any Commissioner may be impeached or removed in the manner provided for the impeachment or removal of judges of courts of record. The General Assembly may enact such laws as it deems necessary for the retirement of the commissioners, with such conditions, compensation, and duties as it may prescribe. The General Assembly may also provide for the mandatory retirement of commissioners after they reach a prescribed age, beyond which they shall not serve, regardless of the term to which elected or appointed. Whenever a vacancy in the Commission shall occur or exist when the General Assembly is in session, the General Assembly shall elect a successor for such unexpired term. If the General Assembly is not in session, the Governor shall forthwith appoint pro tempore a qualified person to fill the vacancy for a term ending thirty days after the commencement of the next regular session of the General Assembly, and the General Assembly shall elect a successor for such unexpired term.

The Commission shall annually elect one of its members chairman. Its subordinates and employees, and the manner of their appointment and removal, shall be as provided by law, except that its heads of divisions and assistant heads of divisions shall be appointed and subject to removal by the Commission.

REMOVAL OF COMMISSIONERS FROM OFFICE

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION. Any member may be removed for inefficiency, malfeasance or misfeasance in office, upon specific written charges filed by the Governor, who shall transmit such written charges to the member accused and to the chief justice of the Supreme Court. The chief justice shall thereupon designate a special tribunal composed of three judges of the Superior Court to hear and adjudicate the charges. Such tribunal shall fix the time, place and procedure for the hearing, and the hearing shall be public. The decision of such tribunal shall be final and not subject to review. If the tribunal specified herein finds the charges of the governor to be true, the Governor shall have the right to immediately remove the commissioner from office, to declare the position of the commissioner vacant and appoint another commissioner to the position in accordance with the provisions of the law **RCW 80.01.010.**

WEST VIRGINIA PUBLIC SERVICE COMMISSION. The Governor may remove any commissioner for incompetency, neglect of duty, gross immorality, malfeasance in office or violation of the laws governing the Commission. **WV Code §24-1-3.**

WISCONSIN COMMISSIONER OF TRANSPORTATION. A commissioner may be removed for cause by the Governor.

WISCONSIN PUBLIC SERVICE COMMISSION. Any appointed State officer in Wisconsin may, under procedures prescribed in **§§13.28 to 13.30, Wisconsin Statutes,** be removed from office by joint resolution adopted by majority of members elected to State Assembly and Senate. Any civil officer may also be removed by impeachment for corrupt conduct in office or for crimes and misdemeanors as provided in Wisconsin Constitution, **§17.08, WS.** Officers appointed by the Governor during a recess of the legislature or with advice and consent of the Senate may be removed by the Governor for cause, **§17.07, WS.** These provisions apply to members of the PSC.

WYOMING PUBLIC SERVICE COMMISSION. Wyoming Statutes 1977, §§37-2-101(d) and 9-1-202, a Commissioner may be removed from office at the Governor's pleasure.

****

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION. Commissioners hold office during good behavior, and may be removed at any time by the Governor in Council (Cabinet) for cause, **§3, CRTC Act.** This wording is identical to that used in the appointment of judges. No formal guidelines or procedures exist for the removal of Commissioners.

NATIONAL ENERGY BOARD. Each member of the Board is appointed to hold office during good behaviour for a period of seven years, but may be removed at any time by the Governor in Council upon address of the Senate and House of Commons. A member is eligible to be reappointed to hold office during good behaviour for any term of seven years or less. Every member ceases to hold office upon attaining the age of 70 years. (**National Energy Board Act,** RSC 1985, c. N-7, §3.

ALBERTA PETROLEUM MARKETING COMMISSION. Commissioners may be removed by Order-in-Council of the Lieutenant Governor-in-Council.

ALBERTA PUBLIC UTILITIES BOARD. The legislation is silent with respect to the removal of members from office.

BRITISH COLUMBIA UTILITIES COMMISSION. Appointments of Commissioners are at pleasure and may be rescinded through Order in Council issued by the Lieutenant Governor in Council.

NEWFOUNDLAND AND LABRADOR BOARD OF COMMISSIONERS OF PUBLIC UTILITIES. §§5(1) & (4) of the Public Utilities Act: "5.-(1) The Lieutenant-Governor in Council may appoint three or more persons who shall constitute a Board of Commissioners of Public Utilities, and shall designate a chairman and vice-chairman of and appoint a clerk for the Board. 5.-(4) Subject to subsection (5) each commissioner shall hold office during good behavior."

NOVA SCOTIA BOARD OF COMMISSIONERS OF PUBLIC UTILITIES. Term of office is during good behaviour to age seventy. §§2(4) and 2(5), Public Utilities Act. No exact criteria or procedure is specified.

ONTARIO ENERGY BOARD. Removal of a Member is by order of Lieutenant Governor in Council. No specifics are prescribed.

QUEBEC NATURAL GAS BOARD (Regie du gaz naturel du Quebec). President and commissioners remain in office for five years, subject to dismissal for reason deemed sufficient by the Lieutenant- Governor in Council.

QUEBEC TELECOMMUNICATIONS BOARD (Regie des telecommunications du Quebec). Lieutenant-Governor-in-Council appoints the Board's controllers for a period not exceeding 5 years. During that time, Board controllers cannot be removed. **RSQ, c. R-8.01, 06; SQ 1988, c.8, §6.**

AGENCY PRACTICE AND PROCEDURE

This section summarizes the responses to the following questions concerning agency practice and procedure:

(1) Who has standing to request relief from the agency, and who has standing to intervene in an agency proceeding?
(2) Does an appearance before the agency constitute the practice of law and, if so, must parties and intervenors be represented by attorneys?
(3) What determines the admissibility of evidence in proceedings?
(4) What limitations, if any, are placed on the cross-examination of witnesses and on oral argument before the agency?
(5) Are the executive sessions of the commissioners held at regular intervals and, if so, what are they? If not, is advance public notice given of such sessions? Are the executive sessions of the agency open to the public?
(6) Are the commissioners and staff personnel governed by a written code of conduct and, if so, what is its citation?

The responses are arranged alphabetically with Federal agencies listed first and Canadian agencies last.

FEDERAL COMMUNICATIONS COMMISSION

Any party may appear before the Commission and be heard in person or by attorney. Any person who is a member in good standing of the bar of the Supreme Court of the United States or of the highest court of any State, territory, or of the District of Columbia, and is not under any order of any court suspending, enjoining, restraining, disbarring, or otherwise restricting him in the practice of law, may represent others before the Commission. (47 CFR 1.21)

Except for cases in which formal procedures are specifically required under the provisions of Part I of the Commission's Rules and Regulations, requests for action may be submitted informally. Requests should set forth clearly and concisely the facts relied upon, the relief sought, the statutory and/or regulatory provisions (if any) pursuant to which the request is filed and under which relief is sought, and the interest of the person submitting the request.

The Administrative Law Judges control the admissibility of evidence in hearing cases, pursuant to applicable portions of the Commission's Rules (47 CFR 1. 311 - 1.325 and 47 CFR 1.351 - 1.364) and the Administrative Procedures Act.

With implementation of the Government in the Sunshine Act, Commission agenda meetings are, in most cases, open to the public. A written announcement is published one week prior to Commission meetings stating the time, place, and subject matter of the session, whether the meeting is to be open or closed, and the name and phone number of an official designated to provide additional information about the meeting.

Part 19 of the Commission's Rules (47 CFR 19.735 - 101 to 19.735 - 413) governs the conduct of Commissioners and Commission staff personnel as to ethical responsibilities and outside financial interests.

Part 1 of the Commission's Rules and Regulations (Subparts A-M) provides details concerning general Commission practice and procedure.

FEDERAL ENERGY REGULATORY COMMISSION

Any person complaining of anything done or not done by any licensee, public utility or natural gas company in contravention of an act, rule, regulation, or order administered or issued by this Commission may file a complaint with the Commission (18 CFR 385.206). A motion to intervene may be filed by any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate to the administration of the statute under which the proceeding is brought. (18 CFR 385.214).

An appearance before the Commission does not necessarily constitute the practice of law. Participants may appear in any proceeding in person or by an attorney or other qualified representative. For other situations in which an appearance may be made, see 18 CFR §385.2101.

Presiding officers duly designated by the Commission to preside at hearings have the authority to rule on the admissibility of evidence and the scope of cross-examination as provided in 18 CFR §385.504-507. Presiding officers also have authority to limit oral argument. (18 CFR §385.707).

Most Commission meetings are held in open session. Executive sessions (closed meetings) of the Commissioners are held when deemed necessary and appropriate as determined by the Commission. Closed meetings are governed by Commission regulations, 18 CFR §375.201 **et. seq.** Public notice of closed Commission meetings is provided for at §375.204 (a)(1), (2).

AGENCY PRACTICE AND PROCEDURE

FEDERAL ENERGY REGULATORY COMMISSION
(Continued)

Sec. 375.204 **Notice of meetings.**

(a) **Public announcements of meetings.** (1) **General rule.** Except to the extent that information described in §375.205(a) (involving closed meetings) is exempt from disclosure, the Secretary shall announce at least one week before each Commission meeting, the time, place, and subject matter of the meeting, whether it is an open meeting or closed meeting and the name and telephone number of the official designated by the Commission to respond to requests for information about the meeting.

(2) **Abbreviated notice.** If the Commission determines by a majority of its members by a recorded vote that Commission business requires that a Commission meeting be called with less than one week's notice as prescribed in subparagraph (a)(1), the Secretary shall make public announcements of the time, place, and subject matter of such meeting and whether open or closed to the public, at the earliest practicable time.

The Commissioner and Staff personnel are governed by a written code of conduct. The citations for the section are 18 CFR §§3c.201 - 3c.206 and 3c. 1 - 3c.11.

INTERSTATE COMMERCE COMMISSION

Carriers, shippers and other interested parties may request relief or leave to intervene in any area of Commission jurisdiction under the Interstate Commerce Act.

A register is maintained by the Commission in which are entered the names of all persons entitled to practice before the Commission. Corporations and firms will not be admitted or recognized.

a. Attorneys at Law. Any person who is a member in good standing of the bar of the highest court of any State, possession, territory, or Commonwealth or the District of Columbia may represent others before the Commission upon filing with the Commission a written declaration so stating that he or she is currently qualified.

b. Persons not Attorneys. Any person not an attorney at law who is a citizen or resident of the United States and who shall satisfy the Commission that he or she is possessed of the necessary qualifications to enable him or her to render valuable service before the commission, and that he or she is otherwise competent to advise and assist in the presentation of matters before the Commission may qualify as a practitioner upon successful completion of a written examination (given twice yearly).

c. Individuals may represent themselves and full time employees of a party litigant may appear for that party without practitioner status.

For determination of the **Rules of Practice, see 49 CFR, parts 1100 - 1129 - Rules of General Applicability.**

Commission conferences are held on an "on-call" basis when requested by a Commissioner. Notice is posted in several parts of the building and given to the public through a mailing list and Federal Register publication. Under the Sunshine Act regulations (Ex Parte No. 333, **Meetings of the Commission**), meetings of the Commission or its divisions are open unless specifically closed by a majority of those Commissioners eligible to participate.

Commissioners (members) and employees of the Interstate Commerce Commission are governed by the ICC Canons of Conduct issued at 49 CFR 1000.735. Practitioners before the Interstate Commerce Commission are governed by the ICC General Rules of Practice (Part 1103 of 49 CFR).

ALABAMA PUBLIC SERVICE COMMISSION

Every person, firm, corporation, copartnership, association or organization affected thereby may be petition intervene and become a party to any proceeding before the Commission. **§37-1-87, Code of Alabama 1975.**

Any individual may appear for himself and any member of a partnership which is a party to any proceeding may appear for the partnership. A bona fide officer or a full-time employee of a corporation, association, or an individual may appear for such corporation, association or individual. A party can be heard in person or by its or their attorney of record. **Rules of Practice of the Alabama Public Service Commission, Rule 8-A.**

AGENCY PRACTICE AND PROCEDURE

ALABAMA PUBLIC SERVICE COMMISSION
(Continued)

The Commission generally follows the established rules of evidence applicable to civil actions at law and will depart therefrom only when it appears that such departure will preserve the substantial rights of the parties. **Rules of Practice of the Alabama Public Service Commission, Rule 17-A.**

• No limitations are placed on the cross-examination of witnesses except to avoid repetition.

• The PSC holds monthly meetings on the first Monday of each month and special meetings as required. The meetings are open to the public. **§37-1-8, Code of Alabama 1975.**

• The Commissioners and staff personnel are governed by a written code of conduct. **§§36-25-1, et. seq.**

ALASKA PUBLIC UTILITIES COMMISSION

Public utilities and pipeline carriers must request tariff approval or revisions. Complaints over service, rates and management practices affecting the interest of any person may be filed against a utility or pipeline carrier. Intervention is discretionary with the Commission, depending on the nature of the right, property, or interest that will be affected, the availability of other means or parties to represent the petitioners interest, and the extent to which participation will assist in development of a sound record, or delay the proceedings.

Commission regulation 3 AAC 48.080 governs appearance before the commission, and allows a non-attorney to represent himself, a partner, and a corporation or association or political subdivision of which he is an officer or employee. Any other person who can show qualifications and competence may be allowed to appear in a proceeding.

All relevant evidence which, in the opinion of the presiding officer, is the best evidence reasonably obtainable, with due regard to its necessity, availability and trustworthiness, is admissible. 3 AAC 48.154.

No limitations are stated, as to cross-examination of witnesses and on oral argument, but the hearing officer or presiding officer may regulate the course and conduct of hearing as appropriate under the circumstances.

The Commission regularly meets in public meeting once monthly from which it could adjourn into executive session. The executive session portion is not open to the public. Tariff action meetings are held at two-week intervals and are open to the public. For matters adjudicative in nature, the Commission meets in adjudicative sessions, which are not held at regular intervals, nor open to the public.

The commissioners and staff personnel are not governed by a written code of conduct in AS 42.05 or 42.06 but are subject to Alaska's Ethics Act in AS 39.52.

ARIZONA CORPORATION COMMISSION

• Public service corporations, legislative bodies, 25-customer petitions, persons directly or substantially affected by the proceedings have standing to request relief from the Commission and/or intervene in proceedings.

• An appearance before the Commission constitutes the practice of law. Individuals can represent their own interest. Corporations are represented by attorneys unless corporate directors have directed a non-attorney to make an appearance.

• The Commission generally follows the Rules of Civil Procedure in determining the admissibility of evidence in proceedings.

• Cross-examination is dictated by the Hearing Officer following the Rules of Civil Procedure. Oral arguments are generally limited by the Commission to a specific length of time.

• Executive sessions of the Commission are not held at regular intervals and the sessions are not open to the public. Advance public notice is given of such sessions.

• The Commissioners and staff personnel are governed by a written code of conduct.

AGENCY PRACTICE AND PROCEDURE

ARKANSAS PUBLIC SERVICE COMMISSION

The Commission's Rules of Practice and Procedure apply.

Any person having an interest which may be directly affected by the Commission's action and which interest is not adequately represented by other parties, may petition the Commission for leave to intervene as a party in any formal proceeding up to thirty days prior to the date set for the hearing in such proceeding, but not afterward except for good cause shown. The time when such petition is filed shall not extend any time limit applicable to an intervenor in a proceeding. Parties and intervenors for corporations must be represented by attorneys, but other persons may appear per se.

Every petition to intervene shall be in writing and shall comply with all procedural rules of the Commission, and shall contain clear and concise statements of the nature of the right or interest of the petitioner or intervenor in the proceeding, the specific objections, if any, of the petitioner or intervenor to the applicant's proposal, the grounds and issues of fact and law upon which petitioner or intervenor wishes to be heard, and any other reasonable information which may be required by the Commission.

Any person may make a limited appearance in the proceeding by filing with the Commission a verified statement of position prior to the date set for the hearing in such proceeding, but not afterward, except for good cause shown. No person making a limited appearance shall be a party or shall have the right to receive further notice or present oral testimony or argument or cross-examine witnesses, but is subject to being called for cross-examination on the subject of such statement of position by the Applicant or other party of record. If such person is called and fails to appear for cross-examination such statement of position shall be stricken from the record.

Rule 3.07. Evidence

The Commission will not itself, nor will it require others, in presenting testimony to be governed by or conform to the strict rules of evidence applicable to proceedings at law or in equity.

(a) The Commission may issue orders with respect to trade secrets or other proprietary information. Information asserted to be trade secrets or other proprietary information shall be submitted to the Commission before delivery to another party.

Rule 3.14. Briefs and Oral Argument

If counsel for any party requests permission to file a brief or make oral argument, the presiding officer upon finding that the filing of briefs and/or oral arguments is appropriate shall fix the time for hearing such argument or the filing of briefs. Failure to request same at the close of the testimony shall waive a party's right to subsequently file a brief or present oral argument.

Rule 1.02. Commission

(a) General sessions of the Commission for the transaction of its business will be held at its principal office on regular business days as scheduled by the Commission. Special sessions of the Commission for consultation or for the transaction of business may be held at any time or place as may be scheduled by the Commission. Generally, no public notice is given of the sessions and they are not open to the public.

The Commissioners and staff personnel are not governed by a written code of conduct.

CALIFORNIA PUBLIC UTILITIES COMMISSION

Any person may request the PUC for relief and any person who may be affected by the outcome of the case may intervene in its proceedings. Appearances before the PUC do not constitute the practice of law; parties and/or intervenors need not be represented by attorneys.

The admissibility of evidence in PUC proceedings is determined by the relevance and competency of the evidence.

The presiding officer uses his discretion in limiting the cross-examination of witnesses or oral argument in any proceeding.

The PUC meets on a bi-weekly basis. These conferences are open to the public and advance notice is given. The PUC also meets in executive sessions which are not open to the public to consider only litigation, institution of enforcement proceedings and personnel matters.

AGENCY PRACTICE AND PROCEDURE

CALIFORNIA PUBLIC UTILITIES COMMISSION
(Continued)

The PUC and staff personnel are governed by the "Political Reform Act of 1974, California Government Code 81000, et seq." by a Conflict of Interest Code adopted pursuant to the Political Reform Act by PUC Decision No. 87342, and by its own Manual of Instructions to Employees, Paragraph 23, "Statement of Incompatibility for Officers or Employees of the California Public Utilities Commission."

COLORADO PUBLIC UTILITIES COMMISSION

- Any customer of a jurisdictional utility has standing to request relief from the PUC. Any person who can demonstrate an interest in a proceeding has standing to intervene in same.
- An appearance before the PUC constitutes the practice of law, if not a pro se appearance.
- The Colorado Rules of Civil Procedure determine the admissibility of evidence in proceedings.
- An individual appearing pro se can cross-examine and give oral argument; otherwise must be an attorney.
- Executive sessions of the commissioners are held at regular intervals.
- The commissioners and staff personnel are governed by a written code of conduct as issued by the Governor.

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL

Any affected party of a regulated utility company may request relief from the Connecticut Department of Public Utility Control (DPUC). To be "affected", the parties seeking to invoke the DPUC's jurisdiction must allege such a personal stake in the outcome of the controversy as to assure that concrete adverseness which sharpens the presentation of issues. The "affected" party must show not only a "distinct and palpable inquiry", but also a fairly traceable connection between the claimed inquiry and the challenged conduct. Also, any affected party has standing to intervene in a DPUC proceeding.

Neither parties nor intervenors need be represented by attorneys, as an appearance before the DPUC does constitute the practice of law.

Section 4-178 of the Connecticut General Statutes (CGS), a part of the Uniform Administrative Procedures Act, determines the admissibility of evidence in contested cases.

The only limitations placed on the cross-examination of witnesses and oral argument are those of §4-178.

Executive sessions are not held at regular intervals and are not open to the public. The commissioners must move to go into executive session during a regular meeting, therefore no advance notice is given. However, the Chairperson and commissioners of the DPUC meet regularly, usually once a week, to discuss the decisions on pending cases. Notice of these meetings is given to the Secretary of State no later than twenty-four hours before the meeting is to be held. The public is welcome to attend, although they cannot speak at these meetings. Public comment is welcome at public hearings which are a part of any contested proceeding and of most other proceedings.

Commissioners and staff personnel are governed by a written code of conduct (§§1-79 through 1-90, 4-181, and 16-2 of the CGS).

DELAWARE PUBLIC SERVICE COMMISSION

All investor-owned public utilities have standing to request relief from the PSC. Title 26, Delaware Code. Relief may be requested by persons adversely affected by the action or inaction of a public utility or CATV, as well as by the companies.

A Delaware public utility or CATV company or customer has standing to intervene in a proceeding--those accepted by the Commission as having issues relevant to the proceeding.

An appearance before the PSC does not constitute the practice of law.

AGENCY PRACTICE AND PROCEDURE

DELAWARE PUBLIC SERVICE COMMISSION
(Continued)

The admissibility of evidence in proceedings is determined by the Hearing Examiner ruling under Delaware Utility Law. The Hearing Examiner may place constraints on oral presentations before the Examiner.

Executive Sessions of the commissioners are not open to the public and are held as prescribed by statute. Notice is given of Executive Sessions. Case deliberations by PSC are conducted in open public session.

The Commission adopted a Code of Ethics in March, 1978. Presently a Commissioner cannot own stock in a Delaware public utility or CATV company.

DISTRICT OF COLUMBIA PUBLIC SERVICE COMMISSION

• Any person having substantial and reasonable cause has standing to request relief from the PSC and to intervene in proceedings.

• In most cases an appearance before the PSC does constitute the practice of law or an exercising of statutory authority. Parties and intervenors are in most cases represented by attorneys, but not in all cases.

• The Commission excludes irrelevant material or that which is unduly repetitious in determining the admissibility of evidence in proceedings.

• There are no formal rules concerning limitations on the cross-examination of witnesses and oral argument before the PSC.

• Executive sessions of the Commission are held at regular intervals, as circumstances dictate. No notice is given and meetings are not open to the public.

• The Commissioners are governed by a written code of conduct. **Title 43-Public Utilities of the District of Columbia Code, Chapter 2, §201, "Members-Eligibility of Commissioners - Oath."**

FLORIDA PUBLIC SERVICE COMMISSION

• Municipalities, counties, cooperatives, regulated industries, any consumer or consumer group and Public Counsel have standing to request relief from the PSC, and may intervene in proceedings.

• An appearance before the PSC constitutes the practice of law. Parties and intervenors need not be represented by attorneys.

• The Rules of Civil Procedure of the State Circuit Courts and Chapter 120 Florida Statutes determines the admissibility of evidence in proceedings.

• No limitations are placed on the cross-examination of witnesses if the questions are relevant material.

• Oral argument before the PSC is limited; usual time restriction of 15 minutes to the side.

• Executive sessions of the Commissioners are not held at regular intervals. The executive sessions are open to the public and advance public notice is given of such sessions.

• The Commissioners and staff personnel are governed by a written code of conduct. **Chapters 120 and 350, Florida Statutes, and Chapter 25 of Florida Administrative Code.** Furthermore, Commissioners and employees are governed by Code of Ethics, **Chapter 112, Part III, Florida Statutes.**

GEORGIA PUBLIC SERVICE COMMISSION

• All regulated companies have standing to request relief from the PSC, and all affected parties have standing to intervene in a proceeding (any party with direct economic interest).

• An appearance before the PSC does not constitute the practice of law.

• A.P.A.-Title 50, Georgia Code Annotated determines the admissibility of evidence in proceedings.

AGENCY PRACTICE AND PROCEDURE

GEORGIA PUBLIC SERVICE COMMISSION
(Continued)

- No limitations are placed on the cross-examination of witnesses and on oral argument before the PSC.

- Executive sessions of the commissioners are held the first and third Tuesdays of each month and are open to the public.

- Commissioners and staff personnel are governed by a written code of conduct **(Rules and Regulations of the Commission as to Duties of Commissioners and Employees); Commission Policy No. 1, Employee Standards of Conduct.**

HAWAII PUBLIC UTILITIES COMMISSION

INTERVENTION. A person may make an application to intervene and become a party by filing a timely written motion, in accordance with Rules 2-2 through 2-4, 3-14 and 4-3, stating the facts and reasons for the proposed intervention the position and interest of the applicant. The motion shall make reference to the (1) nature of applicant's statutory or other right; (2) nature and extent of his property, financial, and other interest; (3) effect of the pending order as to applicant's interest; (4) other means available whereby applicant's interest may be protected; (5) extent to which applicant's interest will be represented by existing parties; (6) extent applicant's participation can assist in development of a sound record; (7) extent applicant's participation will broaden the issue or delay the proceeding; (8) extent of applicant's interest in the proceeding differs from that of the general public; and (9) whether applicant's position is in support of or in opposition to the relief sought. The motion shall be filed and served by applicant in accordance with Rule 4-3.

Intervention will not be granted except on averments which are reasonably pertinent to the issues already presented, but do not unduly broaden them. If intervention is granted, the applicant thereby becomes an intervenor and a party to the proceeding.

PARTICIPATION WITHOUT INTERVENTION. The Commission may permit participation without intervention. A person or entity in whose behalf an appearance is entered in this manner is not a party but a participant to the proceeding and may participate in the proceeding only to the degree ordered by the presiding officer. The extent to which a participant shall be involved in the proceeding shall be determined in the order granting participation or in the prehearing order.

A person who has a limited interest in a proceeding, may make an application to participate without intervention by filing a timely written motion in accordance with Rules 2-2 through 2-4, 3-14 and 4-3. The motion shall provide (1) a clear and concise statement of the direct and substantial interest of the applicant; (2) his position in regard to the matter in controversy; (3) extent to which the participation will broaden the issues or delay the proceeding; (4) the extent to which the participant's interest will be represented by existing parties; (5) a statement of the expertise, knowledge or experience applicant possesses with regard to the matter in controversy; (6) whether he can aid the Commission by submitting an affirmative case; and (7) a statement of the relief desired.

APPEARANCE BEFORE THE COMMISSION.

Who May Appear. Any party to a proceeding before the Commission may appear in his own behalf, or by a partner, or by an authorized officer of a corporation, trust or association.

In all proceedings wherein pleadings are filed and a formal hearing is held involving the taking of testimony and formulation of a record, subject to review by the courts, excepting for those persons specified in Rule 2-1(1), no person may appear in a representative capacity other than the following:

(a) Attorneys-at-law in good standing and entitled to practice before the Hawaii Supreme Court.

(b) A law student intern who is in compliance with Rule 25 of the Rules of the Supreme Court of the State of Hawaii.

(c) Any attorney who is a member in good standing of the bar of any state and who is employed by the United States or one of its agencies in a professional capacity, and who, while being so employed may have occasion to appear before this Commission on behalf of the United States, shall be eligible for leave to practice before this Commission during the period for such employment.

Code of Ethics. Any person who signs a pleading, brief or document, enters an appearance at a hearing, or transacts business with the Commission, by such act represents that he is legally authorized to do so and shall comply with the laws of this State and the several Counties, and the rules and regulations of this Commission, and further, he shall maintain the respect due to the Commission and shall not deceive or knowingly present any false statements of fact or law to the Commission. The

Commission may at any time require any person appearing before the Commission in a representative capacity to prove his authority and qualification to act in such capacity.

Former Employee. All former employees of the State, as that term is defined in HRS, §84-3 shall comply with HRS, Chapter 84 (Standards of Conduct) before appearing in a representative capacity before the Commission.

EVIDENCE.

Form and Admissibility. The Commission shall not be bound by the common law rules relating to the admission or rejection of evidence, but may exercise its own discretion in such matters, limited only by considerations of relevancy, materiality and repetition, and with a view to doing substantial justice. The rule of privilege recognized by law shall be adhered to.

Rulings. The presiding officer shall rule on the admissibility of evidence. Such rulings may be reviewed by the Commission in determining the matter on its merits. In extraordinary circumstances, where prompt decision by the Commission is necessary to promote justice; the presiding officer may refer the question of admissibility to the Commission for determination.

Objections and Exceptions. When objections are made to the admission or exclusion of evidence, the ground relied upon shall be stated briefly. Formal exceptions to rulings are unnecessary and need not be taken.

Offer of Proof. An offer of proof for the record shall consist of a statement of the substance of the evidence to which objection has been sustained.

Prepared Testimony. With the approval of the presiding officer, a witness may read into the record or summarize his prepared testimony on direct examination. Before any prepared testimony is read or summarized, unless excused by the presiding officer, the witness shall deliver copies thereof to the presiding officer, the Chief Clerk, and all counsel or parties. Admissibility shall be subject to the rules governing oral testimony. If the presiding officer deems it in the interest of orderly procedure or that substantial savings in time will result, the prepared testimony may be received in evidence without reading, provided that copies were served upon all parties and the Commission at least five days before the hearing, unless otherwise directed by the presiding officer.

Prepared Testimony in General Rate Increase Cases; In Evidence; Objections. To promote an orderly hearing procedure, in all general rate increase proceedings involving public utilities, motor carriers, and water carriers when pursuant to a prehearing order, prepared testimony and exhibits are filed with the Commission in advance, the prepared testimony and exhibits accompanying the prepared testimony shall be received in evidence without reading. Witnesses may summarize their prepared testimony during the hearing. Any amendments to the prepared direct and rebuttal testimony shall be served upon all parties and filed with the Commission in accordance with the prehearing order or as the presiding officer directs. A party introducing totally new matters by revisions or supplements shall attach a sworn affidavit explaining why these matters were not submitted with the direct testimony. The Commission may, if the explanation is unreasonable, reject the amended testimony. Notwithstanding the prepared testimony and exhibits are in evidence by this rule, the parties to the proceeding may during the hearing object on evidentiary grounds to the admissibility of all or part of the prepared testimony or exhibits and move to strike same. Notwithstanding Applicant's or Respondent's testimony and exhibits are in evidence, a party will not be prejudiced from presenting any motion it deems appropriate after the close of Applicant's or Respondent's case.

Documentary Evidence. If relevant and material matter offered in evidence is embraced in a document containing other matters, the party offering it shall designate specifically the matter so offered. If other matters in the document would unnecessarily encumber the record, at the discretion of the presiding officer, the relevant and material matter may be read into the record or copies or portions thereof received as an exhibit and the rest excluded. Other parties may examine the document, and offer in evidence other portions which are material and relevant.

EXHIBITS.

(a) **Form-Size.** Documentary exhibits shall be legible and on paper not exceeding 8-1/2 x 13 inches, or bound or folded to that size, where practical. Where practicable, sheets for each exhibit shall be numbered and data and other figures shall be in tabular form.

(b) **Copies.** When exhibits are offered in evidence, the original and six copies shall be furnished to the presiding officer with a copy to each party, unless such copies were previously furnished, or the presiding officer directs otherwise.

AGENCY PRACTICE AND PROCEDURE

HAWAII PUBLIC UTILITIES COMMISSION
(Continued)

Commission Records. If any matter in a document on file as a public record with the Commission is offered in evidence, unless directed otherwise by the presiding officer, such document need not be produced as an exhibit, but may be received in evidence by reference, provided that the particular portions of such document are specifically identified and are otherwise relevant and material to the issues. If testimony in other applications is offered in evidence, a copy of the material and relevant portions of the transcript shall be offered as an exhibit. The admissibility shall be subject to the rules governing oral testimony.

Official Notice of Facts. The Commission may take official notice of such matters as may be judicially noticed by the courts of the State of Hawaii. It may also take official notice of generally recognized technical or scientific facts within its specialized knowledge upon notice to all parties either before or during the hearing. Any party may contest the facts so noticed.

Additional Evidence. At the hearing, the presiding officer may require production of further evidence upon any issue or the calling of competent witnesses to testify upon any issues. The presiding officer may authorize a party to file documentary evidence as a part of the record, within a fixed time after conclusion of a hearing, with an exhibit number reserved therefor.

CROSS-EXAMINATION. Each party shall have the right to conduct such cross-examination of the witnesses as may be required for a full and true disclosure of the facts and shall have the right to submit rebuttal evidence.

LIMITING NUMBER OF WITNESSES. To avoid unnecessary cumulative evidence, the presiding officer may limit the number of witnesses or the time for testimony upon a particular issue.

ORAL ARGUMENT BEFORE THE COMMISSION.

(1) **Oral Argument.** A party may file a written request for oral argument at the time his brief is filed a Oral arguments will not be allowed on a motion for reconsideration, rehearing or stay, unless requested by the Commission or a Commissioner who concurred in the decision.

(2) **Commission.** The Commission may direct oral argument on its own motion.

MEETINGS. The Commission may meet and exercise its powers in any part of the State of Hawaii. Except as provided by law, all of its meetings are open to public. The parliamentary procedure to be utilized by the Commission in the conduct of its own meetings shall be based on the Revised Edition of Robert's Rules of Order.

(1) **Conduct of Meetings.** Meetings, notice of meetings, and minutes of meetings are governed by HRS, Part I of Chapter 92.

(2) **Removal of Person from Meeting.** The Commission may remove any person or persons who wilfully disrupts a meeting to prevent and compromise the conduct of the meeting.

IDAHO PUBLIC UTILITIES COMMISSION

The admissibility of evidence in proceedings is determined by the following rules:

Stipulations. With the approval of the presiding officer, the parties may stipulate as to any fact at issue, either by written stipulation introduced in evidence as an exhibit or by oral statement shown upon the record. Any such stipulation shall be binding upon all parties so stipulating and may be regarded by the Commission as evidence at the hearing. The Commission may, however, require proof by evidence of the facts stipulated to, not withstanding the stipulation of the parties. 9.9 - Rules of Practice and Procedure.

Rules of Evidence. In conducting any investigation, inquiry or hearing, neither the Commission nor any officer or employee thereof shall be bound by the technical rules of evidence, and no informality in any proceeding or in the manner of taking of testimony shall invalidate any order, decision, rule or regulation made, approved or confirmed by the Commission. Rules of evidence before the courts of the State of Idaho will be generally followed but may be relaxed at the discretion of the Commission when deviation from the technical rules of evidence will aid in ascertaining the facts. When objection is made to the admissibility of evidence such evidence may be received subject to later ruling by the Commission. The Commission, in its discretion either with or without objection may exclude inadmissible, incompetent, cumulative or irrelevant evidence or order such evidence discontinued. Parties objecting to the introduction of evidence shall briefly state the grounds of objection at the time such evidence is offered. Evidence to be admitted at hearing shall be material and relevant to the issue. 9.10 - Rules of Practice

IDAHO PUBLIC UTILITIES COMMISSION
(Continued)

and Procedure.

Rulings. The presiding officer shall rule on the admissibility of all evidence, subject to the requirements of Rule 9.10 Such rulings may be reviewed by the Commission in determining the matter on its merits. In extraordinary circumstances, where prompt decision by the Commission is necessary to promote substantial justice, the presiding officer may refer the matter to the Commission for determination. **9.24 - Rules of Practice and Procedure.**

Although there are no specific limitations placed on cross examination of witnesses or on oral arguments, and these subjects are within the discretion of the Hearing Examiner or Commissioners, Rule 4.1 provides:

"**Rights of Parties.** At any hearing, all parties named in the preceding rule shall be entitled to enter an appearance, to introduce evidence, examine and cross-examine witnesses, make arguments, and generally participate in the conduct of the proceeding. Other parties who are directly and substantially affected by the proceeding may enter an appearance, introduce evidence and, subject to the discretion of the Commission, may otherwise participate in the conduct of the proceeding."

Sections 61-206 and 61-208 of the Idaho Code provide:

"The commission shall have power to employ, during its pleasure, such officers, experts, engineers, statisticians, accountants, inspectors, clerks and employees as it may deem necessary to carry out the provisions of this act or to perform the duties and exercise the powers conferred by law upon the commission.

"The office of the commission shall be in the city of Boise and county of Ada. The office shall always be open, legal holidays and nonjudicial days excepted. The commission shall hold its session at least once in each calendar month in said city of Boise, and may also meet at such other times and in such other places as may be expedient and necessary for the proper performance of its duties. For the purpose of holding sessions in places other than the city of Boise, the commission shall have the power to rent quarters or offices and the expense thereof and in connection therewith, shall be paid in the same manner as the other expenses authorized by this act. The sessions of the commission shall be public."

State employees, other than exempt employees, are subject to the Idaho Personnel Commission Rules and Regulations.

ILLINOIS COMMERCE COMMISSION

Standing. In proceedings under The Public Utilities Act (IL Rev Stat 1985, Ch 111 2/3, par 1-101 **et seq**), any interested party may request relief from the Commission. Persons affected by or having an interest in the action or subject at issue have standing to intervene; municipalities and the Office of Public Counsel may intervene in proceedings as a matter of statutory right, and other persons may intervene upon leave of the Hearing Examiner.

Standing in proceedings under the Illinois Commercial Transportation Law (IL Rev Stat 1985, C 95 1/2, par 18c-1101 **et seq**) is governed by §18c-2106 of that Law. The rules set forth in that Section are essentially the same as those stated above, but are somewhat more detailed and restrictive.

Appearance and Practice of Law. §200.90 of the Commission's Rules of Practice (83 Ill. Adm. Code 200.90) allows a natural person to appear in his or her own behalf, and allows a corporation or association to appear by any bona fide officer, employee or representative. It also provides as follows: "Only persons admitted to practice as attorneys and counselors at law shall represent others in proceedings before this Commission in any matter involving the exercise of legal skill or knowledge."

Evidence. The rules of evidence applied in civil cases before circuit courts of the State of Illinois apply to proceedings before the Commission, except that evidence not admissible under the rules of evidence may be admitted if it is of the type commonly relied upon by reasonably prudent persons in the conduct of their affairs (IL Rev Stat 1985, ch. 127, par. 1012; IL Rev Stat 1985, ch. 95 1/2, par. 18c-2104; 83 IL Adm. Code
200.610).

Cross-examination and Oral Argument. No special limitations are placed on cross-examination. Oral argument before the Commission is ordinarily conducted by attorneys, is based on matters of record, and consists of legal and policy arguments. Oral arguments is subject to time constraints determined by the Commission in the specific instance. §200.850 of the Commission's Rules of Practice provides in part as follows: "Except upon special leave of the Commission, no party shall participate in oral argument without having filed a brief."

AGENCY PRACTICE AND PROCEDURE

ILLINOIS COMMERCE COMMISSION
(Continued)

Meetings. All meetings of the Commission are subject to the Open Meetings Act (IL Rev Stat 1985, ch. 102, par. 41 **et seq.**). In accordance with that Act, a schedule of regular meetings is announced at the beginning of each year, and the Commission gives public notice of the scheduling and agenda of special meetings scheduled during the year. All Commission meetings are open to the public except for those allowed to be closed to the public by the Open Meetings Act (e.g., certain specified deliberations for decision and discussions of pending, imminent or probable litigation).

Code of Conduct. Commissioners and Commission employees are governed by §2-102 of The Public Utilities Act (IL Rev Stat 1985, ch. 111 2/3, par. 20102) and 83 IL Adm. Code 100. Former members of the Commission are governed by §2-103 of The Public Utilities Act.

INDIANA UTILITY REGULATORY COMMISSION

Any individual or entity may make informal complaint concerning any matter within the jurisdiction of the URC. Any person or entity may make written application for any action within the URC jurisdiction. Appearance before the URC constitutes the practice of law. Parties and/or intervenors must be represented by attorneys. Admissibility of evidence in proceedings is determined by the URC Rules and Regulations Concerning Practice and Procedure, effective October 11, 1972, **Evidence,** p.12. When two or more intervenors have like interests, repetitive or redundant testimony may be limited to expedite hearings. The Commissioners and staff members are governed by the State's written Code of Ethics, **I.C. 1971, 4-2-6-1, 4-2-6-10, Indiana Code of Ethics for the Conduct of State Business.**

The Commissioners hold executive sessions every Wednesday afternoon. These sessions are open to the public.

IOWA STATE UTILITIES BOARD

Any person, corporation (including municipal corporation), association, or public authority has standing to request relief from the Board. An intervenor of right must demonstrate that it has an interest in the subject matter of the proceeding and that this interest is unique and will not be represented by the existing parties. The Board may allow intervention by a petitioner who does not qualify to intervene of right.

Any party may appear and be heard by an attorney authorized to practice in Iowa. A natural person may appear and be heard in his or her own behalf. A corporation or association may appear and present evidence through any officer or employee, but without the prior consent of the Board only an attorney can represent a party with respect to any matter involving the exercise of legal skill or knowledge.

Under the Iowa Administrative Procedure Act, irrelevant, immaterial, or unduly repetitious evidence should be excluded. Findings are to be based upon the kind of evidence upon which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs, and may be based upon such evidence even if it would be inadmissible in a jury trial. Rules of privilege recognized by law are to be given effect.

Under the Iowa Administrative Procedure Act, witnesses are subject to cross-examination by any party to the extent necessary to obtain a full and true disclosure of the facts. The presiding officer in a proceeding may permit anyone, party or nonparty, to cross-examine witnesses. Oral argument is granted at the discretion of the presiding officer.

The executive sessions of the Board are held when necessary. Advance public notice is given of each session, and the sessions are open to the public.

The Board Members are governed by Iowa Code Chapter 474 (1987). The General Counsel is governed by Iowa Code §474.10 (1987), and the Office of Consumer Advocate by Iowa Code Chapter 475A (1987). The Board staff members are bound by the conflict-of-interest prohibitions found in Iowa Code Chapter 68B (1987).

IOWA DEPARTMENT OF TRANSPORTATION

Any interested party may seek relief from the Iowa Transportation Commission. Intervention may be granted to any person who has filed a written petition for leave to intervene prior to or at the time of hearing if the person seeking to intervene raises questions which are reasonably pertinent to the issues already presented and which do not unduly broaden them.

AGENCY PRACTICE AND PROCEDURE

IOWA DEPARTMENT OF TRANSPORTATION
(Continued)

It is generally not necessary for a person to be an attorney in order to practice before the Commission. A non-lawyer may appear and practice before the Commission if he or she possesses the "necessary legal and technical qualifications as to enable him (her) to render valuable legal service before the Commission, and that he (she) is otherwise competent to advise and assist in the presentation of matters before the Commission." **Iowa Administrative Code §820-(12.B)1.4.**

Generally the rules of evidence as followed by the Iowa courts apply. For example, irrelevant, immaterial or unduly repetitious evidence may be excluded. The test is whether the offered evidence is the type of evidence "on which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs." **Iowa Code §17A.14.** No limitations are generally placed upon cross-examination of witnesses or oral argument.

Executive sessions of the Commission in which on-going, administrative matters are discussed and Commission policies are developed are held at regular intervals. The Iowa Open Meetings Law requires that public notice be given at least twenty-four hours prior to each meeting. The meetings are generally open to the public. However, a discussion and determination of a contested case proceeding may be closed to the public.

The Commission, General Counsel and legal staff and Rate Analysis Section personnel are governed by the **Iowa Administrative Procedure Act, Iowa Code Chapter 17A.** In addition, General Counsel and legal staff are governed by the **Iowa Code of Professional Responsibility.**

KANSAS STATE CORPORATION COMMISSION

Any party of interest may request relief from the SCC, or may seek to intervene in any SCC proceedings, upon such terms as the SCC may deem equitable and just. The SCC may deny intervention for good cause shown. **SCC Rules of Practice and Procedure, Rule 82-1-225.** A private individual may appear in his own be-half, but a corporation must be represented by an attorney. The Commissioner or Examiner presiding at a hearing determines the admissibility of evidence in any proceeding. Cross-examination follows the rules of civil procedure. The SCC has discretion to limit oral argument.

Executive sessions, or administrative meetings, are held weekly. The Commissioners meet with division directors and staff who present formal matters requiring discussion, along with their recommendations. No advance Public Notice is given of these sessions, though industry and press people receive a tentative schedule of meetings ahead of time. Administrative meetings are open to the public.

Povisions of the Kansas Constitution and Statutes form the written code of conduct.

KENTUCKY PUBLIC SERVICE COMMISSION

A utility and consumers of a utility have standing to request relief from the Commission--those who seek service have standing. Utilities and consumers have standing to intervene in proceedings on appropriate grounds. The Attorney General's Consumer Protection Division has a statutory right to intervene.

An individual may represent himself or herself before the Commission. It is necessary that an attorney represent a group, corporation, cooperative or non-profit association.

The Commission is not bound by strict rules of evidence in determining the admissibility of evidence in proceedings, although judgment might require the exclusion of material clearly irrelevant.

No limitations, by rule, are placed on the cross-examination of witnesses and on oral argument before the Commission. Appropriate cross-examination is permitted and oral argument usually permitted, if requested.

The commissioners and staff personnel are not governed by a written code of conduct.

KENTUCKY RAILROAD COMMISSION

• Formal complaints are filed by shippers and the railroads or water transportation companies. Informal complaints may be filed by shippers and transporters or by aggrieved individuals or groups.

AGENCY PRACTICE AND PROCEDURE

KENTUCKY RAILROAD COMMISSION
(Continued)

• An appearance before the Commission constitutes the practice of law. Legal representatives are usually present to present arguments before the Commission. Rulings are based on legal foundations and practical considerations.

• The Commission determines the admissibility of evidence in proceedings. The Commission decides on the advisability of cross-examination of witnesses, oral argument before the Commission, and the filing of briefs and written testimonies.

• Executive meetings are held one time per month and are not open to the public. The commissioners and staff personnel are not governed by a written code of conduct.

LOUISIANA PUBLIC SERVICE COMMISSION

The following information regarding PSC practice and procedure was extracted from **Rules of Practice and Procedure,** Louisiana Public Service Commission, effective July 1, 1976.

Rule 10: Parties in Interest. Any party actually in interest may appear in any proceeding before the Louisiana Public Service Commission All appearances shall be subject to a motion to strike upon a showing that the party has no justifiable or administratively cognizable interest in the proceeding. As applied to proceedings under R.S. 45:162 et. seq. involving operating authority, a party in interest is any carrier or shipper operating or shipping over a route within the territory or serving any point proposed to be served by any applicant, and transporting any of the same class or classes of commodities, or persons, proposed to be transported by the applicant. Unless otherwise provided by law, any public official, agency or department of the State of Louisiana or any of its political subdivisions and every civic and trade organization shall be permitted to appear in any proceeding whether as a formal intervenor or otherwise, and present any relevant and proper testimony and evidence bearing upon the issues involved in the particular proceeding.

Rule 11: Appearances Personally or by Representative. Any party may appear and be represented by an attorney at law authorized to practice law before the highest court of any State. A natural person may appear in his own behalf, or through a bona fide full-time employee. A corporation, partnership or association may appear and be represented by any bona fide officer, partner, full-time employee, or other person if authorized to so appear by the Commission. In all proceedings for the determination, establishment, interpretation or enforcement of tariffs, rates, charges, or any classification, rule or regulation appertaining thereto, any party may appear and be represented by any person who is licensed to practice before the highest court of any State, or by any person who has regularly represented clients before the Louisiana Public Service Commission for at least five (5) years prior to the effective date of these rules.

Rule 32: Admissibility in General. Any evidence which would be admissible under the general statutes of the State of Louisiana, or under the rules of evidence governing proceedings in matters not involving a trial by jury in the Courts of the State of Louisiana, shall be admissible before the Louisiana Public Service Commission. Other evidence may be admitted by the Commission if it is at all probative and relevant provided the substantive rights of all parties are protected. The rules of evidence shall be applied liberally in any proceeding to the end that all needful and proper evidence shall be conveniently, inexpensively and speedily heard while preserving the substantive rights of the parties to the proceedings.

Rule 42: Oral Argument. Any party may request oral argument prior to the final determination of any proceeding, but oral argument shall be allowed only in the sound discretion of the Commission. A request for oral argument may be incorporated in the exceptions, reply to exceptions, petition for reconsideration or in a separate pleading.

Rule 4: Sessions of the Louisiana Public Service Commission. At least one regular session customarily will be held by the Commission during each month, at such times and places as it shall designate for the purposes of public hearing, conferences, determining motions, pleas and causes, and transacting all other necessary business. Special sessions may be held at such times and places as the Commission may designate. In cases of emergency or where the public need so requires, the Commission may confer by telephone or otherwise, and any rule or order may be entered as a result thereof upon direction to the Secretary or a majority of the Commission.

The Commissioners and staff personnel are governed by a written code of conduct. **Code of Ethics, Title 42:1101 L.S.A.**

AGENCY PRACTICE AND PROCEDURE

MAINE PUBLIC UTILITIES COMMISSION

Upon written complaint made against any public utility by 10 persons, firms' corporations or associations aggrieved, that any of the rates, tolls, charges or schedules or any joint rate or rates of any public utility are in any respect unreasonable or unjustly discriminatory, or that any regulation, measurement, practice or act of said public utility is in any respect unreasonable, insufficient or unjustly discriminatory or that any service is inadequate or cannot be obtained, the Commission, being satisfied that the petitioners are responsible, shall, with or without notice, make an investigation thereof. Notice of the complaint shall be provided to the utility which must respond within 10 days. After receipt of the response, the Commission may dismiss the complaint if it is satisfied that the complaint is without merit. If it does not dismiss, it shall proceed to investigate and schedule a hearing. **35-A MRSA §1302.** The Commission Staff may appear and participate in any adjudicatory proceeding. **5 MRSA §9054(5); Rule 6(H)(3) of the Commission's Rules of Practice and Procedure.** Intervention as of right is allowed upon timely application by (1) any person showing that he is or may be, or is a member of a class which is or may be, substantially affected by the proceeding, or (2) any other agency of federal, state, or local government. **5 MRSA §9054(1); Rule 6(C)(1) of the Commission's Rules of Practice and Procedure.** Any other interested person may in the discretion of the Commission be allowed to intervene as a full or limited party. **5 MRSA §9054(2); Rule 6(C)(2) of the Commission's Rules of Practice and Procedure.**

Generally, the appearance before an agency such as the Commission, except by individuals appearing on their own behalf, would constitute the practice of law. An exception exists whereby the authorized appearance of an officer, employee or representative of a party is not deemed to be an unauthorized practice of law **35-A MRSA §1317.**

The Maine Rules of Evidence apply to all proceedings and determine the admissibility of evidence. **35-A MRSA §1311.**

Generally no limits are placed on cross-examination except those required by the rules of evidence. Occasionally, time limits are placed on oral argument before the Commission.

Deliberative sessions are held regularly each week, usually on Mondays, and agendas of all such sessions are published. The Maine Freedom of Access Law requires all proceedings (except "executive sessions") to be open to the public and notice to be given of proceedings which will deal with the expenditure of funds or the adoption of policy. **1 MRSA §401 et seq.**

The Commission has adopted the NARUC Code of Ethics as a general guide for the Commission and its employees.

MARYLAND PUBLIC SERVICE COMMISSION

Utilities, People's Counsel and the public can request relief from the PSC; parties showing a definite interest in a proceeding have been permitted to intervene.

Article 78, §82B. Intervention in proceeding before Commission Any person may apply to intervene in any proceeding before the Commission if the application therefore is timely filed. Leave to intervene shall be granted unless the commission concludes that the interest of the person seeking to intervene is adequately represented by parties to the proceeding or that the issues sought to be raised are irrelevant or immaterial. Intervenors shall have all the rights of a party to the proceeding. The Commission may not require that an intervenor in proper person be represented by an attorney in any proceeding before the Commission.

Admissibility of evidence is determined by the rules of evidence, modified for administrative proceedings.

In a proceeding involving an application by a public service company seeking authority of the Commission to increase rates and charges for the utility service and when the direct testimony of witnesses has been pre-filed with the Commission and the intervening parties to the proceeding not less that 10 days before the scheduled appearance of witnesses at a hearing, cross-examination shall be limited to a maximum of 30 minutes per witness per intervening party to the proceeding. Re-direct of witnesses and recross-examination of witnesses on their re-direct testimony shall be limited to a maximum of 20 minutes, respectively, per witness per intervening party. Nothing in these regulations shall be construed in any way to apply to the Office of People's Counsel.

The Commission regularly holds Administrative meetings which are open to the public. Advance public notice of these sessions is given. Pursuant to executive order from the Governor of the State of Maryland, most meetings, decisions, and deliberations of the Commission are open to the public.

Commissioners and staff are governed by a written code of conduct. **§16, Article 78 of the Annotated Code of Maryland.**

AGENCY PRACTICE AND PROCEDURE

MASSACHUSETTS DEPARTMENT OF PUBLIC UTILITIES

Any person who desires to participate in a proceeding shall file a written petition for leave to intervene or to participate in the proceeding.

Parties in any proceeding before the agency may appear pro se or may be represented by counsel.

The Department shall follow the rules of evidence observed by courts where practicable and shall observe the rules of privilege recognized by law, except as otherwise provided by any law. Such evidence shall be excluded which is unduly repetitious or cumulative or is not the kind on which reasonable persons are accustomed to rely in the conduct of serious affairs. All unsworn statements appearing in the record shall not be considered as evidence on which a decision may be based.

All witnesses shall be subject to cross-examination by the Commissioners, the presiding officer, counsel for the Department, counsel for other parties, and counsel for any other person as permitted by the presiding officer.

When, in the opinion of the presiding officer, time permits and the nature of the proceedings, the complexity or importance of the issues of fact or law involved, and the public interest warrant, such presiding officer may either on his own motion or at the request of a party or staff counsel at or before the close of the taking of testimony, allow and fix a time for the presentation of oral argument, imposing such limits
of time on the argument as deemed appropriate in the proceeding. Such argument shall be transcribed and bound with the transcript of testimony.

Executive sessions of the Commissioners are not open to the public.

Commissioners and staff are governed by the Rules of the Ethics Commission of the Commonwealth of Massachusetts.

MICHIGAN DEPARTMENT OF TRANSPORTATION

- All citizens of the State of Michigan may request relief or intervene in a proceeding.
- An appearance before the Department does not constitute the practice of law.
- No limitations are placed on the cross-examination of witnesses and on oral argument before the Department.
- All Transportation Meetings are open to the public. The Meetings are held monthly, time and place published in advance.
- Commissioners abide by the Code of Conduct for State Officials. Staff are governed by the rules of the Civil Service Commission.

MICHIGAN PUBLIC SERVICE COMMISSION

Under the **Rules of Practice and Procedure Before the Commission,** issued by order of the Commission and effective May 15, 1968, the following have standing to request relief from the PSC and/or intervene in proceedings.

1. "Applicants" or "petitioners" defined as parties seeking approval, authority, a certificate of authority or of public convenience and necessity or other certificate, license, permit or exemption or other relief.

2. "Complainant" defined as a party who files a complaint.

3. "Parties" defined as a person by or against whom a proceeding is commenced, or a person admitted by the Commission to intervene in a proceeding according to its Rules.

4. "Intervenors" defined under Rule 11 as a "person not defined herein as a complainant, respondent, protestant, applicant or petitioner, and who claims an interest in a pending proceeding...." Rule 16 further provides that, "A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the Commission of the specific issues of fact or law to be raised on controverted.

5. "Protestant" defined as a motor carrier rendering service or applying for authority to render service, likely to compete with the

MICHIGAN PUBLIC SERVICE COMMISSION
(Continued)

proposed motor carrier service of a motor carrier applicant, if the former carrier opposes the application of the latter carrier.

6. "Respondent" defined as a party who is complained against, a party investigated or ordered to show cause, or a utility rendering service of the same sort within a municipality proposed to be served by any other utility.

In addition, Rule 7 provides that, "The commission staff may appear in any proceeding before the commission and through its witnesses present testimony as to the results of its accounting, engineering and economic investigations, field studies, inspections, other technical investigations and studies. The commission staff in any proceeding may file briefs, make statements of positions, or otherwise upon the record make recommendations, as it believes proper and lawful, based upon the evidence presented."

Further, Rule 16 provides that, "(1) A person may appear in a proceeding before the commission in lieu of a formal petition to intervene, if there is full disclosure of the identity of the person whose appearance is to be entered; the interest of such person in the proceeding and the position intended to be taken are fully and fairly stated; and the contentions of such person will be reasonably pertinent to the issues already presented and any right to broaden the issues unduly is disclaimed, as follows:

(a) In a proceeding to fix rates or investigate conditions of service of a carrier or utility subject to the jurisdiction of the commission, appearances by individual customers or ratepayers of such carrier or utility or by the duly authorized governmental representatives thereof.

(b) In a proceeding by a railroad company for authority for abandonment of a station or discontinuance or diminution of quantity or quality of service, appearance by other persons in interest.

(2) An appearance under this rule entitles the person to testify or make a statement of his position but he is not regarded as a party to the proceeding."

By Attorney General's opinion, practice before the Commission constitutes the practice of law and parties and intervenors must be represented by attorneys. An exception has been made, by statute, for representatives of recognized labor organizations.

The presiding officer (defined under the Administrative Procedures Act of 1969 is "the agency, 1 or more members of the agency, or person designated by statute or 1 or more hearing officers designated and authorized by the agency to handle contested cases") determines the admissibility of evidence in proceedings. The standards for admissibility are governed by the Administrative Procedures Act of 1969 and the Commission's Rules which state, respectively, that, "In a contested case the rules of evidence as applied in a non-jury civil case in circuit court shall be followed as far as practicable, but an agency may admit and give probative value to evidence of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Irrelevant, immaterial or unduly repetitious evidence may be excluded. Effect shall be given to the rules of privilege recognized by law," and that, "The Commission shall so far as practicable follow the rules of evidence applicable to proceedings in circuit courts, but may admit and give probative effort to any evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs. Rules of privilege recognized by law shall be given effect. Incompetent, immaterial and unduly repetitious evidence may be excluded.

The right of cross-examination is guaranteed by the Commission Rules, along with the right to submit rebuttal evidence, as well as by the Administrative Procedures Act of 1969 which, in addition, guarantees the right to present oral and written arguments. The only limitation is the provision that incompetent, immaterial or unduly repetitious evidence may be excluded.

Regular and Special Meetings of the Commission, at which all official business is transacted, are regularly scheduled with notice posted and are open to the public. Executive sessions are not held at regular intervals, no advance public notice is given, and such sessions are not open to the public.

The Commissioners and staff are subject to the Governor's **Code of Ethics for State Employees and Appointed Officials,** Executive Order 1974-3.

MINNESOTA DEPARTMENT OF TRANSPORTATION

- Any person has standing to request relief from the DOT and any person may intervene in a Department proceeding.

- It is not necessary for parties and intervenors to be represented by an attorney when appearing before the Department.

AGENCY PRACTICE AND PROCEDURE

MINNESOTA DEPARTMENT OF TRANSPORTATION (Continued)

• Admissibility of evidence in proceedings is determined by the Office of Hearing Examiners.

• Limitations on the cross-examination of witnesses is determined by the Office of Hearing Examiners. Oral argument is permissible before the Department.

• The commissioners and staff personnel are governed by a written code of conduct. **Chapter 10A, Minnesota Statutes.**

MINNESOTA PUBLIC UTILITIES COMMISSION

Basically, any person (corporations, government agencies, etc.) who may be directly affected by an agency order or who are directly affected by an alleged violation of agency rule has standing to intervene in agency proceedings.

The general rule is that parties may appear pro se before the agency. If a party desires representation, it must be through an attorney.

The admissibility of evidence is within the discretion of the Administrative Law Judge (ALJ). The evidence which the ALJ may admit is set forth by rule and reads in relevant part as follows: "The ALJ may admit all evidence which possesses probative value, including hearing, if it is the type of evidence on which prudent persons are accustomed to rely in the conduct of their serious affairs. ...Evidence which is incompetent, irrelevant, immaterial or unduly repetitious may be excluded."

There are no real limitations on cross-examination, however, the ALJ "may make such rulings as are necessary to prevent repetitive or irrelevant questioning and to expedite the cross-examination to the extent consistent with disclosure of all relevant testimony and information."

Executive sessions of the commissioners are held weekly and are open to the public.

The commissioners and staff personnel abide by the general rules governing the ethical practices of State employees in Minnesota. The Commission has adopted its own Code of Conduct.

MINNESOTA TRANSPORTATION REGULATION BOARD

Any motor carrier, railroad shipper, or other person who has an interest, financial or otherwise, in a transportation service, railroad abandonment or other matter regulated by the TRB has standing to request relief or intervene in a proceeding before the TRB.

A party to a proceeding before the TRB may represent himself regardless of whether he is authorized to practice law in the State of Minnesota. However, all other parties must be represented by counsel unless a special exception has been granted (i.e., ICC Practitioners).

Hearings are conducted by Administrative Law Judges from the Office of Administrative Hearings, an independent State agency. Admissibility of evidence is controlled by that agency's rules of procedure and evidence. Under the Office of Administrative Hearings rules the judge may admit all evidence which possesses probative value, including hearsay, if it is the type of evidence on which reasonable, prudent persons are accustomed to rely in the conduct of their serious affairs.

As previously stated, hearings are conducted by the Office of Administrative Hearings. That agency's rules control cross-examination of witnesses. The rules do not place any limitations on cross-examination of witnesses. Oral argument, on the other hand, must be made at the TRB. The TRB is required under the State Administrative Procedures Act to give parties to a proceeding an opportunity to present oral argument. The TRB places some limitation on oral argument, for example; length of presentation and the argument must not address evidence not already in the record.

The TRB holds executive meetings every Wednesday at 10:00 a.m. The meetings are open to the public and noticed in the weekly calendar.

Code of Ethics [Minn. Stat. §43A.3 (1984)].

AGENCY PRACTICE AND PROCEDURE

MISSISSIPPI PUBLIC SERVICE COMMISSION

• Any individual or company has standing to request relief from the PSC and to intervene in a proceeding. Any individual can appear before the PSC in his own proper person.

• An appearance before the PSC constitutes the practice of law. Parties and intervenors need not be represented by attorneys.

• Rules of evidence on hearing should conform to the requirements of the courts of record in the State but the PSC, in its discretion, may prevent deviations from said requirements as it deems may be in the public interest.

• The limitations placed on the cross-examination of witnesses and on oral argument before the PSC is determined at the discretion of the PSC.

• Executive Sessions are held for the final determination of cases.

• The commissioners and staff personnel are governed by a written code of conduct. **§77-1-11, Mississippi Code of 1972.**

MISSOURI DIVISION OF TRANSPORTATION

Any applicant who requests relief under statutory or other authority must meet the requirements of **4 CSR 265-2.060**. Any intervenor means a person petitioning to intervene before the Division, either in support of or in opposition to the relief being requested and who is granted the right to participate as a party.

The practice by attorneys other than those from the offices of the Division are as follows: Any person who signs a pleading for another person, by such act expressly represents that he is authorized to so act, that he is a licensed attorney at law in the State of Missouri or the State of his residence.

The administrative law judge section shall rule on the admissibility of all evidence. Evidence to which an objection is sustained shall, at the request of the party seeking to introduce the same, or at the instance of this Division, nevertheless be heard and preserved in the record, together with any cross-examination with respect thereto and any rebuttal thereof, unless it is wholly irrelevant, repetitious, privileged or unduly long. When objections are made to the admission or exclusion of evidence, the grounds relied upon shall be stated briefly. Formal exceptions to rulings are unnecessary and need not be taken.

Each party shall have the right to call and examine witnesses, introduce exhibits, cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not a subject of the direct examination, to impeach a witness regardless of which party first called him to testify and rebut the evidence against him. Unless otherwise ordered by the administrative law judge section, the time allowed for oral argument before the DOT shall be (a) For an applicant or complainant or moving party, forty (40) minutes, which may be divided between the original argument and reply argument, but no more than one fourth (1/4) of the time shall be consumed by reply argument; and (b) For all other parties, thirty (30) minutes each.

The administrative law judges do not hold executive sessions. Each judge writes and issues his own orders. No joint decisions are made.

The Division and all of its employees are subject to the **Code of State Regulations 4 CSR 265-4.010** which prescribes measures to prohibit practices that possess a potential of wrong-doing and comply with Executive Order 81-2 dated February 10, 1981, which sets forth the conduct for appointed officials and State employees.

MISSOURI PUBLIC SERVICE COMMISSION

(1) Any utility, corporation, person or any political subdivision may seek relief from the agency, however, no complaint shall be entertained by the commission, except upon its own motion, concerning the reasonableness of any rates unless the complaint is signed by the mayor or the president or chairman of the board of aldermen or a majority of the council, commission or other legislative body of any city, town, village or county, or not less than twenty-five (25) consumers or purchasers, or prospective consumers or purchasers of service. The interest necessary to authorize intervention is the same as that required to become a complainant. Any local partisan interest which is different from that of the public gives standing to intervene.

(2) Any individual may appear in his own behalf. Appearance on behalf of another person or corporation constitutes the practice of law.

AGENCY PRACTICE AND PROCEDURE

MISSOURI PUBLIC SERVICE COMMISSION
(Continued)

(3) Commission hearings generally follow the same rules of evidence as in the courts of record of the state. Additional statutory rules of evidence for evidentiary hearings are found in Chapter 536 of the Revised Statutes entitled "Administrative Procedure and Review".

(4) The Commission's Rules of Practice provide for the limitation on the number of witnesses or the time for testimony on any issue to avoid unnecessary cumulative evidence. Generally the same rules would apply to cross examination which may be curtailed if repetitious or unduly long. The Commission's Rules of Practice limit the time for argument to forty (40) minutes for moving parties and thirty (30) minutes for all other parties.

(5) Public scheduled meetings of the Commission are regularly held. The agendas of the meetings are published in advance and the meetings are for the purpose of transacting all public business.

(6) Commissioners and staff personnel are governed by a written code of conduct -- Commission Rule 4 CSR 240-4.010 -- and certain statutory provisions respecting conduct such as §386.200 RSMo 1986.

MONTANA PUBLIC SERVICE COMMISSION

• Any utility, as defined by §69-1-101, Montana Codes Annotated, has standing to request relief from the Commission. Any person, agency, company or corporation may intervene.

• Any person may appear before the Commission on his or her own behalf, but only a member of the Montana Bar may represent someone else before the PSC.

• The admissibility of evidence in proceedings is governed by the Montana Rules of Evidence.

• There are no limitations placed on the cross-examination of witnesses before the Commission except time limits at the discretion of the presiding officer. Rules of Procedure place time limits on oral argument.

• Executive sessions of the commissioners are held every Monday. Advance notice of the meetings is given and the sessions are open to the public.

• The commissioners and staff are governed by Model Procedural Rules 1 through 38 as stated in Montana Administrative Codes 1-1.6(2)-P640 through 1-1.6(2)-P6320.

NEBRASKA PUBLIC SERVICE COMMISSION

• Any person may file a complaint concerning any matter within the jurisdiction of the PSC. One has standing to intervene in a PSC proceeding if a showing of interest is made concerning the outcome of controversy at hand.

• Any person may appear before the PSC in his own behalf, but only a Member of the Bar of the Nebraska Supreme Court may represent someone else before the PSC.

• Evidence which is admissible in civil actions under Nebraska Revised Statutes is admissible before the PSC. The record shall be supported by evidence which possesses probative value accepted by reasonable men or women in the conduct of their offices.

• Oral argument before the PSC is limited to twenty minutes for each side; no limit on cross-examination.

• Executive sessions of the Commissioners are normally held each Tuesday at 9:30 a.m. The Executive sessions are open to the public and notices of the sessions are published in **The Daily Record,** Omaha, Nebraska.

Canons of legal ethics govern the professional behavior of the PSC personnel who occupy attorney positions. Additionally, the Commission has adopted a Code of Ethics governing both Commissioners and staff.

AGENCY PRACTICE AND PROCEDURE

NEVADA PUBLIC SERVICE COMMISSION

• Any person applying for any privilege, right, or authorization from the Commission and any person complaining to the Commission of any act by any person subject to the jurisdiction of the Commission has standing to request relief from the Commission.

• Any person who can demonstrate a direct and substantial interest in the subject matter of the proceedings, or any part of the proceedings, and does not unduly broaden the issues would have standing to intervene.

• An appearance before the Commission constitutes the practice of law. Any person may appear before the Commission in their own behalf or on behalf of the entity they represent. In all other circumstances representation shall be by legal counsel.

• Relevancy is the primary determinator of admissibility of evidence in Commission proceedings. Commission rules do provide that the rules of evidence of the courts of the State of Nevada shall generally be followed, however, such rules are adhered to in a very liberal fashion.

• Cross-examination is limited to parties of adverse interest. Other limitations are those generally applicable in courts of Nevada.

• Generally, no oral argument is provided to parties in Commission proceedings. However, written briefs are often required at the close of a proceeding.

• Executive sessions of the Commission are held every other Monday. All sessions of the Commission are open to the public except for matters of internal personnel administration.

• NRS 281.411 et seq. governs ethics in Nevada government.

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

• Any utility defined under RSA 362:2 may request relief from the PUC. Intervention is by discretion of the Commission.

• Any person may appear before the Commission in his own behalf, by attorney authorized to practice in this State, or by agent thereunto authorized in writing. An attorney from another jurisdiction, in good standing there, may, at the discretion of the Commission, be permitted to participate in proceedings before the Commission in specific instances. Nothing in this Rule shall be interpreted in such a way as to permit the authorized practice of law; nor shall this Rule in any way be construed to restrict or limit the right of any person to conduct his own business with or before the Commission.

• The PUC is not bound by the technical rules of evidence--**RSA 365:9.** Admissibility of evidence in proceedings is at the discretion of the PUC.

• No limitations are placed on cross-examination of witnesses as long as it is relevant and material. PUC rule prohibits unnecessary cumulative evidence and may limit the number of witnesses or time for testimony upon a particular issue at a hearing.

• No regular executive sessions of the commissioners are held and no advance public notice is given of such sessions.

• Commissioners and staff personnel are not governed by a written code of conduct, per se. The only governing body of rules are the Personnel Rules of the State of New Hampshire which applies equally to all State employees.

NEW JERSEY BOARD OF PUBLIC UTILITIES

• Any individual, corporation or governmental division may file a petition for relief from the Board for consideration by the Board. **NJAC 14:1-3.1.**

• Any individual, corporation or governmental agency who may be substantially affected by the Board's action in a formal matter has standing to intervene. **NJAC 14:1-9.**

• Corporations and intervenors must be represented by attorneys. Unincorporated parties or intervenors who will represent themselves alone need not be represented by attorney. Appearance before the Board does not necessarily constitute the practice of law.

AGENCY PRACTICE AND PROCEDURE

NEW JERSEY BOARD OF PUBLIC UTILITIES
(Continued)

• The admissibility of evidence before the Board is determined by its reliability and relevancy. New Jersey court rules and administrative procedures are followed.

• No limitation is placed upon cross-examination of witnesses so long as that examination is relevant and does not result in cumulative information. Upon oral argument before the Board time limitations are generally set but not strictly enforced. The guiding principle is to permit sufficient oral argument for the parties to make their points and for the Board to understand the issues. Court rules are normally followed.

• Executive sessions by the Commissioners are held weekly. Public notice of the executive sessions is required by State law. Closed sessions are held under procedures provided in the "Sunshine Law."

• Commissioners and staff personnel are governed by a written code of ethics. **NJSA 52:13D-23 et seq.**

NEW JERSEY DEPARTMENT OF TRANSPORTATION

• Hearings before the agency are informal and attorney status is not required for appearance at such hearings.

• Administrative hearings conducted at the Office of Administrative Law are formal, and therefore appearances may be made by an attorney or by a "qualified non-attorney." (See **NJAC** 1:1-3.12 and **New Jersey Court Rule** 1:21-1(E).)

NEW MEXICO PUBLIC SERVICE COMMISSION

Any person, association, or corporation may file for intervention in a hearing before the PSC. The PSC's rules of intervention are contained in **NMPSC Rule 110.56.** The State of New Mexico's Rules of Civil Procedure: Rule 24(a) follows the Federal Rules of Civil Procedure, Rule 24. Intervention is usually permitted; only in exceptional circumstances has the PSC denied intervention.

Parties and intervenors do not have to be represented by legal counsel. Thus, the appearance of an individual without counsel before the PSC is not construed as practicing law.

The rules of evidence before the PSC are flexible. In general, the PSC usually denies motions to strike or objections to the introduction of evidence. The PSC usually states that it will consider all evidence but not give probative weight to any evidence which is considered tainted or objectionable. Since the Commissioners are experts, the problem of the admissibility of evidence before a jury is not as severe, and the PSC can weigh all evidence presented before it.

The cross-examination of witnesses is technically limited to the areas covered on direct examination. The PSC usually allows the cross-examination to continue in the face of timely and proper objections by opposing counsel of the PSC feels that the cross-examination will shed additional information on the subject of the hearing. The PSC has no limitations on oral arguments.

The executive sessions of the PSC are held continuously from day to day, beginning with the first Monday of the month. The rules of the executive sessions are covered in **§68-4-11, NMSA 1953.**

The New Mexico Public Service Commission's Code of Conduct was amended and implemented pursuant to §10-16-11 NMSA 1978 effective September 16, 1983. The Commissioners, Hearings Examiners and employees of the Commission are governed by the Code of Conduct. **NM Constitution, Article XI. §4.**

NEW MEXICO STATE CORPORATION COMMISSION

Any interested person has standing to request relief from the SCC, but intervention is determined by the nature of the case. In certain types of cases parties must be represented by attorneys.

An appearance before the SCC generally constitutes the practice of law; however, there are exceptions.

The admissibility of evidence in proceedings is governed by the District Court Rules. Reasonable limitations are placed on the cross-examination of witnesses and on oral argument before the SCC.

AGENCY PRACTICE AND PROCEDURE

NEW MEXICO STATE CORPORATION COMMISSION
(Continued)

The State Corporation Commission holds monthly public meetings throughout the State. It also conducts monthly open meetings with Department Directors.

The New Mexico State Corporation Commission's Code of Conduct was amended and implemented pursuant to §10-16-11 NMSA 1978 effective September 16, 1983. The Commissioners, Hearing Examiners and employees of the Commission are governed by the Code of Conduct. **NM Constitution, Article XI, §4.**

NEW YORK PUBLIC SERVICE COMMISSION

• Any aggrieved person may request relief from the PSC. Rule 2.4 of the Rules of Procedure of the Department of Public Service (see 16 NYCRR) states that the complainant, petitioner, governmental authority and the utility are to be considered parties. Any other interested persons may request inclusion as a party.

• An appearance before the Commission is not deemed to constitute the practice of law and a person appearing before the Commission does not have to be an attorney.

• By statute, Public Service Law §20(1), the Commission is not bound by the technical rules of evidence. The basic standard of admissibility is relevance.

• Rule 2.4 limits the examination of witnesses to parties. As a general rule, the Common Law rules are applied to cross-examination. Rule 2.7(e) states that oral argument may be requested by any party or staff counsel who files a brief on exceptions or opposing exceptions on a recommended decision. Oral argument is limited to matters properly raised on the record.

• Oral argument before the Commission is permitted in only a few of its cases.

• Commission sessions are regularly held, generally every two weeks. Advance notice is given and sessions are open to the public.

• Commissioners and staff are prohibited from doing certain acts enumerated in §15 of the Public Service Law. Additionally, commissioners and staff are subject to the Code of Ethics in of the New York Public Officers Law.

NEW YORK STATE DEPARTMENT OF TRANSPORTATION

An appearance before the DOT is not deemed to constitute the practice of law, so a person appearing be-fore the Department does not have to be an attorney. However, all persons appearing before the Department must conform to the standards of conduct required of attorneys appearing before State courts.

The DOT is not bound by the technical rules of evidence (Transportation Law §84(1)). Relevance is the basic standard of evidence admissibility.

Rule 502.4 limits the examination of witnesses to declared parties to the proceeding. Unless otherwise provided by the Commissioner, the hearing officer is responsible for the conduct of a case from the time of his assignment until such time as he submits his report or recommended decision. The hearing officer determines the time and place of the proceedings before him, the manner in which testimony and cross-examination is to be conducted, the time and place for submission of briefs and other matters necessary for the proper discharge of his responsibility (§502.2). Rule 502.9 states that oral argument may be requested by any party or staff counsel who files a brief on exceptions or opposing exceptions on a tentative or recommended decision. Oral argument is limited to matters properly raised on the record.

Executive sessions are regularly held, generally at two-week intervals. No advance notice is given and such sessions are not open to the public.

The Commissioner and staff are prohibited from doing certain acts enumerated in §82 of the Transportation Law. Additionally, the Commissioner and staff are subject to the Code of Ethics set forth in §74, New York Public Officers Law.

AGENCY PRACTICE AND PROCEDURE

NORTH CAROLINA UTILITIES COMMISSION

• Any party having an interest in the relief requested or the NCUC proceeding involved has standing to request relief from the NCUC. Any association representing such parties has standing to intervene in a proceeding.

• Appearance before the NCUC constitutes the practice of law with the exception that individuals may represent themselves. Corporations and associations must be represented by attorneys, except in rulemaking proceedings where they appear as public witnesses. Rule R1-22.

• The Rules of Evidence applied in civil proceedings in the Superior Court of North Carolina, insofar as practicable determines the admissibility of evidence in proceedings. G.S. 62-65.

• The NCUC applies the same limitations in cross-examination and oral argument as those applicable to the Superior Court of North Carolina.

• The NCUC conference is held each Monday morning. Executive sessions are held to decide pending cases at the Call of the Chairman, and are closed sessions.

• Commissioners and staff personnel's code of conduct are governed by the following statutes: GS 62-10, 11 and 327.

NORTH DAKOTA PUBLIC SERVICE COMMISSION

Any person having an interest, or aggrieved by a decision of the PSC, has standing to request relief from the PSC and to intervene in a proceeding. An appearance before the PSC constitutes the practice of law.

The Rules of Evidence in District Court are guidelines for the admissibility of evidence in proceedings, but administrative procedures are less strict. No limitations are placed on the cross-examination of witnesses and on oral argument before the PSC.

Meetings are held weekly; agendas are published and mailed. All meetings and hearings are open to the public. Executive sessions of the commissioners are not held at regular intervals.

The following policy regarding gifts, gratuities, etc. was adopted by the PSC effective December 15, 1987:

1. No Commissioner, Commission employee, or agent, shall participate in a Commission decision if a conflict of interest, real or apparent, would be involved. A conflict would arise when the Commissioner, the employee or agent, any member of his immediate family, his partner or an individual firm or organization which employs or is about to employ the Commissioner, Commission employee, his immediate family member, or partner has a financial or other interest directly and substantially affected by the Commission decision.

2. Individuals, firms or organizations and their employees or agents shall not directly or indirectly offer nor shall Commissioners or employees directly or indirectly accept or solicit any gift, gratuity, entertainment, favor, loan or any other thing of monetary value which might reasonably be interpreted as intended to secure a favorable decision from the Commission. Political contributions are governed by paragraph 4.

3. During an audit or inspection, Commissioners, employees or agents shall neither solicit nor accept gratuities, food, favors or anything of monetary value from anyone with an interest in the results of the audit or inspection.

4. No political contribution may be offered, solicited or accepted for the purpose of affecting a favorable decision.

OHIO PUBLIC UTILITIES COMMISSION

All public utilities subject to the jurisdiction of the Public Utilities Commission of Ohio may request relief from the Commission, as may any person, firm, or corporation that complains in writing that any rate, charge, practice, or service of a public utility is unreasonable, inadequate, or unlawful. Pursuant to the Commission's rules, any person shall be permitted to intervene in a proceeding upon a showing that a state or federal statute confers a right to intervene or that the person has a real and substantial interest in the proceeding and that the person is so situated that his ability to protect that interest may be impaired or impeded unless intervention is granted, except where that interest is adequately represented by existing parties. A person may be permitted to intervene upon a showing of a real and substantial interest, even if the interest is already represented, if the Commission finds after consideration of the nature of the interest, the extent to which it is already represented, the potential

contribution to the proceeding, and the potential for delay or prejudice, that such a measure is appropriate.

An appearance before the Public Utilities Commission of Ohio on behalf of another, whether it be an individual, group, association, partnership, or corporation, constitutes the practice of law. Thus, only attorneys may appear in a representative capacity. Individuals may, however, participate on a pro se basis, so long as their interest is not already adequately represented by existing parties.

Rules of evidence generally govern admissibility of evidence in Public Utilities Commission of Ohio proceedings. However, the rules may not always be strictly applied, given the nature of the subject matter and the expertise of the trier of fact.

There are no specified time limitations placed on the cross-examination of witnesses in Public Utilities Commission of Ohio proceedings; however, in applying the rules of evidence, the presiding hearing examiner does have authority to prevent repetitive or non-productive questioning and to thereby limit cross-examination. In those cases in which oral arguments are scheduled, the Commission typically permits a half-hour per side, although there is no Commission rule governing this subject.

Pursuant to Ohio's "Sunshine Law," the Public Utilities Commission of Ohio issues its decision at weekly signing sessions. The agenda for these meetings is published in advance. At the conclusion of its other business, the commissioners may go into executive sessions to deal with personnel matters or other confidential subjects. These sessions may be closed to the public.

Commissioners and staff of the Public Utilities Commission of Ohio are subject to the provisions of §§102.02, 102.03, 4901.04, and 4901.24 of the Ohio Revised Code. Commissioners are also subject to §4901.05 of the Ohio Revised Code.

OKLAHOMA CORPORATION COMMISSION

• Any aggrieved rate payer has standing to request relief from the OCC, and has standing to intervene in proceedings. An appearance before the OCC does not constitute the practice of law. Representation by attorneys is required only if parties and intervenors wish to cross-examine.

• The Rules of Evidence applied to the District Court of Oklahoma determines the admissibility of evidence in proceedings; however, the Rules may be relaxed if deemed to be in the public interest to do so.

• Limitations on oral argument before the OCC is determined by the discretion of the Commission.

• Executive sessions of the commissioners are not held at regular intervals.

• The commissioners and staff personnel are governed by a written code of conduct. 74 OS et seq.

OREGON PUBLIC UTILITY COMMISSION

• The following may intervene in a proceeding: Any person who could have been a party on the institution of a proceeding and any person permitted to appear by application., ORS 756.525; and persons protesting motor carrier applications, ORS 767.135.

• The admissibility of evidence in proceedings is determined by Circuit Court Rules of Evidence.

• No limitations are placed on the cross-examination of witnesses and on oral argument before the PUC except for time restrictions by the Administrative Law Judge.

• Oregon has three Commissioners. The PUC holds two public meetings a month with executive sessions as needed. Meetings are noticed as required by Oregon Public Meetings Law.

The Commissioners and staff employees are governed generally by a written code of conduct under ORS 756.026, 756.028, 756.034, OAR 860-12-010 and OAR 860-12-015.

AGENCY PRACTICE AND PROCEDURE

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Standing to Request Relief. The Commission, or any person, corporation, or municipal corporation having an interest in the subject matter or any public utility concerned, may complain in writing; the Commonwealth of Pennsylvania through the State Attorney General in any matter involving the commonwealth as a consumer of public utility services; the State Consumer Advocate; Applicants in proceedings requesting permission or authorization which the Commission may give under statutory or other authority delegated to it (ie Certificate of Public Convenience for carriers); Protestants, including any interested person or corporation desiring to protest or object on the ground of public or private interest to the approval of an application, petition, motion, or other matter which the Commission may have under consideration; Petitioners seeking relief which may not be specifically designated by rule or statute (i.e. requests for exemption from specific regulations).

Intervention. Persons eligible to intervene: A petition to intervene may be filed by a person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate to the administration of the statute under which the proceeding is brought. Such right or interest may be: (1) A right conferred by statute of the United States or of this Commonwealth; (2) An interest which may be directly affected and which is not adequately represented by existing parties and as to which petitioners may be bound by the action of the agency in the proceeding. The following may have such an interest: consumers, customers, or other patrons served by the applicant or respondent; holders of securities of the applicant or respondent; employees of the applicant or respondent; competitors of the applicant or respondent; (3) Any other interest of such nature that participation of the petitioner may be in the public interest.

Appearance Before the Commission. Corporations must be represented by attorneys; however, an individual may appear in his own behalf. In non-adversary proceedings (such as the filings of documents), a bona fide officer of a corporation, trust or association may represent those entities.

Admissibility of Evidence. The admissibility of evidence in proceedings is determined by rules of evidence as generally applied to administrative agency hearings as interpreted by the presiding officer.

Cross-Examination and Oral Argument. The only limitations placed on cross-examination of witnesses and on oral argument before the commission are those deemed appropriate by the presiding officer under the circumstances of the case.

Public Sessions. Public sessions of the commissioners are held at regular intervals, usually on a weekly basis. Advance public notice of such sessions is provided.

Code of Conduct. The commissioners and staff personnel are governed by a written code of conduct. §319 of Act No. 1978-116 (66 Pa. Consolidated Statues 319).

PUERTO RICO PUBLIC SERVICE COMMISSION

Any entity regulated has standing to seek relief from the PSC; also any consumer or group of consumers has such right to seek relief. Any entity may have standing to intervene as determined by the PSC, as those by reason of interest or possible interest in the subject matter, may require relief.

An appearance before the PSC constitutes the practice of law; a corporation or association may appear and present evidence by any bona fide officer, employee or representative. A natural person may appear and be heard on his own behalf.

Generally, the rules of civil procedure established in the Laws of Puerto Rico Annotated govern the admissibility of evidence; however strict adherence to the rules will not be engaged in if the exclusionary rules of evidence would prevent the receipt of evidence having substantial, probative effects. The PSC follows the modern trend of administrative procedures broadening the scope in presentation of evidence. In a hearing, the Examiners conducting the hearing determine the admissibility of evidence. On behalf of the public interest that might be involved, in every case an attorney of the PSC is always present at the hearings.

No limitations are placed on the scope and extent of cross-examination of witnesses, except for the same protection of witnesses required by law and by the rules of the Court. The same applies to oral argument.

Executive sessions of the Commissioners are held at regular intervals. No advance notice of the sessions is given as the sessions are not open to the public.

AGENCY PRACTICE AND PROCEDURE

RHODE ISLAND PUBLIC UTILITIES COMMISSION

1.4 APPEARANCES AND PRACTICE BEFORE THE COMMISSION

1.4 (a) **Appearances.**

(1) All parties to a proceeding shall be represented by an attorney. Participants, other than parties, may appear in any proceeding in person or by an attorney.

(2) Any person compelled to appear or voluntarily testifying or making a statement before the Commission or the presiding officer may, but shall not be required to be, accompanied, represented, and advised by an attorney.

(3) All persons appearing before the Commission or the presiding officer must conform to the standards of ethical conduct required of practitioners before the courts of Rhode Island.

(4) Any person appearing before or transacting business with the Commission in a representative capacity may be required by the Commission or the presiding officer to file evidence of his authority to act in such a capacity. **Rules of Practice and Procedure, June 20, 1980.**

1.8(b) **Who May Intervene.** Subject to the provisions of these rules, any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate to the administration of the statute under which the proceeding is brought may intervene in any proceeding before the Commission. Such right or interest may be:

(1) A right conferred by statute.

(2) An interest which may be directly affected and which is not adequately represented by existing parties and as to which petitioners may be bound by the Commission's action in the proceeding. (The following may have such an interest: consumers served by the applicant, defendant, or respondent; holders of securities of the applicant, defendant, or respondent.)

(3) Any other interest of such nature that petitioner's participation may be in the public interest.

Rules of Practice and Procedure, June 20, 1980.

1.19 WITNESSES

1.19(a) **Oral Examination.** Witnesses shall be examined orally unless the testimony is taken by deposition as provided in §1.21, or by the facts are stipulated or the testimony is submitted in prepared written form as provided in §1.17. Witnesses whose testimony is to be taken shall be sworn, or shall affirm, before their testimony shall be deemed evidence in the proceeding or any questions are put to them.

1.19(b) **Expert Witnesses.** Written testimony of an expert witness may be received as provided in §1.17, where properly supported by the oral testimony of its author on direct examination, subject to cross-examination motions to strike.

1.19(c) **Fees of Witnesses.** Witnesses subpoenaed by the Commission shall be paid the same fees and mileage as are paid for like services in the courts of Rhode Island. Witnesses subpoenaed at the instance of party shall be paid the same fees by the party at whose instance the witness is subpoenaed; and the Commission, before issuing any subpoenas as provided in §1:20, may require a deposit of an amount adequate to cover the fees and mileage involved. **Rules of Practice and Procedure, June 20, 1980.**

1.24(b) **Oral Argument.** When, in the opinion of the Commission or the presiding officer, time permits and the nature of the proceedings, the complexity or importance of the issues of fact or law involved, and the public interest warrant, the presiding officer may either of his own motion or at the request of a party at or before the close of the taking of testimony, allow and fix a time for the presentation of oral argument, imposing such limits or time on the argument as deemed appropriate in the proceeding. Such argument shall be transcribed and bound with the transcript of the testimony. **Rules of Practice and Procedure, June 20, 1980.**

1.1(f) **Meetings and Hearings.** Meetings of the Commission may be held at any time or place upon call of the Chairman on his own initiative or at the request of any member after reasonable notice by mail or telegraph or otherwise to the other members, and shall be held at such times and places as in the judgment of the commission will best serve the convenience of all parties in interest. **Rules of Practice and Procedure, June 20, 1980.**

Commissioners and staff are governed by a written code of conduct. **Title 39, Chapter 1, §5 of the General Laws of the State of Rhode Island.**

SOUTH CAROLINA PUBLIC SERVICE COMMISSION

• **Standing and Intervention**--Any person complaining of anything done or omitted to be done by any person under the statutory jurisdiction of the Commission in contravention of any statute, rule, regulation, or order administered or issued by the Commission may file a written complaint. Persons filing a Petition must state their grounds of interest in the subject matter. Applications may be submitted by a person seeking authorization or permission which the Commission is empowered to grant under its statutory

SOUTH CAROLINA PUBLIC SERVICE COMMISSION
(Continued)

authorization.

• Intervenors in a Petition must state their grounds of interest in the subject matter. Admission by an intervenor shall not be construed as recognition by the Commission that such intervenor might be aggrieved by an order of the Commission in such proceedings.

• Appearance before the agency constitutes the practice of law. An individual party may represent himself or herself. An individual representing a party other than himself or herself individually must be an attorney.

• The admissibility of evidence in proceedings is determined by the Circuit Court Rules of Evidence. The cross-examination of witnesses is limited as to relevancy.

• Oral argument before the agency (motions and objections) may be limited. Opening statements and closing statements may be heard upon grant of permission by Chairman or presiding officer.

• Public sessions of the commissioners are held weekly and done so in compliance with the Freedom of Information Act. Executive sessions are not necessarily held at regular intervals. When held, the terms of the Freedom of Information Act are complied with.

• The commissioners and staff personnel are governed by a written code of conduct. See, generally, §§8-1-10 et. seq. and §1-23-310 et seq.

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION

COMPLAINTS

Common Carrier Actions - In common carrier actions, the following rules of standing apply:

ARSD 20:10:01:03. Parties in common carrier actions. Any person, firm, company, corporation or association or mercantile, agricultural or manufacturing society, body politic, municipal organization, or common carrier, may complain to the commission, by petition, or anything done or omitted to be done in violation of the provisions of the act to regulate common carriers and all acts amendatory thereof and supplementary thereto by any common carrier subject to the laws of this state. If a complaint relates to matters in which two or more carriers are interested, the several carriers participating are necessary parties.

ARSD 20:10:01:04. Parties in actions relating to rates of carriers. If a complaint relates to rates, regulations or practices of carriers operating different lines, and object of the proceeding is to secure a correction of such rates, regulations or practices on each of said lines, all such carriers must be made parties.

ARSD 20:10:01:05. Receivers and trustees are parties. If the lines of the carrier are operated by a receiver or trustee, both the carrier and its receiver or trustee must be made parties in cases involving transportation over said lines.

INTERVENTION

Intervention is allowed pursuant to ARSD 20:10:01:06 which provides: Any person may petition in any proceeding for leave to intervene. Such petition shall set forth the petitioner's interest in the proceeding. Leave granted on such application will entitle the intervenors to have notice of hearings, to produce and cross-examine witnesses, to be heard in person or by counsel at oral argument, and to submit briefs.

Utility Rate Cases. Any utility petitioning for a rate change must give written notice of any proposed increase in rates to all affected customers at least thirty days prior to the effective date thereof. "The notice to affected customers shall include a statement that the customer has a right to join with 24 other customers and file a written objection to such rate increase, and that they may request the commission to suspend the rate increase and to hold a public hearing to determine if such rate increase should be allowed." SDCL 49-34A-14.

Any interested person may petition for formal intervention pursuant to ARSD 20:10:14:02 through ARSD 20:10:14:05. If formal intervention is granted, the intervenor has party status. **See also,** SDCL 1-26-17.1.

A limited appearance, which does not confer full party status, may be made by an individual, customer, ratepayer or duly authorized governmental representative thereof without filing a petition for leave to intervene. ARSD 20:10:14:06 and SDCL 49-34A-13.1.

AGENCY PRACTICE AND PROCEDURE

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION
(Continued)

Energy Facilities Siting Cases (Pipelines and Power Lines). The parties to any energy facilities siting case are specified by statute at SDCL 49-41B-17, as follows:

The parties to a proceeding under this chapter, unless otherwise provided, include:
(1) The commission and applicant;
(2) Each municipality, county and governmental agency in the area where the facility is proposed to be sited; and
(3) Any person residing in the area where the facility is proposed to be sited, any non-profit organization, found in whole or in part to promote conservation or natural beauty, to protect the environment, personal health or other biological values, to preserve historical sites, to promote consumer interests, represent commercial and industrial groups, or to promote the orderly development of the areas in which the facility is to be sited or any interested person.

Any party to a permit proceeding may make a limited appearance in the proceeding by filing a statement in writing with the commission any time prior to but not later than five days after the date set for the hearing. A statement filed by a party to a permit proceeding making a limited appearance shall become part of the record and shall be made available to the public.

In contested cases: (1) Irrelevant, incompetent, immaterial, or unduly repetitious evidence shall be excluded. The rules of evidence as applied under statutory provisions and in the trial of civil cases in the circuit courts of this state, or as may be provided in statutes relating to the specific agency, shall be followed. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not otherwise admissible thereunder may be admitted except where precluded by statute if it is of a type commonly relied upon by reasonably prudent men in the conduct of their affairs. Agencies shall give effect to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. Subject to these requirements, when a hearing will be expedited and the interests of the parties will not be prejudiced substantially, any part of the evidence may be received in written form;
(2) A party may conduct cross-examination required for a full and true disclosure of the facts;
(3) Notice may be taken of judicially cognizable facts. In addition, notice may be taken of generally recognized technical or scientific facts within the agency's specialized knowledge. Parties present at the hearing shall be informed of the matters to be noticed and those matters shall be noted in the record, referred to therein, or appended thereto. Any such party shall be given a reasonable opportunity on request to refute the officially noticed matters by evidence or by written or oral presentation of authority. The manner of such refutation to be determined by the agency.

Special evidentiary rules relating to the admissibility of stipulations, depositions and documentary evidence in Public Utilities Commission leases are found in Chapter 20:10:01 of the Administrative Rules of South Dakota at ARSD 20:10:01:19 through ARSD 20:10:01:24 and at ARSD 20:10:14:21 through ARSD 20:10:14:38.

CROSS EXAMINATION/ORAL ARGUMENT

The South Dakota Public Utilities Commission liberally construes the rights to cross-examination of witnesses and oral argument in accordance with SDCL 1-26-19(2) and (3), quoted above, ARSD 20:10:14:25, ARSD 20:10:14:28 and ARSD 20:10:14:33. The Commission reserves the right to impose reasonable time limits on oral argument, where necessary.

A party waives his right to be a party if he does not participate orally before a commission hearing or file a written statement within five days after the hearing, pursuant to SDCL 49-41B-18.

No specific intervention provisions are contained in Chapter 49-41B, although intervention would be permitted in accordance with SDCL 1-26-17.1, the Administrative Procedures Act.

APPEARANCES BEFORE THE COMMISSION

The South Dakota Attorney General, in Official Opinion No. 76-56, dated May 19, 1976, and Official Opinion No. 80-50, dated July 21, 1980, has concluded that persons appearing in representative capacities before administrative agencies of the state (including the South Dakota Public Utilities Commission) are engaged in the practice of law. Compliance with SDCL 16-18-1 and SDCL 16-18-2 is therefore required.

SDCL 16-18-1 provides: Expecting as provided by §16-18-2, no person shall engage in any manner in the practice of law in the State of South Dakota unless such person be duly licensed as an attorney at law, and be an active member of the state bar in good standing. Any person engaging in any manner in the practice of law in violation of this section may be restrained by permanent injunction in any court of competent jurisdiction, at the suit of the attorney general or any citizen of the state.

AGENCY PRACTICE AND PROCEDURE

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION
(Continued)

SDCL 16-18-2 provides: A nonresident attorney, although not licensed to practice law in the State of South Dakota, but licensed in another jurisdiction within the United States, may, after first complying with the requirements hereinafter set forth, participate in the trial or hearing of any particular cause in this state provided a resident practicing attorney of this state, a member of the state bar of South Dakota, is actually employed and associated and personally participates with such nonresident attorney in such a trial or hearing.

Parties and intervenors appearing pro se need not be represented by counsel. See, ARSD 20:10:01:02 and ARSD 20:10:14:07.

ADMISSIBILITY OF EVIDENCE
The South Dakota Administrative Procedures Act sets forth general rules of evidence for contested cases at SDCL 1-26-19.

EXECUTIVE SESSIONS
Executive sessions of the commissioners are not held at regular intervals. Advance public notice is given as to regular commission meetings.

CODE OF CONDUCT
The Commission adopted a written code of conduct as part of a Personnel Policy handbook in 1987.

TENNESSEE PUBLIC SERVICE COMMISSION

• Any regulated company, any customer of such company, or any other interested party has standing to request relief from the PSC. Any interested party may intervene in a PSC proceeding. The PSC does not require representation by counsel.

• Strict rules of evidence are not followed in the admissibility of evidence in proceedings; a statutory "Prudent Name" test is used.

• There are no limitations, except basic procedural limitations, placed on the cross-examination of witnesses and on oral argument before the PSC.

• Executive sessions of the commissioners are held every second Tuesday. The sessions are open to the public and advance notice is given of such sessions.

• The Commissioners and staff personnel are governed by a written code of conduct. TCA 65-101 et seq.

TEXAS PUBLIC UTILITY COMMISSION

Any consumer, electric or telephone company has standing to request relief from the Public Utility Commission. Any party who can show a justifiable interest may intervene in a proceeding. Jurisdiction over water and sewerage companies was transferred to the Texas Water Commission effective March 1, 1986.

An appearance before the PUC does not constitute the practice of law.

The admissibility of evidence in proceedings is determined by the Texas Rules of Evidence as applied to non-jury civil cases in the District Courts of Texas.

The cross-examination of witnesses is usually limited to the subject matter of direct testimony. Oral argument may be allowed only at the discretion of the Commission.

Executive sessions of the commissioners are held at least once a month. Notice is given for all meetings, which are open to the public unless personnel matters are being discussed.

Commissioners and staff are governed by a written code of conduct. Article II. §§5 through 7 of the Public Utility Regulatory Act (Article 1446c. V.A.C.S.)

AGENCY PRACTICE AND PROCEDURE

TEXAS RAILROAD COMMISSION

• Standing to request relief from the Commission applies to anyone with a complaint concerning any organization under the jurisdiction of the Commission, for which a penalty is provided. Any person, public official, state agency or department of any civic or trade organization may intervene.

• A natural person who is a party of interest may appear for himself or be represented by a full-time employee or by an attorney. The same rules apply to corporations, partnerships and associations.

• The Statutes of the State of Texas and non-jury rules of evidence of the State of Texas determine the admissibility of evidence in proceedings, and the limitations placed on the cross-examination of witnesses.

• Oral argument before the Commission is allowed at the discretion of the Commission.

• Formal commission meetings are held every Monday at 9:00 a.m. and once monthly at a time set one year in advance. Notice is given to the Secretary of the State of Texas and posted in the Capitol Building. The sessions are open to the public; notice is also given to AP, UPI and 14 newspapers.

• The commissioners and staff personnel are not governed by a written code of conduct.

UTAH PUBLIC SERVICE COMMISSION

• Anyone has standing to request relief from the commission and has standing to intervene in a proceeding. UCA 1953, 54-7-9. An appearance before the Commission does not constitute the practice of law. The PSC usually follows the rules of evidence generally applicable to court proceedings.

• No limitations on the cross-examination of witnesses or oral argument before the Commission. UCA 1953, 54-7-1.

• Executive sessions of the Commissioners are not held at regular intervals and are not open to the public.

• Commissioners and staff personnel are governed by a written Code of Conduct, UCA 1953, 54-1-11, and 54-1-6.

VERMONT PUBLIC SERVICE BOARD

• Any regulated company, any customer of such company, or any other adversely affected complainant has standing to request relief from the PSB. Any party who can show a justifiable interest may intervene in a proceeding pursuant to Rule 2.209.

• An appearance before the PSB does not constitute the practice of law.

• The law of evidence as interpreted by Vermont's courts determines the admissibility of evidence in proceedings and the limitations placed on the cross-examination of witnesses and on oral argument before the PSB.

• Deliberative sessions of the Board are not open to the public.

• Board members and staff are not governed by a written code of conduct.

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION

• Any interested person or public utility may make formal complaint to the Commission on any matters subject to the jurisdiction of the Commission.

• Any person not a party to a proceeding may make written application for leave to intervene showing the extent of his interest in the matter. Upon its granting, the person shall thereafter be an intervenor in the proceeding.

• Commission rules are silent as to whether or not an appearance before the Commission constitutes the practice of law. The rules state "Any party or intervenor may be represented by himself or counsel."

The rules of evidence applied in civil proceedings in the courts of the United States in matters not involving trial by jury, shall govern Commission proceedings.

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION
(Continued)

• The rules are silent on what limitations, if any, are placed on cross-examination of witnesses and oral argument.

• The PSC is obliged to hold at least six meetings a year, to be called by the Executive Directo. on not less than five days notice (unless all members waive notice). In addition, the Chairman may convene such additional special meetings as are required, upon not less than three days notice (unless all members waive notice). All meetings are open to the public and advance public notice is given of such meetings.

• The Commissioners and staff personnel are not governed by a written code of conduct.

VIRGINIA STATE CORPORATION COMMISSION

Standing to Request Relief and Intervention in Proceedings. Any person who pays rates or receives services which are regulated by the Commission has standing to request relief by the commission and any interested person, irrespective of their status as a rate payer, has status to intervene in an agency proceeding.

Appearance Before the Commission. Commission Rules provide that an individual may appear **pro se** and participate as a party without the assistance of counsel. All other parties who participate in Commission proceedings as protestants, with the right to cross-examination and make argument, are required to be represented by counsel. Rule 4:8 of Commission Rules of Practice and Procedure provides as follows: "no person not duly admitted to practice law...shall appear as an attorney or counsel in any proceeding except in his own behalf when a party thereto, or in behalf of a partnership...of which such person is adequately identified as a member".

Rules of Evidence. Rule 8:2(d) of Commission Rules of Practice and Procedure governs hearing procedures dealing with rules of evidence. It provides, in part, "[i]n all proceedings in which the Commission shall be called upon to decide or render judgment only in its capacity as a court of record, the common law and statutory rules of evidence shall be as observed and administered by the courts of record of this State. In all other proceedings, due regard shall be given to the technical and highly complicated subject matter the Commission must consider, and exclusionary rules of evidence shall not be used to prevent the receipt of evidence having substantial probative effect."

Sessions of the Commissioners. Under Virginia law, the Commission may resolve matters formally or informally unless the Code requires a hearing on the matter. Hearings are open to the public.

Code of Conduct. There is no single code of conduct which governs Commissioners and Staff. Actions of the Commission and its Staff are governed by various statutes and regulations, such as **ex parte** communications (Rule 4:13 of Commission Rules of Practice and Procedure), prohibitions of conflicts of interest (VA Code §12.1-10), financial disclosure statements (VA Code §2.1-347 **et seq.**). Commissioners, hearing examiners and Staff attorneys are also governed by the judicial rules of conduct and the canons of ethics prescribed by the Virginia Supreme Court. Professionals, other than attorneys, are subject to the rules of ethics of their professions.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

WAC 480-08-070 INTERVENTION. (1) General intervention. Any person, other than the original parties to any proceeding before the Commission, who shall desire to appear and participate in the proceeding, and who does not desire to broaden the issues of the original proceeding, may petition in writing for leave to intervene in the proceeding prior to, or at the time, it is called for hearing; or may make an oral motion for leave to intervene at the time of the hearing. No such petition or motion shall be filed or made after the proceeding is underway, except for good cause shown. The petition or motion to intervene must disclose the name and address of the party intervening; the name and address of his attorney, if any; his interest in the proceeding; and his position in regard to the matter in controversy.

WAC 480-08-090 APPEARANCE AND PRACTICE BEFORE COMMISSION. (1) General. In all proceedings wherein pleadings are filed and a formal hearing is held involving the taking of testimony and formulation of a record subject to review by the courts, no person may appear in a representative capacity other than the following:

(a) Attorneys at law duly qualified and entitled to practice before the Supreme Court of the State of Washington;

(b) Attorneys at law duly qualified and entitled to practice before the highest court of record of any other state, if attorneys at law of the State of Washington are permitted to appear in a representative capacity before the public service regulatory body of such other state;

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION (Continued)

(c) Persons not attorneys at law who have been duly authorized to practice before the Interstate Commerce Commission;
(d) Upon permission of the presiding officer at such hearing, a bona fide officer or full time employee of an individual, firm, association or corporation who appears for such individual, firm, association or corporation.

Washington Administrative Code 480-08-190 provides that the rules of evidence in court proceedings serve as examples concerning the admissibility of evidence in WUTC proceedings but are not conclusive. The Administrative Code calls for the best evidence that is reasonably obtainable, giving due regard to the need for it, as well as the availability and trustworthiness.

No limitations other than against repetitive or cumulative testimony on cross-examination are imposed, but oral argument may be granted only at the discretion of the WUTC.

All regularly scheduled meetings of the WUTC are open public meetings; special meetings are open and preceded by special public notice.

Commissioners and staff are governed by a written code of conduct. **Administrative Procedure Act,** RCW Chapter 34.04; Public Disclosure Law, RCW Chapter 42.17; Open Public Meetings Law, RCW Chapter 42.30.

WEST VIRGINIA PUBLIC SERVICE COMMISSION

Intervention in Proceedings. Any person with a legal interest in the subject matter of any hearing or investigation pending before the Commission may petition or move orally for leave to intervene in such proceeding, prior to or at the time it is called for hearing. If leave is granted, the petitioner becomes an intervenor and a party to the proceeding with the right to have notice of and appear at the taking of testimony, to produce and cross-examine witnesses, and to be heard on the argument of the case.

Appearance Before the Commission. Representation or appearance of parties in all formal proceedings pending before the Commission, shall be only by attorneys at law admitted to practice before the Courts of the State of West Virginia, before the Courts of last resort of other states, or before the US Supreme Court; provided, however, that a party may appear for and represent himself, a partner may represent his partnership, but a corporation or association must be represented by an attorney.

Admissibility of Evidence. In investigations, preparations and hearings of cases,the Commission is not bound by the technical rules of pleadings and evidence, but in that respect it may exercise such discretion as will facilitate its efforts to understand and learn all the facts bearing upon the right and justice of the matters before it. Evidence may be received which, in the opinion of the presiding officer, is the best evidence reasonably obtainable, having due regard to its necessity, availability and trustworthiness. In passing upon the admissibility of evidence, the presiding officer shall give consideration to, but shall not be bound to follow the rules of evidence governing general civil procedures in courts of the State of West Virginia.

Oral Argument. Oral argument may be presented in lieu of filing of briefs. When, in the opinion of the presiding officer, time permits and the nature of the proceedings, the complexity or importance of the issues of fact or law involved, and the public warrants, such presiding officer may, either on his or her own motion or at the request of a party or staff counsel at or before the close of the taking of testimony allow and fix a time for the presentation of oral argument, imposing such limits of time on the argument as deemed appropriate in the proceeding.

Meetings of the Commission. Meetings of the Commission during which it makes a decision or deliberates toward a decision an any matter are exempt from the so-called Sunshine Law, and therefore closed to the public. Executive sessions of the Commission are not held at regular intervals.

Code of Conduct. Constitution of West Virginia, Article 4, §5; West Virginia Code, Chapter 24, Article 1, §2; and Chapter 24, Article 1, §3, provide certain ethical responsibilities. In addition to the [illegible], the Commission has promulgated certain rules which requires the Commission and professional members of its staff to observe the high standards of conduct required by the professionals to which their activities relate.

WISCONSIN COMMISSIONER OF TRANSPORTATION

• The criteria by which a person has a right to request a hearing before the Office of the Commissioner of Transportation are set forth in S. 227.064 (1) Wis. Stats. Persons whose interests are injured or threatened with injury by the Department of Transportation action or inaction have the right to request a hearing before the Office of the Commissioner of Transportation.

AGENCY PRACTICE AND PROCEDURE

WISCONSIN COMMISSIONER OF TRANSPORTATION
(Continued)

- Any interested party can request to intervene in a proceeding before the Office of the Commissioner of Transportation.

- Parties and intervenor can be represented by persons who are not attorneys.

- Admissibility of evidence is controlled by TC 1.06 Wis. Adm. Code and S. 227.08 Wis. Stats.

- Cross-examination is controlled by S. 227.08(6) Wis. Stats.

- TC 1.04(1) Wis. Adm. Code covers deregulation of a hearing examiner due to a conflict of interest. There is no other written code of conduct for the staff of the Office of the Commissioner of Transportation.

WISCONSIN PUBLIC SERVICE COMMISSION

The Wisconsin Public Utility Statutes provide that any public utility or any mercantile, agricultural or manufacturing society, any body politic or municipal organization of 25 or more persons may by petition institute a formal case involving rates or service of a public utility. Also the PSC may set on its own motion, or as otherwise provided in specific statutes involving particular situations. See **Wisconsin Statutes §§196.26 and 196.30.**

A recently enacted law provides that any person may file a written request with the PSC for a hearing and shall have the right to a hearing if: (a) a substantial interest of the person is injured in fact or threatened with injury by agency action or inaction; (b) there is no evidence of legislative intent that the interest is not to be protected; (c) the injury to the person requesting a hearing is different in kind or degree from injury to the general public caused by agency action or inaction; and (d) there is a dispute of material fact. WS §227.42. Anyone who physically appears may intervene in commission hearings.

If the substantial interests of a person will be adversely affected, whether by action or inaction, whether affirmative or negative in form, he has the right to intervene, §227.44(2m), WS.

An appearance before the commission does not in and of itself constitute the practice of law. It is unsettled as to whether the performing of certain activities during the course of the proceeding constitutes the practice of law. The rules of the commission do not require parties and intervenors to be represented by attorney.

Evidence having reasonable probative value is admissible in proceedings. Immaterial, irrelevant or unduly repetitious testimony is not.

Cross-examination is not limited if it is reasonably required for a full and true disclosure of the facts. Time limits are set for oral arguments.

Meetings of the commissioners are held regularly twice a week. The sessions are open to the public and are each noticed in advance by State law.

There is a State Code of Ethics that applies to commissioners.

WYOMING PUBLIC SERVICE COMMISSION

Any person whose legal rights, duties or privileges may be affected may appear in person or through counsel, an officer may represent his company, or a partner may represent the partnership; all such persons may request relief from the PSC and intervene in a PSC proceeding.

An appearance before the PSC does not constitute the practice of law. Any person can represent himself. Officers or full-time employees can represent a corporation or municipality; otherwise counsel is required.

Admissible evidence is the type of evidence commonly relied upon by reasonable prudent men in the conduct of their serious affairs; and irrelevant, immaterial or unduly repetitious evidence shall be excluded. The Commission uses the Wyoming Rules of Civil Procedure as a guide.

Limitations placed on the cross-examination of witnesses and on oral argument before the PSC are determined during

AGENCY PRACTICE AND PROCEDURE

WYOMING PUBLIC SERVICE COMMISSION
(Continued)

the hearing process by the Chairman (upon consultation with other Commissioners, and with staff if necessary). Cross-examination must be relevant with no undue repetition.

Open Executive Sessions of the Commissioners are held Tuesdays and Thursdays; or if a hearing falls on these days, the meeting is held on the next day following which is not a Saturday, Sunday or legal holiday, or as set by Commissioners upon notice. All meetings on contested cases or final action on other cases are open to the public.

Commissioners and staff personnel are not governed by a written code of conduct. Certain conduct, however, is prohibited by statute. According to **Wyoming Statutes 1977, §37-2-104**, no Commissioner or staff member may accept any gift, gratuity, emolument of employment from a jurisdictional utility or utility officer, employee or agent. Soliciting, requesting or recommending to such a utility or utility officer, employee or agent any appointment to any position is likewise forbidden. Appointed personnel below Commissioner level are removable for malfeasance or misconduct in office under **Wyoming Statutes 1977, §9-1-202**. The discipline and dismissal of other employees is governed generally by the **State of Wyoming Personnel Rules**. The Commission is subject to Wyoming Executive Order 1981-12 which governs and limits *ex parte* communications.

The Commission is authorized by statute to appoint hearing examiners to conduct contested and non-contested cases.

****

CANADIAN AGENCIES

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION

In telecommunications matters any interested party has standing to request the Commission to exercise any of its statutory powers. In general, any subscriber of a telecommunications undertaking would satisfy this requirement. Only Canadian citizens, or corporations controlled by Canadian citizens, are eligible to hold a broadcasting license. Similarly any interested party may intervene in Commission proceedings. The Commission encourages public and interest group participation at hearings.

Appearances before the commission do not constitute the practice of law. Parties to telecommunications proceedings are generally represented by counsel, parties to broadcasting proceedings are seldom represented.

The panel of Commissioners presiding at a hearing determine the admissibility of evidence, and other matters of procedure not determined by Regulation.

Cross-examination is allowed at telecommunications proceedings but is not allowed at broadcasting proceedings. Witnesses are sworn in the former but not in the latter.

Commission executive meetings are required to be held at least six times yearly, but are not held at regular intervals. The public is not notified of or permitted to attend these meetings.

There is no written code of conduct governing, for instance, communications between Commissioners or staff and members of the public or the press. General government guidelines apply to conflicts of interest, employment of relatives, etc.

NATIONAL ENERGY BOARD (CANADA)

The Board holds public hearings for major applications and inquiries. Major applications include, for example, applications to obtain long-term licenses to export oil, gas or electricity, applications to obtain certificates of public convenience and necessity for pipelines or power lines, applications for detailed route approval for pipelines or power lines, and major applications by pipeline companies for tariff and toll matters.

Applicants and interested parties have full rights of participation. The Board provides advance, public notice of its hearings. Once public notice is given, any interested party may intervene by filing a written intervention with the Secretary of the Board. An interested party must be prepared to demonstrate a real interest in the hearing matter in order to be granted intervenor status. Alternatively, when public notice is given, an interested party who does not wish to intervene in the proceeding, but who wishes to make known to the Board his views regarding the proceeding, may file a letter commenting on the application or the proceeding with the Secretary of the Board.

AGENCY PRACTICE AND PROCEDURE

NATIONAL ENERGY BOARD (CANADA)
(Continued)

For a routine application, the Board may dispose of the application on the basis of the written documentation before it rather than by holding a public hearing. In such a case, it may invite submissions from interested persons.

Questions of admissibility are determined by the presiding Board members. Generally, the strict rules of evidence do not apply. Rules of fairness and the relevance of the evidence to the proceeding are the prime considerations.

The applicant and intervenors may cross-examine each others' witnesses. Board counsel may cross-examine all witnesses. The panel of Board members may also pose questions to any of the witnesses. Cross-examination must be relevant to the issues to be decided in the hearing. Arguments must be clear and to the point. The Board may order the parties to submit written argument in addition to or in lieu of oral argument.

Executive sessions of the Board are held regularly on a weekly basis. These sessions are not open to the public.

A written code of conduct does not exist. However, general federal government guidelines regarding conflict of interest apply. In addition, internal guidelines, for example with regard to contact with the public and applicants, do exist.

ALBERTA PETROLEUM MARKETING COMMISSION

The Natural Gas Marketing Act provides general guidelines for applications and representations in a Commission proceeding relative to the failure of natural gas supplies governed by netback paying arrangements to secure required producer support or an appeal of penalties for failure to provide required statistical data.

Generally, applications are made by interested parties, with respect to Commission decisions pursuant to Part 1 or Part 2 of the Act.

It is at the discretion of the Commission whether or not to hold a public hearing.

In the conduct of a hearing, the Commission is not bound by rules of law concerning evidence applicable to judicial proceedings.

As of August 1, 1987, no Commission proceedings have been held pursuant to this Act.

ALBERTA PUBLIC UTILITIES BOARD

Any person having an interest in a matter within the jurisdiction of the Board has standing to request relief from the Board in the matter and to intervene in any proceeding regarding the matter.

§33 of the Public Utilities Board Act provides: "All hearings and investigations before the Board shall be governed by rules which may be adopted by the Board," and "In the conduct of hearings and investigations before it the Board is not bound by the technical rules of legal evidence. "Parties and intervenors need not be represented by legal counsel.

The presiding member rules on the admissibility and the relevance of direct evidence, the cross-examination of witnesses, and oral argument brought before the Board during a hearing. Public hearings convened by the Board are conducted in a manner similar to any inquiry that might be carried out by a judicial tribunal. Advance notice of these hearings is published in newspapers widely circulated in the service areas of the utilities involved.

Board meetings are held bi-monthly and are not open to the public.

§26 of the Public Utilities Board Act provides: "No member of the Board shall hold any office or carry on any business or employment inconsistent with the performance of his duties under this Act, nor shall he, directly or indirectly, (a) hold, purchase, or become interested in any stock, debenture or other security issued by a local authority in Alberta, or become concerned or interested in a bargain or contract for the construction of any work made with or on behalf of any such local authority, or become or remain a member of any company that deals in the securities of local authorities or is concerned or interested in any such bargain or contract, or (b) hold or acquire any interest in the stock or securities of an owner of public utility, of a company that is the only or principle shareholders of the owner of a public utility, or (c) have any interest in any device, appliance, machine, patent, process or article, or in any part thereof, that may be used for the purpose of the business of a public utility."

BRITISH COLUMBIA UTILITIES COMMISSION

• Relief may be requested by application submitted by a jurisdictional energy utility to the Commission. Anyone with an appropriate interest in the proceeding may signify their intention to intervene.

• Energy utilities and/or substantial customers thereof are generally expected to present their case before the Commission through legal counsel. Individual citizens and smaller companies may present their own concerns before the Commission.

• Evidence presented by energy utilities and/or substantial customers thereof is provided under oath. Individual citizens may present their concerns without having sworn an oath.

• No limitations are placed on cross-examination of witnesses or oral argument except that acceptable conduct is required and unnecessary repetition may result in objection by the Commission.

• Hearings are generally open to public participation, but may be ex parte, and are held as and where considered advisable by the Commission.

• Meetings of the Commissioners alone are held as required. Meetings of the Commissioners and Departmental Directors are held weekly subject to urgency of requirement and availability of personnel. Such meetings are not open to the public.

• There is no written code of conduct governing Commissioners and staff. Reliance is placed on the standards normally considered acceptable and desirable from professionals acting in the public interest.

NEWFOUNDLAND BOARD OF COMMISSIONERS OF PUBLIC UTILITIES

• §81 (1) of the Public Utilities Act states in part: "81.-(1) Upon a complaint made to the Board against any public utility by any incorporated municipal body or by any five persons, firms or corporations, that any of the rates, tolls, charges or schedules are in any respect unreasonable or unjustly discriminatory or that any regulation, measurement, practice or act whatsoever affecting or relating to the operation of any public utility is in any respect unreasonable, insufficient or unjustly discriminatory or that the service is inadequate or unobtainable...."

• An appearance before the Board does not constitute the practice of law and parties need not be represented by attorneys.

• The Board determines the admissibility of evidence in proceedings.

• Limitations on the cross-examination of witnesses and on oral argument are at the discretion of the Board.

• Board is required by statute to meet in executive sessions monthly; additional meetings when needed are called by the Chair.

• The only citation is §5 (3) of the Public Utilities Act which states as follows: "5.-(3) The commissioners and clerk shall be sworn to the faithful performance of the duties of their respective offices before entering upon the discharge of such duties.

NOVA SCOTIA BOARD OF COMMISSIONERS OF PUBLIC UTILITIES

• Anyone with a vested interest in any matter regulated by the Board has standing request relief, and to intervene in a proceeding.

• Parties may represent themselves but only lawyers may cross-examine witnesses.

• The Board's opinion of relevance and fairness determines the admissibility of evidence in proceedings.

• Only lawyers may cross-examine. Persons that are not formal intervenors may take statements or argument on a special day for hearing public statements.

• Executive session of commissioners each Wednesday at 9:15 a.m. Not open to public.

• No written code of conduct. Any commissioner that invests in any utility regulated by the Board automatically vacates his office. **§6. Public Utilities Act.**

• Any person affected may request relief from the Board or intervene in a proceeding.

AGENCY PRACTICE AND PROCEDURE

ONTARIO ENERGY BOARD

• Appearance before the Board does not constitute the practice of law; any party may appear in person, by agent or by counsel.

• All evidence relevant to the subject matter is admissible in proceedings, unless it is privileged under the law.

• Cross-examination of witnesses and oral argument before the Board must be relevant.

• Executive sessions of the Members are not held at regular intervals; no advance public notice is given of such sessions. The sessions are not open to the public.

• The Members of the Board and staff personnel are not governed by a written code of conduct.

ONTARIO TELEPHONE SERVICE COMMISSION

• Any telephone system under the jurisdiction of the Commission has the standing to request relief from the Commission.

• An appearance before the commission does not constitute the practice of law.

• Normal rules of evidence determines the admissibility of evidence in proceedings.

• No limitations are placed on cross-examination of witnesses and oral argument other than the question of reasonableness.

• The OTSC meets monthly. It is at the discretion of the Commission as to whether or not meetings are open to the public and there is no public notice of upcoming sessions. Members of the OTSC and staff are not governed by a written code of conduct.

QUEBEC NATURAL GAS BOARD
(Regie du gaz naturel du Quebec)

• Parties need not be represented by attorneys, except companies, unincorporated associations and anyone who represents the interest of others or collective interest.

• Rules of evidence are those followed by the Superior Court of Quebec and, especially, the administrative tribunals of Quebec. The Board itself also determined the rules of admissibility of evidence in proceedings.

• Public notice of hearings is given. Regular meetings of the members are held.

• Members and staff are respectively governed by the rules of conduct applicable to public employees and the civil service system.

QUEBEC TELECOMMUNICATIONS BOARD
(Regie des telecommunications du Quebec)

• Anyone with a personal interest can request relief from the Board, an aggrieved subscriber or a bona fide group of subscribers. An intervenant must also have an interest but this interest is more strictly defined in the Quebec Code of Civil Procedure. The Attorney General of Quebec can always intervene. Anybody can appear to make representations before the Board.

• An appearance before the Board constitutes the practice of law. Parties need not be represented by attorneys except companies, unincorporated associations and anybody who represents the interest of others or collective interests.

• Rules of evidence are those followed by the Superior Court of Quebec and are also determined by the Rules of Practice of the Board: **Rules of Procedure Before the Regie des telecommunications, RRQ 1981, c R-8, s 2, as amended by SQ 1988, c.8, s 96.**

• Witnesses can be cross-examined on all the facts in issue. No limitation on oral argument provided the argumentation is relevant.

• Executive sessions of the controllers are not held at regular intervals. There is no advance public notice given of such sessions, only private notices. The executive sessions of the Board are not open to the public.

• Controllers, during the hearings, are governed by a Deontology Code. **Deontology Code adopted by the members of the Regie des telecommunications, File No. 20-40-32, amended by SQ 1988, c.8, s 96.**

STAFF RECRUITMENT AND JOB PROTECTION

Methods of staff recruitment by the member agencies and job protection (i.e. merit or civil service systems) for staff members are reported below.

The agencies are listed in alphabetical order with Federal agencies listed first and Canadian agencies last.

• • • • • • • • • •

FEDERAL COMMUNICATIONS COMMISSION - Most Commission employees are covered by the merit system of the Federal Government, though positions of attorney and some other positions are exempted from competitive appointment procedures by Office of Personnel Management action. Employees in the Competitive Service (merit system) positions have tenure rights pursuant to statute, Executive Orders, and Office of Personnel Management Regulations.

Selection approval for positions at the GS-14 level and above rests with the Commission and/or Managing Director. Approval authority for GS-13 positions and below rests with the Bureau/Office Chief (or their designees).

FEDERAL ENERGY REGULATORY COMMISSION - Most Commission positions are in the Competitive Service and are filled by following the competitive appointment procedures of the Office of Personnel Management. Attorney positions are in the Excepted Service and are exempted from competitive appointment procedures. Employees in the Competitive Service have tenure rights pursuant to statute, Executive Orders and the Office of Personnel Management regulations.

INTERSTATE COMMERCE COMMISSION - The Director of the Rail Services Planning Office is appointed by the Chairman of the Commission for a term of six years under the Railroad Revitalization and Regulatory Reform Act of 1976. The Director of the Office of Rail Public Counsel is appointed by the President of the United States for a term of four years under the same act. All other staff employees are selected by the Commission, appointed under US Civil Service Commission rules and regulations, and have job protection according to their status.

• • • • • • • • • •

ALABAMA PUBLIC SERVICE COMMISSION - All classified positions are filled through the State Personnel Department from available established registers. A few positions which are assigned to each Commissioner are appointed by the Commissioner and serve in unclassified positions or "exempt service" . They enjoy all the benefits of the Merit System and serve at the pleasure of the appointing Commissioner. All members of the Merit System have job protection as long as their performance is adequate.

ALASKA PUBLIC UTILITIES COMMISSION - The Executive Director is in the partially exempt service. All other staff, except counsel, are under the merit system. Counsel is provided by the Attorney General. The PUC selects all other staff.

ARIZONA CORPORATION COMMISSION - All staff members are selected by the agency or by the Commissioners. The following staff members are not covered by the merit system: Aides and Secretaries to the Commissioners, Directors of the five divisions, Assistant Securities Director, Assistant Utilities Director, Chief Hearing Officer, all attorneys in the Legal Division, Executive Secretary, Deputy Executive Secretary, Chief of Accounting Rates, Utilities Chief of Safety and Utilities Chief Engineer.

ARKANSAS PUBLIC SERVICE COMMISSION - All staff members are selected by the PSC. No merit or Civil Service systems exist for regulatory employees.

CALIFORNIA PUBLIC UTILITIES COMMISSION - Staff members are appointed under the Civil Service System with the exception of the Commission Executive Director, the General Counsel and 5 Advisors to the Commissioners, who are appointed by the Commission. Staff members have job protection afforded under the Civil Service System, assuming adequate performance.

COLORADO PUBLIC UTILITIES COMMISSION - All staff positions are filled through the services of the State Personnel Department, using a merit system.

CONNECTICUT DEPARTMENT OF PUBLIC UTILITY CONTROL - All staff members except the commissioners and the consumer counsel are selected by the DPUC through the civil service system. The DPUC also has a merit promotion plan. The Commissioners and the Consumer Counsel are appointed by the governor with the advice and consent of both houses of the General Assembly. The commissioners elect the chairperson and vice chairperson. The chairperson appoints the executive director.

DELAWARE PUBLIC SERVICE COMMISSION - The Director of the PSC is appointed by the Commissioners; the remainder of the staff is selected through civil service procedures. The State of Delaware benefits apply to all staff.

STAFF RECRUITMENT AND JOB PROTECTION

DISTRICT OF COLUMBIA PUBLIC SERVICE COMMISSION - All staff members are selected by the PSC with the exception of the three Commissioners and the People's Counsel. These individuals are selected by the Mayor and must be approved by the City Council. All staff members have job protection (civil service) assuming adequate performance is maintained.

FLORIDA PUBLIC SERVICE COMMISSION - All top-level employees, ie, Executive Director, Deputy Executive Directors, General Counsel and Division Directors are members of the Senior Management Service. Executive Assistants to the Commissioners, Executive Secretaries to the Commissioners, Attorneys, Hearing Reporters, Bureau Chiefs and Personal Secretaries to the Executive Director and his Deputies are members of the Selected Exempt Service. Members of the SMS and SES serve at the pleasure of the agency head and are subject to suspension, demotion or dismissal at the discretion of the agency head Division Directors are delegated the authority to appoint staff members who serve under the Career Service System; they can be dismissed only for cause and have appeal rights to the Public Employees' Relation Commission.

GEORGIA PUBLIC SERVICE COMMISSION - All staff members are selected by Division Directors and approved by the PSC. Not all staff members are covered by the State Merit System.

HAWAII PUBLIC UTILITIES COMMISSION - The Administrative Director, assistants to the Commissioners, and the legal counsel are appointed by the Chairman of the Commission. All other staff employees are employed through normal civil service procedures.

IDAHO PUBLIC UTILITIES COMMISSION - All staff members are selected by the PUC through Idaho Personnel Commission, except for the General Counsel and Administrator who are exempt employees.

ILLINOIS COMMERCE COMMISSION - All staff members are selected by the Illinois CC. Many of the professional staff members are not covered by the Illinois Civil Service Commission.

INDIANA UTILITY REGULATORY COMMISSION - The Commissioners and the Commission Secretary are appointed by the Governor. All other positions are appointed by the Commissioners. Staff members do not have job protection under merit civil service systems.

IOWA STATE UTILITIES BOARD - All staff members are selected by the agency, except General Counsel and Executive Secretary who are appointed by the Board Members. Staff members have job protection under the Iowa State Merit System. Legislation was enacted to permit state employees to vote for union representation and the right to collective bargaining.

IOWA DEPARTMENT OF TRANSPORTATION - All staff members are selected by the agency and are protected under the State's merit system.

KANSAS STATE CORPORATION COMMISSION - The three Commissioners are appointed by the Governor, for staggered four-year terms. General Counsel and Attorneys are appointed by the Commissioners. The Utility Division professionals are recruited and appointed by the Director of Utilities and the beginning rate of pay and any subsequent salary increases must be approved by the Governor as must all unclassified positions which include the Utilities Director and Executive Director. The Commissioners appoint the Director of Utilities and the Executive Director. The General Counsel and Attorneys appointments usually expire when a new Governor of different political affiliation takes office. The other unclassified positions, assuming adequate performance, continue indefinitely.

KENTUCKY PUBLIC SERVICE COMMISSION - Commissioners are appointed by the Governor and confirmed by the Senate. If the Senate is not in session when a term expires or a vacancy occurs, the Governor makes an appointment, effective immediately, subject only to the approval of the joint interim committee on state government of the legislative research commission. Secretaries to the Commissioners are appointed by the Commissioners and are not protected by any merit system.

Executive Director of the Commission is appointed by the Commission, subject to the approval of the Governor. Secretary to the Executive Director is appointed by the Executive Director, subject to the Commission. The Executive Director and his secretary are not protected by any merit system.

Division Directors are appointed by the Commission, through the Executive Director, with the prior approval of the Governor. Attorneys are appointed by the Commission, through the Executive Director, with the prior approval of the Governor. Directors and the General Counsel are not protected by any merit system. The secretary to the General Counsel is not protected by any merit system; Secretaries to the Division Directors are protected by a merit system. All other personnel are protected by a merit system.

STAFF RECRUITMENT AND JOB PROTECTION

KENTUCKY RAILROAD COMMISSION - All staff members are selected by the Commission and a merit system is provided.

KENTUCKY TRANSPORTATION CABINET - Non-merit employees are appointed by the Office of the Secretary and serve at its pleasure. Merit employees are employed and serve under the state merit system guidelines.

LOUISIANA PUBLIC SERVICE COMMISSION - Unclassified staff members are appointed by the Commission and serve at its pleasure. Classified staff members are covered by the merit system.

MAINE PUBLIC UTILITIES COMMISSION - The Administrative Director, Assistant Administrative Director, Director of Technical Analysis, General Counsel, Director of Finance, Director of Consumer Assistance Division and Assistant to the Director of Consumer Assistance Division are not protected by the civil service system, as they are appointed by the Commission. All other employees have civil service status, appointed pursuant to Maine Personnel Law.

MARYLAND PUBLIC SERVICE COMMISSION - All staff personnel are selected by the PSC and most are protected by the State Merit System. The Commissioners and People's Counsel are selected by the Governor.

MASSACHUSETTS DEPARTMENT OF PUBLIC UTILITIES - Commission, most management and Counsel positions are non-civil service positions. All other staff positions are under the jurisdiction of the Bureau of Personnel and follow civil service requirements, such as receiving permanence upon taking an examination. The DPU is required to select one out of the three highest individuals who appear and are willing to accept the position.

If there is not a current certified list for a particular position, the DPU may provisionally appoint an individual who can remain in the position until a list is certified upon an examination being held for the particular position.

MICHIGAN DEPARTMENT OF TRANSPORTATION - All positions in state service are under classified state civil service except those filled by popular elections, heads of principal departments, courts of record, employees of the legislature, boards and commissioners. All civil service positions have job protection assuming adequate performance following a probationary test period. Director of Michigan DOT and Deputy Director of Bureau of Urban and Public Transportation are appointed by the Governor.

MICHIGAN PUBLIC SERVICE COMMISSION - All staff are selected by the agency in accordance with civil service rules. All staff also have job protection after a six-month probation and assuming continuing performance. Legal counsel is provided by the State Attorney General.

MINNESOTA DEPARTMENT OF PUBLIC SERVICE - Department Commissioner is appointed by the Governor subject to confirmation by the State Senate. The Deputy Commissioner is appointed by the Commissioner. Counsel to the Department is appointed by the Attorney General. The remainder of the Department staff is selected through the State civil service system. A six-month probationary period is required prior to permanent certification.

MINNESOTA DEPARTMENT OF TRANSPORTATION - Commissioner of transportation is appointed by the governor; The staff is selected and protected through the civil service system.

MINNESOTA PUBLIC UTILITIES COMMISSION - One position, Executive Secretary, is authorized by statute. The Commission shall appoint that position to be in the unclassified service of the state and to serve at the pleasure of the Commission. Counsel is assigned by the Attorney General of Minnesota. The remainder of the staff is selected through civil service procedures. Civil Service employees serve a six-month probationary period before they are appointed permanently.

MISSISSIPPI PUBLIC SERVICE COMMISSION - State service personnel are selected by the PSC and the State Personnel Board and have job protection. Non-state service personnel are selected by the PSC and serve at its pleasure.

MISSOURI DIVISION OF TRANSPORTATION AND PUBLIC SERVICE COMMISSION - All staff members are selected by the agencies, which do not have merit or civil service systems.

MONTANA PUBLIC SERVICE COMMISSION - The Commission has final approval of all staff selected for employment.

NEBRASKA PUBLIC SERVICE COMMISSION - All staff members are selected by the PSC. There is job protection for adequate performance; however, staff personnel are not under a merit or civil service system. Decisions are based on PSC discretion in the personnel area.

NEVADA PUBLIC SERVICE COMMISSION - Professional positions on the commission are unclassified and an individual's job

security, as in non-union jobs in the private sector, depends on performance. All clerical positions are classified positions, as are consumer division representatives and transportation inspectors. Classified hiring must be done through State Personnel. Members of staff are hired by the Director of Regulatory Operations. Department heads are approved by the Commission. The unclassified positions on the policy site are approved by the Commission. Commissioners are selected by the Governor.

NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION - All staff members are classified State employees under the civil service system.

NEW JERSEY BOARD OF PUBLIC UTILITIES - All staff are selected by the President of the Board. The Secretary to the Board, Assistant Secretaries, the Chief Economist, Director, Office of Cable Television, Director of Administration, Secretary to the Commissioner, Executive Officer and two aides to the Commissioners are unclassified, i.e., do not have Civil Service status or protection. The remainder of the Board's employees are covered by the State Civil Service law.

NEW MEXICO PUBLIC SERVICE COMMISSION - All staff members are selected by the PSC and have job protection under the State Personnel Merit System.

NEW MEXICO STATE CORPORATION COMMISSION - Department directors and other key personnel are selected by the SCC. Clerical employees have job protection under the State Personnel Act (merit system).

NEW YORK PUBLIC SERVICE COMMISSION - The Chairman and other members of the Commission are appointed by the Governor and confirmed by the State Senate for six year terms. Division and Office Heads and professional staff members of the Offices of General Counsel, Administrative Law Judges, and Opinions and Review, serve at the pleasure of the Chairman. All other employees have normal civil service protection.

NEW YORK STATE DEPARTMENT OF TRANSPORTATION - Staff members are selected by the agency, most coming from civil service eligibility rosters. Assistant commissioners serve at the pleasure of the commissioner and therefore have no civil service protection. Generally, positions below the assistant commissioner level are civil service classified and carry civil service protection.

NORTH CAROLINA UTILITIES COMMISSION - Commission Staff: All staff members are selected by Division heads with approval by the Commissioners. Public Staff: All staff members are selected by Division heads with the approval of the Executive Director. All staff members are covered by the State Personnel Act which establishes procedures for continuation of employment.

NORTH DAKOTA PUBLIC SERVICE COMMISSION - All staff members are selected by the three commissioners. The Traffic Director must be a member of the Interstate Commerce Commission Bar and skilled in the presentation of oral arguments before that body. An Assistant Attorney General, on a full-time basis to the PSC, bears the title of Commerce Counsel and must be a specialist in utility, transportation and other administrative law. The PSC is not under a merit or civil service system.

OHIO PUBLIC UTILITIES COMMISSION - The Chairman and Commissioners are appointed by the Governor and confirmed by the State Senate for five-year terms. Counsel is provided and appointed by the Attorney General of Ohio. Commission employees are appointed by the Commission and all are covered by classified civil service status, with the exception of Attorney Examiners, supervisory policy-making positions, and the Commissioners' direct staff.

OKLAHOMA CORPORATION COMMISSION - All staff members are selected by the Corporation Commission. Unclassified employees, such as division directors, managers, attorneys, engineers, etc. do not have job protection, classified employees are protected under the Merit System.

OREGON PUBLIC UTILITY COMMISSION - The Commissioner positions are filled by appointments made by the Governor. The Commission's management team consists of the Agency Executive, one Assistant Commissioner from each of the five major divisions of the agency, and three Program Managers. These employees are appointed by the Commission as unclassified Executive Service employees, and serve at the pleasure of the Commission. They do not have merit system protection unless they have prior service in the classified or management service categories.

There are two other categories of employees at the PUC. The management service category is composed of 111 employees who are excluded from the provisions of the collective bargaining agreement because they are either supervisors or are confidential employees by virtue of their involvement in management's interests in collective bargaining. There are personnel laws, policies, and procedures for this group and these are based on merit principles.

The other category is the representable unit, the largest category of staff members with approximately 296 employees. After initial hire, all conditions of employment (working conditions, salary, fringe benefits, etc.) are governed by the state Executive

STAFF RECRUITMENT AND JOB PROTECTION

Department Personnel and Labor Relations Division and PUC agency personnel rules and policies. This unit is eligible to be represented by a union, but has chosen to be unrepresented at this time.

PENNSYLVANIA PUBLIC UTILITY COMMISSION - **Selection.** All employees are interviewed and screened by the appropriate program manager. Recommendations for appointment are made to the Commission in Public Meeting. A majority vote is required for placement. **Job Protection.** "...That the employees of the Commission shall be afforded employment security as provided by the Act of August 5, 1941, known as the Civil Service Act..." Act 216 §6.1(a). Bureau Directors are excluded from Civil Service coverage and serve "at will".

PUERTO RICO PUBLIC SERVICE COMMISSION - All staff are selected by the PSC and all belong to the Civil Service System.

RHODE ISLAND PUBLIC UTILITIES COMMISSION - Some staff members are selected by the PUC and some are selected by the Governor. There is job protection under the merit system law.

SOUTH CAROLINA PUBLIC SERVICE COMMISSION - The PSC Legal Counsel is appointed by the Commission with the approval of the Attorney General. All staff members have job protection under the merit system, assuming adequate performance.

SOUTH DAKOTA PUBLIC UTILITIES COMMISSION - All staff members are exempt from the career service system and have no job protection, except that the PUC itself has adopted a Personnel Policy that affords adequate notice of unsatisfactory performance and a grievance procedure to the full Commission.

TENNESSEE PUBLIC SERVICE COMMISSION - All staff members are selected by the Commissioners.

TEXAS PUBLIC UTILITY COMMISSION - All staff members are selected by existing PUC staff and commissioners. Three Commissioners are appointed to six year terms by the Governor. The Commission does not function under merit or civil service systems.

TEXAS RAILROAD COMMISSION - All staff members are recruited and selected by the existing Commission staff. Employees do not function under a civil service system.

UTAH PUBLIC SERVICE COMMISSION - The staff of the Public Service Commission, except for secretarial and clerical personnel, serve at the pleasure of the Commission and are exempt under the State Personnel Management Act. The staff of the Division of Public Utilities (DPU) are hired by the Director of the DPU. The Director of the DPU is appointed by the Executive Director of the Department of Business Regulation.

VERMONT PUBLIC SERVICE BOARD - All staff members have job protection except for appointed members, who are exempt.

VIRGIN ISLANDS PUBLIC SERVICES COMMISSION - The Executive Director is selected by the PSC and approved by the Governor and by the Virgin Islands Legislature. He or she may choose the office secretary. Both positions are "unclassified" with no civil service or merit job protection. The Executive Director serves at the pleasure of the governor, the office secretary at the pleasure of the Executive Director.

VIRGINIA STATE CORPORATION COMMISSION - All staff members are selected by the Commission. All staff members have job protection assuming adequate performance.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION - Commissioners are appointed by the Governor and confirmed by the Senate for alternating six-year terms. Commissioners select the eight exempt and 224 covered staff. Covered staff have job protection under provisions of the civil service law and Merit System Rules adopted by the State Personnel Board.

On the Organization Chart the Assistant Attorneys General, the Administrative Law Judges and the Librarian are shown with hyphenated lines. The employees in these sections are actually employed by other agencies. The are appointed by and employed by the Attorney General's Office, the Office of Administrative Hearings and the State Library. The Assistant Attorneys General and the Librarian are physically located and work in the Commission's building along with other headquarters staff.

WEST VIRGINIA PUBLIC SERVICE COMMISSION - All staff members of the Commission are covered by the civil service system. An exception to this, however, occurs with the immediate personal staff of the Commissioners and the Executive Director. Each Commissioner has a secretary who is not covered by the civil service system.

WISCONSIN COMMISSIONER OF TRANSPORTATION - All staff positions are civil service.

STAFF RECRUITMENT AND JOB PROTECTION

WISCONSIN PUBLIC SERVICE COMMISSION - Staff members are selected by the PSC and are under civil service. Division Administrators are unclassified and appointed by the Commission.

WYOMING PUBLIC SERVICE COMMISSION - All staff members are selected by the PSC with the assistance of the Personnel Division of the Department of Administration and Fiscal Control. The Commission's hiring decisions are its alone. A computer-assisted performance evaluation program has been instituted and will be implemented beginning July 1, 1989.

CANADIAN AGENCIES

CANADIAN RADIO-TELEVISION AND TELECOMMUNICATIONS COMMISSION - All staff members are selected by the agency. All staff employees are members of the Canadian Public Service. Conditions of employment are governed by the Public Service Staff Relations Act.

NATIONAL ENERGY BOARD (CANADA) - Board members are appointed by Order in Council, ie, by the Federal Cabinet. Staff are appointed under the federal Public Service Employment Act and are part of the federal civil service. Conditions of employment are governed by the collective agreements under the Public Service Staff Relations Act or compensation plans for unrepresented employees.

ALBERTA PETROLEUM MARKETING COMMISSION - Except for the Commissioners, all staff are recruited by the Commission. Commission staff are not members of the provincial civil service employees union and have no special entitlements to job protection.

ALBERTA PUBLIC UTILITIES BOARD - Board members are appointed by the Lieutenant Governor in Council (the Provincial Cabinet) and all staff members are recruited under the terms of the Public Service Act. Provision exists in the Public Utilities Board Act for appointment of project consultants with expertise as required at the discretion of the Board Chairman.

BRITISH COLUMBIA UTILITIES COMMISSION - Staff are engaged by the Commission through the Director of Personnel, subject to confirmation of the Chairman. While the Commission functions through the Ministry of Energy, Mines and Petroleum Resources, staff are not members of the British Columbia Government Employees' Union (BCGEU), although they enjoy most employment related benefits available to BCGEU members. Job protection for staff is subject to adequate employee performance.

NEWFOUNDLAND AND LABRADOR BOARD OF COMMISSIONERS OF PUBLIC UTILITIES - Board members and Clerk appointed by Lieutenant-Governor in Council (Cabinet). All other staff recruited by Board and employee rights, including job protection, though not negotiated are generally in accordance with the Civil Service System.

NOVA SCOTIA BOARD OF COMMISSIONERS OF PUBLIC UTILITIES - All staff members are selected by the Board with the exception of the Solicitor, who is named by the Attorney General.

ONTARIO ENERGY BOARD - Board Members are appointed by Order in Council, i.e., by Cabinet of Ministers. Staff are appointed under the provisions of the Public Service Act of the Ontario Civil Service Commission with appropriate job protection and merit systems. The Board Solicitor is seconded from the Ministry of Attorney General.

ONTARIO TELEPHONE SERVICE COMMISSION - Commission staff are appointed by the Commission with approval from the Lieutenant Governor in Council and all staff members have job protection assuming adequate performance.

QUEBEC NATURAL GAS BOARD - All permanent staff members are recruited through and have job protection under the Civil Service System.

QUEBEC TELECOMMUNICATIONS BOARD - All permanent staff is recruited through the civil service system. Occasional staff is recruited by the Board but the appointment must be approved by the Quebec Treasury Board. Permanent staff have job protection under the civil service system.

AGENCY FRINGE BENEFITS

Fringe benefits and emoluments applicable to commissioners and staff members are summarized alphabetically in the following pages with Federal agencies listed first and Canadian agencies last.

The benefits include: Annual Leave; Automobiles, Travel Expenses, Parking; Disability Insurance; Health/ Medical and Hospitalization Insurance; Holidays; Life Insurance; Retirement; Sick Leave; Social Security and Workers' Compensation; and Other Benefits.

ANNUAL LEAVE

FCC. Commission employees are eligible for annual leave benefits available to all Federal employees.

FERC. Annual leave accrued based upon years of service; first three years, 13 days per year; next 12 years, 20 days per year; thereafter, 26 days per year. Up to 30 days unused annual leave may be carried forward from year to year.

ICC. Commission employees are entitled to annual leave benefits as prescribed by law (see 5 U.S.C. 6301).

ALABAMA PSC. Employees in permanent positions earn annual leave with pay on the basis of biweekly pay periods. Annual leave accrual ranges from 4-9 hours per biweekly period depending on years of service. Maximum accumulation is 60 days. At separation employee is paid for accumulated annual leave up to 60 days.

ALASKA PUC. Up to two years of service, fifteen days; two to five years, 21 days; five to ten years, 24 days; ten years or more, 30 days.

ARIZONA CC. Annual leave is based upon monthly accrual by years of service in State government: ranges from 8 hours to 14 hours per month.

ARKANSAS PSC. Annual leave is accrued at a rate of one day per month for the first three years and is graduated upward thereafter based on years of service. Thirty days annual leave is the maximum which can be carried over from one calendar year to another.

CALIFORNIA PUC. After completing six months of continuous service, an employee is entitled to use accrued vacation credits. For most employees these credits range from seven hours per pay period for an employee with less than three years of service; up to 14 hours per pay period for 20 years or more of State service. All full-time employees also receive eight hours of personal holiday credit as well as credit for holidays that fall on a Saturday. Managers earn up to 15 hours after 20 years.

COLORADO PUC. Vacation based on monthly accrual by years; 1-5 years, 8 hours per month; 6-10 years, 10 hours per month; 11-15 years, 12 hours per month; 16 plus years, 14 hours per month.

CONNECTICUT DPUC. First five years, 1 day/month; 5-20 years, 1-1/4 days/month; over 20 years, 1-2/3 days/ month.

DELAWARE PSC. Annual leave is accrued each month: 1-10 years, 1.25 days; 10-15 years, 1.5 days; 15 and over, 1.75 days. Though accruing, employees usually may not take paid annual leave before completing six months of service. Vacation credit carried into a new calendar year may not exceed twice the employee's annual accrual rate. Except at termination, payment for unused leave is not authorized.

DC PSC. Vacation earned by staff depends upon length of service: 1-3 years, 4 hours every two weeks; 3-15 years, 6 hours every two weeks; more than 15 years, 8 hours every two weeks. The three Commissioners and the People's Counsel are not granted leave on the basis of length of service. It is entirely an individual decision, but generally they follow the same guidelines as other staff members.

FLORIDA PSC. Career Service employees earn vacation leave monthly, depending on length of service: 0-5 years of employment, 8.667 hours; 5-10, 10.833 hours; 10 plus years, 13 hours. Vacation leave may be taken each year as it is earned, pending supervisory approval, or may be left to accumulate. However, no more than 240 hours (30 days) may be carried from one calendar year to another. In addition to flexible scheduling of vacation leave, an employee who terminates employment with the State and has at least six months' service shall be paid for all unused vacation leave credits up to 240 hours. Senior Managers and Selected Exempt employees annually earn 240 hours and 176 hours, respectively, and may accumulate 480 hours.

GEORGIA PSC. Each employee receives 1.25 days per month of annual leave. Annual leave increases to 1.5 days per month after five years and to 1.75 per month after ten years which is the maximum rate.

AGENCY FRINGE BENEFITS

ANNUAL LEAVE
(Continued)

HAWAII PUC. Twenty-one working days annual leave per year are granted to Commissioners and staff members.

IDAHO PUC. Up to five years, approximately one day per month; 5-10 years, approximately 1.25 days per month; 10-15 years, approximately 1.5 days per month; over 15 years, approximately 1.75 days per month (based on hours worked).

ILLINOIS CC. Vacation leave accrues at 10 days for 1-5 years, 15 days for 6-9 years, 17 days for 10-14 years, 20 days for 14-19 years, 22 days for 19-25 years, and 25 days after 25 years of service.

INDIANA URC. Effective immediately upon employment each employee earns vacation leave at the rate of one day for each full month of service and personal leave at the rate of one day per every four months of continuous employment. Additional vacation days accrue to employees based upon longevity after five years of service.

IOWA DOT & SUB. An employee accrues two weeks vacation per year during the 1st through the 4th year of employment; three weeks per year during the 5th through the 11th year; four weeks per year during the 12th through the 19th years; four weeks, two days per year during the 20th through the 24th years; five weeks vacation per year during the 25th and subsequent years.

KANSAS SCC. 1-5 years service earns 8 hours per month; 5-10 years earns 10 hours per month; 10-15 years earns 12 hours per month; fifteen years and more service earns 14 hours each month.

KENTUCKY PSC, RC AND TRANSPORTATION CABINET. Vacation leave is earned, per month worked, as follows: 0-5 years, 1 day; 5-10 years, 1.25 days; 10-15 years, 1.5 days; 15 years and over, 1.75 days.

LOUISIANA PSC. Annual leave earned on length of service; 0-3 years, 12 days/year; 3-5 years, 15 days/ year; 5-10 years, 18 days/year; 10-15 years, 21 days/year; 15 years or more, 24 days/year.

MAINE PUC. Vacation leave is earned, per month worked: 0-5 years, 1 day; 5-10 years, 1.25 days; 10-15 years, 1.5 days; 15 years, 1.75 days; 20 years and over, 2 days.

MARYLAND PSC. Vacation leave is accrued at 10 days for 1-5 years; 15 days for 6-10 years; 20 days for 11-20 years; and 25 days after 21 years. Leave cannot be accumulated in excess of 45 days at the end of the calendar year. Payment for unused leave is made only at termination.

MASSACHUSETTS DPU. Service of less than one year earns one day per month, but not exceeding 10 days; service for 1 year but less than 4.5 years earns 10 days; service for more than 4.5 but less than 9.5 years earns 15 days; 9.5 but less than 19.5 earns 20 days; over 19.5 years earns 25 days. Three days of personal leave is granted per fiscal year--lost if not taken by the following June 30.

MICHIGAN DOT & PSC. Thirteen days annual leave plus two personal leave days; two additional days for each five years service.

MINNESOTA DOT. First four years, 4 hours per 2 weeks; 5-8 years, 5 hours per 2 weeks; 8-12 years, 7 hours; 12-20 years, 7.5 hours; 20-25 years, 8 hours; 25-30 years, 8.5 hours; after 30 years, 9 hours per 2 weeks. Maximum accrual 260 hours. Managers and commissioners accrue leave at a slightly different rate.

MINNESOTA DPS, PUC & TRB. First 5 years, 4 hours per 2 weeks; 5-8 years, 5 hours per 2 weeks; after 12 years, 7 hours; after 20 years, 7.5 hours; after 25 years, 8 hours; maximum accrual 260 hours. Managers and Commissioners accrue annual leave at a slightly different rate.

MISSISSIPPI PSC. Personal leave is earned, per month worked: 1 month to 3 years, 37 months to 8 years, 12 hours per month, 18 days per year; 37 months to 8 years, 14 hours per month, 21 days per year; 97 months to 15 years, 16 hours per month, 24 days per year; over 15 years, 18 hours per month, 27 days per year. Personal leave may be used for vacations, personal business or for illness requiring one day or less.

MISSOURI DOT & PSC. 0-10 years of service, vacation is earned at 1.25 days a month, 15 days a year; over 10 years of service, 1.5 days a month, 18 days a year; over 15 years, 1.75 days a month, 21 days a year. Maximum accrual is twice the annual accrual.

MONTANA PSC. Each employee accrues 15 days annual leave per year for the first 10 years; 18 days for the next five years; 21 days for the next five; then 24 days for all over 20 years of service. Each employee is allowed to carry over from one year to the

next double what they would normally earn for one year. Annual leave credits are payable in full upon retirement or termination of employment at the employee's current salary.

NEBRASKA PSC. The PSC on March 18, 1974, adopted rules and regulations covering vacation and sick leave for its employees. Vacation leave is earned at the rate of 96 hours per year for the first five years of employment and progressively increases to 200 hours per year at the 16th year of continuous employment. Employees who work more than 20, but less than 40, hours a week are entitled to vacation and sick leave proportionate to their regular work week.

NEVADA PSC. Six months of service, 7.5 days; 10 years service, 18 days; 15 years service, 21 days. Accumulated amount over 30 days is forfeited each year.

NEW HAMPSHIRE PUC. 0-1 year, 12 annual leave days upon completion of 1 year's service; 2-8 years, 15 days annually; 9-15 years, 18 days annually; 16-20 years, 21 days annually, 21 years plus, 24 days annually.

NEW JERSEY BPU AND DOT. During the first calendar year of service, an employee receives one vacation day for each month of service. Thereafter, an employee receives 12 days vacation for up to five years service; 15 days vacation for up to 12 years service; 20 days vacation for up to 20 years service and 25 days vacation for over 20 years service. Vacation credit may be carried over for one year only. Employees receive three days personal leave for observance of religious holidays, emergencies, personal business, etc. This leave may not be accumulated from year to year.

NEW MEXICO PSC AND SCC. Vacation time is accumulated at the rate of one and one-fourth day per month; any excess over 30 days must be used by the end of a calendar year or lost. On termination an employee is paid for vacation time. In addition to the above, one personal holiday is granted each calendar year.

NEW YORK PSC AND DOT. Thirteen days per year plus one additional day for each year of service up to the completion of seven years at which time employees earn 20 days per year; maximum accumulation - 40 days; 30 days payable in cash at time of separation from employment. Personal leave: five or three days per year, dependent upon negotiating unit and anniversary date.

NORTH CAROLINA UC. Each employee earns vacation leave based on years of state employment as follows:

YEARS OF SERVICE	MONTHLY ACCUMULATION RATE	ANNUAL ACCUMULATION RATE
Less than 2 yrs.	7 hrs. 50 min.	94 hours
2 yrs. - 4 yrs. 11 mos.	9 hrs. 10 min.	110 hours
5 yrs. - 9 yrs. 11 mos.	11 hrs. 10 min.	134 hours
10 yrs. - 14 yrs. 11 mos.	13 hrs. 10 min.	158 hours
15 yrs. - 19 yrs. 11 mos.	15 hrs. 10 min.	182 hours
20 yrs. or more	17 hrs. 10 min.	206 hours

At the end of any year no more than 240 hours may be carried over to the following year.

NORTH DAKOTA PSC. **Vacation allowance** (regular employees only) based on a 40-hour week: 1-3 years, 1 day per month; 4-7 years, 1.25 days per month; 8-12 years, 1.5 days per month; 13-18 years, 1.75 days per month; over 18 years, 2 days per month.

OHIO PUC. All full-time permanent employees will be accredited with 24 hours of personal leave as of December 1st of each year. Part-time or temporary employees are not eligible for personal leave. New employees appointed after December 1st of each year will be credited with 24 hours of personal leave minus nine-tenths (0.9) of an hour for each pay period which has elapsed since December 1st. Vacation leave is earned at a rate of 2 weeks per year after 1 year of continuous employment. Prior State service or prior governmental unit service is credited towards the year. Vacation leave increases with longevity to maximum of 5 weeks per year of service after 25 years. Part-time employees are not eligible for vacation leave. (Subject to change due to ongoing contract negotiations.)

OKLAHOMA CC. Persons employed July 1, 1985 or after:

	Earnings	Accumulation Limit
Less than 5 years	15 days/year	30 days
5-10 years	15 days/year	45 days

AGENCY FRINGE BENEFITS

10-20 years	17 days/year	45 days
10 years or more	20 days/year	45 days

Persons employed before July 1, 1985:

	Earnings	Accumulation Limit
Less than 5 years	15 days/year	30 days
5-20 years	18 days/year	60 days
20 years or more	20 days/year	60 days

OREGON PUC. Vacation leave is accumulated by new employees during their initial six months service but they may not use it during this time. If they terminate during the initial six months, they lose the credits. The amount of vacation leave accrued increases every five years: 0-5 years, 8 hours per month; 5-10 years, 10 hours per month; 10-15 years, 12 hours; 15-20, 14 hours; 20+ years, 16 hours. Employees may accumulate a maximum of 250 hours. Part-time employees earn a prorated amount of vacation leave credits based on the number of hours worked.

PENNSYLVANIA PUC. Annual Leave - 45 days maximum accumulation; - Payment for unused leave at termination.
Annual Earning Rate:

Employees beginning employment before July 1, 1985
- Up to 1 year service (4% of regular hours paid) - 10.4 days
- More than 1 through 15 years (6% of regular hours paid) - 15.6 days
- More than 15 through 25 years (8% of regular hours paid) - 20.8 days
- More than 25 years (10% of regular hours paid) - 26.0 days

Employees beginning employment on or after July 1, 1985
- Up to 1 year service (2% of regular hours paid) - 5.2 days
- More than 1 through 7 years (4% of regular hours paid) - 10.4 days
- More than 7 through 15 years (6% of regular hours paid) - 15.6 days
- More than 15 years (8% of regular hours paid) - 20.8 days

No carry over from one year to next. Payment for unused earned leave at termination.

- Employees beginning employment before July 1, 1985 earn 5 days/year. One day is earned in each quarter with two days earned in the third quarter.
- Employees beginning employment on or after July 1, 1985 earn 3 days/year. One day is earned in each 1/3 year.

PUERTO RICO PSC. 2.5 days per month; maximum accrual of 60 days at end of year.

RHODE ISLAND PUC. Employees hired prior to 12/28/80: 0-10 years, 15 days; 10-15 years, 18 days; 15-20 years, 20 days; 20-25 years, 26 days; over 25 years, 28 days. Employees hired on or after 12/28/80: 0-5 years, 10 days; 5-10 years 15 days; 10-15 years, 18 days; 15-20 years, 20 days; 20-25 years, 26 days; over 25 years, 28 days.

SOUTH CAROLINA PSC. For less than 10 years, 15 days per year; for each additional year, add 1.25 days per year, not to exceed 30 days total. Maximum carry over is 45 days.

SOUTH DAKOTA PUC. 4.6154 hours every two weeks, for 15 days per year; after 15 years service - 20 days per year; accrual of 30 days.

TENNESSEE PSC

Maximum Annual Accrual Rates	Years of Service
30 days = 225 hrs.	less than 5
36 days = 270 hrs.	5-10
39 days = 292.5 hrs.	10-20
42 days = 315 hrs.	over 20

TEXAS PUC AND RC. Each employee earns vacation leave based on total State employment as follows:

Employees with Total State Employment of:	Hours Accrued per Month	Maximum Hours to be Carried Forward from One Fiscal Year to the Next
0 but less than 2 years	7	208

AGENCY FRINGE BENEFITS

ANNUAL LEAVE
(Continued)

2 but less than 5 years	8	232
5 but less than 10 years	9	256
10 but less than 15 years	10	280
15 but less than 20 years	12	328
20 years and over	14	376

An employee will earn vacation entitlement beginning on the first day of employment with the State and terminate on the last day of duty. Vacation with pay may not be granted until the employee has had continuous employment with the State for six months, although credit will be accrued during that period.

UTAH PSC. From one month to 5 years of full-time continuous employment, 4 hours per two-week period or 13 days per year. 5-10 years, 5 hours per two-week pay period or 16.25 days per year. Over ten years, 6 hours per two-week pay period or 19.5 days per year. A maximum of forty days may be carried from one calendar year to the next.

VERMONT PSB. Up to 5 years, one day each month; 5-10 years, 1.25 days each month; 10-15 years, 1.5 days each month; 15-20, 1.66 days; 20-30 years, 1.75 days; 30 and over, two days each month.

VIRGIN ISLANDS PSC. **Vacation**: 1-3 years service, 13 days; 3-15 years, 20 days; over 15 years, 26 days. **Military**: Leave with pay for mandatory attendance at annual reserve summer training encampment; eave without pay for service in the U.S. Armed Forces. **Jury**: Leave with pay. **Maternity**: Leave up to eight months with such leave first chargeable to accumulated sick leave, then to accumulated vacation leave, then to leave without pay. **Other**: Leave without pay, up to one year. Study leave may be granted up to one year with pay.

VIRGINIA SCC. Probationary and permanent employees are credited with annual (vacation) leave for each month of service as follows: Eight hours (1 work day) for employees with less than five years service, maximum accumulation 192 hours (24 work days); ten hours (1.25 work days) for employees with 5 to 10 years service, maximum accumulation 240 hours (30 work days); twelve hours (1.5 days) for employees with 10-20 years service, maximum accumulation 288 hours (36 work days); fourteen hours (1.75 work days) for employees with more than 20 years service, maximum accumulation 336 hours. Vacations are usually authorized at the request of the employee when the public service will not be unduly impaired. An employee leaving the Commonwealth service is paid for each hour of unused annual leave, up to the maximum indicated.

WASHINGTON UTC. Vacation credit is allowed at a graduated rate from 12 to 22 days per year according to length of service, with maximum credit accruing after 16 years of service.

WEST VIRGINIA PSC. Vacation leave granted: 0-5 years, 1.25 days per month; 5-10 years, 1.5 days per month; 10-15 years, 1.75 days per month; over 15 years, 2 days per month. Thirty-forty days of annual leave may be carried over to the following year depending upon length of service.

WISCONSIN COT, DOT. 1-5 years, 80 hours; 5-10 years, 120 hours; 10-15 years, 136 hours; 15-20 years, 160 hours; 20-25 years, 176 hours; and 25 years plus, 200 hours.

WISCONSIN PSC. For regular, classified employees: 1-5 years, 80 hours; 5-10 years, 120 hours; 10-15 years, 136 hours; 15-20 years, 160 hours; 20-25 years, 176 hours; and 25 years plus, 200 hours.

For career executive and unclassified employees: 1-5 years, 120 hours; 5-10 years, 160 hours; 10-15, 176 hours; 15-20 years, 200 hours; and 20 years plus, 216 hours.

WYOMING PSC. Vacation leave granted: 0-4 years continuous service, one day per month; 5-9 years, 1.25 days per month; 10-14 years, 1.5 days per month; 15-19 years, 1.75 days per month; 20 years service, 2 days per month.

AGENCY FRINGE BENEFITS

CANADIAN AGENCIES

CANADIAN RTC. Fifteen days annual leave; after 9 years service--20 days; after 20 years--25 days. This varies to some degree depending on particular collective agreement.

NATIONAL ENERGY BOARD. Fifteen days annual leave: 20 days annual leave after 8 years service; 25 days after 19 years; 30 days after 30 years. Numbers vary to some degree depending on particular collective agreements and job level.

ALBERTA PMC. Employees are entitled to three weeks leave after one year's service, which increases to four weeks after eight years and five weeks after 18 years.

ALBERTA PUB. After 8 continuous years of service, an employee is entitled to 20 work days of vacation. After 18 years, the entitlement increases to 25 work days. In addition, management employees are granted a vacation supplement. The vacation supplement is earned at the rate of 5/12ths of a day for each full calendar month of employment.

BRITISH COLUMBIA UC. Annual leave benefits are available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU. Up to 10 years, 1-1/4 days per month; from 10 to 25 years, 20 days; in excess of 25 years, 25 days. For Commissioners, the only variance is that their initial entitlement is 20 days.

NOVA SCOTIA ECPU. Between 10 and 25 days vacation, depending on years of service. In addition, employees receive 10 statutory holidays per year.

ONTARIO EB. Vacation entitlement based on 36.25 hour work week: 1.25 days/month during years 1-8; 1.66 days/month during years 8-16; 2.12 days/month during years 16-29; 2.5 days/month after 29 years continuous service.

ONTARIO TSC. Fifteen days per year.

QUEBEC NGB. For Commissioners - 20 working days. For permanent staff - 20 to 25 days, based on length of service, beginning after one year.

QUEBEC TB. For Controllers 25 days leave; 20 days after one year service for staff members; 21 days after 17 years; 22 after 19; 23 after 21; 24 after 23; 25 after 25.

AUTOMOBILES, TRAVEL EXPENSES, PARKING

FCC. Travel expenses incurred while on official business are reimbursed under General Service Administration travel regulations.

FERC. Travel expenses incurred while on official business are reimbursed under General Service Administration travel regulations.

ICC. Travel expenses incurred while on official business are reimbursed under General Service Administration travel regulations.

ALABAMA PSC. The Public Service Commission provides an automobile to each of the three elected officials, and the enforcement, railway safety, gas pipeline safety and auditing divisions. A motor pool is maintained for use by other members of the staff. **In-State:** Employees whose duties necessitate travel within the State of Alabama are allowed per diem depending upon the number of hours away from base. The over-night travel allowance is $40 for each day away from base. **Out-of-State:** If any employee travels outside of the State, he is reimbursed for actual expenses he incurs for himself in the line of duty.

ALASKA PUC. Per diem rates are set at different base rates for the different areas in the States, ranging from $80 to $95 per day. For Alaska PUC parking is provided for senior management, ie, commissioners, Executive Director and State attorneys.

ARIZONA CC. Travel expenses incurred while on official business are reimbursed according to Division of Finance regulations. Parking is free.

ARKANSAS PSC. State-owned vehicles are available for official business use by the Commissioners and staff. Employees are reimbursed for travel (actual expenses) at the per diem rate of up to $50 (in-state), $60 (out of state) or $65 (cities that are 2.5 million and above in population). Free parking is provided for all employees.

CALIFORNIA PUC. State automobiles may be permanently assigned to Commissioners and as required to staff members. All travel and subsistence expenses necessarily incurred in the performance of the job are reimbursed. Free parking facilities are provided for assigned state cars only.

COLORADO PUC. Commission provides automobiles for official business. Travel expenses incurred while on such business are reimbursed pursuant to fiscal rules.

CONNECTICUT DPUC. Travel expenses incurred while on official business are reimbursed. Free parking is available.

DELAWARE PSC. To the extent funds permit, Commissioners and staff members are supported for travel that is professionally and institutionally justifiable provided such expenses meet the conditions of the Commission and Staff Travel Policy.

D.C. PSC. Travel expense allowances are granted upon approval by the District of Columbia City Council and Congress as part of the overall appropriated budget of the Commission. State automobiles or local subway farecards are available by all employees of the Commission to travel between various District agencies. Free parking facilities are not available to members of the Commission's staff. Local travel expenses, including parking for official business are, however, reimbursable.

FLORIDA PSC. Employees are reimbursed for travel at the rate of $50 per diem, or actual lodging cost plus $21 per day for meals. State cars are assigned to those employees whose jobs require extensive travel and who generally carry materials or equipment with them in the performance of their duties. State pool cars are also available on a first-come, first-served basis. If no State cars are available, employees may use their personal vehicle, and are reimbursed at the rate of 20 cents per mile. Free parking is available on a first-come, first-served basis. Reserved parking is available at a minimal monthly rate.

GEORGIA PSC. Employees are reimbursed for actual and necessary expenses incurred while travelling on PSC business. The State Department of Administrative Services provides a motor pool for the use of employees travelling on State business. The agencies are billed for the use of these vehicles. If a motor pool vehicle is not available, the employees are allowed to use their personal automobiles and are reimbursed at 20 cents per mile travelled on PSC business. The State does not provide free parking for its employees. However, it does provide somewhat limited parking facilities at reasonable monthly rates compared with those charged by commercial parking facilities in the area.

HAWAII PUC. Employees are reimbursed $.33 per mile for use of their private vehicles authorized for official State business. Travel expenses for official State business to other islands within the State and areas outside the State are paid by the employer. Employee using personal vehicle pays for their own parking.

IDAHO PUC. Hotel expenses are paid; meals at $15.00 per day in Idaho and $20.00 per day out-of-State; mileage at 20.5 cents per mile; automobiles are available for travel upon assignment. The Commission is furnished with 40 parking spaces which are

assigned to employees.

ILLINOIS CC. Employees are reimbursed for their travel expenses up to $22 per diem; 22.5 cents per mile along with a set amount for hotel/motel costs.

INDIANA URC. Free parking facilities are available for employees who drive to work. Effective 7/1/86 the State pays 25 cents per mile for authorized travel in employee's personal car. In-State travel lodging allowance is unlimited; out-of-State maximum is single-room rate.

IOWA DOT & IOWA SUB. Subsistence is $45.50 per day. In-State limits are $30 a day for hotel and $15.50 per day for meal expenses. If a State car is not available, the mileage reimbursement is 21 cents per mile.

KANSAS SCC. Parking is available to the Commissioners and staff for a charge of $10 each month. State cars are provided for business travel only. If Commissioners or staff members choose to drive their personal cars on assignments, they are reimbursed at the rate of 22.5 cents per mile. Reimbursement for lodging is as follows: In-State - $40 for lodging plus $4.00 per quarter; Out-of-State, low-cost area - $50 for lodging plus $4.50 per quarter; Out-of-State, high cost area - $85 for lodging plus $5.50 per quarter.

KENTUCKY PSC, RC AND TRANSPORTATION CABINET. Generally, travel expenses are paid in full, within the following limits: Daily per-diem for meals (non-high rate area) - $14; daily per-diem for meals (high rate area) - $20. Motel: Maximum amount, daily, non-high rate - $35 plus tax; maximum amount, daily, high rate area - $55 plus tax. It is mandatory to use State automobiles, where feasible; use of personal auto is reimbursed at $.18 per mile. Free parking is available at the State Office Building.

LOUISIANA PSC. The employees are reimbursed for travel expenses and free parking is provided. Travel expense allowance at 21 cents per mile while on official business. Automobiles are furnished to employees who travel over 15,000 miles annually.

MAINE PUC. Employees utilizing personal automobiles are reimbursed 22 cents per mile for actual mileage travelled. Two State automobiles are assigned the Commission. All out-of-State travel expenses are paid, in-State subject to various limits.

MARYLAND PSC. Travel expenses are provided generally in accordance with the following: Meals: Breakfast - $3.50; Lunch - $4.00; Dinner - $9.50; actual cost of Hotel, parking, tolls, train or air fares and miscellaneous costs. Use of personal automobile is reimbursed at $.21 per mile. State cars may be provided on certain occasions.

MASSACHUSETTS DPU. Automobile mileage reimbursed at 22 cents per mile; meals allowance: $2.00, $3.00, $5.00 (overtime) within the Commonwealth. $2.50, $4.00, $7.00 overnight in the Commonwealth and outside the Commonwealth; hotel cost, air fares, etc., reimbursed in full.

MICHIGAN DOT & PSC. Travel expenses are reimbursed up to established maximum. State automobiles are not provided unless job description so requires.

MINNESOTA DPS, PUC, TRB & DOT. Travel expense costs are reimbursed up to established maximums.

MISSISSIPPI PSC. Travel expenses are reimbursed to employees at the rate of 20 cents per mile for mileage and at cost for subsistence. Automobiles are furnished by the employee. Free parking facilities are provided to all employees.

MISSOURI DOT. A limited number of State vehicles are available for official travel. Use of personal vehicles for official travel is reimbursed at 20.5 cents per mile. In-State meals are reimbursed for reasonable expenses incurred. Out-of-State meal expense is considered on a trip basis. Actual lodging, commercial travel and miscellaneous expenses are paid.

MISSOURI PSC. A limited number of State vehicles are available for official travel. Use of personal vehicles for official travel is reimbursed at 20.5 cents per mile. In-State meal expense is limited to $23 a day in metropolitan areas and $21 per day in other areas of the State. Out-of-state meal expense is considered on a trip basis. NEW MEXICO PSC & SCC. **Per diem expenses** - $48.00 overnight; less than 6 hours none; $6.00 for between six and twelve; $13.00 for between twelve and eighteen; $22.50 for between 18 and 24; $58.00 for in-state special areas; $70.00 per day for out-of-state; $95.00 for out-of-state special areas; state cars available for in-state travel or 22 cents per mile is paid for use of private vehicle. Expense of public conveyance, taxis, parking, etc. for out-of-State travel is paid. Free parking is provided to commissioners and staff members.

NEW YORK PSC. **Travel expense allowance**: Unreceipted In state per diem, $35.00; cities of Albany, Binghamton, Buffalo, Rochester, Syracuse, $40.00; New York City and Counties of Nassau, Suffolk, Rockland and Westchester, $50.00; Out-of-State: $50.00. Receipted: Federal Government allowance by county. Maximum per diem ranges from $66 to $141. **State automobiles**: The Chairman is provided a State automobile, as well as field employees who travel in excess of 12,000 miles per year. Personal automobile $.24, .23 or 20.5 per mile, depending on negotiating unit. **Parking facilities**: The Chairman, Commissioners, Secretary to the Commission and Counsel to the Commission are entitled to reserved parking places. Limited parking space is available for employees at a nominal fee.

NEW YORK SDOT. **Travel expense allowance** In State and out-of-state per diem varies depending on county where travel occurs; $.23 or .205 per mile depending on negotiating unit for travel by personal car when no State cars are available. Up to $7.00 may be allowed each way for travel between residence and transportation terminals. Also a charge of up to $12.00 for taxi fare may be allowed each way for travel directly between residence and airport. When this charge exceeds $7.00, a receipt is required. **State Automobile** The Commissioner is provided with a State automobile. Field employees who travel in excess of 12,000 miles per year are provided with State automobiles. **Free Parking facilities** The Commissioner, Assistant Commissioner and Division Heads are provided with reserved parking places. Limited parking spaces are available for employees.

NORTH CAROLINA UC. Fringe benefits applicable to Commissioners and staff members include travel expense allowance: actual transportation cost or personal car mileage allowance, plus maximum of $55.00 per day room and board in State and $67.00 per day room and board out of State. Parking spaces are available at rate of $10 or $15 per month.

NORTH DAKOTA PSC. Travel expense allowances provide 20 cents per mile in-State travel, 18 cents out-of-State mileage, $17.00 meals and actual lodging not to exceed $35.00 in-State, $30.00 out-of-State. Staff members and Commissioners use State automobiles, when available for State travel. Reserved parking spaces are provided for the elected State officials and free ample parking space for employees.

OHIO PUC. **Travel expense allowance**: **Transportation**: only the most direct route at the least expensive means available is reimbursed. **Lodging** $40.00 per night in-state; out-of-state only the most reasonable rate, consistent with location, is reimbursed. **Meals** $12.50 per day when overnight travel is involved. Zero (-0-) per day when overnight travel is not involved. **Laundry/Dry Cleaning** reimbursed only if on travel status 7 consecutive days or more. **Phone calls** reimbursed only if on travel status 5 consecutive days or more. **Miscellaneous** airport parking, vicinity travel, car rental, conference fees, etc., will be reimbursed, as all other expenses, pending Commission and Ohio Emergency Board approval. **State automobiles**: The permanent assignment of automobiles is based upon frequency of use in the course of Commission business. Staff members whose position requires 12,000 miles or more of Commission-related travel per year are permanently assigned an automobile as well as Commissioners and Department Directors. Temporary assignments are given to staff who require an automobile for official business on a short-term

basis. **Parking**: Free parking facilities are provided to Commissioners, Department Heads and pool cars.

OKLAHOMA CC. State vehicles are available, some assigned to field employees on a continuing basis. Travel reimbursement is 20.5 cents per mile. Per diem is $4.75 in-State, per quarter day and $6.25 out-of-State, per quarter day; lodging in-state $28.00, Tulsa & OKC $35.00; out-of-state $28-45 depending on city location. Parking is provided to employees.

OREGON PUC. Executive Service employees are reimbursed for actual and reasonable expenses incurred while traveling. For in-State, short-term, commercial travel, Management Service employees receive an allowance of $50 for each 24-hour period; unrepresented employees receive an allowance of $46 for each 24-hour period. Long-term and non-commercial travel expenses are handled differently. For Out-of-State travel, Management Service and unrepresented employees are reimbursed for actual costs of overnight lodging at the minimum available accommodation and receipts are required. Meals are reimbursed at the following rates: **Management Services** breakfast $5.50, lunch $6.25, dinner $13.50; **Unrepresented employees** breakfast $4.75, lunch $5.25, dinner $13.00. **State automobiles**: State automobiles are available for employees who are required to drive a car on agency business. The agency has a few cars assigned on a permanent basis to those divisions involved in field work where use of a car is a daily occurrence. For occasional use, State cars are checked out from one of three central motor pool facilities. In instances where driving a State car is not practical, the agency may authorize an employee to use his/her personal car and receive mileage reimbursement at the rate of 21 cents per mile. **Free parking facilities**: PUC employees who work in Salem and need parking spaces must pay for these themselves. In field offices in remote locations, parking is readily available on the employer's premises at no cost to the employee.

PENNSYLVANIA PUC. **Travel expenses**: The Public Utility Commission adheres to the Commonwealth Travel Expense program which provides for fully-paid commercial travel costs (economy class), fully paid lodging costs (lowest rate available), food costs (not to exceed $24.00 in a 24-hour period), and miscellaneous expenses (actual cost) for parking, car rentals, taxis, etc. For selected purposes, an advance fund of $500 is available. **State automobiles**: Vehicles are permanently assigned to Commissioners. Vehicles are also assigned to each Enforcement Officer who monitors the transportation industries, the rail inspection program and the gas industry safety program. For other employees, an automotive fleet is available on an ad hoc basis. Use of personal vehicles for official business is reimbursed at 21 to 22.5 cents per mile (dependent on applicable union contract). **Parking facilities**: Limited parking facilities are available to accommodate the State vehicles, handicapped employees, and car pools (based upon number of occupants and number of miles from available mass transit).

PUERTO RICO PSC. **Travel expense allowance**: $0.30 per mile plus per diem. **State automobiles**: Only the President of the Commission is allowed the use of an automobile with chauffeur. **Parking facilities**: Offices have free parking facilities.

RHODE ISLAND PUC. Automobiles: $0.20 per mile; meals: $18.00 per day ($3.25 breakfast, $4.75 lunch, $10.00 dinner); per diem allowance: $30.00 ($10.00 meals, $20.00 lodging); miscellaneous expense: $5.00 per day.

SOUTH CAROLINA PSC. **Automobiles**: $0.205 per mile; **meals** - $18.00 per day in-State; $30.00 out-of-State.

SOUTH DAKOTA PSC. **Travel**: State automobiles are furnished for State employees requesting them from the Travel Commission pool. Private car mileage, per diem expense, hotel and motel expenses and miscellaneous expenses are reimbursed at the established State and out-of-State rates. Commissioners receive full reimbursement for expenses. **Meals**: $16.00 per day in-State, $21.50 out-of-State. **Parking**: Free parking is available to all State employees and reserved parking is available to the Commissioners. **Motel**: $22.00 plus tax per day in-State, $50.00 out-of-State.

TENNESSEE PSC. State automobiles are available and parking facilities are furnished. Actual travel expenses are reimbursed.

TEXAS PUC & TEXAS RC. Effective September 1, 1989, travel expense allowance is 24 cents per mile and maximum per diem allowance is $80 within the State of Texas.

UTAH PSC. State automobiles are furnished for State employees requesting them from the State Motor Pool for traveling on state business. Parking is provided for employees. Automobiles: $0.21 per mile; $23.00 for meals per day.

VERMONT PSB. Automobiles are not provided to the Board. All reasonable expenses while traveling on State business are reimbursed. Free Parking facilities are provided. In-state, an employee receives $3.65 for breakfast, $4.40 for lunch, and $11.20 for dinner; out-of-state, an employee receives $4.95 for breakfast, $5.75 for lunch, and $13.80 for dinner. Employees are reimbursed $.21 per mile for use of their private vehicles authorized for official State business.

VIRGIN ISLANDS PSC. In addition to a stipend of $30 per day for each meeting and/or hearing attended, free transportation to and from meetings and hearings is provided to the Commissioners.

AUTOMOBILES, TRAVEL EXPENSES, PARKING

VIRGINIA SCC. Employees traveling on official business are reimbursed for reasonable and necessary expenditures, including but not limited to meals, lodging, transportation, and parking.

WASHINGTON UTC. Travel expense on official business is allowed at to the maximum rate of $66.00 per day, or more for travel in high-cost areas, and mileage at a rate of 24 cents per mile for authorized private car use if motor pool cars are not available. Automobiles are provided for all enforcement personnel. The Three Commissioners are provided with reserved parking spaces. All other employees are provided with free parking on a first come, first served basis.

WEST VIRGINIA PSC. Authorized employees using their own car for travel receive 20 cents per mile; $20 per day for meals for in-State travel; $25 per day for meals for out-of-State travel if on an overnight trip; full payment for lodging.

WISCONSIN PSC, COT & DOT. **Food, lodging and automobile mileage:** All reasonable expenses while traveling on State business are reimbursed. If a State employee uses his own car for State business, reimbursement will be made at the rate of (1) .149 cents per mile if the employee used his own car when a State-owned vehicle was otherwise available, or (2) .215 cents per mile if the employee was required to use his own car because no State vehicle was available. **Meal allowances:** Breakfast - $5.90; Lunch - $6.30; Dinner - $13.40.

WYOMING PSC. Parking facilities are provided. Per diem expenses - $60 out-of-State and $50 in-State. State automobiles are furnished for travel on State business, subject to certain restrictions.

****

CANADIAN RTC. Travel and subsistence expenses are limited by regulations of the Treasury Board of Canada. Parking is provided on a limited basis as to need and seniority under Public Works Canada regulations.

NATIONAL ENERGY BOARD. Travel and subsistence expenses are established by regulations of the Treasury Board of Canada. Parking is provided on a limited basis at commercial rates. An automobile is provided for the Chairman.

ALBERTA PMC. All travel and subsistence expenses necessarily incurred in the performance of the job are reimbursed. Parking is provided for all managers, general managers and Commissioners. An automobile is provided for the Chairman.

ALBERTA PUB. All travel and subsistence expenses necessarily incurred in the performance of the job are paid by the Board.

NEWFOUNDLAND BPU. No Board vehicles are provided. Reimbursement for use of private cars on Board business is at the rate of 30 cents per mile. Hotel expenses are paid for the Board and senior staff. Per diem allowance for meals is $30.00 per day in the Province and $35.00 outside. Adequate parking facilities are provided at no direct cost to the Board.

NOVA SCOTIA BCPU. Automobiles are not provided to the Board. Mileage allowances are payable to staff based on rates approved for Provincial Government employees for use of privately-owned vehicles. Other expenses are reimbursed up to established maximum. Parking facilities are provided to Board members.

ONTARIO EB. **Parking:** Provided on limited basis as to need and seniority and at approximately commercial rates for the area. **Travel Expenses:** Automobiles at 27.5 cents per kilometer; meals at $40 per day within Province; lodging and miscellaneous items at reasonable costs.

ONTARIO TSC. Mileage is provided at Government approved rates.

QUEBEC NGB. Members are entitled to $130/day covering food and lodging expenses. Staff members: Cost of lodging is reimbursed; $31.75 is allowed for meals. An average of 28 cents per kilometer is allowed for use of personal car; All must pay for parking at the office.

QUEBEC TB. Controllers are entitled to $120.00/day covering food and lodging expenses. **Staff members:** Cost of lodging is reimbursed; $31.75/day is allowed for meals. An average of 0.28 cents per kilometer is allowed for use of personal car; public transportation cost is reimbursed. **Parking facilities:** All must pay for parking facilities at the office.

AGENCY FRINGE BENEFITS

DISABILITY INSURANCE PLAN

THE FOLLOWING AGENCIES REPORTED VARIOUS OPTIONS OF DISABILITY INSURANCE PLANS AVAILABLE TO EMPLOYEES.

ALASKA PUC. Various options of disability insurance are available to all probationary, permanent or temporary employees who work for certain minimum hours per week.

ARIZONA CC. Various options of disability insurance are available to all probationary, permanent or temporary employees who work for certain minimum hours per week. Long-term disability insurance is paid for by the State with additional insurance available at group rates, paid by employees.

ARKANSAS PSC. Optional group disability income protection insurance is available at the expense of the employee.

CALIFORNIA PUC. Temporary disability insurance and Workers' Compensation are provided by the State of California.

COLORADO PUC. Short-term disability protection provided; some long-term optional disability protection available.

CONNECTICUT DPUC. Optional group disability income protection insurance is available at employee's expense.

DELAWARE PSC. Under the Delaware State Employees' Pension Plan, employees are covered for pension as well as disability. Eligibility to receive a disability pension begins the fourth month following the disability after completion of five years credited service.

FLORIDA PSC. Under the Florida Retirement System, all employees are covered for normal retirement as well as involuntary retirement caused by disability. All Career Service employees who participate in the group disability income protection insurance must pay the full cost. Senior Managers and Selected Exempt employees are provided disability insurance at no cost.

GEORGIA PSC. Disability retirement is available after 13 years, 4 months, at no extra cost to employee. Additional plans can be purchased by employee.

HAWAII PUC. Temporary disability insurance and worker's compensation are provided by the State of Hawaii.

IDAHO PUC. Disability benefits are available upon request.

ILLINOIS CC. Disability benefits are available to all employees, for a period of time, based on credited service and age.

IOWA SUB & DOT. Long-term disability insurance is compulsory. There is no charge to the employee for this benefit.

KANSAS SCC. Commissioners and staff receive disability insurance equal to 65% of their annual salary (offset by any Social Security disability payment).

MAINE PUC. Maine Group Disability Income Protection Insurance is available to members of the Maine State Employees Association. Management and excluded employees have no insurance plans available to them. Disability benefits are available through the Retirement Plan.

MARYLAND PSC. Under the Maryland State Retirement and Pension plans, employees are covered for both service retirement and disability retirement. Job related disability payments are made from the State Accident Fund.

MASSACHUSETTS DPU. The Commonwealth now offers disability insurance for employees. The rate is calculated on a sliding scale according to salary and age group. Union employees may also purchase disability insurance.

MICHIGAN DOT & PSC. Disability insurance provided equal to 2/3 of current pay rate; State pays a percentage of premium varying upon applicable plan of insurance.

MINNESOTA DPS, PUC, TRB & DOT. Disability benefits are included in the retirement plan (10 years State service - age 50 and under, 5 years State service - age 50 and over).

MISSOURI DOT & PSC. Under the Missouri State Employees Retirement Plan all employees are covered for normal retirement

AGENCY FRINGE BENEFITS

DISABILITY INSURANCE PLAN
(Continued)

as well as involuntary retirement caused by disability when certain requirements are met. Long-term disability is provided at no charge to the employee.

MONTANA PSC. Disabled employees who have had their disability approved by the State may submit a Waiver of Premium form for their life insurance rates. If the Waiver is approved, the employee's life insurance rates will be paid at the group rate currently being paid until the age of 65 and then they are allowed to convert to a higher rate at their own expense.

NEBRASKA PSC. Group long-term disability plan available through the Hartford Insurance Company at employee's expense.

NEVADA PSC. Disability coverage available; paid for by State.

NEW HAMPSHIRE PUC. Employees may elect disability coverage at own expense with group rate.

NEW JERSEY BPU & DOT. State provides temporary disability for permanent employees. After ten years permanent service, State normally provides permanent disability insurance of one and one-half percent of the average of last three years' salary x number of years service.

NEW MEXICO PSC. Disability insurance is included in group insurance policy; $100 per week for 26 weeks; 14-day waiting period; no long-term disability.

NEW MEXICO SCC. Disability insurance is included in group insurance policy; $100 weekly benefit, after 2 weeks, for 26 weeks.

NEW YORK PSC. Commissioners and management/confidential staff are provided disability salary continuation benefits: Commissioners at full pay for six months, followed by 60% of salary, not to exceed $5,000 per month, to age 65; staff at half pay for up to six months or at full pay until sick leave credits are exhausted, whichever is greater, followed by 60% of salary, not to exceed $5,000 per month, to age 65.

NORTH CAROLINA UC. The Commissioners and staff members are provided disability salary continuation benefits at 50% of salary not to exceed $3,000 per month after 60 days until disability ceases.

NORTH DAKOTA PSC. As a member of the Public Employees Retirement System, coverage is provided by the plan's disability benefit. It provides for 60% of final average salary (five highest consecutive annual salaries divided by 60 months), less any payment from Social Security or Worker's Compensation. Disability benefits continue for as long as employee is disabled.

OHIO PUC. All full-time permanent employees are eligible to apply for disability leave benefits for any illness or injury that exceeds fourteen (14) consecutive calendar days. Approved disability benefits will be paid bi-weekly at 70% of the total hourly rate. Benefits may be supplemented to 100% of the hourly rate by using accrued sick leave, personal leave, or vacation. Employees must have one year of continuous State service. Disability leave is for a maximum period of two (2) years. Part-time employees are not eligible for disability leave. (Subject to change due to on-going contract negotiations.)

OKLAHOMA CC. Disability insurance plan available to State employees with six months service. Short-term disability is for up to six months, long-term disability to age 65. Compensation is 60% of base salary with 30-day waiting period--rehabilitation included.

OREGON PUC. Management and Executive Service employees receive a fully paid Long-term disability insurance which provides 60% of the first $8,333 basic monthly benefits after the 180-day elimination period. All full-time employees are eligible to enroll in other short and long-term disability insurances. There are several options, all completely employee paid.

PENNSYLVANIA PUC. A Commonwealth-wide program of self-insured workers' Disability which provides for 70% of base pay for a period not to exceed one (1) year for work-related disability.

PUERTO RICO PSC. If an employee becomes incapable of performing regular duties, due to physical or mental disability occasioned at work, he may retire at any age subject to approval of the Government Insurance Fund. With qualifying disability the employee is entitled to income benefits depending on the temporal, long-term or permanent disability.

RHODE ISLAND PUC. The Rhode Island Public Utilities Commission does not have a disability insurance plan.

AGENCY FRINGE BENEFITS

DISABILITY INSURANCE PLAN
(Continued)

SOUTH CAROLINA PSC. Long-term and short-term disability income benefits are available.

SOUTH DAKOTA PUC. A group life accident and dismemberment policy is offered at option of employee.

TEXAS PUC & RC. Long-and short-term disability income benefits are available under the Uniform Group Insurance Program for State employees.

UTAH PSC. State pays entire cost of a long term disability plan that provides for 2/3 of gross salary and continues contributions to retirement program.

VERMONT PSB. Disability benefits are included in the retirement plan.

WASHINGTON UTC. Disability insurance is available to all State employees through the group plan administered by the State Employees Insurance Board.

WISCONSIN COT. Disability benefits are provided in the event an employee becomes permanently and totally disabled. To be eligible for this benefit an employee must have been an active employee participating in the WRS for five out of the last seven years. This is not required if the disability is a direct result of employment.

WISCONSIN PSC. Income Continuation Insurance: All permanent employees are eligible to participate in the income continuation insurance program after completion of six months of service. Premiums are determined by amount of sick leave accumulated and current rate of pay. Benefit payments are up to 75% of employees' salary.

CANADIAN AGENCIES

CANADIAN RTC. Disability insurance is compulsory. There are separate plans for management and employees subject to collective bargaining. Disability insurance is valued at 70% of salary (indexed).

NATIONAL ENERGY BOARD. Disability insurance is compulsory. There are separate plans for management and employees subject to collective bargaining. Disability insurance is valued at 70 per cent of salary (indexed).

ALBERTA PMC. The employee pays the full premium for compulsory disability insurance in order that benefits may be tax free.

ALBERTA PUB. If an employee becomes incapable of performing regular duties, due to a physical or mental disability, he or she may receeive Long-Term Disability benefits up to age 65, so long as they are totally disabled from performing any gainful employment. All pension options are available for disability pensions. The Long-Term Disability Income Continuance Plan entitles an employee with a qualifying disability to benefits of not less than 70% of normal salary.

BRITISH COLUMBIA UC. Disability insurance benefits are available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU. The employee pays 100% for a Disability Insurance Plan (optional) through a Newfoundland Government sponsored plan.

ONTARIO EB. Short-Term Sickness Plan (Management and excluded employees only) - employer pays 100%; Attendance Credit System (bargaining unit employees only) - employer pays 100%; Long-Term Income Protection Plan (LTIP) - employee pays 15% of premium and employer pays 85%.

QUEBEC NGB and TB
Disability insurance is included as a package with optional group life insurance offered to controllers and staff members.

AGENCY FRINGE BENEFITS

HEALTH/MEDICAL AND HOSPITALIZATION INSURANCE

FCC. Commission employees are eligible for health insurance benefits available to all Federal employees.

FERC. Commission employees are eligible for health insurance benefits available to all Federal employees.

ICC. Commissioners, staff officials and employees are entitled to health and medical insurance under 5 USC 8901.

ALABAMA PSC. Free medical insurance is provided each State employee, as well as dental coverage.

ALASKA PUC. Medical insurance is funded wholly by employer; covers both the employee and dependents; includes dental and vision benefits.

ARIZONA CC. Various options of group health insurance available to all probationary, permanent or temporary employees who work for certain minimum hours per week. Permanent employees have a choice of an indemnity plan or HMO plan, paid by the State. Dependents may be added at group rates, paid by the employee.

ARKANSAS PSC. The State offers a medical-hospitalization plan funded by the State and the employee. Employees pay an amount according to type of plan selected and coverage including optional units of group term life insurance.

CALIFORNIA PUC. Medical Insurance: Several plans available for dental, medical, surgical and hospital services for the eligible employee and his family at group rates available through the Meyers-Geddes State Employees' Medical and Hospital Care Act. Employees may enroll without a medical exam during the first 60 days of their employment provided they meet certain eligibility requirements. The State contributes a portion of the costs.

COLORADO PUC. Various options available to employee--all plans are funded by State and employee.

CONNECTICUT DPUC. Blue Cross, Blue Shield, dental maintenance, and major medical coverage for employees is provided; coverage for dependents is available if 30% paid by employee. Other health insurance is available.

DELAWARE PSC. Group Blue Cross, Blue Shield is offered to eligible employees with the State contributing 100% of the Basic Rate for most programs after the first 3 months of employment.

DISTRICT OF COLUMBIA PSC. All staff members who participate must pay for the medical insurance plan; Commission contributes 60% and the employee or staff member must pay the additional cost. Additionally there is a list of provider physicians who supply dental and optical services for a published schedule of procedures at no cost. Non-provider physicians are paid 80% of just and reasonable costs.

FLORIDA PSC. All Career Service staff members who participate must pay a portion of the insurance premium, the state contributes 75%, the employee or staff member must pay the remaining cost. Senior Managers and Selected Exempt employees are provided insurance at no cost to the employee.

GEORGIA PSC. All staff members are eligible to participate in the State Employee Health Insurance Program.

HAWAII PUC. Optional group insurance applies to Commissioners and staff members.

IDAHO PUC. State employees are furnished an established health insurance program which does not include families. Family plans and additional benefits are available through the State upon request.

ILLINOIS CC. State provides basic health and dental insurance. Various health insurance options are available to employees.

INDIANA URC. The State makes available medical and dental insurance programs and several health maintenance plans. Substantial contribution to maintenance of plans is made by State.

IOWA DOT & IOWA SUB. Employees can elect their health insurance plans from Blue Cross/Blue Shield or HMO with the State paying $94.68 toward the premium of the health insurance coverage. Delta Dental insurance is available with the State paying $8.64 toward premium.

KANSAS SCC. Commissioners and staff may elect coverage under Blue Select/Preferred Care, Traditional, various Health

AGENCY FRINGE BENEFITS

HEALTH/MEDICAL AND HOSPITALIZATION INSURANCE
(Continued)

Maintenance Organizations, Family Health Plan, Kaiser, Med Plan, or Prime Health. Different programs are available in certain areas and eligibility is determined by county of residence, or zip code of residence. Group insurance plans are available to employees after 60 days of employment. A monthly charge is instituted for all employees who participate in the health insurance program. The monthly charge is determined by income level: $12 for employees who earn below $17,000 per year; $16 for employees whose earnings range from $17,000 to $30,000 per year; and $21 for those earning $30,000 and above. Coverage may be obtained for family members at employee expense through payroll deduction.

State employees who certify that they do not consume tobacco and will not consume tobacco during the term of the health insurance contract will be granted a discount of $10 from the monthly charge outlined above.

The State pays the total cost of employee dental coverage. If dependent coverage is desired, it may be purchased at Group rates and withheld from salary check. If employee and spouse are both employed by State agencies, the combined fringe benefit is credited towards family coverage, reducing the cost of family coverage. Coverage for employee's family is available at group rates with premiums paid by the employee through a before tax payroll deduction.

KENTUCKY PSC AND TRANSPORTATION CABINET. An employee may elect health insurance from Kentucky's self-funded plans, Kentucky Kare or Kentucky Kare Select, and various HMOs and PPOs. The State pays a single rate and the employee must pay the balance. Most plans are covered for 100% payment for single policies.

KENTUCKY RC. The State pays for Blue Cross/Blue Shield equal to the monthly cost of a single plan. All employees are covered at their election. Several dental plans are available to employees and their families at a group rate.

LOUISIANA PSC. Employees are provided medical insurance with the state paying half of the premium.

MAINE PUC. Blue Cross/Blue Shield health care plans are available. Major Medical coverage is also an option. Every employee is offered individual Blue Cross and Major Medical at no cost to the employee and the State pays 50% of dependents coverage. The State pays the total cost of dental coverage for employees.

MARYLAND PSC. Partial payment of medical insurance is provided for all employees from date of employment. Insurance options include dental and vision care.

MASSACHUSETTS DPU. Group insurance plans are available to employees after 60 days of service. The basic plan includes $5,000 of life insurance in addition to medical expense coverage. Plans currently in effect are those offered by John Hancock and 17 different HMOs. The Commonwealth pays 90% of the cost of the John Hancock and the same dollar amount for HMOs. Employees under the Union plan receive free dental and eyeglass coverage. Additional optional health coverage includes disability insurance and life insurance up to 80% salary.

MICHIGAN DOT & PSC. Group medical insurance provided; 90% to 100% (depending on union representation) of premium paid by State: includes dental and vision insurance. Alternative of choosing an HMO fully paid by State.

MINNESOTA DPS, PUC, TRB & DOT. Employees may elect coverage under Blue Cross and Blue Shield or one of ten (10) health maintenance organizations. The State pays a base rate every two weeks for the employee's medical insurance and a portion (up to 90%) of dependent coverage. State pays the total cost of employee dental coverage and one half the cost of dependent dental coverage.

MISSISSIPPI PSC. Basic hospitalization is provided by the State for the employee. Coverage for dependents is paid by employees. Additional coverages for catastrophic, intensive care, coronary care, and wrap-around/supplemental are paid by the employee.

MISSOURI DOT. Employees may choose the Missouri State Medical Care Plan administered by Blue Cross/Blue Shield at no charge. Additional coverage may be obtained for family members. A State dental plan is also available to employees if desired.

MISSOURI PSC. Missouri State Medical Care Plan administered by Blue Cross/Blue Shield. State contributes $89 per month: Member employee: No charge; Member & spouse: $ 119.70; Member, spouse, & children: $190.67; Children only: $ 70.97.

MONTANA PSC. The State contributes $115 per month towards medical, dental and a basic life insurance policy ($10,000).

AGENCY FRINGE BENEFITS

HEALTH/MEDICAL AND HOSPITALIZATION INSURANCE
(Continued)

NEBRASKA PSC. Employees may elect coverage from Blue Cross/Blue Shield or from a Health Maintenance Organization--there are currently three (3) from which to select. The State contributes a specified amount and the employee pays the difference in the total premium, if any, depending upon the option elected by the employee. Group dental coverage is available at employee's expense.

NEVADA PSC. Medical, dental and vision coverage provided at no cost for employee coverage; dependent coverage provided with employee bearing costs. Choice between State of Nevada self-funded insurance or one of two health maintenance organizations.

NEW HAMPSHIRE PUC. The State provides Dental Insurance, Blue Cross/Blue Shield or one of the four (4) health maintenance organizations for employees and their dependents.

NEW JERSEY BPU & DOT. Blue Cross/Blue Shield and major medical is provided at no cost for employees and dependents. Optional Health Maintenance Organization coverage is available with the State paying that portion of the premium equal to Blue Cross/Blue Shield charges and the employee paying the remainder. The State pays the entire premium for the Prescription Drug Program. The State and the employee each pay part of the premium for Dental Insurance.

NEW MEXICO PSC & SCC. Medical insurance is provided by the State of New Mexico. Effective July 1, 1986 employees have a choice of three HMOs or traditional coverage, with the amount of the insurance premium paid by the State dependent upon an employee's annual salary as follows (based on coverage of employee and one dependent under traditional plan, dollar amounts are paid biweekly):

Annual Salary	Percentage Paid by State	Employee & Dependent Employee-Paid Premium
Less than $15,000	75%	$20.68
$15,000 - 19,999	70%	24.81
$20,000 - 24,999	65%	28.95
$25,000 and over	60%	33.08

NEW YORK PSC. Hospitalization and major medical coverage provided through choice of health insurance options -- statewide Empire Plan, or local Health Maintenance Organizations. Premium varies according to option; with an employee paying 10 percent of cost for self and 25 percent of cost of dependents' coverage. Dental care is available at no cost to eligible employees and their dependents.

NEW YORK SDOT. Medical Insurance: Enrollment options vary throughout the State and dependent upon negotiating unit. **Dental Insurance:** Coverage is available at no charge to eligible employees and their dependents.

NORTH CAROLINA UC. Hospitalization and Major Medical Insurance is available with the employer paying for employees' coverage and employees paying for dependents' coverage.

NORTH DAKOTA PSC. Legislation passed by the 1985 Legislative Assembly and action taken by the Retirement Board provided for the State group health insurance program to become self-funded with administrative services provided by Blue Cross/Blue Shield. Employees have the option of this insurance at no cost to employee or of a Health Maintenance Organization at a minimal cost.

OHIO PUC. The State Medical Plan is of the Blue Cross/Blue Shield type and all full-time permanent and part-time employees are eligible to enroll. The premium amounts vary with age, marital status, and size of family, but as a general rule the PUC pay 70% and the employee pays 30%. In addition to the Blue Cross/Blue Shield Plan, the State of Ohio offers coverage through twenty (20) Health Maintenance Organizations (HMO). All full-time permanent and part-time employees may choose to enroll. The PUC shares costs. An employee may choose to enroll through payroll deductions in only one of the medical plans offered. Effective September 1, 1979, employees of the State of Ohio are covered by dental and vision care plans. Those eligible are: All permanent full-time employees, permanent part-time employees, and elected and appointed officials of the State of Ohio who have completed one full year of continuous State service and are enrolled in one of the State's basic health plans. (Subject to change due to on-going contract negotiations.)

OKLAHOMA CC. Health/medical and hospital insurance or option of local health maintenance organizations is provided.

OREGON PUC. Management and Executive Service employees receive fully paid medical and dental insurance for themselves

AGENCY FRINGE BENEFITS

HEALTH/MEDICAL AND HOSPITALIZATION INSURANCE
(Continued)

and their families and, in some locations in the State, they have a choice of companies and plans. Unrepresented employees receive an employer contribution toward their medical and dental insurance. In some cases, this covers the entire premium cost for medical insurance for the employee and dependents, depending on the plan selected. Dental insurance is provided to all employees and the premium is fully paid for the employee. One plan provides dental coverage for dependents at no cost to the employee. The employee may cover dependents under another available plan; they must pay for the dependent portion of the premium.

PENNSYLVANIA PUC. Basic Plan: Blue Cross Inpatient Services - 365 day, semi-private room; 60 days/12 month period for mental and nervous disorders. Blue Cross Outpatient Services - Emergency accident and medical, surgery, diagnostic studies, home care services, alcoholism rehabilitation, pre-admission testing. Blue Shield - 100% of the Usual, Customary, and Reasonable (UCR) allowance for provider services or preferred provider allowance, if applicable. Major Medical - $100 deductible/person/year; 80% employer coinsurance on first $2,000, 100% thereafter up to $100,000 lifetimes maximum for general medical expenses; 50% employer coinsurance up to $25,000 lifetime for mental expenses. **Health Maintenance Organization (HMO) Plan**: Various HMOs participate statewide. Comprehensive coverage varies by HMO. **Health and Welfare Contributions**: The Commonwealth of Pennsylvania contributes an amount per paid hour per employee to various jointly administered health and welfare trust funds. The Commonwealth and unions have equal representation on the boards of trustees. Benefits are purchased by each trust fund for the employees it covers. Currently, prescription drug, vision care, dental, pediatric preventive health maintenance, hearing aid, and supplemental health care benefits are provided; however, not all of the above benefits are granted by all of the funds.

PUERTO RICO PSC. The Government pays $25.00 monthly to the medical insurance plan and the employees pay the difference of the total cost.

RHODE ISLAND PUC. The State will pay the entire individual or family cost, whichever is applicable to the individual employee, for all eligible employees covered by the Blue Cross Plan 100. The State will also provide the Blue Cross ($2.00) deductible individual or family prescription plan, the Dental Level II family plan, and Vision Plan - Employee only.

SOUTH CAROLINA PSC. The State pays 100% for employees only.

SOUTH DAKOTA PUC. State pays $73.94 per month for employees only. Optional coverage available for dependents at the employee's expense.

TENNESSEE PSC. Hospital insurance applies to Commissioners and staff members.

TEXAS PUC & TEXAS RC. The State pays $115.00 on a comprehensive medical care plan which includes $4,000 life insurance and $4,000 accidental death and dismemberment insurance for the employee only. Optional coverage is available on a volunteer basis for an employee's dependents. Optional coverage and/or additional coverage of any type is at the employee's expense.

UTAH PSC. The State provides basic health plans. Coverage is available to eligible employees and their dependents. The State pays 90% of the premium. Dental insurance is provided with the state paying 90% of the premium.

VERMONT PSB. The State has a hospitalization-accident insurance plan, including major medical; State pays 75%, including coverage for dependents. Dental insurance is provided at no cost to employee and includes coverage for dependents.

VIRGIN ISLANDS PSC. Staff members are regular employees of the Government of the Virgin Islands and entitled to the same fringe benefits, which include a group insurance plan. Maternity, Doctor's visits, X-rays and laboratory, surgical and major medical benefits are included.

VIRGINIA SCC. Virginia SCC offers its employees and retirees four health plans to choose from, three of which offer dental insurance. The State pays most of employee-only coverage and part of the dependents' coverage.

WASHINGTON UTC. State employees are eligible upon employment for fully paid health/medical/ hospitalization and dental plans. The insurance coverage includes all eligible dependents. Several different plans are available with varying amounts of coverage.

WEST VIRGINIA PSC. Medical/hospitalization insurance is fully paid by employer after first year.

HEALTH/MEDICAL AND HOSPITALIZATION INSURANCE
(Continued)

WISCONSIN DOT & PSC. State employees are eligible, almost immediately upon employment, to participate in a comprehensive health insurance program that includes hospitalization, surgical-medical and major medical coverage. The State pays 90% of the cost, or 105% of the lowest cost alternate (Health Maintenance Organization) plan available in a county, whichever is less. The State payments do not begin until a qualifying period of approximately six months has been completed.

WYOMING PSC. Medical and Dental Group Insurance: $100 paid by State on employee only (if life insurance is not elected, contribution is $110). Preferred Provider Program and Health Maintenance Organization membership offered as alternatives.

CANADIAN AGENCIES

CANADIAN RTC. The employer and employees contribute equally to the relevant provincial health insurance plans. Employees also have available various group medical insurance plans.

NATIONAL ENERGY BOARD. The employer and employees contribute equally to the relevant provincial health insurance plans. Employees also have available various group medical insurance plans, for which government pays 75% of premiums.

ALBERTA PMC. All employees and their dependents receive provincial medicare, extended health care and dental care for which the premiums are paid by the Commission.

ALBERTA PUB. Medical, Dental and Hospital Insurance Plan: The Alberta Health Care Insurance Plan and the Alberta Blue Cross Plan are available at special rates to all employees. The government pays 50 percent of the medical insurance premium for either a single or family contract (including dependents only). Group rates are available for optional Blue Cross health services insurance but premium costs are shared 50% by the government. Employees who work full time in an eligible position will be reimbursed 80% of the cost of covered dental services rendered to the employee and his or her eligible dependents.

BRITISH COLUMBIA UC. Health/medical/dental benefits are available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU. The Board participates in a government sponsored plan and pays 50% of the premiums.

NOVA SCOTIA BCPU. Medical insurance is provided to all employees by a private plan with the staff and Board sharing the premium equally. Dental coverage included in the medical insurance.

ONTARIO EB. Medical and Hospital: Ontario Health Insurance Plan (OHIP) and Supplementary Health and Hospital Plan -- employer pays 100% of premiums. Supplementary Health & Hospital Insurance -- 90% of prescribed drug; 100% if private and semi-private hospital accommodations; up to $35 per day over and above the cost of standard ward care. **Vision Care:** Maximum reimbursement of $60 per person in a 24-month period; $10 deductible single; $20 deductible family in any calendar year. Family Hearing Aid -- $200 lifetime maximum. Dental plan effective January 4, 1983.

ONTARIO TSC. Ontario Health Insurance Plan (OHIP), supplementary Health and Hospital plan.

QUEBEC NGB and TB. All citizens of the province of Quebec are protected by a public universal health insurance plan, covering mainly doctors' fees and basic hospital costs; in addition, the Insurance Group for government employees guarantees partial payment of special treatments and prescription drugs.

AGENCY FRINGE BENEFITS

LIFE INSURANCE

FCC Commission employees are eligible for life insurance benefits available to all Federal employees.

FERC Commission employees are eligible for life insurance benefits available to all Federal employees.

ICC Commissioners, staff officials and employees are entitled to life insurance benefits under 5 USC 8701.

ALABAMA PSC Various group plans are available at employees cost through payroll deduction.

ALASKA PUC Employer pays for basic life insurance and accidental death and dismemberment insurance costs. Additional up to $60,000 payable by employee.

ARIZONA CC Various options of life insurance are available to all probationary, permanent or temporary employees who work for certain minimum hours per week. Life insurance premiums are paid by the State, with additional insurance available at group rates, paid by the employee.

ARKANSAS PSC Group Term Life insurance is available in connection with State Health/Medical Plans.

CALIFORNIA PUC Upon employee's death, retirement system provides a fully-paid $5,000 group term life insurance program in addition to the six months salary and a return of the employee's contributions ($25,000 for managers). If at the time of death the employee would have been eligible to retire, the eligible survivor can elect the 1957 survivor benefit in lieu of the six months salary and the return of the contributions.

COLORADO PUC Employees have option of three life insurance plans.

CONNECTICUT DPUC Group term life insurance partly paid by employee.

DELAWARE PSC Eligible employees may join the Group Life and Accidental Death and Dismemberment Plan issued to the State by the Metropolitan Life Insurance Company. Contributions are based upon age, annual salary and dependent coverage.

DISTRICT OF COLUMBIA PSC All staff members who participate must contribute to the life insurance plan; the Commission contributes 33% and the employee or staff member must pay the additional cost.

FLORIDA PSC Career Service employees are covered by term life insurance, with a corresponding amount of Accidental Death and Dismemberment Insurance. The state pays two-thirds of the cost for active employees; retirees pay the entire premium. Amount of coverage is: Full-time or part-time, under 71 - determined by multiplying annual salary by the appropriate age factor; full-time or part-time, 71 or over -a flat $1,500. Senior Managers and Selected Exempt employees are provided life insurance equal to twice their annual salary at no cost to the employee.

GEORGIA PSC A group life insurance policy is part of the retirement plan.

HAWAII PUC Commissioners and staff are provided with a life insurance plan.

IDAHO PUC State provides insurance equal to the amount of the employer's annual salary (one-half that amount after age 70).

ILLINOIS CC State provides one-half of annual salary as life insurance. Various additional options are available to employee at employee's expense.

INDIANA URC The State makes available life insurance at reasonable costs.

IOWA DOT & SUB Permanent full-time employees receive $10,000 life insurance coverage paid by the State. State employees may add life insurance coverage up to $50,000 through a payroll deduction plan.

KANSAS SCC Commissioners and staff receive group life insurance protection equal to 100% of gross annual earnings. All employees may purchase additional group life insurance with payroll deduction plan.

KENTUCKY PSC, RC AND TRANSP. CABINET A $6,560 life insurance policy, for each employee, is paid for by the State. Employees have the option to purchase additional life insurance through payroll deductions.

AGENCY FRINGE BENEFITS

LIFE INSURANCE
(Continued)

LOUISIANA PSC Employees are provided a life insurance plan with the PSC paying half of the premium.

MAINE PUC Life insurance is provided to all permanent employees; the plan also provides for accidental death payment of twice the face amount of the policy; certain benefits are also provided for dismemberment. Each employee has the option to be insured for an amount of life insurance based upon annual compensation free to the employee. Additional increments up to four times annual compensation also available.

MARYLAND PSC State Retirement and Pension Plans include provision for payment of one year's annual salary, after one year of active service, to the primary beneficiary designated on the Retirement Plan.

MASSACHUSETTS DPU Group insurance plans offer additional life insurance at rates which vary according to age and salary categories. Premiums for optional coverage are paid for entirely by the employee.

MICHIGAN DOT & PSC Life insurance is provided equal to twice employee salary rounded upward to nearest thousand dollars -- State pays 100% of premium.

MINNESOTA DOT The State of Minnesota provides life insurance to all employees.

MINNESOTA DPS, PUC & TRB Life insurance varies from a minimum of $15,000 to twice the annual salary for managers and commissioners.

MISSISSIPPI PSC The life insurance program is geared to salary; employee and State share the cost equally. Minimum policy amount is $15,000.

MISSOURI DOT & PSC Two life insurance plans are provided - Basic and Optional. Under the Basic Plan, employees immediately receive $15,000 of coverage at no charge. Under the Optional Plan, eligible employees may purchase life insurance up to an amount equal to three times their annual salary. If member terminates and immediately retires, he will automatically receive $5,000 of continued Basic life insurance coverage.

MONTANA PSC A $10,000 basic life insurance policy is in effect, costing $3.60 per month, and is a part of the $115 State contribution. There are additional life insurance policies available under the State insurance program which may or may not be at the employee's expense and are at the employee's option.

NEBRASKA PSC A $10,000 Life Insurance policy is provided for all employees at no expense to the employee. Other life insurance options are available to employees at employee expense.

NEVADA PSC A $10,000 life insurance policy is provided for all employees at no expense to the employee; benefit increases to $50,000 for work-related accidental death. Additional supplemental life insurance is available on a voluntary basis for employees and dependents at reduced group rates.

NEW HAMPSHIRE PUC Term life insurance available to employees; State contributes 84 cents per month.

NEW JERSEY BPU & DOT Permanent employees normally receive non-contributory life insurance of one and one half times the last year's salary. Additionally, contributory life insurance normally available for one and one-half times the employee's last year's salary.

NEW MEXICO PSC & SCC Life insurance is provided: The policy has $10,000 Basic Life; $10,000 Accidental Death and Dismemberment; $100 weekly indemnity benefit. The State pays a portion of the premium dependent on employee's salary level. Supplemental life insurance may be purchased by the employee at a minimal rate based on age and salary.

NEW YORK PSC & SDOT Death benefit for employees hired prior to July 1, 1973: equal to one month's salary for each full year of service, up to a maximum of three year's salary upon completion of 36 full years of credit. Benefit not payable if death occurs subsequent to retirement. For employees hired between July 1, 1973 and July 1, 1976, benefit is equal to three times annual salary after completion of three full years of service, if entered State service prior to 52nd birthday; benefit is reduced if joined retirement system between ages 52 and 65. Employees hired after July 1, 1976, may choose between the two plans.

AGENCY FRINGE BENEFITS

LIFE INSURANCE
(Continued)

NORTH CAROLINA UC Commissioners and staff members entitled to one year's salary as death benefit with a minimum of $25,000 and a maximum of $50,000.

NORTH DAKOTA PSC The 1971 legislature passed a bill which included a uniform group life insurance contract to provide $1,000 coverage for each employee.

OHIO PUC Employees are covered by the State Group Life Insurance Plan. Under this plan, each employee under age 65 is insured in the amount of $2,000 for each year of total Ohio public service up to five years, for a maximum of $10,000 or an amount equal to the insured person's annual salary, up to $75,000. For employees age 65, the amount of insurance reduces 50% but will be no less than $5,000. For employees age 70 and older, insurance coverage is terminated. An employee must be employed by the State one year before he/she becomes eligible for this insurance. The premium is paid entirely by the PUC. (Subject to change due to on-going contract negotiations.)

OKLAHOMA CC Employees are provided with $20,000 life insurance.

OREGON PUC Management and executive service employees receive a fully paid life insurance plan which provides a principal sum equal to the employee's annual salary rounded up to the next multiple of $1,000. There is also an employee-paid accidental death and dismemberment plan. Unrepresented employees may enroll in a group plan available through the employer, but paid by the employee. There is also an employee-paid accidental death and dismemberment plan for which employee chooses the principal amount.

PENNSYLVANIA PUC Group life insurance is fully paid by employer. Term insurance is set annually to the nearest thousand of an employee's salary, not to exceed $40,000.

PUERTO RICO PSC With a small monthly payment eligible employees may join the Association of Commonwealth Employees' Life Insurance.

RHODE ISLAND PUC Each new employee is automatically covered in the life insurance program unless he/she declines in writing. Each covered employee is provided with an amount of group life insurance equal to the amount of his/her annual compensation taken to the next higher multiple of one thousand dollars, plus an equal amount of group accidental death insurance with dismemberment coverage.

SOUTH CAROLINA PSC The State pays 100% for employees and offers optional group life.

SOUTH DAKOTA PUC State provides a group life insurance policy based on employee's salary and offers an optional employee-paid supplemental plan.

TENNESSEE PSC Fringe benefits applicable to Commissioners and staff members include life insurance.

TEXAS PUC & RC State pays $107.00 on a comprehensive medical care plan which includes $4,000 life insurance and $4,000 accidental death and dismemberment insurance for employee only. Optional coverage is available on a volunteer basis for employee's dependents. Additional benefits are also available at the employee's expense.

UTAH PSC A group term life insurance plan is available. The State pays the cost for a nominal amount of coverage. Additional amounts of coverage for the employee, and a nominal amount of coverage for the employee's dependents, may be purchased.

VERMONT PSB Group life insurance is provided to each State employee for an amount equal to current salary, with a base minimum of $10,000. The State pays 75% of the premium.

VIRGINIA SCC The Commonwealth holds a group life insurance policy. An employee aged 70 and under is insured for approximately two times the next highest $1,000 of his annual salary, and doubled again for accidental death, at no cost to the employee.

WASHINGTON UTC Group Life insurance is provided to each State employee in the base amount of $5,000, the State paying the premium. Optional term insurance up to $100,000 is available at group rates.

AGENCY FRINGE BENEFITS

LIFE INSURANCE
(Continued)

WEST VIRGINIA PSC Group life insurance is provided each State employee in the base amount of $10,000, the State paying the premium after one year of service.

WISCONSIN COT & PSC After six months of employment, new employees may purchase life insurance equal to their annual earnings (rounded off to the next higher $1,000 multiple). Employee may elect to receive an additional amount of life insurance equal to 50% or 200% of earnings rounded off to the next highest $1,000. The life insurance provided is group term insurance with liberal benefits.

WYOMING PSC Group life insurance is available -- $10.00 paid by State on employee only.

CANADIAN AGENCIES

CANADIAN RTC Senior managers excluded from collective bargaining have a life insurance plan valued at twice their salary. There is also an optional plan in addition to this term insurance.

NATIONAL ENERGY BOARD Employees excluded from collective bargaining have a life insurance plan valued at twice their salary. There is also an optional plan in addition to this term insurance.

ALBERTA PMC All employees are covered for twice their annual salary for death by natural causes and an additional twice their salary for death by accidental means. The premiums are fully paid by the Commission.

ALBERTA PUB Participation in a group life insurance plan is a condition of employment for all full-time salaried employees. Premium costs are split between the employee and the government. Coverage of each employee is 2.5 times regular salary rounded out to the next highest $1,000 up to a maximum of $125,000 coverage for each bargaining unit employee and $150,000 for each Management employee.

BRITISH COLUMBIA UC Life insurance benefits are available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU The Board participates in a government sponsored Group Life Insurance Plan paying 50% of the premiums. Insurance is term life and coverage is two times annual salary.

NOVA SCOTIA BPU Employees are enrolled as part of the Provincial Government Group Life insurance plan. Standard coverage is twice salary with optional coverage available to a maximum of four times salary.

ONTARIO EB For Basic life insurance (compulsory) and post retirement insurance, employer pays 100% of premium; Supplementary life insurance and Dependent coverage is also available at employee expense.

QUEBEC NGB and TB Basic $6,400 life insurance provided free of charge by employer; optional supplementary group life insurance available at employee expense.

AGENCY FRINGE BENEFITS

RETIREMENT PLAN

FCC. Commission employees are eligible for retirement benefits available to all Federal employees.

FERC. Commission employees are eligible for retirement benefits available to all Federal employees.

ICC. Commission employees are eligible for retirement benefits available to all Federal employees.

ALABAMA PSC. All Merit System employees are members of the State Retirement System and contribute 5% of gross earnings with employing agencies paying another 7.1%. Benefits for retirement are contingent on years of service and earnings.

ALASKA PUC. Contributions to the retirement plan are paid by both employer and employee.

ARIZONA CC. All probationary and permanent employees are members of the State Employees Retirement System. Deductions are made per pay period based upon uniform percentage of gross revenue; vested after 5 years.

ARKANSAS PSC. Commissioners and Staff are covered by Public Employees Retirement System fully funded and paid by the State. Retirement System provisions include 10 years service to vest in the system, and retirement at any age after 30 actual years of state service.

CALIFORNIA PUC. State employees have a separate retirement system; all employees become members of the Public Employee's Retirement System when they are hired except those on less than half-time basis. A second-tier retirement plan is also available on a voluntary basis for new and existing employees.

COLORADO PUC. State employees have a mandatory retirement system -- Public Employees Retirement Association.

CONNECTICUT DPUC. Tier I Contributions are paid by employer and employee; Tier II contributions are paid by the State only.

DELAWARE PSC. All Commissioners and staff are covered under the State Employees' Pension Plan. Employees become eligible at age 65 with at least five years credited service, at age 60 with at least 15 years credited service, or with 30 years of credited service. The Pension Plan is supported by contributions from both the State and its employees - with the State paying most of the cost. Employees hired after July 1, 1976 contribute 3% of their gross salary over $6,000.

DISTRICT OF COLUMBIA PSC. The Commission and employees contribute equally to the retirement plan.

FLORIDA PSC. All employees are covered under the Retirement System (FRS). The State contributes 13.38% of each Career Service and Selected Exempt Service employee's annual salary, with no contribution made by employee. Career Service and Selected Exempt Service employees become vested after completing 10 years of service. Normal retirement is after completion of 30 years, or after 10 years and having reached age 62. Senior Management Service employees have the option of participating in the FRS plan in which the State contributes 14.12% of each Senior Manager's annual salary with no contribution by the employee; or the Optional Annuity Plan in which employee and State both contribute 7.72%. Senior Managers in this plan have full and immediate vesting.

GEORGIA PSC. All staff members are eligible to participate in the State Employees Retirement Plan.

HAWAII PSC. The Commission's mandatory retirement plan applies to Commissioners and staff members.

IDAHO PUC. The State of Idaho matches the scheduled contribution of employees to the retirement plan established according to their salaries.

ILLINOIS CC. Employees must contribute 4% of salary to the retirement plan; the employer pays an additional percentage.

INDIANA URC. The State contributes 3% of salary to the Public Employees Retirement Fund (PERF); employees may keep money in the guaranteed fund; or they may take one of two investment options which are not guaranteed.

IOWA DOT & SUB. The IPERS program, administered by the State Employment Security Commission, provides retirement benefits for employees. Employees contribute 3.7% and the State contributes 5.75% of gross salary.

AGENCY FRINGE BENEFITS

RETIREMENT PLAN
(Continued)

KANSAS SCC. Employee pays 4% of gross earnings into the Public Employees Retirement Plan. The State pays a changing percent toward his/her retirement -- at present time 3.04%.

KENTUCKY PSC, RC AND TRANSP. CABINET. The State contributes 7.45% to the retirement plan and employees contribute 5% of gross salary.

LOUISIANA PSC. Commission employees are covered under the State retirement plan. Employee pays 7%; employer pays 11.2% (effective 7/1/87).

MAINE PUC. All regular full-time employees must join the State Retirement System as a condition of employment. Benefits are financed by contributions from employees (6.5% of pay) and the State, whose contribution is determined by actuarial computations. Normal retirement age is fixed at 60; compulsory retirement age at 70.

MARYLAND PSC. Employees are provided with a retirement or pension plan.

MASSACHUSETTS DPU. Employees hired after January 1, 1984, contribute 8% to the retirement plan. Employee contributions are used to provide an annuity upon retirement and interest is paid annually on these contributions. Employees must work for 10 years to be vested. Persons who terminate are entitled to receive their accumulated contributions without interest on these funds. The Commonwealth provides retirees an annual pension based on age, length of service, and salaries earned in the highest three years.

MICHIGAN DOT AND PSC. Full retirement benefits age 55 with 30 years service, fully funded by State; benefits equal 1.5% of final average salary times years of service; vested after 10 years, payable at age 60.

MINNESOTA DOT. The State of Minnesota provides retirement benefits to all employees.

MINNESOTA DPS, PUC & TRB. 7.63% of gross income each pay period is set aside for retirement income; employees contribute 3.73%, the State contributes 3.9%. Benefits include: (A) Retirement Annuities - 1. Full-age 65; Age 62-30 years credited service; 2. Modified or reduced Age 55-10 years of service; (B) Disability Benefit; C) Deferred Annuity; (D) Refund; (E) Lump Sum Death Payment; (F) Surviving Spouse Benefit; (G) Combined Service Annuity Benefit.

MISSISSIPPI PSC. All State employees are required by law to join the retirement system. Deductions are made from employee's compensation in the amount of 6% with the State contributing 8.75%. Employees may retire after 30 years service with full benefits. For retirement before age 65, with less than 30 years service, the monthly allowance is reduced 3% for each year of age under 65. For retirement after 25 years service there is a 6 2/3% reduction for each year of service below 30 years and under 60 years of age.

MISSOURI DOT & PSC. The State Employees Retirement Plan (entirely state funded) applies to Commissioners and Staff who work more than 1,000 hours per year. Commissioners and staff are eligible to receive graded vested benefits if at least 5 years but less than 10 years of creditable service has been completed and employment was terminated prior to age 65. Participants with 30 years creditable service at age 55 may receive full benefits. The formula for determining monthly benefits is: 1.5% X average monthly compensation X years creditable service.

MONTANA PSC. A retirement plan is provided. Employees contribute 6.00% and the employer contributes 6.417% each month. The State retirement plan is optional to elected officials.

NEBRASKA PSC. Eligibility in the State Retirement System is optional at age 25 with one year of service and mandatory at age 30 with two years of service. Employee contributes 3.6% up to $24,000 and 4.8% thereafter, with the State contributing 1.56% of employee contribution. The employee becomes 100% vested after 5 years participation. There are several benefit elections upon retirement; benefit amount varies with the option selected.

NEVADA PSC. All persons employed by the State of Nevada at half-time or more are required to be members of the retirement system. Employees vest in plan after 10 years service. Two contribution methods: Employee/Employer Paid Retirement - Employee contributes percentage of gross wages (percentage set by Legislature) which is matched by state; Employer Paid Retirement - Mandatory for new employees hired after July 1, 1985 and upon vesting in system for existing employees. Employees' gross salary is reduced by an amount equal to employee's contribution on Employee/Employer paid plan less administrative costs and then 100% of contributions are paid by the State. Amount received upon retirement under either contribution method will

AGENCY FRINGE BENEFITS

RETIREMENT PLAN
(Continued)

be determined by the benefit election made upon retirement.

NEW HAMPSHIRE PUC. All permanent employees are members of State retirement system and contribute a percentage of gross wage.

NEW JERSEY BPU & DOT. Pension rights attain from date of permanent status. All permanent employees are required to join the pension system. Contributions are made by both the State and the employee. Generally employees are eligible for a retirement allowance at age 60 of 1/60 times average salary for the last three years times number of years of service. Early retirement is permitted after 25 years, but allowance decreased if under age 55. There is a special retirement allowance for veterans of one-half of the last year's salary after 20 years of service at age 62. Provisional employees with one year of service are required to join the pension system.

NEW MEXICO PSC & SCC. All classified and exempt employees are members of the Public Employees Retirement Association and contribute a percentage of gross wages - Member, 6.18% and Employer, 13.83%. Normal retirement eligibility conditions: At any age with 25 or more years credited service; at age 60 with 20 years; at 61 with 17 years; at 62 with 14 years; at 63 with 11 years; at 64 with 8 years; at 65 with 5 years. Amount of normal retirement pension based on final average salary (the average salary for the 36 consecutive months of credited service producing the largest average; credited service time; pension factor applicable to each year of credited service under particular coverage plan.

NEW YORK PSC & SDOT. The retirement plan is non-contributing, minimum retirement age 55 years; benefits - 1/60 of the three highest consecutive years' salary times number of years service up to 24; 1/50 for 25 or more years service (halfpay) for those entering State service prior to July 1, 1973. For those entering State service from July 1, 1973 - June 30, 1976, same as above except that to receive full benefits one must retire at age 62; may retire at age 55 with reduced benefits. For those entering State service after July 1, 1976, substantially the same as those entering after July 1973 except that after January 1, 1977 such employees will be required to contribute three percent of their gross salary to the retirement plan.

NORTH CAROLINA UC. The State Employee's Retirement Plan applies to Commissioners and staff members. Employees contribute 6% of salary, employer contributes 11.19%. The annual retirement benefit is .016% of average final compensation times the years of creditable service; full benefits at age 65 with 5 years of creditable service or after 30 years of creditable service; reduced benefit plans are available for early retirement.

NORTH DAKOTA PSC. The state contributes 9.12% to the Retirement System; 4% of that amount is contributed on the employee's behalf and credited to their retirement account.

OHIO PUC. Employees of the PUCO are members of the Public Employee's Retirement System (PERS). Membership is mandatory for all employees except those specifically exempted under PERS rules. The State and the employee both contribute to the retirement fund at the following percentages of gross wages: employer - 13.7%, employee - 8.5%. Employees are eligible to retire with full benefits after 30 years of service at any age. There are provisions for survivor benefits with this system.

OKLAHOMA CC. Employees participate in the Oklahoma Public Employees Retirement System. For FY 88, State share is 14% of salary, employee pays 2%, up to $25,000, employee has option to pay 10% on excess of $25,000 to maximum of $40,000.

OREGON PUC. The retirement plan is fully funded by employer. Membership in the retirement system is mandatory for all permanent employees working in excess of 600 hours per year, after completing 6 months with a participating public employer.

PENNSYLVANIA PUC. Employee contribution 5% for basic retirement benefit; 6.5% for employees hired on or after July 22, 1983. Approximate formula for basic retirement benefit: Years of Service X Final Average Salary (High 3 years) X 2%. Full benefits after 35 years of service or age 60 with 3 years of service; disability retirement after 5 years. Vesting or actuarially reduced benefits after 10 years of service. Reduced Pension available after 30 years of service at age 53 (legislation expires 6/30/93).

PUERTO RICO PSC. Employee pays 4% of salary and the government pays 7% to the retirement plan, administered by the Governor's Office of Personnel.

RHODE ISLAND PUC. All full-time State employees under age 60 automatically become members of the State retirement system. Employee contributes 7% of salary by payroll deduction each pay period; an employee leaving State employment before retirement is paid in a lump sum the total amount deducted during employment.

AGENCY FRINGE BENEFITS

RETIREMENT PLAN
(Continued)

SOUTH CAROLINA PSC. Staff members are automatically enrolled in a plan administered by the South Carolina Retirement System.

SOUTH DAKOTA PUC. All State employees are covered by the State retirement system. Employee and employer both contribute 5% of gross salary (after withholding). Minimum eligibility for retirement benefits is five years of service at age 55. Employee contributions plus interest refundable if employee leaves State employment and elects refund.

TENNESSEE PSC. A retirement plan fully funded by employer is applicable to Commissioners and staff members.

TEXAS PUC & RC. Each employee must become a member of the Employees Retirement System of Texas, which requires that 6% of each month's gross salary be withheld by the employing agency. Retirement laws require the State to contribute 7% based on each employee's monthly gross salary to each employee's retirement account. These funds are invested by the Retirement System to provide a retirement annuity at such time as the employee becomes eligible to retire. Minimum eligibility is ten years State employment at age 60. The employee's contributions plus 5% interest is refundable if he or she leaves State employment prior to ten years service.

UTAH PSC. All State employees are covered by the Utah State Retirement System, fully funded by the employer.

VERMONT PSB. Effective 7/1/78, all permanent employees are covered by a mandatory, non-contributory retirement plan.

VIRGIN ISLANDS PSC. Staff are employees of the Government of the Virgin Islands and entitled to the same fringe benefits which include retirement.

VIRGINIA SCC. The Commonwealth supplements Federal Social Security benefits with provisions for retirement on account of age or disability. Prior to 1980, the employee and the Commonwealth shared the costs; currently the Commonwealth contributes both shares. Employees hired prior to April 1980 are entitled to the 5% they contributed until October 1983 plus accrued interest on the amount paid, if they terminate prior to retirement. Employees hired after April 1980 are entitled to the 5% they contributed prior to October 1983 as well as the 5% the Commonwealth is currently contributing if they terminate prior to retirement. Normal retirement age is 65 (with 5 years of service), (or 55 with 30 years of service) with no mandatory retirement age. A retired State employee may purchase hospitalization/medical insurance through the Commonwealth.

WASHINGTON UTC. Retirement benefits are computed at the rate of 2% for each full year of State service based upon the salary for the two highest consecutive years of service for Plan 1 and the five highest consecutive years of service for Plan 2 commencing on or after October 1, 1977. Some alternative options are available which provide protection for beneficiaries with corresponding reduction in benefits to the employee.

WEST VIRGINIA PSC. Mandatory Public Employees Retirement Plan is funded by Employee contribution of 4.5% of salary and 9.5% State contribution.

WISCONSIN DOT, PSC & COT. Participation in a State-operated retirement program is mandatory (with certain technical exceptions). Retirement benefits for career employees retiring at or after the normal retirement age, when added to Social Security Benefits, should equal approximately 50% to 80% of the employee's average earnings during the three years of highest earnings. 100% of the State Retirement Plan is paid by the State (with certain exceptions).

WYOMING PSC. Participation in the Wyoming Retirement System is mandatory. Currently, employees contribute 3.71% of salary to the system; the State contributes 5.68%; the PSC contributes 1.86%. Vesting occurs after participating 48 months.

CANADIAN AGENCIES

CANADIAN RTC. Employees are eligible for retirement benefits available to all Canadian Federal Government employees. Employer and employees contribute in equal shares to the Public Service Superannuation Plan and the Canada Pension Plan. Employee pensions are indexed under the Supplementary Retirement Benefit Act.

NATIONAL ENERGY BOARD. Board employees are eligible for retirement benefits available to all Canadian Federal Government employees. Both the employer and employee contribute in equal shares to the Public Service Superannuation Plan and the Canada Pension Plan. Employee pensions are indexed under the Supplementary Retirement Benefit Act.

AGENCY FRINGE BENEFITS

RETIREMENT PLAN
(Continued)

ALBERTA PMC. All employees are required to contribute to Federal and provincial pension plans.

ALBERTA PUB. Public Service Pension Plan - Alberta Government provides a pension plan based on salary and years of service. Canadian Pension Plan - All employees are required to participate according to the Canada Pension Act. Benefits under this plan are payable upon retirement.

BRITISH COLUMBIA UC. Retirement plan is available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU. Board participates in the Pension Plan of the Government of Newfoundland and the Canada Pension Plan and pays 50% of the cost. Commission members have the option of electing to be covered instead under the Board's Pension Regulations for commissioners. This non-contributory system is paid in full by the Board, however, there are no survivor benefits.

NOVA SCOTIA BPU. The Board and staff are covered by the Nova Scotia Public Service Superannuation Act. Employee premiums are based on salary with a stepped rate of between 5.4% and 7.0% of salary. One half of premiums are paid by the Board.

ONTARIO EB. Public Service Superannuation Fund (PSSF) and Canada Pension Plan (CPP) - employee pays 6% of salary and employer pays 6% of salary plus actuarial deficits for PSSF; Superannuation Adjustment Fund (Pension Escalation Fund) - employee and employer pay 1% of salary.

ONTARIO TSC. Fringe benefits are in accordance with Provincial Government policy.

QUEBEC NGB. Employees automatically join the retirement plan and contribute seven percent of their salary to the fund.

QUEBEC TB. Accumulation of pension credits at the rate of 2% per year with a maximum of 35 years (or 70%) based upon the average salary during the five highest paid years of service. Controllers or staff members contribute 7% of salary to the fund.

AGENCY FRINGE BENEFITS

SICK LEAVE

FCC Commission employees are eligible for sick leave benefits available to all Federal employees.

FERC Sick leave accrues at rate of 13 days per year, without limit on accumulation. Unused sick leave at time of separation cancelled without payment. In event of retirement the unused time is treated as additional service for the purpose of computing annuity.

ICC Commissioners, staff officials and employees are entitled to sick leave under the following statute: 5 U.S.C. sec. 6301.

ALABAMA PSC An allowance of four hours per biweekly period is allowed for sick leave, the accumulation limit being 150 days. Upon retirement, employee is paid one-half accumulated sick leave.

ALASKA PUC Senior Management (ie Commissioners, Executive Director, Attorneys) have no sick leave but a higher level of annual leave. All others have fifteen days per year.

ARIZONA CC Each full-time employee is entitled to eight hours per month with unlimited accrual. Payoff of $750 if accrual exceeds 1,000 hours at retirement.

ARKANSAS PSC Sick leave accrues at a rate of one day per month with a 90-day maximum accrual.

CALIFORNIA PUC After completion of a monthly pay period each full-time employee earns eight hours of sick leave. Sick leave can be used each month as earned. Employees are also permitted to use accrued sick leave for family illness or injuries.

COLORADO PUC Sick leave--6.66 hours per month--limit on accrual.

CONNECTICUT DPUC Sick leave accrues at fifteen days a year.

DELAWARE PSC Sick leave is accrued monthly at the rate of 1-1/4 days, and may accumulate without limit. A maximum of ninety days credit shall apply for cash payment and only under the following conditions: retirement, and in case of lay-off at the rate of one day's pay for each two days of unused sick leave, or death at the rate of one day's pay for each day of unused sick leave. Sick leave may be used when an employee or member of immediate family is sick.

DISTRICT OF COLUMBIA PSC Sick leave is earned by staff members at the rate of 4 hours every two weeks. The three Commissioners and the People's Counsel are not granted leave on the basis of length of service. It is entirely an individual decision, but generally they follow the same guidelines as do the other staff members.

FLORIDA PSC Career Service employees earn sick leave at the rate of 8 hours and 40 minutes monthly. Senior Managers and Selected Exempt employees annually earn 120 hours and 104 hours, respectively. There is no limit on the number of hours of sick leave credits an employee may accumulate. Upon separation from the State, employees with ten or more years of service receive payment for a percentage of their unused sick leave.

GEORGIA PSC Each employee receives 1-1/4 days of sick leave per month.

HAWAII PUC Commissioners and staff receive 21 days sick leave per year.

IDAHO PUC Sick leave accrues approximately one day per month--based on hours worked.

ILLINOIS CC Sick leave is accrued at the rate of one day per month--accumulative.

INDIANA URC Sick leave is accrued at the rate of one day per two months.

IOWA DOT & SUB All permanent classified employees of the State accrue sick leave at the rate of one and one-half days for each month of service. All accrued sick leave is placed in an employee's active sick leave account.

KANSAS SCC The Commissioners and staff members earn eight hours sick leave each month. Upon retirement compensation for thirty days is paid if person has completed 8 or more years and has accumulated 100 or more sick days; compensation for 45 days paid if 15 or more years service and accumulated more than 125 sick days; pay for 60 days if 25 or more years service and accumulated 150 or more sick days. Sick leave is not subject to a maximum allowable accumulation.

AGENCY FRINGE BENEFITS

SICK LEAVE
(Continued)

KENTUCKY PSC, RC AND TRANSP. CABINET Sick leave is earned at the rate of one day per month worked.

LOUISIANA PSC Sick leave earned on length of service: 0-3 years, 12 days/year; 3-5 years, 15 days/year; 5-10 years, 18 days/year; 10-15 years, 21 days/year; 15 years or more, 24 days/year.

MAINE PUC Sick leave is earned at the rate of one day per month worked.

MARYLAND PSC Sick leave is accrued at 15 days per year. There is no limit on accrual, and the balance is credited towards retirement.

MASSACHUSETTS DPU One and one-fourth days per month after one full month's service; accumulated indefinitely, but not paid for upon termination. Upon retirement, employee may receive up to 20% of accumulated sick leave in cash.

MICHIGAN DOT & PSC Thirteen days annually.

MINNESOTA DPS, PUC, DOT & TRB Four hours per two weeks; reduced to two hours per two weeks after accumulation of 900 hours.

MISSISSIPPI PSC Major Medical leave is earned, per month worked:

1 month to 3 years	8 hours per month	12 days per year
37 months to 8 years	7 hours per month	10.5 days per year
97 months to 15 years	6 hours per month	9 days per year
Over 15 years	5 hours per month	7.5 days per year

Major medical leave may be used for the illness or injury of an employee, only after the employee has used one (1) day of personal leave for each absence due to illness. Upon retirement unused leave may be credited toward additional state service.

MISSOURI DOT & PSC Sick leave accrues at one and one-fourth days a month regardless of the length of time of service. No limit on accrual.

MONTANA PSC Sick leave is accrued at the rate of 12 days per year and, upon retirement, one-fourth of any sick leave is paid to the employee at his present salary.

NEBRASKA PSC Sick leave is earned at the rate of 96 hours per year during the first five years of employment and progressively increases until 240 hours per year are earned during the 19th year of continuous employment and thereafter. Maximum accrual is 1440 hours. One-fourth of any sick leave accrued is payable upon retirement at current salary rate--maximum payable is 360 hours.

NEVADA PSC Sick leave earned at the rate of 1.25 days a month.

NEW HAMPSHIRE PUC Sick leave earned at the rate of 1.25 days per month. Bonus leave: An employee shall receive one day of bonus leave for each three-month period during which time the employee does not utilize any sick leave and 1/3 of a day for each month thereafter.

NEW JERSEY BPU & DOT Employees receive one day sick leave per month during the first calendar year of service. Thereafter, they receive 15 days per year. Sick leave may be accumulated from year to year. At retirement, permanent employees are eligible for payment for 1/2 of their unused sick leave to a maximum of $15,000.

NEW MEXICO PSC & SCC Eight hours a month is granted for sick leave with no restriction on the amount accumulated. Over 600 hours of sick leave can be converted to cash at the rate of 50% hourly rate up to 120 hours--at retirement up to 400 hours.

NEW YORK PSC & DOT Thirteen or ten days per year, dependent upon negotiating unit to a maximum accumulation of 165 days; sick leave at one-half pay granted on basis of two weeks for each six months service.

AGENCY FRINGE BENEFITS

SICK LEAVE
(Continued)

NORTH CAROLINA UC Each employee earns eight hours sick leave each month with unlimited accumulation. Sick leave may be used when the employee or a member of the employee's immediate family is ill. One month of credit is allowed for each 20 days of unused sick leave credited to an employee at retirement.

NORTH DAKOTA PSC Sick leave (regular employees only): Based on 40-hour week, allowance is one day per month. No maximum accumulation. No payment made for accumulated sick leave at termination of employment.

OHIO PUC All full-time permanent employees are credited with 80 hours of sick leave as of December 1st of each year. New employees appointed after December 1st of each year is credited with 80 hours of sick leave minus 3.1 hours for each pay period elapsed since December 1. Part-time and temporary employees accrue 2.1 hours of sick leave for each 80 hours of work. (Subject to change due to on-going contract negotiations.)

OKLAHOMA CC 15 days/year, 130 days accumulation limit.

OREGON PUC All full-time employees earn sick leave credits of 8 hours per month, accumulated indefinitely. There are specific uses for sick leave. Part-time employees receive a prorated amount of sick leave credits based on the number of hours worked.

PENNSYLVANIA PUC Sick Leave - 200 days maximum accumulation. Payment for portion of unused leave at retirement, subject to certain age and service requirements. Thirty percent of accumulated sick leave to a maximum of 60 days paid. 13.0 days earned annually (5% of regular hours paid).

PUERTO RICO PSC One and one-half days per month; maximum accrual of 90 days at end of year.

RHODE ISLAND PUC Sick leave: Thirty-five hour work-week employee accrues four (4) hours for each bi-weekly period of service; forty-hour work-week employee accrues five (5) hours for each bi-weekly period of service; total amount allowed to accumulate - 875 hours (35 hour work-week), 1,000 hours (40 hour workweek).

SOUTH CAROLINA PSC One and one-fourth days per month. Can accrue up to 195 days and carry over from one calendar year to the next any unused sick leave to a total maximum carry over of 180 days.

SOUTH DAKOTA PUC 4.3077 hours every two weeks, which is 14 days per year; no limit on accrual.

TENNESSEE PSC Sick leave earned at the rate of 1 day per month for all employees. No maximum amount of accrual.

TEXAS PUC & RC Each employee earns eight hours leave each month with unlimited accumulation. Sick leave may be used when the employee or a member of the employee's immediate family is ill.

UTAH PSC Sick leave is accumulated at the rate of four hours per two-week pay period or thirteen days per year. As an incentive to reduce sick leave abuse, after an employee has accumulated eighteen unused sick leave days, any sick leave days accumulated during any calendar year in excess of eight days may be converted to a scheduled vacation period the following year.

VERMONT PSB Up to 5 years - one day each month; 5 to 10 years - one and one-fourth days each month; 10 to 20 years - one and one-half days each month; 20 and over - one and three-fourth days each month.

VIRGIN ISLANDS PSC Thirteen days sick leave per year is granted.

VIRGINIA SCC Probationary and permanent employees are credited with ten hours (1-1/4 days) of sick leave each month. Unused credits may be accumulated without limit. Earned sick leave permits the continuation of full pay during absences caused by illness or injury. Special benefits are allowed if an illness is compensable by the Workman's Compensation Act. Upon separation, after 5 years of service, an employee is paid for one-fourth of unused sick leave up to a maximum of $2,500.

WASHINGTON UTC Employees are credited with one day of sick leave per month. There is no limit on accrual. Partial cash compensation is made under certain circumstances.

WEST VIRGINIA PSC Employees earn one and one-half days sick leave per month. There is no limit on accrual.

AGENCY FRINGE BENEFITS

SICK LEAVE
(Continued)

WISCONSIN COT & PSC Employees begin to earn sick leave immediately upon employment. Four hours of sick leave are earned for each biweekly period of service. Unused sick leave may accumulate from year to year without limit. Unused sick leave is converted to cash credit for payment of health insurance premiums upon retirement.

WYOMING PSC Sick leave accumulates at the rate of one day per month; with no maximum accumulation. Employees are paid upon separation for one-half of accumulated sick leave up to a maximum of 120 days (up to 60 days paid).

CANADIAN AGENCIES

CANADIAN RTC Basic sick leave amounts to 1-1/4 days per month.

NATIONAL ENERGY BOARD Basic sick leave amounts to 1 1/4 days per month.

ALBERTA PMC Liberal sick leave is granted. Absences of more than three days must be substantiated by a medical certificate.

ALBERTA PUB Separate provisions are made for casual illness leave (three successive work days or less) and general illness leave (more than three successive days and substantiated by a medical certificate). Annual casual illness leave entitlement is ten work days with pay with each day used being deducted from the annual entitlement and is not accumulated from one year to the next. General illness leave entitlement is 60 days with 100% salary entitlement accruing over six years of consecutive employment. In the second year of employment the entitlement is 15 days at 100% of salary and 45 days at 70%. The sixth year is 100% salary entitlement for the first 60 working days of illness and 70% of normal salary for each of the next 20 work days of illness.

BRITISH COLUMBIA UC Sick leave benefits are available to staff subject to the terms established through plans offered by the Government of the Province of British Columbia.

NEWFOUNDLAND BPU Sick leave is earned at the rate of two days per month of service. Maximum accumulated is 480 days.

NOVA SCOTIA BPU Short term sick leave is available at an accumulating rate of 2 days per month worked to a maximum of 100 days. No part of the sick leave is payable on retirement or termination. For illnesses lasting over 100 days, there is a long-term disability program available.

ONTARIO EB Six days at full pay, 124 days at 75% pay--may be supplemented by vacation credits.

ONTARIO TSC Six days at full pay, 124 days at 75% pay.

QUEBEC NGB Commissioners: No cumulative sick leave plan. Staff: Cumulative sick leave plan, 1 day per month.

QUEBEC TB Controllers and Division Heads: No cumulative sick leave plan; Chairman's approval requested. Staff members: Cumulative sick leave plan, 1 day per month; medical certificate may be requested.

AGENCY FRINGE BENEFITS

OTHER BENEFITS

ALABAMA PSC. Employees eligible to become members of employees Credit Union. Deferred compensation plans are available.

ALASKA PUC. Supplemental Benefits System replaced Social Security in Alaska State Government. The System gives employees option of additional medical and/or life insurance with remaining funds being put into an annuity account for retirement. New employees hired after 7/1/86 must contribute to Medicare through FICA withholding. All State employees are eligible to become members of State Credit Union; a deferred Compensation Plan is offered to employees; employees may be granted fifteen days of military leave per year; leave for jury duty may be granted to employees; and five days funeral leave is granted for immediate family.

ARIZONA CC. Each State employee is eligible to become a member of the Arizona State Employee Federal Credit Union for which there is a $.50 per person membership fee. There is also a deferred compensation plan.

ARKANSAS PSC. Deferred Compensation Plan available at option of employee; optional insurance plans (ie, cancer policy) are available with payroll deduction; some employee/management training courses are paid by State; paid court leave; paid time off for annual military reserve training; credit unions are available with payroll deduction.

CALIFORNIA PUC. Bereavement leave is a paid leave benefit separate from sick leave. Employees may request up to three days of bereavement leave per fiscal year.

COLORADO PUC. A Deferred Compensation Plan is available. Bereavement leave is a paid benefit, employee may be granted up to 5 days for death of a member of the immediate family.

CONNECTICUT DPUC. A Deferred Compensation Plan is available. All State employees are eligible for membership in the State Employees Credit Union. Optional life insurance/disability plans, paid leave for military duty, jury duty, bereavement and maternity are available. The State Employee Suggestion Program provides cash awards for suggestions adopted and used by the State. State-paid training courses/seminars and a tuition reimbursement program are also offered.

DELAWARE PSC. Credit Union: Each State employee is eligible to become a member of the State of Delaware Federal Credit Union for which there is a $5.00 membership fee. **Deferred Compensation:** There are 5 investment options available through the State Plan. Participants must defer at least $21.00 per month and may defer as much as 25% of their gross compensation, as long as that amount does not exceed $7,500 annually. **Blood Bank:** Annual membership in the Delaware Blood Bank is paid by the State.

DISTRICT OF COLUMBIA. A Deferred Compensation Program is available through payroll deduction. The program permits an employee to set aside a portion of his or her pay and have Federal Taxes on this amount deferred until retirement or termination. In addition each employee is eligible to become a member of the District of Columbia Credit Union for a $5.00 membership fee.

FLORIDA PSC. Deferred Compensation Plan: Employees may put aside up to 25% of gross income to a maximum of $7,500 per year and have the Federal taxes on these amounts deferred until retirement or termination. This plan is in addition to the State retirement plan and is optional to all State employees.

HAWAII PUC. Deferred compensation plan, credit union, tuition reimbursement, funeral leave, jury duty, and sabbatical leave.

IDAHO PUC. The Idaho Public Employees Deferred Compensation Program is a tax sheltered savings plan offered to State employees through payroll deduction. The program permits an employee to set aside a portion of pay prior to paying taxes on it. The money also earns interest without currently paying taxes on the interest.

ILLINOIS CC. Deferred Compensation Plan: Employees may put aside up to 25% of gross income to a maximum of $7,500 per year and have the Federal taxes on these amounts deferred until retirement or termination. This plan is in addition to the State retirement plan, and is optional to all State employees. Also available are employee credit union and tuition reimbursement.

INDIANA URC. Credit Union: credit union for loans and savings, Deferred Compensation Plan, funeral leave.

IOWA SUB and DOT. Employees may put aside up to 25% of gross income (maximum of $7,500 per year) on which Federal tax is deferred until retirement or termination. This is in addition to the State retirement plan, and is optional.

AGENCY FRINGE BENEFITS

OTHER BENEFITS
(Continued)

KANSAS SCC. Deferred compensation plan; Awards program; tuition reimbursement; jury duty and funeral leave; 12 days with pay for Military Reserve Annual Training. Employee retirement contributions are withheld before tax payroll deductions.

KENTUCKY PSC. DEFERRED COMPENSATION: Employees may put aside up to 25% of gross income in the 457 (max of $7,500) and/or 401k (max of $7,313) plans, with federal and state income tax deferred until retirement or termination. These plans are in addition to the State retirement plan. CREDIT UNION: Employees may join one of two State credit unions. OTHER BENEFITS: Suggestion Award program, educational assistance, jury duty, 10 days with pay for military reserve annual training and educational achievement awards.

KENTUCKY RC AND TRANSP. CABINET. State employees may join Credit Union and Deferred Compensation Plan. Awards program is available as well as job related tuition reimbursement.

LOUISIANA PSC. Credit union; deferred compensation plan; jury duty, educational and funeral leave; incentive program.

MAINE PUC. **Other Benefits**: Tuition, registration, travel and per diem is paid by the PUC for seminars, courses, conventions, etc., for Commissioners and staff members. **Credit Union**: All State employees are eligible to become members of the employee credit union and the Maine State Employees Association is one of three bargaining units.

ONTARIO EB. Tuition, registration, travel and per diem is paid for seminars, courses, conventions, etc. for Commissioners and staff members.

PART II

1988 UTILITY AND CARRIER RATE CASES

Introductory Statement

Part II contains information that summarizes utility and carrier rate cases that have been or are being considered (within the reporting period) by regulatory agencies during 1988. Information contained herein is based on data received from the various agencies.

The information is arranged in tables by type of utility and carrier, and then alphabetically by agency and company name. A section is provided for multi-utility rate cases for instances in which a single utility company provides more than one type of service, such as gas and electric, as well as a separate section for miscellaneous utility rate cases, which do not fall into the primary categories. Also, a section is provided for miscellaneous carrier rate cases which includes information on rate increases involving pipelines, limousines, taxicabs, etc.

Data contained in Part II is the actual data received from the agencies. In most of the utility cases the numbers are rounded to the nearest thousand dollars. In the cases where the agencies did not round to the nearest thousand dollars, the entire amount is shown. The final increase (in the utility and carrier cases) includes any interim increase granted.

The following KEY will help in understanding abbreviations used for Capital Structure Allowed and Cost of Capital Allowed columns:

D = Debt; LTD = Long Term Debt; STD = Short Term Debt; PFD = Preferred Stock; CE = Common Equity; CD = Customer Deposits; OR = Operating Ratio; CFC = Cost Free Capital; DC = Deferred Compensation

NOTES

A REFLECTS CHANGES RESULTING FROM REVISIONS THROUGH DECEMBER 1988.
B REFLECTS THE EFFECT OF DECEMBER 1988 REVISIONS REQUIRED BY THE FCC FOR EARNINGS NORMALIZATION.
C REPRESENTS THE CHANGES PROPOSED BY THE LOCAL EXCHANGE CARRIERS IN THE DECEMBER 1988 ANNUAL ACCESS TARIFF FILINGS TO BECOME EFFECTIVE IN APRIL 1989.
D CHANGES REQUIRED BY THE FCC TO THE CHANGES PROPOSED IN C ABOVE.
E REFLECTS ADDITIONAL CHANGES IN THE CARRIER COMMON LINE (CCL) RESULTING FROM THE FCC'S REVISION OF MINUTES OF USE, SEE NOTE 1.
E* REFLECTS THE CHANGES RESULTING FROM THE FCC REQUIRED REDUCTIONS FOR CERTAIN SWITCHED TS ACCESS ELEMENTS.

1. FOR CCL, COLUMNS A THROUGH D HAVE BEEN ADJUSTED TO REFLECT CHANGES RESULTING FROM THE FCC'S REQUIREMENT THAT TIER I COMPANIES REVISE THEIR ESTIMATE OF CCL DEMAND BY 1.175 WHICH RESULTED IN A DECREASE OF 1.16% IN THE CCL RATE.
2. FCC ALLOWED THE 12/1/88 INCREASE IN THE SUBSCRIBER LINE CHARGE (SLC) OF $1,029 MILLION TO BE OFFSET BY AN EQUAL REDUCTION TO THE NECA CCL RATE. AS A RESULT OF THE FLO THROUGH, AT&T, IN ITS TRANSMITTAL NUMBERS 1378 AND 1384, REDUCED ITS CCL RATE BY APPROXIMATELY $698 MILLION TO REFLECT THE LOWER CCL RATE.
3. CCL RATE CHANGES INITIALLY PROPOSED FOR THE ENTIRE INDUSTRY WERE ($333) MILLION. THE DIFFERENCE BETWEEN THE INDUSTRY PROPOSAL AND THE ($784) MILLION PROPOSED BY THE TIE I COMPANIES IN COLUMN C RESULTS FROM COMPANIES OTHER THAN TIER I PROPOSING INCREASES TO THE CCL RATE WHICH REDUCED THE OVERALL NEGATIVE EFFECT. THE FCC, IN ITS 1989 ANNUA TARIFF PROCEEDING, REQUIRED FURTHER CCL REDUCTIONS FOR TIER I LECS ONLY. NOTE THAT THE LARGE CCL REDUCTIONS FOR TIER I LECS AND LARGE CCL INCREASES FOR OTHER LECS PRIMARILY REFLEC DEPOOLING OF THE CCL RATE, EFFECTIVE APRIL 1, 1989.
4. IN ITS 1989 ACCESS ORDER, THE FCC DIRECTED THAT CCL REDUCTIONS BE FLOWED THROUGH DIRECTLY TO THE CCL RATE. IN JULY 1989, HOWEVER, THE FCC, IN A LETTER TO THE TIER COMPANIES,. REQUIRED THAT LOCAL EXCHANGE CARRIERS DECREASE THE SUBSCRIBER LINE CHARGE (SLC) TO THE EXTENT THAT THE CCL REDUCTIONS REPRESENTED REDUCTIONS TO THE BASE FACTOR PORTIO AND INCREASE THE CCL RATES BY THE EXACT AMOUNT OF THE SLC DECREASE BEFORE AUGUST 1, 1989.
5. IN THE 1989 TARIFF ORDER THE FCC DETERMINED THAT SOME ACCESS RATES THAT WERE DISALLOWED UNDER THE 1989 ACCESS ORDER WERE JUSTIFIED IN PART. THIS WILL RESULT IN SMAL ADJUSTMENTS TO COLUMN D FOR CCL, SWITCHED AND SPECIAL ACCESS.
6. ON APRIL 1, 1989, AT&T, IN TRANSMITTAL NUMBERS 1519 AND 1557, FLOWED THROUGH ITS PORTION OF THE APRIL 1, 1989 ACCESS REDUCTIONS CONTAINED IN THIS CHART TO INTERSTATE RATES
7. EXCEPT FOR CCL, DATA HAVE BEEN PRESENTED FOR TIER I COMPANIES ONLY. DATA FOR THE SMALL COMPANIES HAVE BEEN OMITTED BECAUSE, EXCEPT FOR CCL, IT HAS NO SIGNIFICANT EFFEC ON THE ACCESS CHARGE CHANGES.

SOURCES: 1989 ACCESS ORDER, RELEASED MARCH 22, 1989; 1989 TARIFF REVIEW PLAN, ACCESS PRICEOUT COMPARISONS; 1989 TARIFF ORDER, RELEASED JUNE 29, 1989; AT&T TRANSMITTAL NOS 1378, 1384, 1519 & 1557; TARIFF DIVISION LETTER, REALLOCATION OF PARTIAL ALLOWANCES TO SLC FROM CCL, JULY 8, 1989; NECA TRANSMITTALS DATED 12/1/88 AND 4/1/89

NEW JERSEY DEPARTMENT OF TRANSPORTATION

The Department has established a Zone of Rate Freedom (ZORF) whereby regular route autobus carriers may increase their fares annually within the allowable percentage amounts as set forth by the Commissioner of Transportation. The percentage amounts are reviewed annually at a public hearing requested by the Commissioner and conducted by an Administrative Law Judge. Fare increases beyond those allowed by ZORF only with Departmental approval of a formal petition. NJSA 48:4-2.20 and NJAC 16:53D. For the year 1985, 123 autobus route operators used the ZORF to effect fare increases. No petitions received for increases beyond allowable ZORF amounts since ZORF in effect. Charter and specia autobus fares are exempt from ZORF regulation and may increase fares as they see fit. All autobus companies required to file any new tariff with the Department 30 days prior to new tariff's effective date.

NATIONAL ENERGY BOARD (CANADA)

1988 OIL PIPELINE RATE CASES

Name of Applicant	Date Filed	Range or Arithmetic Average of Rate Increase (Decrease) Requested $	Suspended To	Order Issued	Notes

CALENDAR YEAR 1988 COMMON CARRIER OIL PIPELINE CASES

FEDERAL ENERGY REGULATORY COMMISSION

In June 1985, a methodology was prescribed for ratemaking. Two cases tried during 1986, Southern Pacific Pipe Lines, Inc. (IS 85-15-000), in which an initial decision was rendered 4/30/87 and a final decision by the Commission is expected in the second half of 1988 and Kuparuk Transportation (IS85-9-000 and OR85-1-000), in which an initial decision is possible in late 1988, will begin to flesh out procedures. One case tried during 1987, Arco Pipe Line Company (IS86-3-000), in which an initial decision is expected in the third quarter of 1988 will continue to flesh out procedures. Finally, in the third quarter of 1988 the trial in Buckeye Pipe Line Co., L.P. (IS87-14-000, et al) will begin, and this important case will, for the first time, address cost allocation and rate design issues. More rate case activity is anticipated during 1989.

NATIONAL ENERGY BOARD (CANADA)

Although major toll applications are considered through public hearings, under its act and regulations, the NEB is authorized to approve certain classes of toll application without a public hearing. During 1988, three oil pipeline companies were subject to non-hearing toll adjustment proceedings.

PART III

NATIONAL TABLES ON UTILITY REGULATION

Introductory Statement

Part III presents the results of surveys on the extent of regulatory jurisdiction over utilities in each of the states, the District of Columbia, Canadian Provinces, plus Puerto Rico and the Virgin Islands. Also included is the extent of regulation over these utilities by the Federal Energy Regulatory Commission (FERC) [1] [2] [3], and the Federal Communications Commission (FCC). This information represents the interpretation, by the regulatory authorities concerned, of the nature and extent of their jurisdiction over utility companies under existing laws as of December 31, 1988.

The term "private" as used in this publication, refers to privately owned or investor-owned utilities. The term "public" refers to publicly owned utilities operated by municipalities and Federal, State or other governmental agencies.

The extent of agency authority may vary not only with the language of specific statutes but also with the interpretations of the laws by the agency and the courts. Within the limitations inherent in the interpretation of statutes, authority specifically granted and authority implied from general statutory provisions are shown in the tables by an "x". A blank indicates that the agency does not have specific authority to control the activity under consideration nor does it consider such authority as incidental to its general powers.

---

[1]On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Public Law 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 Fed. Reg. 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

[2]In addition, under the Act and the Executive Order, regulatory functions formerly vested in the Interstate Commerce Commission (ICC) were transferred to the FERC, where the regulatory function establishes rates or charges for the transportation of oil by pipeline or the valuation of oil pipelines. Because the FERC has had these additional responsibilities only since October 1, 1977, no attempt has been made to reflect this in the tables that follow other than to indicate the number of jurisdictional oil pipelines.

[3]Rate methodology for common carrier oil pipeline companies will be determined in Phase I Proceedings of TAPS, Docket No. OR78-1 and Williams Pipe Line Company, Docket No. OR79-1.

SECTION A

NUMBER OF UTILITIES

Tables 1, 2 and 3 show the number of utilities operating within each State as well as the number and various types of utilities subject to an agency's review. Some utilities operate in more than one State and therefore are represented in the totals of more than one State. Also, some utilities provide more than one type of utility service - such as gas and electric service - and therefore could be considered in more than one total. The degree of each agency's regulatory authority over the various utilities is presented in subsequent sections of Part III.

TABLE 1 - NUMBER OF UTILITIES OPERATING IN THE STATE WHETHER REGULATED OR NOT (ELECTRIC AND GAS)

N/A=Not Available STATE	Number of utilities operating in the State

FOOTNOTES - TABLE 1
NUMBER OF ELECTRIC AND GAS UTILITIES OPERATING IN THE STATE WHETHER REGULATED OR NOT

1/ Does not include 55 public housing authorities.
2/ Excludes small private gas concerns that have their own local production and sell to themselves and one or two other customers.
3/ Includes two state-owned utilities.
4/ Consists of twenty-eight cooperatives owned and operated in the state, and five cooperatives domesticated in the State.
5/ Includes one electric, gas and water company.
6/ Only includes certificated utilities.
7/ One investor-owned and 4 municipal combination utilities. One small municipal electric plant exempted from Department supervision.
8/ Includes two LPG only utilities.
9/ Includes 21 districts and four Indian Tribal Authorities - none of these are regulated by the Arizona Corporation Commission.
10/ Commission did not respond to requests for information; this data may not be current.
11/ Includes one combination electric-gas-water utility; two gas distributor utilities; and 46 master meter operators over which the Commission exercises limited jurisdiction.
12/ Five are privately owned, 26 public.

FOOTNOTES - TABLE 2
NUMBER OF ELECTRIC UTILITIES SUBJECT TO STATE REGULATION

1/ Approximately.
2/ One small municipal electric plant on Cuttyhunk Island exempted from Department jurisdiction under 1936 Act of Legislature.
3/ Territory and finance only.
4/ Territory only.
5/ Limited jurisdiction.
6/ Outside municipal limits.
7/ Plus 41 under jurisdiction of NY Power Authority. Section 1014 of the Public Authorities Law exempts the Power Authority of the State of New York from regulation by the Commission except for the siting of transmission and generation facilities under Article 7 and 8 and Section 18(a) of the Public Service Law. Municipalities which buy power from the Power Authority are also exempt from regulation by the PSC under Sec. 1005(5)(g) of the Public Authorities Law.
8/ Under partial Board jurisdiction. One municipally owned utility also under Board jurisdiction pursuant to Electric Energy Marketing Act.
9/ Excludes companies regulated from safety standpoint only.
10/ The PUC regulates safety, area allocation and curtailment. Full regulation is at violation of cooperative.
11/ Electric cooperatives are under the Commission's jurisdiction only for ad valorem assessment.
12/ Jurisdiction exists but no regulatees come under this category.
13/ Gas and electric regulation established April 12, 1974; rate regulation effective January 1, 1975.
14/ Territorial and siting.
15/ Municipals may elect Commission regulation. Certification required of all retail public utilities, including municipalities and political subdivisions. Two state affiliated river authorities under PUC jurisdiction for rates.
16/ Includes two state owned electric utilities.
17/ The rates of only 2 of the co-ops are under Commission regulation; Colorado still regulates the certificates and service territories of all cooperatives.
18/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 3
NUMBER OF GAS, COMBINATION ELECTRIC AND GAS, AND PETROLEUM PIPELINES SUBJECT TO STATE REGULATION

1/ Pipeline safety only on total system.
2/ Regulated by the Evaluation and Compliance Division of the Commission for tariffs; State Fire Marshal for Safety.
3/ Territory only.
4/ Commission did not respond to requests for update information; this data may not be current.
5/ Siting only.
6/ Excludes companies regulated for safety only.
7/ Certification and safety only.
8/ When municipally owned gas systems operate outside county in which they are located, Commission has jurisdiction over rates, service and safety for service supplied outside county.
9/ Under partial jurisdiction.
10/ Gas and electric regulation established April 12, 1974; rate regulation effective January 1, 1975.
11/ Under the Department of Energy Organization Act, Public Law 95-91, 91 Stat. 565 (8/4/77) and Executive Order 12009, 42 F.R. 46267 (9/25/77), functions formerly vested in the Interstate Commerce Commission were transferred to FERC, where the regulatory function establishes rates or charges for transportation of oil by pipeline or the valuation of oil pipelines, effective 10/1/77.
12/ Includes three cooperatives.
13/ Includes two LPG only utilities.
14/ Includes four municipal and one investor-owned combination utilities.
15/ Five privately owned, 26 public.

SECTION B

REGULATION OF ELECTRIC, GAS AND TELEPHONE RATES

Tables 4 through 17 show the extent of the authority of regulatory agencies over the various facets of the rate regulation of electric, gas and telephone utilities. Data is included on all 50 States, the District of Columbia, Puerto Rico and the Virgin Islands, as well as the Federal Energy Regulatory Commission (FERC), the Federal Communications Commission (FCC), and the regulatory authorities of the provinces of Nova Scotia, Ontario, Alberta and Quebec, Canada.

Absence of agency control over rates does not necessarily mean complete lack of governmental regulation. Under common law, public utilities must render service at reasonable rates and without undue discrimination. In the States where the agency lacks authority over one or more services, the statutes often provide other methods of regulating utility sales and service. For instance, Table 4 shows that relatively few State agencies have control over the rates of publicly owned or cooperatively owned utilities. However, regulatory authority over these utilities is generally vested within a municipal government or other governmental agency. Tables 8, 9 and 10 supply further information on municipal utility regulation.

State agencies with authority to regulate rates of privately owned electric, gas and telephone utilities also generally have the authority to require prior authorization of rate changes, to suspend proposed rate changes, and to initiate rate investigations. In a majority of the States, the agencies have the authority to prescribe interim rates and to establish sliding scale (ie, the authority to establish a plan for automatic periodic changes in rates), and to make other adjustments. Also, State agencies generally provide for representation of the consumer interest during regulatory proceedings on both a formal basis (representation by a People's Counsel or State Attorney General), and informal basis (the right of intervention by interested parties).

Details of the authority of the various State agencies to control rate changes and other aspects of the operation of the ownership classes of utilities are shown in the following tables of this Section.

1/ FERC has statutory jurisdiction over the power and transmission rates of Bonneville Power Administration and over power and transmission rates of DOE's other power marketing agencies as delegated by the Secretary of Energy. Rates for transmission of non-Federal electric power over the Federal Columbia River Transmission System became effective upon confirmation and approval by FERC under the Federal Columbia River Transmission System Act.
2/ Publicly owned utilities are regulated as to service area. Full regulation is imposed when competition exists between municipal and similar utility, or when public utility elects such regulation.
3/ Rates on sales from G + T to distribution companies.
4/ Only over services offered outside corporate limits.
5/ Only if earnings exceed 8 percent of original cost of plant in service or if discrimination between class of customers.
6/ Municipal utilities exempt from State regulation.
7/ Not over publicly owned electric utilities served by NYS Power Authority. Publicly owned gas or electric utilities need not decrease rates unless investigation was based upon complaint of 25 or more active customers.
8/ None in jurisdiction.
9/ Not unless co-op extends activities to include functions that make it a public utility under the statutes (except to portion of co-op service within incorporated municipality as a result of annexation).
10/ Authority to regulate rates for interstate and foreign services of telephone and telegraph carriers.
11/ FERC reviews rates by interstate pipelines to mainline industrial customers in certificate proceedings.
12/ Authority not exercised.
13/ Puerto Rico Telephone Authority, a state public corporation created by Law 25 (May 6, 1974) purchased the Puerto Rico Telephone Company.
14/ Commission jurisdiction excluded from rates covered by special agreements with municipalities.
15/ Jurisdiction over all rates either by tariff or contract.
16/ Mutual telephone companies in which at least 50% of the users are owners, cooperative telephone corporations or associations, and telephone companies having less than 15,000 customers and less than 15,000 access lines are not subject to rate regulation.
17/ Except no authority over rates charged to industrial customers by any gas company.
18/ Telephone is the only regulated utility, with jurisdiction limited to rate increases for basic exchange service of more than 10% during a 12-month period. Electric service is supplied by political subdivisions called public power districts, electric cooperatives and municipal electric systems. Nebraska is unique among the states in having no private power companies; all electric facilities are publicly-owned or member-owned. Natural gas is provided by private companies through franchise granted by each city, town or village.
19/ Basic rate structure regulation only.
20/ If municipality, appellate jurisdiction only. This Commission has original jurisdiction over two public authorities (River Authority).
21/ To extent not Federally preempted.
22/ Only if authorized by Lieutenant Governor in Council.
23/ If for resale outside municipal boundaries. Under Electric Energy Marketing Act the PUB has jurisdiction to fix the price at which one publicly owned utility sells to Alberta Electric Energy Marketing Agency.
24/ Only if the municipality petitions for regulation by Commission.
25/ Has authority only at the election of the cooperative.
26/ PUC does not regulate rates of rural telephone co-ops or of thirteen independents and three municipals.
27/ Commission has limited review authority over rate changes by municipally owned utilities.
28/ Rates of cooperatives providing services to members only are not regulated.
29/ May become deregulated upon majority vote of at least 15 percent of eligible members.
30/ Only intrastate WATS.
31/ Rates are not regulated for gas utilities serving fewer than 650 customers.
32/ 5 local exchange companies must have prior approval to change rates; other 89 companies must give notice but do not need PUC approval.
33/ SCC has authority to regulate rates for interexchange carriers but allows them to be set competitively.
34/ PSC does not regulate local rates for 14 telephone co-ops, 6 small independents nor the rates for resellers.
35/ SCC regulates one "Hinshaw" intrastate pipeline with sales for resale to a municipally owned utility.
36/ Electric public utilities with fewer than 10,000 customers not subject to rate regulation; gas public utilities with fewer than 2,000 customers are subject to rate regulation only upon petition by customers.
37/ Jurisdiction over electric utilities ended June 17, 1988.
38/ Of the 99 LECs operating in the state, only 12 are fully regulated. 75 small companies do not need PSC approval to raise rates unless customer petitions are filed and 12 co-ops are deregulated as far as PSC's authority to approve filings for rate changes.
39/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 5
AGENCY AUTHORITY TO REGULATE RATES ON SALES TO RESELLERS

1/ FERC has statutory jurisdiction over power and transmission rates of Bonneville Power Administration and over power and transmission rates of DOE's other power marketing agencies as delegated by the Secretary of Energy. Rates for transmission of non-Federal electric power over the Federal Columbia River Transmission System became effective upon confirmation and approval by FERC under the Federal Columbia River Transmission System Act. Rates for interstate sales under FERC jurisdiction; intrastate rates mainly under State jurisdiction.
2/ Publicly owned utilities are regulated as to service area. Full regulation is imposed when competition exists between municipal and similar utility, or when public utility elects such regulation.
3/ Rates on sales from G + T to distribution companies.
4/ Same as for private utilities and co-ops for facilities outside of 3 miles from the corporate limits of municipalities. Commission has no jurisdiction within the 3 mile limit.
5/ Only if earnings exceed 8 percent of original cost of plant in service or if discrimination between class of customers.
6/ Municipal utilities exempt from State regulation.
7/ Not over publicly owned electric utilities served by NYS Power Authority. Publicly owned gas or electric utilities need not decrease rates unless investigation was based upon complaint of 25 or more active customers.
8/ Only when service extends beyond the corporate limits of a publicly owned utility company.
9/ None in state.
10/ Not unless co-op extends activities to include functions that make it a public utility under the statutes (except to portion of co-op service within incorporated municipality as a result of annexation).
11/ Commission jurisdiction excluded from rates for intrastate service covered by special agreements with municipalities and rates for interstate services subject to the Federal Energy Regulatory Commission.
12/ Authority limited to rate charged and manner of delivery.
13/ Telephone is the only regulated utility, with jurisdiction limited to rate increases for basic exchange service of more than 10% during a 12-month period. Electric service supplied by public power districts, electric cooperatives and municipal electric systems. Nebraska is unique among the states in having no private power companies; all electric facilities are publicly-owned or member-owned. Natural gas is provided by private companies through franchise granted by each city, town or village.
14/ Only if municipality petitions for Commission regulation.
15/ If municipality, appellate jurisdiction only. This Commission has original jurisdiction over two public authorities (River Authority).
16/ Wyoming Supreme Court decision to effect PSC cannot regulate gas sale for resale.
17/ If for resale outside municipal boundaries. Pursuant to the Electric Energy Marketing Act the Alberta PUB has jurisdiction to fix the price at which one publicly (municipal) owned utility sells to the Alberta Electric Energy Marketing Agency.
18/ Rates of cooperatives providing services to members only are not regulated.
19/ May become deregulated upon majority vote of at least 15 percent of eligible members.
20/ Jurisdiction over electric utilities ended June 17, 1988.
21/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 6 OTHER AGENCY RATE REGULATION AUTHORITY

1/ FERC has statutory jurisdiction over power and transmission rates of Bonneville Power Administration and DOE's other power marketing agencies as delegated by Secretary of Energy. Rates for transmission of non-Federal electric power over the Federal Columbia River Transmission System became effective upon confirmation and approval by FERC under the Federal Columbia River Transmission System Act.
2/ Rates on sales from G + T to distribution companies.
3/ Only when service extends beyond the corporate limits of a publicly owned utility.
4/ Municipal utilities exempt from State regulation.
5/ Not over publicly owned electric utilities served by NY Power Authority. Publicly owned gas or electric utilities need not decrease rates unless investigation was based upon complaint of 25 or more active customers.
6/ None in state.
7/ Not unless co-op extends activities to include functions that make it a public utility under law.
8/ Authority to regulate rates for interstate and foreign services of telephone and telegraph carriers.
9/ Puerto Rico Telephone Authority, a state public corporation created by Law 25 (5/6/74) purchased the Puerto Rico Telephone Company.
10/ No specific statutory authority.
11/ Authority is not exercised.
12/ Approved interim rates are collected under bond subject to refund.
13/ Interim rates may be prescribed after meeting statutory requirements.
14/ Required to advertise 30 days prior to change.
15/ When not subject to FERC.
16/ Mutual telephone companies in which at least 50% of the users are owners, co-op telephone companies or associations, and telephone companies with fewer than 15,000 customers and less than 15,000 access lines are not subject to rate regulation.
17/ Emergency only.
18/ Telephone is the only regulated utility, with jurisdiction limited to rate increases for basic exchange service of more than 10% during a 12-month period. Electric service is supplied by public power districts, co-ops and municipal systems. Nebraska is unique among the states in having no private power companies; all electric facilities are publicly- or member-owned. Natural gas is provided by private companies through franchise granted by each city, town or village.
19/ If municipality, appellate jurisdiction only. Commission has original jurisdiction over two public authorities (River Authority).
20/ Alberta PMC may determine what amounts are eligible for inclusion in cost of service.
21/ Only if the municipality has petitioned for such regulation.
22/ Rates must be filed 30 days before final adoption by the utility; however, the rates become effective regardless of whether the PSC issues a comment to the utility on some aspect of its rate structure.
23/ Has authority only at the election of the cooperative.
24/ Commission has limited review authority over rate changes by municipally owned utilities.
25/ Rates become effective after seven months if Commission does not take action.
26/ PSC has state authority to require investor-owned, municipal and co-op utilities to wheel. PSC is pre-empted by FERC from setting wheeling rates for investor-owned utilities, but may regulate wheeling rates for municipal and co-op utilities.
27/ Investor-owned gas distribution companies only.
28/ Four local exchange companies must receive approval prior to changing rates; all other 93 companies must give notice but do not need prior approval.
29/ Jurisdiction over electric utilities ended June 17, 1988.
30/ Although some specific services have been deregulated.
31/ Commission did not respond to request for update information; this data may not be current.

1/ 100% of the amount of the temporary rate increase.
2/ Two percent annually plus the average quarterly interest rate at commercial banks for 24-month loans for personal expenditures, as determined by the Board, compounded annually.
3/ No temporary increases granted.
4/ Not to exceed 15% of utility's intrastate operating revenue.
5/ Same as rate of return.
6/ Determined by the Commission case by case.
7/ Current rate.
8/ Two percent above Federal Discount Rate.
9/ Not less than utility would have to pay for money borrowed in the market.
10/ Interim relief can be granted under statute based on negotiation and agreement on amount of emergency relief.
11/ Bond or other arrangement satisfactory to the agency.
12/ Prime rate. See FERC Order No. 47 (Docket No. RM77-22) issued September 10, 1979.
13/ Average of commercial paper rates on beginning and ending of month.
14/ Commission has authority to grant emergency rate relief, but not temporary relief. Such power is implied rather than expressed. (See Potomac Electric Power Company vs. Public Service Commission, app. D.C., 457 A. 2d 776, 1983)
15/ Average prime rate for each calendar quarter.
16/ "... in such amount ... to ensure prompt payment of any damages or refunds, with interest ..."
17/ Rate is the rate paid by Bank of North Dakota as of the first business day of each year on a six-month CD with the smallest deposit required.
18/ Commission did not respond to request for update information; this information may not be current.

FOOTNOTES - TABLE 8
AGENCY AUTHORITY TO SUSPEND RATE CHANGES OR INITIATE RATE INVESTIGATIONS

1/ Rates on sales from G + T to distribution companies.
2/ Only when service extends beyond corporate limits of publicly owned utility.
3/ Municipal utilities exempt from State regulation.
4/ Not over publicly owned electric utilities served by NY Power Authority. Publicly owned gas or electric utilities need not decrease rates unless investigation was based upon complaint of 25 or more active customers.
5/ None in state.
6/ Sixty days after filing, utility may place rates in effect under bond that does not exceed 15% of utility's gross intrastate operating revenue, or $1 million whichever is less. If no decision is made after 9 months the $1 million limit on revenues is removed.
7/ Not unless co-op extends activities to include functions that make it a public utility under the statutes (except to portion of co-op service within incorporated municipality as a result of annexation).
8/ Plus 60 days notice.
9/ Authority to regulate rates for interstate and foreign services of telephone and telegraph carriers.
10/ Puerto Rico Telephone Authority, a state public corporation created by Law 25 (May 6, 1974) purchased the Puerto Rico Telephone Company.
11/ Rate changes do not go into effect until approved by the Commission.
12/ Mutual telephone companies in which at least 50% of the users are owners, cooperative telephone corporations or associations, and telephone companies having less than 15,000 customers and less than 15,000 access lines are not subject to rate regulation.
13/ Limited authority pursuant to Ark. Code Ann Sec 23-4-901 et seq.
14/ 90 days at a time; up to a total of 6 months.
15/ Can investigate co-op rates for discriminatory practices.
16/ Telephone is the only regulated utility, with jurisdiction limited to rate increases for basic exchange service of more than 10% during a 12-month period. Electric service is supplied by political subdivisions called public power districts, electric cooperatives and municipal electric systems. Nebraska is unique among the states in having no private power companies; all electric facilities are publicly-owned or member-owned. Natural gas is provided by private companies through franchise granted by each city, town or village.
17/ Basic rate structure regulation only.
18/ Municipals and co-ops can put rates into effect after 45 days. The Board can order an investigation and rates may be subject to rebate.
19/ Board may extend 10-month suspension period for periods of time and for reasons established by statute.
20/ If municipality, appellate jurisdiction only. This Commission has original jurisdiction over two public authorities (River Authority).
21/ Only if the municipality has petitioned for such regulation.
22/ Has authority only at the election of the cooperative.
23/ One hundred and fifty days beyond automatic 35 days and two additional days for each day of hearings on merit beyond 15 days.
24/ One year for utilities with $3 million or less annual gross revenues; initial suspension period of six months for utilities with over $3 million in annual gross revenues. Interim rates must be acted upon within five months for utilities with $3 million or less annual gross revenues; no statutory interim requirements for large utilities.
25/ May be extended to nine months if just cause is shown in the Record.
26/ Rates of cooperatives providing services to members only are not regulated.
27/ Jurisdiction over electric utilities ended June 17, 1988.
28/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 9
STATE AGENCY AUTHORITY TO REGULATE RATES OF MUNICIPAL UTILITIES

1/ By statute, customers of municipal utilities may appeal disputed bills to the State DPUC only if a termination notice has been issued.
2/ Regulation is limited to disconnection rules, plant siting and safety matters. Municipal utilities are exempt from rate regulation in accordance with Iowa Code Chapter 476.
3/ Constitution (1974) exempts city owned or operated utilities unless referendum held. To date, no referenda.
4/ No municipal gas utilities within the State.
5/ Only if municipality petitions for such regulation.
6/ Municipal electric systems are specifically exempted from regulation by General Statute 62-3 (23)d.
7/ Only over service outside of corporate limits.
8/ If a municipality generates power, sales over and above that portion used by the municipally-owned utility are regulated by the Wyoming PSC, W.S. 37-1-101 (a)(vi)(h) 1977.
9/ Full regulation of rates and services of those customers outside three miles from corporate city limits.
10/ Municipals are not regulated by the Board unless they pass by-law to bring themselves under Board's jurisdiction. Board has limited authority to hear customer complaints about rates.
11/ Approval of contracts.
12/ Commission has limited review authority over rates and charges; jurisdiction over facilities and service.
13/ Pipeline safety jurisdiction within municipal boundaries; otherwise only with that service which extends one mile beyond the corporate limits.
14/ Not over publicly owned electric utilities served by New York State Power Authority.
15/ Municipal utility need not obtain certificate from Commission to operate within municipal boundaries.
16/ Municipal utilities are regulated only for service area matters except if competition exists between a municipal and non-municipal utility; however, full economic regulation is imposed on municipal utilities.
17/ When municipally-owned gas systems operate outside county in which municipality is located, Commission has jurisdiction over rates, service and safety for services provided outside home county.
18/ Only if rates charged outside corporate limits differ from those charged within corporate limits.
19/ Commission did not respond to request for update information; this information may not be current.

TABLE 10 - DESCRIPTION OF STATE AGENCY REGULATION OF MUNICIPAL UTILITIES ELECTRIC AND GAS

AGENCY	DESCRIPTION OF AGENCY REGULATIONS OVER MUNICIPAL ELECTRIC AND GAS UTILITIES
Alabama PSC	State agency has no jurisdiction over municipal utilities.
Alaska PUC	Municipal utilities subject to total regulation if one utility is in competition with privately owned utility then all utilities owned by that municipality subject to total regulation. Even if no municipal utilities are in competition, they must apply for certificate of public convenience and necessity which prescribes a service area. Also, municipal utility may petition for total, irrevocable regulation, if so desiring.
Arizona CC	Jurisdiction over municipal gas pipeline safety only.
Arkansas PSC	Jurisdiction over municipal gas pipeline safety only.
Colorado PUC	No jurisdiction.
Connecticut DPUC	Limited jurisdiction. Municipal utilities required to maintain records in accordance with Uniform System of Accounts and file annual report. Safety of municipal gas operations. May handle disputed bills if customer has received termination notice.
District of Col.	Has no municipal utilities.
Florida PSC	Territorial boundaries, rate structures (not rate level), power pooling, interconnection, power plant and transmission need determination, wheeling of electric utilities, safety, collection of gross receipts taxes Municipal gas regulated for safety practices, territorial disputes, collection of gross receipts taxes.
Georgia PSC	When municipally-owned gas systems operate outside county in which municipality is located, Commission has jurisdiction over rates, service and safety for services provided outside home county.
Illinois CC	Gas pipeline safety jurisdiction over municipal gas utilities.
Indiana URC	Jurisdiction over rates, but are prohibited from interfering with their operations, rules or regulations.
Iowa SUB	Regulation is limited to disconnection rules, plant siting and safety matters. Municipal utilities are exempt from rate regulation in accordance with Iowa Code Chapter 476.
Kansas SCC	Same regulations for rates and services as any other utility except they are restricted to those customers outside three (3) miles from corporate city limits. Also, jurisdiction for gas pipeline safety over all municipal services, regardless of where they are located.
Maine PUC	Jurisdiction over all facilities, service, rates and charges. Expedited procedure for rate increases of not more than 15%.
Maryland PSC	Identical to jurisdiction over private investor and cooperative utilities, involving rates, terms and conditions, standards of service and customer rights.
Massachusetts DPU	Prescribe accounting, review permissible earnings under statute, insure statutes are followed as to street light rates, permit depreciation higher than statutory requirement, regulate as to service, approve issues of revenue bonds, see that rates are not changed more often than once every three months.
Minnesota PUC	Municipal utilities under Commission jurisdiction for assigned service areas and some customer complaints.
Mississippi PSC	Gas pipeline safety jurisdiction. Rate and service jurisdiction apply only as to extension of utilities greater than one mile outside corporate boundaries.
Missouri PSC	Municipal gas safety regulation.
Montana PSC	Gas safety only.
New Hampshire PUC	For those customers outside municipal limits, tariffs are required and rates are regulated, ie, that portion of the municipal utility's business is subject to PUC jurisdiction as is the case of any public utility.
New Jersey BPU	Municipal utilities are subject to Board regulation only for rates related to sales outside municipal boundaries. Municipal utilities are required to file annual reports with the Board.
New Mexico PSC	Municipally owned and operated utilities are not subject to PSC regulation, unless the municipality elects to come within the provisions of the Public Utility Act. PSC has limited jurisdiction over water & sanitation districts - can review rates if it receives customer protest.
New York PSC	Essentially the same as over private utilities except questions of need within municipal boundaries and except electric municipals which take their power from the Power Authority of the State of New York.
North Carolina UC	Gas Pipeline safety jurisdiction (G.S. 62-50).
North Dakota PSC	Gas Pipeline safety jurisdiction over municipal gas systems.
Oklahoma CC	Natural gas pipeline safety.
Oregon PUC	Only safety, curtailment matters during electrical shortages, issuance of certificates of public convenience and necessity for overhead transmission lines less than 230 KV and territorial allocation.
Pennsylvania PUC	When a municipal corporation is deemed to be rendering public utility service beyond its corporate limits, it is then subject to exactly the same regulations as is any other public utility with regard to its extra-territorial service. Its rates must be just and reasonable and its service and facilities must be adequate, efficient, safe and reasonable.
South Carolina PSC	Regulates municipal electric utilities only to the extent of authorizing extensions of service beyond corporate limits by issuing CPCN; full jurisdiction over gas pipeline safety.
South Dakota PUC	Territorial boundaries and plant siting only.
Texas PUC	Certification and appellate rate jurisdiction for areas outside city limits (Electric).
Texas RC	Safety jurisdiction over municipally owned gas utilities and extraordinary appellate rate jurisdiction over those utilities outside the corporate limits of the city.
Vermont PSB	Total regulation: rates, approve sales of wholesale power through contracts, territories, new construction and tariff filings.
Virginia SCC	State agency has no jurisdiction over municipal utilities.
Washington UTC	Gas regulation extends only to granting or transfer of Certificate and protection of public safety in construction and operation of gas pipelines.

TABLE 10 - DESCRIPTION OF STATE AGENCY REGULATION OF MUNICIPAL UTILITIES ELECTRIC AND GAS (Continued)

AGENCY	DESCRIPTION OF AGENCY REGULATIONS OVER MUNICIPAL ELECTRIC AND GAS UTILITIES
West Virginia PSC	Jurisdiction over facilities and services; limited review authority over rates and charges. In early 1979 legislation gave municipalities independent rate setting authority over municipally owned utilities.
Wisconsin PSC	Regulates rates for service, utility plant construction, standards of service, rates for service including billing and customer deposit rules. The jurisdiction is identical to jurisdiction over private utilities, except the Commission does not regulate security issues of municipal utilities.
Wyoming PSC	Regulates electric and gas utilities insofar as they extend outside corporate limits generally to the extent that other utilities are regulated; namely, certification of service area, construction safety, adequacy of service, environment and rates and tariffs, etc. Municipal financing accomplished under laws relating to municipalities is not regulated by the PSC.
Alberta PUB	Municipal utilities subject to total regulation by PUB only if they have passed a by-law, approved by Lieut. Governor in Council. Municipal utilities which have not done so are subject to partial regulation, generally with respect to complaints over rates and approval of supply contracts. The electric utility owned by the City of Edmonton has been brought within Board jurisdiction pursuant to the Electric Energy Marketing Act. The Board has power to fix price at which the City utility sells its electric energy to the Electric Energy Marketing Agency. The purpose of the Agency is to average wholesale electric rates and roll back to the utilities at a uniform rate.
Nova Scotia PUB	Subject to the same degree of regulation as investor-owned utilities (Public Utilities Act-Water & Electric.)

TABLE 11 - AUTHORITY OF MUNICIPALITIES TO REGULATE UTILITY RATES ELECTRIC, GAS AND TELEPHONE

AGENCY	DESCRIBE THE AUTHORITY OF MINOR POLITICAL SUB-DIVISIONS (MUNICIPALITIES, TOWNS, VILLAGES) OVER RATES OF UTILITIES, INCLUDING OVERLAPPING, JOINT OR JURISDICTION OF MUTUALLY EXCLUSIVE AGENCIES.
ALABAMA PSC	Municipals set their own rates.
ALASKA PUC	Municipals set their own rates, unless in competition with other utility.
ARIZONA CC	Municipals set their own rates; state has jurisdiction over gas pipeline safety.
ARKANSAS PSC	Municipals and water associations set their own rates; state has jurisdiction over gas pipeline safety.
CALIFORNIA PUC	Municipally owned and cooperative utilities set their own rates.
COLORADO PUC	Municipally owned electric and gas utilities set own rates. PUC jurisdiction of gas safety inside and outside city. Electric co-ops can elect to set own rates - all but 1 have done so.
CONNECTICUT DPUC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
DELAWARE PSC	Municipals set their own rates.
DC PSC	There are no municipal utilities in the District of Columbia.
FLORIDA PSC	Municipalities regulate municipal utilities, rate levels and grant franchises. State has jurisdiction over rate structure for municipals and co-ops and can regulate water and sewer upon request of counties.
GEORGIA PSC	Municipals set their own rates for operations within the home county.
IDAHO PUC	Municipals set their own rates.
ILLINOIS CC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
INDIANA URC	Municipalities have jurisdiction over everything but rates.
IOWA SUB	Municipals set their own rates.
KANSAS SCC	Municipality has jurisdiction over municipally-owned utilities as well as privately owned electric and gas utilities that operate wholly within a single city.
KENTUCKY PSC	Municipals set their own rates.
LOUISIANA PSC	Municipality has jurisdiction over municipally utility unless referendum is held to transfer authority.
MAINE PUC	Municipalities have no regulatory authority.
MARYLAND PSC	Municipalities have no regulatory authority.
MASSACHUSETTS DPU	
MICHIGAN PSC	Municipals set their own rates.
MINNESOTA PUC	Cities lost their authority to regulate investor-owned electric and gas utility rates when regulation by the PUC was established in 1975. Municipal utilities are exempt from State regulation.
MISSISSIPPI PSC	Municipalities set their own rates within corporate limits. State has jurisdiction over gas pipeline safety.
MISSOURI PSC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
MONTANA PSC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
NEBRASKA PSC	Does not regulate electric or gas utilities.
NEVADA PSC	Municipals set their own rates.
NEW HAMPSHIRE PUC	Municipals set their own rates within corporate limits. State has gas pipeline safety jurisdiciton.
NEW JERSEY BPU	Municipals set their own rates; so far only electric municipals.
NEW MEXICO PSC	Municipals may grant franchises, set own rates. Water associations/co-ops set own rates.
NEW YORK PSC	Political subdivisions have no authority over gas rates. Most municipal electrics regulated by New York Power Authority. Others regulated by PSC
NORTH CAROLINA UC	Municipalities regulate rates of municipal utilities.
NORTH DAKOTA PSC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
OHIO PUC	Municipals set their own rates.
OKLAHOMA CC	Municipals set their own rates. State has jurisdiction over gas pipeline safety.
OREGON PUC	Municipalities may set private utility rates following certain statutory provisions. This is an old statute that has never been exercised.
PENNSYLVANIA PUC	Political subdivisions have no regulatory authority.
RHODE ISLAND PSC	Political subdivisions have no regulatory authority.
SOUTH CAROLINA PSC	Political subdivisions have no regulatory authority.
SOUTH DAKOTA PUC	Municipally owned & co-ops set own rates.
TENNESSEE PSC	Municipals set their own rates.
TEXAS PUC	Full PUC jurisdiction over telephone; split jurisdiction with local government over electric.
TEXAS RC	Municipalities have primary jurisdiction over gas utilities; RC has appeals jurisdiction.
UTAH PSC	Cities and towns have complete jurisdiction over municipal utility systems.
VERMONT PSB	Municipalities have no regulatory authority.
VIRGINIA SCC	Municipalities regulate municipal utilities.
WASHINGTON UTC	Municipalities regulate muinicipal utilities
WEST VIRGINIA PSC	Municipally-owned utility rates established by municipal ordinance. PSC may review on appeal.
WISCONSIN PSC	Municipalities have not jurisdiction over municipal utilities
WYOMING PSC	Municipally-owned gas and electric utilities regulated by municipality within corporate limits. PSC regulates outside. No municipally-owned gas utilities in state. Municipally-owned water utilities totally regulated by municipalities.
ALBERTA PUB	Municipally-owned utilities, unless having brought themselves under Board jurisdiction by by-law, set own rates within municipal boundaries. Board can determine rates to be charged other municipalities, outside municipal boundaries, on complaint of the customer municipality.
ONTARIO EB	Municipalities regulate municipal gas utilities.
QUEBEC NGB	Municipalities regulate municipal utilities.

* Not applicable - no adjustment clause in effect.

1/ Automatic fuel adjustment clause was eliminated in November 1978 for investor-owned electric utilities.
2/ One utility does have a FAC but it applied to only two special contract customers.
3/ Commission permits utilities to file rate schedules containing provisions for automatic adjustment of charges.
4/ Effective with their first rate case held after July 2, 1983, investor-owned electric utilities which generate more than half of their energy requirements may not have an automatic adjustment clause.
5/ Utilities required to justify continuation of fuel adjustment clauses on an individual basis.
6/ Upon prior approval of Commission, company may include demand costs of purchased economic power. Non-fuel costs may be included only when alternative would be even greater incremental fuel costs of own generation. Automatic fuel adjustment clause was eliminated as of 1/01/79 for investor-owned electric utilities.
7/ Subject to Commission approval.
8/ In early 1989, Commission eliminated adjustment clause for one large electric utility and is considering it for another.
9/ Gas utilities are allowed to pass through increased cost of purchased gas after full hearing.
10/ Adjusted on a semi-annual basis.
11/ "Other" - other areas of automatic adjustment clauses - not included in energy cost adjustment, but as a separate line item. Purchased power for water/sewer utilities.
12/ Required by Statute.
13/ Purchased gas adjusted on a six-month or twelve-month basis - no automatic adjustment.
14/ Changes in city and village utility revenue tax surcharges.
15/ In Missouri the fuel adjustment was ruled unconstitutional for electric service.
16/ Vermont Supreme Court Ruling in Docket No. 4496/4504.
17/ Opportunity for Hearing (Notice).
18/ Commission requires each regulated gas and electric utility to file its cost of fuel adjustment calculations for review and approval prior to implementation. In 1987 changed to annual review and adjustment.
19/ Puget Sound Power & Light is allowed to adjust every four months after formal hearing.
20/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 13 - TYPE OF TEST YEAR USED IN DETERMINING RATES

1/ Historic test year is required to be normalized, thus removing or averaging any unusual occurrences and updating information for known and measurable changes.
2/ For Ontario Hydro's bulk power rates, Power Corporation Act presupposes full forecast year.
3/ Test year must be historic. Test period used in determining rates can be historic or projected, but no more than nine months projected.
4/ Often when partial forecast is filed, it is updated to actual by the time case is taken under advisement, thereby becoming historic test year.
5/ Commission normally used historic test year with 12-month average rate base, but has departed from this in several rate cases by approving use of partial or full forecast test year in appropriate circumstances.
6/ Generally, rate increases are based on 12-month historic data ending not more than four months prior to filing date and adjusted for known changes within nine months after the last month of actual experience.
7/ Generally use Historic Test Year, although full forecast test year used in a recent case. Generally inadequate utility budgeting procedures prevent Commission from accurately testing projected data.
8/ Major companies use full forecast; smaller utilities permitted to use historic test year.
9/ Partial forecast test year used in last Bell Telephone rate case.
10/ Historic test year data must be submitted as supplemental information.
11/ Use of historic or partial forecast test year is permitted provided that the test year ends no more than nine months subsequent to the date of the filing of the application for an increase in rates and no less than three months of actual data is used.
12/ Major electric rate increases are based on forecast 12-month test period that may begin no later than three months after the proposed effective date.
13/ Commission normally uses historic test year, but allows 12-month test year partially or fully forecasted.
14/ Historic test year with six-month update subsequent–expense and capital items must be experienced and certified. Revenue, salary expense, depreciation expense, and Federal Income Taxes are annualized.
15/ New rate concept prescribed for Alabama Power Co. (electric) and Alabama Gas Corp. See Alabama Gas Corp. Settlement, Docket Nos. 18046 and 18328, Alabama Power Co. Settlement, Nos. 18117 and 18416.
16/ Under the Electric Energy Marketing Act, the price at which electric energy is sold by the three utilities to the Alberta Electric Energy Marketing Agency is set on a Full Forecast basis. This price is subject to retroactive adjustment on a Historic test year basis. Purpose of the Agency is to average wholesale electric rates and roll back to the utilities at a uniform rate.
17/ Future allocation changes, mandated by FCC, applied to historical test period allowed for LECS.
18/ Jurisdiction over electric utilities ended June 17, 1988.
19/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 14
REGULATION OF RATES - MISCELLANEOUS

1/ Commission fixes rates to be charged to customers.
2/ If sold by regulated utility through system.
3/ Not applicable to ultimate consumer.
4/ Only when not subject to FERC control.
5/ Only if used in distribution system to supplement natural gas or sales from piped distribution system.
6/ Sale of LPG not regulated as of January 1, 1980.
7/ Department of Law and Public Safety, Division of Consumer Offices, Weights and Measures Section.
8/ All Laws 1913, Ch. 93, p. 150, section 2.
9/ Present law and form of commission adopted in 1930.
10/ Department of Labor and Industry (pressure vessels).
11/ Department of Industry, Labor and Human Relations.
12/ State Department of Environmental Conservation has LNG siting jurisdiction. LNG facilities must comply with commission and municipal safety regulations.
13/ Staff counsel only is permitted to cross-examine on behalf of staff.
14/ Board Decisions C77147 and C77148 ordered distributor price of LPG unregulated effective June 30, 1977 and producer price unregulated effective March 31, 1978, by exempting distributors and producers from certain provisions of the Gas Utilities Act. However, if complaints are received that price increases have become inordinate, regulation can be reimplemented by recision of exemptions.
15/ Chapter 476, Code of Iowa. Employees, Public Utility Regulation staff, have no authority to cross-examine company technical witnesses, but are represented by Chapter 475, Office of Consumer Advocate, which has specific authority to appeal Board decisions in court.
16/ Division staff by Attorney General's Office.
17/ Commission staff cross-examination directed primarily to clarifying questions. Department of Public Service responsible for contested-case cross-examination; may also appeal Commission decisions to Court.
18/ Commission Staff cross-examination directed primarily to clarifying questions. Division of Public Utilities responsible for contested-case cross examination; may also appeal Commission decisions to court.
19/ Commission staff may cross-examine but is not a party and cannot advocate a position.
20/ Legislature in 1987 declared that master meter LP gas systems serving 10 or more customers are public utilities under PSC jurisdiction; principal jurisdiction over safety and engineering, not rates.
21/ Safety of underground LPG storage facilities regulated by Utilities Commission; other aspects regulated by Deptartment of Agriculture.
22/ Commission did not respond to request for update information; this data may not be current.

TABLE 15 - WHO MAY FILE A RATE COMPLAINT BEFORE THE AGENCY

AGENCY	PERSONS HAVING STANDING BEFORE THE AGENCY TO FILE A COMPLAINT THAT RATES ARE EXCESSIVE AND TO REQUEST AN INVESTIGATION AS TO THE LAWFULNESS OF THE RATES
FCC	Any person, body politic, municipal organization or state commission.
FERC	Electric power, se 16 USC 824(e) and 825(e); gas see 15 USC 717(d); oil pipelines see 49 USC Sec 1 et seq.
ALABAMA PSC	Any mercantile agricultural or manufacturing society, any body politic or municipal organization, or any affected person, or the Commission on its own motion.
ALASKA PUC	Commission on own motion, staff, customers, shippers, other utilities, other pipeline carriers, govt agency.
ARIZONA CC	A petition by not less than 25 customers of a utility, or request of governmental body.
ARKANSAS PSC	Any Chamber of Commerce or Board of Trade, mercantile, agricultural, or manufacturing association, any public utility, any municipality, or any 25 public utility users, any consumer or prospective consumer of any utility service. AR Code Ann Sec 23-3-119.
CALIFORNIA PUC	Any adversely affected customer or prospective customer.
COLORADO PUC	Mayor, President or Chairman of Board of Trustees, majority of Council or other legislative body of County, city or town, or not less than 25 customers or prospective customers of gas, electric, telephone & water.
CONNECTICUT DPUC	Any adversely affected customer.
DELAWARE PSC	Any person or organization in accordance with the Commission's Rules of Practice.
DC PSC	Any person affected by a Commission order.
FLORIDA PSC	Any party served by the jurisdictional operation or other party in interest.
GEORGIA PSC	Any user of utility service.
HAWAII PUC	Any person: "Person" means and shall include individuals, partnerships, corporations, associations, joint stock companies, public trusts, organized groups of persons, incorporated or not, receivers or trustees of the foregoing, municipalities, including cities, counties or other political subdivision of the State, any agency, authority or instrumentality of the State, any one or more of the foregoing or any officer, agent or employee of any of the foregoing acting as such in the course of his official duty.
IDAHO PUC	Commission on own motion, by Mayor, President or Chairman of Board of Trustees, majority of Council, Commission or other legislative body of city, county or town, or not less than 25 consumers, purchasers or prospective consumers or purchasers.
ILLINOIS CC	Any person, corporation, etc. who can show an interest.
INDIANA URC	Any mercantile, agricultural or manufacturing society, any body politic or municipal organization, or by ten persons, firms, corporations or associations, or 10 complainants of all or any of these classes, or by any public utility.
IOWA SUB	Any person, body politic, or Board on its own motion with respect to reasonableness of rates, charges, schedules, service, regulations, or anything done or omitted to be done by public utility; by Utilities Division staff and consumer advocate with respect to excessive rates. Public utility itself also has the right to request Board to determine reasonableness of its rates, charges, schedules, service or regulations.
KANSAS SCC	Utility customers, political subdivisions, or another public utility.
KENTUCKY PSC	Any mercantile, agricultural or manufacturing society, any body politic, municipal organization, any public utility or any patron of the utility complained of or by any complaint of all or any of these classes.
LOUISIANA PSC	Party of interest.
MAINE PUC	Complaint signed by 10 or more responsible individuals, firms, corporations or associations aggrieved; Commission also may act on its own motion.
MARYLAND PSC	Any interested customer, People's Counsel and Chief Executive of any municipality or county in which gas or electric company is authorized to operate if 100 customers complain in writing Commission must investigate.
MASSACHUSETTS DPU	Twenty ratepayers, selectmen, state representative or senator. Others at discretion of Commission.
MICHIGAN PSC	Utility customers and their authorized representatives, cities, incorporated villages, townships, counties and state agencies.
MINNESOTA PUC	Anyone.
MISSISSIPPI PSC	Customers of utilities and/or their authorized representatives.
MISSOURI PSC	Mayor, President, or Chairman of Board of Aldermen or majority of a Council of any city, town, village or county, or 25 consumers or prospective consumers. Public Counsel, or Commission staff.
MONTANA PSC	Any affected person, firm, corporation, body politic, municipal organization, etc.
NEBRASKA PSC	Less than 50,000 access lines - 5% of affected subscribers; 50,000-250,000 AL - 3%; over 250,000 AL - 2%.
NEVADA PSC	Any person.
NEW HAMPSHIRE PUC	Any aggrieved consumer or group of consumers.
NEW JERSEY BPU	Any individual on his own behalf, any organization represented by New Jersey attorney, or Public Advocate.
NEW MEXICO PSC	Any person affected by a proposed or effective rate may file informal complaint; Commission may at any time investigate any matter in its jurisdiction; Anyone wanting to intervene must file a motion to intervene stating the nature of their interest in the proceeding. Any person may file a statement for the record.
NEW MEXICO SCC	Any interested person.
NEW YORK PSC	Not less than 25 customers; local municipal official; Attorney General; Consumer Protection Board.
NORTH CAROLINA UC	Any person, corporation, body politic, or organization having an interest in the subject matter.
NORTH DAKOTA PSC	Any governing body of county, city or village or not less than 10% of ratepayers.
OHIO PUC	Any person, firm, or corporation (including the utility itself).
OKLAHOMA CC	Any customer.
OREGON PUC	Any customer of a public utility.
PENNSYLVANIA PUC	Any customer of a public utility.
PUERTO RICO PSC	Any subscriber or consumers' group.

TABLE 15 - WHO MAY FILE A RATE COMPLAINT BEFORE THE AGENCY (Continued)

AGENCY	PERSONS HAVING STANDING BEFORE THE AGENCY TO FILE A COMPLAINT THAT RATES ARE EXCESSIVE AND TO REQUEST AN INVESTIGATION AS TO LAWFULNESS OF THE RATES.
RHODE ISLAND PUC	Complaint signed by twenty people.
SOUTH CAROLINA PSC	Applications and complaints by any corporation, public or private, person, chamber of commerce, board of trade, any civic, commercial, mercantile, traffic, agricultural or manufacturing association or any body politic, commission board or municipal corporation by petition or complaint in writing, setting forth any act or thing done or omitted to be done, with respect to which, under the provisions of this chapter, the Commission has jurisdiction or is alleged to have jurisdiction. But Commission may, at its discretion refuse to entertain a complaint as to reasonableness of any rates or charges unless it be signed by the Mayor, President or Chairman of Board of Trustees or majority of Council, Commission, or other legislative body of the city, county or town affected by the subject matter of such complaint or by not less than 25 customers of the public utility named in the complaint.
SOUTH DAKOTA PUC	Governing body of any political subdivision; another public utility; any 25 customers of a particular gas or electric utility; or any citizen for telephone utility.
TENNESSEE PSC	Any interested party.
TEXAS PUC	Any affected person or on motion of PUC.
TEXAS RC	Any affected person defined by statute as gas utility affected by any action of regulatory authority, any person or corporation whose utility service or rates are affected by any proceeding before the regulatory authority, or any person or corporation that is a competitor of a gas utility with respect to any service performed by the utility or that desires to enter into competition.
UTAH PSC	Mayor, President, Chairman of Board of Trustees, majority of Council, Commission, or other legislative body of city, county or town or not less than 25 consumers or prospective consumers. Commission on its own motion
VERMONT PSB	Any adversely affected person or company; PSB has authority and duty to investigate any claim.
VIRGIN ISLANDS PSC	The public (individually or collectively), subscribers of the utility.
VIRGINIA SCC	Any party affected by the rates, or his representative.
WASHINGTON UTC	Mayor or legislative authority of the town or city in which the company complained of is engaged in business or by not less than 25 of the utility's customers. Commission on its own motion, any person or corporation, chamber of commerce, board of trade, any commercial, mercantile, agricultural or manufacturing society, any body politic or municipal corporation, by petition or complaint in writing, and signed by Mayor, Council or Commission of the city of town in which the company complained of is engaged in business, or not less than 25 customers.
WEST VIRGINIA PSC	Any customer.
WISCONSIN PSC	Any mercantile, agricultural, or manufacturing society, any body politic or municipal organization or 25 persons. In practice Commission under statutes 196.26 196.28 accept petitions from any individual and makes its own investigative motion on behalf of the party.
WYOMING PSC	Any user or potential user of a utility service; interested governmental authorities; public oriented groups or their representatives; Commission staff.
CANADIAN AGENCIES	
CANADIAN RTC	Any interested person.
NATL. ENERGY BOARD	Any interested party to the proceedings.
ALBERTA PMC	Commission on own motion or any interested party; primarily gas producers and transmission companies.
ALBERTA PUB	Board on own motion or any interested party.
NOVA SCOTIA PUB	Any municipal corporation or any five persons, firms or corporations.
ONTARIO EB	Any customer.
ONTARIO TSC	Any person having an interest in the subject matter.
QUEBEC NGB	Any interested person.
QUEBEC TB	Any interested person.

TABLE 16 - OTHER METHODS OF RATE CONTROL

AGENCY	METHODS BY WHICH RATES ARE IN ANY DEGREE CONTROLLED BY OTHER THAN FORMAL RATE CASE OR SETTLEMENT THEREOF
FCC	Continuing surveillance by informal meeting between the Commission and carrier.
FERC	Authority to set gas and electric rates by rule. Gas producer rates set by NGPA. Rates may be affected by periodic accounting audits.
ALABAMA PSC	Some rates set on informal basis. Rates allowed to go into effect after 30 days if not suspended by PSC.
ALASKA PUC	Surveillance procedures based on reviews of annual reports, review of monthly through-put data; fuel adjustment clause data; and informal discussions with utilities and pipeline carriers.
ARIZONA CC	None.
ARKANSAS PSC	Automatic adjustments filed and approved by PSC, rates approved pursuant to Sec 11 APSC Rules of Practice and Procedure.
CALIFORNIA PUC	Water and Sewer utilities with annual revenue below $750,000 may request increase by Advice letter filing.
COLORADO PUC	Rates may be filed on 30 days notice, if not suspended by Commission. PUC may permit filing of rates on less than 30 days notice and may or may hold hearing on rates. Rural electric co-op rates automatically become effective on 30 days notice. PUC may not suspend them, but can set hearing where rates may be modified. All rate filings reviewed at weekly open public meetings of Commission.
CONNECTICUT DPUC	Surveillance procedure based on statutory bi-annual report or annual report.
DELAWARE PSC	None.
DC PSC	Formal hearing before increasing rates. Informal negotiations for rate decreases.
FLORIDA PSC	Continuing surveillance, informal conference, rate adjustment clauses in tariffs, semi-annual hearings, stipulations. Comment letters to cooperative and municipal utilities.
GEORGIA PSC	Rule Nisi to Show Cause by Utility.
HAWAII PUC	No other method.
IDAHO PUC	None.
ILLINOIS CC	Automatic adjustment provisions with annual hearings and continuing surveillance; negotiated reductions where returns become too high. Citations issued by Commission.
INDIANA URC	Quarterly filings of Fuel Cost Adjustments and Gas Cost Adjustments which are given summary hearings and voted on by full Commission. Periodic review of all utilities which have not had a recent rate case.
IOWA SUB	EAC-PGA escalations, FCC jurisdiction allocations of costs. Rates automatically effective if not suspended within 30 days. SUB may approve filed rates, if determined to be appropriate, by Order within 30 days.
KANSAS SCC	Investigations instituted by Commission. Expedited electric cooperative rate cases without hearing.
KENTUCKY PSC	Alternative Rate Filing Procedure for small utilities; PGA and FCA.
LOUISIANA PSC	Rates for new services, rate reductions and rate changes due to changes in cost of purchased gas reviewed/settled by PSC without formal hearing. South Central Bell rate changes due to regrouping reviewed/approved without hearing. PSC may authorize changes in minimum rates and non-recurring charges after monthly meeting.
MAINE PUC	Rates become effective without formal proceeding 30 days after filing if not suspended by Commission.
MARYLAND PSC	Informal acceptance upon 30-day notice, after review. OCCs 14-day notice; AT&T if within 5% revenue ban.
MASSACHUSETTS DPU	None.
MICHIGAN PSC	Negotiated rate reductions; upgrading of telephone service; negotiated rate settlements; power supply recovery clause; gas cost recovery clause; GCR reconciliation.
MINNESOTA PUC	Minor rate adjustments are made by ex parte "proposal for decision".
MISSISSIPPI PSC	Minor rate changes allowed into effect after 30 days if Commission does not suspend them.
MISSOURI PSC	Informal rate case procedure available for small water and sewer companies. Commission may allow changes in rates without suspension.
MONTANA PSC	Rate reductions can be approved informally without a formal hearing.
NEBRASKA PSC	If more than 10% increase in any 12-month period, basic exchange rates may be reviewed. Rates may not be set below cost of providing service.
NEVADA PSC	Applicant's justifications material subject to investigation and analysis by PSC staff prior to PSC review.
NEW HAMPSHIRE PUC	Continuing surveillance.
NEW JERSEY BPU	Rate of return surveillance procedures.
NEW MEXICO PSC	Purchased cost of gas, fuel and tax adjustment clauses.
NEW MEXICO SCC	Continuing surveillance.
NEW YORK PSC	Minor increases (less than 2.5% of gross revenue) or less than $100,000 may be allowed to go into effect without hearing based on staff investigation. Certain cost changes over which utilities have little control often reflected in 2nd stage rate adjustments which occur about six months after final rate case decisions are rendered and amount of change is known, including property tax, wage and federally prescribed changes.
NORTH CAROLINA UC	Changes in rates not considered to be across the board or general in scope controlled by Commission action at informal conferences. One exception, since July 1, 1971, is changes in rates by natural gas companies due to changes in cost of gas may be reviewed and settled by Commission without formal hearing.
NORTH DAKOTA PSC	Statutory rate filings. (No suspensions).
OHIO PUC	Municipal Council may establish rates for all utilities except telephone for service within corporate limits, subject to appeal to the Commission.
OKLAHOMA CC	Biennial review to ascertain the reasonableness of rates.
OREGON PUC	Rate increases of small utilities may go into effect without hearing if issues are all resolved, no major service problem exists and all customers were notified of the filing.
PENNSYLVANIA PUC	Many smaller utilities' rates are adjusted through informal Commission action without formal proceedings.
PUERTO RICO PSC	None.
RHODE ISLAND PUC	No rate increase without public hearing.

TABLE 16 - OTHER METHODS OF RATE CONTROL (Continued)

AGENCY	METHODS BY WHICH RATES ARE IN ANY DEGREE CONTROLLED BY OTHER THAN FORMAL RATE CASE OR SETTLEMENT THEREOF
SOUTH CAROLINA PSC	No other method.
SOUTH DAKOTA PUC	PUC has authority to grant electric, gas and telephone rates without public hearings, if satisfied that rates are "fair and reasonable".
TENNESSEE PSC	None.
TEXAS PUC	New rate schedule becomes effective on 35 days notice if not suspended or disapproved by Commission.
TEXAS RC	Statutory conclusion of just and reasonable rates under certain circumstances with required approval by the Agency. Statement of intent to change rates filed under RCC original jurisdiction. These rates become effective after 35 days if not disapproved or suspended by Commission.
UTAH PSC	Rate reductions can be approved informally without a formal hearing.
VERMONT PSB	If tariffs not suspended, they become effective 45 days or later after filing.
VIRGIN ISLANDS PSC	If tariffs are not suspended, they become effective within 30 days after filing.
VIRGINIA SCC	Purchased gas adjustment clause; decrease subject to staff (not formal) investigation; rates for new service
WASHINGTON UTC	Through review of filed tariff revisions during the statutory notice period.
WEST VIRGINIA PSC	Gas transportation rates are established through negotiation with upper and lower limits.
WISCONSIN PSC	After negotiations rate decreases can be made without a formal proceeding.
WYOMING PSC	Rates for new services or rate reductions may be authorized without hearing. In some cases wholesale supply cost increases authorized without hearing after public notice and opportunity for hearing.
CANADIAN AGENCIES	
CANADIAN RTC	Tariffs for individual service, primarily new service, can be implemented without a public hearing.
NATL. ENERGY BOARD	Surveillance based on quarterly surveillance reports.
ALBERTA PUB	Supervision of regulated utilities based on reviews at least once in three years.
NOVA SCOTIA PUB	Surveillance based on annual reports, informal meetings; control of capital spending, bond and share issues
ONTARIO EB	In limited circumstances rates may be changed by the Board without a hearing.
ONTARIO TSC	Some rates are dealt with on an "ad hoc" basis.
QUEBEC NGB	No rate increase without public hearing.
QUEBEC TB	Rates can be modified by the agency on its own motion after an inquiry.

INTRODUCTION

UTILITY RATE REDUCTIONS FOR HOUSES OF WORSHIP

In May 1981, the NARUC conducted a survey on the extent to which Houses of Worship have been granted utility rate reductions. The survey results which are displayed in Table 17 have been updated through December 31, 1988 and indicate whether or not a rate reduction has been specifically authorized by either State statute or by the State Regulatory Commission. The table also indicates the type of utility service that has been discounted (eg. electric, gas, or telephone).

TABLE 17 - STATE STATUTES OR COMMISSION RULINGS SPECIFICALLY AUTHORIZING SPECIAL REDUCED RATES FOR HOUSES OF WORSHIP (ELECTRIC, GAS AND TELEPHONE)

AGENCY	State Statutes Specifically Authorizing Reduced Rates for Houses of Worship			State Commission Ruling or Order Specifically Authorizing Reduced Rates for Houses of Worship

FOOTNOTES - TABLE 17
STATE STATUTES OR COMMISSION RULINGS SPECIFICALLY AUTHORIZING SPECIAL REDUCED RATES FOR HOUSES OF WORSHIP

1/ Churches pay for 50% of their KW demand.
2/ Churches are given residential rates.
3/ Some private electric utilities and electric cooperatives serve churches under schedules which eliminate or minimize demand charges for churches.
4/ Some electric companies have a church rate that has been accepted and authorized by the department.
5/ Discount available during "air conditioning" months.
6/ Church office pays residential telephone rates; clergy receive 25% discount off residential rates.
7/ Service listed in Pastor's name can receive 25% discount.
8/ 25% reduction from business rates.
9/ Some electric companies have a church and school rate which permits billing by kwh usage and not by demand. Effective 7/1/86 churches and schools already under C&P's Rate 40 may remain under it; potential customers with construction permits dated after 7/1/86 will use other rates.
10/ Concession (6.75% for telephone) expired 4/84 - no concessions now exist.
11/ The rates charged religious organizations may not be greater than those charged residential customers.
12/ Commission did not respond to request for update information; this data may not be current.

SECTION C

RATE BASE

Statutes providing for the regulation of electric, gas and telephone utilities generally specify that the rates charged shall be just and reasonable. Determination of a proper rate base is an important step toward that end, since the method of rate base valuation is a major factor in determining the rates a utility may charge. Some statutes specify the factors to be considered in developing a rate base, enumerating original cost, reproduction cost, prudent investment and other recognized elements of value. However, in most jurisdictions the statutory language is in general terms, providing simply that the agency ascertain the value of the property to be included in the rate base. Thus in most jurisdictions it is necessary to look beyond the statutory language to the actions of the regulatory authority to learn the method of rate base determination in general use.

The methods of rate base determination generally followed by the various agencies are shown in the following tables. Factors which affect the valuation of a utility's rate base and which are subject to the jurisdiction of the various agencies are also included in these tables. These factors include: land held for future use, construction work in progress, advance payments, pollution control equipment, accrued depreciation, year-end, average, or future test year, and determination of working capital.

TABLE 18 - METHOD OF VALUATION GENERALLY APPLIED

AGENCY	Method of determining rate base specifically prescribed: Statute	Regulation	Court Decision	Section Number or Case Citation	Method Prescribed	Brief Explanation of Method
FCC 1/		X			Original Cost	
FERC			X		Original Cost	Net original cost for test year.
ALABAMA PSC	X	X	X		Original Cost	Original cost less accumulated depreciation.
ALASKA PUC	X			AS 42.05.441 utilities; Order 44, Docket P77-8-Pipeline carriers	Original cost	Original cost less accumulated depreciation plus working capital allowance.
ARIZONA CC			X	80 AZ 145	Fair Value	RCN determined by either trending or pricing. Depreciation determined by age, life ratio.
ARKANSAS PSC	X	X	X		Original Cost	Depreciated original cost.
CALIFORNIA PUC		X	X	Regulatory Common Law	Original Cost	Prudent net investment (See following table).
COLORADO PUC		X			Original Cost	
CONNECTICUT DPUC		X			Original Cost	Depreciated original cost.
DELAWARE PSC	X			26 DE code	Original Cost	
D.C. PSC 7/	X			DC Code Tit 43 et seq	Original Cost	Depreciated original cost.
FLORIDA PSC	X			366.06 Electric & Gas 364.03 Telephone 367.081 Water & Sewer	Prudent Investment Original Cost	Prudent investment, electric and gas; telephone statute requires only that rates be fair, just, reasonable & sufficient. For practical purposes, Commission employs net original cost. For water & sewer, a fair return on the utility's investment in property that is currently used and useful.
GEORGIA PSC		X			Original Cost	
HAWAII PUC		X 5/		D1167 Hawaii Elec. Co	Original Cost	
IDAHO PUC		X 5/			Original Cost	
ILLINOIS CC	X			§ 9-201	Original Cost	
INDIANA URC	X			IC 8-1-2-6	Fair Value 6/	
IOWA SUB			X	U-138 Davenport Water	Original Cost	Net investment rate base.
KANSAS SCC		X	X	192 KS 39	Original Cost	Original cost less depreciation.
KENTUCKY PSC	X		X	KRS 278.290	Orig. Cost, Repro. Cost, Capital Str. Other	Net Investment Rate Base and/or Capital Investment.
LOUISIANA PSC		X	X		Original Cost.	
MAINE PUC	X			35-A MRSA, § 303	Original Cost	Original cost plus prudent acquisition cost, other also if relevant.
MARYLAND PSC	X			Art 78, § 72	Fair Value	Evidence of current value based upon TOC, CPI, IPI, reproduction cost, or appraisal considered.
MASSACHUSETTS DPU			X		Original Cost	
MICHIGAN PSC	X 4/	X	X		Original Cost Prudent Investment	If plant carried is imprudent investment, do not include that in original cost rate base. Electric statute specifies fair value, cost, etc., be considered. Gas & telephone statutes do not specif.
MINNESOTA PUC	X	X		MS 237.075 telephone only; MS, Ch 216B Sec 16 Sub 6 Electric and Gas only	Original Cost	Original cost statute. For Electric & Gas, PSC decision in Northern States Power case 6/2/75 stated PSC will not accept testimony on fair or current value in any utility rate case, but insists on original cost data for rate base.
MISSISSIPPI PSC	X	X	X		Original Cost	Original cost less depreciation plus working capital allowance.
MISSOURI PSC			X	308SW 2nd 704, 532SW 2nd 20	Fair Value	Consider original cost and trended original cost and other relevant factors.
MONTANA PSC	X	X		69-3-109, MCA	Original Cost	Depreciated original cost.
NEBRASKA PSC 1/	X			75-609	Other	Must consider current value; most use trended investment.
NEVADA PSC	X	X	X	NRS 704.440	Original Cost	In service at end of certification period.
NEW HAMPSHIRE PUC		X	X		Original Cost	Average net original cost.
NEW JERSEY BPU			X	Sup Ct Sand Rates Case, 66 No 12 1974	Other	Net original cost of prudent investment at test year end. Board consideres all evidence submitted
NEW MEXICO PSC	X		X	62-6-14	Fair Value	No State Supreme Court decision except w/general statement "Fair Value". Some district court decisions. Must consider history/dev't of property and business, original cost, reproduction cost as going concern & other elements recognized by laws

TABLE 18 - METHOD OF VALUATION GENERALLY APPLIED (continued)

AGENCY	Method of determining rate base specifically prescribed			Section Number or Case Citation	Method Prescribed	Brief Explanation of Method
	Statute	Regulation	Court Decision			
NEW MEXICO SCC 1/					Original Cost Less Depreciation	
NEW YORK PSC					Original Cost Less Depreciation	Original cost less accumulated depreciation and deferred taxes, plus working capital allowance.
NORTH CAROLINA UC	X			GS 62-133 Sess Laws 1977 c.6915.3.2.& 3	Original Cost	Reasonable original cost of utilities used & useful less applicable depreciation + some construction work in progress. Eff.7/1/79; Rev. 6/17/82
NORTH DAKOTA PSC	X		X	49-02-03, NDCC	Prudent Investment	Amount invested by utility, excess over original cost allowed in rate base if approved by PSC.
OHIO PUC	X			4909.05, RC	Original Cost	Original cost less accumulated depreciation.
OKLAHOMA CC	X			Title 17, § 137 Laws 1959, p 86 § 3	Original Cost	Fair return on original cost less accumulated depreciation.
OREGON PUC					Original Cost	No specific statutory provision.
PENNSYLVANIA PUC	X	X			Original Cost	Prudent original cost less depreciation.
PUERTO RICO PSC 7/	X				Original Cost	
RHODE ISLAND PUC7/		X				Average rate base for proposed test year.
SOUTH CAROLINA PSC		X			Original Cost	Original cost less depreciation.
SOUTH DAKOTA PUC	X	X		SDCL 49-34A-19	Original Cost	
TENNESSEE PSC		X			Original Cost	Original cost of property used and useful-finance by debt and equity investors.
TEXAS PUC	X	X		Sec 41(a) Art 1446c	Original Cost	Original cost less depreciation.
TEXAS RC 2/	X		X	TX Rev Civ Stat Ann Art 1446c, § 5.03, 5.04 and 5.05	Fair Value	Reasonable balance within stated limits between original cost less depreciation and current cost less an adjustment for age and condition.
UTAH PSC					Original Cost	Original cost less depreciation.
VERMONT PSB		X	X		Original Cost	Original cost and prudent investment.
VIRGIN ISLANDS PSC 3/ 7/	X	X		30 VIC 23	Fair Value	Net investment in property prudently acquired for and devoted to public use.
VIRGINIA SCC		X			Net Original Cost	
WASHINGTON UTC	X			19 Wn (2nd) 200, 1943	Other	Any method/combination of methods allowed by law
WEST VIRGINIA PSC					Original Cost	
WISCONSIN PSC 7/			X		Original Cost Other	Original cost of utility plant used & useful in providing service.
WYOMING PSC		X	X		Original Cost	Year-end rate base adjusted for completed construction deemed used and useful.
CANADIAN AGENCIES						
CANADIAN RTC		X			Original Cost	
NATL. ENERGY BOARD		X			Original Cost	Original cost less depreciation.
ALBERTA PUB	X			82(1)	Original Cost	Cost of property when first devoted to public use or prudent acquisition cost less depreciation
NOVA SCOTIA PUB 7/	X				Original Cost	Depreciated original cost.
ONTARIO EB	X			RSO 1980 C-332, § 19	Original Cost	Original cost less depreciation.
ONTARIO TSC 7/	X			Sec 12 RSO 1980 C 496	Original Cost	
QUEBEC NGB	X			Ch 23 § IV Art 32	Original Cost	Original cost less depreciation.
QUEBEC TB			X 5/		Original Cost	Original cost less depreciation.

1/ No Commission regulation of electric or gas utilities - telephone only.
2/ No Commission regulation of electric or telephone utilities.
3/ Electric facilities government owned/operated, but regulated by PSC for rate changes. No gas service in Virgin Islands other than bottled gas, not regulated by PSC.
4/ Electric statute specifies fair value, cost, etc., to be considered. Gas and telephone statutes do not specify.
5/ Based on Commission decision.
6/ Tandem consideration of historical-cost rate base is made and is the leading criteria in decisions.
7/ Commission did not respond to request for update information; this data may not be current.

TABLE 19 - ITEMS ALLOWED IN RATE BASE OF ELECTRIC, GAS AND TELEPHONE UTILITIES

AGENCY	The Agency Allows the Following in Rate Base: Land Held for Future Use	Property Held for Future Use	Allowance for Funds Used during Construction	Contributions in Aid of Construction - Credit	Advance Payment	Research and Development	An Inflation Factor	Excess of Cost Over Original Cost	Materials & Supplies	Allowance for Working Capital	Customer Advances - Credit	Accumulated Tax Deferrals Credit	Pollution Control Equipment

FOOTNOTES - TABLE 19
ITEMS ALLOWED IN RATE BASE

1/ AFUDC as an account balance does not appear directly in the rate base. Rate base effect takes place at that time when property to which AFUDC is related is allowed in rate base.
2/ Net book cost of plant in service, property held for future use, construction work in progress (projects with expected completion dates under one year receive rate base treatment; those with expected completion dates greater than one year receive an allowance for funds used during construction - Docket 19129), plus materials and supplies actually paid for plus allowance for cash working capital. Customer advances are used as a credit to reduce the rate base; accumulated tax deferrals are used as a credit reducing the rate base.
3/ No commission regulation of electric or gas utilities.
4/ For gas utilities, to a limited extent; for electric utilities "yes" for land and "no" for property held for future use.
5/ Account 190 is added to rate base and Accounts 281, 282 and some of 283 are deducted from rate base.
6/ Deduct unamortized CIAC relating to depreciable contributed plant.
7/ Carrying cost for eligible advance payments and take or pay payments are expensed monthly rather than included in rate base. Advance payments so treated were incurred prior to NGPA Act Regulation.
8/ May be allowed in certain circumstances.
9/ Included in capital structure as funding sources.
10/ If use is imminent.
11/ Requires clear and convincing evidence that inclusion is necessary to maintain financial integrity.
12/ If in the public interest.
13/ Thirteen-month average.
14/ Capitalized upon completion.
15/ Allowed in reasonable amounts as long as there is evidence that facilities will ultimately be constructed on the site.
16/ Only AFUDC charged on construction already closed to plant in service; depreciation on same allowed in cost of services; AFUDC associated with CWIP allowed in rate base if financial integrity test is met.
17/ Follow FERC methodology.
18/ On those projects which are successfully completed and capitalized; unsuccessful projects expensed or accumulated and amortized.
19/ Prudent acquisition adjustments are sometimes permitted in rate base and amortized in cost of service.
20/ Included in working capital.
21/ Must meet tests of reasonableness.
22/ Deduct from rate base.
23/ Only interest charged to construction already capitalized to plant in service; depreciation on same allowed in cost of service; book-tax timing difference flowed through to the income statement.
24/ These items are used to reduce rate base for water and sewer. Utility plant has been reduced for contributions in aid of construction for gas and electric utilities.
25/ If not offset by other cash flow.
26/ Original cost plus prudent acquisition cost.
27/ When required or needed by State or Federal agency.
28/ In 1978 an initiative was adopted prohibiting rate base inclusion of assets not "presently" in service.
29/ Includes stored gas.
30/ Allow purchase over original cost when considered to be a lower cost alternative.
31/ No Commission regulation of electric or telephone utilities.
32/ Subject to acquisition adjustment. Case by case; company must prove prudency.
33/ Bell Companies are regulated on an invested capital rate base. Other carriers in Federal jurisdiction are regulated on a net asset rate base.
34/ Commission did not respond to request for update information; this data may not be current.

TABLE 20 - STATE REGULATORY TREATMENT OF CWIP

COMMISSION	CWIP Allowed in Rate Base?	AFUDC Offset Required?	Year CWIP First Included	Basis of Authority to Prescribe Treatment	Post-1976 Legislation
ALABAMA PSC	Full	Yes	1968	Commission Policy	No
ALASKA PUC	No	--	--	Commission Policy	NO
ARIZONA CC	At Commission's Discretion	No	1977	Commission Policy/ Court Decision	No
ARKANSAS PSC	Only to extent it will be in service at date new rates become effective	No	1975	Commission Policy/ Statute	Yes
CALIFORNIA PUC	Only for pollution control and RD&D projects as allowed by FERC.	No	--	Commission Policy	No

TABLE 21 - METHOD OF DETERMINING RATE BASE

AGENCY	AGENCY DETERMINES**	STATE THE METHOD PRESCRIBED EITHER FOR GENERAL APPLICATION OR IN A RECENT RATE CASE.
FCC 1/	X	Net book cost of plant in service, property held for future use, construction work in progress (projects with expected completion dates under one year receive rate base treatment, those with expected completion dates greater than one year receive allowance for funds used during construction-Docket 19129), plus materials and supplies actually paid for plus allowance for cash working capital. Customer advances used as credit to reduce rate base; accumulated tax deferrals used as credit reducing rate base.
FERC	X	Gas - Original cost less depreciation reserve plus prepayments, advance payments, R&D, depending on evidence presented in rate proceedings Electric - Original cost less depreciation plus allowance for working capital, materials and supplies, prepayments and unamortized research and development, land held for future use, plus or less deferred income taxes as appropriate, plus pollution control and fuel conversion CWIP and up to 50% of other CWIP.
ALABAMA PSC	X	Original cost less accrued depreciation.
ALASKA PUC	X	Rate base determined by using 13-month average of plant-in-service less 13-month average of associated accumulated depreciation, plus allowance for working capital. Gross plant must be stated at original cost and must be used and useful to ratepayer; therefore, excludes land or property held for future use, construction work in progress, unamortized contributed plant, advances in aid of construction, and any acquisition adjustment not previously accepted by Commission. Year-end plant used only if extraordinary growth experienced.
ARIZONA CC	X	Weighting as to original costs and reconstruction costs is at discretion of Commission.
ARKANSAS PSC	X	Net book cost of plant in service, plus construction work in progress (projects with expected completion dates under one year or by date new rates go into effect, whichever is sooner, receive rate base treatment; those with expected completion dates greater than one year from end of test year receive allowance for funds used during construction) plus materials and supplies, plus allowance for working capital. Customer advances are used.
CALIFORNIA PUC	X	Used and useful original cost, plus M&S, plus working cash allowance less book depreciation reserve, less contributed plant, less advances in aid of construction, less deferred income tax reserves. (Average year).
COLORADO PUC	X	Average or year-end net original cost less accumulated depreciation plus material and supplies, prepayments less deferred taxes and advances.
CONNECTICUT DPUC	X	Utility plant in service, less accumulated depreciation, add materials and supplies, fuel reserve (3-month supply) and allowance for working capital; deduct customer advances for construction, contributions in aid of construction.
DELAWARE PSC	X 4/	
D.C. PSC 7/	X	Original cost rate base includes plant in service, reserve for depreciation; construction work in progress limited to expenditures for pollution control and a substantial amount of construction prior to June 14, 1979 (electric), or AFUDC (gas and telephone), 13-month average materials and supplies and working capital. Customers' advances, contributions in aid of construction and accumulated deferred taxes are deducted from rate base.
FLORIDA PSC	X	13-month average net investment (original cost) plus working capital. Year-end investment used only if extraordinary growth experienced. For electric, gas and telephone working capital is based on the balance sheet approach.
GEORGIA PSC	X	Original cost.
HAWAII PUC	X	Original cost including M&S, working capital, less customer advances and contribution, deferred taxes, investment credits and customer cash deposits.
IDAHO PUC	X	Original cost.
ILLINOIS CC		Original cost.
INDIANA URC		Fair value and attention to historical cost.
IOWA SUB	X	13-month average plant investment (original cost), less accrued depreciation, accumulated deferred taxes, pre-1971 Investment Tax Credits, customer deposits and customer advances, plus working capital.
KANSAS SCC	X	Original cost depreciated.
KENTUCKY PSC	X	Gas and electric: original cost less depreciation reserve plus prepayments, materials and supplies and allowance for working capital, less deferred taxes, customer advances for construction and contributions in aid of construction.
LOUISIANA PSC	X	Average test year-original cost based on table headed "Items Allowed in Rate Base"
MAINE PUC	X	Commission judgment based upon factors as detailed in table headed "Items Allowed in Rate Base". Original Cost.
MARYLAND PSC	X	Fair Value. Is usually equated to original cost.
MASSACHUSETTS DPU	X	Original cost of plant in service - less accumulated depreciation, plus materials and supplies (not including appliances), plus working capital (if warranted) plus prepayments, less contributions, advances, deferred tax and unamortized investment credit prior to 1971.
MICHIGAN PSC	X	Original cost prudently invested. For major utilities, rate base often projected. For others average or year-end techniques are used.
MINNESOTA PUC		MS 237.075 (telephone) and MS 216B, Sec 16, Sub 6, outline factors to be considered in establishing gas or electric rate base. PSC decision dated 6/2/75 stated that current value or fair value will not be considered under these statutes.

TABLE 21 - METHOD OF DETERMINING RATE BASE (Continued)

AGENCY	AGENCY DETERMINES**	STATE THE METHOD PRESCRIBED EITHER FOR GENERAL APPLICATION OR IN A RECENT RATE CASE.
MISSISSIPPI PSC	X	Average depreciated original cost plus excess deferred taxes, 45-day working capital allowance less reserves, customer advances for construction, customer deposits, CWIP.
MISSOURI PSC	X	Consider original cost and trended original cost and other relevant factors.
MONTANA PSC	X	Depreciated original cost.
NEBRASKA PSC 1/	X	Consider current value and original cost - depreciated.
NEVADA PSC	X	Depreciated original cost.
NEW HAMPSHIRE PUC	X	Average original cost, less depreciated reserve plus prepayments, materials and supplies and allowance for working capital, less deferred taxes, customer advances and deposits and contributions in aid of construction.
NEW JERSEY BPU	X	Original cost less accumulated depreciation of used and useful plant plus materials and supplies and working capital less customer advances and contributions in aid of construction
NEW MEXICO PSC	2/	A 50-50 weighting of original cost depreciated and reproduction cost depreciated.
NEW MEXICO SCC	X	Original cost less depreciation.
NEW YORK PSC	X	Depreciated original cost.
NORTH CAROLINA UC	X	Depreciated original cost.
NORTH DAKOTA PSC	X	Prudent investment less reserve for depreciation, contributions in aid of construction and accumulated tax deferrals plus materials and supplies and cash working capital less low point of tax accruals.
OHIO PUC	X	Original cost less depreciation for used and useful plant, plus reasonable working capital allowance and CWIP at Commission's discretion, less customer advances or deposits, contributions in aid of construction, deferred taxes and accumulated deferred investment tax credits if permitted under Applicable Tax Code provisions.
OKLAHOMA CC	X	As described in table headed "Items Allowed in Rate Base" and table headed "Method of Valuation Generally Applied".
OREGON PUC	X	As described in table headed "Items Allowed in Rate Base".
PENNSYLVANIA PUC	X	Depreciated original cost, plus non-revenue producing CWIP, material and supplies and cash working capital minus accumulated deferred income taxes and customer deposits, advances and contributions.
PUERTO RICO PSC7/	X	Recorded book costs less depreciation.
RHODE ISLAND PUC 7/	X	Average for test period. Original cost less accumulated depreciation plus material and supplies, working capital allowance less contributions in aid of construction, customer deposits and deferred income taxes.
SOUTH CAROLINA	X	Original cost less accumulated depreciation, plus property held for future use, material and supplies, construction work in progress, working capital allowance less advances in aid of construction, customer deposits and Accumulated Deferred Income Tax (Lib Deprec).
SOUTH DAKOTA PUC	X	Net investment rate base - original cost only. Average, historic rate base.
TENNESSEE PSC	X	Original cost less accumulated depreciation, plus materials and supplies and working capital, less customers advances and contributions in aid of construction and deferred taxes
TEXAS PUC	X	Formal direction has not been given. Commission judgment based on factors detailed in table headed "Items Allowed in Rate Base".
TEXAS RC 3/	X	60/40 weighting of original cost depreciated and reproduction cost new depreciation used. Average for test period - Plant in service plus plant held for future use, less accumulated provision for depreciation and amortization, contributions in aid of construction, accumulated deferred income taxes, customer advances for construction; plus material and supplies and working capital.
UTAH PSC	X	Average Rate Base - Original cost less accumulated depreciation, plus materials and supplies and working capital, less customer advances and contributions in aid of construction and deferred taxes. 6/
VERMONT PSB	X	Formal direction has not been given.
VIRGIN ISLANDS PSC 7/	X	As described in table headed "Items Allowed in Rate Base", however Commission must employ its judgment as to proper fair value.
VIRGINIA SCC	X	Net original cost, materials and supplies and working capital, less deferred taxes, customer deposits and customer advances.
WASHINGTON UTC	X	Average original cost plant in service and property held for future use, less average depreciation reserve, unamortized investment credit and accumulated deferred income tax, plus an allowance for investor supplied working capital.
WEST VIRGINIA PSC	X	As shown in table headed "Items Allowed in Rate Base".
WISCONSIN PSC 7/	X	Depreciated original cost plus items in table headed "Items Allowed in Rate Base".
WYOMING PSC	X	Original cost less depreciation, plus allowance for material and supplies, working capital, adjustment for tax deferrals (not including job development investment tax credit).
CANADIAN RTC	X	Invested Capital Rate Base: Debt and equity capital employed to finance telecommunications and subsidiaries' activities. Net Asset Rate Base: Book cost of telecommunication property including capitalized land, materials and supplies, working capital minus accumulated depreciation and deferred taxes.
NATIONAL ENERGY BOARD	X	13-month average net utility plant, allowance for working capital and deferred costs authorized by the Board.

TABLE 21 - METHOD OF DETERMINING RATE BASE (Continued)

AGENCY	AGENCY DETERMINES**	STATE THE METHOD PRESCRIBED EITHER FOR GENERAL APPLICATION OR IN A RECENT RATE CASE.
ALBERTA PNC 7/	X	Original cost depreciated of plant in service and items per table headed "Items Allowed in Rate Base". Determined monthly. Company must apply for approval of significant changes.
ALBERTA PUB 5/	X	
NOVA SCOTIA PUB7/	X	Original cost depreciated plus construction overheads, etc.
ONTARIO EB	X	Depreciated original cost.
ONTARIO TBC 7/	X	Depreciated original cost plus allowance for working capital. If supported by evidence, allowance for materials and supplies and construction work in progress.
QUEBEC NGB	X	Original cost net including certain inventories, allowance for working capital and other items authorized by the Board.
QUEBEC TB	X	Original cost net excluding construction work in progress, including materials and supplies and allowance for working capital.

** Method of determining rate base is left to judgment of the Agency under its general authority to determine just and reasonable rates.

FOOTNOTES - TABLE 21 - METHOD OF DETERMINING RATE BASE

1/ No Commission regulation of electric utilities.
2/ Weighting of original and reproduction is left to commission judgment.
3/ No Commission regulation of electric or phone utilities.
4/ By statute.
5/ Statute prescribes that Board give due consideration, in determining rate base, to cost of property when first devoted to public use, to prudent acquisition cost to owner, less depreciation, amortization or depletion in respect to each and to necessary working capital.
6/ General formula - each utility computes its own ratebase subject to Commission review and approval.
7/ Commission did not respond to request for update information; this data may not be current.

TABLE 22 - TREATMENT OF DEPRECIATION AND DEFERRED TAXES IN RATE BASE

AGENCY	Method of determining and the treatment of accrued depreciation in computing the rate base	Method of treatment of deferred taxes			
		Deducted from rate base	Capitalization at no return	Other	* Differs
FCC 2/	Book depreciation reserve deducted from gross book cost of plant in service.			3/	
FERC	Depreciation deducted from rate base.	X			
ALABAMA PSC	Straight line.	X	X		X 14/
ALASKA PUC	Straight line accumulated depreciation deducted from original cost to arrive at net plant.	X			X 13/
ARIZONA CC	Deducted as booked.	X	X		
ARKANSAS PSC	Deduction.		X		
CALIFORNIA PUC	Straight-line remaining life method of depreciation. Book reserve deducted from original cost of plant in computing rate base.	X			
COLORADO PUC	Straight line deducted from gross plant in service.	X	X		X 5/
CONNECTICUT DPUC	Accrued depreciation (based on straight-line method) as recorded on books of company is deducted from original cost of utility plant in service.				
DELAWARE PSC	Accrued depreciation deducted; normalization permitted.	X			
D.C. PSC 20/	As booked - based upon approved rates.	X			
FLORIDA PSC	Straight line rate-deducted from gross plant in service=net plant in service		X		
GEORGIA PSC	Deducted from gross plant in service based on book depreciation reserve and approved rates.	X			
HAWAII PUC	Deducted from plant in calculating the rate base. Depreciation expense computed on straight line basis.	X			
IDAHO PUC	Service life method - reserve deducted.	X			8/
ILLINOIS CC	Straight line and deduction from rate base.	X			
INDIANA URC	Straight line - Net plant.		X		X 9/
IOWA SUB	Book accrued depreciation used to reduce gross plant. Consideration of theoretical reserve, if resulting reserve deficiency is treated below the line.	X			
KANSAS SCC	Depreciation reserve is subtracted from historical plant cost to obtain net plant in service.	X	X		
KENTUCKY PSC	Book reserve based straight line accrual.	X			X 10/
LOUISIANA PSC	Straight line.	X			
MAINE PUC	Accrued depreciation deducted. Straight line.	X			X 11/
MARYLAND PSC	Deducted from gross plant in service. Straight line.	X			
MASSACHUSETTS DPU	Deducted from plant in service.	X			X 12/
MICHIGAN PSC	Deducted from plant in service.		X		
MINNESOTA PUC	Straight line-five year average service life; one year-remaining life	X			
MISSISSIPPI PSC	Depreciation calculated on straight-line basis. Any variation by utility is normalized. Reserve deducted from gross plant.	X	X		
MISSOURI PSC	Depreciation expense adjusted to year-end level. Depreciation reserve deducted from plant in service to arrive at net plant in service.	X			
MONTANA PSC	Depreciation expense adjusted to year-end level, depreciation reserve adjusted correspondingly and reserve then deducted from plant in service to arrive at net plant in service.		X		X 6/
NEBRASKA PSC 2/	Book depreciation reserve deducted from rate base.	X	X		
NEVADA PSC	Deducted therefrom.	X			
NEW HAMPSHIRE PUC	Accrued depreciation (depreciation reserve) deducted from gross plant in determining rate base. Average test year. Deferred taxes deducted from rate base.	15/	15/	15/	
NEW JERSEY BPU	Depreciation rates approved by Board for each major utility; accrued depreciation is deducted from value of plant in computing rate base.	X 7/	X 7/		
NEW MEXICO PSC	Straight line accumulated depreciation deducted from original cost to arrive at net plant.	X			
NEW MEXICO SCC	Deducted from original cost of telephone plant.	X			
NEW YORK PSC	(a) Straight line, (b) book depreciation deducted from rate base if reasonably consistent with theoretical; if serious discrepancy, theoretical is used.	X			
NORTH CAROLINA UC	Book depreciation based on rates approved by Commission which has been accumulated in depreciation reserve account is deducted from original cost investment in plant.	X			
NORTH DAKOTA PSC	Straight Line (vintage group, remaining life, equal life group). Depreciation reserve deducted from original cost.	X			
OHIO PUC	Depreciation expenses determined by applying accrual rates approved by Commission to date certain plant accounts. Depreciation reserve deducted from plant accounts in computing rate base.	X			
OKLAHOMA CC	Depreciation reserve deducted from gross plant.	X			
OREGON PUC	Straight line depreciation deducted from rate base.	X			

TABLE 22 - TREATMENT OF DEPRECIATION AND DEFERRED TAXES IN RATE BASE (Continued)

AGENCY	Method of determining and the treatment of accrued depreciation in computing the rate base	Method of treatment of deferred taxes: Deducted from rate base	Capitalization at no return	Other	* Differs
PENNSYLVANIA PUC	Generally straight line depreciation-reserve requirements determination based on lives and ages deducted from gross plant.	X			
PUERTO RICO 20/	Average depreciation plant in service during test period.				
RHODE ISLAND 20/	As a deduction from gross plant.	X			X 4/
SOUTH CAROLINA	Depreciation reserve deducted from gross plant.	X			
SOUTH DAKOTA PUC	Deducted accumulated depreciation in determining net investment.	X			
TENNESSEE PSC	These amounts are deducted.	X			
TEXAS PUC	Depreciation computed on straight line basis over useful life expectancy of item or facility (jurisdiction over electric & telephone only).	X			
TEXAS RC 16/	Book depreciation taken from company books.	X 7/	X 7/		
UTAH PSC	Accrued depreciation, usually per books, deducted.	X			X 17/
VERMONT PSB	The accrual as booked is deducted from rate base.	X	X		
VIRGIN ISLANDS PSC 18/ 20/	Depreciation determined by applying rates approved by Commission; accrued depreciation deducted from value of plant in computing rate base.				X 4/
VIRGINIA SCC	Depreciation reserve deducted from original cost.	X			
WASHINGTON UTC	Per books if reasonable, use average of monthly averages.	X			
WEST VIRGINIA PSC	Average reserve for depreciation deducted from utility plant.	X			X 19/
WISCONSIN PSC 20/	Recorded reserve for depreciation or required reserve for depreciation (in specified instances) deducted in computing rate base.	X			
WYOMING PSC	Straight-line, deducted from original cost.	X			
CANADIAN AGENCIES					
CANADIAN RTC	Net book value determined by deducting accrued depreciation (based on equal life group method) from gross book cost of plant in service.	X	X		
NATL ENERGY BOARD	Accumulated depreciation deducted from gross plant in service.	X	X		
ALBERTA PMC 20/	Booked amount deducted from gross plant in service.				
ALBERTA PUB	Based on approved rates. Accrued depreciation deducted from gross plant in service.				
NOVA SCOTIA	Straight line depreciation at approved rates & approved reserve adjustments.				X 1/
ONTARIO EB	Straight line remaining life method of depreciation. Accumulated depreciation applicable to gas plant in service deducted from gross plant in rate base.	X			
ONTARIO TSC 20/	(a) Straight line (b) book depreciation deducted from rate base if reasonably consistent with theoretical; if serious discrepancy, theoretical is used.	X			
QUEBEC NGB	Straight line. Book reserve deducted from original cost of plant in computing rate base.				
QUEBEC TB	Straight line deducted from original cost.				

* Method of determining rate base differs for different types of utility ownership.

1/ All utilities are publicly-owned except for one private telephone utility.
2/ No commission regulation of electric and gas utilities.
3/ Both normalization and flow-through methods have been used. Accumulated Tax Deferrals are used as a credit reducing the rate base.
4/ Public: no rate base determined, use cost of service plus funds for debt service and contingencies.
5/ Private and co-ops are the same; Commission has used operating ratio in municipal public utility rate cases.
6/ Co-ops: not subject to jurisdiction; private: rate of return on rate base; public: revenue requirement.
7/ Accumulated deferred income taxes either deducted from rate base or included in capital structure at no rate of return.
8/ Public, cooperative not subject to Commission jurisdiction.
9/ Private: rate of return on net original cost rate base; public and cooperative: revenue requirements.
10/ Revenue requirements given first consideration in cooperative cases rather than rate base.
11/ Publicly-owned and cooperatives operate on net income against net investment of plant and not a rate-of-return basis.
12/ Statutory for municipal lighting plants. Original cost of plant in service divided into net income (less any bond payment during year).
13/ In some cases involving public ownership or cooperatives, a return based on debt requirements has been substituted for a return on rate base.
14/ Zero cost in capital structure for energy companies.
15/ Rate base: includible to the extent chargeable in a given year. Capitalization: liberalized depreciation: flow-through to 1/01/70. Can normalize after that date. 4 percent investment tax credit: can normalize and reserve not be deducted from rate base.
16/ No Commission regulation of electric and telephone utilities.
17/ A cooperative does not have items such as deferred income taxes and in this respect differs from privately-owned utility and cooperative.
18/ Electric facilities are government-owned and operated, but regulated by the Commission; no natural gas service in Virgin Islands other than "bottled gas" which is not regulated by the Commission.
19/ Rate base not used on publicly-owned utilities; no separate allowance for rate of return.
20/ Commission did not respond to request for update information; this data may not be current.

TABLE 23 - YEAR END OR AVERAGE RATE BASE PRESCRIBED ELECTRIC, GAS AND TELEPHONE

AGENCY	The Agency generally prescribes -

QUEBEC TB						X	X			

FOOTNOTES - TABLE 23 - YEAR END OR AVERAGE RATE BASE PRESCRIBED

1/ Both year-end and average; depends upon plant and customer growth and severity of attrition.
2/ The utilities select the method of determining rate base for any consecutive 12-month period.
3/ Use terminal rate base if attrition is present.
4/ Small utilities.
5/ Average rate base has sometimes been used. Revenues and expenses are normalized when year-end rate base is used.
6/ Large utilities.
7/ Can be any of several methods.
8/ Used when monthly data are not available.
9/ PUC has allowed Public Service Company of Colorado and other electric and gas utilities a year-end rate base.
10/ Twelve months average of monthly average.
11/ Thirteen-month weighted average at end of month balances.
12/ Full, forecasted current year and two-month actual, ten-month projected current year data allowed for test year in recent electric cases.
13/ Five quarters.
14/ Fully projected test year mandated by OCGA Section 46-2-26.1.
15/ Any twelve-month period, not necessarily a calendar year.
16/ No Commission regulation of electric or gas utilities.
17/ No Commission regulation of electric or telephone utilities.
18/ Government-owned, operates on net income less operating expenses with sufficient balance to cover debt service. Rate base per se is not considered.
19/ There are no gas utilities in the Virgin Islands.
20/ Case by case.
21/ Date certain within 12 month test period but no later than the date of filing the application.
22/ Only if utility can demonstrate it has experienced extraordinary growth, or if expenses and revenues are stated at year-end levels to provide proper matching.
23/ Year-end rate base is used except largest electric utility commences depreciation when asset placed in service, while telephone utility averages depreciation monthly.
24/ Year-end rate base may be adjusted for known and measurable changes.
25/ Year-end for historical test year.
26/ Average for forecasted test year.
27/ Generally use beginning and end of year average for fully forecasted test year.
28/ Jurisdiction over electric utilities ended June 17, 1988.
29/ Commission did not respond to request for update information; this data may not be current.

TABLE 24 - APPROVED METHOD OF DETERMINING WORKING CAPITAL

AGENCY	THE METHOD OF DETERMINING WORKING CAPITAL, FOR RATE PURPOSES, GENERALLY APPROVED BY THE AGENCY
FCC	Lead-lag study or prescribed formula.
FERC	Starting in FY 1981, lead-lag studies have been undertaken to determine the reasonableness of the cash working capital requirement claimed by the interstate gas pipeline companies in their rate filings, thus placing at issue the allowance of the amount equal to 1/8 of their cash operating expenses (exclusive of purchased gas costs) pemitted for prepayments, materials and supplies, as well as storage working gas inventory balances. Average materials and supplies, average prepayments plus either cash working capital of 1/8 operation and maintenance expense for electric utilities, or a modified 1/8 O&M with actual lead/lag studies for fuel expense and purchased power.
ALABAMA PSC	Lead-lag or balance sheet approach.
ALASKA PUC	Working capital is comprised of cash and non-cash components. The cash component is generally a 45-day allowance for cash operating expenses. The non-cash component is the 13-month average of materials and supplies, prepayments, deferred charges and credits, customer deposits and deferred taxes.
ARIZONA CC	1/24 purchased power, fuel and water, 1/8 remaining operation and maintenance expenses, materials and supplies, prepayments, special deposits.
ARKANSAS PSC	Lead-lag study or modified balance sheet approach. Modified balance sheet approach includes average working capital assets (jurisdictional) necessary to provide utility service in rate base and average working capital liabilities (total) in the capital structure at the appropriate cost. Unrecorded assets (such as unbilled revenue accounts receivable) and unrecorded liabilities are considered.
CALIFORNIA PUC	Study showing lead or lag in payment of operating expenses to receipt of revenues, plus allowance for other necessary operational cash requirements, plus materials and supplies.
COLORADO PUC	Lead-lag on large company - 45 days operating expenses, excluding depreciation and taxes, offset by 1/2 accrued property taxes; 15 days purchased costs if applicable on small company. Some small companies still operate on FERC formulae.
CONNECTICUT DPUC	Electric & Gas: for ratemaking purposes 12-1/2% (1/8) of operating & maintenance expense adjusted for purchased gas & fuel cost included in rate base as working capital. Lead/lag studies considered for major utilities.
DELAWARE PSC	FERC method, lead-lag study, balance sheet approach.
DC PSC 3/	Lag study, plus cash or 1/12 operation and maintenance expenses (gas only).
FLORIDA PSC	The balance sheet approach is utilized.
GEORGIA PSC	Principally lead-lag study, but 45-day formula periodically.
HAWAII PUC	Either lead-lag study, number of days expenses, or modified FERC method - determined on case-by-case basis.
IDAHO PUC	Balance sheet approach, ie, investor supplied.
ILLINOIS CC	That part of the cash operating expenses not covered by cash accruals and required to be paid by the utility before recovery through rates plus an allowance for materials and supplies.
INDIANA URC	Lead-lag formula or 1/8 of cash operating expenses exclusive of purchased product and taxes.
IOWA SUB	WC is not being allowed on an automatic basis such as 45 days - materials and supplies, cash working capital and prepayments less 13-month average accumulated taxes, interest and preferred dividends. A lead-lag study is normally required.
KANSAS SCC	Lead-lag study preferred.
KENTUCKY PSC	1/8 of annual out-of-pocket operating expenses.
LOUISIANA PSC	Lead-lag study method has been used, but not exclusively.
MAINE PUC	Cash working capital is determined by lead-lag study. Materials, supplies and inventory also included in working capital.
MARYLAND PSC	Material and supplies allowed, CWC supported by lead-lag study.
MASSACHUSETTS DPU	Usually use 45-day method for operating and maintenance expenses. Purchased gas or electricity - many are 10 days but varies with company.
MICHIGAN PSC	Current assets minus current liabilities.
MINNESOTA PUC	Lead-lag study.
MISSISSIPPI PSC	Utility allowed 45 days of operating expenses for working capital requirements and then available accrued taxes are offset against this requirement; customers' deposits deducted; lead-lag study required for major rate cases.
MISSOURI PSC	A Lead-Lag study is performed to examine all cash flow items.
MONTANA PSC	1/8 of maintenance and operation expenses, modified.
NEBRASKA PSC 1/	Materials and supplies allowed plus lead-lag study.
NEVADA PSC	Lead-lag study.
NEW HAMPSHIRE PUC	Usually the FERC method or cash lag formula, balance sheet method, or lead-lag study.
NEW JERSEY BPU	Either use lag study of 1/8 operation and maintenance expenses, modified, or balance sheet method.
NEW MEXICO PSC	Cash working capital estimated by using 1/8 of operation and maintenance expenses and 1/60 of purchase power (or purchased gas) expenses.
NEW MEXICO SCC	1/3 average monthly expenses and 1/3 average monthly taxes. Lead-lag study will be required in next rate case.
NEW YORK PSC	FERC as modified using balance sheet approach.
NORTH CAROLINA UC	Generally larger companies required to present comprehensive lead/lag study which may be recognized for modification of procedures. Other: (A) Gas and electric companies: 45 days or 1/8 of test period operation and maintenance expenses (excluding purchased power or gas) plus test period balance in material and supplies account. From this amount are deducted the average monthly balances of state and federal income taxes plus prepayments, gross receipts ad valorem and FICA taxes, and customer deposits.

TABLE 24 - APPROVED METHOD OF DETERMINING WORKING CAPITAL (Continued)

AGENCY	THE METHOD OF DETERMINING WORKING CAPITAL, FOR RATE PURPOSES, GENERALLY APPROVED BY THE AGENCY
NORTH CAROLINA (CONTINUED)	(B) Telephone companies: same as gas & electric except that 30 days or 1/12 of test period operation and maintenance expenses is used.
NORTH DAKOTA PSC	Lead-lag studies.
OHIO PUC	Normally formula modified by lead-lag study + average fuel & M&S inventory less deposits, tax deferrals/credits
OKLAHOMA CC	1/8 of operating expenses excluding depreciation, taxes and cost of purchased power or purchased fuel (gas, fuel oil, coal, etc.) offset in (1) electric, gas and water by 1/2 ad valorem tax collections and other precollection such as (2) monthly prepayments, consumer deposits and (3) adjusted by lead-lag study.
OREGON PUC	Lead-lag studies tested by investor supplied studies.
PENNSYLVANIA PUC	Allowances are predicted on reasonable revenue expense and payment lag, usually a 45-day period.
PUERTO RICO 3/	Lag in revenue receipts vs. lag in payment of expenses.
RHODE ISLAND 3/	Lead-lag studies.
SOUTH CAROLINA PSC	Latest Electric Decision - Cash - 1/8 O&M Expenses less purchased power and nuclear fuel expense; minimum bank balances, prepayments; less average tax accruals. Lead-lag studies are required when deemed necessary for both Telephone and Electric. For telephone companies, a fewer number of days are used in computing cash working capital.
SOUTH DAKOTA PUC	Lead-Lag studies.
TENNESSEE PSC	Lead-lag studies.
TEXAS PUC	Working capital includes, but not limited to, materials, supplies, fuels, reasonable prepayment of operating expenses and up to 1/8 of total annual operations & maintenance expenses (jurisdiction over electric & tele.)
TEXAS RC 2/	Generally the working capital allowance is 45 days of operating expenses excluding gas cost, depreciation and taxes, plus an average amount of materials and supplies and prepayment.
UTAH PSC	Lead-lag study is preferred, but commission also may use 1/8 of operation and maintenance expenses of electric and gas utilities. For telephone utilities the allowance is either 20 days or 30 days operation and maintenance expenses.
VERMONT PSB	Operating cost less depreciation, purchase power, operating taxes, that are paid quarterly or other longer periods such as real estate taxes. This is then divided by the period of recovery, monthly - 45 days 1/8, bi-monthly - 90 days 1/4, quarterly - 180 days 1/2.
VIRGIN ISLANDS 3/	Short-term debt but not current maturities of long-term debt.
VIRGINIA SCC	20 days for telephone, 30 days for gas, 40 days for electric, or forumla method generally used. Gradually converting to lead-lag study.
WASHINGTON UTC	Investor supplied approach.
WEST VIRGINIA PSC	Lead-lag study preferred; balance sheet analysis of investor-supplied capital has also been used.
WISCONSIN PSC 3/	Working capital requirements are taken into consideration in translating cost of capital into return applicable to net investment rate base.
WYOMING PSC	Lead-lag study required for large utilities. Otherwise use 45 days working capital and average materials and supplies.
CANADIAN AGENCIES	
CANADIAN RTC	Investor supplied approach for net asset rate base.
NATIONAL ENERGY BOARD	Cash working capital component generally determined by lead lag study. Also included in working capital allowance are 13-month average of prepayments and deposits, materials & supplies and other items as authorized.
ALBERTA PMC 3/	1/8 annual cash operating expenses including line pack or lead-lag study.
ALBERTA PUB	Lead-lag study or balance sheet method in the case of large utilities.
NOVA SCOTIA PUB	Judgment used to determine working capital of small utilities. For larger utilities lead-lag studies used to determine cash working capital with materials and supplies based upon monthly averages.
ONTARIO EB	Lead-lag studies.
ONTARIO TSC 3/	To date 1/8 of operating expenses less depreciation (under study).
QUEBEC NGB	45 days of total operating and maintenance expense.
QUEBEC TB	1/6 of operating expenses (including current taxes and interests but excluding depreciation and deferred taxes).

1/ No Commission regulation of electric or gas utilities.
2/ No Commission regulation of electric or telephone utilities.
3/ Commission did not respond to request for update information; this data may not be current.

SECTION D

OTHER COST OF SERVICE ALLOWANCES

In addition to determining the rate base valuation upon which a utility may earn a rate of return, the various agencies also have jurisdiction over expenses or cost of service items which a utility may or may not be permitted to charge against its operations. The States do not allow political contributions as a component of cost of service. However, most of the States do allow expenditures for economic, trade and professional activities to be included as a cost of service item.

Advertising expenditures, especially promotional advertising, are limited or excluded as a cost of service item by virtually every regulatory authority. Generally, most expenditures of this type that are allowed as a cost of service item are those intended to promote conservation or public awareness or to provide public information on the operations of the utility. Tables 25, 27, 28 and 29 in this Section provide information on the types of expenditures which an agency may or may not allow as a cost of service item. Table 26 outlines the general policy and requirements initiated on behalf of the various agencies to determine which items may be included in a utility's cost of service.

TABLE 25 - CONTRIBUTIONS AND DUES ALLOWED IN COST OF SERVICE

AGENCY	For cost of service allowance, the Agency allows contributions/dues payments to these types of organizations:												
	Religious	Charitable	Educational	Civic	Patriotic	Political	Fraternal	Econ. Dev't.	Service	Trade	Professional	Promotional	Local State Natl Ad Hoc Fund Raising Drives

FOOTNOTES - TABLE 25
ALLOWABLE CONTRIBUTIONS AND DUES

1/ Determined on a case by case basis.
2/ Utility must prove material benefit to ratepayers.
3/ Conditional.
4/ The level of contributions made during the period when contributions were not allowed in cost of service, adjusted for inflation, serves as benchmark.
5/ Current cases - none allowed.
6/ Reasonable amounts allowed.
7/ Normally allow any above the line items as enumerated by the system of accounts.
8/ Actual expenditure for ordinary advertising contributions and donations is allowed as cost of service up to .3% of operating revenues. Specific exclusion may be made.
9/ Charitable donations disallowed. Other items considered on basis of prudent expenses.
10/ Only 50% of qualified contributions allowed as operating expense.
11/ Commission allows charitable, religious, etc. donations in the public interest. Other donations (promotional) are examined on a case-by-case basis to assure that they are appropriate for regulatory purposes.
12/ Commission did not respond to request for update information; this data may not be current.

TABLE 26 - AGENCY POLICY WITH RESPECT TO CONTRIBUTION AND DUES

AGENCY	AGENCY POLICY ON ALLOWING OR DISALLOWING CONTRIBUTIONS AND DUES PAYMENTS AS PART OF THE COST OF SERVICE, INCLUDING REQUIREMENTS FOR ITEMIZATION OF SUCH EXPENDITURES.
FCC	Reasonable amounts allowed.
FERC	Treatment determined on case-by-case basis; charitable contributions are allowed, other contributions and dues payments allowed only to the extent that they are reasonable and legitimate.
ALABAMA PSC	Contributions are disallowed; treatment of dues determined on case-by-case basis.
ALASKA PUC	Contributions are disallowed; treatment of dues determined on case-by-case basis.
ARIZONA CC	In recent cases, allowed only those items related to trade. Some charitable contributions disallowed.
ARKANSAS PSC	Reasonable amounts allowed that are directly beneficial to the ratepayer.
CALIFORNIA PUC	Dues are allowed when directly beneficial to ratepayers.
COLORADO PUC	Charitable contributions disallowed; dues are allowed when directly beneficial to ratepayers.
CONNECTICUT DPUC	Treatment determined on case-by-case basis.
DELAWARE PSC	Contributions and dues must be itemized. Treatment determined on case-by-case basis.
DC PSC	Treatment determined on case-by-case basis.
FLORIDA PSC	Items recorded below the line per Uniform System of Accounts. Detailed itemization required.
GEORGIA PSC	Full details by utility subject to review as to their reasonableness by the GPSC.
HAWAII PUC	Treatment determined on case-by-case basis.
IDAHO PUC	Contributions and dues payments are not allowed.
ILLINOIS CC	Contributions: reasonable amounts allowed; utilities not required to itemize by categories; subject to review in rate case.
INDIANA URC	Certain contributions disallowed; most above-the-line items allowed, per Uniform System of Accounts.
IOWA SUB	Amounts charged to FERC account 426 are generally disallowed, unless benefit to ratepayers is shown.
KANSAS SCC	Reasonable amounts allowed per State Supreme Court decision, subject to review.
KENTUCKY PSC	Must be justified by item of expenditure.
LOUISIANA PSC	Contributions to local organizations, subscriptions/dues to trade/professional organizations allowed. Expenses must be itemized.
MAINE PUC	Contributions are disallowed; treatment of dues determined on case-by-case basis.
MARYLAND PSC	Charitable contributions not allowed. Professional dues generally allowed.
MASSACHUSETTS DPU	Contributions: 1/2 test year. Dues: lobbying expenses disallowed; if lobbying expenses are not sufficiently distinguished from non-lobbying expenses, the entire amount may be disallowed.
MICHIGAN PSC	Itemized as required by FERC and FCC report forms. Treatment determined on case-by-case basis; may allow those expenses of benefit to ratepayers.
MINNESOTA PUC	Only 50% of qualified contributions shall be allowed.
MISSISSIPPI PSC	Certain dues were disallowed by Commission, but were reversed and allowed by State Supreme Court.
MISSOURI PSC	Contributions and dues must be business related. Reasonable amounts allowed if benefit to ratepayers shown.
MONTANA PSC	Reasonable contributions; anything over $500 itemized.
NEBRASKA PSC	Treatment determined on case-by-case basis.
NEVADA PSC	Treatment determined on case-by-case basis.
NEW HAMPSHIRE PUC	Reasonable amounts may be allowed; contributions must disclose name of organization. Subject to review.
NEW JERSEY BPU	Professional dues, 75% of in-state charitable donations, nationally recognized charities & matching fund contributions allowed in service rates.
NEW MEXICO PSC	
NEW MEXICO SCC	Treatment determined on case-by-case basis.
NEW YORK PSC	Charitable, social and community welfare program contributions may be allowed if company demonstrates prudence as to recipients and amounts. Level of contributions during period when contributions were not allowed in cost of service serves as benchmark.
NORTH CAROLINA UC	Must be itemized. Treatment determined on case-by-case basis.
NORTH DAKOTA PSC	Allow only those contributions directly related to the utility.
OHIO PUC	Complete itemization of allowable expenditures is required. Donations for charitable, social, or community welfare purposes, social and service club dues and expenditures, for civic, political and related activities are disallowed. Dues and membership fees in trade, technical, professional associations are allowed.
OKLAHOMA CC	Charitable donations disallowed; dues to trade, technical and professional organizations allowed; dues to Chambers of Commerce allowed if activity is related to economic development.
OREGON PUC	Dues: generally allowed if paid to industry association, with disallowance for lobbying expenses.
PENNSYLVANIA PUC	Generally, any charitable contributions or dues to social organizations are disallowed for ratemaking.
PUERTO RICO PSC	No policy.
RHODE ISLAND PUC	Allow only those contributions directly related to the provision of utility service.
SOUTH CAROLINA PSC	No policy.
SOUTH DAKOTA PUC	Allow only those contributions and dues directly related to the provision of utility service.
TENNESSEE PSC	Reasonable amounts may be allowed.
TEXAS PUC	All payments must be itemized and are subject to review.
TEXAS RC	Charitable contributions not allowed; dues allowed if reasonable.
UTAH PSC	Generally, any charitable contributions or dues to social organizations are disallowed for ratemaking.
VERMONT PSB	Generally disallowed, but contributions reviewed for amount and purpose.
VIRGIN ISLANDS PSC	No policy.
VIRGINIA SCC	Generally allowed when paid to local organization.
WASHINGTON UTC	Current cases - none allowed.
WEST VIRGINIA PSC	Charitable contributions not allowed.

TABLE 26 - AGENCY POLICY WITH RESPECT TO CONTRIBUTION AND DUES (Continued)

AGENCY	AGENCY POLICY ON ALLOWING OR DISALLOWING CONTRIBUTIONS AND DUES PAYMENTS AS PART OF THE COST OF SERVICE, INCLUDING REQUIREMENTS FOR ITEMIZATION OF SUCH EXPENDITURES.
WISCONSIN PSC	Trade and professional association contributions and dues generally allowed. Determined case by case.
WYOMING PSC	None allowed.
CANADIAN RTC	Treatment determined on case-by-case basis.
NATL ENERGY BOARD	Amounts reviewed for reasonableness and purpose in rate case.
ALBERTA PUB	Treatment determined on case-by-case basis.
NOVA SCOTIA PUB	No firm policy.
ONTARIO EB	Charitable donations disallowed; prudently-incurred trade dues, promotional expenses, etc. may be allowed.
ONTARIO TSC	Subject to review for amount and purpose.
QUEBEC NGB	Reasonable amounts may be allowed.

TABLE 27 - DISALLOWANCE OF ASSOCIATION DUES

This table was originally compiled from responses to a survey conducted by the NARUC Staff Subcommittee on Accounts. The purpose of the survey was to determine the extent to which State regulatory bodies have disallowed, in determining cost of service, utility expenses associated with the payment of dues to specific utility trade associations.

Agency disallows utility payments or dues to:

NAME OF AGENCY	AMERICAN GAS ASSOCIATION	EDISON ELECTRIC INSTITUTE	US COUNCIL FOR ENERGY AWARENESS	ELECTRIC POWER RESEARCH INSTITUTE	OTHERS	PERCENTAGE DISALLOWED AND DESCRIPTION OF DISALLOWANCE POLICY

FOOTNOTES - TABLE 27 - DISALLOWANCE OF ASSOCIATION DUES

1/ Payment to Liquid Metal Fast Breeder Reactor Program disallowed in rate proceedings.
2/ Allows dues to extent that utility demonstrates benefit to utility and ratepayers.
3/ EEI - All promotional or advertising as well as political expenses disallowed. EPRI - Contributions reduced to average contributions from all residential customers served by utilities to EPRI. Idaho was primarily contributing a disproportionate share because of the large number of electric space heating customers.
4/ Generally most costs recorded above-the-line allowed. Commission order requires questionable items booked below the line and rationale presented by company to move above the line in a rate case, thus burden is on company, not staff; lobbying disallowed.
5/ Disallowed portion of promotional advertising-10%. Disallowed in one case; utility did not show specific benefits to ratepayers.
6/ AGA-Any contributions other than "dues payments" are disallowed 100%. AIF-100% since it is a pro-nuclear political organization.
7/ EEI-a portion of claimed expense disallowed because it was an estimate not a known charge.
8/ Based on "Statement of Policy on Advertising and Promotional Practices of Public Utilities" 2/25/77, PSC granted rate allowance for informational and institutional advertising ranging from one-tenth to one-twenty-fifth of one percent of operating revenues, in inverse relationship to the size of the company. If a portion of utilities' payments to industry associations is included in advertising expenses and if company spends more than rate allowance for advertising, a disallowance is made. In recent cases disallowed a portion of unsupported contributions made to EEI for dues and its communications program.
9/ Permits recovery of trade association dues, excluding that portion identified as lobbying or public relations expenses.
10/ Oklahoma CC disallowed increase in GRI funding in Oklahoma Natural Gas Order in Clause 29562. Commission determined that ONG currently pays a relatively large share of all GRI funding from intrastate companies and denied any increase in funding over amount granted on ONG's last Cause No. 28069.
11/ Oregon PUC presumes that 25% of trade association memberships and dues are excluded unless a specific showing of value by organization is made. EPRI dues allowed as operating expenses.
12/ Electric. Payments are allowed only to the extent that they benefit Pennsylvania utilities and their customers. Determination of benefit is made in the context of general rate proceedings on a case-by-case basis. GRI. Direct payments or donations disallowed. Charges reflected on supplier invoices are allowed.
13/ State act requires disallowance of the percentage of payment allocated for lobbying, attending or sponsoring political meetings or events, or any other expenditures to influence legislation.
14/ Commission currently re-examining policy.
15/ Industry membership dues and contributions are allowed if there is a showing as to the nature of the utility's participation in the organizations and the specific benefits that it and its ratepayers receive.
16/ Section 704.290 (Nevada Revised Stats) prohibits recovery of expenditures, direct or indirect, for political advertising "from any person other than its shareholders or other owner". Approximately 20% of EEI's annual expenditures are devoted to legislative activities according to EEI's "Report on the Expenditures of the Edison Electric Institute" and thus was disallowed.
17/ Nebraska PSC does not regulate natural gas or electricity.
18/ Disallow that portion of dues supporting lobbying, legislative affairs, advertising and public relations.
19/ Commission did not respond to requests for update information; this information may not be current.

TABLE 28 - TREATMENT OF ADVERTISING EXPENSES

L = Limits E = Excludes AGENCY	Advertising Expenditures	Advert. including special services ads	Institutional Advertising	"Goodwill" Advertising	Sales Promotion Expenses	POLICY
FCC	L	L	L	L	L	Issue in Docket No. 19129 - heretofore reasonable amounts were included as a cost of service.
FERC	L	L	L	L	L	All reasonable expenses allowed depending on evidence in rate case.
ALABAMA PSC	L	L	L	L	L	None.
ALASKA PUC	L	L	L	L	L	Allow reasonable amounts for energy conservation, public information promoting more efficient use of facilities or services or to protect physical plant, announce utility meetings, emergencies, good cause.
ARIZONA CC	L	L	L	E	L	Reasonable.
ARKANSAS PSC	L	L	E	E	E	Allow if benefit for ratepayer.
CALIFORNIA PUC	3/ L	E	E	E	E	Allow if benefit for ratepayer.
COLORADO PUC	L	L	E	E	E	Allow if benefit for ratepayer.
CONNECTICUT DPUC	L	E	E	E	E	Tele-no political/institutional. Gas/Elec-also no promotional adv.
DELAWARE PSC					E	Case by case basis.
D.C. PSC 5/						Case by case basis; reasonable amounts.
FLORIDA PSC	L	L	E	E	E	Case by case basis; reasonable amounts.
GEORGIA PSC	L	L	E	E	E	Case by case basis; reasonable amounts.
HAWAII PUC	L	L	L	L	L	Case by case basis.
IDAHO PUC	L	L	E	E	L 1/	Reasonable amounts allowed.
ILLINOIS CC	L	L	E	E	L	Case by case basis; utility must justify.
INDIANA URC 2/	L	L	L	L	L	Utility must prove material benefit to customers.
IOWA SUB	L	L	E	E	L	Institutional goodwill and promotional advertising expenses excluded; utility must prove benefit to ratepayer to include these expenses.
KANSAS SCC	L	L	L	E	E	Specific items excluded; partial exclusions if amounts excessive.
KENTUCKY PSC	L	L	E	E	E	Allow if prove benefit for ratepayer and utility.
LOUISIANA PSC	L	L	L	L	E	Allow if benefit for ratepayer; reasonable amounts.
MAINE PUC	L	L	E	E	L	Chapter 83 PUC Rules excluded institutional & political advertising of all utilities and promotional advertising of electric/gas utilities. However, costs may be allowed if utility proves reasonableness.
MARYLAND PSC	E	E	E	E	E	Informational advertising generally allowed; promotional advertising can be allowed if proven of benefit to ratepayer.
MASSACHUSETTS DPU	L	L	L	L	L	
MICHIGAN PSC	L	L	E	E	E	Advertising for appliances or gratuity advertising excluded. 4/
MINNESOTA PUC	L	L	E	E	E	Allow for conservation, safety, customer education.
MISSISSIPPI PSC	L	L	E	E	E	Public Utilities Act of 1983 excludes advertising expenses except for reasonable amounts spent for energy conservation, to promote efficient use of facilities or service.
MISSOURI PSC	L	L&E	E	E	L	Advertising expense examined for compliance with 4 CSR 240-14 delineating illegal promotional practices.
MONTANA PSC	L	L	E	E	E	Reasonableness.
NEBRASKA PSC	L	L	L	L	L	Review propriety of expenditures.
NEVADA PSC	L	L	E	E	L	Case by case basis.
NEW HAMPSHIRE PUC	L	L	L	E	E	Reasonable amounts.
NEW JERSEY BPU	L	L	E	E	E	Reasonable expenses allowed depending on evidence & ratepayer benefit.
NEW MEXICO PSC	L	L	L	E	E	
NEW MEXICO SCC	L	L	L			Case by case basis.
NEW YORK PSC	L	L	L	L	L	Reasonableness. Total allowed for informational/goodwill advertising limited to specific percentage of operating revenue. PSC has rules specifying impermissible activities.
NORTH CAROLINA UC	L	L	L	L	L	Electric and Gas: only institutional goodwill and conservation advertising permitted. Telephone: included only if found to be reasonable.
NORTH DAKOTA PSC	L	L	E	E	L	Allow consumer education for conservation.
OHIO PUC	L	E	E	E	E	Public information and conservation advertising allowed. Institutional & goodwill advertising allowed if utility proves benefit to ratepayer; sales promotion, political & non-utility advertising excluded.
OKLAHOMA CC	L	L	L	E	E	Statutes state allowed media communications; goodwill adv. disallowed.
OREGON PUC	L	L	L	E	L	Some conservation/information advertising allowed; institutional/promotional must be just/reasonable; political/nonutility disallowed.
PENNSYLVANIA PUC	L	L	L	L	L	Stringent policy on sales and promotional practices dated 9/28/70.
PUERTO RICO PSC 5/	L	L	L	L	L	None.
RHODE ISLAND PUC 5/	L	L	L	L	L	PUC controls by total dollars spent in relation to size of company.

ONTARIO TSC 5/	L	L	L	E	L	
QUEBEC NGB						Allowed.
QUEBEC TB	L	L	L	L	L	Reasonableness.

FOOTNOTES - TABLE 28
TREATMENT OF ADVERTISING EXPENSES

1/ Gas promotion only.
2/ Only advertising producing "material benefit to customers" allowed. Utility has the burden of proving material benefit. URC may issue declaration of compliance regarding proposed advertising.
3/ Only energy utilities conservation advertising allowed for ratemaking.
4/ PSC Gas Policy is to allow advertising which: (1) Advises ratepayer of matters of public health and safety; (2) Promotes conservation of energy resources; (3) Explains billing practices, utility services and rates; (4) Provides factual and objective data programs in educational institutions.
5/ Commission did not respond to request for update information; this data may not be current.

TABLE 29 - TREATMENT OF LOCAL REFERENDA CAMPAIGN EXPENSES

AGENCY	RE cost of service allowances, Agency allows advertising and other expenditures of regulated companies in connection w/local referenda campaigns involving:			POLICY	Disallows revenue & items connected with appliance merchandising	Allows pollution abatement expense	Allows financing interventions as part of cost of service
	Public ownership of utilities	Public utility franchise and tax matters	Queries about public utility regulations				
FCC				No experience or decisions in this area.		1/	
FERC				Usually not applicable to natural gas companies. Such expenditures have not been shown to be reasonably necessary cost of providing wholesale electric service for resale.	X	X	
AL PSC				None.	X	X

QUE TB	X	X	X	Allowed in cost of service if not politically oriented.		X	X

FOOTNOTES - TABLE 29
TREATMENT OF LOCAL REFERENDA CAMPAIGN EXPENSES

1/ No experience or decisions in this area.
2/ Yes for regulatory expenses.
3/ Must be shown to be necessary and in the best interests of the utility's users.
4/ Also disallow appliance repair operations connected thereto including related materials and supplies.
5/ Included in cost of service in service area where appliance merchandising was limited by other businesses.
6/ Very limited allowances.
7/ May be treated in some cases as utility income.
8/ Statute prohibiting appliance merchandising was repealed; so far this is still considered non-utility.
9/ Case by case determination.
10/ Must show profit, loss is deducted from retained earnings.
11/ In rate cases they are eliminated from pro-forma income statement.
12/ Amortized portions only.
13/ Utility may be required to pay all or part of expenses of consumer intervenor who substantially contributes to acceptance in whole or in part of a position related to any standards contained in Title 1, Subtitle B of the Public Utility Regulatory Policies Act of 1978, as applied to that consumer's utility.
14/ Commission did not respond to request for update information; this information may not be current.

SECTION E

DETERMINATION OF DEPRECIATION POLICIES AND PRACTICES

In addition to determining the treatment of accrued depreciation, which was included in Section C, the various regulatory agencies may also prescribe specific depreciation rates for certain classes of utility property. Most agencies also require depreciation rate studies to be performed by the utilities to determine the proper rate of depreciation to be charged. Table 31, within this Section, summarizes the specific depreciation rates established for the utilities by the regulatory agencies.

TABLE 30 - DEPRECIATION POLICIES AND PRACTICES

AGENCY	The Agency has authority to -				Depreciation method prescribed

FOOTNOTES - TABLE 30
DEPRECIATION POLICIES AND PRACTICES

1/ Telephone utility.
2/ Other method may be submitted for approval.
3/ Agency has the authority, but utilities generally perform or have depreciation studies made, subject to agency approval.
4/ Capital recovery schedules and amortization of reserve imbalances.
5/ Encouraged.
6/ Agency has authority to do so, but normally does not order utility to use a specific method. Most usually use straight-line depreciation.
7/ Electric and gas.
8/ Remaining Life for electric, gas, steam and water utilities; telephone being phased in. External sinking funds for nuclear plant decommissioning.
9/ Follow methods prescribed by FCC for larger companies; prescribe own method for smaller companies.
10/ Units of Production method approved for electric nuclear generating units.
11/ On a case-by-case basis.
12/ Five percent present value licenses hydro.
13/ Straight-line equal life group method used for majority of plant installed after 1981; straight-line vintage group method used for remainder of plant.
14/ Remaining-life procedures used in most cases; amortization procedures have been used to clean up reserve imbalances in certain circumstances.
15/ Depreciation method prescribed on case-by-case basis for electric and gas.
16/ Any exceptions require specific justification and certification by the Commission.
17/ Generally straight line remaining life but some use whole life, equal life group or modified sinking fund.
18/ Commission did not respond to request for update information; this data may not be current.

TABLE 31 - SPECIFIC DEPRECIATION RATES ESTABLISHED BY MAJOR CLASSES OF PROPERTY

AGENCY	SUMMARY STATEMENT OF SPECIFIC RATES ESTABLISHED BY MAJOR CLASSES OF PROPERTY EITHER FOR GENERAL APPLICATION OR IN RECENT CASES.
FCC	Specific rates prescribed by major classes of property for each large company. Data available at FCC.
FERC	Commission has authority to prescribe depreciation rates for accounting purposes and wholesale electric rate proceedings. For gas pipelines, Commission determines depreciation levels as part of ratemaking proceedings. Determined on case by case basis.
ALABAMA PSC	Case by case basis.
ALASKA PUC	Case by case basis.
ARIZONA CC	Case by case basis.
ARKANSAS PSC	Depreciation rate changes are initiated either by company request or Commission staff motion. Either Straight Line or Straight Line Remaining Life is acceptable. Determined case by case.
CALIFORNIA PUC	Rates developed by each plant account classification.
COLORADO PUC	Case by case basis.
CONNECTICUT DPUC	Case by case basis.
DELAWARE PSC	Case by case basis.
DC PSC 1/	Specific rates are prescribed by major classes of property.
FLORIDA PSC	Rates and components developed for each plant account, accounts set by PSC.
GEORGIA PSC	Electric composite range 3% to 3.5%, gas composite range 2.5% to 3.5%, telephone composite range 5% to 8%.
HAWAII PUC	Depreciation rates developed by each plant account classification.
IDAHO PUC	Composite rates by classification of plant life.
ILLINOIS CC	A composite rate based upon life expectancy of major classes of plant, subject to regular review.
INDIANA URC	Case by case basis.
IOWA SUB	Board prescribes rates for both booking and ratemaking purposes. Booked rates are not allowed to be collected until prescribed in a rate case proceeding. Each case is examined on its own merit.
KANSAS SCC	Utilities file proposed changes in rates for review and approval, usually by separate primary accounts. At times depreciation rate changes are made during rate cases.
KENTUCKY PSC	Book depreciation used for rate purposes except where books are at variance with facts.
LOUISIANA PSC	Case by case basis.
MAINE PUC	Case by case basis.
MARYLAND PSC	Case by case basis. Rates are developed for each plant account classification.
MASSACHUSETTS DPU	Up to now has only determined if rate appears reasonable. Depreciation studies prescribed in major rate cases, or if a different rate is requested.
MICHIGAN PSC	The Commission issues orders, generally every three or four years, for each utility under its jurisdiction
MINNESOTA PUC	Utilities file proposed rates by primary account in regularly scheduled depreciation studies which the Commission reviews for reasonableness.
MISSISSIPPI PSC	Composite rates are used in rate cases which are the results of specific rates used. In the case of Bell Systems, specific rates are prescribed in joint meetings of State, Company and FCC.
MISSOURI PSC	Depreciation rates prescribed by primary plant account for various utilities. Data available at PSC.
MONTANA PSC	Utilities file proposed changes in rates for review and approval, usually by separate primary accounts. At times depreciation rate changes are made during rate cases.
NEBRASKA PSC	Case by case basis.
NEVADA PSC	Rates prescribed, generally upon application by a utility, for each plant account to be used for ratemaking and book purposes.
NEW HAMPSHIRE PUC	Case by case basis.
NEW JERSEY BPU	Case by case basis.
NEW MEXICO PSC	Rates developed by each plant account classification.
NEW MEXICO SCC	None recently prescribed.
NEW YORK PSC	Straight line group method used by Commission for ratemaking. Remaining Life used in special circumstances.
NORTH CAROLINA UC	Revised rates based on depreciation studies have been developed for use in rate cases and for general application for the major utilities.
NORTH DAKOTA PSC	Case by case basis.
OHIO PUC	Rates by accounts are established for each company or rates used, if found acceptable, are approved.
OKLAHOMA CC	Rates set according to Uniform System of Accounts. Existing and proposed rates reviewed during rate case.
OREGON PUC	Depreciation studies developed by account by utility, subject to review and approval of Commission. Depreciation method generally SL (Remaining Life preferred) for all utilities.
PENNSYLVANIA PUC	Depreciation studies are developed by account by utility and evaluated by Commission case by case.
PUERTO RICO PSC 1/	Concrete building, 2% per year; Central Office Equipment, 3.2%; Poles, 5.5%.
RHODE ISLAND PUC 1/	None available.
SOUTH CAROLINA PSC	Generally, rates are based on studies for major utilities.
SOUTH DAKOTA PUC	Case by case basis.
TENNESSEE PSC	Rates developed by each plant account classification.
TEXAS PUC	Rates as approved by FCC are usually acceptable for Bell and General Telephone; otherwise are developed on a case-by-case basis.
TEXAS RC	Case by case basis.
UTAH PSC	Case by case basis.
VERMONT PSB	Recent case composite rate of 3% for Distribution Plant. Telephone is negotiated (FCC, company, public adv.)

TABLE 31 - SPECIFIC DEPRECIATION RATES ESTABLISHED BY MAJOR CLASSES OF PROPERTY

AGENCY	SUMMARY STATEMENT OF SPECIFIC RATES ESTABLISHED BY MAJOR CLASSES OF PROPERTY EITHER FOR GENERAL APPLICATION OR IN RECENT CASES.
VIRGIN ISLANDS PSC1/	Rates as approved by FCC are acceptable to the Commission.
VIRGINIA SCC	Depreciation studies developed by account by utility, subject to review and approval by Commission. Remaining life and equal life group for larger companies as prescribed by FCC. Rates approved by FCC are acceptable for Bell, General Tel., United Inter-Mountain and Continental; others done case by case.
WASHINGTON UTC	Case by case basis.
WEST VIRGINIA PSC	Case by case basis.
WISCONSIN PSC 1/	Case by case basis.
WYOMING PSC	Rates accepted same as prescribed by FERC. Telephone rate negotiated between staff, FCC and company.
CANADIAN AGENCIES	
CANADIAN RTC	Considered on request of the company.
NATIONAL ENERGY BD.	Case by case basis.
ALBERTA PUB	Case by case basis.
NOVA SCOTIA PUB	Utilities file proposed changes in depreciation rates for review and approval by Board.
ONTARIO EB	Specific rates are prescribed by major classes of gas utility property for each of the large utilities.
ONTARIO TSC 1/	In process of development.
QUEBEC NGB	Rates developed by each plant account classification.
QUEBEC TB	Approximately 6% as average for all classes of property for larger utilities; case by case for smaller ones.

1/ Commission did not respond to requests for update information; this data may not be current.

SECTION F

BASIS OF RATE OF RETURN

The rate of return established as fair and reasonable by an agency is the return that a utility may earn on its rate base - net investment in plant, equipment and working capital. A utility company is not guaranteed a specific rate of return by a regulatory authority but it is given an opportunity to earn a rate of return which is determined appropriate by an agency.

Table 32 shows the methods used by the agencies in determining the rate of return. Table 33 lists the rates of return prescribed by the various agencies and, when reported, the actual rates of return earned by the utilities. Table 34 lists the prescribed rates of return on common equity made by the agencies.

TABLE 32 - AGENCY AUTHORITY OVER RATE OF RETURN

FOOTNOTES - TABLE 32
AGENCY AUTHORITY OVER RATE OF RETURN

1/ Rate base is the expression of investment dollars against which rate of return will be applied. Non-utility investment dollars are always excluded from such investment. For capital structure, which pertains to percent of capital assigned to debt, preferred and equity, determination varies depending on circumstances. Where non-utility investment is comparatively small, which is usual, we would consider capital ratios for the whole to be the equivalent of those for the utility area. In the few instances where non-utility investment looks large, we reserve the right to vary capital structures any way we deem proper.
2/ Commission favors no single method, but rather that which produces the most reasonable results.
3/ All three methods used and accepted. In most cases more than one method has been introduced.
4/ Both methods are given consideration.
5/ It may use any method it desires especially in the case of a small company.
6/ No Commission regulation of electric or gas utilities.
7/ No Commission regulation of electric or telephone utilities.
8/ DCF is preferred, but Department approves other methods which check DCF result; risk spread analysis preferred by a slight margin. Financial condition of utility also given serious consideration.
9/ Individually considered according to standard criteria - utilize double leverage principle.
10/ DCF is preferred; all methods are considered including econometric modeling approach.
11/ No single method, however, discounted cash flow is frequently used.
12/ Discounted cash flow most often used, but risk premium method used also. Determined case by case.
13/ Commission did not respond to request for update information; this data may not be current.

TABLE 33 - MOST RECENT RATE OF RETURN PRESCRIBED

AGENCY	Rate of return prescribed or found reasonable & actual rate of return earned by largest utility in terms of gross revenue in each group during most recently reported period.									Valuation standards generally applied w/ allowances for adjustments for related factors - contributions and working capital

FOOTNOTES - TABLE 33
MOST RECENT RATE OF RETURN PRESCRIBED

1/ Each company is evaluated on an individual basis. There is no "blanket" rate of return.
2/ Commission does not regulate electric or gas utilities.
3/ Commission does not regulate electric or telephone utilities.
4/ COSI Order based on Return on Common Equity (Case 1536).
5/ Actual rates of return are those the companies earned approximately one year after rates were granted to give effect to a full year of the rate increase. These rates of return are determined from an on-going surveillance program conducted by the Commission.
6/ Actual ROR figures based on ratemaking (actual less Commission's disallowances).
7/ The largest gas utility and the electric utility regulated by the APSC are operating under an indexing system based upon an equity range (13.0-14.2 for the gas utility and 13.5-14.0% for the electric utility). No return on rate base is determined. See Docket Nos. 18046 and 18320 (Alabama Gas Corporation Settlement) and Docket Nos. 18117 and 18416 (Alabama Power Company Settlement).
8/ Investor-owned utilities only.
9/ Rate of return on average common equity.
10/ In Maryland, in most cases, "Original Cost" is considered "Fair Value".
11/ ATT Actual 8.61% for public switched network; 8.67% private line for the year ended 12/31/87.
12/ This ROR is for larger of 2 divisions; smaller division was prescribed ROR of 8.16% on 9/1/87.
13/ Several extraordinary items were included in income in 1988 reducing ROR significantly.
14/ Jurisdiction over electric utilities ended June 17, 1988.
15/ Agency did not respond to request for update information; this data may not be current.

TABLE 34 - MOST RECENTLY APPROVED RETURN ON COMMON STOCK EQUITY

Return on common stock equity prescribed/approved by the Agency in the two most recent cases in each utility group and the return on common stock equity actually earned by the company during the most recently reported period.

FOOTNOTES - TABLE 34 - MOST RECENTLY APPROVED RETURN ON COMMON STOCK EQUITY

1/ Varies; depending on risk factors, debt-equity ratio and other factors.
2/ Figures are for entire company which has substantial operations outside the state.
3/ Due to monthly cost of service on a total dollar, not a toll basis, full recovery of approved return is achieved.
4/ No recent case.
5/ Result from stipulation/settlement.
6/ Telephone utilities in Colorado, other than Mountain Bell, are quite small and the return on equity is not significant.
7/ Commission has not specified or prescribed a rate of return on common equity; however, an equity return is implicit in a given overall rate of return.
8/ Actual return based on ratemaking (actual less Commission's disallowances).
9/ Actual ROCE percent is return on average common equity for year-end 1987.
10/ Authorized ROE range of 11.5-16.0%; 13.2% was used to set rates. ROE between 14.0-16% is split 60/40 among ratepayers and company.
11/ For competitive services.
12/ Jurisdiction over electric utilities ended June 17, 1988.
13/ Commission did not respond to request for update information; this data may not be current.

SECTION G

ACCOUNTING, AUDITING AND REPORTS

All agencies having the authority to regulate rates of electric, gas or telephone utilities also have the authority to prescribe a uniform system of accounts, to designate records to be kept and to order specific entries or adjustments in the accounts of privately owned electric, gas and telephone utilities. Only a few agencies, however, have the authority to provide for the uniform recording of data for publicly owned and cooperatively owned utilities. Details of this and other information on accounting, auditing and report forms are included in Tables 35 through 48.

FOOTNOTES - TABLE 35 - AGENCY AUTHORITY OVER ACCOUNTING

1/ For utilities engaged in interstate commerce and licensees other than state or municipal licensees.
2/ US agencies must follow FERC accounting.
3/ Yes, for licensees only.
4/ Electric facilities are Government owned and operated and are regulated by PUC for rate increases only. No natural gas service other than bottled gas which is not regulated.
5/ No system in this ownership classification.
6/ Never undertaken.
7/ No jurisdiction over publicly owned or cooperative utilities, except mutual telephone utilities.
8/ Alberta statutes prescribe that an owner of a public utility shall keep his books, records and accounts so as to afford an intelligent understanding the conduct of his business and in accord with such uniform system of accounting as the Board may prescribe by regulations.
9/ Has authority only at the election of the cooperative.
10/ Only for municipalities ceding jurisdiction to PUC and for certain State river authorities.
11/ Does not apply to municipal utilities or TVA electric cooperatives.
12/ Jurisdiction over electric utilities ended June 17, 1988.
13/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 36 - AGENCY EXERCISES AUTHORITY OVER ACCOUNTING

1/ With modifications.
2/ Gas incomplete, no section for telephone, use NARUC with modifications.
3/ As adopted by REA for cooperative.
4/ None prescribed; informally suggest NARUC.
5/ FCC for Bell Companies, own for independents.
6/ Utilities determine method subject to Commission approval.
7/ Adopted NARUC interpretations.
8/ Adopted FERC rules.
9/ In specific cases.
10/ Per applicable system of accounts.
11/ AS 42.05.461 requires CPR's of each utility with annual revenues exceeding $100,000.
12/ National Energy Board.
13/ Own system of accounts for very small companies.
14/ Electric and gas complete, no action for telephone, use FERC with modification.
15/ Jurisdiction over electric utilities ended June 17, 1988.
16/ Commission did not respond to request for update information; this data may not be current.

TABLE 37A - PRESCRIBED ACCOUNTING TREATMENT

AGENCY	THE AGENCY HAS PRESCRIBED THE ACCOUNTING TREATMENT FOR -	
	GAINS AND LOSSES FROM REACQUIRED SECURITIES	RESEARCH AND DEVELOPMENT EXPENDITURES
FCC	Extraordinary income accounts for material gains and losses on debt securities; other capital/retained earnings account for gains and losses on equity securities.	No rule.
FERC 1/	Order 505 (Docket R-424) issued 2/11/74; (a) Included in income currently if insignificant amount (b) Deferred and amortized over life of original issue (without refunding) (c) Deferred and amortized over life of new issue (when refunding) (d) Included in current income when state commission specifically disallows rate principle of amortization and does not apply gain or loss to reduce interest charges in computing allowed rate of return for rate purposes (primarily applies to electric utilities).	Order 483 (Docket 462) issued 4/30/73; Expenses defined as R&D are included in Acct. 188, 107 or 103. Acct. 188 amounts are expenses currently if small amounts or amortized to expense if significant. Order 566 (Docket RM76-17) issued 6/3/77, clarified rate review procedures by allowing advance approval of RD&D program by organizations which derive financial support from jurisdictional companies and establishing tracking procedures.
ALABAMA PSC	Adopts FERC or FCC requirements in System of Accounts.	Expensed by energy companies.
ALASKA PUC	As provided in applicable uniform system of accounts.	As provided in applicable uniform system of Accts.
ARIZONA CC	FERC or FCC as applicable.	FERC or FCC as applicable.
ARKANSAS PSC	Deferred/amortized over life of original issue without refunding. Deferred/amortized over life of new issue when refunding.	FERC or FCC as applicable. Specific R&D may be disallowed if of no forseeable benefit to ratepayers.
CALIFORNIA PUC	Under review to set rules.	Adopted FERC accounting treatment.
COLORADO PUC	As provided in applicable uniform system of accounts.	As provided in applicable uniform system of accts.
CONNECTICUT DPUC	Gains or losses credited/charged to Other Income or Other Income Deductions. Significant gains or losses credited/charged to Extraordinary Income or Deductions.	Accumulated and deferred; final disposition of cost depends on outcome of project - either capitalized or expensed.
DC PSC 2/	FERC or FCC as applicable.	FERC or FCC as applicable.
FLORIDA PSC	Use FERC and FCC.	Currently use FERC and FCC.
GEORGIA PSC	As provided in the uniform system of accounts.	As provided in the uniform system of accounts.
HAWAII PUC	Same as NARUC.	Same as NARUC.
ILLINOIS CC	Miscellaneous debit or credit to surplus.	R&D expenses classified as Miscellaneous & General Expenses in Admin. & General Expenses category.
INDIANA URC	FERC Method.	Yes.
IOWA SUB	As provided in the applicable system of accounts.	As provided in the applicable system of accounts.
KANSAS SCC	FERC rules.	Individual orders issued to certain electrics.
KENTUCKY PSC	As provided in the applicable system of accounts.	As provided in the applicable system of accounts.
MAINE PUC	Capital surplus.	Authorized as alloweble for ratemaking.
MARYLAND PSC	All gains to be amortized over remaining life of debt.	As provided in the applicable system of accounts.
MICHIGAN PSC	Treated as other income or other deduction.	Treated as operating expense. Amortized over a period not to exceed 5 years if significant amount.
MINNESOTA PUC	As prescribed in the applicable system of accounts.	As prescribed in the applicable system of accounts.
MISSISSIPPI PSC	As prescribed in the applicable system of accounts.	As prescribed in the applicable system of accounts.
MISSOURI PSC	Commission reviews this item on a case-by-case basis.	Allows reasonable expenses.
MONTANA PSC	FERC, FCC, NARUC as applicable.	
NEVADA	As prescribed in the applicable system of accounts.	FERC method.
NEW HAMPSHIRE PUC	Debit or credit retained earnings.	FERC treatment.
NEW JERSEY BPU	FERC or FCC method.	Same as FERC and FCC.
NEW MEXICO PSC	Rate base treatment.	Allow capitalization when project goes into service
NEW MEXICO SCC	FCC Method.	
NEW YORK PSC	Gains or losses from reacquired securities typically deferred and amortized.	Specific accts created on balance sheet.R&D added to item lists in expense accts. R&D for specific projects charged to subaccount Work in Progress. Other usually expensed currently w/deferral & amortization of over/underrecoveries of rate case allowance.
NORTH CAROLINA UC	Considered on a case-by-case basis.	As provided for in the NARUC System of Accounts.
OHIO PUC	As provided in applicable system of accounts.	As provided in applicable system of accounts.
OKLAHOMA CC	Same as FERC, FCC or NARUC as applicable.	Same as FERC, FCC or NARUC as applicable.
OREGON PUC	Generally yes. Special treatment was given for ratemaking purposes in the case of Pebble Springs.	As provided in the applicable USOA; telephone R&D increasingly determined case by case.
PENNSYLVANIA PUC	As detailed in system of accounts.	PUC does quarterly reviews of major R&D programs.
RHODE ISL. PUC 2/	Adopts FERC method.	Same as FERC, FCC or NARUC as applicable.
SOUTH CAROLINA PSC	Included in embedded cost of debt over period determined by the Commission.	As provided by applicable system of accounts.
SOUTH DAKOTA PUC	FERC and FCC as applicable.	Use FERC and FCC.
TENNESSEE PSC	As provided in applicable system of accounts.	As provided in applicable system of accounts.
TEXAS PUC	FERC or FCC as applicable.	FERC or FCC as applicable.
TEXAS RC	As covered by FERC or NARUC.	As covered by FERC or NARUC.
UTAH PSC	As covered by system of accounts.	As covered by system of accounts.

TABLE 37A - PRESCRIBED ACCOUNTING TREATMENT

AGENCY	THE AGENCY HAS PRESCRIBED THE ACCOUNTING TREATMENT FOR -	
	GAINS AND LOSSES FROM REACQUIRED SECURITIES	RESEARCH AND DEVELOPMENT EXPENDITURES
VERMONT PSB	Same as FERC, FCC or NARUC as applicable.	Same as FERC, FCC or NARUC as applicable.
VIRGIN ISLANDS 2/	FCC rules and regulations.	FCC rules and regulations.
VIRGINIA SCC	FERC (b).	Expensed.
WASHINGTON UTC	As covered by adopted system of accounts.	As covered by adopted system of accounts.
WEST VIRGINIA PSC	Deferred and amortized if appropriate.	As provided in system of accounts.
WISCONSIN PSC 2/	As in applicable SOA & depending on special circumstance	As provided in applicable system of accounts.
WYOMING PSC	As covered by adopted system of accounts.	As covered by adopted system of accounts.
NATL ENERGY BOARD	Gas Pipeline and Oil Pipeline Uniform Accts. Regulations	GPUAR and OPUAR.
NOVA SCOTIA PUB	As provided in applicable system of accounts.	
ONTARIO EB	As provided in uniform system of accts for gas utilities	As provided in uniform system of accts for gas.
QUEBEC NGB	No.	No.
QUEBEC TB	As provided in applicable system of accounts.	As provided in applicable system of accounts.

1/ Uniform Systems of Accounts for oil pipeline companies substantially conform with generally accepted accounting principles (GAAP).
2/ Commission did not respond to request for update information; this data may not be current.

TABLE 37B - PRESCRIBED ACCOUNTING TREATMENT

AGENCY	The Agency allows -- (the conditions and accounts or the method generally used by companies)			
	Transfers from contributions in aid of construction account	Amortization of plant acquisition adjustment to operating income	Amortization of extraordinary property losses	Allocation of negative income taxes to department of a company
FCC	Requires this to be credited directly to plant accounts.	Portion of plant acquisition adjustment represented by excess of present value depreciated over original cost depreciated may be so amortized upon specific approval by Commission.	Rarely permitted and only on case-by-case basis of hardship showing. Amortization is to above the line account for extraordinary retirements.	
FERC 1/	Effective 1/1/74 contributions to be credited to appropriate property investment account of plant in service. Amounts previously included in Account 271 to be transferred to depreciation reserves 108 (if property no longer in service or not identifiable) or to plant in service accounts.	Acquisition adjustments to be amortized to non-operating account, Account 425, over a period not longer than estimated remaining life of related properties. If company can demonstrate overriding benefits to all ratepayers as result of acquisition then adjustment is amortized to Account 406	When properly supported as prudently incurred, extraordinary property loss amounts to be amortized to Account 407. Related tax effects of loss should also be deferred in Account 283 and amortized over same period as loss.	Tax value of tax loss is assigned to department producing such tax loss. Uniform system of accounts provides for assignment of negative income taxes to any utility department(s) or to operating or non-utility operations which generates tax losses.
ALABAMA PSC		Expensed over specific per.	Determined case-by-case.	
ALASKA PUC	Adopted FERC and FCC requirements.	On showing commensurate rate benefit to ratepayer.	Clearly show prudent action amortized above the line.	
ARIZONA CC	FERC and FCC requirements.	Case by case	Case by case	Stand-alone determin. may result in neg. income tax
ARKANSAS PSC	Adopted FERC and FCC requirements.	With approval to operating expense.	With approval to operating expense.	Stand-alone determination may result in neg. inc. tax
CALIFORNIA PUC	Adopted FERC and FCC requirements.	No.	Determined case by case. Amortized to various accts as authorized by Commission	
COLORADO PUC	Adopted FERC and FCC requirements.	If benefits derived by customers from acquisition by new company equals amortization of acquisition adjustment.	Upon written request showing that immediate write-off would be hardship. Credit extraordinary retirement and debit extraordinary retirement expense	When company operates separate geographical divisions and can substantiate separate income statement for each division.
CONNECTICUT DPUC	Only if originally credited to this account by mistake. This account eliminated for electric & gas.		As per NARUC uniform systems of accounts.	
DELAWARE PSC	No.	No.	Determined case by case.	No.
DC PSC 2/	FERC and FCC requirements	Yes.	In accordance with USOA	Yes.
FLORIDA PSC	Adopted FERC and FCC requirements.	If public interest clearly served by acquisition; use FERC or FCC accounting. Amortization allowed in cost of service and unamortized balance allowed in rate base.	If result is undue depletion of depreciation reserve; use FERC or FCC accounting. Amortization allowed in cost of service; unamortized balance allowed in rate base if supported by evidence.	Yes.
GEORGIA PSC	FERC, FCC, NARUC	Case-by-case.	Case-by-case.	Yes.
HAWAII PUC	After estimated service life of facilities is past.		Storm damages over period of 5 years to Acct. 407, Amort. of Property Losses	
IDAHO PUC	Credited directly to plant accounts.	Only if in the interest of ratepayers.	Determined case by case.	Allocated in cost of service studies.
ILLINOIS CC	Requires Commission approval.	Debit plant acquisitions only, with Commission approval.	Requires Commission approval.	Allocated to loss departments of combination company in proportion to their contribution to reduction of taxable income.
INDIANA URC	FERC and FCC. Otherwise need Commission approval.	Varies on case-by-case basis.	Varies on case-by-case basis	
IOWA SUB	Adopted FERC and FCC requirements.	FERC method.	In accordance with uniform system of accounts.	Allocated between various utility operations in combination company.

TABLE 37B - PRESCRIBED ACCOUNTING TREATMENT (CONTINUED)

AGENCY	The Agency allows -- (the conditions and accounts or the method generally used by companies)			
	Transfers from contributions in aid of construction account.	Amortization of plant acquisition adjustment to operating income	Amortization of extraordinary property losses	Allocation of negative income taxes to department of a company
KANSAS SCC	Follow FERC and FCC requirements	Allowed in the public interest.	When amounts are large enough to seriously affect reserve/financial position.	Yes.
KENTUCKY PSC	FERC and FCC requirements	If of benefit to customer	If customer benefited.	Yes.
LOUISIANA PSC			Force Majeure; obsolescence above the line to Account 407.	
MAINE PUC	Allowed with PUC approval	Prudent acquisition cost miscellaneous amortization.	Extraordinary losses not covered by depreciation-miscellaneous amortization.	No.
MARYLAND PSC	To depreciation reserve.	If situation warrants.	If situation warrants.	Yes.
MASSACHUSETTS DPU	Normally no, but allowed if company wants to conform to FERC System of Accounts as credit to Plant Accounts	Only one case-charged to income over life of property, but unamortized balance excluded from rate base.	Usually permitted to amortize not over 10 years. Excluded from rate base. Offset by tax benefits.	
MICHIGAN PSC	Recorded as reductions of plant account balances.	If change in ownership benefits customers. Generally burden is on utility to prove benefit.	Above the line if abuse of managerial discretion is not involved.	Income tax computed for each department based on taxable income/loss attributed to that department.
MINNESOTA PUC	In accordance with FERC and FCC Uniform System of accounts.	Not for ratemaking.	In ratemaking permit amortization to expense. Exclude from rate base.	
MISSISSIPPI PSC	Remains as deferred credit. credit.	Written off over responsible life.	Amortize 5-10 years.	Credit to taxes paid.
MISSOURI PSC	In accordance with USOA.	No.	Determined case by case.	Yes.
MONTANA PSC	Normally no, but allowed if company wants to conform to FERC System of Accounts as credit to Plant Accounts	Account 406 - Commission judgment.	If loss caused by weather, obsolescence, etc. Accounts 407 and 407.1.	Yes.
NEBRASKA PSC			If not fully depreciated to amortize expense.	
NEVADA PSC	FERC method-electric and gas; NARUC method-water.	Commission judgment.	FERC method.	Yes.
NEW HAMPSHIRE PUC	FERC & FCC. Gas-credit contrib., debit plant. Depreciate over life of plant	Adjustment to plant and amortized over average life of property.	Use FERC and FCC methods.	
NEW JERSEY DPU	Follow FERC method.	No.	Sudden unexpected destruction or loss not otherwise recovered. Amortized over reasonable time to above the line acct if warranted.	
NEW MEXICO PSC	Follow FERC requirements.	No.	Case by case basis.	Yes.
NEW MEXICO SCC	FCC method.	Yes.		
NEW YORK PSC	We have no contributions in aid of construction account.	Any disposition other than below the line requires Commission approval. Telephone USOA requires disposition to a non-operating expense account.	Extraordinary losses not provided for by depreciation/amortization & which could not have been anticipated/provided for (not covered by insurance) may, w/OSC approval, be written off above the line. Telephone. USOA allows writeoff to depreciation exp. acct.	Operating income departmental per books; reconciling items which can be identified with departments are so identified; interest and other non-departmental reconciling items are allocated according to usual procedures.
NORTH CAROLINA UC	FERC and FCC methods.	Considered on a case-by-case basis.	Amortization of extraordinary losses from acts of God or technological changes when requested by company may be allowed. Amortization generally charged to appropriate operating expense account.	
NORTH DAKOTA PSC		Commission approval at time of acquisition.	Commission approval to depreciate/amortize expense	

TABLE 37B - PRESCRIBED ACCOUNTING TREATMENT (CONTINUED)

AGENCY	The Agency allows -- (the conditions and accounts or the method generally used by companies)			
	Transfers from contributions in aid of construction account	Amortization of plant acquisition adjustment to operating income	Amortization of extraordinary property losses	Allocation of negative income taxes to department of a company
OHIO PUC	Agree w/FCC & FERC treatment. For other types of utilities balance of CIAC used to reduce rate base for ratemaking purposes.	Not for ratemaking purposes.	Telephone, gas & electric-deferral to accts 138 & 182 respectively. Charges against income are to various accts. Ratemaking treatment determined case by case.	Tax value of tax loss assigned to department producing such tax loss.
OKLAHOMA CC	FCC and FERC treatment.	To non-operating account.	Case by case.	
OREGON PUC	Oregon PUC does not have a contributions account.	If acquisition results in improved service and no rate change. Acct. charged is specifically identified.	Case by case. Requires specific Commission approval.	Yes.
PENNSYLVANIA PUC	Plant or earned surplus, but only with approval by the Commission.		When loss is not due to dereliction of management, unrecovered loss after taxes to operating expense.	
PUERTO RICO 2/			Over a period of years.	
RHODE ISL. 2/	FERC rules.	Determined case by case.	Yes.	Yes.
SOUTH CAROLINA PSC	No, except on retirement.	Electric account 406, telephone account 614.	Telephone account 609.	
SOUTH DAKOTA PUC	FERC or FCC methods.	Yes.	Casualties/obsolescence Accounts 138 and 609.	Yes.
TENNESSEE PSC	No.	Determined case by case.	Determined case by case.	Yes.
TEXAS PUC	FERC or FCC methods.	FERC or FCC methods.	FERC or FCC methods.	FERC or FCC methods.
TEXAS RC	FERC methods.	No.	Question never raised.	Yes.
UTAH PSC		Not for ratemaking purposes.	Case by case basis.	Taxable income.
VERMONT PSB	FERC rules.	Determined case by case.	Five-year period.	
VIRGIN ISL. 2/	FCC rules.	FCC rules.	FCC rules.	N/A
VIRGINIA SCC	FERC method.	Determined case by case.	Case-by-case basis.	Yes.
WASHINGTON UTC	Debit contributions; credit depreciation expense. To amortize contributions over service life. All amortizations require approval.	If shown to be commensurate benefit to ratepayer.	Below the line-in most conditions. Above line-if not excessive, not offset by any Federal Income Tax benefit and could not have been reasonably prevented.	Yes.
WEST VIRGINIA PSC	FERC accounting followed generally.	Case by case; only if benefit to ratepayer.	W/PSC approval. Gas-acct 407.1, elec.-406, tel.-609.	Yes.
WISCONSIN 2/		Determined case by case.	Yes.	Yes.
WYOMING PSC	Used as reduction to rate base for ratemaking purposes.	Each case considered separately, but generally not allowed.	Extraordinary losses on property abandoned or otherwise retired from service or storm damage and catastrophe. Property must have been "used and useful" for Wyoming utility service.	Case by case.
ALBERTA PUB	Amortization as credit to annual depreciation expense at composite depreciation rate applicable to property acquired by contributions.	Prudent acquisition cost only subject to specific Board action.	At discretion of the Board.	At discretion of the Board.
NATL ENERGY BOARD	Recorded as reductions of plant account balances.		Case by case basis	
NOVA SCOTIA	CIAC can be depreciated.		Board approval needed.	
ONTARIO EB		Approves the method.	Board approval needed.	
ONTARIO TSC 2/			Board approval needed.	
QUEBEC NGB	CIAC depreciated at 5% straight line. No withdrawal required.	Consider each case separately.	Yes.	
QUEBEC TB	Case by case.	No, in theory.	Yes.	Yes.

1/ Uniform Systems of Accounts for oil pipeline companies substantially conform with generally accepted accounting principles (GAAP).
2/ Commission did not respond to request for update information; this information may not be current.

TABLE 37C - PRESCRIBED ACCOUNTING TREATMENT

AGENCY	The Agency has defined -	
	Operating units or system	Extraordinary property losses
FCC	Any substantial property such as a principal building, a run of cable, a line of poles or conduit.	Cause of retirement must not be a recognized factor in depreciation and charge to depreciation reserve must not unduly deplete it.
FERC	Not formally defined, however any substantial unit or segment of utility operating stations, large segments of transmission lines, substations, etc. will be considered operating units or systems.	Losses on property abandoned/otherwise retired from service not provided for by depreciation and amortization which could not have been reasonably foreseen and provided for, if amounts are significant.
ALABAMA PSC	Not formally defined.	Handled on a case-by-case basis.
ALASKA PUC	Not formally defined.	Handled on a case-by-case basis.
ARIZONA CC	Not formally defined	Handled on a case-by-case basis.
ARKANSAS PSC	Same as NARUC, FCC or FERC.	Same as NARUC, FCC or FERC.
CALIFORNIA PUC	Adopted FCC and FERC procedures.	Adopted FCC and FERC procedures.
COLORADO PUC	Adopted FERC, FCC and NARUC procedures.	Adopted FERC, FCC and NARUC procedures.
CONNECTICUT DPUC	Adopted NARUC procedures.	On a case-by-case basis.
DC PSC 1/	Same as FCC or FERC.	Same as FCC or FERC.
FLORIDA PSC	Adopted FERC and FCC procedures.	Adopted FERC and FCC procedures.
GEORGIA PSC	Same as FCC or NARUC.	Case-by-case basis.
HAWAII PUC	Same as NARUC.	On a case-by-case basis.
ILLINOIS CC	Yes.	Extraordinary losses on property abandoned/otherwise retired from service, not provided for by depreciation or amortization, which could not reasonably have been foreseen/provided for, and damage to property which could not have been anticipated and not covered by insurance or other provisions.
INDIANA URC	Same as FERC and FCC.	Case-by case basis.
IOWA SUB	Same as FERC and FCC.	Same as FERC and FCC.
KANSAS SCC	Informally, case by case in original cost audits.	Loss caused by weather.
KENTUCKY PSC	Same as NARUC, FCC or FERC.	On a case-by-case basis.
LOUISIANA PSC		Losses due to hurricanes and/or obsolescence.
MARYLAND PSC	Adopted FERC procedures.	Case-by-case basis.
MICHIGAN PSC	Not formally, but on a case-by-case basis.	Not formally, but on a case-by-case basis it has in authorizing accounting procedures and practices.
MINNESOTA PUC	On an individual case-by-case basis.	In accordance with FERC and FCC USOA.
MISSISSIPPI PSC	Not formally defined.	Not formally defined.
MISSOURI PSC	Same as NARUC, FCC or FERC.	Case-by-case basis.
MONTANA PSC	Informally, case by case in original cost audits.	Loss caused by weather, obsolescence.
NEVADA PSC	Not formally defined.	Not formally defined.
NEW HAMP. PUC	Adopted FERC "Lists of Units of Property".	Same as FERC, NARUC and FCC.
NEW JERSEY BPU	Same as FERC, NARUC and FCC.	Same as FERC, NARUC and FCC.
NEW MEXICO SCC	No.	No.
NEW YORK PSC	No, except in individual cases and circumstances.	No, except in individual cases and circumstances.
N. CAROLINA UC	Same as FERC, NARUC and FCC.	Same as FERC, NARUC and FCC.
OHIO PUC	Not formally defined.	Per system of accounts.
OKLAHOMA CC	Per system of accounts.	Per system of accounts.
OREGON PUC	Same as FERC and FCC.	Same as FERC and FCC.
PENNSYLVANIA PUC	Same as FERC and FCC.	Same as FERC and FCC.
RHODE ISL. PUC1/	Same as FERC, NARUC and FCC.	FERC and NARUC and on case-by-case basis.
S. CAROLINA PSC	By system of accounts and on case-by-case basis.	On a case-by-case basis.
SOUTH DAKOTA PUC	Same as FCC or FERC.	Same as FCC or FERC.
TENNESSEE PSC	Same as NARUC or FCC.	Same as NARUC or FCC.
TEXAS PUC	Same as FERC or FCC.	Same as FERC, NARUC.
TEXAS RC	Same as FERC.	Same as FERC.
UTAH PSC	By system of accounts and on case-by-cse basis.	By system of accounts and on case-by-case basis.
VERMONT PSB	Generally accepted interpretations of adopted SOA.	Generally accepted interpretations of adopted SOA.
VIRGIN ISL. 1/	FCC rules.	FCC rules.
VIRGINIA SCC	Yes, through system of accounts.	On a case-by-case basis.
WEST VIRGINIA	By system of accounts.	By system of accounts and on case-by-case basis.
WISCONSIN PSC 1/	By system of accounts and on case-by-case basis.	By system of accounts and on case-by-case basis.
WYOMING PSC	Same as FERC and FCC.	Same as FERC and FCC.
NATL ENERGY BD.	Plant Unit defined in GPUAR and OPUAR.	Defined in GPUAR and OPUAR.
NOVA SCOTIA PUB	No.	No.
ONTARIO EB	No.	Extraordinary plant losses defined.
QUEBEC NGB	Yes.	On a case-by-case basis.
QUEBEC TB	By system of accounts.	By system of accounts and on case-by-case basis.

1/ Commission did not respond to request for update information; this data may not be current.

TABLE 38 - ACCOUNTING TREATMENT OF AFUDC

AGENCY	The Agency has defined - Proper period for the capitalization of AFUDC.	Proper interest rate for Allowance for Funds Used During Construction	Method of determining allowance base
FCC	Start of construction of projects designed for completion in over 1 year, including suspension periods not to exceed 6 months. Projects designed for completion within a year, not ready for service at the end of 1 year, start with beginning of the second year of the project.	Current prime rate.	Plant Under Construction account balance for projects to be ready for service in over one year (excluding expenses for projects which have been abandoned or suspended for over six months).
FERC 1/	From the date that construction costs are first expended on planned progressive basis until project is placed in or ready for service. Disallowed during period of interrupted construction, unless justified under the circumstances.	Maximum allowance rate based upon formula set forth in Plant Instruction 3(17)(a) of USA. Generally, short-term debt assumed to be first source of construction funds with remainder financed pro rata from long-term and permanent capital. Allowance rate for other funds based on equity return of primary rate jurisdiction.	Limited to expenditures in Acct 107, CWIP, & Acct 120.1, Nuclear Fuel in Process of Refinement, Conversion, Enrichment & Fabrication, unless already included in rate base No specific method for computing AFUDC in USOA. Method most widely used & supported by staff: Beginning month balance of qualifying expenditures X monthly AFUDC. Qualifying expenditures include balances in Accts 107 & 120.1 where construction period is involved. Allowance base may include previously capitalized AFUDC, compounded semiannually, but cannot include other construction charges for which cash outlay has not been made, e.g. amounts withheld from construction contract payments.
ALABAMA PSC	From start of construction until ready for service.		
ALASKA PUC	FERC and FCC.	FERC formula.	No prescribed method.
ARIZONA CC	FERC and FCC.	FERC and FCC and encourage use of last rate of return.	FERC and FCC.
ARKANSAS PSC	FERC and FCC.	Varies from case to case.	Various.
CALIFORNIA PUC	Adopted FERC and FCC procedures.	FERC-electric and gas. Formulary method developed for telephone.	Beginning CWIP balance, excluding land, plus average CWIP increases during the month.
COLORADO PUC	FERC and FCC except FCC method allowing for short-term capitalization	Encourage use of last rate of return not to exceed FERC formula.	Average base, CWIP may be allowed if AFUDC is credited to income-based on past test year-net original cost & FERC requirements.
CONNECT. DPUC	FERC and FCC.	Varies case by case.	Total actual expenditure.
DELAWARE PSC	End of test year.	Case by case.	End of test year.
DC PSC 4/	FERC and FCC.	FERC and FCC.	FERC and FCC.
FLORIDA PSC	FERC and FCC.	Embedded capital cost, using last authorized return on equity per Commission rule.	Average monthly balance of CWIP, minus CWIP in rate base/FUDC already capitalized. No project under 30 day Allow annual compounding of AFUDC.
GEORGIA PSC	FCC, FERC and NARUC.	FERC formula.	FCC and FERC.
HAWAII PUC	Until property is used and useful.	Geared to prime interest rate.	Varies company to company.
IDAHO PUC	Construction start until in service	FERC formula.	FERC.
ILLINOIS CC	Uninterrupted period of construction, unless interruption justified.	FERC formula.	CWIP accumulated balance less CWIP included in rate base.
INDIANA URC	FERC or NARUC.	Varies by utility.	Generally as prescribed by USOA.
IOWA SUB	FERC. Includes construction <1 yr.	FERC and FCC.	FERC method.
KANSAS SCC	Actual period of construction.	FERC method.	FERC method.
KENTUCKY PSC	Same as FERC and FCC.	Overall cost of capital consistent with rate case decision.	Case by case.
LOUISIANA PSC		Approximates current cost of capital, with certain exceptions.	Construction work in progress.
MAINE PUC	Until property ready for service.	Overall cost of capital consistent with rate case decision.	Not specifically defined-method used is examined for reasonableness.
MARYLAND PSC	FERC.	Case by case.	Case by case (finan. cond. & need)
MASS. DPU	Construction period.	Case by case.	Case by case.
MICHIGAN PSC	Informally, from date of first labor charges until plant in service	Latest allowed rate of return.	Average monthly CWIP balance, exclude prior AFUDC-$50,000 + 6 mos.

TABLE 38 - ACCOUNTING TREATMENT OF AFUDC (CONTINUED)

AGENCY	The Agency has defined - Proper period for the capitalization of AFUDC.	Proper interest rate for Allowance for Funds Used During Construction	Method of determining allowance base
MINNESOTA PUC	Construction period.	As in FERC and FCC USOA.	Monthly additions + accumulations.
MISSISSIPPI PSC	Actual period of construction.	Not to exceed: borrowed funds - true net interest cost and on equity rate of return granted on common equity in last rate proceeding.	
MISSOURI PSC	Actual period of construction.	FERC Method.	Use FERC Order 561, re: AFUDC.
MONTANA PSC	FERC.	FERC Order 561.	FERC method.
NEVADA PSC	Generally same as FERC and NARUC.	The lesser of: FERC Order 561 or latest authorized rate of return.	FERC method.
NEW HAMP. PUC	FERC or FCC rules.	FERC or FCC rules.	FERC or FCC rules.
NEW JERSEY BPU	Same as FERC, NARUC and FCC.	Various.	Per USOA or formal rate case.
NEW MEXICO PSC	During construction, until transfer from work-in-progress to plant ledger accts, except for capital projects completed within one year.	FERC formula. Current rate of return.	
NEW YORK PSC	From start of construction until ready for service; includes reasonable period held for future use.	Not to exceed allowed rate of return (latest rate case). Exceptions by approval of Dir. of Accounting.	Not specifically defined-method used is examined for reasonableness.
NORTH CAROLINA UC	FERC or FCC rules modified as required to interface with ratemaking practice and procedure.	Calculated semi-annually-current embedded cost of debt/preferred stock, return on equity (last rate case) & average capital structure for last 6 mos. Specific-elec. only.	
N. DAKOTA PSC		FERC formula.	FERC or FCC.
OHIO PUC	Actual construction period, with limits on suspension periods. 2/	Case by case-analyze cost of capital used to support construction.	FERC or FCC.
OKLAHOMA CC	FERC and FCC rules.	FERC method.	Case by case basis.
OREGON PUC	Per USOA, except telephone - for ratemaking AFUDC allowed for project under $100,000.	Varies by telephone utility. Gas and Electric - FERC Order 561.	As prescribed in the Uniform System of Accounts.
PENNA. PUC	As defined in FERC USOA.	Determined case by case.	FERC USOA-recording plant costs.
PUERTO RICO 4/		Same as rate of return allowed.	
RHODE ISL.PUC4/	FERC, NARUC or FCC.	Various.	
S. CAROLINA PSC	At discretion of Commission.	Varies-6.5% to max. of debt cost.	FERC or FCC System of Accounts.
S. DAKOTA PUC	Yes.	In some cases.	Yes.
TENNESSEE PSC	During active construction period.	Various.	Method examined for reasonableness
TEXAS PUC	FERC.	FERC formula - Order 561.	Case by case.
TEXAS RC	Actual construction until in service	Rate of return on rate base.	Funds committed to construction.
UTAH PSC	Period of construction.	FERC formula.	Not defined.
VERMONT PSB	Decided on a case-by-case basis.	Maximum-authorized rate of return.	FERC or FCC.
VIRGIN ISL. 4/	FCC rules.	Equals rate of return on rate base	Same as rate of return.
VIRGINIA SCC 3/	During actual construction.	Various.	FERC or FCC.
WEST VIRGINIA	System of Accounts.	System of Accounts.	System of Accounts.
WISCONSIN 4/ PSC	Yes.	Case by case. Adjusted weighted cost of capital.	Case by case.
WYOMING PSC	Same as FERC.	Case by case.	Case by case.
ALBERTA PMC 4/	Prior to used or useful.	Current rate of return.	No prescribed method.
ALBERTA PUB	Actual construction until transfer from work-in-progress to plant ledger accts, except projects under 1 yr	Not to exceed allowed rate of return on rate base.	No prescribed method.
CANADIAN RTC	Duration of construction.	ROR earned preceding fiscal year.	Average monthly balance.
NATIONAL ENERGY	Actual construction until placed in service.	Case by case; usually current rate of return.	No prescribed method.
NOVA SCOTIA PUB	Until property is used and useful.	Interest based upon market rates.	No prescribed method.
ONTARIO EB	Actual construction until transfer from work-in-progress to plant ledger accounts.	By regulation, not to exceed 0.5% over current cost of borrowing without Board approval.	
QUEBEC NGB	No.	No.	No.
QUEBEC TB	Actual construction until in service	Various.	Method examined for reasonableness

1/ USoA for oil pipeline companies substantially conform with generally accepted accounting principles.
2/ In recent accounting change cases, Commission authorized extension of period for capitalization of AFUDC on major construction projects after in-service date and until revenues are collected that include associated costs. This authorization granted on case-by-case basis.
3/ Virginia has phased out accounting for AFUDC except in special instances.
4/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 39 - AUDITS

1/ General auditing procedures.
2/ Encourage annual audits.
3/ Major companies.
4/ The Public Utility Law of Pennsylvania gives this Commission the authority to audit at any time.
5/ Under certain circumstances.
6/ Only on request.
7/ Accounting staff examines independent accountants' audit reports in conjunction with general rate case audits and makes case-by-case audits when necessary.
8/ Audits are made in connection with a rate filing or other special circumstances.
9/ Special examinations of accounts for specific purposes are made as required and staff limitations permit.
10/ Includes original cost audits of licensed hydroelectric projects.
11/ Any aspect of commission work plus engineering, etc.
12/ Each industry division of the Michigan PSC has its own audit section.
13/ Requests that copies be filed with annual reports to the Board.
14/ In addition, the Commission completed on-site audits for three oil pipeline companies. Approximately 138 oil pipelines subject to audit.
15/ Engineering, gas safety, rate design, rate of return, management audit, special audits.
16/ Management audit of electric utility, staff review fuel adjustment clause for electric utility and review of purchased gas adjustment for gas utility.
17/ Auditing staff conducts fuel adjustment audits monthly.

FOOTNOTES - TABLE 39 - AUDITS
(Continued)

18/ Safety inspections.
19/ Copies not formally provided, but they are reviewed in conjunction with audit activity.
20/ Fuel costs, purchased gas.
21/ Certification of certain financial information included in Forms No. 1 and 2; opinion on examination of book amounts and accounting adjustments in connection with a rate application.
22/ CPAs certify certain information included in the FERC Annual Report Forms No. 1 and 2.
23/ Majority of audits performed by staff. A few audits are contracted.
24/ Annual audits required for public utilities, licenses and natural gas companies; not common carrier oil pipelines.
25/ Special audits by Commission Staff as required. Rate case audits by Consumer Advocate Staff.
26/ Remaining time spent on site audits of water and sewer utilities.
27/ Does not require annual audits, but each company with annual revenues over $1,000,000 from regulated utility operations must file CPA-certified annual financial schedules: Balance Sheet; Income Statement; Retained Earnings Statement; and Statement of Changes in Financial Position. A Certified Annual Report as issued to its stockholders may be substituted. (Rule 515-3-1-04 (1).
28/ Annually, staff audits specific aspects of each company, but may not do a comprehensive audit.
29/ Specific statute for the audit of water districts by independent CPAs. For all other utilities, there is a general statute.
30/ Comprehensive on-site audits are independent of and in addition to audits connected with a general rate case filing or other special circumstance.
31/ Annual audits required of carriers' procedures that describe how costs are allocated between regulated and unregulated operations for carriers with annual revenues over $100,000,000 and Tier 1 carriers.
32/ No comprehensive annual audits - only rate case, operational and adjustment clause audits.
33/ Jurisdiction over electric utilities ended June 17, 1988.
34/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 40 - NUMBER OF UTILITIES RECEIVING ON-SITE, DESK-TYPE OR RATE CASE AUDITS

1/ Special examinations of accounts for specific purposes are made as required and staff limitations permit.
2/ Manual desk audits suspended in 1982 for computerization of the procedure.
3/ Staff reviews all major utilities' monthly financial statements and keeps quarterly rate of return on each major utility operating in the state.
4/ Semiannual audits for FCA; quarterly audits for PGA; annual audits for compliance.
5/ All applying for rate relief.
6/ PGA, FCA and other rate oriented audits are conducted on an as-needed basis.
7/ Special audits by Commission required. Rate case audits conducted by consumer advocate staff.
8/ Includes monthly desk audits and semiannual field audits of PGA, FCA and PPCA.
9/ Includes annual review of earnings, unclaimed property advertising, out of state travel and management efficiency data.
10/ PUC staff does not perform comprehensive site audits. Commission requires review of test year amounts included in a rate case filing be made by independent accountants (applies to all private and public electric utilities and cooperatives).
11/ 1987 Desk audits connected with general rate reductions under Tax Reform Act of 1986.
12/ Total subject to audit on a periodic basis.
13/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 41 - NUMBER OF UTILITIES RECEIVING ORIGINAL COST OR OTHER AUDITS

1/ Comprehensive field audits include review of original cost of plant along with all other balance sheet, income and retained earnings accounts.
2/ Special examinations of accounts for specific purposes are made as required and staff limitations permit.
3/ Original cost plant audits performed in conjunction with other audit activity.
4/ Monthly audit of FRA and PGA and spot checks.
5/ Includes monthly desk audit of PGA, ECA and FCA reports, and yearly field audit as staffing permits.
6/ Refunds, energy adjustment clause and focused audits.
7/ PGA/FAC.
8/ Staff reviews major utilities' monthly financial statements and keeps quarterly rate of return on each.
9/ Spot checks.
10/ Monthly financial data.
11/ Engineer conducted CWIP and CPR audits.
12/ All applying for rate relief.
13/ For certification of depreciation rates.
14/ Activity related to Tax Reform Act of 1986.
15/ Commission did not respond to request for update information; this data may not be current.

TABLE 42 - MANAGEMENT AUDITS

Tables 42 through 46 were originally developed from responses to a questionnaire sent to NARUC member agencies and updated for the 1988 Annual Report.

Question 1 - Has your Commission ordered any utility to undergo a management audit or study of its operating performance, structure, objectives and efficiency during the last five years?

FOOTNOTES - TABLE 42 - MANAGEMENT AUDITS

1/ Commission has ordered only three management audits to date, but has been concerned with company efficiency for some time.
2/ PUCO has ordered four management audits. Also, large utilities must file information on management policies, practices and organization in rate cases for Commission review.
3/ Agency over time has evaluated operation of utilities, but not to the depth possible from outside consulting firms specializing in this type of work.
4/ Audits directed to specific areas of company performance, generally when requesting rate increases.
5/ Law enacted 12/30/82 requires Management Audits of major electric and gas utilities every 3-6 years.
6/ One audit initiated by utility as a result of rate hearing. Terms of reference approved by Board.
7/ Commission did not respond to request for update information; this data may not be current.

TABLE 43 - COMMISSION-ORDERED MANAGEMENT AUDITS IN THE LAST FIVE YEARS

STATE	UTILITY STUDIED	CONSULTANT'S NAME	SIZE OF CONTRACT ($)
Alabama	Alabama Power Co.	Theodore Barry & Assoc.	80,000

TABLE 44 - AGENCY IN-HOUSE PERFORMANCE OF MANAGEMENT AUDITS

Question 2 - Does your commission have and/or are you developing capability to perform such studies of utility operating performance "in house"? A. One or more commission staff members presently assigned to work with consultant performing the study. B. Do not have the capability to perform studies of utility performance. C. Are attempting to develop the capability to participate in such studies along with the consultant. D. Are developing the capability to perform studies of utilities on an "in house" basis. E. Already possess the ability to evaluate utilities.

1/ Agency staff has, or will have, the expertise to perform such studies, but at present the size of staff is too small to perform comprehensive studies of any except the very smallest utilities.
2/ Presently participating with other state commissions in an effort to study management reviews.
3/ Commission did not respond to request for update information; this data may not be current.

TABLE 45 - AGENCY USE OF MANAGEMENT AUDIT RESULTS

Question 3 - What has been the use of management audits?
A. As general input in a rate case or as the result of a rate case order.
B. For the commission's general review, but not in connection with a rate case.
C. As input in a rate case in determining the rate level or level of profits.

1/ Management audits conducted in Michigan have been prescribed in specific rate orders of Commission. However, the audits were not specifically designed for use or presentation in a subsequent rate case. Their general purpose has been to provide a broad understanding of company operations for the Commission. In addition, the company involved presumably receives guidance as to areas of potential economies.
2/ Multiple purposes.
3/ Only after the utility has had an opportunity to effect consultant's recommendations.
4/ No comprehensive management audits have yet been ordered.
5/ Most recent management audit in 1978.
6/ Commission did not respond to request for update information; this information may not be current.

TABLE 46 - CHANGES IN OPERATING PROCEDURE RESULTING FROM MANAGEMENT AUDITS

Question 4 - As the result of a management audit has a utility's management changed in any way any of its operating procedures or ways of doing business? If so, please briefly describe.

Alaska: A management audit of the PUC resulted in extensive reorganization, including increased independence between Commissioners and staff and realignment of clerical responsibilities.

The management audit of Golden Valley Electric Association generally indicated that management was adequately operating the utility. A number of minor recommendations are being implemented.

The audit of Chugach Electric Association, Alaska's major electric utility, indicated numerous areas for improvement, resulting in over 150 recommendations. Included are recommendations about operations, planning and budgeting, construction and purchasing practices, cost controls, fuels management, system reliability and internal organization. Implementation of some changes was begun even before the audit was complete. However, because of the extensive nature of the problems, Commission required a formal implementation plan and reporting system to be monitored by Commission staff. In addition, Commission required advance approval of all substantial construction projects and loan commitments. Follow-up on this audit continues.

The management audit of Anchorage Water & Wastewater Utility was reviewed by the Commission in May 1988. No order has been issued.

Arizona: Arizona Public Service Company is in the process of implementing recommendations of consultants.

Arkansas: Recommendations resulting from the utility performance review of Arkansas Louisiana Gas Company were agreed to and have been implemented, or are in the process of being implemented. Recommendations included expansion of the work management system, earlier accounts receivable referral, improved fleet cost record keeping, establishment of a structured preventive maintenance program for major work equipment, increased involvement of middle level management and supervisory personnel in the development of goals and action plans, and reassessment of management training needs in response to reorganization.

California: Major changes in their organization and operations to implement recommendations. The Southern California Gas Co. audit results are not yet complete.

Colorado: Public Service Company of Colorado, Mountain Bell and Delta County Telecom. are in the process of implementing many of the management audit recommendations.

Connecticut: Each management audit and/or implementation review conducted thus far by, or under the supervision of, the Department of Public Utility Control has resulted in several recommendations, most of which have been implemented by the utilities involved. Although the resulting improvements are too numerous to list, a sampling follows: implementation of responsibility based budgeting system; elimination of repetitive explanations of budget variances; develop engineered productivity standards for high-frequency, high volume jobs; improve and automate workforce management system; delegate supervising responsi-bility to dispatchers; conduct industrial engineering studies of work practices; implement greater use of two-person work crews where adequate; improve dispatch of work crew support equipment and operators to reduce waiting time; identify productive work and training needs for crews idled by inclement weather; balance meter reading routes for optimum productivity; improve utilization of fleet vehicles, reduce fleet; perform "lease versus buy" analysis for vehicles and equipment; improve inventory management system to increase turnover; seasonalize inventory min/max levels; provide for management succession planning; decrease lag time between meter reading and customer billing to improve cash flow; improve cash management; develop productivity measurement programs and incentives; actively solicit new vendors to assure adequate availability of materials and supplies at lowest cost; periodically evaluate peak and off-peak staffing needs to achieve most economical balance of regular time, overtime, outside temporaries; expedite benefits of automated processing through use of temporary outside consultants to assist in-house personnel.

Florida: (1) The comprehensive audit of Florida Power Corporation resulted in 142 agreeable recommendations which then resulted in an overall identified savings of at least $2.1 million to date. The two major areas of improvement were in transformer loading and construction management.

(2) The four-company telephone purchasing function audit resulted in identified savings of at least $6.0 million in the first year with about $1.5 million likely to recur annually. The major change accounting for this savings was in one company's method of refurbishing telephone equipment - they switched from doing the common items themselves to having an outside contractor do it for them.

(3) Central Telephone Company of Florida's comprehensive audit resulted in 67 agreeable recommendations, accounting for at least $21,800 recurring annual savings.

(4) Tampa Electric Company focused audit resulted in 92 recommendations with first year savings of $6.0 million and recurring savings of $2.7 million.

(5) Gulf Power Company focused audit resulted in 64 recommendations with first year savings of $2.2 million and recurring savings of $1.1 million.

(6) The three-company telephone cross-section audit resulted in 55 recommendations with total recurring savings of $1.7 million.

(7) Northeast Florida Telephone focused audit resulted in 33 recommendations with total recurring savings of $6 thousand.

(8) Florida Power & Light focused audit resulted in 94 recommendations, saving $13.8 million. The major areas for savings were payment processing, inventory management, collections and plant cycling.

(9) The West Florida Natural Gas audit resulted in 55 recommendations for improvement. Changes made were in the areas of purchasing, field operations, customer services and financial management. As a result the company is saving over $120,000 per year.

(10) Southern States Utilities, a small water and sewer company is saving over $60,000 mainly in the financial management area.

(11) The FPC/TECO review resulted in 53 recommendations for FPC and 41 for TECO. The six areas compared included purchasing, transportation management, customer services, EDP and preventive maintenance.

Georgia: Georgia Power voluntarily agreed to adopt most recommendations made by the consulting firm.

Indiana: Results not complete at this time.

Kentucky: Most recommendations have been agreed to, are in the process of, or have been implemented.

Maryland: Recommendations have been, or are being, implemented at this time.

Michigan: In follow-up to audits, we have found in each case that the company has employed consultants to implement specific recommendations developed in the study.

Missouri: As part of the management audit process at the Commission, staff performs periodic implementation reviews of those utilities that have been the subject of a management audit. Implementation reviews focus on determining the actions the utility has taken in addressing the recommendations and on assessing the impact of those actions on utility operations. Through the implementation review process, staff has noted significant changes and

TABLE 46 - CHANGES IN OPERATING PROCEDURE RESULTING FROM MANAGEMENT AUDITS (Continued)

improvements in a wide variety of areas, including: work force management, planning and budgeting systems, materials management, training, thermal efficiency and commercial operations.

New Hampshire: A management audit of Public Service Company of New Hampshire has been completed. Of the 57 recommendations in the management audit, 50 recommendations were accepted, 3 were to be studied further, and the Company rejected 4 recommendations. Of the items for further study, 3 have been accepted.

New Jersey: Seven comprehensive management audits of gas and electric utilities, initiated in 1984 and completed in 1986, resulted in 700 recommendations for improvement. In addition, Class A water utilities are benefiting from management audits - two completed and five in progress. Prior to Board action, the utilities have begun implementing the recommendations, which affect virtually every area of utility operations. The recommendations resulted in key changes in executive management; energy production, storage and delivery; construction; finances; human resources; customer services; external relations; and support services. For those areas where a utility disagrees with a recommendation, the Board may order its implementation. Estimated first year annual savings of the gas and eletric recommendations are $27,400,000.

New York: Numerous management studies have been performed during the last ten years. Benefits of these studies fall into two categories. One consists of specific improvements to management and operating methods as the result of specific recommendations made by management consultants or PSC staff. These changes have led to service improvements and/or opportunities to control costs. A second category of benefits is less demonstrable but very real and substantial. These relate to heightened awareness of utility management to the need for improved operating efficiency and effectiveness. As a result, utilities are establishing internal productivity improvement groups and programs and are hiring management consultant groups to assist them prior to and after the mandated audits.

North Carolina: Most of the recommendations listed in the audits have been implemented by the companies.

Ohio: Cincinnati Gas & Electric - Consultant concluded that Cincinnati Gas and Electric Company is responsible for substantial mismanagement in design and construction of the Zimmer Nuclear Generating Station.

Cleveland Electric Illuminating Company - Consultant concluded that CEI had imprudently incurred costs totalling $232 million in construction of the Perry Nuclear Power Plant. Staff will recommend exclusion of this amount from rate base in future rate cases involving CAPCO companies.

Toledo Edison Company - Consultant concluded that imprudent actions by Toledo Edison resulted in the June 9, 1985 event and outage at Davis-Besse Nuclear Power Plant and associated additional cost of replacement power.

General Telephone of Ohio - Consultant's report specified numerous recommendations concerning quality of service in selected General Telephone local exchanges.

Management audits are inherent in the Staff's electric fuel cost recovery investigations. These investigations have for over a decade monitored and, to a large degree determined, the forecasting, dispatching, generating and fuel inventory policies and procedures of Ohio's electric utilities.

Oklahoma: No change apparent.

Pennsylvania: Numerous management audits completed. Recommendations take several forms; immediately implementable and offering short-term cost savings; measurable but longer-term payout; and longer-term benefits that currently are unmeasurable. Implementation monitoring is a continuing part of the program.

Tennessee: Most recommendations have been agreed to, are in the process of, or have been implemented. An audit follow-up process is in place to track, document and report realization of improvement and/or savings achieved.

Texas: The utilities here agreed with most of the recommendations in their respective audits and they have begun the implementation process.

Utah: Method of determining optimum fuel source (mine ownership/contracting/bidding) evaluated. Management procedures and efficiency measurement will be monitored.

Vermont: Some of the specific recommendations have been implemented by the utilities.

Virginia: Evaluation of cost control and management techniques for new construction.

West Virginia: Final report not yet received (due 5/8/89).

FOOTNOTES - TABLE 47 - ANNUAL ACCOUNTING REPORT FORMS

1/ Accept monthly published reports. Receive Federal reports and municipal reports on an annual basis.
2/ A copy of FERC or FCC annual report form may be substituted.
3/ The Commission requires a supplement to the FCC form for State information.
4/ Class A and B utilities file an annual supplement plus the federal form; Class C, D and E file State form.
5/ Municipal electric and gas utilities operating more than three miles from city limits file annual reports on forms developed by Commission.
6/ Large companies file federal forms.
7/ If multi-state required to file Oklahoma supplement; cooperatives use REA report of borrowers.
8/ Commission regulates service outside corporate limits. There are no municipal gas utilities in Wyoming.
9/ Energy Information Administration (EIA) of DOE has authority to require public filing of EIA Form 412 under Sec. 311 of the Federal Power Act.
10/ Includes small supplement.
11/ Only if co-op serves other customers in addition to members.
12/ And copy of REA Form 7 or 12.
13/ Commission requires filing of annual reports for all utilities. No specific forms are addressed in statutes.
14/ Jurisdiction over electric utilities ended June 17, 1968.
15/ Commission did not respond to request for update information; this data may not be current.

TABLE 48 - MISCELLANEOUS REPORT FORMS

(Miscellaneous report forms required by Agencies in addition to Annual Financial Reports)

AGENCY	TITLE OF FORM	FREQUENCY OF COLLECTION
FCC FCC-901	Monthly Report of Revenues, Expenses and Other Items	Monthly
FCC FORM M	Financial and statistical reports.	Annually
FCC-492	Rate of Return	Quarterly
ARMIS	Financial Data: Accounts, Non-reg exclusions, Separations, Access	Various
FERC-121	Application for Determination of Maximum Lawful Price Under the Natural Gas Policy Act of 1978.	Event Activated
FERC-576	Report on Service Interruptions on Pipeline Systems.	Event Activated
FERC-1	Annual Report for Major Electric Utilities, Licensees and Others	Annually
FERC-1F	Annual Report for Non-Major Public Utilities and Licensees	Annually
FERC-2	Annual Report for Major Natural Gas Companies	Annually
FERC-2A	Annual Report for Non-Major Natural Gas Companies	Annually
FERC-8	Underground Gas Storage Report	Monthly
FERC-11	Natural Gas Pipeline Company Monthly Statement	Monthly
EIA-714	Annual Electric Power System Report	Annually
FPC-14	Annual Report for Importers and Exporters of Natural Gas	Annually
FERC-15	Interstate Pipelines Annual Report of Gas Supply	Annually
FERC-16	Report of Gas Supply and Requirements	Semi-Annually
FERC-80	Licensed Hydro-Power Development Recreation Report	Every 4 years
FERC-423	Monthly Report of Cost and Quality of Fuels for Electric Plants.	Monthly
FERC-73	Service Life Data	Occasional
FERC-6	Annual Report of Oil Pipeline Companies	Annually
EIA-767	Steam Electric Plant Operational and Design Data	Annually
FERC-69	Alternate Fuel Demand Due to Natural Gas Curtailment	Quarterly
EIA-194	Monthly Alternate Fuel/Incremental Price Monitor Report	Monthly
FERC-561	Annual Report of Interlocking Positions	Annually
FERC-542-PGA	Purchased Gas Adjustment (PGA) Filing	Quarterly
ALABAMA	Financial reports from larger utilities	Monthly
	Energy costs from power companies	Monthly
	Station data from telephone companies	Monthly
ALASKA PUC	Established by Order in individual dockets	Varies
ARIZONA CC	Financial (selected utilities)	Monthly
ARKANSAS PSC	Operation & Maintenance Plan (Gas)	An initial report with correction reports as needed
	Act 310 Surcharge Revenues	Monthly
	Annual Report of Gas Transmission and Gathering Systems	Annual
	Annual Report for Distribution Systems	Annual
	Accident Report	Each Occurrence
	Avoided Capacity and Energy Costs	Semi-Annual
	CFC and Other Note Issues (electric coops)	Annual
	Construction Projects Associated with L-T debt	Annual
	Contracts under Econ. Dev't, Cogeneration & other Special Tariffs/Agreem'ts	Each Event
	Cost of Gas Adjustment	Monthly
	Cost of Debt Adjustment (all electric cooperatives)	Quarterly
	Energy Cost Adjustment	Monthly
	FERC 423	Monthly
	Forecasts - Sales, Load, Peak, Resources	Annual
	Load Curves, Gen. Outages, Aver. Heat Rates, Net KwH Outputs, Cap. Factors	Annual
	Municipal Franchise Taxes	Quarterly
	Net Savings AP&L Fuel Purchases from SFI	Monthly
	Utility Plant - System and Arkansas	Annual
CALIFORNIA PUC	Monthly reports re: sale of stocks, bonds, etc., authorized by Commission	Monthly
	Refunding of notes not to exceed 12 months in the aggregate	As refunded
	Filing of monthly financial and operating reports, plus any additional forms as requested by the individual division and branches of the CPUC, e.g., the Decision Data File	Monthly or for definite period
	Filing of data re: compensation, dues, donations, contributions, legal fees	Annually
	Report on California intrastate operations	Annually
COLORADO PUC	Electric and gas energy use. Telephone held orders	Annually
	Electric use forecast	Annually
	Financial Reports	Semi-annually
	Gas estimated peak day requirements	Semi-annually
	Gas status and quality	Semi-annually
	Accidents and outages	Each occurrence
CONNECTICUT DPU	Financial and Operating Reports	Monthly
DELAWARE PSC	Assessment Form	Annually
	As requested by Commission	

TABLE 48 - MISCELLANEOUS REPORT FORMS (CONTINUED)

AGENCY	TITLE OF FORM	FREQUENCY OF COLLECTION
DC PSC 1/	Report of Cost and Quality of Fuels Delivered to Electric Plants	Monthly
	Report on Residential Conservation Service	Annual
	Outage Event and Activities Report	Monthly
	Productivity Improvement Plan	Annually
	Marginal Cost of Energy on an Hourly Basis	Monthly
	Jurisdictional Cost Allocation Study	Annual
	Construction Program Report	Annual
	Fuel Adjustment Clause Computation Statement	Monthly
	Purchased Gas Adjustment Filing	Monthly
	Flexible Interruptible Rates	Monthly
	Actual Cost Adjustment Factors Filing	Monthly
FLORIDA PSC	Annual Construction Budget	Annual
	Quarterly Financial Report	Quarterly
	Monthly Financial Report	Monthly
	FERC Operating and Fuel Reports	Various
	Telephone Service Reports	Quarterly
GEORGIA PSC	Electric - Revenue & Expenses, Sales of Energy	Monthly
	Gas - Revenues & Expenses, Sales of Gas	Monthly
	Telephone - Revenues & Expenses, Other Statistical (REA, etc.)	M, Q, SA
HAWAII PUC 1/	Financial and Statistical	Monthly
IDAHO PUC	Any report required by the IPUC to carry out its duties	As required
ILLINOIS CC	Accident forms	Each Occurrence
	Accident or Incident Report - Gas and Electric	Each Occurrence
	Gas Limitations Report	Monthly
	Fuel Adjustment Computation - Electric	Monthly
	Out of Service Reports - Telephone	As required
	Letters of Agreement - Telephone	As required
INDIANA URC	Varies as required by Commission.	Varies
IOWA SUB	Report of Underground Gas Storage	Monthly
	Major Service Interruption Report	As Occurs
	Operation and Maintenance Statistics	Monthly
	Utility Plant Construction Starts	Following Month
	Accident Report	As Occurs
	Stockholder Reports	Quarterly
	Operating Financial Statements	Monthly
	Revenue Collections Subject to Refunds	Monthly
	Change in Purchased Gas Adjustment	As Occurs
	Fuel Adjustment Clause Calculation	Monthly
	FERC Form 4	Monthly
	FERC Form 5	Monthly
	FERC Form 423	Monthly
	REA Form 7	Monthly
	Natural Gas Consumption	Monthly
	Report of Secondary Standard Watt-hour Meter Tests	Annual
KANSAS SCC	Purchased Gas Adjustment and Energy Cost Adjustment	Monthly
	Accidents	As Occurs
	Financial	Various
	Curtailments	Monthly
KENTUCKY PSC	Reports required for all Class A & B utilities to include balance sheet, income statement and certain statistical data and customer statistics	Monthly
	Cooperatives - Form 7A	Monthly
LOUISIANA PSC	Financial and Operating Reports	Annual
MAINE PUC	Accident Reports	Each accident
	Financial Reports (major utilities)	Monthly
	Fuel Clause Reports	Monthly
	Conservation Program Implementation Report (electric utilities)	Monthly
MARYLAND PSC	Accident Reports	Each fatality/ Annually
	Major Construction	Start/Complete
	Unaccountable Gas	Monthly
	Electric and Gas Service and Sales	Monthly
	Voltage Reduction	As Occurs
	Underground Service (Electric)	Annually
	Service Maps	Annually
	Depreciation Data	Annually
	Gas BTU	Daily
	Electric and Gas Meter Sample Testing	Annually

TABLE 48 - MISCELLANEOUS REPORT FORMS (CONTINUED)

AGENCY	TITLE OF FORM	FREQUENCY OF COLLECTION
MARYLAND PSC (Continued)	Other	Random
	Financial Data (from select utilities)	Quarterly
	Annual Estimates of KWHs Generated, Purchased and Sold	Annually
	Ten-Year Plans for Electric Companies	Annually
	Late Payment Data	Quarterly
	Gas Adjustment	Monthly
	Fuel Rate - Cost Supporting Data	Monthly
	Purchased Power Adjustments	Monthly
	Gas Procurement Plans	Annually
MASSACHUSETTS	Additions and retirements reports	Annually
	Cost of Gas Clause Report	Semi-Annual
	Quarterly station reports - telephone; fuel cost reports	Quarterly
	Operating and financial reports by all major utilities	Monthly
MINNESOTA PUC	PGA Revenue Report	Annual
	Trouble reports	Annually/Quarterly
	Allocations Study	Annual
	Affiliated Interest Reporting	Annual
	REA Forms 7 and 7A	Annual

SECTION H

FINANCIAL AND CORPORATE REGULATION

The authority of the various agencies to regulate financial and other corporate matters is summarized in Tables 49 and 50. The agencies regulate or control utility purchases, mergers and consolidations, the issuance of securities, the purchase of securities of other utilities, the declaration of dividends, budgets and capital expenditures and other financial and corporate transactions.

Table 50 shows each agency's policy toward transactions with affiliates concerning accounting and reporting requirements.

** FOOTNOTES - TABLE 49

1/ Yes for gas facilities. Yes for electric facilities valued at $50,000 or more.
2/ No for gas utilities. Yes for electric utilities, but FERC jurisdiction over issuance of securities is limited to companies organized and operating in states where their securities are not regulated by the State and proceeds are $1,000,000 or more. Also, notes are exempted if not more than 5 percent of the par value of the other securities are outstanding. (Sec. 204 of the Federal Power Act.)
3/ Yes when lessee is a dominant carrier.
4/ Only if short-term exceeds 5% of total capitalization.
5/ If short-term debt exceeds 20% of assets. 30 VS A. Section 108.
6/ When combined terms of original and refunding notes exceed 12 months or the proposed notes together with outstanding notes exceed 5% of total capitalization of a utility subject to regulation by the FERC.
7/ Yes as lessor of operating unit.
8/ Gas and electric companies only.
9/ Commission has broad powers to regulate utilities under general statutes.
10/ Accounting subject to review in compliance audits.
11/ Responses do not apply to publicly owned electric utility.
12/ Between two utilities.
13/ Affiliated interest transactions.
14/ Staff reviews proposed construction costs in connection with applications for issuance of securities and reviews equipment purchases in connection with plant additions during rate case studies.
15/ Under the new construction review program this will be taken into account.
16/ Statutory requirements may not be waived but policy may.
17/ If purchased as part of merger of regulated utility.
18/ Existing telephone facilities cannot be purchased, leased or sold without Commission authority.
19/ No Commission regulation of electric or gas utilities.

** Footnotes continued on page 532.

20/ Major units of property.
21/ Notes under 18 months require no approval. Over 18 months require approval.
22/ Cost plus contracts over $100,000 must be filed 30 days before effective date.
23/ Commission requires approval to issue notes in excess of two years maturity.
24/ Electric utilities only.
25/ Black Hills Power Light Company only.
26/ No Commission regulation of electric or telephone utilities.
27/ If used in utility service.
28/ If securities are to be issued.
29/ Only if a secured note.
30/ Applies only to notes under one year.
31/ If the amount of the note or the aggregate amount of the outstanding notes attains 25% of the assets of the undertaking.
32/ The development plan is previously approved; the Board has broad power to regulate telecommunications companies.
33/ Audits in connection with rate case for determining operating expenses, depreciation and rate base.
34/ Purchase of controlling interest of utility certified by Alaska PUC.
35/ Approval is required for abandonment of service and sale of pipeline permit, as well as for transfer of electric service territory and associated facilities.
36/ Approval is required when a utility operating in Quebec but incorporated in another province, or at the Federal level, wants to buy another utility under Board's jurisdiction.
37/ If such a purchase constitutes a means to acquire in whole or in part another utility. The Board's power applies mainly to purchase of shares.
38/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
39/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 49C - AGENCY AUTHORITY OVER FINANCIAL AND CORPORATE MATTERS

1/ Determination never made.
2/ Probability of some authority in these areas under Commission's general authority, but never exercised.
3/ If excessive dividends disable performance of duties as a public utility.
4/ When company has not fully complied with orders relating to provision of designated customer services.
5/ Regulation of dividends apply only to common stock dividends of electric and gas utilities.
6/ Such activity must not jeopardize the performance of duties as a public utility.
7/ Responses do not apply to publicly-owned electric utility.
8/ Limited control where mergers are proposed and when stock and other securities are to be issued.
9/ Purpose must be lawful and provide some advantage to utility and its customers. No recent cases.
10/ Such activity should be related to utility business, pose no added risk to utility business, or be socially desirable (eg. investment in low-cost housing within service area).
11/ Utility ratepayers do not absorb any risks or costs of such activities.
12/ All necessary steps to protect consumers.
13/ Case No. 6369 provided that a company shall not lend either its capital or its credit to subsidiary or non-utility functions without the express approval of the Commission.
14/ Yes, if non-utility activities of an affiliated interest would adversely affect utility.
15/ As a condition of permission to lend money, an effort is made to restrict activities of non-regulated companies.
16/ Subsidiaries for acquiring land for utility purposes or disposition of property no longer used or useful.
17/ Coal mining operations directly related to utility activities and method of pricing the coal have been under Commission surveillance.
18/ Where fraud or wrong-doing were involved; or clearly not in public interest.
19/ Considerations include size of company, size of issue, money market conditions, available sources of funds and other relevant facts.
20/ Studied when security issue authorization is being considered from comparative money market standpoint.
21/ Approval required if utility issuer; if governmental agency issuer approval is not required but complimentary petitions still normally filed.
22/ First mortgage bonds issued to a municipality as a revenue source and collateral for municipal pollution control revenue bonds.
23/ Anti-pollution bonds.
24/ Surety bonds, purpose - ensure availability of revenue in event rate refund is required.
25/ First mortgage for construction.
26/ Only regular mortgage bonds.
27/ Usually mortgage or debenture bonds issued by domestic corporations must be approved.
28/ Regular first mortgage bonds, general mortgage bonds, debentures, negative pledge bonds, notes.
29/ Mortgage debentures, secured and unsecured promissory notes.
30/ No Commission regulation of electric or gas utilities.
31/ No Commission regulation of electric or telephone utilities.
32/ Intermediate-term notes and obligations to finance pollution control facilities. These securities are Federal Income Tax exempt and are sanctioned by political subdivisions.
33/ When outside financing is required.
34/ Authority to review when securities will be issued or when generating stations or high voltage transmission lines will be constructed.
35/ Not over entry, but regulations to insure against cross-subsidization.
36/ Commission did not respond to request for update information; this data may not be current.

TABLE 50 - TRANSACTIONS WITH AFFILIATES

AGENCY	THE AGENCY PRESCRIBES SPECIAL REQUIREMENTS FOR TRANSACTIONS WITH AFFILIATES	
	ACCOUNTING	REPORTING
FCC and FERC	Prescribed system of accounts and annual report forms, maintenance/reporting of separate accounts for investments in, advances to and from, notes to and receivable from, accounts receivable from and payable to and notes payable to affiliates.	Same.
ALABAMA PSC	Yes.	Investigation by staff.
ALASKA PUC	Yes.	Yes.
ARIZONA CC	Same as FERC and FCC with add'l records supporting jurisdictional differences as necessary.	Same.
ARKANSAS PSC	Reviewed in rate cases.	Same.
CALIFORNIA PUC	Accounting requirements same as FERC and FCC.	Same.
COLORADO PUC	Yes.	Affiliate transactions considered in rate cases.
CONNECTICUT DPUC		Service contract charges from affiliates are reported in utilities' annual reports.
DELAWARE PSC	Reasonableness of transactions is considered.	Reasonableness of transactions is considered.
DC PSC 1/	Any special accounting treatment it requires.	Any special reports it requires.
FLORIDA PSC	Yes.	Yes.
HAWAII PUC 1/	Yes.	Must submit consolidated statement w/explanation of transactions/basis of allocating common expenses.
IDAHO PUC	Reviewed in rate cases.	No affiliated interest statute.
ILLINOIS CC	Approve all transactions except those specifically excluded by Sec. 7-101 of Public Utilities Act.	File reports relative to such transactions as Commission may prescribe.
INDIANA URC	Reviewed in rate cases.	Same as FERC and FCC.
IOWA SUB	Records of transactions must be preserved the same as for utility. Extraordinary documentation may be required and pricing subject to greater scrutiny.	Same as FERC and FCC.
KANSAS SCC	Making adjustments for cases of ratemaking. (Statute requires full disclosure.)	Identify related companies in annual report, file contracts & keep SCC fully informed of transactions.
KENTUCKY PSC	Per system of accounts and reviewed in rate cases.	Same.
LOUISIANA PSC	Yes, insofar as certain transactions are concerned.	
MAINE PUC	Only as occasion requires.	Only as occasion requires.
MARYLAND PSC	No special requirements prescribed; follow requirements of Uniform System of Accounts & report forms.	
MASSACHUSETTS	To extent they affect regulated utility adversely.	Requires abbreviated report from each affiliate.
MICHIGAN PSC DPU	Per system of accounts.	In rate case filing requirements & annual reports.
MINNESOTA PUC	Per system of accounts.	Part of Annual Report.
MISSISSIPPI PSC	Per system of accounts.	Contracts to be filed with Commission.
MISSOURI PSC	Case by case review.	Case by case review.
MONTANA PSC	Must be absolutely separate.	All transactions are kept seperately.
NEBRASKA PSC	All transactions deemed necessary by PSC.	Same.
NEVADA PSC	Depends upon specific transactions.	
NEW HAMPSHIRE	Depends upon specific transactions.	Must submit contracts affecting NH utilities, ie, contract for services rendered/charged to utility.
NEW JERSEY BPU	Transaction must be reasonable and provide for elimination of unsupportable gains.	Description required in annual report plus supplemental reports if deemed necessary.
NEW MEXICO PSC	Yes.	Yes.
NEW YORK PSC	Companies must keep accounts so as to readily produce accurate statement of affiliate transactions.	Commission has authority under general powers to require any special reports to keep informed.
NORTH CAROLINA	Type/dollar amount of transaction between regulated company and affiliate must be identifiable in books.	Regulated companies annually report type, dollar amount and name of affiliate involved.
NORTH DAKOTA PSC	No prescription.	No prescription.
OHIO PUC	Commission has authority but no standards have been adopted. Treated on a case-by-case basis.	Part of annual report. Commission has authority to require report.
OKLAHOMA CC	As required by uniform system of accounts.	Same.
OREGON PUC	Special acctg requirements to readily identify costs/revenues from affiliate transactions.	Special reporting format prescribed by administrative rule.
PENNSYLVANIA PUC	PUC has authority to approve acquisition by utility of 5% or more voting stock of any corporation.	Requires Commission Order within 30 days.
PUERTO RICO PSC	1/	
RHODE ISLAND PUC	1/ Yes.	Yes.
SOUTH CAROLINA	All necessary steps to protect consumers.	Reports/other transactions filed/reviewed by PSC.
SOUTH DAKOTA PUC	Yes.	Yes.
TENNESSEE PSC	Yes.	Yes.
TEXAS PUC	Yes.	PUC can require any special reports for info.
TEXAS RC	Same as FERC.	Same.

TABLE 50 - TRANSACTIONS WITH AFFILIATES

AGENCY	THE AGENCY PRESCRIBES SPECIAL REQUIREMENTS FOR TRANSACTIONS WITH AFFILIATES	
	ACCOUNTING	REPORTING
UTAH PSC	No special provisions in law; PSC has authority under laws related to accounts/records.	Same.
VERMONT PSB		
VIRGINIA SCC	Yes.	Yes.
WASHINGTON UTC	Keep records of cost of affiliate services and, if possible, cost of all items sold to utility.	Affiliate must provide goods/services at cost and file annual report on these costs with UTC.
WEST VIRGINIA	Prior consent required-reviewed for ratemaking.	As required by annual report.
WISCONSIN PSC 1/	Highly extensive.	Yes.
WYOMING PSC	Complete separation of operations on books.	Case by case; part of annual reports.
CANADIAN RTC	No.	Quarterly report of material transactions, plus appropriate contracts/documentation/other data.
NATL ENERGY BD.	Per prescribed System of Accounts.	Reviewed in rate cases.
ALBERTA PUB	No special requirements established to date.	No special requirements established to date.
NOVA SCOTIA PUB	Subsidiaries are excluded.	Subsidiaries are excluded.
ONTARIO EB	Details of transactions filed-reviewed in rate case	Same.
ONTARIO TSC 1/		
QUEBEC NGB	Reviewed in rate cases.	
QUEBEC TB	No.	No.

1/ Commission did not respond to request for update information; this data may not be current.

SECTION I

COMPETITIVE BIDDING

The authority of agencies to require open competitive bidding on security issues and purchases of goods and services is shown in Table 51A. Certain agencies have the authority to regulate the issuance of mortgage bonds, debentures, notes, preferred stocks, property additions, material supplies purchases and personal service purchases. Table 51A shows the number of agencies which have this authority over such competitive bidding practices and Table 51B shows the number of agencies which actually require it.

FOOTNOTES - TABLE 51 - COMPETITIVE BIDDING

1/ Not for gas utilities. For electric utilities FERC jurisdiction over issuance of securities is limited to companies organized and operating in states where their securities are not regulated by the State and the proceeds are $1,000,000 or more. Also, notes are exempted if not more than 5% of the par value of other securities of the public utility then outstanding. (See Section 204 of the Federal Power Act.)
2/ Agency has broad regulatory powers under general statutes.
3/ Gas and electric utilities only.
4/ Yes, if payable more than 3 years after the date of sale and aggregating more than $1 million.
5/ Accepts either competitive bid or negotiated settlement, whichever appears more advantageous.
6/ No, except where intrastate revenues exceed 85% of total revenues.
7/ The Supreme Court has held that Commission cannot interfere with management decisions, but may exclude excessive or imprudent costs for ratemaking.
8/ Notes over two years.
9/ Notes over 18 months.
10/ Not for electric utilities. For gas utilities authority exists only as condition to issuance of certificate.
11/ Probably no.
12/ Yes, for all contracts exceeding $25,000 in a calendar year.
13/ Yes for electric utilities, but Commission may, upon proper showing, exempt any issuance from competitive bidding. No for gas utilities.
14/ Yes, but the Commission may upon showing exempt any issuance from competitive bidding.
15/ Any contract over $2,000 between a public utility and a contractor for construction of facilities located on private property for exclusive use of a private individual and for which the individual must pay the total cost directly to the utility, shall be awarded by a system of competitive bidding.
16/ Commission encourages open competitive bidding.
17/ No Commission regulation of electric or telephone utilities.
18/ Most companies voluntarily go to bid.
19/ No Commission regulation of electric or gas utilities.
20/ Electric only - and not applicable if less than 5% of capitalization.
21/ Subject to adjudication. Publicly owned utilities have a statutory requirement for competitive bidding for purchase of major materials or services.
22/ Gas utilities have been directed to invite bids for spot market purchases.
23/ Domestic corporations' security issuances with maturity greater than 36 months; those of foreign corporations with maturity over 36 months and which create a lien on Arkansas assets.
24/ Requires competitive bidding on all shelf registration.
25/ Commission did not respond to request for update information; this data may not be current.

SECTION J

ELECTRONIC DATA PROCESSING

Table 52, restructured in 1988 to take into account the proliferation of personal computers since the table was first developed, reflects the progress the agencies have made in implementing electronic data processing. Although a few agencies indicated that they were not presently using computers, the majority of the agencies reported that they use either central mainframes or micros or have installed PCs for staff use.

Table 53 includes information on separate data processing staff and budget as well as the specific types of software in use under the general categories of Word Processing, Spreadsheet, Database, Accounting, Communications, and Other.

TABLE 52 - AGENCY DATA PROCESSING CAPABILITY

FOOTNOTES - TABLE 52 - AGENCY DATA PROCESSING CAPABILITY

1/ Time-sharing at University of Minnesota by the Minnesota Department of Public Service.
2/ Batch processing at State of California's Teale Data Center.
3/ Integrated word processing/micro-computer system; plus 3NBI Oasys 66 file servers and 1 NBI 5000 Desktop Publishing WS.
4/ Plus 3 unit AB Dick Convergent Tech KWS cluster and ten other word processing stations (AB Dick and IBM).
5/ Zenith Micro, IBM PC, XT, AT, Compaq Portable, Displaywriters, Zenith Portable.
6/ 12 AT&T 6300 PCs, 2 Kaypro PCs and a Sperry micro with Sperry PC 80-286 as file server with Novell Network system.
7/ Commission did not respond to request for update information; this information dates to 1985 or earlier.
8/ 32 of the 80 terminals are Zenith microcomputers. The 20 Columbias can also be used as DG terminals.
9/ Plus a Panasonic Business Pro 600; 2 Panasonic Sr. Partners; and a Compaq Portable II.
10/ Plus a Compaq Portable III.
11/ The AT functions as a network server for the 6 PS/2s.
12/ Various Epson, IBM, Compaq, Apple models.
13/ Plus 20 AST 286/120; 13 AST 286/140; 20 IBM PS/2 Model 50; 9 Compaq III; 25 Unisys 500 and 15 AT&T 6300.
14/ Plus 11 Motorola minicomputers and 11 Apple Macs.

FOOTNOTES - TABLE 53 - SOFTWARE, STAFF AND BUDGET FOR DATA PROCESSING

1/ All staff are becoming computer literate.
2/ Computers used by staff, no separate EDP Section.
3/ Time-sharing at University of Minnesota by the Minnesota Department of Public Service.
4/ Microcomputer used in rate cases and various analyses by accounting personnel.
5/ Facilities Management: outside vendors.
6/ Integrated word processing/micro-computer system.
7/ Commission did not respond to request for update information; this data may not be current.
8/ Personal Services 36; Interactive (IDDU); Query 36; Tominy (Microfilm tracking).
9/ RATS, MIDAS, SHAZAM.
10/ Budget excludes word processing centers which are separate from MIS/EDP organization.
11/ Datatrieve, All-In-1, FMS.
12/ WP = Office Writer; Spreadsheet = SpeedII; Accounting = New Views; Communications = QModem.
13/ Plus Procomm and PC-Talk.
14/ TeamUp and Unify.
15/ Other software includes Docucalc and Peachtree for accounting, plus Slidewrite and IBM 5520 Word Processing for minicomputer.
16/ Plus Windows 2.0, PC SAS.
17/ Plus Carbon Copy, MacDraw, MacPaint, Wylbur, Ventura Pagemaker, GEM, Windows, Inmagic.
18/ Commission has networked micros and PCs through Novell and Ethernet so that all terminals have access to all software and communications through mainframe.
19/ Uplan, SPSS, RATS, IFPS, DataFlex, DataPerfect; PCs networked via Allnet with access to communications.
20/ Other software includes: Database - Oracle, Info; Communications - Primenet, Primelink, Kermit; Other - SAS, PROMOD, LSW OPN, INTELLECT.

SECTION K

SAFETY AND ADEQUACY OF SERVICE

In most cases, agencies with authority to regulate rates for electric, gas and telephone utilities also have the authority to set safety and service standards and to require interconnections and line extensions in service areas. Less than half the agencies, however, have this authority over publicly owned and cooperatively owned utilities.

Tables 54, 55 and 56 show the types of safety and adequacy of service standards enforced by the agencies on the various types of utility companies. Table 57 lists the priorities among customer classes of service established by the agencies to be used during periods of short supply or curtailment of service.

TABLE 54A - AGENCY AUTHORITY TO REGULATE STANDARDS

AGENCY	The Agency has authority to regulate standards by - Testing meters or by setting standards for the accuracy of meters by establishing standards for measuring voltage and/or cubic feet of gas						Establishing standards for voltage levels			Establishing standards for BTU content of gas		Establishing standards for pressure of gas

FOOTNOTES - TABLE 54 - AGENCY AUTHORITY TO REGULATE STANDARDS

1/ Same as for private utilities and cooperatives for facilities outside of 3 miles from the corporate limit of municipalities - Commission has no jurisdiction within the 3-mile limit.
2/ Only outside municipal limits.
3/ Yes, except for municipals supplied by Power Authority of the State of New York (PASNY).
4/ There are no public gas utilities in the state.
5/ DOT gas safety standards now apply.
6/ The National Electrical Safety Code is an acceptable standard.
7/ Cooperatives may exempt themselves from service standards and rate regulation by subscriber vote; however Commission retains authority over joint use and interconnection of facilities.
8/ Commission is not required to approve interconnections.
9/ Board may, after hearing, require interconnections - not a blanket requirement.
10/ Alaska PUC has jurisdiction over service standards of municipal utilities only if they are in competition with other utilities or if municipal elects PU regulation.
11/ Probably yes, if found to be necessary in the public interest. This power of the Commission has never been tested, however. Commission has no jurisdiction over municipal systems supplied by PASNY.
12/ (a)Under the Federal Power Act (FPA), Section 202(b), FERC, upon application of a State Commission or utility, may direct a public utility to establish physical connection of its transmission facilities with those of another utility.
(b)Under FPA Sections 210 and 212, upon application of an electric utility, Federal power marketing agency, qualifying cogenerator or small powe producer, FERC may require the physical connection of the transmission facilities of any cogeneration, small power producer or electric utility with those of the applicant.
13/ Between pipelines and gas distributors, after filing by a gas distributor of an application pursuant to Sec. 7(a) of Natural Gas Act.
14/ Per approved tariff revisions.
15/ This type of case has not been before the Board and the law has not been researched or tried.
16/ Commission has the authority to require the joint use of primary lines of a licensed hydroelectric project; and, upon application by any electric utility or Federal power marketing agency under FPA Sections 211 and 212, FERC may direct joint use of an electric utility's facilities.
17/ Under the circumstances specified in Federal Power Act Sections 202(b), 202(c), 210, 211 and 212, and Natural Gas Act Section 7(a). (See footnotes 12, 13 and 16.)
18/ Colorado PUC has no jurisdiction over publicly owned (municipal) utilities except for gas safety, for wholesale sales and rates outside municipal boundary only if rates outside differ from rates inside corporate boundaries. Cooperatives may deregulate themselves by a vote of the customers
19/ For reporting purposes.
20/ Standards are set by other agencies at the Federal and/or Provincial Governments, but the Board has authority to direct compliance.
21/ Only with respect to safety.
22/ Board has required gas utilities to offer transportation services.
23/ When gas to be transported is Indiana-produced gas.
24/ For licensed projects.
25/ Set safety standards for transmission and distribution facilities constructed after July 1, 1986.
26/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
27/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 55 - AGENCY ENFORCEMENT OF SAFETY STANDARDS

1/ Yes, for licensed projects.
2/ Pipeline safety is under the authority of Louisiana Department of Conservation.
3/ LP gas systems and natural gas systems downstream of a main meter such as industrial sites, are inspected by State Fire Marshall personnel.
4/ Testing is more often performed by utility or its agent, and checked by Commission on a random basis.
5/ Commission did not participate in US Natural Gas Pipeline Safety Act of 1968.
6/ The National Electrical Safety Code is an acceptable standard.
7/ Commission itself does not perform tests but does witness testing performed by qualified personnel.
8/ PSC has SB Agreement with OPS for Gas Pipeline Safety: 49 USC, 1674.
9/ Authority and facilities for inspection rests with Energy Resources Conservation Board and Department of Labor - Inspection Branch.
10/ Biennial cryogenic design and technical review of jurisdictional LNG plants.
11/ Check material specifications.
12/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction is over gas only.
13/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 56 - AGENCY REGULATION OF SERVICE DURING EMERGENCY

1/ Utility rules contain priority of service plans.
2/ Arrangements made through New England Power Pool.
3/ Only requirement is that the telephone utility provide emergency power during electric utility outages.
4/ General order 18 issued. NAC 704471-511.
5/ Case 25937, established procedures for electric load shedding; Case 25766 covered gas service. 16 NYCRR Part 603.7 requires utility to establish procedures to prevent or mitigate interruptions. Telephone companies are required to have minimum 8-hour emergency power plants.
6/ Commission has worked with utilities to draw up emergency operation plans.
7/ Done on a case-by-case basis.
8/ Each major electric utility has on file an approved contingency plan.
9/ General Rule 5D directs the Utilities to issue instructions for emergency service.
10/ Not applicable. FCC guidelines re: 5-day hook-up apply.
11/ As prescribed by Federal Power Act, Section 202(g).
12/ Commission did not respond to request for update information; this information may not be current.

TABLE 57 - PRIORITIES DURING SHORT SUPPLY

AGENCY	The Agency has the authority to regulate standards by requiring the establishment of priorities among customer classes of service during periods of short supply						PRIORITIES THAT HAVE BEEN ESTABLISHED UNDER THIS AUTHORITY

1/ Only outside municipal limit.
2/ Electric supply curtailment practices of public utilities must conform w/ FPA Sec. 202(g)(3).
3/ Except for municipals supplied by Power Authority of New York (PASNY). Investigation by Commission resulted in development of procedures by New York Power Pool member companies.
4/ Municipalities participating voluntarily.
5/ There are no public gas utilities in the state.
6/ Informally approved company policy applies.
7/ Commission did not respond to request for update information; this data may not be current.

SECTION L

CERTIFICATES, LICENSES AND PERMITS

The areas in which electric, gas and telephone utilities operate are generally prescribed by certificates of convenience and necessity issued by the jurisdictional regulatory agency. Franchises and permits from municipalities or other local authorities are also generally required in these States and also in States not issuing certificates. The various agencies also issue licenses or permits to control initiation of service, construction and abandonment of facilities and other related actions.

Tables 58, 59, 60, 61 and 62 list the authority of the agencies to issue certificates, licenses and permits to regulate the actions of electric, gas and telephone utilities. These tables show which actions of the utilities are controlled by the agency and the source of the agency's authority. Table 63 lists other agencies within the various States which have additional licensing power over utility companies. Table 64 lists interstate agreements which affect hydroelectric development.

FOOTNOTES - TABLE 58 - AGENCY AUTHORITY TO REQUIRE CERTIFICATES OF CONVENIENCE AND NECESSITY

1/ Finding of public convenience and necessity required if another utility is already offering or is authorized to offer comparable service in the same area. 35-A MRSA 13-A.
2/ Authorize exercise of franchise rather than issue Certificate of Public Convenience and Necessity.
3/ Certificate authority limited to gas transmission pipelines, gas storage fields, telephone companies and, in the case of gas and electric companies, to situations where one utility proposes to extend service into a municipality presently receiving like and contemporaneous service from another utility.
4/ Only outside municipal limits.
5/ Implied authority from statute; utilities must provide safe, adequate, proper service.
6/ Generating plants in excess of 50 MW.
7/ Certificate required for extension outside previously certified area; not for extension within certified area.
8/ Although certification is not required, all capital expenditures in excess of $500,000 or 10% of the total plant in service must be submitted to the Commission for review.
9/ Certificates usually authorize construction of minor electric, gas and telephone plant of all sorts, without time limit, within specified areas. Thus, a utility needs no additional certificate, other than for a major steam electric generating facility or an electric or gas transmission line, to construct additional plant within its previously certified area. Commission approval is required for construction outside its certified area. Non-retail gas transmission by exploration companies needs no franchise, but must meet safety standards and may require an Article VII certificate.
10/ Participates through membership in a separate power siting agency, which has the authority.
11/ Those in excess of 200 KV.
12/ Department has power to rezone property for construction of utility facilities and make takings in Eminent Domain Proceedings.
13/ Limited to when condemnation is required.
14/ Commission has no jurisdiction over municipally owned utilities operating inside corporate limits except for gas safety and has jurisdiction outside corporate boundaries only when rates outside differ from the rates charged inside.
15/ To extent a municipality generates power for resale.
16/ Louisiana Constitution of 1974 grants wide and plenary authority to "regulate" but no specific certification authority is provided except by statute to radio common carriers. Authority may be implied.
17/ 35-A MRSA, Sec. 3132.
18/ Certificates, Permits and Licenses - None required.
19/ If significant environmental impact.
20/ Electric facilities are owned and operated by the government and are regulated by Commission only for rate increases. No natural gas service in Virgin Islands other than "bottled gas" which is not regulated.
21/ Agency approves major additions to all regulated utilities; does not use the term Certificate of Convenience and Necessity.
22/ Yes, for licensed hydro-electric projects only.
23/ Compression, underground storage and LNG plant.
24/ 1974 Legislature gave territory authority to PSC over all electrics, including municipal and REAs to settle disputes among utilities. The Governor and Cabinet have final authority over certification and siting of major generation and transmission plant additions; PSC determines whether such facilities are needed.
25/ Limited authority.
26/ Board has exclusive jurisdiction to decide location of installation and conditions of operation of any telecommunications company.
27/ Have authority, but no public gas companies in Vermont.
28/ Authority rests with Energy Resources Conservation Board for electric and gas.
29/ Board can grant franchises but not certificates of convenience except for territory already served by public utility. Board approval required to construct major additions and to abandon lines or works.
30/ Notice of abandonment must be filed as a change in rates; effectiveness may be suspended for 5 months.
31/ Generating plants with capacity of 12 MW or greater.
32/ Transmission lines rated 100 KV or greater.
33/ Authority not exercised.
34/ Power Siting Board staff are part of PUCO.
35/ Authorizes international interconnections.
36/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
37/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 59 - OTHER AGENCY PERMIT AUTHORITY

1/ Only outside municipal limits.
2/ Indeterminate permits in Wisconsin come into existence by operation of law resulting from any grant from the State or a municipality to any public utility to own, operate, manage or control any plant for the furnishing of a public utility service. Whether an indeterminate permit exists in any given situation depends essentially upon the existence of such underlying grant.
3/ To the extent it is not in conflict with interstate commerce (FERC).
4/ Only electricity generated by water power.
5/ All territory is incorporated.
6/ No, except where duplicate franchises may have been granted to more than one utility.
7/ Unless the territory is contiguous to another public utility.
8/ PUC has no jurisdiction over municipally owned utilities inside corporate limits except as to gas safety and has jurisdiction outside the corporate boundaries only when rates outside differ from the rates charged inside.
9/ Louisiana Constitution of 1974 grants wide and plenary authority to "regulate" but no specific certification authority is provided except by statute to radio common carriers. Authority may be implied. Allocation of territory has been undertaken by General Order as well as RS 45:121 et seq.
10/ Certificates, Permits and Licenses - None in Montana.
11/ Commission can do all these things on the basis that utilities must provide safe, adequate and proper service.
12/ Utilities, at their option, may request exclusive territories.
13/ Cannot be exclusive territory.
14/ The 1974 legislature gave territory authority to the PSC over all electrics, including municipal and REAs to settle disputes among utilities.
15/ Authority rests with Energy Resources Conservation Board for electric and gas.
16/ Certificates are not applicable to telephone companies and systems under the Ontario TSC jurisdiction.
17/ There are no public gas utilities in Oregon.
18/ All electric and telephone utilities, including cooperatives and municipals, must have Commission approval to serve outside assigned service areas. Gas utilities serve on a local franchise basis.
19/ International exports.
20/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
21/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 60 - AGENCY'S AUTHORITY TO CERTIFICATE

1/ No authority to certificate.
2/ Allocation of territory, not a certificate of convenience and necessity statute.
3/ Certificates of convenience and necessity are required of gas companies only.
4/ Commission has broad authority on the basis that utilities must provide safe, adequate and proper service.
5/ Department of Environmental Protection and Municipal Councils, Titles 40 and 48 able to participate as party, EPC; AEC; Delaware Water Commission; State Department of Energy for energy facilities.
6/ California Energy Commission and the PUC both have certification responsibilities.
7/ Yes, for telephone.
8/ Certificates, Permits and Licenses - none in Montana.
9/ For LNG terminals receiving foreign source supplies and transmission interconnections with Mexico.
10/ Board can grant franchises but not certificates except for territory already served by a public utility.
11/ Political subdivisions grant other franchises; Commission can authorize the exercise of the franchises.
12/ Cities and towns authorize opening of streets, pole locations and overhead lines crossing public ways only.
13/ Minnesota statute 237.16 provides that if a telephone company surrenders a municipal franchise, it will receive a franchise from the Commission.
14/ Consent of municipality required before Commission may issue certificate to electric or gas company. Local consents also required for telephone company, if lines are to be placed underground. Local consents not required prior to issuing certificate of environmental compatibility and public need for construction of electric and gas transmission lines, if Commission finds such requirement would be "unreasonably restrictive". Any municipality in which utility plant is to be constructed may appear in certification case, cross-examine, present testimony and submit briefs on relevant issue.
15/ Municipalities in some cases.
16/ Board on Electric Generating Siting and Environment has one-stop siting jurisdiction. Local consent not required prior to issuing certificate of environmental compatibility and public need for major steam electric generating facilities if Siting Board finds that such requirement would be "unreasonably restrictive". Public Service Law, Sec. 146, Subd. 2(d).
17/ Power Siting Board staff are part of PUCO.
18/ Yes for gas transmission lines.
19/ Commission did not respond to request for update information; this data may not be current.

TABLE 61 - AGENCY AUTHORITY TO SET STANDARDS FOR CERTIFICATION

AGENCY	The Agency has authority to set legal standards or criteria for certification to include -													
	Guidelines or standards for evaluating -								Procedures to assure public participation in the certification proceedings through -					
	Effects of planned rights of way, sites and facilities on environmental values affecting					Relative environmental impacts of alternative sites	Projected utility needs	If yes, plans for facilities proposed for next 10 yrs are prepared/published annually	Public notice of certification proceedings	PUBLIC HEARING		Required prehearing meeting w/applicant/interested parties	Rights of intervention in certif. proceeding	Other safeguards

FOOTNOTES - TABLE 61 - AGENCY AUTHORITY TO SET STANDARDS FOR CERTIFICATION

1/ Commission probably has some authority under a general jurisdiction section of the statutes.
2/ Most Certificates of public convenience and necessity issued by Commission cover construction of plant of all sorts, without time limit, within specified municipalities. No additional certificate needed, other than for transmission line (Public Service Law, Art. 7) or major steam electric generating facility (Art. 8) to construct additional plant within its previously certified area. Certificate is required prior to construction outside that area. Board on Electric Generation Siting and the Environment, created in 1972 as part of Dept. of Public Service, has one-stop siting jurisdiction. Environmental Standards and criteria adopted by the Department of Environmental Conservation are applied by the PSC or the Siting Board in Article VII or Article VIII proceedings.
3/ No case has yet arisen.
4/ Wisconsin Environmental Policy Act and Power Plant Siting Law (electric only) require Commission findings with respect to environmental concerns. Commission has authority to issue conditional certificates.
5/ Requires showing of compliance with Department of Environmental Quality, state engineer and Industrial Siting Council requirements.
6/ In addition to CCN required before utility may construct plant in new territory, Certificate of environmental compatibility and public need is required before gas or electric companies can construct a transmission line of substantial size anywhere and a similar certificate from the Board on Electric Generating Siting and the Environment before constructing a major steam electric generating facility.
7/ Environmental authority only for plants 300 megawatts and over and transmission lines 230 Kv and over. Plant siting limited to air and water pollution considerations.
8/ When a Board decision conflicts with zoning laws, the Board holds a public hearing.
9/ Commission requires electric utilities to file capacity additions and load forecasts for 20-year period.
10/ Certificates of convenience and necessity are required of gas companies only.
11/ Long range electric utility plans submitted every two years and subject to formal review and approval.
12/ Notice required to be given public officials.
13/ Notice to State and Municipal agencies and groups deemed to have an interest.
14/ Right of court appeal.
15/ (a) Taking of exceptions to report after hearing. (b) Commission has all authority to make utilities provide safe, adequate and proper service.
16/ Commission and Siting Board both have comprehensive authority to conduct hearings so as to best facilitate gathering information and airing opposing views, including choosing the location of the hearing to facilitate public participation.
17/ Proceedings held in areas other than State Capitol.
18/ Not applicable, although such participation is permitted in other areas where jurisdiction is exercised.
19/ Electric only; Commission evaluates need as part of certification procedures for new steam and solar generating plants only. Final authority for certification on new plants is with Cabinet after hearings by the Department of Environmental Regulation.
20/ These concerns addressed by participation in certificate proceedings of the following agencies: PSC, Department of Health (Air Quality Bureau), Department of Natural Resources, Department of Economics and Community Development, Department of Transportation.
21/ Hearing on certification is mandatory, but whether hearing is public is discretionary.
22/ Siting of industrial units, including generation, under Industrial Siting Council.
23/ Notice to landowners required.
24/ Requires showing of compliance with State engineer requirements.
25/ FERC-no authority to determine water rights per se, but can determine water usage in licensed project.
26/ No authority to certificate.
27/ Participates through membership on Connecticut Siting Council which has authority indicated.
28/ Control exercised by Nova Scotia Department of the Environment.
29/ Power Siting Board staff are part of PUCO.
30/ Pipelines, gas storage fields and expansion into another utility's franchise area.
31/ These variables considered by Minnesota Environmental Quality Board during site selection process.
32/ But only in respect to international and/or certain interprovincial interconnections.
33/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 82 - OTHER AGENCY AUTHORITY OVER CERTIFICATION

1/ No case has yet arisen.
2/ Requires showing of compliance with Department of Environmental Quality, state engineer and Industrial Siting Council requirements.
3/ Permits required from other agencies. No Certificate needed for expansion within required franchise zone.
4/ For regulated electric utilities only.
5/ Certificate of public convenience and necessity. Licenses and permits obtained from other agencies.
6/ Illinois Public Utilities Act.
7/ For Radio Common Carriers only. Other certification authority may be implied by constitutional grant.
8/ Title 30, VSA Section 248.
9/ General Order No. 131 C.
10/ Commission Rules of Practice and Procedure.
11/ Iowa Administrative Rules.
12/ 35 MRSA 13-A.
13/ 28-32-03, NDCC.
14/ Regulations filed with Wyoming Secretary of State.
15/ No specific authority in Statutes, but persuasive arguments can be advanced to support authority in general purpose language of the Statute.
16/ Has authority but rarely exercised.
17/ After hearings in Cases 25352 (Electric Companies) and 25396 (Telephone and Telegraph Companies) rules were adopted requiring most electric, telephone and telegraph distribution lines constructed after June 28, 1972 be placed underground in residential areas. Requirements for major new electric transmission lines established on a case by case basis in proceedings under Public Service Law, Article VII.
18/ Mandatory for new residential subdivisions and commercial and industrial developments.
19/ The four largest utilities presently place all new distribution lines underground free of extra cost in subdivisions of seven or more houses.
20/ For transmission lines only. 35-A MRSA 3136.
21/ Roads Department; University of Nebraska; Legislature.
22/ Certain public utilities have the right to obtain a judgment of condemnation in the courts.
23/ After certificate of necessity is issued by the commission, initial condemnation action is taken by individual utilities. If disputes arise between parties, action is taken before Court of Common Pleas.
24/ Direct grant by Statute (Sec. 32.02 Wisconsin Statutes). PSCW in case of oil pipelines Sec. 32.02(13).
25/ County Commissioners.
26/ Condemnation Commissioners subject to appeal in court.
27/ Environmental agencies have concurrent jurisdiction with Public Utilities Commission.
28/ Certificates are not required, but evidence of compliance is sought in certificate proceedings.
29/ Probably would be considered if brought to attention and certificate would likely impose conditions.
30/ Authority is with Board and municipalities governed by the Cities and Towns Act. Power given to some to construct and manage underground conduit system which most public utilities must use when established. An appeal may be brought before the Regie on all decisions in any matter connected with such conduits.
31/ Air and Water Pollution Control Commission.
32/ State Commission of Environmental Protection.
33/ Site Evaluation Committee (electric only).
34/ Evidence required in commission proceedings on these matters (not necessarily certificate of compliance).
35/ Hydropower developments of 80 MW or greater require a Certificate of Need from the Minnesota PUC.
36/ Water and air pollution standards only for plants of 300 megawatts and over.
37/ Certificates, Permits and Licenses - none in Montana.
38/ One telephone company granted authority to install telephone poles in case of disagreement as to indemnity with landowner. In other cases Legislature must grant eminent domain. The Gas, Water and Electricity Companies Act (RSQ 1977, C-44) grants such companies the right to institute expropriation proceedings before the Expropriation Tribunal (RSQ 1977, C.E-24). Note: This last sentence applies only to the Quebec Natural Gas Board.
39/ Environmental impact statements must accompany applications for authority to construct major communications facilities, as defined in Part 1.1305 of FCC rules, from which processing staff can determine whether grant would have significant effect on quality of human environment.
40/ No authority to certificate.
41/ Participates through membership on Connecticut Siting Council which has authority indicated.
42/ After Public Hearing, if Board finds that expropriating the land is in the public interest, it may authorize the applicant to expropriate the land.
43/ Federal Ministry of Energy, Mines and Resources
44/ Commission did not respond to request for update information; this data may not be current.

TABLE 63 - FORECOING AUTHORITIES, TABLE 62B, WHICH REST WITH OTHER AGENCIES

STATE	AGENCY	Sets legal standards or criteria for certification to include guidelines or standards for evaluating the effects of planned rights of way, sites and facilities on environmental values affecting -
ALASKA PUC	Dept. of Environ. Conservation	Water pollution controls, water rights and usage.
ARIZONA	Power Plant & Transmission Line Siting Committee	Air and water pollution controls, water rights and usage, use of land, radiological controls, relative environmental impacts of alternative sites and projected needs of utilities. Authority to set standards or criteria for forming regional certifying bodies and considering multi-state impact in certification proceedings.
ARKANSAS PSC	Dept. of Environ. Control/Ecology	Air Pollution controls, water pollution controls and radiological controls.
CALIFORNIA	Air Pollution Control Districts State Water Resources Control Bd. State Energy Commission	Air pollution controls. Water pollution controls, water rights and usage. Energy development and power plant siting.
COLORADO	Several other State agencies.	Under certain conditions a certificate is required prior to construction.
CONNECTICUT	Connecticut Siting Council	Siting new electric plants or power lines for environmental compatibility and public need.
DISTRICT OF COLUMBIA	Congress of the United States or DC City Council	Air and water pollution controls, water rights and usage, use of land, radiological controls, relative environmental impacts of alternative sites and the projected needs of the utilities.
FLORIDA	Department of Environmental Regulation	Air/water pollution controls, water rights and usage, use of land, radiological controls and relative environmental impacts of alternative sites.
GEORGIA	Air Quality Control Division, Natural Resources Department Water Quality Control Board, Natural Resources Department	Air pollution controls. Water pollution controls.
IDAHO	Cities, counties, county prosecuting attorneys; Environmental Protection Div. of Dept. of Health & Welfare; Water Resourc Board; Local Improvement Dist.	Water, water usage, sewage, garbage, air pollution.
ILLINOIS CC	Illinois EPA & Dept of Conserv.	Water, air and sewage pollution.
IOWA	Deptartment of Natural Resources	Authorization of hydroelectric development and diversion or use of water.
KANSAS	State Board of Health and Environment and/or Division of Water Resources	Air and water pollution controls, water rights and usage, use of land, radiological controls and the relative environmental impacts of alternative sites and projected needs of utilities.
KENTUCKY	Department for Natural Resources	Water and air pollution
MAINE	Board of Environmental Protection	Air/water pollution controls, water rights and usage, use of land, radiological controls and relative environmental impacts of alternative sites. In addition, a favorable recommendation is required from this agency.
MASSACHUSETTS	State Department of Public Health Dept. of Environ. Quality Engrg. Energy Facilities Siting Council	Radiological controls. Water pollution controls, water rights and usage, air pollution controls. Power plant siting approval.
MICHIGAN	Six other agencies	Air/water pollution controls, water rights and usage, use of land, radiological controls and relative environmental impacts of alternative sites.
MINNESOTA	Environmental Quality Board Pollution Control Agency Department of Natural Resources	Siting of new electric plants or power lines. Air and water pollution controls. Environmental impact statements on various issues.
MISSISSIPPI	Air and Water Pollution Control Commission	Air and water pollution controls, water rights of way, use of land and radiological controls.
MISSOURI	Department of Natural Resources	Air and water pollution controls, water rights and usage, use of land, radiological controls, relative environmental impacts of alternative sites and the projected needs of the utilities.
MONTANA	Dept. Nat. Resources & Conserv.	Siting of new plants and lines.
NEVADA	PSC coordinates issuance of permits under Utility Environmental Protection Act.	Air quality, land use, water rights & quality, endangered species & historic preservation
NEW JERSEY	Dept. of Environmental Protection Department of Energy	Land use, environmental impact of planned right-of-way, sites, facilities. Siting of energy facilities.
NEW MEXICO	State Engineer	Hydroelectric development, diversion or use of water.
NEW YORK PSC	Dept. of Environmental Conservation	Standards and criteria for air, water, solid waste and hazardous waste pollution controls and water rights and usage. Requires construction and operating permits, except for new major steam electric generating stations, which are issued by Board on Electric Generation Siting and the Environment.
N. CAROLINA	Environmental Mgt. (Natural & Economic Resources Dept.)	Air and water pollution controls and water rights and usage. In addition, a favorable recommendation is required from this agency.
NORTH DAKOTA	State Health Department State Water Commission	Air and water pollution controls and water rights and usage. Air and water pollution controls and water rights and usage. Authorization hydroelectric development and diversion or use of water.

TABLE 63 - FOREGOING AUTHORITIES, TABLE 62B, WHICH REST WITH OTHER AGENCIES (CONTINUED)

STATE	AGENCY	Sets legal standards or criteria for certification to include guidelines or standards for evaluating the effects of planned rights of way, sites and facilities on environmental values affecting -
OHIO	Environmental Protection Agency Natural Resources Power Siting Board	Air, water, esthetic controls. Land use. Power generating stations, power and gas transmission line location.
OKLAHOMA	Water Resources Bd., State Dept. of Health, Conserv. Commission	Air and water pollution controls.
OREGON PUC	Dept. of Environmental Quality Energy Facility Siting Council	Pollution controls. As relating to generating plants, electric transmission lines, gas and oil pipelines and oil refineries.
PENNSYLVANIA	Environmental Resources	Air and water pollution controls, water rights and usage, use of land and radiological controls.
PUERTO RICO 1/	Environmental Quality Board Department of Public Works	Air and water pollution controls. In addition, a favorable recommendation required from this agency. Use of land.
RHODE ISLAND 1/	Coastal Resources Mgt. Council Health Department Department of Natural Resources State Planning Council	Compatibility with coastal zone plans. Air and water pollution control. Compatibility with wetlands regulations. Compatibility with land use plans.
TENNESSEE	State Health Department	Air and water pollution controls.
TEXAS	Air Quality Control Board Texas Water Commission	Air quality control. Water quality control.
UTAH	State Department of Health State Water Pollution Control Bd.	Air pollution controls. Water pollution controls.
VERMONT	Environmental Agency Dept. of Health & Environ. Agency	Air pollution and water pollution. Radiological.
VIRGIN ISL.	Plng. Bd., Dept. of Public Works	Use of land.
WASHINGTON	Energy Facil. Site Eval. Council	Major generation and transmission facility siting.
WEST VIRGINIA	Air Pollution Control Commission	Air pollution controls.
WISCONSIN	Department of Natural Resources Dept. of Health & Social Services	Air and water pollution controls, water rights and usage, use of land and relative environmental impacts of alternative sites. Radiological monitoring.
WYOMING	Dept. of Environmental Quality State Engineer; Health Dept./ USEPA/ Industrial Siting Council	Air and water pollution, land use, water rights, use and potability, industrial siting.
ALBERTA	Alberta Energy Resources Conservation Board	Environmental considerations, public participation, construction, authorization
NOVA SCOTIA 1/	Department of the Environment and Environmental Control Council	Environmental preservation and protection, regulation of related construction projects and research.

1/ Commission did not respond to request for update information; this data may not be current.

TABLE 64 - INTERSTATE COMPACTS AFFECTING HYDROELECTRIC DEVELOPMENTS

COMPACTS	CONGRESSIONAL CONSENT TO COMPACT	DESCRIPTION
ARKANSAS RIVER	Act of May 31, 1949 (63 Stat 145)	Between Colorado and Kansas to apprortion and determine utilization of the natural waters of the Arkansas River originating in Colorado.
ARKANSAS RIVER BASIN	Act of November 11, 1966 (80 Stat 1909)	Between Kansas and Oklahoma to apprortion the waters of the Arkansas River Basin entering the Arkansas River generally between Wichita,Kansas and Muskogee, Oklahoma.
BEAR RIVER	Act of March 17, 1958 (72 Stat 38)	Among Idaho, Utah and Wyoming to provide for efficient use and distribution of the water resources of the Bear River.
BELLE FOURCHE RIVER	Act of February 26, 1944 (58 Stat 94)	Between South Dakota and Wyoming to provide for equitable division and most efficient use of the waters of the Belle Fourche River and its tributaries originating in Wyoming.
CANADIAN RIVER	Act of May 17, 1952 (66 Stat 74)	Among New Mexico, Texas and Oklahoma to apportion the waters of and to provide for the construction of additional works for the conservation of the Canadian River.
COLORADO RIVER	Boulder Canyon Project Act of December 21, 1928 (45 Stat 1057, 1064)	Among Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming to provide for the apportionment of the waters of the Colorado River and its tributaries within the US and to secure the expeditious agricultural and industrial development of the Colorado River Basin.
COSTILLA CREEK	Act of December 12, 1963 (77 Stat 350)	Between Colorado and New Mexico to apprortion and assure the most efficient utilization of the waters of Costilla Creek.
DELAWARE RIVER BASIN	Act of September 27, 1961 (75 Stat 688)	Among Delaware, New Jersey, New York, Pennsylvania and the UnitedStates to provide for the planning, conservation, utilization, development,management and control of the Delaware River Basin water resources.
KANSAS-NEBRASKA BIG BLUE RIVER	Act of June 2, 1972 (PL 92-308)	Between Kansas and Nebraska to apportion the waters of the Big Blue River Basin.
KLAMATH RIVER BASIN	Act of August 30, 1957 (71 Stat 497)	Between California and Oregon to provide for the distribution and use and to establish preferential rights and prescribed relationshipsbetween beneficial uses of water of the Klamath River Basin including the closed basins in the Klamath Basin upstream from the boundary between thestates
LA PLATA RIVER	Act of January 29, 1925 (43 Stat 796)	Between Colorado and New Mexico to provide for the distribution of the waters of the La Plata River.
PECOS RIVER	Act of June 9, 1949 (63 Stat 159)	Between New Mexico and Texas for the division and apportionment of the use of the waters of the Pecos River.
RED RIVER OF THE NORTH	Act of April 2, 1938 (52 Stat 150)	Among South Dakota, North Dakota and Minnesota to control lake levels and streamflows of the Red River of the North Basin with the exception of the Otter Tail River Basin, and to control state, municipal and industrial water development of the Red River of the North Basin.
REPUBLICAN RIVER	Act of May 26, 1943 (57 Stat 86)	Among Colorado, Kansas and Nebraska to provide for the most efficient use and equitable division of the waters of the Republican River Basin.
RIO GRANDE	Act of May 31, 1939 (53 Stat 86)	Among Colorado, New Mexico and Texas to provide equitable apportionment of the waters of the Rio Grande above Fort Quitman, Texas.
SABINE RIVER	Act of August 10, 1954 (68 Stat 690)	Between Texas and Louisiana to provide equitable apportionment of the waters of the Sabine River and its tributaries.
SNAKE RIVER	Act of March 21, 1950 (64 Stat 29)	Between Idaho and Wyoming to provide for equitable division of the waters of the Snake River and tributaries in Wyoming and the Salt River and its tributaries.
SOUTH PLATTE RIVER	Act of March 8, 1926 (44 Stat 195)	Between Colorado and Nebraska to apportion the waters of the South Platte River originating in Colorado.
SUSQUEHANNA RIVER BASIN	Act of December 24, 1970 (84 Stat 1509)	Among New York, Maryland, Pennsylvania and the United States to provide for the planning, conservation, utilization, development, management and control of the water resources of the Susquehanna River Basin.
UPPER COLORADO RIVER BASIN	Act of April 6, 1949 (63 Stat 31)	Among Arizona, Colorado, New Mexico, Utah and Wyoming to provide for the division and apportionment of the use of the waters of the Colorado River System, the use of which was apportioned in perpetuity to the Upper Basin by the Colorado River Compact.
YELLOWSTONE RIVER	Act of October 30, 1951 (64 Stat 663)	Among Montana, North Dakota and Wyoming to apportion the waters of the Yellowstone River and its tributaries, other than waters within or which contribute to the flow of streams within Yellowstone National Park.

SECTION M

ENVIRONMENTAL DATA

Table 65 shows the regulatory agency which enforces environmental standards for utility operations. As can be seen in the table, this authority usually rests with a State agency other than the utility commission. At this time, only the Arkansas Public Service Commission and the Kansas State Corporation Commission have incorporated into their rules provisions limiting pollution emissions on behalf of utility companies.

Table 65 also indicates those agencies that have taken specific action to require compliance with clear air and water quality standards or other State agency having such authority.

TABLE 65 - AGENCY ENVIRONMENTAL REGULATION OF ELECTRIC GENERATING FUELS

AGENCY	Agency has incorporated into its rules governing rules used for electric generation the following provisions: Limit sulphur content of fuel	Limit ash in fuels	Stack gas effluent	Other State Agency which has this authority	Action taken-compliance w/clear air/water quality standards established by Federal or state law or local ordinance. FOOTNOTES - TABLE 65 - AGENCY ENVIRONMENTAL REGULATION OF ELECTRIC GENERATING FUELS

1/ Water quality standards checked on companies under jurisdiction, however, most are municipal companies.
2/ Accept evidence from State, Federal Agencies with authority in these areas incorporating their standards in Commission decisions
3/ Procedures for implementing the National Environmental Policy Act of 1969 are included in 47 CFR, Part 1, Subpart I.
4/ Require clearance with Environmental Quality Board on any proposed action needing Commission approval.
5/ New legislation is required.
6/ Environmental requirements at existing facilities monitored and enforced by Dept. of Environmental Conservation. Construction of new major steam electric generating stations must meet State Siting Board requirements. PSC monitors, enforces and administers compliance with terms and conditions set in Board decision. Facilities and fuel must meet requirements established by Dept. of Environmental Conservation.
7/ Construction certificate for two generating plants contained conditions explicitly limiting sulfur content of fuels, but this is neither a standard practice nor a general rule.
8/ Commission did not respond to request for update information; this information may not be current.

SECTION N

SPECIAL PROVISIONS OF THE INCOME TAX LAWS

Tables 66 and 67 show the accounting and ratemaking treatment of the tax reductions attributable to various provisions of the income tax laws.

In deciding upon the treatment of tax reductions attributable to accelerated amortization, liberalized depreciation, guidelines depreciation, asset depreciation range, pollution control facilities, gain or loss on reacquired securities and the investment tax credit, agencies generally rule on the underlying question of whether these special provisions result in a tax saving or a tax deferral.

For accounting, either actual taxes to be paid for the period are included in the income statement (flow-through method), or the income statement includes the amount of tax to be paid for the period plus the tax saving from the use of the applicable special provision of the tax laws (deferral method).

For ratemaking, either "actual" taxes or "normalized" taxes are included in the utility's cost of service. Normalization is the combination of (1) actual taxes to be paid for the period and, (2) a provision of the tax laws.

Please Note:

The 1981 Economic Recovery Tax Act (ERTA) provides that rate regulated enterprises may not qualify for accelerated depreciation or investment tax credit benefits under the Act unless the corporation has received a full interperiod tax normalization rate order from its regulatory agency. Thus, Tables 66 and 67 provide information relevant only to those tax benefits provided under pre-ERTA tax law or the benefits not protected by Federal normalization regulations. Unless footnoted otherwise, it can be assumed that all ERTA tax benefits are accounted for using full normalization techniques.

FOOTNOTES - TABLE 66 - RATEMAKING TREATMENT OF TAX REDUCTIONS

1/ Actual tax - cost of service includes only those taxes to be paid for the period.
2/ Normalized tax - cost of service includes (1) taxes to be paid for the period and (2) taxes deferred to later periods. Also normalized tax is the amount of tax that would have been paid by the utility had it filed its tax return on an individual rather than on a consolidated basis.
3/ No commission regulation of electric or gas utilities.
4/ Question never arose.
5/ Generally permit only actual (flow-through) taxes paid for ratemaking purposes. However for electric and gas utilities where approximately 96% of income tax paid is refunded, normalized tax method may be permitted under which book figures are used to compute income tax payable, no deferral permitted.
6/ Normalization required for all prospective timing differences effective 1/1/88. Prior amounts may still reflect flow-through accounting.
7/ Depends on the option the utility selected under Internal Revenue Code.
8/ Deferred taxes arising from tax losses due to cancelled plant are not deducted from rate base.
9/ Application for normalization may be accepted depending on significance and nature of the difference.
10/ For qualified property added after 1980, 10% normalization.
11/ Post-1971 investment tax credit given rateable flow-through treatment.
12/ May be treated same as accelerated amortization.
13/ Not reported.
14/ Except 4% investment tax credit.
15/ Electric and gas were normalized in 1975 and telephones were fully normalized by 1980.
16/ Commission requires consistent treatment of tax after election of method by each utility, based on latest Commission policy.
17/ Practice is to reallocate back to the individual companies their proportionate tax.
18/ Statutory tax rates utilized.
19/ Case-by-case basis.
20/ Except for accelerated amortization Commission's general policy is to adopt flow-through. Normalization is used when required by law as in cases where a utility has made elections regarding liberalized depreciation on post-1969 expansion property or other than Option 3 treatment of investment (job development) tax credits.
21/ Difference is entered in rates.
22/ Flow-through state. Timely exercised IRS options respected in ratemaking and accounting. For flow-through companies investment credit was shared 50-50 when not required to be normalized by IRS. Guideline depreciation on prior 1971 property is flowed-through. For property added after 1970, flow-through companies permitted to normalize difference in depreciation on a straight-line basis between book lives and minimum ADR lives. In 1982 Commission implemented the normalization requirements of the Economic Recovery Tax Act of 1981, where applicable, for rate and accounting purposes by the January 1, 1983 deadline.
23/ Generally flow-through. However, in certain major cases utilities were allowed to defer the savings related to the interest component of AFUDC and construction overheads on specific major generating facilities, to improve interest coverage and reduce AFUDC level. Specific accounting and ratemaking treatments issued for major tax changes required by the Tax Reform Act of 1986.
24/ Accumulated deferrals related to the job development investment tax credit are normalized and given either overall or full equity return.
25/ Certain companies flow-through for both accounting and ratemaking purposes under orders issued prior to the 1969 Tax Act Revision. Applications for deferral are generally accepted on new additions forward basis. Normalization mandated under 1981 Economic Recovery Tax Act is also authorized.
26/ Flow-through state. Timely exercised IRS options respected in ratemaking.
27/ Practices required by the Internal Revenue Code.
28/ For determining utility's cost of service in ratemaking proceedings, OCGA Sec 46-2-26.2 mandates that all book tax timing differences be accounted for as required by generally accepted accounting principles governing all businesses.
29/ Except Option 2 (rateable flow-through) tax credits.
30/ For property added after 1970, flow-through companies permitted to normalize the difference between book and tax depreciation. The difference between book and tax guideline depreciation is flowed-through on pre-1971 property.
31/ Statutory tax rates utilized on a stand-alone basis. Parent company interest is allocated.
32/ Parent interest adjustments are made.
33/ Normalize existing investment tax credit only (1986 Tax Reform Act).
34/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 67 - ACCOUNTING TREATMENT OF TAX REDUCTIONS

1/ Question never arose.
2/ Generally permits only actual (flow-through) taxes paid for ratemaking purposes. However for electric and gas utilities where approximately 96% of income tax paid is refunded a normalized tax method may be permitted under which book figures are used to compute income tax payable, no deferral permitted.
3/ Deferral required effective 1/1/88 on a prospective basis. Prior amounts may still reflect flow-through accounting.
4/ Application for normalization may be accepted depending on significance and nature of the difference.
5/ For qualified property added after 1980, 10% normalization.
6/ May be treated same as accelerated amortization.
7/ Not reported.
8/ Electric and gas were normalized in 1975 and telephones were fully normalized by 1980.
9/ Commission requires consistent treatment of tax after election of method by utility, based on latest Commission policy.
10/ Case-by-case basis.
11/ Except for accelerated amortization Commission's general policy is to adopt flow-through. Normalization is used when required by law as when utility has made elections regarding liberalized depreciation on post-1969 expansion property or other than Option 3 treatment of investment (job development) tax credits.
12/ Difference is entered in rates.
13/ Flow-through state. Timely exercised IRS options respected in ratemaking and accounting. For flow-through companies investment credit shared 50-50 when not required to be normalized by IRS. Guideline depreciation on prior 1971 property is flowed-through. For property added after 1970, flow-through companies permitted to normalize difference in depreciation on a straight-line basis between book lives and minimum ADR lives. In January 1982 Commission issued a Policy Statement implementing the normalization requirements of the Economic Recovery Tax Act of 1981, where applicable, for rate and accounting purposes by the January 1, 1983 deadline.
14/ Generally flow-through. However, in certain major cases utilities were allowed to defer savings related to the interest component of AFUDC and construction overheads on specific major generating facilities, to improve interest coverage and reduce AFUDC level. Specific accounting and ratemaking treatments issued for major tax changes required by the Tax Reform Act of 1986.
15/ Certain companies flow-through for both accounting and ratemaking purposes under orders issued prior to the 1969 Tax Act Revision. Applications for deferral are generally accepted on new additions forward basis. Normalization mandated under 1981 Economic Recovery Tax Act is also authorized.
16/ US Revenue Act provisions not applicable to Puerto Rico.
17/ Electric facilities owned and operated by the Government are regulated by the Commission only for rate increases.
18/ Practices required by the Internal Revenue Code.
19/ Accounting treatment follows ratemaking treatment option under the IRS Code for retail and wholesale ratemaking.
20/ Flow-through - only actual taxes to be paid for the period are included in the income statement.
21/ Deferral - actual taxes plus deferred taxes are included in the income statement.
22/ For determining utility's cost of service in ratemaking proceedings, OCGA Section 46-2-26.2 mandates that all book tax timing differences be accounted for as required by generally accepted accounting principles governing all businesses.
23/ If a taxpayer election is involved, we have a general rulemaking proceeding, but authorize accounting on a case-by-case basis.
24/ Optional to utility but study is made for rate proceedings.
25/ No regulation.
26/ Investment credit first handled by general rulemaking proceedings. All other generally on case basis.
27/ If the difference between guideline depreciation and book depreciation is recognized in a rate proceeding, deferred accounting treatment and normalized rate treatment are prescribed; otherwise, flow-through accounting and actual taxes are followed.
28/ Normalize existing investment tax credit only (Tax Reform Act 1986).
29/ Commission did not respond to request for update information; this data may not be current.

SECTION O

MISCELLANEOUS TABLES

This Section contains data on agency regulation of utilities not elsewhere contained in Part III.

Table 68 A, B and C shows electric and gas utility billing practices as required by the agencies.

Table 69 provides the results of a survey on electric and natural gas service disconnection and reconnection policies of each State, as well as restrictions on service disconnections during the winter months.

Table 70 gives detailed information on State laws to prevent damage to underground utility plant.

Table 71 deals with Federal and State ratemaking treatment of plant abandonment costs.

Table 72 summarizes conservation activities of the State regulatory agencies.

NARUC QUESTIONNAIRE RE UTILITY BILLING PRACTICES - ELECTRIC AND GAS

Tables 68 A, B, and C, which follow, were compiled originally from responses to the questionnaire reproduced below which was sent to each state regulatory agency.

A. **Time of Payment**

1. Do billing practices of electric and gas utilities in your State include any type of penalty for late payments, whether expressed as a "discount" for prompt payment, "net-gross" billing, late payment charge, or other. If "yes", what type of penalty: a. Net-gross rates b. Collection charge (flat fee) c. Late payment charge (% of overdue amount) d. Other (please specify).

2. Does your State have uniform billing practices for all utilities on: a. Due and payable periods? b. Late payment penalties (discounts)?

3. What authority exists for use of such practices? a. Statutes? b. Commission rules? c. Tariffs d. Other (please specify)

4. Are these charges subject to any State truth-in-lending law? If "yes", has it been sustained in court in your State? (If "yes", please give case citation.)

5. What period of time is usually allowed before penalty is incurred ("due and payable" period)?

6. Are customers allowed any late payments without incurring any penalty? If yes, how many per year?

7. Do the utilities that have a late payment penalty apply it to all classifications of customers (residential, commercial, industrial, etc.)? If no, what classes are excluded?

8. Do you know of any studies which support the statement that "collection costs associated with late payments support the use of penalties"? If "yes", please identify.

9. What is the usual billing period for: a. Electric utilities? b. Gas utilities? d. Water?

B. **Deposits**

1. When is a deposit required? (Specify by type of utility if differences exist.)

2. Do deposits earn interest? If "yes", at what annual rate?

3. When is a deposit returned: a. At customer's request? b. Automatically by utility? If automatically, under what circumstances (ie, after 1 year of satisfactory payments, etc.)? For Commercial Customers _____ For Residential Customers _____

4. What authority governs deposits? a. Statute b. Commission rules (Has commission adopted NARUC model rule on deposits?) c. Other (please specify)

C. **Rate Information**

1. How can a customer check the accuracy of his billing?
   a. Is the utility required to supply the customer all the backup information?
   b. Does your commission provide an analysis upon request?
   c. Is sufficient information provided with the billing to enable the customer to make this calculation (usage, block rates, etc.)?

2. Are bills itemized (separately stated and adequately described) for: a. Service charges? b. Other recurring charges? c. Special charges (connect, reconnect, etc.)? (Please specify)

D. Has your Agency conducted an analysis of the billing procedures of the utilities under your jurisdiction?

E. Comments

FOOTNOTES - TABLE 68A - UTILITY BILLING PRACTICES ELECTRIC AND GAS - PART I

1/ Tariff provision.
2/ Some utilities impose late payment penalties of an additional percentage of overdue amount.
3/ SDG&E excludes residential customers.
4/ One percent interest per month on unpaid balance of bill unless deferred payment arrangements made
5/ 1.5% of the unpaid balance.
6/ Twenty-one days for residential; 14 days for non-residential gas and electric customers. Preferred payment date available for customer receiving certain benefit checks within 10 days of normal due date.
7/ Penalty not to exceed 5%.
8/ Residential - none; non-residential - 1.5% of outstanding balance after 25 days; net-gross for municipals.
9/ Residential: 2% of bill, not compounded; commercial: up to 2% of bill, not compounded.
10/ Commission rules allow 21 days to pay plus 5 day grace period.
11/ 1.5% per month on delinquent amount, or minimum fee of $1.00, on amounts over $10.00.
12/ Electrics exclude residential customers.
13/ Minimum standards are in regulations; some utilities have adopted more liberal standards; ie no late payment charges for residential customers.
14/ Board sets rates for payment on due date and rates higher for payment after 30 days: 5% for electricity.
15/ Yes, for residential customers of all utilities; no for commercial accounts.
16/ Net amount plus 1/365 X 20% of the unpaid balance of the net amount for every day after the due date.
17/ Customers may not be disconnected for delinquent amount of less than $50. This exception may be used only twice (two months or billing periods) per calendar year.
18/ Except PEPCO which allows 2 late payments in a 12-month period without incurring penalty.
19/ Not all companies assess late penalties. Approved late penalty is assessed every time a customer pays late with the exception of one company which allows one delinquency. Due and payable period is 21 days for residential customers; three companies require commercial customers to pay within 10-15 days.
20/ Guidelines for retail credit, collection and cut-off practices of public utility suppliers issued by the Ministry of Energy. Compliance is not legally required but used as benchmark for accepted practices.
21/ Some smaller utilities do not charge late payment penalties when the payment is not very late.
22/ Authorized one-time late-payment charges - 3% of the bill, with a minimum charge of $.30. Authorized monthly late-payment charges - no more than 1.5% per month. Must be filed with and approved by the Commission before it can be applied.
23/ Commission adopted a Consumer Bill of Rights to standardize billing practices.
24/ Commission did not respond to request for update information; this information may not be current.

FOOTNOTES - TABLE 68B - UTILITY BILLING PRACTICES ELECTRIC AND GAS - PART II

1/ Pursuant to tariff.
2/ Rate of interest revised annually based on the average interest paid on one-year Treasury Bills for the preceding period of October-December as published in the Federal Reserve Bulletin.
3/ Commission Rules - Admin. Code Part 280.50 and .60 contain detailed information regarding deposit.
4/ The average rate on two-year US Treasury notes for the preceding calendar year as published in the Federal Reserve Statistical Review G.13(415).
5/ Changes January 1 every year to level paid by Bank of ND on smallest denomination six-month CD.
6/ Company policy must be approved by PSC; automatic review once a year.
7/ Current rate on bank savings accounts.
8/ Variable commercial rate as defined in Rule 7 of Tariff 1.
9/ Any company may require a deposit from any commercial customer and may request a deposit from a residential customer; however potential residential customer may not be denied service because of inability to pay a security deposit.
10/ Residential deposits earn 9% annual interest, commercial deposits earn 6%.
11/ Residential deposits automatically refunded. Others may be held for the life of the account, earning interest at the approved rate.
12/ Commission did not respond to request for update information; this information may not be current.

FOOTNOTES - TABLE 68C - UTILITY BILLING PRACTICES - ELECTRIC AND GAS - PART III

1/ For instance, Atlanta Gas Light shows PGA and franchise tax separately on bill, but Georgia Power does not show fuel cost recovery and franchise taxes separately.
2/ Billing procedures reviewed by Consumer Assistance division staff for testimony in general rate cases.
3/ Commission in Fall 1985 directed utilities to provide plain language bills.
4/ In process of investigating the establishment of a uniform bill format.
5/ Some utilities periodically send rate brochures to customers from which they can calculate bills.
6/ In connection with rate cases or complaints on a case-by-case basis.
7/ Tariffs constantly under review and policies revised as needed.
8/ Audits of utility company practices as they relate to Commission Billing Rules.
9/ Recently revised rules for utility service and maintain ongoing analysis for individuals at their request.
10/ Has expanded number of itemized billing components and provided energy conservation information.
11/ Generally stated separately but not specifically described.
12/ Rate schedules on request.
13/ Guidelines for retail credit, collection and cut-off practices of public utility suppliers issued by Ministry of Energy. Compliance is not legally required but used as benchmark for accepted practices.
14/ Commission reviews billing procedures annually.
15/ All charges are explained on the original bill, including usage, but rate structure is not given.
16/ Various studies for billing improvements.
17/ Utilities required to send all customers a reference guide explaining billing methods annually.
18/ Commission adopted Consumer Bill of Rights to standardize billing practices.
19/ Commission did not respond to request for update information; this data may not be current.

INTRODUCTION

SERVICE DISCONNECTION AND RECONNECTION POLICIES

In July 1984, the NARUC conducted a survey on electric and natural gas service disconnection and reconnection policies of each State. The following table was compiled from the responses to that questionnaire and inserted into the Annual Report. In January 1989, all state agencies were requested to update all information in the Annual Report to reflect State policies as of December 31, 1988. The original questionnaire is reproduced below.

Information was obtained concerning the procedures followed by the various companies to notify customers prior to disconnection of service. In addition, information is included which explains whether or not customers must pay additional fees in order to have their service reconnected.

Restrictions on service disconnections during the winter months were also obtained. Many state commissions presently have formal or informal restrictions on service disconnection during those months.

NARUC QUESTIONNAIRE RE SERVICE DISCONNECTION AND RECONNECTION POLICIES (ELECTRIC AND GAS)

1. What authority governs residential customer service disconnection for nonpayment? Statute (S), Agency Regulations (CR), Other (Please specify).

2. How much notice must be given customers before disconnection for nonpayment?

3. (a) Does your Agency have any additional notice requirements regarding service disconnections, eg, notification to third party? (b) If your answer to Question 3(a) was yes, please specify the additional requirements: (c) If your answer to Question 3(a) was no, have any of the electric utilities in your jurisdiction adopted special notice procedures? If Yes, please specify.

4. What authority governs residential service reconnections where service has been disconnected for nonpayment? Statute (S), Commission Rules or Regulation (CR), Other (Please specify).

5. (a) Is an additional deposit (ie beyond that required prior to disconnection) required for service reconnections? (b) If your answer to Question 5(a) was Yes, please explain how the deposit amount is calculated.

6. Can customers make arrangements to pay outstanding balance in future installments in order to have service reinstated?

7. Is there a charge for service reconnections? If Yes please specify.

8. (a) Does your agency have restrictions on residential electric service disconnections during the winter months? If yes, please specify. (b) If your answer to Question 8(a) was yes: When were the restrictions instituted? Under what authority?

FOOTNOTES - TABLE 70 - STATE LAWS (OR COMMISSION RULES) TO PREVENT DAMAGE TO UNDERGROUND UTILITY PLANT

1/ Alaska adopted triple damage civil liability for damage intentionally done or resulting from gross negligence. Anchorage (with over 50% of the population) adopted an ordinance in 1976.
2/ Gas utility plant.
3/ Regulated by Statute SDCL 4.
4/ Twenty local utility coordinating councils voluntarily established. Thirteen are one-call systems.
5/ Regulated by Section 153.64, Title 1, Part 2, and 3781.25 to 3781.32, Ohio Revised Code.
6/ Laws apply only to pipelines in rural areas and buried electric cables.
7/ DPU enforces law with fines of $200-$1,000 for violation. Excavators must notify cablevision companies, which are required to mark out UG facilities.
8/ Legislation passed 1985 Miss. Code 1972, Sec. 77-13-1 to 77-15 effective July 1, 1985.
9/ Statewide "Call Okie" system effective January 1, 1982 (Underground Facilities Damage Prevention Act).
10/ Law passed 7/1/86 affects all telephone, electric and natural gas utilities; requires them to locate underground plant within 72 hours of being notified. They must mark facilities within 24 inches of actual location. Non-compliance punishable by fines ($1,000 for first offense and $3,000 for subsequent offenses within a year). The person is strictly liable for cost of repairing damaged facilities.
11/ Gas and electric utilities only.
12/ Private water companies only.
13/ Only after repairs are approved by utility.
14/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 71 - FEDERAL AND STATE RATEMAKING TREATMENT OF PLANT ABANDONMENT COSTS

1/ Inclusion of pollution control and fuel conversion CWIP and additional CWIP if severe financial difficulty and other specified criteria are met. 18 CFR 2.16 (1982). Order No. 298, Docket No. RM81-38 (5/16/83) provides for broader inclusion of CWIP in rate base by electric utilities (up to 50% of all CWIP, subject to a 2-year rate impact limitation of 6%).
2/ Arizona Pub. Service Co. (AZ PSC 1980) 38 PUR 4th 547.
3/ Southern California Gas (CAL PUC 1980) Decision No. 92497, App. 59316; Southern California Edison (CAL PUC 1982) 50 PUR 4th 317; Pacific Gas & Electric, Decision No. 85-08-09-49, undepreciated plant amortized in rates over adopted period with no allowance for return on rate base.
4/ Connecticut Light & Power Co. (CT DPUC 11/25/81) Docket Nos. 810602, 810604 (Montague).
5/ Potomac Electric Power. (DC PSC 12/29/82) 50th PUR 4th - Formal Case No. 785, Order No. 7716.
6/ Northern Indiana Public Service (IURC 8/11/82) Cause No. 36689 (Bailly, N-1). All AFUDC included in amortization. Appellate and Supreme courts overturned IURC's decision; used and useful test.
7/ Union Electric (RPU-85-9), Iowa Elec. Light & Power (RPU-86-7), Interstate Power (RPU 86-8). Allowed recovery of abandonment costs, but disallowed return on them (plant abandoned during construction).
8/ Pinto Utilities (1979) 70 MD PSC 11. Amortization period of 7 years adopted for abandoned plant and treated as amortization of extraordinary loss. Potomac Electric Power (1980) 71 MD PSC 157.
9/ Commonwealth Electric DPU 956 (MA DPU 5/28/82). Two- and three-year amortization. (Montague units I and II; Pilgrim unit 2) RE: Boston Edison (MA DPU 4/30/82) 46 PUR4th 431. (Pilgrim unit 2).
10/ Northern States Power Co. (MN PUC 1981) 42 PUR4th 339.
11/ Nevada Power (NV PSC 1980) 41 PUR4th 337.
12/ No cases decided under anti-CWIP statute. Staff believes statute prevents recovery from ratepayers. Most recent review of construction program - Pub. Service New Hampshire (12/27/82)-NH-,-A2d-, No. 82-366.
13/ Atlantic City Electric (NJ BPU 1/13/83) Docket No. 8012-914. Built solely to save fuel; abandonment recovered through levelized energy adjustment clause. Hope Creek Unit 2 RE: Jersey Central Power & Light (NJ BPU 1981) 44 PUR4th 54. AFUDC subsequent to abandonment disallowed.
14/ Rochester Gas & Electric (NY PSC 1982) 45 PUR4th 386. Financing Plans for New York State Gas & Electric (NY PSC 1982) 49 PUR4th 329. Orange & Rockland Utilities (NY PSC 1981) 45 PUR4th 235. Opinion No. 84-25 (9/19/84) Long Island Lighting and New York State Electric & Gas proposed nuclear units in New Haven.
15/ Northern States Power (ND PSC 12/31/80) Case No. 10,097. Northern States Power v. Havan et al. (ND PSC 1981) Civil No. 10,017-ND-, 45 PUR4th 141, 314 NW2d 32, ND Commission held to be without jurisdiction to consider Tyrone losses.
16/ Toledo Edison (PUCO 1981) 42 PUR4th 568 (Davis Besse), Unamortized expenses excluded from rate base. Office of Consumers' Counsel v. Ohio PUC (1981)- Ohio St 2d-, 423 NE2d 820. PUCO unreasonably and unlawfully exceeded its statutory authority when it approved amortization of company's investment in 4 nuclear power plants. Columbus & Southern Ohio Electric (PUCO 1982) 50 PUR4th 37.
17/ Commission allowed a 10-year amortization of the Black Fox Station Nuclear Plant abandonment costs.
18/ CWIP related to improvements and non-revenue-producing items are allowed in rate base.
19/ Portland General Electric and Pacific Power & Light. PUC Order 83-879, Case UM-13.
20/ Penna. PUC v. Duquesne Light (PA PUC 1/27/83) Docket R-821945 C001 et al. Also legislation (CG PA CSA).
21/ Northern States Power 328 NW2d 852, 1/5/83. Black Hills Power & Light (SD PUC 1981) 36 PUR4th 391. FERC determination was not controlling for amortization period for ratemaking purposes.
22/ Houston Lighting & Power (TX PUC 12/6/82) Docket No. 4540. Gulf States Utilities (TX PUC 7/13/84) Docket No. 5560.
23/ Green Mountain Power Corp. (VT PSB 12/20/82) Docket No. 4661. Central Vermont Pub. Service (VT PSC 1982) 49 PUR4th 372.
24/ Virginia Electric & Power Co. (VA SCC 1981) 44 PUR4th 46.
25/ With above-the-line AFUDC income offset in most instances. AFUDC no longer accrued as of 12/85.
26/ Wash. UTC v. Pacific Power & Light (WA UTC 2/1/83) Cases U-82-12, U-82-35.(Pebble Springs WNP-5).
27/ Per case 8373, ULH&P - Eagle Creek.
28/ Recovery permitted for prudent expenditures on plant begun before 7/31/85, per Western Mass. Electric, DPU-84-25 (1984); see also Fitchburg G&E, DPU 84-145A (1985).
29/ Central Maine Power v. Maine PUC (ME 1981) 433 A2d 331. No amortization of AFUDC. Most recent Order and Discussion Maine Public Service Co. Proposed Increase in Rates Docket No. 84-80.
30/ Indiana & Michigan Electric (MI PSC 5/12/81) Case No. U-6148; The Detroit Edison Co. (MI PSC 7/26/76) Case No. F-762.

INTRODUCTION

CONSERVATION ACTIVITIES OF THE STATE REGULATORY UTILITY COMMISSIONS

The following conservation policy survey (with corresponding Matrix Key and Footnotes) was initially prepared by the California Energy Commission, Conservation Division, in November 1977. In January 1989 the table was sent to all State regulatory agencies for corrections or additions necessary to accurately reflect the information as of December 31, 1988.

REGULATORY UTILITY COMMISSION CONSERVATION POLICY SURVEY

1. Has the Commission adopted energy conservation policies for gas and electric utility companies?
2. What State law, regulation or Commission policies have been enacted or adopted to effect energy conservation by utilities? (Check those which apply.)

Rates	Existing Program	Proposed or Test Program
Time of Use Metering	_____	_____

MATRIX KEY

a proposed or test program
b existing as well as proposed or test rates/measures
c gas utilities only
d electric utilities only
e residential sector only
f commercial/industrial sector only
g activity undertaken by only one utility company in the state
h controlled curtailable/interruptible rates
i summer/winter differential rates/services
k experimental storage rates
l demand metering
m self-generation
n radio-controlled appliances
o positive load control notification system
p air conditioning/water heater controlled by utility
q senior citizens only
r voltage reduction
s gas furnace pilot turn-off
t swimming pool tripper
u voluntary irrigation
v temperature sensitive rates
w demand ratchet
y heat storage program
z measure in use or being tested by utility without being required to Commission order or state law
aa Utility offers low interest loans to residential customers for weatherization/insulation

FOOTNOTES - TABLE 72 - AGENCY ENERGY CONSERVATION POLICY

1/ Considering the changing nature of regulatory commissions' conservation activities, the diversity of information sources, and the incompleteness of information from any one source, the purpose of this synopsis is to pool available information concerning regulatory commissions and their utility-sponsored conservation activities.

2/ The heading "Commission has Adopted Conservation Policies..." should be interpreted broadly. Commissions have indicated they adopt conservation policies through: (a) commission policy statements, (b) commission orders to implement specific conservation measures or rates by utilities and (c) commission orders to investigate the feasibility of implementing conservation rates or measures by utilities. Policies adopted by Commissions ranged from mandatory curtailment of non-essential uses of gas and electricity to adoption of specific measures such as rate reform, load management guidelines and insulation retrofit and financing program implementation.

3/ Refers to rates and conservation measures which have been enacted, adopted or proposed by State law, regulation or regulatory commission policy.

4/ Nova Scotia PUB has ordered its largest electric utility to study time-of-use, metering and other factors affecting conservation and rates. Other measures under the jurisdiction of Nova Scotia Energy Council

5/ Gas and electric utilities in Nebraska are publicly owned and not subject to regulation by PSC.

6/ Utilities are required to investigate all alternatives to constructing conventional power plants. Each utility selects programs for implementation based on the characteristics of its service area.

7/ Utah PSC is in generic hearings on time-of-use, lifeline, marginal cost pricing and flat rate structures.

8/ All utilities ordered to publish full avoided costs and authorized to pay such prices to cogenerators have done so.

9/ Loans on rebates: up to 70% of the cost of conservation measures; high efficiency gas furnaces; energy rating program to monitor total energy use; building standards pilot program; irrigation efficiency audits; rebate for installation of low pressure irrigation nozzles.

10/ Utilities must file conservation 3-year plans for Commission approval; current plans include a wide variety of programs and pilots (loans, rebates, lighting incentives, audits, etc.)

11/ Tail block rates for some gas and electric utilities are marginally cost priced.

12/ Implemented FERC rules (PURPA Sec 210) on cogeneration and small power production.

13/ In 1981 implemented PURPA regulatory policy standards (1) prohibiting master metering of electric energy consumption in all buildings constructed after 1982; and (2) upon request, an electric utility must transmit clear statement of the consumer's actual energy consumption during the previous 12 months.

14/ Cosponsor of US Department of Energy - Wind Turbine Generator Demonstration.

15/ The flat rate in this case means uniform commodity charge.

16/ Electric utilities with over 20,000 customers must file energy efficiency plans that identify and evaluate conservation and load management alternatives and present plans to implement the cost effective ones.

17/ Ruled illegal under Wyoming Law.

18/ Anchorage Municipal Light & Power has time-of-day rates for consumers whose main source of space heating is electricity and whose demand does not exceed 30 kw. These rates were not enacted in response to State law, Commission regulation or policy and were not intended to provide incentive for consumers to shift to off-peak usage; only about 70 consumers choose to use this rate schedule.

19/ Alaska does not have lifeline rates per se, but in 1984 legislation was passed to provide financial assistance up to 750 kwh/month to all customers served by participating utilities whose costs exceed 8.5/kwh.

20/ Comprehensive investigation into all areas of energy conservation to begin in 1988.

21/ Louisiana PSC has considered time-of-use metering, marginal cost pricing and inverted rate structures on case-by-case basis during electric utility rate hearings. Conservation policies such as RSC program are handled by Department of Conservation. Generic hearings held on lifeline rates and cogeneration.

22/ State law establishes minimum thermal and efficiency standards for new buildings. Commission has proposed similar standards for existing buildings converted to electric or gas heating.

23/ All electrics required to consider conservation expenses as part of least cost integrated planning process.

24/ Flat rates are approved when no cost differentials exist.

25/ (1) All regulated utilities ordered to publish full avoided costs and authorize such prices to cogenerators; (2) Free energy audits and interest-free loans to those participating in Residential Conservation Program; (3) Commission prohibits master metering, with some exceptions; (4) Load management, air conditioning, water heaters, irrigation.

26/ Rates under Sec 201/210 PURPA; (1)specific demand charges; (2)off-peak discounts; (3)residential hours use-rate.

27/ Considered and rejected.

28/ Baseline rates have replaced Lifeline in California.

29/ Under Statute 216 B.241, utilities with operating revenues of $50 million must operate at least one program which makes significant investments in energy conservation improvements. At least one utility must establish a program to investment in energy from renewable resources ie solar, wind or biomass.

30/ PSC requires selected utilities to spend at least 1/4 percent of gross annual revenues to develop cost effective conservation and load management programs and in September 1987 ordered electric utilities to file annual long range conservation and load management plans. All electric utilities required to carry out certain DSM programs.

31/ Pilot Utility Conservation Program.

32/ Incentive rates for industrial customers.

33/ Investor-owned utilities ordered to develop five-year conservation plans.

34/ BPU participating in statewide cost-benefit analysis of gas and electric utility conservation programs.

35/ Peak Load Pricing Experiments.

36/ Institutional Buildings, studies and financial assistance (ended December 1987).

37/ Financial incentives (rebates, loans, shared savings); Energy Rating Systems (rental, residential); Low-Income Weatherization Program.

38/ Commission did not respond to request for update information; this information may not be current.

SECTION P

CABLE TELEVISION

Table 73 shows the scope of state agency regulation over cable television companies, as well as agency regulation of pole attachment rates, terms and conditions.

Four agencies reported they have adopted a Uniform System of Accounts for cable television companies.

TABLE 73 - REGULATION OF CABLE TELEVISION COMPANIES

The following agencies have adopted a Uniform System of Accounts (USOA) for Cable Television Companies: Alaska PUC, NARUC USOA Connecticut PUC, NARUC USOA, with modifications; New Jersey BPU, Modified FCC Accounting System; Rhode Island PUC, NARUC USOA

FOOTNOTES - TABLE 73
REGULATION OF CABLE TELEVISION COMPANIES

1/ Pursuant to Sec 1.1414(b) of FCC Rules on Cable Television Pole Attachments, these states have certified that they regulate rates, terms and conditions for pole attachments and, in so regulating, have the authority to consider and do consider the interests of subscribers of cable television services, as well as the interests of the consumers of the utility services. Moreover, these states have certified that they have issued and made effective rules and regulations implementing their regulatory authority over pole attachments, including a specific methodology for such regulation which has been made publicly available in the state. (Certification by a State preempts the FCC from accepting pole attachment complaints under Subpart J of Part 1 of the Rules.) "State", by Sec 1.1402(q) of the Rules, means any State, Territory, or possession of the United States, the District of Columbia, or any political subdivision, agency, or instrumentality thereof.
2/ Entry regulated by cross-ownership rules limiting local broadcast or telephone company ownership.
3/ Mergers and Acquisitions regulated indirectly through control over microwave stations that are used by all major cable television system companies.
4/ During December 1978 the Lieutenant Governor in Council directed the PUB to inquire into the provision of all local non-broadcasting telecommunications services and to make recommendations respecting the regulatory framework in which these services may be offered. Report No. E 80111 issued 9/1/80. Most cable operators are licensed by the federal Canadian Radio-Television & Telecommunications Commission.
5/ Massachusetts CATV Commission has jurisdiction over CATV.
6/ Regulation is limited to construction standards as set forth in NESC for safety considerations.
7/ Minnesota Cable Commission Board.
8/ Regulated by the Cable Television Division of Department of Regulatory Agencies.
9/ New York Commission on Cable Television has jurisdiction over CATV companies. NYPSC has authority over attachments by CATV companies to utility poles and leasing of utility conduits by CATV companies.
10/ The Board fixes rates, terms and conditions of pole attachments when no contractual relationship exists between the owner of the pole and the utility which attaches its cables to the poles. The Board also fixes rates, terms and conditions when the conditions for renewal of a contractual relationship are tantamount to a refusal to continue relationship (this is subject to formal Commission approval).
11/ Two-way telecommunications, data, etc.
12/ No regulation of television services. A cable provider with telecommunications services can qualify as an Alternative Telecommunications Utility (ATU) of which there is little regulation beyond an entry filing and use of Uniform System of Accounts. An ATU providing telecommunications services that exceed 10% of the ATU's revenue is considered a public utility subject to PSC jurisdiction.
13/ Under FCC standards defining "effective competition" no system's rates are currently regulated; however the agency has the authority to regulate rates to the extent permitted by federal law.
14/ Under jurisdiction of Department of Administration, City of Indianapolis, Office of Telecommunications.
15/ Commission did not respond to request for update information; this data may not be current.

CABLE-TELCO CROSS-OWNERSHIP AND PROVISION OF SERVICES

At its 1988 Winter Meeting, the NARUC Executive Committee passed a resolution urging the Congress to repeal the provisions of the Cable Communications Policy Act of 1984 which prohibit State and local officials from regulating the rates and services of cable television systems. It also passed a resolution supporting the FCC's inquiry and investigation into the ban on cross-ownership of cable television and telephone companies. The Committee also said that if the ban is eliminated, the individual States should be allowed to determine the extent of cross-ownership.

In July 1988, the NARUC surveyed its member agencies as to cable-telco cross-ownership and cross provision of services using the following questionnaire.

1. Has a cable television operator, its affiliate or cable trade association:

   a. Sought approval of a proposal for cable delivery of voice, data or other two-way service on a private line, private network or other basis?

   b. Sought approval of regulatory status for one or all cable operators as "nondominant" or "deregulated/non-regulated" entities under State statutes or rules?

   c. Sought to maintain limits on LECs in the delivery of services or facilities competitive with those of the cable operator?

2. Are any of these proposals in operation at this time?

3. What is the regulatory status of local two-way instutitional networks (I-NETS)? Does your Agency regulate or certificate them?

4. What is your Agency's position regarding the delivery of two-way service by cable operators for data and voice?

5. What regulatory concerns do you have regarding the delivery of two-way service by cable operators?

   a. Do you have jurisdiction?

   b. What safeguards would you require for such activity?

6. What regulatory concerns do you have regarding the delivery of cable service by telephone companies?

   a. Do you have jurisdiction?

   b. What safeguards would you require for such activity?

The table on the following page was compiled from the responses of the State Agencies.

KEY LEC= same as for Local Exchange Carrier
STS= same as for Shared Tenant Services provider
CROSS-SUB= Methods to avoid cross-subsidization (ie, revenues from regulated activity should not help support unregulated activity).
ATU= Alternative Telecommunications Utility
I-NET= Institutional Network
PRIV.NET.= Private Network not offering services to third parties for compensation is not regulated by State Commission.

FOOTNOTES - TABLE 74 - CABLE-TELCO CROSS-OWNERSHIP

1/ As a condition of certification, CATV operators must provide channels for institutional users.
2/ CATV operators are not allowed to provide services normally provided by LECs.
3/ CATV operators would be restricted if their activities would have negative impact on LEC customers.
4/ Certificate of Convenience and Necessity.
5/ Mostly preempted by FCC.
6/ Subject to same regulation as competitive services offered by LECs.
7/ IntraLATA competition is currently prohibited.
8/ Joint provision of telephone, data and video transport may be the most efficient means of providing services.
9/ Kansas City Cable Partners (KCCP) provides private line-type services (Case No. TO-88-177).
10/ I-NET required by local authorities before granting exclusive franchise in a geographical area. Cable service not regulated by State Commission.
11/ Cox Cable/Connection heard before FCC and Federal Court.
12/ Bayonne Cablevision (CX81116837), 1981.
13/ The general requirements that service be safe, adequate and in the public interest.
14/ Manhattan Cable (C. 27091); US Cablevision (C. 29539) - pending.
15/ Commission encourages fair, meaningful local exchange competition.
16/ Commission discourages competition in local exchange service at this time.
17/ Warner, Jones Intercable, N.E.W. Media and American have received Alternative Telecommunications Utility status, which subjects them to minimal regulation.
18/ Commission does not regulate non-utility activities of a regulated utility.

SECTION Q
COMMUNICATIONS

Table 75A indicates the number of communications utilities operating in the state, regardless of whether they are subject to state agency jurisdiction (in so far as agency can determine); Table 75B indicates the number of communications utilities under agency jurisdiction. Table 76 reflects the Bell System intrastate rate increases from January 1, 1970 through December 31, 1988. Tables 77 and 78 concern the regulation of radio common carriers and uniform system of accounts for them. Table 79 addresses regulation of cellular communications companies.

Tables 80 through 85 provide information concerning telephone subscriber privacy, telephone directory assistance charges, dial-it information services, directory listing and telephone company provision of free or reduced rate service to its employees.

Tables 86 and 87 reflect statistics for all privately owned telephone utilities under agency jurisdiction.

Tables 88, 89, 90, 91 and 92 provide information on usage sensitive pricing for local telephone service and coin telephone rates.

Tables 93 and 94 indicate the extent of reduced telephone rates for non-profit organizations and handicapped persons. Table 95 covers state participation in low income telephone assistance programs.

Table 96 gives information on taxation of telecommunications services.

Tables 97, 98 and 99 concern accounting for telephone station connections, use of telephone directory advertising revenues in State ratemaking and telephone equipment for hearing impaired people.

Tables 100 through 105 set forth the results of a survey regarding InterLATA and IntraLATA telephone service competition.

Table 102 covers Shared Tenant Service.

KEY TO COLUMN HEADINGS LEC = Local Exchange Carrier; IXC = Interexchange Carrier; AOS/OSP = Alternative Operator Service/Operator Services Provider; COCOT/COPT = Customer Owned, Coin Operated Telephone/Customer Owned Pay Telephone; RCC = Radio Common Carrier; STS = Shared Tenant Services provider; CATV = Cable Television

Footnotes - TABLE 75A - NUMBER OF COMMUNICATIONS UTILITIES OPERATING IN THE STATE

1/ No jurisdiction over this type of service; number in operation unknown.
2/ This type of service is presently not permitted under Agency regulations or state law.
3/ This type of service is presently under investigation or the subject of litigation; its status has not yet been determined.
4/ As of April 1989, there are 858 certificated COPT providers; 44 of the certificated STS companies are for six lines or less.
5/ Does not distinguish between facilities-based and resellers of interexchange service.
6/ RCCs provide both mobile and paging services.
7/ All mobile radio and paging companines are considered RCCs; of the 10, 2 provide IMTS only, 4 provide paging only and 4 provide both.
8/ Plus five LECs that offer resale of WATS and MTS within their franchise areas.
9/ There have been 617 cellular call signs issued, including licenses and construction permits. Approximately 11,824 licenses issued and outstanding, not broken down into RCC, mobile radio or paging.

KEY TO COLUMN HEADINGS LEC = Local Exchange Carrier; IXC = Interexchange Carrier; AOS/OSP = Alternative Operator Service/Operator Services Provider; COCOT/COPT = Customer Owned, Coin Operated Telephone/Customer Owned Pay Telephone; RCC = Radio Common Carrier; STS = Shared Tenant Services provider; CATV = Cable Television

Footnotes - TABLE 75B - NUMBER OF COMMUNICATIONS UTILITIES UNDER AGENCY JURISDICTION

1/ This type of service is presently not permitted under Agency regulations or state law.
2/ This type of service is presently under investigation or the subject of litigation; its status has not yet been determined.
3/ Does not distinguish between facilities-based carriers and resellers of interexchange service; IXCs under limited, streamlined regulation, not rate of return or price.
4/ No jurisdiction exercised to date.
5/ RCCs provide both mobile and paging services.

FOOTNOTES - TABLE 76 - BELL SYSTEM INTRASTATE RATE INCREASES, JANUARY 1, 1970 TO PRESENT

1/ Remanded by Vermont Supreme Court on 11/8/77. Final order on Remand 8/27/80; appealed to Vermont Supreme Court.
2/ Denied because 1975 rate of return was above allowed. Over recovery to be used to establish "Lifeline Service". (Low Use Measured Residence Service) effective 11/27/76.
3/ 19th Judicial District Court granted an additional increase of $4.4 million over $39 million granted by Commission. State Supreme Court reversed the lower Court's decision and upheld the Commission.
4/ This proceeding was split into two phases. Phase I increase was awarded based upon "business as usual" circumstances. Phase II proceeding was established to examine the impact of divestiture. Phase II requested the amount included in the original filing above.
5/ Case dismissed because estimated data was filed as part of rate base.
6/ South Dakota PUC Staff and NWB stipulation and agreement of State Supreme Court order.

INTRODUCTION
REGULATION OF RADIO COMMON CARRIERS

The following table was prepared from answers to the following questions submitted to regulatory commissions:

1. Do you regulate any aspect of radio common carriers also known as miscellaneous common carriers or radiotelephone utilities?
2. If the answer to 1. is yes, indicate all of the aspects over which you assert jurisdiction: a. Certification of Public Convenience and Necessity; b. Tariffs; c. Rates; d. Service (conditions of service); e. Financing
3. Does your jurisdiction extend to: a. All radio common carriers?; b. Only those radio common carriers which interconnect with the public message telephone network?
4. Indicate total number of RCCs that you regulate.
5. Which of the following services, when provided by radio common carriers, do you regulate? a. Conventional two-way mobile telephone service (non-cellular)? b. Radio paging service? c. Other?
6. Is the statutory basis of your regulation over radio common carriers: a. The general statutes of the state applying to telephone, telegraph, or communications utilities? b. A statute enacted for the specific purpose of regulating radio common carriers?
7. If the answer to question 6 is b, please indicate the year in which such statute became law.
8. In what year did your Commission first assert jurisdiction over the regulation of radio common carriers?
9. Do you regulate telephone answering service?
10. Has your state taken a position that it has authority to regulate Multi-Point Distribution Service (MDS) with respect to requiring a certificate of public convenience and necessity?
11. Have any proceedings been conducted before your Commission to determine the status of unregulated entities alleged to be operating in the manner of a radio common carrier, eg, pseudo-common carrier, quasi-common carrier, entrepreneur-operated community repeaters, radio paging by a telephone answering service, etc.?
12. If the answer to 11 is yes, please indicate the number of such proceedings.
13. Are radio common carriers under your jurisdiction granted a specific service area?
14. Indicate the method of delineating the service area of radio common carriers: a. By signal contours (eg. 37 dbu); b. Other
15. In granting new certificates, do you provide for substantially exclusive service areas?
16. Do you require possession of a valid FCC license or Construction Permit prior to granting certification?
17. With respect to accounting procedures for radio common carriers do you use accounting procedures specifically designed for RCCs?
18. Do you have any state policies that would encourage or require provision of service to transient users (roamers)?
19. Do you regulate radiotelephone activity conducted by land-line telephone companies?
20. Do the same regulations pertinent to radiotelephone service apply to both RCCs and land-line telephone companies?

FOOTNOTES - TABLE 77 - REGULATION OF RADIO-COMMON CARRIERS

1/ The FCC regulates the use of all radio spectrum.
2/ Where signals cross state lines or are interconnected into the public switched telephone network and are not regulated by state or local authority, the FCC assumes jurisdiction, but generally forbears from regulations.
3/ Air-Ground Mobile Service, Rural Radio Service, Off-shore Radio Telephone Service.
4/ Three major rulemakings (Dockets 18921, 18962, 20846) and multiple informal proceedings conducted by the Commission or its staff.
5/ Services to roamers is required of cellular radio licensees.
6/ Network services only; terminal services not rate regulated.
7/ Land-Line telephone company files terminal rates for acknowledgement. RCCs not required to file.
8/ Deregulated in 1983.
9/ FCC makes public interest finding before granting authorization.
10/ Except in the case of cellular radio.
11/ FCC has jurisdiction pursuant to the general licensing authority contained in title II and title III of the Communications Act.
12/ Statute could possibly be applied. Code has not been tested.
13/ DC PSC has the authority to regulate, but does not exercise it.
14/ Commission did not respond to request for update information; this information may not be current.
15/ Contracts must be signed between land-line Telco's and RCC's and copies submitted to Board.
16/ Deregulated in 1984.
17/ All PSC regulation of RCCs was suspended in New York on July 27, 1984. Reinstatement of regulation can only occur if, after hearing, it is shown that competition is lacking.
18/ Missouri Senate Bill No. 596 deregulated mobile, paging and cellular effective 1/1/86.
19/ If FCC approval not granted prior to CPC&N, conditional on filing approval.
20/ Radiopaging (one-way) regulated when the RCC also provides 2-way service.
21/ By FCC license.
22/ Vernon's Ann. TX Statutes Art. 1446 C, Sec. 3(c)(2) removed RCCs from PUC jurisdiction 5/1/86.
23/ Deregulated July 1, 1985.
24/ Under 1985 Wisconsin Act 297 RCCs have entry notification mandate but no ongoing regulation.
25/ Only cellular has exclusive areas to the extent that only one RCC and one telephone company are initially licensed in any one area.
26/ Deregulated in 1987.
27/ R.86-02-015.
28/ Deregulated effective 7/1/86.
29/ Part 21 of FCC Rules was recently revised to require a construction authorization (conditional license, formerly CP) prior to construction. Rules also require public notices for new stations and major modifications of existing stations.

1/ Radio Common Carriers are regulated, no decision on cellular.
2/ Tariffs filed for information purposes only.
3/ Considering whether to deregulate or streamline regulation.
4/ Detariffed.
5/ Monopoly markets are regulated.
6/ Streamlined certification process.
7/ Maximum rate tariffs approved by Commission.
8/ Minimum/maximum rate tariffs approved by Commission.
9/ Flexible rate tariffs approved by Commission.
10/ All radio common carriers deregulated effective 7/1/88.
11/ Carriers file general company information only; Commission will continue to observe.
12/ Carriers register and file annual reports only.
13/ Cellular service offered by a regulated telephone company is scrutinized to ensure no cross-subsidization.

INTRODUCTION

TELEPHONE SUBSCRIBER PRIVACY

Tables 80 and 81 show the results of a survey of the status of the law regarding privacy of a telephone subscriber's conversations and billing records.

Part I deals with subscriber conversation privacy. The following words, when used in Part I, shall have the following meanings:

(a) The words "service monitoring by telephone utility" shall mean surveillance by telephone utility employees of telephone conversations between other employees of that utility and members of the public for service monitoring purposes;

(b) The words "service monitoring by other than telephone utility" shall mean surveillance, by equipment furnished by a telephone utility, by business or government employees of telephone conversations between other employees of that business or government and members of the public for service monitoring purposes, but shall not include "service monitoring by telephone utility"; and

(c) The word "wiretapping" shall mean surveillance, by electronic or other means, by law enforcement officers, telephone utility employees or others of telephone conversations between two telephone users for purposes other than service monitoring.

Part II deals with subscriber records privacy. For purposes of this part, "subscriber records" are defined as credit information, toll billing records, unlisted numbers and addresses, etc., concerning subscribers, which the telephone utility gathers and maintains in the ordinary course of business.

In regard to the state of Federal law concerning privacy in telephone subscribers' conversations, it should be noted that the Federal Omnibus Crime Control and Safe Streets Act of 1968 expressly recognizes the lawfulness of official service observing by telephone companies and business subscribers. 18 USC §§2510 (5)(a) and 2511 (2)(a),(d).

FOOTNOTES - TABLE 80 - TELEPHONE SUBSCRIBER CONVERSATION PRIVACY

1/ 47 CFR 64.501 prohibits telephone companies from recording telephone calls unless the recording is preceded by written or verbal consent by all parties to the conversation, or preceded by verbal notification which is made part of the call at the beginning of the recording, or is accompanied by a "beep tone".
2/ See Sections 630-637.2 of California Penal Code.
3/ See Idaho Code Section 18-6705
4/ See California PUC Decisions D-69447(64 CPUC 526); D-73146(67 CPUC 528), D-78442(72 CPUC 78), D.92860, D.93361, D-88232(83 CPUC 149.
5/ Under tariff provisions.
6/ Disclosure to employees, not subscribers.
7/ See California PUC Decision D-73146 (67 CPUC 552).
8/ Answers relating to a specific utility refer to Northwestern Bell which serves about 63% of subscribers in Iowa. The remaining 37% are served by independent telephone companies of Iowa.
9/ No formal program to inform, but the Commission regularly informs people in handling complaints.
10/ DC PSC: "Service monitoring is a business necessity which does not violate the subscriber's right to privacy, since his conversation is with a telephone employee concerning telephone business."
11/ No opinion established.
12/ In accordance with company operating practices.
13/ The user of service monitoring equipment must obtain approval of the PSC prior to installation and note in the directory the company's use of monitoring equipment.
14/ Telephone companies furnish service-monitoring equipment solely for the purpose of enabling a business subscriber to evaluate for quality control and employee training and development purposes the quality of service being rendered by those employees handling large volumes of routine calls to the business.
15/ Not obligated to inform public but voluntarily include statement in directory; obligation extends to employees. Sec. 61-3-24C.
16/ In accordance with rules filed with FCC.
17/ New York PSC has not yet encountered any abuses of service monitoring which would force us to intervene and establish guidelines for the conducting and evaluating of the company's quality of service.
18/ Sec. 4931.28 Ohio Rev. Code prohibits reading or copying a communication "in an unauthorized manner".
19/ Tariff content re employees: Chief Operator plugs in on student operator's board; also, repair service clerks and business office representatives are monitored from time to time.
20/ Telco must review customer use twice annually.
21/ See Virginia SCC General Regulations Tariff.
22/ 47 USC 605 prohibits a carrier from disclosing to third parties information concerning content, existence, or purport of interstate communications with certain exceptions, including under subpoena or demand of other lawful authority. Courts have not been consistent in interpreting "other lawful authority".
23/ By Attorney General and FBI Director only.
24/ Written request from Director of FBI in cases involving national security.
25/ Other Federal enforcement agencies serving valid District Court Order pursuant to Title III of the Crime Control and Safe Streets Act.
26/ Drug Enforcement Administration.
27/ Disclosure by telephone company expressly prohibited without Court consent [18 USC §2518(8)(b)].
28/ Under 18 USC 2511 2(a) a carrier is permitted to intercept wire communications when it is necessary for the protection of the rights and property of the carrier of the communications.
29/ Done to protect revenues from electronic toll fraud. It is performed only under authorization of Legal Department and offices of the Company using strict Bell System and PT&T Standards. Only illegal calls (2600 cycle) are tape recorded for a maximum of 2 minutes; there is no personal monitoring of calls.
30/ With a Court Order.
31/ See General Order No. 107A.
32/ A report is made to the appropriate law enforcement agency.
33/ The Freedom of Information Act, 5 USC 552 (80 Stat 378) would pertain to any reports on file with the FCC but excluding those protected from disclosure by exceptions to the Act or the Privacy Act of 1974 (88 Stat 1896).
34/ FBI requests must be approved in writing by the US Attorney General and involve national security.
35/ The attorney general and county attorney.
36/ Southwestern Bell will not cooperate or assist persons in wiretapping.
37/ Communications common carriers have the power to do so under Sec 86-702(2)(A), RRS 1943.
38/ Only if permitted under 18 USC 2510-2520.
39/ Unless requested by Commission.
40/ Telephone utilities conduct service observations to determine the percent call completion rate; results are forwarded to the Virginia SCC on quarterly basis.
41/ Report & Order in FCC Docket 20640 requires telephone utilities to have tariff provisions similar to 47 CFR 64.501 regarding recording by others of two-way interstate and international telephone calls.
42/ Sticker indicating employee phone is monitored is placed on all monitored phones.

33/ See Gov C 8250, et seq, Gen Order 66 C.
34/ Notification in writing.
35/ For toll billing, notification by mail within 24 hours (policy, not required by law or regulation).
36/ Notification by telephone call.
37/ Commission has adopted pending legislative review.
38/ Commission did not respond to request for update information; this data may not be current.

TELEPHONE DIRECTORY ASSISTANCE CHARGES

The following table was developed from answers to the following questions:

1. If any telephone company within your State currently has a directory assistance charge for information calls, what is the name of the company, the charge per billed call, how many free calls per month are included in the basic rate, and is there an exemption for the disabled or handicapped (D/H) within this charge system?

2. If there are exemption provisions for the disabled or handicapped within the charge system, what are the requirement procedures?

3. If there is currently a directory assistance charge for information calls in your State, please answer the following questions:

a. What was the estimated built-in charge per telephone subscriber for directory assistance services, prior to the directory assistance charge plan?

b. What percentage of your State's telephone subscribers are billed for directory assistance? Of this percentage, how many are residential users (%) and how many are commercial users (%)?

c. Has the number of directory assistance calls diminished in your State? If yes, by what percentage?

d. What is the Statewide annual savings due to directory assistance charging?

e. What is the estimated savings per subscriber in your State?

FOOTNOTES - TABLE 82 - TELEPHONE DIRECTORY ASSISTANCE CHARGES

1/ Legally blind.
2/ Exemptions incude requests from coin telephones, hotel/motel guests, hospitals, handicapped/disabled customer unable to use the directory, mobile telephones.
3/ 411 calls only. Each HNPA and FNPA DA call charged $.25.
4/ Customer notifies telephone company of disability for permanent billing record adjustment. Directory assistance requests from pay telephones, motels, hotels and hospitals are also exempt.
5/ Directory assistance charge/dial tone.
6/ Certification from social service agency or physician.
7/ Other exemptions include requests made from coin telephone and calls placed from telephones served by central office equipment of Local Exchange Carriers other than New York Telephone.
8/ Subscriber completes and signs telco-provided form attesting to handicap or illiteracy.
9/ Blind or handicapped subscribers to the extent they are unable to use directory.
10/ Charge per call is $.40-$.55 when subscriber places call to directory assistance via operator.
11/ Directory Assistance charges do not apply to the following: (1) calls placed from public and semi-public coin telephones; (2) calls from guests of hotels and motels placed over semi-public branch exchange trunks; (3) calls placed through mobile telephone service base stations: $.25 intraLATA; $.35 interLATA.
12/ Forty-four companies have D/A, including IBT; all concur with IBT.
13/ This charge has been increased to $.50 for certain companies following rate increase applications.
14/ ALLTEL Ohio, Arcadia, Central, Champaign, Cincinnati Bell, Continental, Elyria, Fayetteville, GTE, Germantown, Ohio Bell, United, Western Reserve.
15/ $.20 per call for 3-5 calls; $.25 each for 6-10 calls; $.35 each for 11-20 calls; $.50 each for 21 calls +.
16/ Business customers are allowed 3 free DA calls per month.
17/ Charges for interLATA D/A calls. Residential customers get one free call, business customers get none. Charges apply to requests for numbers which are correctly published in telephone directories.
18/ $.20 each for 25 or more calls per month; $.40 each for operator handled DA calls.
19/ Staff estimated 15% repression. Charges and plans were implemented July 1, 1985.
20/ Number of free calls was typically three for business, five for residence and up to 24 for PBX. Recently, however, they are being reduced to zero. Ohio Bell limits handicapped to 100 free calls and Cincinnati Bell permits only two numbers per directory assistance request.
21/ Number of free calls was reduced recently from three to two. Figure given here is for when DA offered three free calls. Figure not yet available for two free calls.
22/ Number of free calls is five for residence and two for business.
23/ DA revenues were used to offset revenue losses to LECs resulting from implementing access charge bill.
24/ Approved effective 10/28/85. Annual savings based upon one month's experience at $49,000.
25/ Immediately after charge was established in 1976, call volume dropped about 50%. Thereafter, call volume increased over time to about pre-charge levels. Cost savings cannot be quantified.
26/ Business customers get no free calls.
27/ In NPA; outside NPA $.50 with 2-call allowance.
28/ From 1985 to 1986, Directory Assistance calls diminished 15%.
29/ One call allowance provided an intraLATA toll call is made in the month.
30/ Commission did not respond to request for update information; this data may not be current.

DIAL-IT OR 976 INFORMATION SERVICE

These services are known by many different names: Audiotex programming, 976, Dial-it, 900, Group Bridging Service (GBS), for conference (or live discussion) lines, interactive service, information access service (IAS), Sponsored Program Services and more. For the purposes of this survey, we will refer to all such services generically as "976", regardless of the local name.

Based on the technology used, there are basically three types of service: the first, which is frequently called Information access service, has been in use for some time and should be familiar - Dial-a-Prayer and Dial-a-Joke are two examples. This service allows a caller to listen to prerecorded information for a fee. Interactive service allows a caller to use the touch-tone key pad to respond to recorded requests for preference or to receive further specialized information - this is sometimes used for shopping by telephone. The third, and newest, service is Group Bridging Service, or live-conferencing, which allows a caller to join in an ongoing conversation with others who have dialed the same number.

The following survey was originally distributed in December 1987 to a total of 60 regulatory agencies: 50 states, the District of Columbia, Puerto Rico, the Virgin Islands and 7 Canadian agencies with jurisdiction over telephone service.

The complete survey is reproduced below. The results of the survey were compiled into a table for ease of comparison. Information contained in the table was updated by state agencies to December 1988, in the course of updating the entire Annual Report.

NARUC SURVEY RE: PAY-PER-CALL TELEPHONE SERVICE

Recently, Dial-It, Pay-per-Call or "976" services have proliferated throughout the US. Such services offer various kinds of prerecorded information or interactive discussion for a flat charge ranging from $.50 to $9.95, or a minutes-of-use charge, plus any other telephone company charges. Access to such services is typically gained by dialing prefix 976, which has been set aside nationwide for such services.

1. Are such services permitted or prohibited by state law? No determination yet.

2. Are such services under agency jurisdiction (for example, under telco tariff)?

3. If not under jurisdiction: Is it under consideration? Anticipated date of decision?
Is jurisdiction prohibited by statute?

4. Approximate number of companies offering the following types of "976" services in your state (whether offered by telephone utility or other source):

a. Information (sports scores, news, etc.)
b. Conference/Open Discussion ("Gab Line", "Chat")
c. Entertainment (jokes, stories)
d. "Adult" Entertainment (Dial-a-Porn)

5. Please check all of the following statements that are true of such services in your state:

a. Customer can choose to block (all or certain ones)? What is the charge for blocking? b. one-time? or c. recurring? d. There is an open enrollment period, during which time a customer can choose to block such calls at no charge, after which time there is a charge (what time period?) e. Telephone utility must periodically notify customer of availability of such service and its potential for abuse

f. Advertising for such service must clearly state: Associated charges? Content of message or discussion ?

g. Telephone utility will "forgive" charges associated with services if customer disputes the billing? With what limitations?

h. Telephone utility is responsible for collecting "976" charges from its customers?

i. Telephone utility can disconnect customer for non-payment of "976" charges if regular telephone service charges are current?

FOOTNOTES - TABLE 83 - PAY-PER-CALL INFORMATION SERVICES

1/ Bell Canada announced it was discontinuing 976 service 2/13/89, stating "it was no longer economically viable."
2/ Message content would be subject to Connecticut obscenity laws.
3/ Customer-disputed charges are removed from customer's local exchange bill and returned to message provider for collection.
4/ Commission is currently investigating live-conferencing.
5/ Adult messages are not permitted under existing tariff.
6/ United charges $5.00; Southern Bell and GTE charge $10.00.
7/ Telco is not required to notify customers, however, they do occasional promotions at their own discretion.
8/ Telco is not required to forgive disputed charges, but their policy is to do so for first-time denials or disputed calls.
9/ No blocking at present; Commission believes the more effective way to handle problems is to require separate billing by provider instead of telco.
10/ Southwestern Bell's proposed 976 tariff was denied in December 1986. "There is no demonstrated demand or need for this service ... the potential problems outweigh the potential benefits."
11/ Cincinnati Bell, GTE and South Central Bell provide 976 network access to message providers in Kentucky; Cincinnati Bell intends to discontinue the offering.
12/ South Central Bell's customers can block 976 calls, but not GTE's. Cincinnati Bell's business and institutional customers can choose to block.
13/ South Central Bell: $2.00 residential and $3.75 business, per month.
14/ Commission investigates and determines on an individual basis.
15/ No local telco has a tariff in place at present. Nevada Bell had one approved and was working on blocking, but asked to withdraw the tariff, due to lower than expected revenues and higher than expected complaints and litigation involvement.
16/ Only in the case of billing errors.
17/ Cincinnati Bell filed to discontinue its 976 service.
18/ All local exchange carriers offering transmission of 976-type service must also offer free blocking.
19/ If customer attests to ignorance of 976 charges, or can show that a minor (under 18) made calls to a 976 number without consent, a one-time credit of disputed charges which occur during a billing period will be granted per customer per account.
20/ Telco subtracts uncollectible bills from amounts owed to message provider, so message provider loses revenue, not telco.
21/ State Tieline (a state agency referral service) charge of one dollar is split with the State.
22/ South Central Bell tariff to provide free blocking of 900/976 calls from schools was approved effective October 15, 1987.
23/ Utah PSC, in case #87-049-01, declared that "The costs of blocking for 976 calls, both the one-time and recurring costs, should be borne by the providers of the 976 service."
24/ Commission order banning live-voice arrangements and implementing the blocking of all access to 976 until a customer specifically requested access, has been suspended pending complaint by an information provider.
25/ Commission's order making 976 accessible only through presubscription was struck down by the State Supreme Court.
26/ No local 976 service, but customers can access US services. In a January 1988 brochure, telco customers were cautioned about these services and informed that they are responsible for any long distance charges incurred.
27/ Liberal payment schedule can be arranged.
28/ Standard service order charge.
29/ No charge for first request for blocking; standard service order charge for customers requesting reinstatement of blocking after first ordering it removed.
30/ Telco is not prohibited from disconnecting local service for non-payment of 976 charges, but has not done so.

AGENCY REGULATION OF TELEPHONE DIRECTORY LISTINGS

The following table regarding Agency Regulation of Telephone Directory Listings was originally compiled from answers to the questionnaire reproduced below. Column headers refer to these numbered questions.

Does Your Agency:

-1- Regulate yellow pages contents (maps, public info., etc.)?
-2- Regulate yellow pages advertising rates?
-3- Regulate yellow pages advertising contents?
-4- Regulate white pages contents (maps, public info., etc.)?
-5- Regulate white pages listing charges?
-6- Require white pages charges be based on cost of services?
-7- Range of charges for additional listing in white pages.
-8- Do any companies in state provide additional listings at no charge?
-9- Do any companies provide free listings of additional persons with the same last name and address as residential subscriber?
-10- If any companies charge for additional listings of persons of the same last name and address, what is the charge?
-11- Has any person filed a complaint in the last two years alleging sex discrimination Re: directory listing practices?
-12- Has any person filed a complaint in the last two years alleging discrimination on any other grounds Re: directory listing practices?
-13- What % of directory assistance calls originating in state are local or intrastate?
-14- What is the range of monthly charges assessed for listing persons who are not within the locality covered by a directory?

FOOTNOTES - TABLE 64 - AGENCY REGULATION OF TELEPHONE DIRECTORY LISTING

1/ Limitation of liability rate adjustment is currently subject of adjustment.
2/ If subscriber is located in an exchange border area or requests a foreign listing for better identification to facilitate the completion of calls.
3/ PT&T and GTE which account for 96% of service, plus some independents, allow two names in one listing. Other small independents may charge about $.25-.40 for such additional listings.
4/ Uses value of service method.
5/ Yes if deficiency results in complaint.
6/ Twenty-five cents to $1.30 per month or $6.60 to $12.20 annual charge or $8.00 one time charge.
7/ Cost plus contribution to overall revenues based on value of service.
8/ Non-recurring charges.
9/ Charge applies if an additional listing is used to provide the requested service.
10/ Telephone rules tell what exchanges must be listed.
11/ Dual name listings as primary listing–no charge with initial order. C&P, Contel, Centel, United inter-Mountain cover 95% of subscribers and charge a non-recurring fee for subsequent listing change to dual name listing.
12/ Only when second listing appears on the same line(s).
13/ Commission did not respond to request for update information; this data may not be current.
14/ Commission has authority but does not exercise it.

TELEPHONE COMPANY PROVISION OF FREE OR REDUCED RATE SERVICE TO ITS EMPLOYEES

The following table seeks to reflect regulatory or industry rules or policies governing telephone companies providing free or reduced rate telephone service to their employees, and was originally compiled from answers to the following questions.

1. Length of service, e.g. after five years or ten years continuous service. Is it granted from half-rate to full rate after a certain number of years?

2. Is free or reduced rate service granted to employees, essentially craftsmen, who are on call nights, Sundays, or on statutory holidays? If so, is it at half-rate or full rate?

3. Is free or reduced rate service granted to management personnel increasing with management levels attained in a telephone company?

4. Is free or reduced rate service, if granted, limited to basic service or does it include other items not considered basic service?

5. Do any telephone companies grant free or reduced rate toll service to their employees -- to what amount or extent in a month, and under what circumstances?

6. Is free or reduced rate service, where granted to employees, continued when an employee retires and if so, for how long?

7. Do companies granting free or reduced rate service assess service connections?

8. Do any companies go beyond granting basic telephone services, e.g. special services or other nonbasic items?

FOOTNOTES - TABLE 85 - TELEPHONE COMPANY PROVISION OF FREE OR REDUCED RATE SERVICE TO EMPLOYEES

1/ Although Commission has not officially prohibited telephone utilities from providing free service to employees as a fringe benefit, it has formally expressed its disapproval. It has permitted free local service to telephone employees who must be on call during off duty hours. Requests to provide free telephone services other than local exchange have never been brought before the Commission.
2/ Commission has no rules or policies about employee concessions, however, each company's policy has been reviewed. Since operating companies use employee concessions as a bargaining issue in labor contract negotiations, Commission's view has been to allow reasonable latitude.
3/ Employee pays 50% of rate for all toll calls made to points served by New England Telephone.
4/ Monthly toll allowance increases with management grade.
5/ State law permits telephone companies to grant free or reduced rate to their employees or employees of other telephone, telegraph and railroad companies (RCW 80.36.130), with no limits or restrictions. Since this is a statutory exemption from general anti-rebate provisions, companies are not required to file this information with their tariffs.
6/ Virtually all telephone companies provide "concession rates" of one form or another to their employees.
7/ $90 per quarter; only those retired prior to 1/1/84 are allowed interLATA, all others intraLATA only.
8/ AT&T residing in New England Telephone territory.
9/ AT&T and New England Telephone Directors residing in New England Telephone territory.
10/ Most concessions are to on-call employees.
11/ One company only.
12/ WV Code Sec. 24-3-4 provides that telephone companies may grant free or reduced rate service to their employees. Final order in Case 80-182 did not allow costs of or associated with concession service to be passed on to rate payers. C&P has petitioned Commission for reconsideration.
13/ Rate reduction is permitted by Section 476 of the Iowa Code.
14/ M(A),M(B) - A & B are position grade levels in Co. and receive different employee benefits.
15/ General Telephone, Cincinnati Bell, Continental Telephone, So. Central Rural Co-op, West Kentucky Rural Co-op, Brandenburg Telephone, Foothills Rural Cooperative and South Central Bell.
16/ Commission did not respond to request for update information; this data may not be current.

INTRODUCTION
USAGE SENSITIVE PRICING FOR LOCAL TELEPHONE SERVICE

The following table was compiled from State commission responses to a questionnaire regarding usage sensitive pricing for local telephone service (local measured service).

The questionnaire developed to obtain the information contained in the table is reproduced below. The number at the head of each column of the table indicates the number of the question in the questionnaire.

Additional data concerning consumer response, description of usage sensitive pricing and the results of studies follows the table.

Usage Sensitive Pricing for Local Telephone Service

1. Has your Commission instituted any form of usage sensitive pricing for local telephone service, ie measured service pricing? (Yes / No) If yes, please describe.
2. Is such measured service on an optional or non-optional basis?
3. Please describe the billing formula used for local measured telephone service, eg rate bills are based upon: number of calls; length of calls; time of day; day of the week; and/or distance.
4. Has measured service been instituted on an experimental basis? (Yes / No).
5. Have any studies been instituted regarding measured service? (Yes/No). If yes, what were the results?
6. Were duplicate bills provided to customers to allow comparison of rates under a flat-rate structure and a measured-rate structure? (Yes/No).
7. Did the impetus for measured service come from within the Commission itself, or from consumers, from telephone companies, or from others?
8. Has there been any change in overall quality of service caused by measured service? (Yes/No). If yes, please describe.
9. If measured service has been instituted on any basis, what has been the consumer response?

FOOTNOTES - TABLE 88 - LOCAL MEASURED SERVICE (LMS)

1/ Available in all exchanges with electronic offices and most large WB exchanges (27 out of 145 towns).
2/ No time-of-day or day-of-week restrictions; rates based on number of customers in local calling area: Group A (0-40,000), Group B (40,001-115,000). See also New Jersey Description of pricing.
3/ In certain exchanges.
4/ Various call allowances under flat rate element, with additional local call charges per call.
5/ Offered in eight of the State's 20 companies.
6/ Available to all exchanges and rate classes.
7/ Central Telephone and Continental Telephone gave duplicate bills for several months for comparison.
8/ Latest study ended April 1986.
9/ Mandatory for business customers of NYT and RTC; optional for residential customers, except for NYC Metropolitan area.
10/ Customer has six months to switch back to Flat Rate at no charge.
11/ Kentucky currently has approved optional local measured service, but it is under moratorium pending outcome of a cost/benefit analysis.
12/ GTE provided 6 months of comparison bills prior to implementing mandatory LMS.
13/ IBT tested measured service for one year beginning 7/1/87; measured rate now in full use.
14/ Message rate optional to residential customers of GTE and business customers of Southern Bell. Several SB pilots discontinued (except for existing customers). GTE did a study using duplicate billing.
15/ Commission did not respond to request for update information; this data may not be current.

TABLE 89 - DESCRIPTION OF LOCAL MEASURED SERVICE PRICING

ARIZONA: Residential rate: $6.00 per month, plus $.08 per each 3-minute call-out within 25-mile radius. Business rate: $16.00 per month, plus $.08 per each 3-minute call-out within 25 mile radius. Both rates vary according to distance, length of call and time-of-day discounts.
ARKANSAS PSC: Optional LMS for SWB exchanges capable of LMS. 55% of single party flat rate, 2 mileage bands, TOD discount; also lifeline measured service.
CALIFORNIA PUC: Provided in metropolitan areas only, with minor exceptions.
COLORADO PUC: Three-element residential and business service available.
CONNECTICUT DPUC: Measured Service rate if requested by residential customers; mandatory for business customers.
DC PSC: Commercial customers charged $.067 per local call; residential customers are charged $.067 per local call above call allowance.
FLORIDA PSC: General Telephone has measured service option available in several electronic central offices. Rate is approximately 60% of flat rate and includes 30 messages with additional messages billed at $.10 each. Southern Bell offers MRS and USP service on optional basis. MRS available only to business subscribers and allows 75 messages with charge of $.10 for each additional message. Available in all rate groups with rate of approximately 60% of applicable B-1 rate. USP available to business and residence in experimental plans. Various plans available but generally incorporate some credit for MUs. Additional MUs are charged based upon distance and duration. Discounts available based upon time of day. Experimental offerings available in Miami, Jupiter, Delray Beach, Pembroke Pines and Orange Park.
GEORGIA PSC: Test program available in Gainesville area.
IDAHO: Number, length of calls, time of day, plus weekend/weekday and inter/intra wire center distinctions.
INDIANA URC: Message Rate based on 30 calls out and $.21 each for overcalls; incoming unlimited, on private party service only.
KENTUCKY PSC: Optional measured service is under moratorium pending cost/benefit study. Mandatory LMS research is being conducted in four exchanges scattered throughout the state.
LOUISIANA: Duration of calls and time of day, day of week and distance, $5.00 monthly local usage allowance for residence, $7.50 monthly local usage allowance for business.
MAINE PUC: Two optional plans available based on length of calls and time of day. Plans differ by (1) definition of peak vs. off-peak hours; (2) basic rates for each option; and (3) usage charge for peak and off-peak calls. A third option allows unlimited calling at flat rate of approximately 35% above flat rate charged in exchanges without measurement capability. To institute usage-sensitive pricing exchange must be equipped with electronic switches. This pricing currently in use only in selected NET Exchanges and is being phased in to eventually include all NET Exchanges in the State.
MARYLAND PSC: Optional measured service subject to $.034 first minute or fraction thereof and $.013 each additional minute or fraction. In addition, basic monthly dial tone line charge of $5.58 residential, $10.88 business, for Rate Group A; $5.58 residential, $13.28 business for Rate Group B. Limited usage packages are also available.
MASSACHUSETTS: Optional one-party residence measured service available in majority of exchanges at monthly rate of $3.01 which includes 30 message units. Additional message units $.0898 each. One party business measured service also optional in majority of exchanges with monthly rates ranging from $11.25 with 60 message units to $13.34 with 75 message units. One-party business measured service becomes mandatory in exchanges with toll free primary calling areas with more than 150,001 total main exchange lines. Monthly rate ranges from $15.47 with 90 message units, to $18.62 with 105 message units. Additional message units at $.1109 each.
MICHIGAN PSC: Some business non-optional; residence optional based on number of calls but untimed.
MINNESOTA PUC: Two-party measured residence (frequency only), one-party measured business (frequency only), in Minneapolis, St. Paul and Duluth. One-party residence and one-party business limited to some ESS offices.
MISSISSIPPI PSC: Two residential services in place: low usage and standard at monthly cost of 55% and 67% respectively. Low usage includes $3.00 allowance for local calls; standard includes $6.50 allowance. Charges based on initial minute plus additional minutes, distance (Bands A and B). Evening and weekend discounts apply. **Note:** Low usage measured service not available to new customers after 4/1/84. Grandfathered for those with service prior to 4/1/84. Business measured service is 67% of flat rate with $7.50 call allowance.
MISSOURI PSC: Measured service offered by SW Bell and United in selected exchanges where facilities permit (optional).
MONTANA PSC: Four-element Measured service in three exchanges, optional for business and residences; Message service (charge per call) available to business customers.
NEVADA: Optional five-element measured service available.
NEW HAMPSHIRE PUC: Low use measured residential service tariff approved 12/1/79 for all NET exchanges. Some telcos have flat rate for quantity of message units (5 minutes) with fee for overtime. Most areas have (or soon will have) four-element measured service - time of day, distance, length of call and number of calls.
NEW JERSEY BPU: Business Individual Service: service charge includes 75 local message units (5 minutes each), additional message units, $.065. Low Usage Message Rate Residence Individual Service charge includes 20 message units, additional message units, $.10.
NEW YORK PSC: Mandatory Timed Message Rate Service for Business; Optional Timed or Untimed Message Rate Service for Residence. Service mandatory for business customers of NYT. Timed Service and Untimed Charges recognize time-of-day, day of week, number of calls and, beyond the primary calling area, length and distance. Timed Service further

TABLE 89 - DESCRIPTION OF LOCAL MEASURED SERVICE PRICING (Continued)

recognizes length of calls in primary calling area.

NORTH CAROLINA UC: Optional measured service pricing for several exchanges in Southern Bell service area and Carolina area. Available to residential and business at reduced flat rate with usage allowance and charge for usage above predetermined number of calls or minutes.

NORTH DAKOTA PSC: Usage sensitive pricing service instituted for residential only in electronic central offices. Rate in all exchanges is $9.54. No call allowance as call is charged on a schedule of either Local Exchange or Extended Area Service, the former is $.05 first minute and $.01 each additional minute, the latter is $.10 first minute and $.02 each additional minute. Normal toll discounts apply to all calls; 150% of local exchange rate cap on total charges.

OHIO PUC: May 6, 1981, Commission ordered measured rate service for Ohio Bell to be effective 1/31/82, with 0-10 mileage at $.04/initial minute, $.01 additional minute, 11-22 mileage at $.045/initial and $.015 additional minute, 23 miles over $.05/minute and $.02/additional minute. Current access line charges are $6.70 for residential, $20.00 for non-rotary business service and $23.70 for business rotary and trunk (per access line). Business customers may choose between message and measured service. Residential customers can choose among flat rate, message or measured service. Cincinnati Bell has measured rates with banded access line charges ranging from $7.70 to $10.75 for residential access, $28.12 to $32.23 for business non-rotary access and $36.09 to $39.59 for business rotary and trunk access, coupled with 0-12 mileage at $.06/initial minute, $.02/additional minute; 13-26 mileage at $.08/initial minute, $.04/additional minute; and 27 miles and over at $.12/initial minute, $.05/additional minute. Business customers can choose among flat rate, message or measured service. Residential customers can choose among flat rate or measured service. GTE North offers optional measured service to about 60% of its subscribers. Currently, banded access charges range from $7.82 to $10.54 for residential access, $15.64 to $24.09 for business single-line access, $23.45 to $30.16 for business key access, and $31.27 to $49.08 for business PBX access. Usage rates for calls in the 0-10 mileage band are $.02/first minute and $.01/additional minutes; 11-22 mileage band, $.05/first minute, and $.03/additional minutes; 23+ mileage band, $.08/first minute, $.04/additional minutes. All companies have 50% off-peak discounts for measured service usage rates.

OKLAHOMA CC: SWB Low Use Service Plan includes $7.00 flat rate with 15 call allowance. Each additional call $.25. Available for residential use only. GTE - SW plan measures time of day, length of call and distance of call.

OREGON PUC: Optional for residential and business; those who choose it, like it.

RHODE ISLAND PUC: Measured service pricing for residential customers.

SOUTH CAROLINA PSC: Optional point-to-point EAS on a measured basis.

SOUTH DAKOTA PUC: Residence Measured Service - $8.00 per month includes $2.50 usage allowance. Usage charges are: Intraexchange EAS - $.05 first minute, $.01 each additional; 0-22 miles - $.07 first minute, $.02 each additional; 23-30 miles - $.09 first minute, $.025 each additional; 31-40 miles - $.11 first minute, $.03 each additional; 41-55 miles - $.13 first minute, $.035 each additional. Usage charges exceeding $20.00 per line will be discounted 30%. Local Discount Time Periods - 9:00 PM to 9:00 AM Evening, Night and Weekend -50% discount. Measured Business Service - $25.00 per month includes $5.00 allowance for usage. Usage charges, discount and discount time periods are the same as for residence.

TENNESSEE PSC: Usage sensitive pricing instituted where equipment is available.

TEXAS PUC: Southwestern Bell instituted message rate one-party service where proper equipment is available. Other companies have four-element measured service.

UTAH PSC: Business service messages at $.10 each; residential service allows 25 messages/month, additional messages $.10 each.

VIRGINIA SCC: Non-optional message rate service for business in Northern Virginia (DC Metropolitan area); optional for remainder of State. Optional measured service: number of calls, length and time of day.

WASHINGTON: Residence individual measured service recognizes number and length of calls, with discount between 8:00 pm and 8:00 am weekdays, and all day Saturday, Sunday and holidays. Residence two-party measured service - number of calls.

WEST VIRGINIA PSC: C&P Telephone offers measured service where central offices have that capability. Message service is offered elsewhere. Usage charges are stated at peak rates from 9 am to 9 pm. All other usage is discounted 70%. Business Rate for individual and PBX Trunk is $20 Base Rate plus usage. Residential rates include four options - number of calls, length, time of day and distance.

WISCONSIN PSC: Measured residence and business local services authorized for Wisconsin Telephone. These are "flat rate call allowance" type, with additional local message charges applicable. Business services are on measured basis only.

ONTARIO TSC: Budget rate is $3.05 per month, distance sensitive charges per minute. Rates from $.04 to $.055 first minute, $.01 to $.025 each additional minute.

TABLE 90 - CONSUMER RESPONSE TO LOCAL MEASURED SERVICE
QUESTION 9

ALABAMA PSC	Favorable.
ARIZONA CC	Customer response very negative in 1980, however, no more recent surveys.
ARKANSAS PSC	Growing response to optional offering.
CALIFORNIA PUC	Twenty-three percent of residence customers subscribe to measured service.
COLORADO PUC	Limited response, approximately 0.7%.
CONNECTICUT DPUC	Subscribers to optional measured service have been increasing steadily.
DELAWARE PSC	Fair.
GEORGIA PSC	Extremely limited response to experimental pilot.
IDAHO PUC	Mixed reactions from LMS customers, but only about 6% of residential and 4% of busines lines are LMS (Mountain Bell statistics).
ILLINOIS CC	About a 60-40 difference in opinion regarding measured service; 60% had monthly savings.
INDIANA URC	Message Rate - Elderly and poor have not responded as expected.
IOWA SUB	At expected savings for 66% of residential customers, only approximately 21% elect LMS.
KANSAS SCC	A completed study indicated about 10% acceptance in areas offered.
KENTUCKY PSC	Consumer response was negative to mandatory LMS.
LOUISIANA PSC	Available since 4/4/81 in selected exchanges; 7% residential and 4.5% business service.
MAINE PUC	A group opposed to LMS gathered enough signatures to force a referendum question to be placed on November 1986 ballot; LMS was abolished.
MARYLAND PSC	Approximately one-half of one percent of eligible customers have opted for local measured service.
MASSACHUSETTS DPU	About 5% of the total one-party residential lines where offered.
MICHIGAN PSC	Favorable.
MINNESOTA PUC	Average customer acceptance.
MONTANA PSC	Very small.
NEBRASKA PSC	Favorable.
NEVADA PSC	Favorable.
NEW HAMPSHIRE PUC	About 18.8% acceptance in areas offered.
NEW MEXICO SCC	Buy-up is approximately 25% residential and 19% business, where available.
NEW YORK PSC	Measured service has been offered for years and now considered normal by most customers.
NORTH CAROLINA UC	After several years, demand remains relatively low with penetration of less than 6% where the plan was available.
NORTH DAKOTA PSC	Sign-up rate is low.
OHIO PUC	Only 0.25% of Ohio Bell residential customers have measured rates.
OKLAHOMA CC	Unknown at present time.
OREGON PUC	One-party residential: about 5% where offered. Two-party (lifeline): 12.9% where offered. Consumer utility board successfully pushed for a law which prohibits non-optional measured service.
PENNSYLVANIA PUC	Nominal acceptance with flat rate service available at only slightly higher rates.
RHODE ISLAND PUC	Favorable only to subscribers who save money from the higher monthly flat rate service.
SOUTH CAROLINA PSC	Limited response; not available in all areas.
TEXAS PUC	Customer take-rates have been low, political opposition high. A moratorium on residential measured service is currently in place.
UTAH PSC	In 1979 response was favorable for small selected segment of Salt Lake City. Overall unfavorable sentiment has grown since then, especially in rural areas.
VERMONT PSB	Favorable.
VIRGINIA SCC	Consumers were generally opposed to timed message rate service as proposed by C&P Telephone. Legislature reacted as follows: **"Sec 56-241.1. Certain types of telephone rates not to be approved.** The Commission shall not approve any mandatory tariff for local service of any telephone company based on the number of calls, length of call, distance or time of day, not in effect on January 1, 1979. Nothing contained herein shall prohibit the Commission from approving the voluntary tariff of any telephone company based on the number of calls, length of call, distance or time of day. (1979,c.91; 1985,c.389)"
WASHINGTON UTC	Few customers subscribe to service.
WEST VIRGINIA PSC	Positive.
WISCONSIN PSC	Positive response when on optional basis; some negative reaction with non-optional measured service.

TABLE 91 - RESULTS OF STUDIES OF LOCAL MEASURED SERVICE

ALABAMA PSC	Those who have selected the option of local measured service have lower bills.
DELAWARE PSC	Study performed by utility; not released.
FLORIDA PSC	Traffic studies indicated wide disparity in amount of calling between customers for General Telephone and Southern Bell offerings.
ILLINOIS CC	About a 50-50 difference in opinion regarding measured service.
KENTUCKY PSC	The Commission has established Administrative Case 285 to investigate the feasibility of LMS rate structure. Results are expected in 1988.
MINNESOTA PSC	Study of usage, cost and demographic factors conducted by Northwestern Bell.
MISSISSIPPI PSC	Results favorable; will institute service within two years.
NEW HAMPSHIRE	Studies now complete; implementation deferred until conclusion of cost of service Docket DE85-182.
OHIO PUC	For Ohio Bell measured rates, a sample of revenues from measured service calls indicated that effective cost per average measured call was $.044356, or 4.4356 cents. Day usage represented 72.76% and off-peak usage brought 27.24% of revenues. Average cost of a measured call during peak hours was 5.1344 cents; for off-peak hours (with 50% discount), average cost of a measured call was 2.5691 cents.
NEW YORK PSC	Tracking Studies indicate that customers' bills are lower under a usage sensitive rate structure than under a flat rate system.
VERMONT PSB	Results from study conducted by New England Telephone (NET) in Burlington completed and subsequent Board Order on measured service awaiting action by NET.
WEST VIRGINIA PSC	Four point local measured service being introduced in C&P Telephone's stored program control offices. In addition to providing four point measurement to points presently in a customer's local calling area, it adds for LMS customers additional extended area communities where calling levels are significant. LMS has been used in West Virginia to equalize the vastly disproportionate amounts of extended area service in the state.

FOOTNOTES - TABLE 92 - COIN TELEPHONE RATES

1/ Coin telephones have been deregulated in Iowa (rates range from .10 to .50)
2/ Ten cents at nursing homes, public elementary and secondary schools, city, county and state hospitals, Veterans Administration Hospital and government owned low-income housing projects.
3/ Ten cents first five minutes.
4/ Only on dial-tone-first coin-phones; ten cents on other coin phones.
5/ Twenty-six companies have ten cent rate; 13 companies have 25 cent rate.
6/ Commission did not respond to request for update information; this data may not be current.
7/ Twenty-five cents for Texarkana, AR, due to jurisdictional reciprocity with Texas PUC.
8/ May be flexibly priced below tariffed rate.
9/ Privately owned coin telephones permitted effective 12/1/86 with untariffed rates.
10/ Ten cents at schools and nursing homes.

1/ A number of non-rate regulated telephone utilities offer service to some organizations at rates which may not be compensatory. Residential rather than business rates are applied in many cases.
2/ Commission does not allow charitable or concession rates as an above-the-line expense.
3/ The Commission discontinued preferential rates to religious and charitable organizations in 1976 rate case.
4/ Preferential rates discontinued. Case law holds that carriers may offer voluntary concessions but Commission may not order them to do so.
5/ Only one company offers this rate.
6/ Two major companies offer this service.
7/ Commission did not respond to request for update information; this data may not be current.

TABLE 94 - REDUCED TELEPHONE RATES FOR HANDICAPPED CUSTOMERS

AGENCY	DISC.?	DISCOUNTS AND/OR COMMENTS
ALABAMA PSC	YES	No Directory Assistance charge for those unable to use directory.
ALASKA PUC	NO	----------
ARIZONA PSC	YES	35% on direct-dial intraLATA toll calls from TTY or certified deaf person; no DA charge.
ARKANSAS PSC	YES	For certain telephone services only.
CALIFORNIA PUC	YES	50% discount for certified disabled who need special equipment to use telephone. Deaf/severely hearing impaired given telecommunications device free; no DA charge if unable to use directory.
COLORADO PUC	YES	Mountain Bell has a special rate for hearing impaired.
CONNECTICUT DPU	YES	Billed time reduced to 1/4 actual time.
DELAWARE PSC	YES	Reduced rate for special equipment; No directory assistance charge.
DC PSC	YES	No directory assistance charges; written affirmation of handicap to telephone company.
FLORIDA PSC	YES	Reduced rate for special equipment; No DA charge to visually impaired; discount for toll charges to handicapped using TDD; free unlisted number to TDD user; free additional entry for TDD user; Legislation mandating free hearing impaired equipment distribution.
GEORGIA PSC	YES	No directory assistance charge for handicapped persons.
HAWAII PUC	YES	No directory assistance charge for those unable to use directory.
IDAHO PSC	YES	Hearing impairment - toll discounts.
ILLINOIS CC	YES	Hearing impaired.
INDIANA URC	YES	Handicapped person may apply for exemption from Directory Assistance charges.
IOWA SUB	YES	No directory assistance charge for those unable to use directory.
KANSAS SCC	YES	Free TDD directory listing. For registered users-no DA charge, no charge for local operator assistance; TDD users placing operator-assisted toll calls pay direct dial charge. With physician certification 35% discount on intraLATA toll weekdays, 60% discount all other times.
KENTUCKY PSC	YES	35% discount on intrastate toll during week; 60% discount on weeknights, Saturday and Sunday for qualified deaf persons. Handicapped may apply for exemptions from directory assistance charging.
LOUISIANA PSC	YES	Hearing or speech impaired customers and associated qualified agencies given reduced rates for DDD calls made during the day at DDD evening rates. DDD evening calls rated at DDD night rates.
MAINE PUC	YES	Two-thirds discount toll rates for speech and hearing impaired.
MARYLAND PSC	YES	No DA charge; reduced long distance rate for speech/hearing-impaired using non-voice equipment.
MASSACHUSETTS	YES	Toll rates reduced 35% during the day, 60% during the evening and 70% nights and weekends.
MICHIGAN PSC	YES	System 100 communicator; teletype service for the deaf.
MINNESOTA PUC	YES	Handicapped may apply for exemption from DA charges. Interest-free loans provided for TDD purchase. Toll rates reduced 35% weekdays, 60% evenings & weekends, 75% nights. Program (Telecommunications Access for Communication Impaired Persons) (TACIP) loans special equipment free of charge and arranges special message relay service between TDD users and non-TDD users. Income guidelines.
MISSISSIPPI PSC	YES	No DA charge for handicapped person unable to use directory. No charge for operator-assisted local call. Reduced long distance rates for speech/hearing-impaired using non-voice equipment. Day calls billed at evening rates; evening calls billed at night rates.
MISSOURI PSC	YES	SW Bell, AT&T - 35% reduction in DDD toll charge for certified speech/hearing-impaired/handicapped
MONTANA PSC	YES	No directory assistance charge for those unable to use directory.
NEBRASKA PSC	YES	No DA charge for those unable to use directory; 35% day, 60% eve., 75% night, sta-to-sta discount.
NEVADA PSC	YES	Physically impaired exempt from Directory Assistance charges.
NEW HAMPSHIRE	NO	Equipment for handicapped deregulated.
NEW JERSEY BPU	YES	25% discount for hearing impaired on intrastate toll and residence message usage when using TTY.
NEW MEXICO SCC	YES	Mountain Bell has special rates for hearing impaired.
NEW YORK PSC	YES	Special credit card for handicapped for free operator assistance. 50% discount on intrastate toll and special equipment (e.g. TTY). Handicapped certified.
NORTH CAROLINA	YES	Discounted toll service for deaf and properly certified hearing or speech impaired persons.
NORTH DAKOTA	YES	No directory assistance charge for those unable to use directory.
OHIO PUC	YES	No directory assistance charge for those unable to use directory.
OKLAHOMA CC	YES	Discount for TTD usage.
OREGON PUC	YES	Teletype use: Day calls billed at evening rate; evening and weekend calls billed at night rates.
PENNSYLVANIA	YES	25% discount for hard-of-hearing.
RHODE ISLAND	YES	Discount for TTD usage.
SOUTH CAROLINA	YES	35% discount for TTD usage - intraLATA, AT&T - interLATA; waiver of DA charges.
SOUTH DAKOTA	YES	Hearing/speech-impaired discount - TDD users: 35% weekdays, 60% evenings, 75% nights.
TENNESSEE PSC	YES	Toll rates reduced by 35% during the day and 60% during the evening.
TEXAS PUC	YES	Hearing and speech impaired.
UTAH PSC	YES	50% reduction on station-to-station calls. Starting TDD program in 1987.
VERMONT PSB	YES	In certain areas.
VIRGINIA SCC	YES	No DA charge; C&P has Telephone Service Center; Reduced long distance rates for TDD user - day calls at evening rates, night rates at other times.
WASHINGTON UTC	YES	Toll only- day calls at evening rate, evening calls at night rate for speech/hearing impaired.
WEST VIRGINIA	YES	Fifty percent (50%) on toll for hearing impaired.
WISCONSIN PSC	YES	Lower long distance rates for certified TTY users. Evening rates during day, night rates otherwise
WYOMING PSC	YES	No directory assistance charge for handicapped.
CANADIAN RTC	YES	Direct dial TDD 50% for registered users. Discount for certain carrier-provided equipment.
ALBERTA PUB	YES	50% discount on TDD toll calls.
QUEBEC TB	YES	Reduced rates on certain equipment; no directory assistance charge.

TABLE 95 - STATE PARTICIPATION IN LOW INCOME TELEPHONE ASSISTANCE PROGRAMS

The following table indicates which states participate in one of two national programs, or their own state program, designed to assist low-income households in obtaining telephone service and further the goal of universal service in the United States. It was compiled in the Summer of 1988 and updated to the end of 1988 by the various state agencies in the process of updating the entire Annual Report. Column headings are explained in full in the Key given below.

KEY

1 Link Up America, kicked off October 6, 1987, is sponsored by the FCC, Consumer Federation of America, USTA, and state regulators with the cooperation of many local groups. To qualify, must not have had telephone service in the home for 3 months (eliminated in 1989), an individual must not be claimed as a dependent for federal income tax purposes (unless over age 60); must not have received telephone connection assistance within the last 2 years (also eliminated in 1989); and must meet local income and eligibility requirements determined by each state. Each state submits its proposed plan to the FCC for certification. Under a Link Up America plan, an individual may receive a waiver of 50% of a telephone company's normal installation charge, up to a maximum of $30.00. In addition, telcos are encouraged to waive deposit requirements or allow deposits to be made in interest-free installments.

2 The first Lifeline plan approved and sponsored by the FCC in January 1985 provided a 50% reduction of the Subscriber Line Charge for eligible customers with the state offering a matching reduction. The second Lifeline Plan was approved one year later; it offered a waiver of up to 100% of the Subscriber Line Charge to eligible customers whose eligibility must be verifiable, with the state offering a matching reduction. Each state submits its proposed Lifeline plan to the FCC for certification.

3 Own program refers to any telephone assistance program developed by the state apart from or in addition to the FCC's Lifeline programs or Link Up America.

4 If one or the other of the assistance programs is not in place, is such a program being considered.

5 Would such an assistance program be prohibited by state law.

6 How is eligibility determined: based on income level, for example a specified dollar amount income for a specified household size, or a percentage of a predetermined "poverty level"; or eligibility under an existing assistance program, such as AFDC, SSI, LIHEAP, public welfare, or other program; age, for example participant must be over 60 years of age; any other eligibility standards, such as single head of household.

7 How are such programs funded: by a special tax or surcharge on other customers; by offering the participating telcos a credit against certain state taxes; under existing tariffs; or other method of funding.

**These statistics reflect only those taxes that are itemized on customers' bills. They do not reflect taxes that are paid by the utility and made a part of the rate base.

1/ Tax applies only to business customer.
2/ Franchise or gross receipts fees in some cities are prorated and shown separately on customer's bill.
3/ Four percent lifeline tax on interLATA toll, 0.1% user fee tax on all intrastate revenues.
4/ Gross receipts tax of 4%, except access charge revenue. Effective 7/1/88, competitive services exempt.
5/ Communications Districts formed to provide 911 and E911 service may assess up to 5% of local tariff rates, if approved by customer vote; five cents per month is assessed to fund Deaf and Hearing Impaired program.
6/ Excluding access charge revenue.
7/ Counties and municipalities can add up to 3%; New York City up to 4%; gross receipts tax - state 3.3%, certain cities between 2.35 and 4%, villages 1%, MTA District 17% of state tax.
8/ Commission did not respond to request for update information; this data may not be current.
9/ 1/1/89, sales tax of 6.5% on intrastate inter- and intra-LATA toll service and private line; Gross Receipts tax eliminated.

INTRODUCTION

ACCOUNTING FOR TELEPHONE STATION CONNECTIONS

As a result of Federal Communications Commission Docket #79-105, State regulatory agencies adopted numerous measures relating to the accounting treatment of telephone station connection costs. At the request of the NARUC Staff Subcommittee on Accounts, the NARUC Director of Financial Analysis conducted a survey in August 1982 to determine the status of these accounting procedures. The resulting table was updated by state agencies to reflect information current as of December 31, 1988.

Below are the questions that were included in the survey. Table 97 which follows displays the responses to the questions on a state-by-state basis. The numbers 1 through 10 across the top of the table relate to the 10 questions included in the questionnaire.

TELEPHONE STATION CONNECTIONS QUESTIONNAIRE

1) Does your state expense telephone station connection costs? If no please explain.

2) In your State are new customers paying the full cost of station connection installations or is the cost being spread over all customers?

3) If new customers are not paying the full cost of station connections are you moving through a phasein period to full cost pricing?

4) Is your state phasing in the change to expensing station connections or did it adopt a flash cut?

5) Is your State waiting for the FCC to deregulate inside wiring or have you acted independently to do this?

6) Do you permit customers to install their own inside wiring?

7) Do telephone companies in your state sell in-place inside wiring?

8) Will your State require that in-place station equipment be offered for sale to customers prior to deregulation?

9) Are you attempting to develop uniformity among telephone companies in costing station installation charges? (Uniformity in expense elements.)

10) Do you include telephone plant under construction in rate base?

TABLE 97 - FOOTNOTES

1/ All embedded inside wire deregulated and detariffed.
2/ CNCP and Northwestel expense station connections. Bell Canada expenses business inside connections and BC Tel capitalizes residential expenses.
3/ Currently on phase-in of station connection costs. For 1982, 25% expensed.
4/ Approaching cost.
5/ Local portion only.
6/ Generally, Staff's position is that some subsidy should remain for residential. For business, Staff proposed that 100% of cost be absorbed by new customers.
7/ New customers pay all, except for large companies phasing in.
8/ Most companies have unbundled and prices have been set at or slightly below costs.
9/ Trying to approach where new customers pay all.
10/ Yes for business; no for residential. No update information received for 1986 or 1987.
11/ Flash-cut except for Bell System which is phase-in.
12/ Approved 12/19/86, Order 8514, DE 86-151.
13/ Bell, waiting for FCC. Independents deregulated - acted independently.
14/ Per telco tariff.
15/ On a limited basis.
16/ Complex inside wire only.
17/ Inside wire is customer responsibility.
18/ Decision 82-08-017 and Resolution T-10651.
19/ Commission allows but does not require offering.
20/ Must be offered to customer before removal.
21/ However, we are using uniform methodology.
22/ If used and useful within 12 months of test year.
23/ To the same degree as the FCC.
24/ AFUDC offset in operating income.
25/ If company can justify it.
26/ Only if 75% complete, and not in excess of 10% of rate base before CWIP.
27/ At no charge.
28/ Revised USOA, Effective 1/1/88, requires AFUDC to be charged on both short-term and long-term projects.

FOOTNOTES - TABLE 98 - USE OF TELEPHONE DIRECTORY ADVERTISING REVENUES IN STATE RATEMAKING

1/ Gross profits above the target amount (base year X customer growth and inflation) are split above/below the line. Below-the-line portion is calculated on the lesser of the Actual Gross Profit less the target amount or the Actual Amount times 66.7%.
2/ Unaudited figures from SW Bell and United Telephone.
3/ A constitutional amendment was passed to permit consideration of directory advertising revenue for ratemaking purposes. Net revenue derived from directory advertising by Mountain Bell is $9,159,779, the net revenue derived from such advertising by the three largest independents (Continental, GTE of SW and Navaho) is $1,289,371.
4/ Bell Systems only.
5/ General Telephone only.
6/ Ohio Bell's $68,143,000 is the first year amount of a two-year contract with Ameritech Publishing Inc.
7/ Amount allowed in rate case to replace income formerly derived from directory advertising.
8/ Both figures include performance adjustment for 13.75% increase in the level of the directory publishing fee contract revenue paid to Bell operating company, effective 1/01/85.
9/ Figure is net of Accts 523 and 649, unaudited.
10/ Average per access line.
11/ Total increase applied to residential subscribers.
12/ Four largest companies (SW Bell, GTE, United and Continental), representing 95% of total revenues.
13/ Rate case pending; staff recommends $19.4 million. US WEST seeks exclusion of US WEST Direct revenues.
14/ US West Direct (subsidiary) revenues.

QUESTIONNAIRE

The preceding table was prepared from the responses to the following questions:

1. Does your Agency consider telephone directory advertising (Yellow Pages) revenues for ratemaking purposes?

2. If YES, how much net revenue (after taxes) was derived from directory advertising and applied in ratemaking: $____ from Bell System Companies for the year ended_____, 19__? $_____ from other telephone companies for the year ended_____, 19__?

3. If YES, how much gross revenue (before taxes) would be necessary to replace the loss of directory advertising revenue for ratemaking purposes: $_____ from all telephone companies for the year ended _____,19__? $_____ average per access line per month?

EXAMPLE: In the State of North Carolina in 1980, Southern Bell Telephone net revenues from directory advertising were $6.8 million while its gross revenues from this source were $14 million. With one million customers in North Carolina, the $14 million gross revenue requirement would have increased a subscriber's bill about $1.17 per month if the directory advertising revenue had not been applied in ratemaking.

INTRODUCTION

PROVISION OF SPECIAL TELEPHONE EQUIPMENT FOR HEARING IMPAIRED PEOPLE

The following table was compiled from State Commission responses to a questionnaire regarding telephone equipment for hearing impaired people originally distributed by NARUC during April 1984, and revised and updated through December 31, 1988.

The questionnaire developed to obtain the information contained in the table is reproduced below. The number at the head of each column of the table indicates the number of the question in the questionnaire.

TELEPHONE EQUIPMENT FOR HEARING IMPAIRED PEOPLE

1. Is Specialized Customer-Premises Equipment (SCPE) for use by disabled people, such as telephone amplifier handsets and telecommunications devices for the deaf (teletypewriters with small display screens), provided by any Bell local exchange telephone companies? If so, please indicate on what basis: under regulation or tariff by your commission, or on an unregulated basis?

2. Is SCPE provided by any non-Bell local exchange telephone companies in your State? If so, please indicate on what basis: under tariff or regulation, or on an unregulated basis?

3. Is SCPE provided by any private organization? Please describe briefly.

4. Have any Message Relay Services been set up for communication between TDD- and non-TDD users? Please describe briefly.

INTRODUCTION

INTERLATA AND INTRALATA COMPETITION, RESALE AND BYPASS

Overview

Among the many issues being considered by State public utility commissioners in generic and adjudicatory proceedings is whether to allow competition in intrastate long-distance telephone service in the form of InterLATA and IntraLATA competition.

The following tables set forth the results of a survey conducted by the National Association of Regulatory Utility Commissioners (NARUC) regarding InterLATA and IntraLATA telephone service competition. The information was obtained from a NARUC-developed questionnaire sent to the Public Utility Commissions of all fifty States and the District of Columbia. The questionnaire was composed of twenty questions covering five categories: InterLATA service; IntraLATA service; unauthorized IntraLATA toll service; Resale; and Bypass.

As of December 31, 1988, most States permit facilities-based InterLATA competition. Not as many permit facilities-based IntraLATA competition. Many of those States report no adverse effect on the local exchange companies. In some instances, new statutory language was required authorizing the State commissions to permit both Inter- and IntraLATA competition.

The issue of unauthorized IntraLATA toll service is yet to be addressed by many States. Some States presently require InterLATA carriers to block unauthorized IntraLATA calls. Other States will require blocking upon the achievement of equal access. Some states require InterLATA carriers to compensate the monopoly carrier for lost revenue. Other States require InterLATA carriers to advertise that they are prohibited from providing IntraLATA service.

Thirty-eight States allow resale of InterLATA service. One State prohibits resale of InterLATA services. Some of these States make exceptions for hotels and universities. Forty States allow resale of IntraLATA toll service.

Seventeen States have initiated formal proceedings to investigate the problem of bypass.

In many States, the question of Inter- and IntraLATA telephone competition is presently being considered by the Public Utility Commissions in formal proceedings. The outcome of State proceedings addressing these and other issues in all likelihood will ultimately depend on determinations made by the Commissions regarding the effects of competition on universal telephone service, bypass, and the revenue base for local telephone companies.

The questionnaire developed to obtain the information contained in the tables is reproduced below. The number at the head of each column of the tables indicates the number of the question in the questionnaire.

QUESTIONNAIRE REGARDING INTRALATA/INTERLATA COMPETITION

INTERLATA SERVICE

Table 100

I. Do you presently allow for facilities-based competition in the provision of **InterLATA** telephone service? (Yes/No/Undetermined)

II. If the answer to I is "Undetermined", please indicate if there is any ongoing proceeding designed to determine this question pending before your Commission. Indicate the docket number of this proceeding and the expected date of decision.

III. If the answer to I is "No", please indicate whether there is a statutory prohibition against **InterLATA** competition in your State.

IV. If the answer to I is "Yes", indicate the number of **InterLATA** carriers providing this type of service.

V. Please indicate all aspects over which you assert **InterLATA** carrier jurisdiction: Certification, Rates/Tariffs, Service (Conditions of Service), Financing, Other, None

VI. Did your decision to allow **InterLATA** competition have to be preceded by adoption of new statutory language by your State legislature? If so, when did your legislature act?

VII. Do you classify carriers on a dominant/nondominant basis? (Yes/No)

VIII. If the answer to VII is "Yes", how does your regulatory treatment of dominant carriers vary from your regulatory treatment of nondominant carriers?

INTRALATA SERVICE

Table 101
IX. Do you presently allow for facilities-based competition in the provision of **IntraLATA** toll telephone service? (Yes/No/Undetermined).

X. If the answer to IX is "Undetermined", please indicate if there is any ongoing proceeding designed to determine this question pending before your Commission. Indicate the docket number of this proceeding and the expected date of decision.

XI. If the answer to IX is "No", please indicate whether there is a statutory prohibition against **IntraLATA** toll competition in your State.

XII. If the answer to IX is "Yes", indicate the number of **IntraLATA** toll carriers providing this type of service.

XIII. Please indicate all aspects over which you assert **IntraLATA** toll carrier jurisdiction:

Certification, Rates/Tariffs, Service (Conditions of Service), Financing, Other, None

XIV. Did your decision to allow **IntraLATA** toll competition have to be preceded by adoption of new statutory language by your State legislature? If so, when did your legislature act?

UNAUTHORIZED INTRALATA TOLL SERVICE

Table 103
XV. If **IntraLATA** toll competition is not allowed, how do you plan to control the problem of unauthorized use of **InterLATA** facilities to complete **IntraLATA** toll calls?

a. **InterLATA** carriers required to block **IntraLATA** calls

b. **InterLATA** carriers required to compensate monopoly **IntraLATA** carrier for lost revenues occasioned by incidental calls.

c. Penalties or fines levied on carriers unlawfully providing **IntraLATA** service.

d. Penalties or fines levied on customers unlawfully using **InterLATA** carriers to obtain **IntraLATA** service.

e. **InterLATA** carriers required to affirmatively advertise that they are not authorized to provide **IntraLATA** service.

f. Other

RESALE

Table 104
XVI. Do you allow for the furnishing by carriers of **InterLATA** service on a resale basis? (Yes/No).

XVII. Do you allow for the furnishing by carriers of **IntraLATA** toll service on a resale basis? (Yes/No).

XVIII. Is there a statutory ban on the resale of intrastate telecommunications services in existence in your State? (Yes/No)

BYPASS

Table 105
XIX. Have you instituted a proceeding to look into the issue of bypass of the local telephone exchange? (Yes/No)

XX. If the answer to XIX is "Yes", what is the docket number of this proceeding?

FOOTNOTES - TABLE 100 - COMPETITION IN INTERLATA SERVICE

1/ One LATA state. InterLATA would be equivalent to interstate service. Interstate competition is allowed by the FCC in Alaska. Two carriers provide facility based interstate service.
2/ ATT of IL; MCI; GTE Sprint. Under PA 84-1063 402 Sec 13, Commission can waive general orders and Statutes for interexchange carriers.
3/ By PSC order 11/19/84, dominant carrier permitted to raise or lower rates within a range of 5% above or below revenue requirement determined by PSC. Rate will be governed by the normal notice and hearing procedure.
4/ Includes facility base and resellers. Statutes make no distinction.
5/ Streamline regulation under G.O. 50. Facility based carriers file range of rates, can be changed with 10 days notice.
6/ Both AT&T and OCC proposed rate increases subject to rate jurisdiction.
7/ Tariffs indicating types of services and rates must be filed and approved, but rate levels do not have to be based on rate of return on investment.
8/ In Docket No. 84-944-TP-COI, Commission initiated an investigation into whether it should exercise its jurisdiction in regulating various types of telcos differently from its traditional regulatory practice and suggested legislative changes.
9/ Streamlined regulation procedure in effect which allows tariffs to go into effect 30 days after filing, absent Commission order suspending for further review or denial.
10/ Jurisdiction asserted over certification of AT&T only; jurisdiction over service asserted over those serving small pockets interLATA intrastate.
11/ Code changed to allow commission to certify additional interLATA carriers effective 7/01/84.
12/ MCI & Sprint granted interim authority; Western Union not required to obtain new certificate – must file tariffs.
13/ Approximately 20 carriers providing interLATA service on resale basis.
14/ As of 1/1/89 there were 29 interexchange carriers registered with the Commission. Washington statutes and rules make no distinctions between facilities-based carriers and others, or between inter- and intra-LATA service.
15/ Commission did not respond to request for update information; this data may not be current.

FOOTNOTES - TABLE 102 - COMPETITION IN INTRASTATE COMMUNICATIONS AND SHARED TENANT SERVICES

1/ **Reseller** is defined as a carrier which subscribes to communication services and facilities from facilities based common carriers for reoffer of services to the public for profit.

2/ **Shared Tenant Services** (STS) is defined as a communications system to which occupants of a multi-tenant building or complex subscribe, in which terminals located on user premises are connected to shared PBXs or other switches provided in the building or complex by the owner, the users as a group, or a third party, rather than by the local telephone company. Each user can communicate with any other system user directly through that switch instead of back and forth over the trunk line through the central office.

3/ **A partitioned PBX or switch** connects each STS system user individually to the local telephone company central office through a separate access line or lines, with the result that STS users cannot share local exchange service.

4/ **Single LATA States.** The single LATA states are Alaska, Connecticut, Delaware, Hawaii, Maine, New Hampshire, New Mexico, Rhode Island, Utah, Vermont and Wyoming. The District of Columbia fits into a larger LATA.

5/ The Commission has not asserted jurisdiction over resellers providing intraLATA service.

6/ Commission distinguishes between "sharing" local exchange services and the "resale" of local exchange services. "Sharing" is the provision of services on a not-for-profit basis. "Resale" may involve the provision of services for profit. Regulations governing the sharing and resale of local exchange services are in C&P's Local Exchange Service Tariff, No. 202, General Service Tariff, No. 202 and Channel Services Tariff No. 204.

7/ Rates of resellers are not regulated, but their tariffs must be on file with the PSC.

8/ STS authorized to commercial tenants in a single building. Local rates not regulated but must be on file in tariff.

9/ PSC instituted an investigation to consider all aspects of sharing access lines. Docket No. 851005-TP.

10/ PUC issued Order U-1000-80 in May 1985 allowing STS, but in June 1985 received petitions for reconsideration regarding measured service requirement and requirement that STS providers allow local telephone company to directly serve tenants. Proceeding still pending.

11/ Investigation under way into all aspects of competition in telecommunications, including resellers and STS providers, with decision expected in December 1986. Resale may be substantially deregulated. Dockets 85-97 and 85-197.

12/ Implementation of intraLATA competition for facilities based carriers began 12/1/86.

13/ Providers are not required to partition incoming or outgoing trunks. They may subscribe to one group of incoming and outgoing trunks and share those trunks among all tenants in the same manner as the PBX terminal equipment. This is typical resale of telephone service. However, the PBX must be partitioned to require calls between two separate tenants to be completed over local exchange facilities provided by others. Any inter-tenant calling services provided directly by the STS switching system would constitute local exchange telephone service which would at present require certification as a local exchange telephone company.

14/ Investigation underway as to need, if any, for regulation of resellers, with decision expected mid 1988.

15/ Commission instituted Docket M-840401 to examine public need for resellers and STS providers, with decision expected early 1986.

16/ Resellers and STS providers totally deregulated on 4/28/86, pursuant to enactment of SB120. PSC's decision on resellers and STS providers were issued 4/14/83 and 9/30/85, respectively.

17/ Measured rates where available; flat rate where not.

18/ Deregulated 7/1/88.

SECTION R

ELECTRICITY

Tables 106, 107 and 108 reflect the results of a survey conducted by National Economic Research Associates, Inc., New York, New York, during October/November 1977. In January 1989 the State agencies were requested to update all the information in the Annual Report to accurately reflect the status as of December 31, 1988. The tables provide detailed information on costing, ratemaking and rate structure revision.

Table 109 provides information on long-range electric utility load forecasting.

Tables 110 and 111 contain composite statewide statistics for all privately owned electric utilities under agency jurisdiction. The data include plant, revenues and expenses, customers, average annual residential use, average residential cost per kwh, average residential monthly bill, and gross plant investment per customer.

Table 112 is a summary of state statutes related to power plant siting.

Information concerning certification of electric transmission lines and electric generating equipment and facilities is contained in Tables 113 and 114. Table 115 shows State public utility commission activity in on-site construction monitoring of large generating plants.

Table 116 shows average voltage level requirements.

Table 117 provides information concerning commission regulatory jurisdiction over the provision of private outdoor lighting service by electric utilities.

INTRODUCTION

RATE STRUCTURE REVISION

The following survey and accompanying tables were initially prepared by National Economic Research Associates, Inc., Consulting Economists, New York, New York. The tables have been updated to December 31, 1988.

Some of the items in the following tables are subject to a range of interpretation such that, in certain cases, the choice of a yes or no answer may appear somewhat arbitrary. Each table has a set of footnotes which contain additional or explanatory information. The reader is urged to review the footnote (where applicable) in interpreting any individual response, and to consider the information contained in the footnotes before performing a tabulation of responses to any item.

The footnotes for table 108 are separate and are **grouped by state**. Thus, for example, footnote 1 for Alabama is not likely to be the same as footnote 1 for Alaska.

Table 106 - DETERMINATION OF COST OF SERVICE

1. **Column Heading:** Commission specifies method(s) for determining cost of service by class. **Explanation:** Indicates whether the Commission has prescribed or specifically approved one or more methods for determining costs associated with providing electric service to classes of electric consumers.

2. **Column Heading:** Required method measures TOD, seasonal cost differences. **Explanation:** If the column entry in Column 1 is yes, this column indicates whether (any of) the specific methods required measure the differences in the cost of providing service to each class at various times of day and in various seasons. If only TOD or seasonal differences are measured but not both, please indicate that.

3. **Column Heading:** Required method measures marginal or incremental costs. **Explanation:** If the column entry in Column 1 is Yes, this column indicates whether (any of) the specific methods required measure the extent to which total utility costs are likely to change if capacity is added to meet peak demand, or additional kilowatt hours of electricity are delivered to electric consumers.

4. **Column Heading:** Utilities measure cost of serving each customer class. **Explanation:** Indicates whether any of the investor-owned electric utilities in the state measure the cost of providing service to each class of customers, for rate case or other purposes.

5. **Column Heading:** Utilities measure TOD, seasonal cost differences for each class. **Explanation:** If the column entry in Column 4 is Yes, this column indicates whether any of the methods used to measure the cost of serving each customer class also measures differences in the cost of providing service to each class at different times of day and in various seasons. If only TOD or seasonal differences are measured, please indicate which.

6. **Column Heading:** Utilities measure marginal or incremental costs for each class. **Explanation:** If the entry in Column 4 is Yes, this column indicates whether any of the methods used to measure the cost of serving each customer class also measures or has measured the cost of providing additional service to each class, ie, meeting additional demand, providing additional energy and serving additional customers.

7. **Column Heading:** Commission requires cost-based rate structures. **Explanation:** Indicates whether the Commission requires that the structure or design of rates for each class of customers of investor-owned electric utilities be based on the structure of the cost of providing service to each class.

Table 107 - RATEMAKING

1. **Column Heading:** Lifeline or inverted rates approved. **Explanation:** Indicates whether the Commission has approved lifeline or inverted rates or treatment of rates currently in effect, for any class of retail customers of any investor-owned electric utility.

2. **Column Heading:** Declining block rates approved. **Explanation:** Indicates whether the Commission has approved any rates currently in effect, for any class of retail customers of any investor-owned electric utility, with declining blocks for energy and/or demand.

3. **Column Heading:** Cost justification of declining block rates. **Explanation:** Indicates whether utilities with declining block rates have offered evidence that such rates are currently cost-justified, ie that the unit costs of providing electric service actually decline with volume.

Table 107 - RATEMAKING (Continued)

4. **Column Heading:** Commission policy on declining block rates. **Explanation:** Indicates whether the Commission has a policy, stated or informal, on declining block rate design.

5. **Column Heading:** Flat rates approved. **Explanation:** Indicates whether the Commission has approved any flat rates currently in effect, for any class of retail customers of any investor-owned electric utility. Flat rates include a rate which embodies a minimum charge or customer charge with a fixed rate per kilowatt-hour (and per kilowatt). Note that a Yes entry in this column need not be inconsistent with a Yes entry in Column 3.

6. **Column Heading:** Commission policy on flat rates. **Explanation:** Indicates whether the Commission has a policy, stated or informal, on flat rates as a rate design concept.

7. **Column Heading:** Time-of-day rates approved. **Explanation:** Indicates whether the Commission has ever approved time-of-day rates - experimental or permanent, optional or mandatory - for any class of retail customers of any investor-owned electric utility.

8. **Column Heading:** Seasonal rates approved. **Explanation:** Indicates whether the Commission has approved seasonally varying rates currently in effect, for any class of retail customers of any investor-owned electric utility.

9. **Column Heading:** Rates for interruptible service approved. **Explanation:** Indicates whether any investor-owned electric utility in the state offers rates, on either a contract or tariff basis, for interruptible retail electric service.

10. **Column Heading:** Contracts for retail service. **Explanation:** Indicates whether any investor-owned electric utility provides service to any customer with rates set by contract.

11. **Column Heading:** Commission policy on new master metering. **Explanation:** Indicates whether the Commission has any policy regarding master or bulk metering in new construction.

Table 108 - RATE STRUCTURE REVISION

1. **Column Heading:** Rate structure revision activity. **Explanation:** Indicates whether, and how, the Commission has considered or is considering general rate structure design concepts.

2. **Column Heading:** Evidence on cost effectiveness of TOD, seasonal rates. **Explanation:** Indicates whether the Commission has seen any evidence on the cost effectiveness of time-of-day and/or seasonal rates for electric utilities under its jurisdiction. Rates are considered cost effective if they result in long-run benefits (cost savings) which exceed the long-run costs of their implementation.

3. **Column Heading:** Evidence on consumer response to TOD, seasonal rates. **Explanation:** Indicates whether the Commission has seen any evidence on consumer reaction to mandatory time-of-day and/or seasonal rates or on likely consumer response to optional time-of-day or seasonal rates.

4. **Column Heading:** Load management activity. **Explanation:** Indicates whether the Commission encourages and/or any investor-owned electric utility in the state has undertaken implementation of a load management system (especially one using technical control devices). Details in the footnote include the type(s) of system involved, whether there has been any study on the cost effect of such a system, and whether the cost effect is reflected in the rates to customers with such systems.

5. **Column Heading:** Commission policy on rates for customers with solar, wind, small generation. **Explanation:** Indicates what policy the Commission has adopted to ensure that electric rates do not discriminate against or discourage the use of solar, wind or other small generation for supplemental power. Details on the guidelines, rates or conditions under which excess power generated by such small units is sold to electric utilities are in the footnote.

TABLE 106 - DETERMINATION OF COST OF SERVICE

STATE	COMMISSION SPECIFIES METHOD(S) FOR DETERMINING COST OF SERVICE BY CLASS (1)	REQUIRED METHOD MEASURES TOD/SEASONAL COST DIFFERENCES (2)	REQUIRED METHOD MEASURES MARGINAL OR INCREMENTAL COSTS (3)	UTILITIES MEASURE COST OF SERVING EACH CUSTOMER CLASS (4)	UTILITIES MEASURE TOD, SEASONAL COST DIFFERENCES FOR EACH CLASS (5)	UTILITIES MEASURE MARGINAL OR INCREMENTAL COSTS FOR EACH CLASS (6)	COMMISSION REQUIRES COST-BASED RATE STRUCTURES (7)

N/A - COMMISSION DID NOT PROVIDE RESPONSE.

FOOTNOTES - TABLE 106 - DETERMINATION OF COST OF SERVICE

1/ Costs are analyzed and allocated on the basis of stated assumptions.
2/ Requires test year fully allocated embedded cost of service study in rate case.
3/ Marginal or incremental costs are provided in justifying cogeneration rates.
4/ Embedded and marginal costs method do so.
5/ Generally use fully distributed embedded cost.
6/ Marginal cost of service studies are required in rate cases as a result of the PURPA hearings on rate design issues.
7/ Several major electric utilities have been ordered by the Commission to conduct long-run incremental cost studies and have included them with rate filings.
8/ With each rate case all investor-owned utilities file fully allocated embedded cost studies, based on coincident-peak methodology.
9/ Court decision requires across-the-board adjustment in rates in absence of cost of service evidence.
10/ Fully allocated and LRMC cost of service studies have been approved for rate design, fully allocated for revenue requirements among classes and LRMC preferred within classes.
11/ A method similar to this, presented by an intervenor, has been specifically rejected by the Board. The economic concept of LRMC has, however, been encouraged by the Board.
12/ Coincidental peak is most common accepted method.
13/ Commission intends to move toward marginal cost pricing gradually. It will be some time before mandatory TOD and seasonal rates are implemented.
14/ Only the latest fully allocated cost study is required, although most file marginal cost studies from which can be computed TOD and seasonal rates.
15/ The only allocation method rejected is the coincident peak method; Board has specified hourly cost of service methodology for one company, average and excess method for another and system planning approach for a third.
16/ Coincident peak method and peak and average method of allocating demand cost have been approved for use in cost of service studies in recent rate cases.
17/ Commission requires embedded cost of service studies and further requires at least one of the following methods be utilized: coincident peak, non-coincident peak or average and excess. Companies may also submit other cost-of-service studies, if they find another methodology more appropriate.
18/ Commission regulates only one small non-generating investor-owned electric utility.
19/ Rate Filing Package requires submittal of (1) expected marginal energy cost and average energy cost schedules, to show sensitivity of marginal and average costs to load, and (2) expected hourly marginal and average energy costs for representative peak day, weekday and weekend day for each of the four seasons, including and excluding scheduled maintenance.
20/ TOD/seasonal/interruptible/storage-heat/off-peak water heater.
21/ Depends upon customer class: residential and commercial-seasonal, industrial-TOD and seasonal.
22/ TOD by class by Wheeling Electric.
23/ Variations of marginal for added loads and customers.

** CR=Commission Rules S=State Statute

FOOTNOTES - TABLE 107 - RATEMAKING

1/ Subject to Commission approval.
2/ Contract for level of service, not rates, and subject to Commission approval.
3/ Interruptible rates available for Federal and State customers.
4/ Regulations require cost/benefit consideration.
5/ Not Lifeline rates per se, but similar, in that 2 residential rate schedules consist of 3 blocks, the first block having the lowest rates.
6/ Experimental rate schedules.
7/ Mandatory for customers with high demand.
8/ Reduced rate available with low-income certification.
9/ Rates have been approved which place greatest increase on tail blocks; block rate structures have been approved which have minimal implicit customer charges with generally flat rates for demand and energy components.
10/ Use of such is declining.
11/ Rate structure must be cost-based.
12/ Moving toward flattening of rates.
13/ For residential customers.
14/ Non-inverted "Conservation Rate" approved.
15/ Not for residential customers.
16/ Must be filed with Commission.

Alabama

1 Alabama Power rate cases resulted in changes to rate design; no generic hearings have been held. Hearings are being held for PURPA.

2 As of 12/30/80 PSC had required and received rates for small power producers (less than 100 Kw). Hearings held in January 1981; still pending.

Alaska

1 Regulations require each utility to file proposals concerning such rates.

Alberta

1 Generic hearings held jointly with the Alberta Energy Resources Conservation Board. Report issued outlining suggested classification of small power producers and advising that prices should be based on long-term avoided costs.

FOOTNOTES - TABLE 108 - RATE STRUCTURE REVISION (Continued)

Arkansas
1 Optional residential air conditioner load control credit available to customers with central A/C where utility controls power to A/C by radio device. Credit equals the savings in peak demand costs. Optional irrigation load control credit is available where utility controls power to irrigation pump by radio device which can shut off power. Credit equals the savings in peak demand costs.
2 Rates are based upon each utility's avoided cost data.

California
1 Evidence from mandatory TOD rates and TOD experiments. Elasticity studies made to monitor customer usage in relation to price.
2 Load shedding experiments with radio control on water heaters and air conditioners. Load management standards approved by Energy Commission (includes use of load cycling devices and marginal costs).
3 Small power producers receive full avoided cost for power. Standby and supplementary power rates are based on the same factors used for conventional service.

Connecticut
1 All utilities ordered to offer optional TOD rates. Results of TOD residential experiment were significant shifts in peak demand and energy usage. **Connecticut Peak Load Pricing Test, 5/77,** available on request.
2 DPUC encourages load control where economic. Utilities actively experimenting with load management devices (ie, radio-controlled water heaters) and are exploring other means of controlling load (eg appliance load control programs, interruptible loads, etc.)
3 Self-generator tariffs in effect for CL&P and UI. Sole source provision removed from controlled water heater rates to allow renewable resource users to benefit (applies to both investor-owned utilities). DPUC encourages development of alternate energy sources.

Florida
1 Florida Power TOD experimental rate had favorable response. Gulf Power's seasonal rate for non-demand metered classes is mandatory.
2 Florida Power and Tampa Electric have general air conditioning, water heating and pool pumps load control rates. Interruptible and/or curtailable rates offered by Florida P&L, Florida Power and Tampa Electric.

Idaho
1 One utility has irrigation load management in place; further applicability and programs being examined.

Illinois
1 Data available from Commonwealth Edison's residential TOD experiment and mandatory industrial TOD rate. A report from Central Illinois Public Service on response to seasonal rates also available.

Indiana
1 Commission approved Rules and Regulations for Cogeneration and Alternate Energy Production Facilities.

Iowa
1 TOD rates found cost-effective only for certain large general service customers. Seasonal rates found cost-effective.
2 Statute adopted in 1983 to encourage development of alternate energy production through buy-back rates which account for capital cost of next generation facility.

Maryland
1 Load management techniques approved for 3 utilities to control residential central A/C and space heating. Programs continually monitored for cost-effectiveness.
2 Commission set rates and regulations under which utilities purchase power from qualifying cogenerators and small power producers.

Michigan
1 Experiments with control of air conditioning and other load limiting devices by major utilities. Detroit Edison has had radio controlled water heating since 1938. Also has experimental heat storage rates for residential customers.
2 Special rate for auxiliary services to residential and commercial customers generating their own power, with sale of excess power by customer to utility at reasonable cost.

Minnesota
1 Requires purchase by utilities of power under 40 Kw; solar and wind at retail rates.

Missouri
1 Each utility has cogeneration and small power production tariffs in effect.

Montana
1 Dual fuel interruption for winter peak space heating loads.

New Hampshire
1 Rate design changes based on cost-effectiveness. Mandatory TOD rates have not been adopted.
2 Commission encourages load management, and has approved load-controlled service for two utilities involving storage water and/or space heating. Pricing is based on marginal cost.
3 Sales by qualifying generating facilities may be on a simultaneous purchase and sale or net purchase/sale basis; are priced at short- and long-term avoided cost. Qualifying facility must take service in same customer class as if facility had no generation.

New Jersey
1 TOD rates currently in effect for JCP&L, PSE&G and RECO industrial classes and large/storage water heating residential users. ACE recently completed an experimental residential TOD program.
2 Economic load management techniques encouraged. Atlantic City Electric and Rockland Electric directed to implement TOD/storage water heating program similar to the one being used by Public Service and Jersey Central. Public Service also encouraged to continue evaluating feasibility of storage space heating, air conditioning efficiency improvement programs and air conditioning and appliance load control programs.

FOOTNOTES - TABLE 108 - RATE STRUCTURE REVISION (Continued)

New York
1 Generally, customers who save money with TOD rates favor them. Some customers with mandatory TOD rates have installed load management equipment to take further advantage of off-peak rate. There has been some negative reaction, particularly from customers with inflexible load whose rates have increased.
2 Each utility required to submit a load management study. Studies include load shedding devices, storage equipment and information programs. Commission requires periodic reports on progress in load management.
3 Following a 5/10/82 generic decision on rates for on-site generators, all utilities filed tariffs for buyback, standby and supplemental service. Utilities also may enter into long-term contracts with on-site generators (guidelines issued 3/27/86 and 9/28/87). Commission retains approval rights and will aid in settling disputes in negotiations.

North Carolina
1 Balanced system peaks attributed to greater winter usage resulting from lower rates to residential space heating customers, but no specific studies have been made to confirm. Two experiments regarding TOD rates have been inconclusive.
2 Customer participation in utility control of residential water heating and air conditioning and for interruptible industrial loads is voluntary.
3 Commission required residential rate schedules to be adjusted so that customers using nonfossil energy sources would not be disqualified from a rate (water heating or all-electric) for which they would otherwise be qualified. Commission also set standard rates at which utilities must purchase power from cogenerators and small power producers.

North Dakota
1 Cogeneration rules adopted and small power producer rates filed and approved.

Ohio
1 Ongoing investigation of cost-effectiveness and consumer response to TOD/seasonal rates.
2 Commission reviews this on continuous basis pursuant to PURPA and Section 4905.70, Ohio Revised Code; performed in rate case procedures. Continuous studies submitted by companies. Commission encourages rates reflecting cost differentials. Available statewide on optional basis.
3 Commission set rates to be paid to small power producers and cogenerators. Provisions in tariffs for recognition of costs which vary by time of day. Avoided capacity costs to be considered on case-by-case basis.

Oklahoma
1 Types include air conditioner temperature sensitive control devices, a system of incentive rates and incentives to encourage efficient appliances and buildings.
2 Retail rates no different for customers with such systems. Rates for excess power established for generators smaller than 100 Kw. For generators larger than 100 Kw, rates are negotiable, subject to Commission approval.

Oregon
1 Commission has had generic hearings (most recently in 1984) and has ordered LRIC rates, first in 1975. Seasonal and TOD rates ordered in 1978 for PGE and PP&L.

Pennsylvania
1 Solar credits available to regular rates in some territories.

Rhode Island
1 Narragansett Electric Company with the NEESPLAN.
2 Commission complied with PURPA Section 210 in order dated 3/20/81. All electric utility power purchase rates and regulations are in effect.

South Carolina
1 Cost of service studies.
2 Two utilities offer water heater and a/c central credit programs.
3 Commission has approved rates for cogenerators and small power producers.

South Dakota
1 Commission has been ordered to consider rate reform.

Tennessee
1 Commission regulates only one small non-generating investor-owned electric utility.

Texas
1 Most utilities (Rule 23.22) required to file Energy Efficiency Plan providing descriptive and cost-benefit analysis of utility-controlled and end-user conservation load management programs. Achievements under the plan are reviewed in major rate and CCN cases. Measurable savings reported by one IOU under its experimental Large Commercial Air Conditioning Control program, and by one large cooperative providing direct-controlled Peak Time Intermission Program (water heating, space heating and space cooling). Another large utility has radio-controlled Water Heater Cycling Program under way as a pilot program.
2 The Public Utility Regulatory Act of Texas mandates rules to encourage the economical production of electric energy by qualifying small power producers (PUCT Substantive Rule 23.66).

Utah
1 The only activity is on the part of the utilities.

Vermont
1 Commission has been working toward seasonal and TOD pricing in rate cases since 1970. In addition, extensive rate experimentation has taken place under the auspices of the FEA.
2 Seasonal rates poorly received due to large rate increases in winter. Optional TOD rates are quite popular, more so than had been expected.
3 Load management activities found quite effective, and have included ripple control experiments and offering a special rate for use with heat storage devices.
4 Rule 4.100 - PURPA Rates - Small Power Producers.

FOOTNOTES - TABLE 108 - RATE STRUCTURE REVISION (Continued)

Virginia

1 Load management studies underway now to examine interruptible rates and load control devices. No mandatory rates for these load management systems yet approved. APCo has residential energy storage program limited to 50 customers. Other TOD programs are voluntary. Other programs include direct and indirect control of space conditioning and water equipment, ie, radio controls, ripple control, time clock control, etc.

2 Commission has required filing of cogeneration rates.

Washington

1 Cogeneration and small power production order issued adopting rules (Chapter 480-105 WAC) relating to interconnection.

West Virginia

1 In compliance with 1975 legislation, Commission prepared report for the governor on cost justification of various rate designs and possibility of implementing non-traditional rates. Report covered declining block rates (justified) and lifeline rates, and looked at load factors of utilities in regard to time-of-day rates. It did not cover marginal cost or LRIC pricing. PURPA hearings for each of five covered electric utilities have been held. Final orders have been issued.

2 Rate structure study concluded that seasonal rates encourage needle peaking by reducing total consumption during summer, but not peak demand.

3 Interruptible rates approved for some utilities, others are being encouraged to developed them.

Wisconsin

1 Programs for large utilities within framework of least cost integrated planning. Includes water heater, air conditioning, off-peak storage, interruptible controls. Rates cost-based using planning framework.

2 Commission does not discriminate against users of alternate energy sources. Each large utility has submitted cogeneration and parallel generation tariffs, which are in effect. Five utilities have TOD rates available to all major customer classes that provides lower cost off-peak service.

TABLE 109 - LONG-RANGE ELECTRIC UTILITY FORECASTING

Please check the box(es) which best summarizes your Commission's activities in the area of long-range (10-year) electric utility load forecasting:

1. ( ) Our Commission relies heavily on load forecasts prepared by our utility system(s) and others and conducts no independent load forecast studies.
2. ( ) Our Commission analyzes our systems' (and possibly other) load forecasts carefully by independently testing all or a sample of their data and assumptions and thus makes in-house revisions to such forecasts where appropriate. We have _____ full-time equivalent positions devoted exclusively to this work.
3. ( ) Our Commission has an in-house load forecasting section which conducts independent load studies essentially from raw data. We have _____ full-time equivalent positions devoted exclusively to this work.
4. ( ) Our Commission hires consultants to make load forecasts when required.

FOOTNOTES - TABLE 109 - LONG-RANGE ELECTRIC UTILITY LOAD FORECASTING

1/ Commission currently setting up in-house review and evaluation position for forecasting models and intends to further develop in-house forecasting capability.
2/ The State Utility Forecasting Group was established to develop forecasts of long-range electric needs. Staff does company-specific demand forecasts.
3/ Commission is developing in-house expertise in load forecasting and modeling.
4/ Responsibility for State agency load forecasts in long-range planning is now in the State Energy Office. Commission Staff continues to monitor utility forecasts and consult with the State Energy Office.
5/ By law, Commission must prepare a 10-year report every year on utility forecasts of load, new power plants and transmission lines. In addition, the State Power Plant Siting Program prepares an independent 10-year forecast of peak demands every other year, essentially from raw data.
6/ Conducts few independent load forecast studies.
7/ Consultants occasionally hired.
8/ Beginning in 1979 responsibility for long-range forecasting was transferred to State Energy Office.
9/ Consultants have been used in the past to perform specific tasks, such as estimating impact of solar heating, load management and conservation. In-house forecasting activities involve a number of people and equates to approximately three full-time professionals. Commission bases its forecast on evaluation of forecasts of utilities, Public Staff and others.
10/ Tennessee PSC has not conducted a long-range electric load forecast. Commission regulates only one small privately-owned electric company which has no generating capabilities.
11/ Consultant occasionally hired or utility is ordered to hire. California Energy Commission responsible for load and long-term demand forecasts. PUC responsible for short-term demand forecasts for ratemaking (7 full-time positions).
12/ Department participates through one seat on Connecticut Siting Council and through staff analysis in annual CSC forecast hearings. DPUC staff time is equivalent to one half-time position. The CSC augments DPUC capabilities.
13/ Long-range forecasts are the responsibility of Oregon Department of Energy. Federal legislation (Pacific Northwest Electric Power Planning and Conservation Act of 1980) requires long-range forecasting by a Regional Power Council.
14/ Long-range forecasts are the responsibility of Massachusetts Energy Facilities Siting Council.
15/ Utility specific and statewide forecasts.
16/ Statewide, not utility specific, forecasts.
17/ Review utility's forecasts.
18/ Does independent appraisal.
19/ Load forecasting is the responsibility of Ohio PUC - Division of Forecasting.
20/ The Nebraska Commission does not regulate electric utilities.
21/ Commission did not respond to requests for update information; this information may not be current.

FOOTNOTES - TABLE 110

1/ Alabama Power Company is the only electric utility regulated by the Alabama PSC. Materials and Supplies includes: Nuclear Fuel - 767,157; Fuel Stock - 173,859; and Plant Materials & Operating Supplies - 110,549. Depreciation and Amortization Reserves includes: Depreciation of Electric Plant - 2,257,695; and Amortization of Nuclear Fuel Assemblies - 593,027.

2/ Expenses have been prorated on the basis of intrastate to total Kansas revenue.

3/ Amounts include total company figures for GSU and SWEPCO.

4/ Includes investment in TMI Units 1 and 2.

FOOTNOTES - TABLE 110 (Continued)

5/ Data for Northwestern Public Service Company only.
6/ Composite statistics for four largest California utilities only. Net book costs include $3,650,238 debit for accumulated income taxes and tax credits.
7/ Unable to define.
8/ Income taxes and other taxes.
9/ Cannot separate between interstate and intrastate.
10/ Includes combination electric and gas for CL&P as well as nuclear write-offs of $316,932.
11/ This is data for 1987; data for 1988 not available.

TABLE 111 - COMPOSITE CUSTOMER STATISTICS FOR ALL PRIVATELY OWNED ELECTRIC UTILITIES UNDER AGENCY JURISDICTION
(As of December 31, 1988, unless otherwise noted)

1/ Several states include the determination of need in a certificate of public convenience and necessity.
2/ Public Utilities Commission has review authority. State has no siting legislation.
3/ Board has jurisdiction over construction and equipment cost approvals, but all engineering and environmental considerations are under jurisdiction of the Department of the Environment.
4/ Alaska Permit Information Center.
5/ Siting and Environment Review by Department of Environmental Protection.
6/ Certificate states all conditions, permits or licenses required by other state agencies or found necessary during hearings.
7/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 113 - CERTIFICATION REQUIRED FOR SITING BULK POWER SUPPLY FACILITIES

1/ California Energy Commission also has certification authority over siting of thermal power plants and associated transmission lines. For such facilities, prior authorization by Energy Commission is required.
2/ Certification authority is the Connecticut Siting Council which has authority to monitor construction, operation and maintenance of generating or transmission.
3/ Co-ops must get an order from Commission for the right to exercise eminent domain.
4/ All electric utilities are publicly owned and operated.
5/ Contingent on prior recommendation of State Department of Natural Resources on environmental compatibility.
6/ Commission has certification authority only if a utility proposes to start operating in a municipality already served by another utility or agency.
7/ Minnesota Environmental Quality Board (MEQB) certifies the site of large (50 Mw or more) generating plants and issues construction permits for high voltage (200 Kv or more) transmission lines (MN Stat, Sec 116C.51-69). Various state agencies issue water appropriation, other permits. Siting and routing criteria are in MN Reg MEQ.C71-75. Before siting or routing process can be completed, PUC must issue Certificate of Need for generating plant of 80 Mw or more.
8/ Commission regulates only safety of co-op owned transmission lines.
9/ Need approval of NRC, when applicable, and State Air and Water Commissions.
10/ Investor-owned systems do not need certification if proposed construction is within their certificated service areas. No separate operating or maintenance certificate is necessary. Operation and maintenance expenses are reviewed for reasonableness. Standards for issuing certificates are contained in statutes and judicial decisions.
11/ Mandatory for publicly owned systems.
12/ Prior approval required of State Site Evaluation Committee.
13/ New Jersey BPU does not require certification of construction, operation or maintenance of electric generating equipment and transmission. It does have broad powers under NJSA 48:2-13 to ensure safe, adequate and proper utility service. NJSA 48:2-23, gives Board authority to require a utility to perform in a manner that preserves the quality of environment and prevents pollution. Under various other requirements, electric utilities are closely monitored through such proceedings as financing, zoning and planning, eminent domain and condemnation proceedings, and safety in general. Docket No. 762-194 is an inquiry into reasonableness of present and planned construction programs of all electric utilities.
14/ Commission approval required for generating stations of 300 Mw or more or transmission lines of 230 Kv or more contingent on compliance with environmental standards. Prior certification required for construction or operation of any plant or system.
15/ Generating equipment of 50 Mw or more; transmission lines of 125 Kv or more for a distance of at least one mile and 100-124 Kv for a distance of more than 10 miles. New York PSC is solely responsible for certifying transmission lines. Siting Board certifies generating facilities (part of Dept. of Public Service). PSC staff participates fully in both certification proceedings.
16/ Certificates issued by Oregon Energy Facility Siting Council.
17/ By Governor.
18/ Siting authority of Rhode Island PUC and DPU is derived from its oversight of eminent domain and issuance of securities. No certificate for construction is required, however, public hearings and Commission decisions on construction issues may result from these two authorities.
19/ Wyoming PSC has authority over transmission lines only. Authority over plant siting transferred to Industrial Siting Council. Air and water quality administered by Department of Environmental Quality; also water quality by Health Department/US EPA, and water use by the State engineer. Commission evaluates and rules on all matters related to certification of transmission lines.
20/ Commission empowered under Sec 4(e) and 15 of Federal Power Act (FPA) to issue licenses to hydroelectric generating facilities constructed by private and non-Federal public entities. Commission has authority over construction and operation under Secs 9, 10, 11 and 13 of the FPA. Authority to license hydroelectric facilities contained in 18 CFR 4-9, 12 and 16. Jurisdiction over all hydroelectric projects which occupy navigable waters of the US, affect government lands, use water or water power from a government dam, or affect the interests of interstate commerce. Transmission lines licensed by Commission must be primary lines as defined in Sec 3(11) of the FPA, ie, a line connecting the hydroelectric plant with a distribution system or interconnected transmission system. "Certification Required for Bulk Power Supply Facilities."
21/ Board has jurisdiction over construction and equipment costs, but all engineering and environmental considerations are under jurisdiction of Department of the Environment.
22/ Certificate required for transmission lines operated at voltage levels of 150 Kv and higher.
23/ May order continuing requirements; also Certificate states all conditions, permits or licenses required by other State agencies or found necessary during hearing process.
24/ Certificate issued by Siting Board establishes environmental limits which new steam electric generating facility must meet, thus affecting both operational and maintenance requirements.
25/ Certificate issued by PSC for transmission facility requires long-term plan for right-of-way management be filed with Commission for approval.
26/ New additional plant or combination of plants at single site exceeding 100 MW.
27/ Electric generating facilities only.
28/ Generating plants with capacity of 12 MW or greater and transmission lines rated 100 Kv or greater.
29/ Same as for private utilities and cooperatives for facilities outside of three miles from corporate limits of municip. .ties; Commission has no jurisdiction within the 3-mile limit.
30/ Authority vested in State agency other than PUC.
31/ Certificate of public convenience and necessity, issued prior to construction, may include conditions affecting operating and maintenance.
32/ No specific statutory requirement for certificating generating or transmission facilities.
33/ Indiana Code 8-1-8.5
34/ A.C.A. 23-18-503. Generating facilities 50 MW or more; transmission lines 100 KV or more and 10 miles or longer, or 170 KV or more and 1 mile or longer.
35/ Power Siting Board staff are part of PUCO.
36/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
37/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 114 - OTHER AUTHORITY OVER SITING BULK POWER SUPPLY FACILITIES

1/ Arkansas Statutes Chapters 23-18-511; agency regulations and judicial decisions.
2/ CT Siting Council determines environmental compatibility, public need and ultimate location of facility. DPUC has authority over method and manner of construction after certification by Siting Council.
3/ DE PSC Docket 829, Order 1536, Delmarva P&L was ordered to seek PSC approval for future construction contracts by demonstrating need and ability of customers to pay costs of construction. Authority in 26 DE C § 201, 215 and 302.
4/ ID Code § 61-528: financial ability, good faith of applicant, need for additional service, public convenience and necessity. Also, PUC would consider environmental questions under residual jurisdiction.
5/ All electric utilities are publicly owned and operated.
6/ Section 8-406 of Public Utilities Act (IL Rev Stat 1985, Ch 111 2/3, Par 8-406); 83 IL Adm. Code 200 and 305; judicial decisions.
7/ Individual landowners notified by mail. Staff inspects site.
8/ Transmission lines, Ch 478: Franchise required for lines operating at voltage in excess of 34 Kv. Also, Electrical Safety Code.
9/ For general facilities, Code of Iowa Ch 476A, 1989. Agency regulations and judicial decisions also provide guidelines.
10/ Mandatory hearing if written objection is filed after notice, or eminent domain requested.
11/ On projects involving over 1 mile of line over 34.5 kV, there must be an informational Meeting in each county. Board member, counsel or hearing examiner reads summary of legal rights and utility representatives answer questions. Utility may not negotiate easements prior to this meeting.
12/ Request for eminent domain in addition to that for certification; both are heard at the same hearing.
13/ Demand and need; feasibility; environmental compatibility. Standards are in statutes, agency regulations and judicial decisions.
14/ The facility must be justified in terms of need.
15/ Applies to transmission lines of 5000 volts or more.
16/ Article 78 of the Annotated Code of Maryland, § 54A and 54B; Commission regulations.
17/ Commission regulations, however, propound extensive information requests and studies.
18/ By law, local gov't may participate in hearings with Commission but not in decision-making. Commission must consider recommendation of such body and other State agencies, including Depts. of Natural Resources; Health/Mental Hygiene; Transportation; Economic/Employment Dev't and State Planning. Applicants must notify affected property owners of proposed high voltage transmission line at least 30 days prior to a hearing.
19/ Environmental Quality Board (MEQB) certifies site of large (50,000 Kw or more) generating plants and issues construction permits for high voltage (200 Kv or more) transmission lines (MN Stat, § 116C.51-69). Various state agencies issue water appropriation, NPDES, etc. permits. Siting/routing criteria - MN Reg MEQ.C71-75. Before siting or routing process can be completed, PUC must issue Certificate of Need for generating plant of 80,000 Kw or more.
20/ PSC grants certificates of public convenience and necessity for construction of all bulk power plant facilities and transmission lines. PSC holds public hearings to determine need, feasibility, environmental impact. Agency regulations prescribe criteria.
21/ Investor-owned systems do not need certificate if proposed construction is within certificated service areas. No separate certificate needed for operation & maintenance. Operation/maintenance expenses are reviewed for reasonableness. Certification standards in statutes, judicial decisions.
22/ PUC must find that proposed facility is needed and will not adversely affect system reliability and economic factors. New Hampshire Site Evaluation Committee holds joint hearings with PUC to determine that proposed project: (1) will not unduly interfere with regional development giving due consideration to local views; and (2) will not have adverse effect on aesthetics, historic sites, environment, public health and safety. These findings are sent to PUC which makes its own findings then issues its decision. Certificate of Site and Facility, which is final, subject to judicial review.
23/ BPU does not require certification of construction, operation or maintenance of electric generating equipment and transmission. It does have broad powers under NJSA 48:2-13 to ensure safe, adequate and proper utility service. Under NJSA 48:2-23, Board has authority to require utility to perform in a manner that preserves the quality of environment and prevents pollution. Under various other requirements, electric utilities are closely monitored through such proceedings as financing, zoning and planning, eminent domain and condemnation proceedings, and safety in general. Docket No. 762-194 is an inquiry into reasonableness of present and planned construction programs of all electric utilities.
24/ Commission approval required for generating stations of 300,000 Kw or more or transmission lines of 230 Kv or more contingent on compliance with environmental standards. Prior certification required for construction or operation of any plant or system.
25/ By statute, Attorney General may intervene on behalf of consumers.
26/ Decision must be based on record. For construction, applications must find: (1) need for facility; (2) probable environmental impact; (3) minimum adverse environmental impact; (4) that facility is consistent with long-range planning objectives. For operation and maintenance, NYPSC has issued orders on required maintenance to assure reliable and adequate capacity.
27/ NCUC Rule R8-42 and R8-43 and NCGS 62-110.1 require certificate of convenience and necessity. NCUC rules require investigation into: (1) need for new facility; (2) economic justification for type of facility; (3) site specific environmental impact; (4) alternative facilities and sites; (5) safety.
28/ Hearing mandatory if requested by complainant.
29/ Separate Energy Facility Siting Council.
30/ Siting authority of Rhode Island PUC and DPU is derived from its oversight of eminent domain and issuance of securities. No certificate for construction is required, however, public hearings and Commission decisions on construction issues may result from these two authorities.
31/ Property dedicated to public use, as set out in statutes and judicial decisions.
32/ General criteria - VTCS 1446c & TAC Title 16, Ch 23: nondiscrimination, adequacy of existing service, need for new service, effect of grant on recipient/other like utilities, factors such as community values, recreation/park areas, historical/aesthetic values, environmental integrity, cost.
33/ Must demonstrate public convenience and necessity and minimize adverse environmental impact.
34/ Wyoming PSC has authority over transmission lines only. Authority over plant siting with Industrial Siting Council. Air/water quality administered by Dept. of Environmental Quality; also water quality by Health Department/US EPA, and water use by the State engineer. Commission evaluates and rules on all matters related to certification of transmission lines.
35/ Authority under 4(e) and 15 of Federal Power Act (FPA) to issue licenses to hydroelectric generating facilities constructed by private and non-Federal public entities. Authority over construction and operation under § 9, 10, 11, 13 of FPA. Authority to license hydroelectric facilities in 18 CFR 4-9, 12 and 16. Jurisdiction over all hydroelectric projects which occupy navigable waters of the US, affect government lands, use water or water power from a government dam, or affect the interests of interstate commerce. Transmission lines licensed by FERC must be primary lines as defined in § 3(11) of FPA, ie, a line connecting the hydroelectric plant with a distribution system or interconnected transmission system. FERC also has some certification authority under § 201 of PURPA over cogenerators/small power producers, ie Qualified Facilities (QFs). However QF certification only establishes eligibility for PURPA § 210 benefits.
36/ All applications for license and amendment of license circulated for comment to all appropriate Federal, State and local agencies. Any person may also comment on applications. § 4(e) of FPA specifically requires comments from Depts of Interior and Agriculture and US Corps of Engineers.
37/ Certificate issued under Art VII or VIII of Public Service Law cannot grant right of eminent domain to applicant. Applicant already possessing this right must obtain certificate before exercising it.
38/ Board has jurisdiction over construction/equipment cost approval; engineering/environmental considerations under Department of the Environment.
39/ Power Siting Board staff are part of PUCO; PSB statute permits joint hearings with other states.
40/ Public utilities have the right of eminent domain without certification.
41/ Jurisdiction over electric utilities ended June 17, 1988; current jurisdiction over gas only.
42/ Commission did not respond to requests for update information; this data may not be current.

INTRODUCTION
ON-SITE CONSTRUCTION MONITORING OF LARGE GENERATING PLANTS

During May 1983, at the request of the New York Public Service Commission, the NARUC conducted a survey of the State public utility commissions regarding on-site construction monitoring of large generating plants. The questionnaire is reproduced below. The following table was compiled from responses to the survey; each year the Annual Report is submitted to each regulatory agency with the request that all information be updated.

1. Are you presently engaged in on-site construction monitoring of large generating plants?

2. Do you have any plans for such monitoring in the future?

   If yes, approximately when?

3. If yes to question number 1 or 2, what project(s) are you, or will you be, monitoring?

   (Project name[s]; type of project; name, address and phone number of contact person.)

4. Comments

TABLE 115 - ON-SITE CONSTRUCTION MONITORING OF LARGE GENERATING PLANTS

ARIZONA CC	NO	NO		
ARKANSAS PSC	NO	NO		
CALIFORNIA PUC	NO	YES		Will use Board of Consultants on sensitive projects. Staff will review progress and visit sites in case of trouble.
COLORADO PUC	NO	NO		PUC staff monitored Pawnee Unit I (PS Co.) on-site to determine if it would be commercial before end of 1982, since it was included in rate base in forecasted test year in a rate case.
CONNECTICUT DPUC	NO	NO		DPUC cooperates with CT Siting Council which has primary authority over this issue.
DELAWARE PSC	NO	NO		
D.C. PSC 2/	NO			No generating plants under construction.
FLORIDA PSC	YES		FP&L-Ft. Lauderdale Plant, Martin Pland Site; JV of FP&L & JEA-St. Johns. Contact Leon Cherok, 1313 Tampa St., Ste 901, Tampa (813) 272-3911	One generating plant in planning stage; major modifications planned for one generating plant.
GEORGIA PSC	YES		Plant Vogtle #1 and 2 (nuclear), Plant Scherer (coal). Contact B.B. Knowles, 244 Washington St. Atlanta 30334 404/656-6357	Prudence audits (consultants and staff team) conducted with PSC funds under auspices of Attorney General's Office.
HAWAII PUC	NO	YES, 1995 or later		
IDAHO PUC	NO	NO		
ILLINOIS CC	YES	YES	Periodic inspections.	No plants under construction or planned.
INDIANA URC	NO	NO		No major construction anticipated next 10 years.
IOWA SUB	NO	NO		
KANSAS SCC	YES	YES	Jeffrey No. 4 and Iatan No. 2	Considering IPL's application for 83 Mw plant
		1995 or later		
KENTUCKY PSC	NO	YES	Louisville Gas & Electric: New Electric Gen. Plant; Contact W. Bates, KY PSC 502/564-7446.	Information submitted is conditioned upon the planned expansion of the Electrical Section of the Engineering Division.
LOUISIANA PSC	NO	NO		
MAINE PUC	NO	NO		
MARYLAND PSC	YES	YES		All generating plants periodically inspected.
MASSACHUSETTS DPU	NO	NO		No plants under construction or planned.
MICHIGAN PSC	NO	NO		No other plants being built.
MINNESOTA PUC	NO	NO		
MISSISSIPPI PSC	YES	YES	Grand Gulf Nuclear Station, when construction resumes. Contact Bill Summers, 601/961-5493.	
MISSOURI PSC	NO	NO		All plants completed; none planned.
MONTANA PSC	NO	NO		
NEBRASKA PSC	--	--	Does not regulate electric utilities	No jurisdiction.
NEVADA PSC	NO	NO		
NEW HAMPSHIRE PUC	YES	YES	Seabrook I, II. Contact Edward Schmidt, Chief Engineer, Concord 603/ 271-2431	
NEW JERSEY BPU	YES	YES Hope Creek const. done. Commercial operation began 12/20 1986	(1)Oyster Creek-2nd Phase. Rework & modification of 650 Mw Nuclear Unit. Utility Contact Edward O'Connor, Special Asst. Tech. Functions, GPU Nuclear, Parsippany 201/ 263-2245. BPU Contact: Tom Gould, Nuclear Engineer, Div. Electric, Newark 201/648-2219. (2) Salem I, Salem II Nuclear Units (both 1070 MW) and Hope Creek I 1057 MW Nuclear Unit. Utility Contact: Larry Codey, VP & Corp. Rate Counsel, Public Service E&G, Newark 201/430-6503 BPU Contact: Marty Van Ess, Nuclear Engineer, Newark 201/648-2057.	(1) On-Site Monitoring: periodic monthly to quarterly site visits and briefings. (2) Besides Nuclear Engineers, other internal staff and consultants performing special audit for the (Board) BPU.
NEW MEXICO PSC	NO	NO		No construction plans until after 2000.
NEW YORK PSC	YES		Nine Mile 2 Nuclear. Contact Dyke Farrow, Chief Systems Ops. NYS DPS, Albany 518/473-0766	Are also retained to perform special audits for Commission.
NORTH CAROLINA UC	NO	NO		
NORTH DAKOTA PSC	NO	NO		

TABLE 115 - ON-SITE CONSTRUCTION MONITORING OF LARGE GENERATING PLANTS (Continued)

	(1)	(2)	(3)	(4)
AGENCY	Does On-Site Construction Monitoring	Plans Future Monitoring When?	Project(s) and Contact Person	Comments
OHIO PUC	NO	YES	When facility is built.	No new facilities currently proposed.
OKLAHOMA CC	NO	NO		CC has used consultants to evaluate completed projects for contracts, schedules, quality of work, contractor performance. This would continue and perhaps be expanded in the future.
OREGON PUC	NO	NO		Construction management reviews near completion of projects.
PENNSYLVANIA PUC	YES		Beaver Valley II; Limerick II Nuclear	All electric generating projects over $100 M.
RHODE ISLAND 2/	NO	NO		
SOUTH CAROLINA	YES	YES		All generating facilities periodically inspected
SOUTH DAKOTA PUC	NO	NO		
TENNESSEE PSC	NO	NO		TVA operates all generating plants in State. Commission has no jurisdiction over TVA.
TEXAS PUC	YES		Construction of nuclear and fossil generating units. 1/	On-site monitoring: periodic monthly to quarterly site visits and briefings.
UTAH PSC	NO	NO		Review management reports to monitor.
VERMONT PSB	NO	NO		No large construction projects.
VIRGINIA SCC	YES	YES	New construction and capacity additions.	
WASHINGTON UTC	NO	NO		On-site construction monitoring is responsibility of Energy Facility Site Evaluation Council
WEST VIRGINIA PSC	NO	YES unsure	Generating Units, projects uncertain. Earl E. Melton, WV PSC, Charleston, 304/340-0392	No new large generating plants planned until after year 2000.
WISCONSIN PSC 2/	YES	YES	Contact Lenny F. Smith, PSCW, Madison WI 608/266-3165 and David O'Connell, PSCW, Madison WI 608/266-9640.	
WYOMING PSC	YES	YES	None in progress.	Will monitor construction of generating plant when needed; none planned.
ALBERTA PUB	NO	NO		

FOOTNOTES - TABLE 115 - ON-SITE CONSTRUCTION MONITORING OF LARGE GENERATING PLANTS

1/ Nuclear Power Plants: El Paso Electric Co. - Palo Verde Units 1-3; Gulf States Utilities - River Bend Unit 1; Houston Lighting & Power Co. - South Texas Units 1 & 2; Texas Utilities - Commanche Peak Units 1 & 2. Coal/Lignite Power Plants: Gulf States Utilities; Houston Lighting & Power Co. - Limestone Units 1 & 2; Lower Colorado River Authority - Fayette 3; Southwestern Electric Power Co. - Pirkey Unit 1, Dolet Hills Unit 1; Southwestern Public Service Co. - Tolk Unit 2; Texas Utilities - Forest Grove Unit 1, Martin Lake Unit 4, Twin Oak Units 1 & 2; West Texas Utilities - Oklaunion Unit 1. Planned Power Plants not Currently Certified: Central & South West - Coleto Creek Unit 2, Walker County Units 1 & 2, Inola Unit 1; Texas Municipal Power Pool - San Miguel Unit 2, Gibbons Creek Unit 2, Brazos Lignite Units 1 & 2.

2/ Commission did not respond to requests for update information; this information may not be current.

TABLE 116 - AVERAGE VOLTAGE LEVEL REQUIREMENTS

AGENCY	AVERAGE VOLTAGE LEVELS REQUIREMENTS
FERC	Voltages specified in contracts on file are enforceable, if approved.
ALABAMA PSC	120 ± 6%
ALASKA PUC	In the process of being established.
ARIZONA CC	ANSI C-84.1, 1977.
ARKANSAS PSC	The voltage supplied to the customer shall not exceed ± 5% from nominal.
CALIFORNIA PUC	114-122 volts established by Commission policy letter to all electric utilities dated 2/6/77. Commission established voltage levels within range of 114-120 volts in Phase II of its Conservation Voltage Reduction Program for qualifying circuits wherever possible.
COLORADO PUC	Company is to maintain voltage at ± 5% of standard voltage filed in its tariff (normally 120 volts for lighting purposes and ± 10% of filed standard power purposes.
CONNECTICUT DPUC	3% above and 5% below standard voltages.
DELAWARE PSC	120 ± 10%
DC PSC	120.
FLORIDA PSC	Residential purposes: ± 5%. Industrial power purposes: ± 7.5% standard voltage.
GEORGIA PSC	120.
HAWAII PSC	1. Secondary voltages: Retail service except power service, ± 5%; Retail power service, ± 7.5% 2. Primary voltages, ± 5% 3. Transmission voltages, ± 10%
IDAHO PUC	± 10%
ILLINOIS CC	120 ± 7 volts
INDIANA URC	5% ± of residential standard adopted by each utility and filed with URC
IOWA SUB	Service voltages to ultimate consumers must be within limits established by ANSI C84.1, 1977 and C84.1a, 1980. Three-phase voltages must be balanced, ratio of maximum voltage not to exceed 0.02.
KANSAS SCC	Recommended 120 ± 5%
KENTUCKY PSC	120 ± 5% for lighting and ± 10% for power use.
LOUISIANA PSC	
MAINE PUC	± 5%
MARYLAND PSC	120 ± 5%, also 12 other standard levels (higher and/or bilevel).
MASSACHUSETTS DPU	Not established.
MICHIGAN PSC	120 ± 5%
MINNESOTA PUC	Not established.
MISSISSIPPI PSC	± 10% nominal voltage adopted.
MISSOURI PSC	4 CSR, 240-10.030
MONTANA PSC	120 ± 6%
NEBRASKA PSC	No regulation.
NEVADA PSC	Not established.
NEW HAMPSHIRE PUC	Secondary voltages: min 110, max 125 & multiples thereof; primary voltages: ± 10% nominal
NEW JERSEY BPU	± 4 period of 5 minutes or greater; ± 4% for other periods.
NEW MEXICO PSC	Commission has authority but has not regulated.
NEW YORK PSC	Commission order 12/17/84 established range of 114-123V circuits where such a range can be maintained without requiring major capital investments.
NORTH CAROLINA UC	120-240V required, any other voltage levels must be on file. ± 5% variation allowed on residential or specific lighting service; ± 10% variation allowed on any other service. Also 5% voltage reductions are recommended if no additional capital improvements will be required.
NORTH DAKOTA PSC	120-240.
OHIO PUC	Allowable optimum voltage 120/240 ± 5%
OKLAHOMA CC	As established by ANSI C84-1-1984.
OREGON PUC	120-240 ± 5%
PENNSYLVANIA PUC	± 5% of each utility's standard voltage and a total variation of 8% for primary power service. Standard nominal service voltages specified in utility tariffs have been acceptable.
PUERTO RICO PSC	
RHODE ISLAND PUC	113 to 123 with seven other standard levels.
SOUTH CAROLINA PSC	For lighting ± 5% of standard voltage. For power ± 10%
SOUTH DAKOTA PUC	Regulation effective 7/1/75. No voltage level requirements have been set.
TENNESSEE PSC	± 5% of each utility's standard voltage.
TEXAS PUC	± 5% of each utility's standard voltage.
UTAH PSC	± 6% There are exceptions, but most utilities maintain variations less than stated.
VERMONT PSB	120 ± 5%
VIRGIN ISLANDS PSC	None established.
VIRGINIA SCC	± 5% in residential urban areas; ± 7.5% other classes in urban areas and all classes in rural area
WASHINGTON UTC	WAC 480-100-191.
WEST VIRGINIA PSC	112-127 v for secondary customers; 10% ± of base voltage for power customers.
WISCONSIN PSC	Basically ± 5% in urban areas; ± 6% in rural areas.
WYOMING PSC	Utility must adopt "standard nominal voltage" for each of its "districts" and maintain within limits specified in ANSI C84.1
ALBERTA PUB	As established by CSA standard C235-69.
NOVA SCOTIA PUB	No regulation.

TABLE 117 - STATE REGULATION OF PRIVATE OUTDOOR LIGHTING SERVICE

The following table was compiled from State commission responses regarding the exercise of regulatory jurisdiction over the provision of private outdoor lighting service by electric utilities. "Private outdoor lighting service" is defined as commission-approved tariffs or contracts whereby an electric utility provides non-government customers with outdoor lighting fixtures (under lease, lease-purchase or otherwise) and the energy with which to operate them.

	Commission Regulates Private Outdoor Lighting Service		Commission Regulates Private Outdoor Lighting Service

Montana PSC	Yes		

1/ On 3/27/78, Commission ordered Virginia Electric and Power Co. (now Virginia Power) to stop offering and furnishing outdoor lighting service, equipment and facilities. In the two-to-one decision, SCC found that cost necessary to provide the service is not an expense properly attributable to cost of installing and maintaining facilities devoted to public use. "Accordingly, we find that this property should not be included in the utility's rate base" said the majority SCC opinion. Case was appealed to Virginia Supreme Court and was sustained. The 1988 State legislature requested Commission to study the desirability of outdoor lighting by Virginia Power for residential applications only. Commission approved a one-year trial beginning November 1988 which will be evaluated at the end of the trial and reported to legislature.
2/ Being phased out.
3/ Oklahoma Supreme Court required outdoor lighting for Public Service Company of Oklahoma to be removed from rate base.
4/ It is a limited service rate that is no longer available. There is no new installations or relocations under this rate as of May 1, 1985.
5/ Commission did not respond to requests for update information; this data may not be current.

SECTION 5

GAS

Authority of agencies to regulate natural gas production is shown in Table 118. There is no natural gas production in many states.

Table 119 reflects the State policy on attachment of new gas customer and new gas loads by natural gas distribution companies under State jurisdiction.

Tables 120 and 121 show State participation in the State Gas Pipeline Safety Program pursuant to Section 5 of the Natural Gas Pipeline Safety Act of 1968 (49 USCA, Sec. 1674).

Table 122 reflects the extent of State safety jurisdiction over hazardous liquid pipelines.

Table 123 shows agency participation in safety regulation of rural gas gathering.

Table 124 describes agency policy as to requiring flow-through to consumers of refunds received by gas distributors from interstate natural gas pipeline companies.

Authority of agencies to set safety standards regarding the installation and operation of bottled gas service is shown in Table 125.

Tables 126 and 127 contain composite statewide statistics for all privately owned gas utilities under agency jurisdiction. The data include plant, revenues and expenses, customers, average annual residential use, average residential cost per Mcf, average residential monthly bill and gross plant investment per customer.

Table 128 provides a state-by-state analysis of prevailing policies in effect or proposed for the handling of high cost incremental gas supplies.

Tables 129 and 130 provide information on gas and oil prices for selected cities.

Tables 131 and 132 reflect data concerning gas metric conversion.

TABLE 118 - AGENCY AUTHORITY OVER NATURAL GAS PRODUCTION

AGENCY	Agency has the authority to: Regulate volume & rate of production	Regulate spacing of wells	Regulate rates on well-head contracts	No natural gas production	Agency does not regulate natural gas	Foregoing authority rests with another State agency

FOOTNOTES - TABLE 118 - AGENCY AUTHORITY OVER NATURAL GAS PRODUCTION

1/ Rateable take on a reservoir basis. Rate of production determined by hearings based on market demands.
2/ Maximum rate of gas well gas production based on percentage of open flow capacity. Oil well gas production, where restricted, based on gas oil ratios. No rateable take for oil well gas production. Rateable take for gas well gas production under standard commission rules, based on formula giving equal weight to gross flow capacity and acreage factor. Acreage factor depends on size of producing unit and location of well on unit. Majority of gas well gas production is state pro-rated, based on formula giving dominant weight to pay rock volume attributable to producing unit.
3/ Rateable take is on a reservoir and statewide basis. Rate of production is determined by market demand.
4/ Rateable take is on a reservoir and system basis.
5/ Well spacing regulated on fields discovered after October 1963 by Dept. of Environmental Conservation.
6/ Yes, if for resale to interstate commerce.
7/ Some jurisdiction.
8/ Limited to changes in initially filed rates and conditions of service.
9/ Authority to regulate the volume and rate of production and the spacing of wells.
10/ Oil well gas production and well spacing jurisdiction.
11/ Unitizing and flaring control.
12/ Commission did not respond to requests for update information; this data may not be current.

INTRODUCTION

STATE POLICY ON ATTACHMENT OF NEW GAS CUSTOMERS AND NEW GAS LOADS BY MAJOR NATURAL GAS DISTRIBUTION COMPANIES UNDER STATE JURISDICTION

The information reflected in Table 119 was developed in response to the following questions:

1. (a) Number of major gas distribution companies serving the State.

(b) Number of major gas distribution companies in the State attaching new customers or additional loads during this year.

Approximate percentage of Mcf in State sold by these utilities.

(c) Number of major gas distribution companies attaching the following categories of customers: (A single company may be listed in more than one category.)

Category
- Residential
- Small commercial
- Large commercial
- Industrial
- Interruptible

(d) Number with waiting list of applicants.

(e) Number without waiting list of applicants.

2. (a) Does State law require gas distribution companies to provide service on request?

(b) Do State Commission rules and regulations require gas distribution companies to provide service on request?

(c) May a distribution utility, on its own authority, refuse to provide service within its service area if gas supplies are unlimited?

3. Number of major gas distribution companies with "gas limitation" or "controlled attachment" plans, active or inactive.

Approximate percentage of State population covered.

4. Number of major gas distribution companies with "gas curtailment plans", active or inactive.

Approximate percentage of State population covered.

5. For those major companies in the State adding new customers or loads, indicate the source of gas supply to service such customers. (A single company may be listed in more than one category.)

Category
- Interstate pipeline supply
- Intrastate supply
- Underground storage
- LNG
- SNG
- LPG
- Exploration and development (all types)
- Conservation
- Converting interruptible
- Converting boiler fuel
- Other (specify)

6. Has the State Commission made a policy statement, by order or decision, as to attachment of new customers or new loads by gas distribution companies within the State during the national gas shortage?

FOOTNOTES - TABLE 119 (Continued)

13/ All major gas companies have curtailment plans on file; all plans are currently suspended. If shortages arise, they will be reactivated.
14/ DPUC regulates only 4 companies; City of Norwich provides gas service within municipal boundaries. Regulated companies must be able to meet design year requirements for firm demand of existing and new customers.
15/ Repealed.
16/ These supplies received on an indirect basis.
17/ Interstate pipelines serve California up to the state border.
25/ Commission did not respond to request for update information; this data may not be current.

* C= Certification A=Agreement

1/ Gas Safety Engineers.
2/ State withdrew from agreement in 1981.
3/ 25% of Administrative Engineer and 25% of Public Utility Engineer's time on gas pipeline safety.
4/ All investigators are engineering graduates.
5/ One spends 25% of his time inspecting hazardous liquid operators.
6/ Gas industry and safety program combined experience.
7/ Gas utility engineers.
8/ Includes supervisor of section.
9/ Includes inspectors and Engineers.
10/ Jurisdiction of Dept. of Conservation.
11/ Commission did not respond to requests for update information; this data may not be current.

6/ Of the $289,783 total expenditures, the Federal Government reimbursed $95,602. Records for this program are not maintained on an individual item basis consistent with this format. During 1988, there were two full-time and one part-time engineers making inspections, plus one part-time graduate engineer administering the program and making inspections.
7/ Amounts listed as Federal Funds are actually funds raised from user fees deposited to a dedicated Pipeline Safety Account.
8/ Federal reimbursement not yet received.
9/ Administered by the Department of Conservation.
10/ State will withdraw from the agreement 12/31/89.

INTRODUCTION

STATE SAFETY JURISDICTION OVER HAZARDOUS LIQUID PIPELINES

The Congress enacted the Pipeline Safety Act of 1979 (Public Law 96-129), which was signed into law by the President on November 30, 1979. Title II of the Act established a Federal-State partnership for the safety regulation of the transportation of hazardous liquids by pipeline (49 USC, Sec 2001, et seq), which is similar to that established by the Natural Gas Pipeline Safety Act of 1968 (49 USC, Sec 1671, et seq).

The 1979 Act defined "hazardous liquid" to mean: "(A) petroleum or any petroleum product, and (B) any substance or material which is in liquid state (excluding liquefied natural gas) when transported by pipeline facilities and which, as determined by the Secretary, may pose an unreasonable risk to life or property when transported by pipeline facilities". 49 USC, Sec 2001(2).

The following table reflects State safety jurisdiction over "hazardous liquid" to the extent reported to the NARUC.

TABLE 122 - STATE SAFETY JURISDICTION OVER HAZARDOUS LIQUID PIPELINES

1/ Partial jurisdiction over LP gas distribution systems.
2/ Effective 3/85, intrastate.
3/ Effective 3/85, petroleum byproducts and anhydrous ammonia.
4/ Has authority, but was not given certification by US DOT over 2 existing interstate pipelines.
5/ Administered by State Fire Marshal.
6/ Will seek authority.
7/ Has authority but has not adopted rules or entered into a DOT agreement for enforcement.
8/ Effective 3/85, petroleum byproducts and anhydrous ammonia by Department of Agriculture.
9/ Commission did not respond to requests for update information; this data may not be current.

1/ The term "rural gas-gathering pipelines" is defined in the exception contained in Sec 2(3) of the Natural Gas Pipeline Safety Act of 1968 [49 USC, Sec 1671(3)].
2/ Only those owned and operated as utility property.
3/ Only over storage field injection, withdrawal lines and compressor station.

TABLE 124 - AGENCY POLICY ON FLOW-THROUGH TO CONSUMERS OF REFUNDS

AGENCY	AGENCY POLICY AS TO REQUIRING FLOW-THROUGH TO CONSUMERS OF REFUNDS RECEIVED BY GAS DISTRIBUTORS FROM INTERSTATE NATURAL GAS PIPELINE COMPANIES.
ALABAMA PSC	All refunds passed on to customers.
ALASKA PUC	Not applicable.
ARIZONA CC	Proportioned on revenue basis.
ARKANSAS PSC	All refunds passed on to customers, plus interest.
CALIFORNIA PUC	All refunds passed on to consumer, plus interest.
COLORADO PUC	Refunds passed on to consumers, plus interest.
CONNECTICUT DPUC	Timely and pro rata distribution to all customers on an equitable basis.
DELAWARE PSC	All refunds passed on to customer.
DC PSC	All refunds passed on to customer, plus interest.
FLORIDA PSC	All refunds passed on to consumer, plus interest.
GEORGIA PSC	Credit given on customer's bill; total amount plus interest in PGA, unless Commission orders otherwise
HAWAII PUC	None.
IDAHO PUC	Each case decided on individual basis; usually adjusted in next increase unless refund is significant. some have been ordered to refund to customers.
ILLINOIS CC	Automatic refund to customers.
INDIANA URC	All refunds passed to customers as a credit to the cost of purchased gas.
IOWA SUB	All refunds passed back to customers either in form of bill credit or check, plus interest.
KANSAS SCC	All of the refund flowed through to consumers.
KENTUCKY PSC	Generally offset against increases or credit to future billing.
LOUISIANA PSC	May be offset against purchased gas adjustment increases or credited to future billings.
MAINE PUC	Flow-through of refunds through provisions of purchased gas adjustment clause.
MARYLAND PSC	Total amounts received are refunded with interest over a 12-month period.
MASSACHUSETTS DPU	Usually refunded over a period of 12 months by credits and charges.
MICHIGAN PSC	Authorized rates based on pipeline rates. When such are subsequently reduced by FERC, refunds are made to customers. Standard refund policy and procedure implemented.
MINNESOTA PUC	All refunds passed on to consumer, plus interest at prime rate.
MISSISSIPPI PSC	Cash refunds based on average consumption to present customers.
MISSOURI PSC	Pass all refunds back to ultimate customers consuming gas or to present customers.
MONTANA PSC	No experience.
NEBRASKA PSC	None. Telephone is only utility regulated.
NEVADA PSC	Subject to investigation and hearing.
NEW HAMPSHIRE PUC	Credit on bill or offset to PGA.
NEW JERSEY BPU	Through adjustment clause or direct credit.
NEW MEXICO PSC	If rate has a purchased cost or gas adjustment clause, it works for increases and decreases.
NEW YORK PSC	Principal plus interest, less company use, through GAC or lump sum, plus interest on refunds held from the time received by utility, until its distribution to customers.
NORTH CAROLINA UC	Refunds are accumulated, then dispersed periodically with interest.
NORTH DAKOTA PSC	By PGA.
OHIO PUC	Refunds are accumulated, then dispersed periodically with interest.
OKLAHOMA CC	Refund either to customer who used the gas or present customer.
OREGON PUC	Utilities required to flow-through refunds.
PENNSYLVANIA PUC	With adoption of Commission's gas cost rate surcharge, all refunds are now flowed-through to consumer.
PUERTO RICO PSC	None.
RHODE ISLAND PUC	Direct refund to customers as credit on subsequent billings.
SOUTH CAROLINA PSC	Total amounts received are refunded to present customers (plus interest).
SOUTH DAKOTA PUC	Total amounts received are refunded to present customers.
TENNESSEE PSC	Refunded over 12-month period as a credit on bill.
TEXAS RC	All refunds passed on to consumer plus interest.
UTAH PSC	Refunds required to consumers in cases where increased rate charged by pipeline company has been included in consumer rate pursuant to Commission authorization.
VERMONT PSB	N/A.
VIRGIN ISLANDS PSC	N/A.
VIRGINIA SCC	Flow-through of refunds through purchased gas adjustment clause.
WASHINGTON UTC	Commission shall have power after a hearing, upon its own motion, upon complaint, or upon application of such company, to determine whether or not such refund should be passed on, in whole or in part, to consumers of such company and to order such company to pass such refund on to its consumers, in the manner and to the extent deemed just and reasonable by the Commission.
WEST VIRGINIA PSC	All refunds passed on to consumers.
WISCONSIN PSC	All refunds are passed on to customers.
WYOMING PSC	On basis of use with money refunded if large enough or otherwise bill adjustment. Company allowed expenses for cost of refund.
ALBERTA PUB	Not applicable.
NOVA SCOTIA PUB	Not applicable.
ONTARIO EB	All refunds passed on to customers.
QUEBEC NGB	All refunds passed on to customers.

TABLE 125 - SAFETY STANDARDS FOR BOTTLED GAS

AGENCY	Agency has set standards for installation & operation of bottled gas service	Safety standards for installation and operation of bottled gas service has been established by another State or local authority	
			Name of Agency
ALABAMA PSC		X	Liquefied Petroleum Gas Board.
ALASKA PUC		X	Division of Fire Prevention & Dept. of Public Safety

SOUTH DAKOTA PUC		X	Department of Public Safety
TENNESSEE PSC		X	State Fire Marshal Dept. of Insurance & State Labor Dept. for Tanks
TEXAS RC	X		
UTAH PSC		X	State Fire Marshal's Office
VERMONT PSB	X		Department of Public Service
VIRGIN ISLANDS PSC	4/	X	Department of Public Safety
VIRGINIA SCC		X	Dept. of Housing & Office of State Fire Marshal. Community Dev't.
WASHINGTON UTC		X	Fire Marshal & Dept. of Labor/Industries. Companies observe NFPA Standards
WEST VIRGINIA PSC		X	State Fire Marshal
WISCONSIN PSC 4/		X	Department of Industry, Labor & Human Relations
WYOMING PSC		X	State Fire Marshal
ALBERTA PUB		X	Department of Labor - Alberta.
NOVA SCOTIA PUB 4/		X	Fire Marshal
ONTARIO EB		X	Ministry of Consumers and Commercial Relations, Fuel Safety Branch
QUEBEC NGB	X		

1/ Limited to installations of ten or more customers served from same tank.
2/ Has jurisdiction depending upon physical state of the gas and operation of system as a public utility.
3/ Two are housing authority operated; three are utility operated. All others serving nine or less customers are inspected by the Department of Agriculture.
4/ Commission did not respond to requests for update information; this data may not be current.

INTRODUCTION

SUPPLEMENTAL GAS SUPPLY PRICING PRACTICES

The NARUC Staff Subcommittee on Gas in May 1977 decided to undertake a state-by-state analysis of prevailing policies in effect or proposed for the handling of high cost incremental gas supplies to determine (1) the present practices of the states with respect to rolled-in pricing of supplemental gas supply vs. incremental pricing of supplemental gas supply and (2) if there are any changes in policy progress.

The questionnaire below was designed to basically determine the types of supplemental gas supplies added to state distribution systems over the last three years and the method of pricing such gas to the ultimate consumer.

Question 1. What types of supplemental gas supplies have been added by your state's distribution utilities in the past three years, approximately?

Question 2. How was the supplemental gas priced to the ultimate consumer for each type of supplemental supply reported under Question 1: rolled-in, incrementally, or other?

Question 3. If the state agency has issued a statewide pricing policy for supplemental gas, what is the pricing policy with respect to rolled-in, incrementally or other pricing methods?

Question 4. Is the state agency currently studying or contemplating a change in the method of pricing any new supplemental supply to the ultimate consumer?

Question 5. If the answer to Question 4 is yes, which types of supplemental supply are being considered for a change in pricing policy?

Question 6. If a pricing policy is being considered, what pricing method is under consideration: rolled-in, incremental or other?

In January 1989 all regulatory agencies were requested to mark up a complementary copy of the 1987 Annual Report so as to accurately reflect current conditions as of December 31, 1988.

N/A = NOT APPLICABLE

1/ Connecticut has adopted statewide plan on incremental pricing for customers affected.
2/ Have limited propane system, survey does not apply.
3/ Delaware utilities purchase supplemental gas on the spot market. No gas is manufactured in the state.
4/ Individual case-by-case.
5/ Distribution.
6/ Industrial.
7/ United Gas Company only.
8/ Fixed costs to commercial and industrial customers, feedstock costs to all customers; partial incremental pricing.
9/ Does not regulate prices.
10/ Information not available.
11/ One company is in the testing stage.
12/ Applied to all new gas that is above average price.
13/ Emergency gas purchased for the 1977-1978 winter season was fully rolled-in to all customers on a prorated basis by a formula giving weight to the benefits which the respective classes of customers receive from the purchase of this gas. None in 1984, 85, 86, 87, 88.
14/ From Mexico.
15/ Exchange gas through trades, pipeline purchases.
16/ In one case cost charged incrementally to industrial customers, which otherwise would have been interrupt
17/ Commission did not respond to request for update information; this data may not be current.

INTRODUCTION

GAS PRICES IN COMPARISON WITH COMPETING FUEL PRICES

During May 1979, the NARUC Gas Subcommittee made a telephone survey of state regulatory agencies to determine the current rate charges for residential, commercial, industrial, interruptible and steam electric generation gas service across the nation. The Committee also requested information from the agencies as to current prices of Number 2 and Number 6 fuel oil and propane. Data was requested for the major metropolitan areas for each state.

In January 1989 all regulatory agencies were requested to mark up a complementary copy of the 1987 Annual Report so as to accurately reflect current conditions as of December 31, 1988.

Oil and propane prices reported were gathered on a best-effort basis and in some cases may represent posted prices rather than actual prices paid by consumers in a highly competitive market place. In cases where more than one gas rate option existed for a customer classification, data was requested for the rate classification with the majority of the customers served thereunder. Therefore, some special rate charges designed to meet the requirements of a few specific industrial customers will not be included in the reported data. Persons using the data presented herein should be cognizant of these limitations of the data and make judgments appropriate for the circumstances.

Using the rate data obtained, the average unit charge for each rate classification for each state and for each metropolitan area was determined. Customer consumption levels were chosen for each rate classification which represents an average consumption for the classification. Consumption levels used were: residential, 70; commercial, 500; industrial, 2,000; interruptible, 5,000; and steam electric generation, 50,000 therms per month.

Oil and propane charges reported by the regulatory agencies were converted to equivalent charges for gas for comparative purposes.

The following table summarizes the results of the computations made for each rate classification, for each state and its metropolitan areas. Comparisons of gas prices and competing fuel prices may be made directly from the table showing the summary of prices by states. A second table lists the states with higher gas prices than oil prices for the following comparisons: Industrial rates versus No. 2 oil and No. 6 oil; Interruptible rates versus No. 2 oil and No. 6 oil.

TABLE 129 - AVERAGE GAS PRICES & COMPETING FUEL PRICES FOR SELECTED US CITIES

STATE	CITY	MONTHLY AVERAGE GAS PRICES-CENTS/THERM					EQUIVALENT CENTS/THERM		
		Resident. (70 T)	Commer. (500 T)	Industr. (2000 T)	Interrupt. (5,000 T)	Steam Elec. (50,000 T)	No. 2 Oil	No. 6 Oil	Propane

KEY: N/A= Not available.

NOTE: The above data is based on the following equivalencies: LP Gas - 4,001,000 Btu/BLL; No. 2 Fuel Oil-5,825,000 Btu/BLL; No. 6 Fuel Oil-6,200,000 Btu/BLL.

FOOTNOTES - TABLE 129

1/ Interruptible service not available at 5,000 T/month usage level.
2/ Average since there is a summer/winter rate differential and a volume differential.
3/ Special contract rates.
4/ There are four rate schedules for interruptible customers with minimum annual usage requirements of 10,000,000 T, 2,000,000 T, 600,000 T and 200,000 T respectively. Each schedule has a monthly fixed charge of $750.00. The monthly average rate given here is based on 200,000 T/year or 15,000 T/month rate including the fixed charge.
5/ These rates include monthly customer charges.
6/ Rate to one electric power plant customer not considered interruptible.
7/ Average of summer and winter rates with $5.00 net monthly customer charge included.
8/ This is a rate for small industrial service (see interruptible column).
9/ Figures submitted are estimates.
10/ Includes Seattle taxes.
11/ Based on rate tariff in effect during December 1988. 500 T = Large commercial, 2000 T = small industrial. These gas prices include monthly service charge of $5.50 for residential, and $100 for large commercial and small industrial customers.
12/ No change in gas rates except a 1% reduction in gross receipts tax for residential customers.
13/ Interruptible rates are flexed to compete with alternate fuels.

TABLE 130 - STATES WITH HIGHER GAS PRICES THAN OIL PRICES (CENTS/THERM)

STATES REPORTING INDUSTRIAL (2000 T) HIGHER THAN No. 2 OIL

TABLE 131 - GAS METRIC CONVERSION

The following table was initially prepared by the NARUC Staff Subcommittee on Gas. In January 1989 all regulatory agencies were requested to mark up a complementary copy of the 1987 Annual Report so as to accurately reflect current conditions as of December 31, 1988. The questionnaire used to obtain the information is reproduced below.

QUESTIONNAIRE

1. Does your State have a central office in charge of metric conversion? If so, please provide address.
2. Is someone in your Commission responsible for metric conversion? Please provide name and address.
3. Are other State agencies responsible for gas metric conversion? If so, provide address.
4. List Commission forms being used which would require metric conversion.

New York
John J. Kelliher, Secretary
New York PSC
3 Empire State Plaza
Albany, NY 12223

Oregon
Marc Hellman, PUC
Labor & Industries Building
Salem, OR 97310

Washington
James Levesque, Utilities Engineer
Washington UTC
Highways-License Building
Olympia, WA 98504

Question No. 3: Are other State agencies responsible for gas metric conversion? If so, provide address.

Washington
Eldon Egbers
Supv., Mathematics & Metrics
Supt. of Public Instructions
Old Capitol Building
Olympia, WA 98504

Mr. Gunnar Magnuson
Weights and Measures Section
Department of Agriculture
406 General Administration Building
Olympia, WA 98504

Question No. 4: List Commission forms being used which would require metric conversion.

Florida
Annual Reports, Fuel Adjustment Calculation, Tariff Filings - Utilities.
Engineering Reports: Electrical, water, gas.

Kentucky
Too numerous to list.

Louisiana
Fuel Adjustment Calculation, Annual Reports, Tariff Filings: gas, water.

Michigan
A very long list was submitted.

Oregon
Numerous lists.

South Dakota
Annual (FPC Forms 1, 2) and monthly financial reports, PGA factor quarterly filings.

Washington
Numerous list submitted.

SECTION T

WATER AND SEWERAGE

Table 133 shows the number of water and sewer utilities regulated (investor and municipal), the number of combined water and sewer utilities and the minimum criteria for an agency's regulation.

Table 134 contains information on uniform system of accounts for water and sewer utilities.

Tables 135 and 136 contain statistics for all privately owned water utilities under agency jurisdiction. The data include plant, revenues and expenses, customers, average residential use, average residential cost per M-gallons, average residential monthly bill and gross plant investment per customer.

1/ Partial jurisdiction only.
2/ Not-for-profit - 96.
3/ Includes 2 utilities serving only irrigation customers.
4/ Districts - 22.
5/ Sanitation districts. No jurisdiction except for filing annual report with Commission. See Public Service Law Sec 89(1).
6/ Whose treated effluent is discharged into any waterway of the State.
7/ Does not regulate municipals, but does regulate public water districts (145) and associations (31).
8/ Effective March 1988, does regulate not-for-profit; does not regulate utilities owned and operated by their customers or public utilities owned or operated by municipal corporation.
9/ Districts - 15.
10/ Plus appellate jurisdiction over 900 not-for-profits, 600 Districts and municipalities serving outside corporate limits.
11/ Commission did not respond to requests for update information; this data may not be current.

2/ This information is for calendar year 1987; data for 1988 not available.
3/ Residential and commercial customers combined.
4/ Breakdown of customer by class does not exist, about 90% of total is residential. This information is based on Annual Reports filed by 27 of the 41 utilities. Annual bills range from $36 to $300.
5/ Sales, Revenues and Customers are reported as metered and unmetered sales to general customers. Figures given here are for Metered Sales. Unmetered Sales statistics: Average Annual Use - 193.86; Average Revenue Per Thousand Gallons - Cents - 123.43; Average Monthly Bill per Customer - 19.94.
6/ Customers and Other Statistics reflect metered amounts. Total customers includes 72,062 flat-rate customers. Other Statistics is determined by Class A & B companies only. Certain information was not reported by all companies; averages are for those companies that did report.
7/ Not all classes of utility are reflected in all categories.

PART IV

NATIONAL TABLES ON TRANSPORTATION REGULATION

Part IV is composed of national tables listing jurisdictional and other general aspects of transportation regulation by the State and Federal agencies.

Table 137 indicates the variety of state agencies and departments involved in regulating motor carriers for taxes, permits, insurance and various identification requirements (including Cab Cards and stamps).

Table 138 indicates the state agency scope of regulation of motor passenger carriers; Table 150 indictes the same information for motor freight carriers. Table 139 indicates how many motor passenger carriers are under the Agency's jurisdiction; Table 151 indicates the same information for motor freight carriers.

Table 140 displays the results of motor carrier safety and operating authority enforcement. Table 141 shows how many, and the salary range of, motor carrier safety investigators employed by each state and indicates whether an agency other than the public utility commission is responsible. Table 142 displays information on motor carrier cargo insurance requirements.

Table 143 gives detailed information regarding uniform motor carrier standards adopted by the various states, including which forms are accepted. Table 144 indicates which states require Form D Cab Cards for ICC regulated motor carriers and/or Form D-1 for ICC exempt motor carriers. Table 145 indicates which states have rate jurisdiction over certain specific types of motor carriers. Table 146 shows which states exercise rate jurisdiction over general commodities common carriers. Table 147 indicates which states exercise rate, service or safety jurisdiction over certain specific types of motor carriers. Table 148 indicates which states have common carrier rate bureaus and whether they are state-regulated. Table 149 indicates what state agency has jurisdiction over motor carriers engaged in garbage collection. Table 152 shows that very few states regulate freight forwarders.

Table 160 indicates the prescribed methods of preserving records and Table 161 the prescribed systems of accounts for transportation companies, including motor carriers and railroads.

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION

FORM A: Used to register ICC authority with the states.
FORM B: Used to order cab stamps from each state in which the carrier wishes to operate
FORM D: Uniform Identification Cab Card ("Bingo Card") for ICC registered carriers; cab stamps are mounted on its reverse for each state where the carrier is authorized to operate.
FORM D-1: Same as above, except this one is used for carriers that are exempt from ICC regulation.
FORM E: Proof of liability insurance.
FORM G: Liability surety bond
FORM H: Proof of cargo insurance
FORM I: Cargo insurance endorsement
FORM J: Cargo surety bond
FORM K: Notification of insurance cancellation
FORM L: Notification of surety bond cancellation

Please note: The exact titles of these forms, as well as the citation of laws governing various aspects of motor carrier regulation are located in the Introduction to the section entitled "State Adoption of Uniform Motor Carrier Standards".

Alabama
Department of Revenue, Motor Vehicle Div., PO Box 104, Montgomery 36101: Reciprocity, oversize/overweight permits.
Interstate Motor Carrier Section, PO Box 202, Montgomery 36130: Motor fuel tax
Public Service Commission, State Office Building, PO Box 991, Montgomery, 36102: Motor carrier cargo insurance, registration of ICC authority, cab stamps

Alaska
Department of Commerce, Div. of Measurement Standards, Section of Permits & Weigh Stations, PO Box 111686, Anchorage 99511: Oversize/overweight permits
Department of Public Safety, Div. of Motor Vehicles, PO Box 100-960, Anchorage 99510-0960: Reciprocity, trip permits and licenses
Department of Revenue, Pouch SA, State Office Bldg., Juneau 99811: Motor fuel tax
Public Utilities Commission, 420 L Street, Suite 100, Anchorage 99501: Motor carrier garbage collection
Transportation Commission, 338 Denali St., Anchorage 99501: Motor carrier cargo insurance, registration of ICC authority, cab stamps

Arizona
Does not require registration of ICC authority or cab stamps.
Department of Public Safety: Motor carrier safety.
Department of Transportation, Division of Motor Vehicles, 1801 W. Jefferson, Phoenix 85001: Reciprocity, motor fuel tax, oversize/overweight permits.

Arkansas
Highway & Transportation Dept., Permit Section, PO Box 2261, Little Rock 72203: Oversize/overweight permits
Motor Vehicle Records & Administration, PO Box 1272, Little Rock 72203: Reciprocity and motor fuel tax
Transportation Safety Agency, Justice Building, Little Rock 72201: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority and cab stamps

California
California Highway Patrol: Motor carrier safety.
Dept. of Motor Vehicles, Div. of Registration-Prorate Unit, PO Box 12000, Sacramento 95852: Reciprocity
Dept. of Transportation, Div. of Transportation Operations, 1120 N St., Sacramento 95814: Oversize/overweight permits
Public Utilities Commission, 505 Van Ness Ave., San Francisco 94102: Motor carrier cargo insurance, registration of ICC authority and cab stamps
State Board of Equalization, PO Box 8268, Sacramento 95818: Motor fuel tax

Colorado
Dept. of Highways, 4201 E. Arkansas Ave., Denver 80222: Oversize/overweight permits
Department of Revenue,
Interstate Registration Section, Room 109, 140 W. 6th Ave., Denver 80204: Reciprocity
Port of Entry Division: State operating authority
Taxpayer Service Division, 1375 Sherman St., Denver 80261: Motor fuel tax
Public Utilities Commission, Logan Tower, Office Level 2, 1580 Logan St., Denver 80203: Motor carrier cargo insurance, registration of ICC authority and cab stamps

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

State Patrol: In-terminal checks of motor carrier safety

Connecticut
Department of Health Services, Office of Emergency medical Service, 79 Elm St., Hartford: full jurisdiction over ambulances.
Department of Public Utility Control, One Central Park Plaza, New Britain 06051: Effective July 1, 1989, all jurisdiction over motor carriers transferred to the Department of Transportation.
Department of Revenue Services, 92 Farmington Ave., Hartford 06105: Motor fuel tax
Department of Transportation, Bureau of Public Transportation, PO Box 11-998, Newington 06111-0998: Jurisdiction over air terminal buses and taxicabs, motor passenger carrier safety and oversize/overweight permits, motor carrier rates, tariffs, applications for authority, cab stamps, registration of ICC authority
Motor Vehicle Department, 60 State Street, Wethersfield, 06109: Jurisdiction over emergency two trucks and school buses (if engaged in charter service), motor freight carrier safety and reciprocity

Delaware
Does not require registration of ICC authority or cab stamps
Delaware Motor Vehicle Division, Department of Public Safety, PO Box 698, Dover 19901: Registration and oversize/overweight permits
Department of Public Safety, Division of Motor Fuel Tax, Drawer E, Highway Administration Bldg., Dover 19901: Motor fuel tax

District of Columbia
Does not require registration of authority or cab stamps
Department of Transportation, Room 105, Potomac Bldg., 614 H St., NW, Washington, DC 20005: Oversize/overweight permits
Department of Transportation, Bureau of Motor Vehicle Services, 301 C St. NW, Washington, DC 20001: Reciprocity
Department of Transportation, Traffic Operations Division: Motor carrier safety.

Florida
Florida does not require registration of ICC authority or cab stamps
Dept. of Revenue, Bureau of Registration/Records, Carlton Bldg., Room 211, Tallahassee 32301: Motor fuel tax
Dept. of Transportation, Permit Division, Douglas Bldg., Room 204, 2540 Executive Center Circle, Tallahassee 32301: Oversize/overweight permits
Division of Motor Vehicles, Dept. of Highway Safety & Motor Vehicles, Neil Kirkman Bldg., Tallahassee 32301: Reciprocity

Georgia
Department of Revenue,
Tag Citations, Atlanta 30334: Reciprocity
Motor Fuel Tax Unit, 423 Trinity-Washington Bldg., Atlanta 30334: Motor fuel tax
Department of Transportation, Office of Permits and Enforcement, 2 Capitol Square, Atlanta 30334-1002: Oversize/overweight permits
Public Service Commission, 244 Washington St. SW, Atlanta 30334: Motor carrier cargo insurance, registration of ICC authority and vehicle identification card

Hawaii
Hawaii does not require registration of ICC authority or cab stamps
Reciprocity is administered by county authorities: Motor Vehicles & Licensing, City and County of Honolulu, 1445 S. Beretania St., Honolulu 96814
Department of Transportation, 869 Punchbowl St., Honolulu 96813
Department of Transportation, Office of Highway Safety Coordinator: Motor carrier safety.
Motor Vehicle Safety Office, Dept. of Transportation, 79 S. Nimitz Hwy., Honolulu 96813: Motor fuel tax
Public Utilities Commission, 465 South King St., Kekuanao'a Bldg., First Floor, Honolulu 96813: Motor carrier cargo insurance

Idaho
Does not require cab stamps
Dept. of Revenue and Taxation, PO Box 36, Boise 83722: Motor fuel tax
Public Utilities Commission, Statehouse, Boise 83720: Motor carrier cargo insurance and annual registration of ICC authority
Registration/Licensing Supervisor, Commercial Vehicle Unit, Vehicle Services Section, Motor Vehicle Bureau, PO Box 34, Boise 83731: Reciprocity
Transportation Dept., PO Box 7129, Boise 83707: Oversize/overweight permits

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

Illinois
Commerce Commission, Transportation Division, PO Box 19280, Springfield 62794-9280: Motor carrier cargo insurance, registration of ICC authority and cab stamps
Department of Revenue, Excise Tax Section, PO Box 4005, Springfield 62708: Motor fuel tax
Department of Transportation, 2300 S. Dirksen Parkway, Springfield 62764: Motor carrier safety and oversize/ overweight permits
Prorate, Reciprocity & IRP Section, Commercial & Farm Truck Div., Vehicle Services Dept., 300 Centennial Bldg., Springfield 62756: Reciprocity
State Police: Road checks of motor carriers for safety

Indiana
Department of Highways, State Office Bldg., Room 1101, Indianapolis 46204-2249: Oversize/overweight permits
Department of Revenue, Special Tax Division, State Office Bldg., Indianapolis 46204: Motor fuel tax
Secretary of Reciprocity Commission, 901 State Office Bldg., Indianapolis 46204: Reciprocity and registration
State Police, Vehicle Inspection Division: Road checks of motor carriers for safety and operating authority.
Utility Regulatory Commission, 901 State Office Bldg., Indianapolis 46204: Registration of ICC authority and cab stamps

Iowa
Department of Transportation, Office of Operating Authority, 5238 NW 2nd Ave., Des Moines 50313: Motor carrier cargo insurance, cab stamps, reciprocity, motor fuel tax and overweight/oversize permits

Kansas
Dept. of Revenue, Motor Fuel Tax Div., Topeka 66615: Motor fuel tax
Dept. of Transportation, Permit Section, Docking State Office Bldg., Topeka 66612: Oversize/overweight permits
Operating Authority Unit, Motor Carrier Inspection, Docking State Office Bldg., Topeka 66626: Reciprocity
State Corporation Commission, Fourth Floor, Docking State Office Bldg., Topeka 66612-1571: Motor carrier cargo insurance, registration of ICC authority and cab stamps

Kentucky
Transportation Cabinet,
Department of Vehicle Regulation, PO Box 2007, Frankfort 40602: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority, vehicle identification card (instead of cab stamp), motor fuel tax
Division of Motor Carriers, Frankfort 40622: Reciprocity, licensing and oversize/overweight permits

Louisiana
Department of Public Safety, Office of Motor Vehicles, Reciprocity and Proration, PO Box 64886, Baton Rouge 70896: Reciprocity
Department of Revenue and Taxation, PO Box 201, Baton Rouge 70821: Motor fuel tax
Department of Transportation and Development, Truck Permit Section, PO Box 94245, Baton Rouge 70804: Oversize/overweight permits
Public Service Commission, One American Place, Suite 1630, Baton Rouge 70825: Registration of ICC authority and vehicle identification card
State Police, Department of Public Safety: Motor carrier safety

Maine
Bureau of Public Service, Dept. of State, Motor Vehicle Div., Augusta 04333: Reciprocity, licensing and registrations
Bureau of Taxation, State House Station 24, Excise Tax Div., Augusta 04330: Motor fuel tax
Department of Transportation: Motor passenger carriers - registration of ICC authority and cab stamps
Department of Transportation, Permit Section, Child St., Augusta 04333: Oversize/overweight permits
Bureau of State Police, Traffic Div., Motor Carrier Section, State House, Station 20, Augusta 04333: Motor freight carriers, bus and freight carriers - registration of ICC authority and cab stamps

Maryland
Does not require registration of ICC authority or cab stamps
Department of Motor Vehicles, Div. of Vehicle Safety and Reciprocity, 6601 Ritchie Hwy. NE, Glen Burnie 21062: Reciprocity
Motor Vehicle Fuel Tax Division, PO Box 1751, Annapolis 21404: Motor fuel tax
State Highway Administration, Hauling Permit Section, 707 N. Calvert St., Baltimore 21202: Oversize/overweight permits
State Police: Road checks of motor carriers for safety violations

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

Massachusetts
Does not require insurance filing
Department of Public Safety, State Police: Road checks of motor carriers for safety and operating authority
Department of Public Utilities, Commercial Motor Vehicle Division, 100 Cambridge St., Boston 02202: Reciprocity, registration of ICC authority and vehicle identification (rather than cab stamp), motor carrier garbage collection
Department of Public Works, 10 Park Plaza, Boston 02116: Oversize/overweight permits
Revenue Department, Excise Bureau, 215 First St., Cambridge 02141: Motor fuel tax

Michigan
Dept. of Commerce, Authorities & Registration, PO Box 30221, Lansing 48909: Reciprocity
Dept. of Transportation, Utilities-Permits Div., PO Box 30050, Lansing 48909: Oversize/overweight permits
Dept. of Treasury, Motor Fuel Tax Division, Treasury Bldg., Lansing 48922: Motor fuel tax
Public Service Commission, PO Box 30221, Lansing 48909: Motor carrier cargo insurance, registration of ICC authority and cab stamps
State Police: Road checks of motor carriers for operating authority and safety

Minnesota
Department of Public Safety, Driver & Vehicle Services Div., Prorate Section, 162 Transportation Bldg., St. Paul 55155: Reciprocity
Department of Transportation, 411 Transportation Bldg., John Ireland Blvd., St. Paul 55155: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority, cab stamps and oversize/overweight permits (from the Permits Section, Room G-17)
Revenue Department, Fuel Tax Division, Centennial Bldg., St. Paul 55145: Motor fuel tax
Transportation Regulation Board: Motor passenger carriers

Mississippi
Public Service Commission, PO Box 1174, Jackson 39215-1174: Motor carrier cargo insurance, registration of ICC authority and vehicle identification card
State Tax Commission,
Privilege Tax Division, PO Box 1140, Jackson 39205: Reciprocity and motor fuel tax
PO Box 1180, Jackson 39205: Oversize/overweight permits

Missouri
Department of Revenue,
Highway Reciprocity Commission, PO Box 893, Jefferson City 65101: Reciprocity and permits
PO Box 300, Jefferson City 65101: Motor fuel tax
Division of Transportation, PO Box 1216, Jefferson City 65102: In terminal checks of motor carriers for safety, motor carrier cargo insurance, registration of ICC authority and cab stamps
Highway and Transportation Commission, Div. Maintenance & Traffic, PO Box 270, Jefferson City 65102: Oversize/overweight permits
Highway Patrol: Road check for operating authority

Montana
Department of Highways, Gross Vehicle Weight Div., PO Box 4639, Helena 59604: Reciprocity, permits and oversize/overweight permits
Department of Revenue, PO Box 5895, Airport Road, Helena 59604-5895: Motor fuel tax
Department of Transportation: Motor carrier cargo insurance
Highway Patrol: Road checks of motor carriers for safety violations
Public Service Commission, 2701 Prospect Ave., Helena 59620: Registration of ICC authority, vehicle identification card, motor carrier garbage collection

Nebraska
Department of Motor Vehicles, Interstate Registration Div., State Office Bldg., PO Box 94789, Lincoln 68509: Reciprocity
Department of Revenue, Tax Policy Div., PO Box 94818, Lincoln 68509: Motor fuel tax
Department of Roads, Permit Office, State Office Bldg., Room 151, Lincoln 68509: Oversize/overweight permits
Public Service Commission, 300 The Atrium, 1200 N St., PO Box 94927, Lincoln 68509-4927: Motor carrier cargo insurance, registration of ICC authority and cab stamps

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

Nevada
Does not require registration of ICC authority or cab stamps
Department of Motor Vehicles, Motor Carrier Div., 555 Wright Way, Carson City 89711: Registration, motor fuel tax
Department of Transportation, Administrative Services Div., 1263 S. Stewart St., Carson City 89712: Oversize/ overweight permits
Highway Patrol, Commercial Section: Road checks of motor carriers for operating authority
Public Service Commission, 727 Fairview Dr., Carson City 89710: Motor carrier cargo insurance

New Hampshire
Department of Safety: Road checks of motor carriers for safety
Department of Safety, Division of Motor Vehicles,
Road Toll Administration, Hazen Drive, Concord 03305: Registration and motor fuel tax
PO Box 483, Concord 03301: Oversize/overweight permits
Department of Transportation, Bureau of Common Carriers, 117 Manchester St., Concord, 03302-0483: registration of ICC authority and cab stamps, motor carrier garbage collection
Public Utilities Commission, 8 Old Suncook Rd., Building 1, Concord 03301-5135: Motor carrier cargo insurance

New Jersey
Does not require registration of ICC authority or cab stamps
Board of Public Utilities, Two Gateway Center, Newark 07102: Motor carrier garbage collection
Department of Transportation, Office of Regulatory Affairs, Motor Carrier Inspection: safety checks of buses and requests for authority to operate for-hire passenger transportation other than taxi, jitney or limousine.
Department of Motor Vehicles: Household goods motor carriers cargo insurance
Division of Motor Vehicles, Bureau of Motor Carriers, 25 S. Montgomery St., Trenton 08666: Reciprocity, motor fuel tax and oversize/overweight (from Special Permit Section)

New Mexico
State Corporation Commission, Motor Transportation Department, PO Drawer 1269, Santa Fe 87504-1269: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority and cab stamps
Transportation Division, Operations Bureau, PO Box 1028, Santa Fe 87504: Reciprocity, motor fuel tax and oversize/overweight (from Permit Section)

New York
Department of Motor Vehicles, Technical Services Bureau, Empire State Plaza, Albany 12228: Registration
Department of Taxation & Finance, Processing Div., Suspension Unit, State Campus, Albany 12227: Motor fuel tax
Department of Transportation, 1220 Washington Ave., State Campus, Albany 12232: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority and cab stamps, motor carrier garbage collection (only for refuse with some value, as in refuse to be recycled), oversize/overweight permits (from Carrier Safety Bureau)

North Carolina
Department of Revenue, Gasoline Tax Div., PO Box 25000, Raleigh 27640: Motor fuel tax
Department of Transportation, Div. of Motor Vehicles, License & Theft Section, 1100 New Bern Ave., Raleigh 27697: Reciprocity, IRP permits
Department of Transportation, Div. of Highways, Permit Unit, PO Box 25201, Raleigh 27611: Oversize/ overweight permits
Utilities Commission, Division of Transportation: PO Box 29510, Raleigh 27626-0510: Motor carrier safety, motor carrier cargo insurance, registration of ICC authority and cab stamps

North Dakota
Highway Patrol: Road checks of motor carriers for operating authority
Highway Patrol, Commercial Motor Vehicle Div., Bismarck 58505-0155: Reciprocity, oversize/overweight permits
Public Service Commission, State Capitol, Bismarck 58505: Motor carrier cargo insurance, registration of ICC authority and cab stamps
State Highway Department: Railroad-highway crossing safety.
Tax Commissioner, Motor Fuel Tax Div., Capitol Bldg., Bismarck 58505: Motor fuel tax

Ohio
Bureau of Motor Vehicles, Dept. of Highway Safety, PO Box 16520, Columbus 43266: Registration
Bureau of Permits & Communications, 1610 W. Broad St., Columbus 43223-1297: Oversize/overweight permits
Department of Taxation, Motor Fuel Tax Section, O Box 530, Columbus 43215: Motor fuel tax
Public Utilities Commission, Motor Carrier Registration Div., 180 E. Broad St., Fifth Floor, Columbus 43266-0573: Motor

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

carrier cargo insurance, registration of ICC authority and cab stamps

Oklahoma
Corporation Commission, Motor Carrier Div., Jim Thorpe Office Bldg., Oklahoma City 73105: Motor carrier cargo insurance, registration of ICC authority and cab stamps
Department of Public Safety, PO Box 11415, Oklahoma City 73136: Road checks of motor carriers for safety, oversize/overweight permits
Tax Commission, Prorate and Reciprocity, 2501 Lincoln Blvd., Oklahoma City 73194: Reciprocity, motor fuel tax

Oregon
Motor Vehicles Division, Proration and Reciprocity, 1905 Lana Ave. NE, Salem 97314: Reciprocity
Public Utility Commission, 300 Labor and Industries Bldg., Salem 97310: Motor carrier cargo insurance, registration of ICC authority and vehicle identification card, motor fuel tax
State Highway Commission, Permit Unit, Room 102, 2960 E. State St., Salem 97310: Oversize/overweight permits

Pennsylvania
Does not require registration of ICC authority or cab stamps
Department of Revenue, Bureau of Motor License Funds, PO Box 8907, Harrisburg 17105: Motor fuel tax
Department of Transportation,
Commercial Registration Section, PO Box 8284, Harrisburg 17105: Reciprocity
1014 Transportation and Safety Bldg., Harrisburg 17120: Oversize/overweight permits
Public Utilities Commission, PO Box 3265, Harrisburg 17120: Motor common carrier cargo insurance

Rhode Island
Department of Administration, Excise Tax Section, 289 Promenade St., Providence 02908: Motor fuel tax
Department of Transportation, Div. of Public Works, 226 State Office Bldg., Providence 02903: Oversize/ overweight permits
Public Utilities Commission, Division of Public Utilities, 100 Orange St., Providence 02903: Motor carrier cargo insurance, registration of ICC authority and cab stamps
Registrar of Motor Vehicles, State Office Bldg., Providence 02903: Registration

South Carolina
Department of Highways & Public Transportation,
PO Box 1498, Columbia 29216-0027: Reciprocity
Permit Section, PO Box 191, Columbia 29202: Oversize/overweight permits
License Tax Division, PO Box 125, Columbia 29214: Motor fuel tax
Public Service Commission, PO Drawer 11649, Columbia 29211: Motor carrier cargo insurance, registration of ICC authority and cab stamps

South Dakota
Department of Revenue, Div. of Motor Vehicles, 118 W. Capitol, Pierre 57501: Reciprocity, motor fuel tax
Department of Transportation, Div. of Operations, 700 Broadway Ave. E, Pierre 57501: Oversize/overweight permits
Highway Patrol: Road checks of motor carriers for operating authority
Public Utilities Commission, Capitol Bldg., Pierre 57501: Motor carrier cargo insurance, registration of ICC authority and cab stamps
State Highway Department: Railroad safety

Tennessee
Department of Revenue,
Motor Vehicle Div., 701 Andrew Jackson State Office Bldg., Nashville 37242: Reciprocity
Fuel Tax Section: Motor fuel tax
Overweight-Overdimensional Permit Office, James K. Polk Bldg, Suite 900, 505 Deaderick St., Nashville 37219: Oversize/overweight permits
Public Service Commission, 460 James Robertson Parkway, Nashville 37219-5477: Motor carrier cargo insurance, registration of ICC authority and cab stamps

Texas
Comptroller of Public Accounts, Motor Fuel Tax Div., Capitol Station, Austin 78774: Motor fuel tax
Department of Highways & Public Transportation, Motor Vehicle Division, 40th & Jackson Ave., Austin 78779: Reciprocity, oversize/overweight permits
Railroad Commission, Transportation Division, Capitol Station, PO Drawer 12967, Austin 78711: Motor carrier cargo

TABLE 137 - STATE AGENCIES INVOLVED IN MOTOR CARRIER REGULATION (Continued)

insurance, registration of ICC authority and vehicle identification card

Utah
Department of Transportation: Motor freight carrier safety
Highway Patrol, Port of Entry Division, 4501 S 2700 West, Salt Lake City 84119: Oversize/overweight permits
Public Service Commission, PO Box 45585, 160 E. 300 South, Salt Lake City 84145: Motor carrier cargo insurance, registration of ICC authority and cab stamps, motor passenger carrier safety
State Tax Commission,
Motor Vehicle Div., State Fairgrounds, 1095 Motor Ave., Salt Lake City 84116: Reciprocity
Auditing Division, 160E 300S, Salt Lake City 84134: Motor fuel tax

Vermont
Does not require registration of ICC authority or cab stamps
Agency of Transportation, State Administration Building, Montpelier, 05602: Motor carrier cargo insurance
Transportation Board, 118 State St., Montpelier, 05602:
Department of Motor Vehicles, State Office Bldg., Montpelier 05603-0001: Motor carrier safety. Vehicle Permit Section: Registration, motor fuel tax, oversize/overweight permits
State Police: Road checks for motor carrier safety

Virginia
Department of Highways & Transportation, Permit Section, 1401 E. Broad St., Richmond 23219: Oversize/ overweight permits
State Corporation Commission, Motor Carrier Operation Div., PO Box 1197, Richmond 23209: Motor carrier cargo insurance, registration of ICC authority and vehicle identification card, reciprocity, motor fuel tax
State Police: Road checks of motor carriers for safety.

Washington
Department of Licensing, Prorate and Fuel Tax Div., PO Box 9228, Olympia 98504: Reciprocity, motor fuel tax

ALBERTA PUB 10/																										

FOOTNOTES - TABLE 138 - SCOPE OF AGENCY REGULATION OF MOTOR PASSENGER CARRIERS

1/ Commission authority repealed by Ch 76-168, as amended by Ch 77-457, Laws of Florida.
2/ Total deregulation effective July 1, 1982. Arizona CC regulates only Railroad Safety. Motor Carrier Safety is under the Department of Public Safety. Insurance and Registration is under the Department of Transportation.
3/ Motor Vehicle Department.
4/ Regulate only passenger carriers domiciled outside Connecticut who operate over regular scheduled routes.
5/ Annual reports are required to be filed showing intrastate operations.
6/ Regular route carriers.
7/ Oregon PUC has jurisdiction only over merging of carriers without interstate operating authority. Mergers approved by the ICC are accepted by Oregon without additional filing. Application to the PUC must be made for acquisition of non-incorporated carriers.
8/ Charter and sightseeing only.
9/ No jurisdiction if securities subject to ICC regulations.
10/ The Board's regulation is limited to the approval of municipal franchises granted to contract carriers.
11/ Motor carrier safety under Department of Transportation, Office of Highway Safety Coordinator.
12/ Missouri DOT can safety inspect motor vehicles in terminals only (no on-road inspections) and perform safety audits on carrier performance.
13/ Under jurisdiction of State Department of Transportation.
14/ Transportation Cabinet, Department of Vehicle Regulation.
15/ Vermont Transportation Board, 118 State Street, Montpelier, VT 05602.
16/ Highway Patrol.
17/ Reporting for both Common carriers and Contract carriers is limited to Class I carriers only, effective 1/1/80.
18/ Connecticut Department of Transportation, Bureau of Public Transportation, PO Box 11-996, Newington 06111-0998.
19/ Commission has jurisdiction to regulate under certain circumstances.
20/ For charter and special service only; regular route passenger transportation was deregulated effective 9/1/83. However all passenger carriers must file insurance. Effective 7/1/88, the Motor Carrier Division of the IURC transferred to the Indiana Department of Revenue, Special Tax Division.
21/ New Hampshire Department of Safety, Bureau of Common Carriers (Economic Regulation)/Division of Enforcement (Safety Regulation), 10 Hazen Drive, Concord, NH 03305. There is legislation pending which will require interstate registration.
22/ Oklahoma jurisdiction subject to Bus Regulatory Act of 1982.
23/ Under jurisdiction of State Police.
24/ As required.
25/ Scope of regulation includes charter service.
26/ Effective July 1, 1986, all regular route passenger carriers must obtain a certificate that allows operations between ALL points in Iowa. The carrier can begin or end any route without additional authorization from the State. Charter carriers must apply for specific points. No annual report filing or rate filings required from passenger carriers. Iowa increased liability insurance to $5,000,000 on carriers operating vehicles with a seating capacity of 16 passengers or more.
27/ Jurisdiction limited primarily to for hire passenger carriers with fixed routes and schedules serving airports.
28/ Commission did not respond to requests for update information; this data may not be current.

WY	Highway Patrol is the enforcing agency.											

1/ Combined total of intrastate and interstate.
2/ All fines are paid to State Courts--Public Service Commission does not participate in revenues derived.
3/ All fines are paid to local jurisdictions, not to State.
4/ Citations issued.
5/ Office of Regulatory Affairs, Motor Carrier Inspection, handles safety checks of buses and all requests for authority to operate for-hire passenger transportation other than taxicab, jitney or limousine service.
6/ No arrests; if company continues to operate, matter goes to Office of Administrative Law for hearing.
7/ While arrests are not made, 372 buses were placed out of service.
8/ Regulation Compliance Investigator of the OCT handles complaints about motor carriers for hire operating without authority. Since the program began in October 1986 through March 1989, 166 complaints were handled resulting in 129 corrective actions.
9/ Major and minor infractions combined.
10/ 1988 results of PA DOT participation in Federally sponsored MCSAP: Safety Inspections, 12,078; Out of Service, 4,972; Arrests, 3,032.
11/ Reporting period is October 1, 1987 through September 30, 1988.
12/ Enforcement authority under Colorado State Patrol and Dept. of Revenue, Port of Entry Division.
13/ Effective 7/1/88, Commission began selling temporary ID stamps, rather than issuing citations. As of 12/31/88, sold 1,337 for $40,110.

FOOTNOTES - TABLE 142 - MOTOR TRUCK CARGO INSURANCE FILING REQUIREMENTS

* Kentucky, New Mexico, Pennsylvania and Rhode Island will accept either NARUC or their own forms.

1/ California - Notice of Reinstatement TL-674 required.

2/ Iowa -
a. Notice of Reinstatement – New or amended Form H or E is required.
b. To show evidence of LIQUID CARGO COVERAGE, type "Liquid Coverage" in the upper right-hand corner of the certificate (NARUC-H).
c. To show evidence of PASSENGER CARGO COVERAGE, type "Passenger Coverage" in the upper right-hand corner of the certificate (NARUC-H).
d. Limits of Liability as follows:
Passenger Equipment - Vehicle used to transport passenger: $ 1,000. Vehicle used to transport passenger and freight: $1,000/$10 Freight in limited amounts transported by motor carriers of passengers by reason of authority issued by the commission is considered to be express. Minimum insurance limits on express which motor carrier of passenger may be transported, as authorized shall be $1,000.
Freight Equipment - All vehicles transporting motor carrier freight $10,000 and $10,000. All motor trucks used to transport truck operator freight $2,000 and $2,000. All truck tractors and semitrailers used to transport truck operator freight $5,000 and $5,000.
Liquid Transport - All vehicles used to transport liquid carrier freight $10,000 and $10,000.

3/ New Mexico -
a. Rescinder of cancellation MTD-2-C (MC2421) required.
b. Notice of reinstatement MTD-2-D (MC2422) required.

4/ Michigan - Must "fully cover and protect all property."

5/ The Virgin Islands have no interstate motor truck carriers.

6/ ICC - Applies only to motor common carriers of property with certain exceptions (carriers of low value commodities).

7/ Vermont Agency of Transportation, 133 State Street, State Administration Building, Montpelier, Vermont 05602.

8/ Commission Authority repealed by Ch.76-168,as amended by Ch.77-457, Laws of Florida.

9/ Filings made with DMV - only common carriers must file.

10/ Motor truck insurance now monitored by the Arizona Department of Transportation – No longer an Arizona Corporation Commission responsibility.

11/ Interstate carriers are required to file automobile liability only.

12/ Effective 1/1/82, jurisdiction of Maine PUC over surface transportation was transferred: (1) passenger carriers to Maine Department of Transportation; (2) freight carriers to the Bureau of State Police, Department of Public Safety. See 35 MRSA 1501 et. seq. (1982). Regulation of motor vehicles in Maine now consists of licensing and safety regulation.

13/ Household goods – $4,500 per unit.

14/ Common carriers, but not contract carriers. Effective 7/1/88, Motor Carrier Division of IURC transferred to Dept. of Revenue, Special Tax Division.

15/ Contract Carriers are not required to file cargo insurance.

16/ Arkansas Transportation Safety Agency.

17/ Nevada: Effective 4/1/87, new limits for intrastate carriers.

18/ May be waived where carrier's usual cargo is not subject to material damage or loss.

19/ Insurance forms E, G, H and J each carry a $25.00 filing fee.

20/ Commission did not respond to request for information; this data may not be current.

INTRODUCTION
STATE ADOPTION OF UNIFORM MOTOR CARRIER STANDARDS

Columns 1-5 of Table 143 reflect the extent of State agency adoption of the Uniform Interstate Motor Carrier Standards (49 CFR, Part 1023) which were determined by the NARUC and promulgated into law by the Interstate Commerce Commission (ICC) pursuant to Public Law 89-170 [79 Stat 648, 49 USC, §11506]. The Fee for Original Registration of ICC Authority, Column 2, and the Fee for Supplemental Registration of ICC, Column 3, are governed by 49 CFR, §1023.13. The fee for the issuance of an identification stamp for the Uniform Identification Cab Card, Form D, Column 4, and the fee for the assignment of an identification number (in lieu of such stamp) for the Cab Card, Form D, Column 5, are governed by 49 CFR, §§1023.32 and 1023.33.

Columns 6-10 of Table 143 reflect the extent of State agency adoption of the Model State Standards Governing Operations of Interstate Motor Carriers exempt from ICC Regulation which were adopted by the NARUC on November 14, 1968 (**80th NARUC Annual Convention Proceedings**, pp. 267-280). The Fee for Registration of Operation, Column 7, is provided for in Section 2.3 of the Model Standards. The fee for the issuance of an identification stamp for the Uniform Identification Cab Card, Form D-1, Column 9, and the fee for the assignment of an identification number (in lieu of such stamp) for the Cab Card, Form D-1, Column 10, is provided for in Section 4.2 and 4.3 of the Model Standards.

Column 11 of Table 143 reflects the extent State agencies reduce the amount of any fee specified in Columns 2-5, 7, 9 and 10 in accordance with reciprocity agreements with other States. Reciprocity as to ICC regulated carriers is permitted by 49 CFR, §1023.106. Reciprocity for interstate carriers, exempt from ICC regulation, is governed by State law.

Column 12 of Table 143 reflects the extent State agencies require carriers to annually file lists identifying the vehicles which they intend to operate within the respective States during the ensuing year pursuant to 49 CFR, §1023.32(d), for ICC regulated carriers and §4.2(d) of the Model State Standards for interstate carriers exempt from ICC regulation.

Columns 13-20 of Table 143 reflect the extent State agencies accept from ICC regulated carriers (identified in the Table as "IC"), interstate carriers exempt from ICC regulation (identified as "I"), and intrastate carriers (identified as "S"): a) The Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance, Form E; b) The Uniform Motor Carrier Bodily Injury and Property Damage Liability Surety Bond, Form G; d) The Uniform Motor Carrier Cargo Certificate of Insurance, Form H; e) The Uniform Motor Carrier Cargo Insurance Endorsement, Form I; f) The Uniform Motor Carrier Cargo Surety Bond, Form J; g) The Uniform Notice of Cancellation of Motor Carrier Insurance Policies, Form K; and h) The Uniform Notice of Cancellation of Motor Carrier Surety Bonds, Form L.

The text of these forms is stated in the Appendix to 49 CFR, Part 1023, for ICC regulated carriers, and is incorporated by reference in the Model State Standards Governing Operations of Interstate Motor Carriers Exempt from ICC Regulations. The NARUC on November 30, 1972 adopted a resolution recommending that the State agencies adopt these forms for intrastate motor carrier operations, **84th NARUC Annual Convention Proceedings**, p. 236 (1972).

The National Conference of State Transportation Specialists (NCSTS) has adopted a model State act for the implementation of Public Law 89-170 (**79th NARUC Annual Convention Proceedings**, pp. 412-416, 1967). NCSTS has also prepared a model State motor carrier act (**83rd NARUC Annual Convention Proceedings**, pp. 470-493, 1971).

The NARUC has published **Public Law 89-170 and Standards for Operations of Interstate Motor Carriers** at $7.00 per copy. This is a 71 page compilation as of April 15, 1986 of Public Law 89-170 and of the standards adopted thereunder to require evidence of the lawfulness of interstate operations of motor carriers with a State by a) filing and maintaining current records of the certificates and permits issued by the ICC; b) registering and identifying vehicles as operating under such certificates and permits; c) filing and maintaining evidence of currently effective insurance or qualifications as a self-insurer under rules and regulations of the ICC; and d) filing designations of local agents for service of process. In addition, the compilation includes: (a) Annotations to interpretations of the standards which have been made by the courts and the NARUC; (b) The Model State Standards Governing Operations of Interstate Motor Carriers Exempt from ICC Regulation; and (c) A list of the States requiring the use of the Uniform Identification Cab Card, Form D or Form D-1, or both, under such standards.

Uniform Identification Cab Card, Form D or Form D-1, may be purchased from the NARUC at fifty cents ($.50) each.

FOOTNOTES - TABLE 143 - STATE ADOPTION OF UNIFORM MOTOR CARRIER STANDARDS

1/ This phase of regulation now supervised by the Arizona Department of Transportation.
2/ Arkansas Transportation Safety Agency.
4/ Fourteen-day trip permits at $5.00 each (in lieu of stamps) are available to registered carriers.
5/ Effective 1/1/84, Public Law 1983, Chapter 234, transferred authority to issue bus and freight operating authority to the State Police.
6/ Stamp fee waived or reduced for carriers from reciprocal states.
7/ $5.00 for a 72-hour trip permit. No charge to carriers from reciprocal states.
8/ The stamp fee equals the fee charged a Nebraska domiciled carrier by another State. If the other State does not register ICC exempt carriers, the stamp fee is $1.00.
9/ Regulated by Department of Motor Vehicles.
10/ Mobile home transporters are charged $5.00.
11/ No stamp fees for carriers based in California, Missouri, North Carolina, Oklahoma or Michigan with vehicles base plated in one of these States, if complete schedule of equipment on the vehicles is filed.
12/ List only required if stamps obtained without charge through reciprocity.13/**Single Trip Transit Permits:** for-hire carrier engaged exclusively in interstate or foreign commerce who crosses the State line and who does not hold a valid registration from this Commission may, as an alternative to all other requirements, apply for Single Trip Transit Permits, valid for ten days, for a one-way trip into or out of the State. The fee is $10.00 and the permit will be issued at ports of entry upon presentation of an insurance policy or a certificate of insurance in the minimum amounts of $25,000, $100,000 liability and $10,000 property damage. **Single Trip Regulatory Fee Card:** for-hire carrier Registered with this Commission to engage in interstate or foreign commerce across or between points in this State and points outside this State may, as an alternative to other options, purchase Single Trip Regulatory Fee Cards, valid for five (5) days, authorizing a one-way trip into, out of, or across this State for a fee of $10 each. These cards must be purchased in advance from the Commission's Olympia office only, with no refund for unused cards. The card shall be carried in the vehicle operating under this type of permit, shall be under the control and direction of the motor carrier issuing same and shall be used only within the scope of authority of that motor carrier. At the end of each calendar month, a report shall be prepared and sent to the Commission, showing the card number, dates used, origin and destination of shipment and vehicle number. **Identification Cab Cards and Identification Stamps:** Every power unit operated in the State, except those using single trip regulatory fee cards, must have an identification Cab Card with a WUTC identification stamp attached and carried in the vehicle. The identification stamp fee is $3.00. **Regulatory Fees:** In addition to the identification cab card and stamp, proof of payment of regulatory fees must also be carried. Regulatory fees are based on the licensed gross weight plus additional tonnage of each power unit or combination. The following options are available as to regulatory fees: Option 1: Assigned Regulatory Fees: Indicated by a colored identification stamp with gross weight stamped thereon which is to be placed on the identification cab card and servesas both the identification stamp and proof of regulatory fee payment. Option 2: Floater Regulatory Fees: Indicated by a Floater Regulatory Fee Card which must be carried in the power unit in addition to the identification cab card and identification stamp. Said card may be used on any power unit or combination operated by the carrier. On vehicles which are to use the Floater Card, the carrier should order from this Commission sufficient $3.00 colored identification stamps to go on each vehicle's identification cab card which must be carried in addition to the Floater Regulatory Fee Card. Lost or stolen floater cards are a total loss to the carrier and will only be replaced by payment of full fees.
14/ Cargo insurance not required unless advertising as insured carrier.
15/ ICC exempt carriers required to register vehicles with PSC and pay $3.00 fee for each vehicle, except where reciprocity applies.
16/ Carrier must register motor vehicle with Department of Transportation, Motor Vehicle Safety Office.
17/ Minnesota carrier is not required to purchase stamps, but the Iowa registration number must be written in Iowa square on the cab card. An Indiana carrier is not required to pay the $25.00 registration fee.
18/ **Fees for Public Service Commission of Indiana Vehicle Identification Stamps:** (1) PSC Motor Vehicle Registration Identification Stamps must be displayed and fees paid by all common and contract carriers unless specifically waived by reciprocal agreement. Reciprocal agreements acknowledged herein are agreements between the State of Indiana and other states and foreign governments only, in accordance with their respective statutory authority. (2) Indiana has reciprocity on the above mentioned fees for vehicles base-plated in the following states: Arizona, California, Florida, Illinois, Maryland, Massachusetts, Michigan, Missouri, Nebraska, New Jersey, North Carolina, Oklahoma, Pennsylvania, South Dakota and Texas. (3) PSC vehicle identification Reciprocity Stamps are required of common and contract carriers in interstate moves by operators of vehicles base-plated in the following states and at the fees stated: Alabama, $1.00; Arkansas, $5.00; Georgia, $5.00; Iowa, $1.00; Minnesota, $1.00; North Dakota, $5.00; Ohio, $1.00; South Carolina, $1.00; Tennessee, $5.00; West Virginia, $3.00; Wisconsin, $5.00. (4) Rules and Regulations of the URC of Indiana provide an annual fee of $10 shall be charged Interstate Motor Carriers of URC identification stamps.
19/ Commission authority repealed by Ch 76-168, as amended by Ch 77-457, Laws of Florida.
20/ Initial registration fee - renewed annually for $10 for ICC authorized only, $25 renewal fee for ICC exempt. In Kentucky there is not a filing fee for irregular route passenger carriers.
21/ Do not use Form D or D-1 Cab Card - an identification card is required.
22/ Responsibility of another Department - not SCC.
23/ Vermont Agency of Transportation, State Administration Building, Montpelier, VT 05602.
24/ Effective 1/1/80, motor carriers who also hold intrastate operating authorities issued by the California PUC are required to identify their power equipment by their MC number assigned by the ICC or by their Cal "T" identification number assigned by the Califo ia Commission. They may also, as an identification method, obtain stamps for cab cards. In such cases, the stamps will be issued without charge.
25/ All power units operating over Oregon highways required to have pass or PUC plates. Ten-day pass fee ($9); passes over 10 days or plates ($15).
26/ Idaho requires public liability and property damage insurance filings of intrastate common and contract carriers.
27/ Insurance no longer required for interstate carriers.
28/ For intrastate passenger carriers only.
29/ Effective 1/1/88.
30/ Continuous as long as they maintain current cab card stamps and insurance; to stamp fee add $3 application fee.
31/ But not for bus or other passenger carriers.
32/ List is also used for tax report.
33/ Insurance forms E, G, H and J each carry a $25.00 filing fee.
34/ Effective 7/1/88, Motor Carrier Division of IURC transferred to Dept. of Revenue, Special Tax Division.
35/ Commission did not respond to request for update information; this data may not be current.

1/ Carriers possessing ICC authority and also carrying exempt commodities need only carry Form D.

2/ Effective 1/1/82, transportation of passengers under jurisdiction of Department of Transportation; transportation of freight under jurisdiction of Bureau of State Police, Department of Public Safety. Regulation of motor carriers is now limited basically to licensing and safety.

3/ California allows interstate or foreign carriers who also hold authority as highway carriers issued by California PUC to identify their equipment by their assigned California T Number identification or their MC number in lieu of cab cards and stamps. The affected carriers may also use cab cards and stamps if they wish, in which case the stamps are provided at no charge.

4/ Regulated by Deparment of Motor Vehicles.

5/ Kansas regulated interstate carriers hauling exempt commodities. Kansas issues license plates and corresponding cab cards to carriers granted ICC Exempt authority by the Kansas Corp. Commission.

6/ An ICC-regulated carrier who files Form A-1 to backhaul exempt commodities may do so with Form D and current stamp issued by Commission. No additional D-1 card or stamp is required.

7/ Michigan PSC recommends that carriers insert their Michigan file number in the space on the cab card provided for the stamp or a copy of authority.

8/ Private and Exempt carriers may use either Form D-1 with stamp, or Nebraska cab card IR-1 with stamp.

9/ Stamps may be purchased ONLY by a carrier (regulated or exempt) who is properly registered, which includes current valid insurance and filing of an agent for process of a non-resident.

10/ Monitored by Department of Transportation.

FOOTNOTES - TABLE 145 - AGENCY RATE JURISDICTION OVER CERTAIN TRAFFIC OF MOTOR COMMON AND CONTRACT CARRIERS

1/ Some are exempt.
2/ Petroleum commodities, heavy hauling commodities.
3/ Certain categories partially deregulated. Sec CO CRS 40-16-101.
4/ In 1982 jurisdiction over surface transportation was transferred: (1) passenger carriers to Dept. of Transportation; (2) freight carriers to Bureau of State Police, Dept. of Public Safety. 35 MRSA Sec 1501 et seq (1982). Regulation now basically consists of licensing and safety regulations.
5/ Flammables.
6/ With qualifications; see exemptions under Sec 2, Art 5 of PA 1933 Motor Carrier Act.
7/ Farm-to-market is exempt.
8/ Not all operations; only those outside an exempt zone.
9/ Rate jurisdiction limited to filing the contract, stating compensation to be paid and prohibiting charging rates other than those on file.
10/ Livestock.
11/ Except within city limits and five miles thereof; except when for schools or churches.
12/ Except bulk commodities in tank trucks, household goods and dangerous and explosive articles.
13/ Garbage collection.
14/ Trash, wrecked or disabled motor vehicles and heavy equipment.
15/ Bus express.
16/ Oil field equipment and supplies.
17/ Cotton only.
18/ Exempt: transporting property within commercial zones as defined in Sec 850.1, Title 17, Official Compilation of Codes, Rules and Regulations, State of New York, except for household goods within the New York City commercial zone. Other exemptions in Sec 160, Transportation Law.
19/ Petroleum and cement.
20/ Mobile homes, heavy steel and metal products.
21/ Vermont Transportation Board, 118 State Street, Montpelier, VT 05602.
22/ Livestock, petroleum and petroleum products, cement, uncrated new furniture, trailer coaches and campers, heavy-specialized operations and motor vehicles by truckaway service.
23/ Includes tank transport, dump truck, cement and salt.
24/ Includes retail store delivery, explosives, theatre films, bus express, towing services, heavy hauling, bank messengers, race horses, auto transport, oilfield equipment and other commodities subject to Commission jurisdiction not otherwise listed.
25/ Connecticut DOT, Bureau of Public Transportation, PO Box 11-996, Newington 06111-0998.
26/ Motor carriers transporting livestock and armored car carriers exempt from economic regulation.
27/ Regular route passenger transportation deregulated effective September 1, 1983. Effective 7/1/88, the Motor Carrier Section of the IURC transferred to the Department of Revenue.
28/ All rates filed with MNDOT unless exempted by law.
29/ MN TRB has jurisdiction over all rates filed by intrastate regulated carriers except local cartage carriers. Board may require hearing on rates alleged to be discriminatory, unreasonable or noncompensatory. MN Stat, Sec 221.161.
30/ With qualifications, see NJSA 48:4 - 2.20.
31/ Arkansas Transportation Safety Agency.
32/ Maryland requires rate filings only, for charter carriers and parcel carriers.
33/ Petroleum and petroleum products, cement and, when transported by pneumatic trailer, fly ash, soda ash, potash, refined bentonite and refined silica sand.
34/ Commission did not respond to requests for update information; this data may not be current.

TABLE 146 - STATE REGULATION OF INTRASTATE MOTOR COMMON CARRIER RATES FOR GENERAL COMMODITIES

The following table was compiled from State Commission responses to a questionnaire regarding State regulation of intrastate motor common carrier rates for general commodities. The questionnaire used to obtain the information is reproduced in full following the table.

FOOTNOTES - TABLE 146 - STATE REGULATION OF INTRASTATE MOTOR COMMON CARRIER RATES FOR GENERAL COMMODITIES

1/ Interstate LTL rates are generally higher than intrastate LTL. Interstate TL rates are both higher and lower. An average percent of variation cannot be determined.
2/ Less than 30 days normally for uncontested cases - 20 days for increases, 15 days for reductions, 1 day for competitive or existing rates; 5 months maximum for contested cases.
3/ Varies because Middlewest Motor Freight Bureau files by application on behalf of general commodity carriers.
4/ Staff's computation of operating ratio based on actual field audits of financial records.
5/ Has "file and use" system; Commission has authority to investigate and/or suspend rates, but seldom used. Commission is now tending toward more comprehensive rate regulation.
6/ Arkansas Transportation Safety Agency.
7/ Commission did not respond to requests for update information; this data may not be current.
8/ If less than statutory notice is required matters can be decided in 5-10 days.
9/ Fifteen days on reduction of rates and increase in rates other than general increases.
10/ Thirty days statutory notice unless short notice is requested.
11/ Tariff must be filed with Commission.
12/ Effective 7/1/88, the Motor Carrier Section of the IURC transferred to the Department of Revenue.

QUESTIONNAIRE

STATE REGULATION OF INTRASTATE MOTOR COMMON CARRIER RATES FOR GENERAL COMMODITIES

1. Does your Agency regulate the rates of motor common carriers of general commodities engaged in intrastate operations? YES ____ NO ____(If "no", please disregard remaining questions.)

2. In general, what is the average number of days required by your Agency to decide such motor carrier rate change applications, computed from the date the application is filed?

   Unopposed cases:____ days. Contested cases:____ days.

3. In general, what is the average operating ratio (percentage of net income, before taxes, in relation to gross income currently being granted by your Agency to such motor carriers? ____ %

4. In general, is the intrastate rate level of such motor carriers above ( ) or below ( ) the comparable interstate rate level under ICC jurisdiction and, if so, what is the average percent of variation? _____%.

FOOTNOTES - TABLE 147 - AGENCY RATE, SERVICE AND SAFETY JURISDICTION OVER MISCELLANEOUS MOTOR CARRIERS

1/ In vehicles larger than sedans or station wagons.
2/ Only to the extent that they transport parcels, etc.
3/ Under jurisdiction of State Police.
4/ Outside the exempt zones.
5/ Only operating for hire.
6/ Under the jurisdiction of the Department of Transportation.
7/ Statewide jurisdiction only.
8/ School buses used for other than school transportation.
9/ Regulated by Department of Motor Vehicles.
10/ Airport limousine.
11/ Jurisdiction under Motor Vehicle Department and State Police.
12/ Only if inter-city.
13/ Only taxicabs with operating authority beyond twenty-five miles of the city limits.
14/ Connecticut Department of Transportation, PO Box 11-996, Newington 06111-0996.
15/ Exercised by counties in State of Hawaii.
16/ Arizona Department of Public Safety enforces Motor Carrier Safety.
17/ Only contract carriers transporting students to and from private schools. Public school transportation exempt.
18/ Airport limousine operating outside of commercial zone.
19/ Effective 1/1/82, jurisdiction of the Maine PUC over surface transportation was transferred: (1) passenger carriers to the Maine Department of Transportation; (2) freight carriers to the Bureau of State Police, Department of Public Safety. See 35 M.R.S.A. 1501 et. seq. (1982). Regulation of motor carriers in Maine now basically consists of licensing and safety regulation.
20/ The Minnesota TRB has rate and service jurisdiction over air terminal buses in interstate commerce.
21/ Connecticut Department of Health Services, office of Emergency Medical Service 79 Elm Street, Hartford.
22/ Connecticut Motor Vehicle Department, 60 State Street, Wethersfield, Connecticut 06109.
23/ Connecticut DOT, 24 Wolcott Hill Road, Wethersfield 06109, if engaged in livery (charter) service.
24/ Hotel buses, school buses, and taxicabs are subject to rates, service and safety if they have certificate for regular route or charter permit from TRB. Rates are set by TRB if regular route common carrier, otherwise carrier simply files rates at MNDOT. MNDOT has rate enforcement responsibility.
25/ Arkansas Transportation Safety Agency.
26/ Effective 7/1/88, the Motor Carrier Section of the IURC transferred to the Department of Revenue.
27/ Commission did not respond to requests for update information; this data may not be current.

1/ Motor common carriers operating under the jurisdiction of agency are authorized to engage in collective ratemaking through carrier rate bureau subject to final determination of rates by agency.
2/ Agency regulates the agreements and procedures for such collective ratemaking.
3/ Carrier's right of independent action assured by statute.
4/ Only evidence presented at hearings is used to make final determination.
5/ Vermont Transportation Board, 118 State Street, Montpelier, Vermont 05602.
6/ GS 62-152.1-1977.
7/ Commission prescribes the rates, rules and regulations and publishes the tariffs.
8/ Under Ch. 469, Laws of 1981, effective 1/1/82, jurisdiction over surface transportation transferred: Transportation of passengers to Maine DOT; Transportation of freight to Bureau of State Police, Dept. of Public Safety. 35 MRSA 1501 et. seq. (1982). Regulation of motor carriers in Maine basically consists of licensing and safety regulation.
9/ Oklahoma collective ratemaking mandated by Statute.
10/ Commission prescribes rates, rules and regulations. Tariffs published by Truck Services, Inc, a division of Nebraska Motor Carriers Association.
11/ Arkansas Transportation Safety Agency.
12/ Commission did not respond to requests for update information; this information may not be current.
13/ Effective 7/1/88, the Motor Carrier Division of the IURC transferred to the Indiana Department of Revenue, Special Tax Division.

FOOTNOTES - TABLE 149 - REGULATION OF MOTOR CARRIERS ENGAGED IN GARBAGE COLLECTION

1/ The Alaska Public Utilities Commission has jurisdiction over motor carrier garbage collection.
2/ Jurisdiction over passenger carriers - Dept. of Transportation; freight carriers under Bureau of State Police, Dept. of Public Safety. There is an exemption in title 35, Section 1560, MRSA: "While engaged exclusively in the transportation of refuse, garbage and trash to dispersal areas within a distance of 30 miles by highway thereof."
3/ Limited jurisdiction.
4/ Applies only to garbage that might have some value, i.e., garbage to be recycled.
5/ Regulate as a private carrier.
6/ No Arizona regulation except safety by the Department of Public Safety.
7/ New Jersey DPU, Division of Solid Waste, regulates refuse collection.
8/ Arkansas Transportation Safety Agency.
9/ Effective 7/1/88 the Motor Carrier Division of the IURC transferred to the Indiana Department of Revenue, Special Tax Division.
10/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 150 - SCOPE OF AGENCY REGULATION OF MOTOR FREIGHT CARRIERS

1/ Annual reports are required to be filled out showing intrastate operations.
2/ Regular route carriers of general commodities including common and contract flammable carriers.
3/ Flammable tank truck carriers only.
4/ Contract (charter) carrier rates filed with the PSC. PSC prescribes minimum rates upon petition.
5/ No jurisdiction if subject to ICC regulation.
6/ Under jurisdiction of Motor Vehicle Department.
7/ Intrastate cargo only.
8/ Regulatory authority repealed by Ch. 77-457, Laws of Florida.
9/ Commercial Motor Vehicle Division; intrastate operations only.
10/ Jurisdiction of Motor Vehicle Department and State Police.
11/ All rates are filed with DOT, but rates for certificated carriers of passengers, freight and petroleum are subject to approval by TRB. Grain rates and class rates (minimums) are prescribed by TRB. Permit carriers allowed permissive filing with DOT, subject to complaint to the TRB.
12/ PUC has jurisdiction only over merging of carriers without interstate operating authority. Mergers approved by ICC are accepted without additional filing. Must apply to PUC for acquisition of non-incorporated carriers.
13/ Under jurisdiction of Utah State Department of Transportation.
14/ Safety enforced by the Department of Public Safety. Insurance and registration under DOT.
15/ Under jurisdiction of Highway Patrol.
16/ State Police have jurisdiction.
17/ Jurisdiction over freight carriers under Bureau of State Police, Department of Public Safety. 35 MRSA 1501 et. seq. (1982). Regulation now basically consists of licensing and safety regulation.
18/ Missouri DOT can safety inspect motor vehicles in terminals only (no on-road inspections). Safety audits are also conducted.
19/ Arkansas Transportation Safety Agency.
20/ Commission did not respond to requests for update information; this data may not be current.
21/ Effective 7/1/88 the Motor Carrier Division of the IURC transferred to the Indiana Department of Revenue, Special Tax Division.

FOOTNOTES - TABLE 151 - NUMBER OF MOTOR FREIGHT CARRIERS UNDER AGENCY JURISDICTION

1/ Includes both interstate and intrastate registrations.
2/ Many carriers hold both common carrier and contract carrier authorities.
3/ Includes liquid carriers, irregular route truck operators and certified general freight carriers.
4/ This figure includes all INTRASTATE vehicles, both freight and passenger.
5/ An additional 3,456 carriers transporting logs, sand and gravel subject to entry and safety regulation.
6/ Total number of motor freight carriers, common and contract.
7/ Intrastate only.
8/ Total for-hire motor carriers, common and contract; and private carriers for purposes of motor fuel tax.
9/ Minnesota does not categorize most carriers as common or contract carriers. Local cartage carriers, 547; courier service, 312; irregular route common carriers, 2,199; regular route common carriers, 54; livestock haulers, 1,141; contract carriers, 1,567; petroleum carriers. 110.
10/ Includes New York City household goods movers.
11/ Reporting of Common and Contract Carriers is limited to Class I and Class II motor carriers of property, effective 1/1/80. This requirement is now for approximately 3,100 Class I and Class II carriers.
12/ Includes 64 carriers which hold both common and contract carrier authority and 2 rail freight carriers.
13/ Idaho deregulated carriers of livestock, sand and gravel and aggregates thereof, agricultural products and livestock feed 7/1/80 by exempting those commodities from the Motor Carrier Act. Household goods carriers 7/1/82.
14/ Interstate common and contract carriers.
15/ Arkansas Transportation Safety Agency.
16/ Commission did not respond to requests for update information; this data may not be current.
17/ Effective 7/1/88 the Motor Carrier Division of the IURC transferred to the Indiana Department of Revenue, Special Tax Division.

Advance Notification of Nuclear Waste Shipments

The following table identifies the individuals in each state designated by the Governor to receive advance notification of shipments of nuclear waste and/or spent fuel, under 10 CFR Part 73 (spent nuclear reactor fuel) and Part 71 (large quantities of radioactive waste, and spent nuclear reactor fuel not covered under Part 73).

This list was compiled by the Nuclear Regulatory Commission (NRC) and published in the *Federal Register* June 13, 1989. The NRC intends to update and republish the list annually, on or about June 30th.

In most states, the same individual has been designated to receive notification under both Parts 71 and 73, those few states who have designated a different individual for Part 73 notification indicate that information.

TABLE - 152 - INDIVIDUALS RECEIVING ADVANCE NOTIFICATION OF NUCLEAR WASTE SHIPMENTS

ALABAMA Col. Thomas H. Wells, Director, Alabama Department of Public Safety, PO Box 1511, Montgomery AL 36192-0501, (205) 261-4378

ALASKA Dennis Kelso, Commissioner, Alaska Department of Environmental Conservation, Pouch 0, Juneau AK 99811, (907) 465-2600

ARIZONA Charles F. Tedford, Director, Arizona Radiation Regulatory Agency, 4814 South 40 Street, Phoenix AZ 85040, (602) 255-4845; After hours (602) 998-4662

ARKANSAS Greta J. Dicus, Director, Division of Radiation Control and Emergency Management Programs, Arkansas Department of Health, 4815 W. Markham Street, Little Rock AR 72201, (501) 661-2301; After hours (501) 661-2136 or 661-2000

CALIFORNIA Robert P. Rengstarff, Chief, California Highway Patrol, PO Box 942898, Sacramento CA 94298-0001, (916) 445-3253

COLORADO Captain Lonnie J. Westphal, Officer in Charge, Administrative Branch Services, Colorado State Patrol, 700 Kipling Street, Denver CO 80215, (303) 239-4560; After hours (303) 239-4501

1/ Accounting and reporting eliminated effective 1/01/80.
2/ Intermodal freight forwarders and forwarders by water, rail and air are regulated; forwarders by motor vehicle only are exempt from regulation.

NATIONAL TABLES ON RAILROAD REGULATION

The following tables indicate how the various states regulate railroad carriers.

Table 154 indicates how many railroad carriers operate in the state, whether the agency regulates the following aspects of railroad business and cites the jurisdictional authority: entry into the railroad business, operating territory, abandonment, rates, accounting service, safety construction, security issues, mergers and acquisitions, insurance and reporting.

Table 155 details the agency's authority over specific aspects of railroad safety.

Tables 156 and 157 shows in detail each state's participation in the Federal Railroad Safety Act of 1970 (45 USCA §435).

Table 158 contains information about each state's railroad accident reporting requirements.

Table 159 details each agency's authority over highway-railroad crossings. Table 160 cites the specific personnel of each state responsible for such crossings and details jurisdiction, funding and problems.

Tables 161 and 162 cite the prescribed methods of preserving records and prescribed system of accounts for motor carriers as well as railroads.

FOOTNOTES - TABLE 154 - SCOPE OF AGENCY REGULATION OF RAILROADS

1/ Annual reports required to be filed showing intrastate operations.
2/ Sidings.
3/ Louisiana Department of Transportation and Development, P.O. Box 44245, Baton Rouge, Louisiana 70804.
4/ Public Crossings.
5/ Accidents, derailments, collisions, main track blockages in excess of two hours.
6/ The two major provincial railways managed and operated by Canadian National Railways, federally regulated. However, a small new provincially incorporated railway has filed its rates with the Board.
7/ Abandonment of stations and agencies; line abandonments by other authority.
8/ Certain structures.
9/ PUC has authority to regulate railroads, but the only railroad now in operation is on private property--a scenic attraction, not subject to regulation.
10/ Vermont Agency of Transportation, State Administration Building, Montpelier, Vermont 05602.
11/ Intrastate spur trackage over which the ICC has not exercised its jurisdiction.
12/ Public crossings, clearances, walkways on bridges, track centers.
13/ Abandonments of stations and agencies, industrial sidings.
14/ Jurisdiction from the Interstate Commerce Commission.
15/ Transferred to Indiana Department of Transportation effective 7/01/86.
16/ Reporting requirements for Class I & Class II Railroads.
17/ Pursuant to Interstate Commerce Commission-State Staggers Certification.
18/ Constitution Art. IV, §75-401 RRS, 1943; §75-440 RRS 1943; §74-101 RRS, 1943; §74-1929 RRS, 1943.
19/ Clearances.
20/ Iowa Railway Finance Authority (IRFA) requires all railroad corporations that have received ICC authority for abandonment of rail line to offer for sale to IRFA all abandoned right of way before removing any track material.
21/ Arkansas Transportation Safety Agency.
22/ Abandonments of stations and agencies only; required by statute to participate in federal line abandonment cases when contested by community or shippers.
23/ Under Utah Department of Transportation.
24/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 155 - REGULATION OF RAILROAD SAFETY

1/ Clarification can be made by reference to ARS 40-801 through 40-896.02.
2/ Regulation has been left to local community through local ordinance.
3/ Inspection upon complaint.
4/ Investigation but no determination of probable cause.
5/ Louisiana Department of Transportation and Development, PO Box 44245, Baton Rouge, LA 70804.
6/ Removal of any trackage or facility must be authorized by the PSC.
7/ Railroads must publish all rates, rules and charges and be authorized by the PSC.
8/ Railroads must report all accidents with the PSC.
9/ Enforcement responsibility shared jointly with local law enforcement officials.
10/ Only at crossings or as track conditions warrant.
11/ Participate with NTSB and FRA.
12/ For clearance requirements.
13/ Cabooses and locomotives.
14/ At crossings.
15/ 49 CFR 235 Certification - Signal inspector and Bridge inspector.
16/ DOT usually refers complaints to officials of the cities and municipalities as provided in RSMo. 1969 Sections 79.420 and 77.540.
17/ Jurisdiction between Commission and State Highway Department.
18/ Speed limits may be set by municipalities, but railroads companies may appeal to NCUC if they feel the ordinance is unreasonable.
19/ Statutory.
20/ No railroads in Puerto Rico or the Virgin Islands.
21/ Federal Certification 49 CFR 213.
22/ 49 CFR 215, 231 and 232, FRA certification.
23/ Rules and regulations, Washington Utilities and Transportation Commission.
24/ OCT has authority over all these items, but primary activity is in the areas dealing with crossings and clearances, with selected involvement in railroad accidents.
25/ Division of Labor & Industry, 501 St. Paul Place, 21202.
26/ No jurisdiction unless violation observed by Ohio PUC railroad inspector.
27/ Probable authority – has never been exercised.
28/ Lighting requirements.
29/ Vermont Agency of Transportation, State Administration Building, Montpelier, Vermont 05602.
30/ PUC has authority to regulate railroads, but the only railroad now being operated is on private property--a scenic attraction, not subject to regulation.
31/ FRA Certification 49 CFR 215, 231, 232 and OPUC sanitation rules aboard cabooses and locomotives.
32/ Walkway areas.
33/ Only as track conditions warrant.
34/ 49 CFR 217, 218, 221, 225, 228, FRA Certification.
35/ Arkansas Transportation Safety Agency.
36/ Commission did not respond to requests for update information; this data may not be current.
37/ Under jurisdiction of State DOT.

TABLE 156 - STATE RAILROAD SAFETY INSPECTORS

State Railroad Safety Inspectors, either under the Federal Railroad Safety Act of 1970 (45 USCA, §435), or under an Independent State program, as of 12/31/88.

**FC = FULL CERTIFICATION -- total allocation of inspectors aboard. C = CERTIFICATION -- less than full compliment, has evidenced intent for Full Certification. A = AGREEMENT -- token participation, or not full jurisdiction of all railroads.

1/ Upon the request of a State, the Administrator may authorize up to double the inspector allocation shown in the State Participation Regulations.
2/ Certified to inspect rolling stock, power brakes and safety appliances.
3/ Arkansas Transportation Safety Agency.
4/ Safety Program under Utah State Department of Transportation.
5/ New York SDOT has no jurisdiction over the Long Island Railroad; safety inspection by FRA and State Public Transportation Safety Board.
6/ Jurisdiction of Division of Labor & Industry's Railroad Safety & Health Program.
7/ Plus 2 Grade Crossing Inspectors.
8/ Signal & Train Control Inspector.
9/ Commission did not respond to requests for update information; this data may not be current.

Table 157A - COST OF ADMINISTERING STATE RAILROAD SAFETY PROGRAM
Fiscal Year Ending June 30, 1988 (unless otherwise noted)

Cost of Administering Safety Program Independently or Under §206, Federal Railroad Safety Act, 1970 (45 USCA § 435)

TABLE 160 - STATE AGENCY RESPONSIBLE FOR HIGHWAY-RAILROAD CROSSING

ALABAMA
Personnel: Bernard Taylor, Transportation Director; Alabama Public Service Commission, PO Box 991, Montgomery 36102.
Funding: Signalization projects are funded by the city, county, state or federal governmental agency involved at the particular crossing in conjunction with the railroads. Federal funds are administered through Alabama State Highway Department.
Problems and Solutions: Problem is failure of vehicular and train traffic to observe established laws and speed limits and lack of automatic gate protection.

ALBERTA (CANADA)
Jurisdiction: The Public Utilities Act specified that the permission of the Board must be obtained for the construction of highway crossings by railroads under its jurisdiction, and that the Board shall make reasonable provisions for the protection of the public.

ARIZONA
Personnel: G. Robert Starkey, Chief Railroad Safety Section, Arizona Corporation Commission, 1200 West Washington, Phoenix 85007.
Jurisdiction: Speed-Statutory authority has been granted to Commission. New regulations are proposed for 1989.
Funding: Signalization projects are funded 50% by railroad, 50% by the public agency involved (city, county, state), or 90% Federal and 10% ACC. Priority lists are prepared by the Arizona Corporation Commission in cooperation with the Arizona Department of Transportation.
Problems and Solutions: Major problem is appropriation of money for adequate protection.

ARKANSAS
Arkansas Transportation Safety Agency.

CALIFORNIA
Personnel: Principal, Railroad Safety Branch, Public Utilities Commission, 505 Van Ness Ave., San Francisco 94102.
Funding: State Crossing Protection Fund consists of annual State contribution of up to $1,000,000 which reimburses 50% of local agencies' cost up to a maximum of 25% of the total signal cost. Signalization costs, not funded by Federal sources, are assigned 100% to the moving party for new grade crossings and 50% to the railroad and 50% to the local agency for existing crossing improvements. The maintenance costs for signals installed are allocated on the same basis as installation costs and the State maintains a Protection Maintenance Fund to pay the local agencies' entire share for maintenance on signals installed after October 1, 1965. There is also an annual appropriation for grade separation projects.
Problems and Solutions: The current annual State appropriations for the Protection and Maintenance Funds, together with Federal funds, are adequate to meet the demand for improved at-grade warning devices, however the demand for grade separation funds far outweighs the available resources and such appropriations should be increased to meet the need and spiraling construction costs. The elimination of Federal funds for installation of signals allocated 90% Federal Fund and 10% local agency will have a devastating effect since most of today's improvements are Federally funded. The railroads will not want to return to paying 50% for signals.

COLORADO
Personnel: John B. Stuelpnagel, Acting Chief of Transportation, John H. Baier, Transportation Engineer, Colorado Public Utilities Commission, Logan Towers, 1580 Logan Street, Denver 80203.
Funding and Priorities: Grade crossing protection fund receives $20,000 per month from highway user tax fund (Stat 120-12-5). State Highway Department has developed a hazard rating system which is helpful in setting priorities; however city and county officials usually set their own priorities based on their more intimate awareness of local needs.

Signalization projects are funded by the crossing protection fund only if no federal funds are available. The railroad is required to pay at least 20% of the cost of installation and 100% of future maintenance. At new crossings in conjunction with private residential developments the development company usually funds the installation of required protective devices.
Problems: The greatest problem at crossings is motorist carelessness and disregard for crossing protection devices.

CONNECTICUT
Personnel: Department of Transportation, PO Box 11-996, Newington 06111-0996.
Jurisdiction: Speed - Train speed jurisdiction limited to cities and boroughs only. Blockage - Crossings blockage is controlled after five minutes.

FLORIDA
The Florida Public Service Commission has no jurisdiction in railroad safety, effective October 1, 1979. All positions in railroad safety have been abolished.
Jurisdiction: The DOT has regulatory jurisdiction over railroad safety and all public railroad crossings in Florida, including the authority to issue a permit to open and close such crossings.

GEORGIA
Personnel: Robert R. Ginn, Director, Consumer Affairs Rail Service and Tariffs Division, Georgia Public Service Commission, 244 Washington Street, Atlanta 30334.

IDAHO
Personnel: Tonya Clark, Director, Regulated Carrier Division, Idaho Public Utilities Commission, Statehouse, Boise 83720.
Priorities: Established by Idaho Department of Transportation.

ILLINOIS
Personnel: Bernard L. Morris, Chief Railroad Engineer, Transportation Division, Illinois Commerce Commission, 527 E. Capitol Ave., Springfield 62706.
Jurisdiction: Speed - Commission has the authority to control speed but only under extraordinary circumstances affecting public safety and only while that circumstance is in effect. Blockage Enforcement shared jointly with local enforcement agencies and fine is progressive as length of blockage increases. Applied only to stopped trains.
Funding: The Grade Crossing Protection Fund receives $1 million per month from the state motor vehicle tax as a result of 1985 legislation. Fund money may be used to pay part of the cost of automatic crossing signalization, highway approach work and crossing surface construction in connection with safety improvements. With the recent increase in funding, it is being used more extensively in rail-highway grade separation construction and reconstruction. The Fund may also be used to construct connecting roadways to facilitate closure of existing grade crossings. It may be used only on the county, etc., highway system. Many times, it is used in connection with Highway Safety Act funding administered through the Illinois Department of Transportation to complete funding arrangements for improvements.

The Federal Railroad Administration accidents prediction formula, state records of accidents occurring at crossings, long term viability of the subject

TABLE 160 - STATE AGENCY RESPONSIBLE FOR HIGHWAY-RAILROAD CROSSING (Continued)

railroad line and volume and type of highway usage are major considerations in determining locations for Fund usage.
Problems and Solutions:

Grade Crossings: Lack of observance of signs and automatic crossing signal devices by motorists. Commission is heavily involved in the Operation Lifesaver program, including chairing the state's Grade Crossing Safety Council. Much activity in the education, engineering and enforcement areas of grade crossing safety has been undertaken. The Operation Lifesaver program includes various state agencies, rail unions, railroads and other interested groups. A three-year statewide program started in 1988 to upgrade all flashing light signals from 8 3/8" diameter units to 12" at all crossings of public highways with tracks of regulated carriers.

Grade Separations: Many overhead highway bridges maintained by railroads are in a deteriorated condition and there has been no systematic methodology of addressing this problem. In the case of railroad overheads, inadequate vertical clearance for legal height vehicles is a major problem. With the increase in Grade Crossing Protection Funding, a program to address this situation is being developed.

INDIANA
Personnel: As of July 1, 1986, railroad function transferred to Department of Transportation under Robert Garner, Deputy Director, Room 300, Harrison Building, 143 West Market, Indianapolis 46204.

IOWA
Personnel: Leslie Holland, Director, Rail and Water Division, Iowa Department of Transportation, Ames 50010.
Jurisdiction: The Rail and Water Division of the Iowa Department of Transportation has jurisdiction over funding. Railroads and specific highway authorities have jurisdiction over specific crossings.
Funding: Iowa's grade crossing safety fund consists of $700,000 per year appropriation and is presently used to pay up to 75% of signal maintenance costs. Iowa's grade crossing surface repair fund consists of a $900,000 per year appropriation which pays 60% of crossing repair costs provided the railroad and local highway jurisdiction each agree to repair and agree to pay 20% of the costs. These funds and the Rail/Highway Federal Aid Safety funds are administered by the Rail and Water Division. Exposure index and predicted accident priority systems are used to determine which projects are funded.
Problems and Solutions: Railroads perform line segment reviews with highway authorities with the help of the Rail and Water Division. A team of railroad, highway jurisdiction and DOT personnel review and inspect all crossings in the corridor to assist in the determination of the funding of safety projects. Low-cost improvements at all public crossings are stressed in these reviews.

KANSAS
Personnel: Administrator of Transportation, Kansas Corporation Commission, State Office Building, Topeka 66612.
Jurisdiction:

General: Kansas statute 66-156 gives the Corporation Commission broad general powers to supervise public utility companies in the interests of safety. It is under this authority that speed of trains at crossings may be regulated in Kansas.

Blockage: Limited to ten minutes by statute (66-273).

Funding: Kansas has a grade crossing protection fund, with $300,000 per year available from the State Highway Fund. The cost of signalization projects is borne by the railroad (not less than 20% nor more than 50% to the railroad) and the protection fund.

KENTUCKY
Personnel: Assistant Director, Division of Planning, Kentucky Department of Transportation, Bureau of Highways, 419 Ann Street, Frankfort 40601.
Funding: All crossing improvements programmed for federal-aid participation are funded 100% federal. All other crossings on the state system are funded 90% state and 10% railroad. No crossing improvements, except for TOPICS, are made off the state system. Under Kentucky law the state pays all maintenance costs for those improvements negotiated by the Department of Highways. Priorities are developed through the diagnostic team and hazard rating approach.
Problems and Solutions: The most important problem in grade crossing safety is driver responsibility. A program aimed at increasing driver awareness and concern should be instituted. The present apathy is the result of a combination of familiarity with the crossing and the idea that crossing safety is someone else's responsibility. The passive signing study now underway may help somewhat.

LOUISIANA
Personnel: Joseph L. Wax, Project Control Engineer, Louisiana Department of Highways, PO Box 44245, Capitol Station, Baton Rouge 70804. Kenneth Adams, Director of Transportation, Louisiana Public Service Commission, Suite 1630, One American Place, Baton Rouge 70825-1097.
Jurisdiction: PSC - Jurisdiction over crossing construction to statutory degree only. Highway - Jurisdiction over crossing limited to agreement negotiations only.
Funding Priorities: Highway - crossing protection is provided (a) for specific public requests; (b) as required by highway improvements; and (c) in order of preference established in the List of Hazard Index Ratings as prepared by the FHWA.
Problems and Solutions: Railroad signal suppliers need to update their signals to use lenses, reflectors and lamps in accordance with standards included in the Manual on Uniform Traffic Control Devices. Existing signal lights are inferior.

MAINE
Jurisdiction: Maine Department of Transportation.

MARYLAND
Jurisdiction: State Highway Administration of the Maryland Department of Transportation.

MASSACHUSETTS
Jurisdiction: Department of Public Utilities.

MICHIGAN
Personnel: Norma J. Fleming, Administrator, Railroad Safety and Tariffs Division, Michigan Department of Transportation, PO Box 30050, Lansing, 48909.
Jurisdiction: Michigan Department of Transportation.
Funding: For other than federal-aid projects, state law requires an equal division of costs for signalization projects between the railroad and public authority in interest; costs for gates borne by railroad. The state has a grade crossing fund administered by the Local Services Division of the Michigan Department of Transportation.

TABLE 160 - STATE AGENCY RESPONSIBLE FOR HIGHWAY-RAILROAD CROSSING (Continued)

Problems and Solutions: (1) Need for a form of automatic warning devices that, costs and safety-wise, will be about midway between passive signing and present automatic warning devices; (2) Greater authority to close crossings for safety purposes; (3) A program to increase driver awareness and responsibility in railroad grade rossing safety.

MINNESOTA
Personnel: Cecil L. Selness, Director, Office of Railroads and Waterways; Robert G. Swanson, Director, Railroad Section; Charles Sanft, Director, Rail Planning and Program Development Section.
Jurisdiction: Minnesota Department of Transportation.

MISSISSIPPI
Personnel: James W. Fortner, Director, Department of Transportation, Mississippi Public Service Commission, PO Box 1174, Jackson 39215-1174.
Jurisdiction: Signalization Projects: Mississippi law (Sec 7857) provides that it is the duty of the railroad, whenever the MPSC requires it, to maintain a gate at a public crossing. Crossing Blockage: Controlled by MPSC except for crossings within corporate limits of municipalities. Construction and Alteration: Municipalities have complete jurisdiction over railroads and crossings within corporate limits.
Problems: Not enough separated crossings and not enough grade crossings protected with automatic signalization.

MISSOURI
Personnel: Richard T. Mooney, Railroad Safety Manager, Missouri Division of Transportation, PO Box 1216, Jefferson City 65102.
Jurisdiction: Speed - Division has the authority to control train speeds at crossings, but uses it sparingly in special cases.
Funding: The grade crossing account is used in conjunction with the 203 Federal program. The Division staff develops the priority list to identify those crossings warranting signals or upgrading. The Missouri State Highway Department contracts with local government and railroads to fund 90% of the project while the remaining 10% comes from the Division's grade crossing account. In special cases when Federal funding is not available the Division may pay up to 90% of a project with the railroad paying the remaining 10%.
Problems and Solutions: The continuation of accidents occurring at crossings which have active warning devices and the lack of enforcement in prosecuting such violations. Through the Operation Lifesaver Program which the Division staff serves as State coordinator, we are hopeful of achieving better results in both areas.

NEBRASKA
Personnel: Charles Faulder, Freight Car Safety Inspector and Steve Fender, Track Safety Inspector, Nebraska Public Service Commission, 300 The Atrium, 1200 N Street, Lincoln 68509.
Jurisdiction: Signalization - Commission has jurisdiction except for automatic crossings. Blockage - Commission has no penalty power, but does contact railroad for explanation on specific occurrences.
Funding: Crossing Protection fund is administered by the Department of Roads. Signalization projects are funded 80% by the Department of Roads, 10% by the railroads and 10% by the political subdivision in interest (Stat 39-6194 and 6195).
Problems: How to make the public more aware of crossing safety. Maintenance of crossings has become a problem lately. Cities by ordinance may regulate crossings. Statute prohibits the blockage of a crossing located in any unincorporated town or village for more than ten minutes.

NEVADA
Personnel: Gerry Christ, Rail Safety Inspector, Nevada Public Service Commission, 727 Fairview Drive, Carson City 89710.
Jurisdiction: Separation Projects - Commission may order construction of a minimum type of crossing installation, but has no jurisdiction over the actual construction project. May make inspections to see that no less than minimum type ordered is being constructed.
Funding: Signalization Projects - Nevada Rev Stat 704-305 sets forth the procedures which are followed in apportionment of costs as follows: (1) New grade crossing - 100% to moving party; (2) New grade separation that will eliminate a grade crossing or reconstruction of existing separation structure - 13% to railroad, 87% to public (if reconstruction involves adding additional highway lanes, then railroad only liable for 13% of cost of reconstructing structure having the same number of highway lanes); (3) Upgrading of signalization - 87% to public, 13% to railroad; (4) Maintenance of (3) above - 50% to public, 50% to railroad; (5) Surface maintenance - railroad responsibility extends to two feet outside outermost rail at crossing; (6) Where federal funds used apportionment according to federal procedures; (7) Above apportionments may be altered by agreements between the interested parties.

NEW HAMPSHIRE
Personnel: Walter W. King, Administrator, Bureau of Rail Safety, New Hampshire Department of Transportation, PO Box 483, Concord 03302-0483.
Jurisdiction: Separated Crossings - If clearance above rail is less than 22 feet, project must be authorized by DOT. Speed - Controlled whenever DOT feels required in interest of safety. Blockage - A statutory limitation of five minutes may be extended by the Commission, after hearing, up to nine minutes.
Problems: Railroad deferred maintenance, slowdown in installation of automatic devices and finances.

NEW JERSEY
Personnel: Department of Transportation, 1035 Parkway Avenue, Trenton 08625.
Jurisdiction: Transferred to DOT from PUC effective 1/1/79.
Funding: Crossing protection fund receives annual appropriation from legislature. Spent for grade crossing elimination, improved protection and improvements in crossing surfaces. Priorities for improvement based on frequency and speeds of trains, degree of visibility in all approach quadrants, volume of vehicular traffic and accident experience.
Problems and Solutions: (1) Lack of illumination at crossings with passive protection during hours of darkness and under adverse weather conditions. A possible solution would be installation of high density lights, beamed toward flow of traffic, but located on far side of crossing. The movement of a train would give a strobe effect to the lighting and thus alert drivers to the danger. (2) An improved method or system of alerting drivers that they are approaching a crossing and that a train is also approaching or using the crossing is needed. A possible solution would be illuminated, train-activated, advance warning signs.

NEW MEXICO
Personnel: R.L. Platt, Railroad and Utilities Supervisor, New Mexico State Highway Department, PO Box 1149, Santa Fe 87501; F.B. Smith, Director, State Corporation Commission, Transportation Division, PO Box 1269, Santa Fe 87504-1269.
Jurisdiction: Crossings - Corporation Commission limited to crossings off state highway system. Highway department has complete jurisdiction for those on state system.

TABLE 160 - STATE AGENCY RESPONSIBLE FOR HIGHWAY-RAILROAD CROSSING (Continued)

Funding: Highway Department budgets about $50,000 per year for grade crossing protection. Roads on state system are funded 100% by the state with federal reimbursement. Crossings off the state system may receive up to 50% from the state on signalization projects.
Problem: Money.

NEW YORK
Personnel: New York State Department of Transportation, 1220 Washington Ave., State Campus, Albany 12232.
Jurisdiction: Crossings - Construction and alteration must go through hearings conducted by DOT. Signalization is ordered by the Commercial Transport Division with no public hearing required.
Funding: Separation Projects - 100% state financing regardless of road system involved with railroad liable for determined net benefits. Blockage - Section 53-C of state's railroad law prohibits excessive blockage. Municipalities have basic responsibility to enforce, but DOT does investigate complaints and attempts to alleviate the problem.

NORTH CAROLINA
Personnel: George E. Young, Chief, Rail Safety Section, North Carolina Utilities Commission, 430 N. Salisbury street, Raleigh 27611. Mailing address: PO Box 29510, 27626-0510.
Jurisdiction: Speed - (Stat 62-239) Municipalities may set speed restriction by ordinance, but railroad may appeal to Utilities Commission if it feels ordinance is unreasonable. Commission holds hearings and makes decisions on matter.
Funding: Department of Transportation, Transportation Planning, has jurisdiction over state highway system roads and links thereto.

NORTH DAKOTA
Personnel: Gary Berreth, Director, Planning Division, North Dakota State Highway Department, State Capitol Grounds, Bismarck 58505.
Jurisdiction: Blockage - State law sets limit of 10 minutes on all crossings.
Funding: $100,000 per year of Highway Department funds are designated for use in paying for the protection improvements on crossings off the state system. Commission determines need and apportionment.

OHIO
Personnel: Chief Railroad Inspector, Public Utilities Commission of Ohio, 180 East Broad Street, Columbus 43266-0573.
Jurisdiction: Blockage - State law sets limit of five minutes, unless the train involved is in continuous motion, as a traffic statute. PUC has general jurisdiction under general powers.
Funding: $100,000 per month from motor vehicle fuel tax transferred to protection fund, to be expanded to pay public share of costs for reducing hazards at crossings on all road systems. Provides that in some cases rail share may consist of agreement to pay for future maintenance. Signalization projects have been funded 90% to public; 10% to railroad. Priorities established and fund administered by State DOT.

OKLAHOMA
Personnel: William Mounger, Manager, Railroads, Oklahoma Corporation Commission, Jim Thorpe Capitol Office Building, Oklahoma City 73105.
Jurisdiction: Blockage - by order in 1972, the Commission made it unlawful for a crossing to be blocked more than 10 minutes unless the train involved was in continuous motion, either forward or backward. Corporation Commission has total jurisdiction of Public Highway Crossings.
Funding: Priorities - State Highway Department performs this function. Priority is set up on basis of exposure factor with other factors to develop a hazard index. Factors considered are accident experience, visibility conditions, approach gradient, etc. Signalization Projects - are funded on the federal-aid system 100% federal funds; state-aid system 90% state, 10% railroad; county road system 75% public, 25% maximum to railroad.
Problems and Solutions: (1) Alternate methods for more economical protection should be considered, such as train-activated advance warning signs. (2) A uniform driving manual showing all types of protection at railroad crossings, similar to that used by Missouri, should be published.

OREGON
Personnel: David J. Astle, Assistant Commissioner, Transportation Program; Craig J. Reiley, Manager, Crossing Safety Section, 300 Labor & Industries Building, Salem 97310.
Jurisdiction: All aspects relating to public grade crossings. Speed - statewide jurisdiction over speed of trains at all crossings and blockage of crossings. Whistles - Statewide jurisdiction over train whistles at crossings.
Funding: Crossing fund of $600,000 per year from State Highway Fund. Allocation formula: 75% Fund, 5% public authority, 20% railroad. Priorities for state and federally funded projects established by PUC.

PENNSYLVANIA
Personnel: D. Hart, Bureau of Safety and Compliance, Public Utilty Commission, PO Box 3265, Harrsburg, 17120.
Funding: Priorities based on accident frequency, empirical formula not used. Costs are allocated by the Commission in accordance with benefits received by each party in interest.

RHODE ISLAND
Personnel: Chairman, Public Utilities Commission, 100 Orange Street, Providence 02903.
Jurisdiction: Speed - State law allows cities and towns to regulate speed, but this is seldom done. Commission also has power to control speed at crossings. Blockage - Limited by law to 5 minute maximum.
Funding: On private crossings, party making request for new or improved crossing must fund the project. Public crossings are funded by the state Department of Transportation.
Problems and Solutions: Rhode Island is involved in project to eliminate main line grade crossings via separated structures and closures. Some private crossings are still a problem. Enforcement of present traffic regulations at crossings should be increased with violators brought to court. Advance warning signs are a must.

SOUTH CAROLINA
Personnel: Gordon W. Eckley, Chief, Rails and Rail Safety, Public Service Commission of South Carolina, PO Drawer 11649, Columbia 29211.
Jurisdiction: In South Carolina the Highway Department is the state agency which deals with grade crossing construction, funding, etc. The PSC has authority to order grade crossing changes as it sees fit. Blockage - Commission has limited control over crossing blockage which to date has not proved to be very effective.
Funding: Jurisdiction with Department of Highways and Public Transportation.

TABLE 160 - STATE AGENCY RESPONSIBLE FOR HIGHWAY-RAILROAD CROSSING (Continued)

SOUTH DAKOTA
Personnel: Public Utilities Commission, Capitol Building, Pierre 57501.

TENNESSEE
Personnel: Gordon C. Smith, Director, Railroad Division, Tennessee Public Service Commission, 460 James Robertson Parkway, Nashville 37219.
Jurisdiction: Commission's crossing jurisdiction very limited and does apply within municipalities. Tennessee Department of Transportation exercises expanded jurisdiction.

TEXAS
Personnel: Raymond Bennett, Director of Transportation/Gas Utilities Division, Railroad Commission of Texas, PO Drawer 12967, Capitol Station, Austin 78711.
Jurisdiction: Highway Department has jurisdiction for most crossing matters in Texas.

UTAH
Jurisdiction: Highway-railroad crossing is under the direction of a separate Department of Transportation, located at 4501 South 2700 West, West Valley City.

VERMONT
Personnel: David B. Kelly, Chief Engineer; Wilson K. Wheatley, Acting Planning Engineer; Boynton R. Saia, Rail Crossing Program Coordinator; Agency of Transportation, 133 State Street, Montpelier 05602.
Jurisdiction: The Transportation Board has quasi-judicial powers to close, open or modify grade crossings and to set conditions on any aspect including protective devices and distribution of cost of any improvements. The Transportation Agency administers the grade crossing improvement program.
Blockage: Blockage is limited by statute to five minutes, but we have never seen it prosecuted.
Funding: Grade crossing improvement program is supported by Federal highway funds matched by State funds. Railroads are responsible for maintenance except on State-owned lines.

VIRGINIA
Personnel: Robert G. Corder, Division Administrator, Rail and Public Transportation Division, Virginia Department of Highways, 1221 East Broad Street, Richmond 23219.
Funding: Under jurisdiction of Department of Highways and Transportation, Richmond.

WASHINGTON
Personnel: Joe Keefe, Director of Transportation, Don Lewis, Program Compliance Manager, Alan Scott, Transportation Operations Manager, Utilities and Transportation Commission, Chandler Plaza Building, 1300 Evergreen Park Drive South, Olympia 98504.
Jurisdiction: Crossings - Grade crossing construction, alteration and signalization under jurisdiction of Commission except in first class cities. Separated Crossings - Commission holds occasional formal hearings regarding allocation of cost when parties are unable to agree. Speed - Controlled outside first class cities.
Funding: Allocation on Grade Crossing Protection Fund signal projects at existing or new crossings when project is eligible for and receives Federal funding; the State Grade Crossing Protection Fund pays one percent of ten percent match. No local allocation is required. State Grade Crossing Protection Fund does not participate in maintenance of signals on federally funded projects.
Problems: Driver inattention believed to be greatest cause of crossing accidents.

WEST VIRGINIA
Personnel: Ira P. Baldwin, Manager, Railroad Safety Section, Transportation Division, Public Service Commission of West Virginia, 201 Brooks Street, PO Box 812, Charleston 25323, Telephone (304) 340-0474.
Jurisdiction: PSC has no jurisdiction in crossing safety field. Refer inquiries to Charles R. Lewis, Department of Highways, Building 5, Room 550, 1900 Washington St. E, Charleston 25305. (However, when crossings are in unsafe condition, PSC does contact railroad for correction of bad conditions.)

WISCONSIN
Personnel: Charles Campbell, Director of Railroad Bureau, Office of Commissioner of Transportation, PO Box 8968, 212 East Washington Avenue, Suite 403, Madison 53707.
Funding: State matches Federal money to pay railroad 100% of new construction and 50% of maintenance of all signal installation that are in operation in the state from a state fund of $2,300,000 annually. State appropriation from highway user taxes. Priorities established on basis of investigation.

WYOMING
Personnel: William L. Johnson, Director, Transportation Department, Public Service Commission of Wyoming, 122 West 25th Street, Cheyenne 82002.
Jurisdiction: Speed - Commission generally allows railroads own rules regarding speed to prevail, but can control where found necessary. Blockage - Rules governing blocked crossings adopted effective 5/23/86.
Funding: Highway Crossing Protection Account consists of legislative appropriation of $10,000 per month up to balance of $240,000. These monies are available to defray the expense of installation of automatic and other safety appliance signals and devices at public railroad grade crossings. The Commission apportions cost - maximum 33 1/3% to railroad. The fund money cannot be used at separations.

PART V

MISCELLANEOUS REGULATORY TABLES

Part V contains national tables treating miscellaneous subjects such as commissioner terms and methods of selection, summary of each agency's jurisdiction, agency salaries, assessment of costs of regulation, annual budget, judicial review, eligibility to practice before the agency, assistance to intervenors, news media coverage, administrative law judges, consumer representation and State energy offices.

SECTION U

OTHER FUNCTIONS AND BUSINESSES UNDER AGENCY JURISDICTION, SUMMARY OF UTILITY AND TRANSPORTATION REGULATION

Table 163 lists the functions performed by agencies other than regulation of the various utilities within their jurisdiction. Many of the agencies perform such functions as assessment of utilities for tax purposes, collection of motor vehicle tax, enforcement of "blue sky" laws and regulation of insurance.

Table 164 shows the extent of agency jurisdiction over docks and wharves, toll roads and bridges, warehouses, weights and measures, street railways, water carriers and other businesses.

Table 165 provides a brief summary of each agency's jurisdiction.

Table 163 - OTHER FUNCTIONS PERFORMED BY AGENCIES

AGENCY	Assess Utilities for Tax Purposes	Regulate Securities	Collect Motor Vehicle Tax	Enforce Blue Sky Laws	Regulate Insurance	Other
ALABAMA PSC					X 1/	None
ALASKA PUC						Determine customer credits under Power Cost Equalization Program.

QUEBEC TB						

FOOTNOTES - TABLE 163 - OTHER FUNCTIONS PERFORMED BY AGENCIES

1/ Carriers must file proof of insurance.
2/ Collect assessment fees from intrastate carriers based on vehicular capacity as rated by manufacturer.
3/ Public vehicles except mass transportation.
4/ Filing fees and annual fees assessed against motor carriers; however, these are not considered taxes.
5/ Approve franchise and supply agreements entered into by municipalities and supply agreements entered into by municipally owned utilities. Hear complaints about rates charged by NOVA, an Alberta gas carrier. Hear appeals: determination of gas transportation costs by the Alberta PMC; decisions on rural gas franchise areas and service areas.
6/ Automobile insurance rates are filed with Board, and Board may inquire into and adjust rates.
7/ Collect gross receipts assessment tax.
8/ Salespeople.
9/ For gas and electric utilities only.
10/ Commission did not respond to requests for update information; this information may not be current.

1/ Toll bridges only.
2/ Public warehouse statutes repealed July 1988; public grain warehouses--374 (481 locations); grain dealers--154.
3/ Public storage warehouses--50 general storage licenses. Public grain warehouses--350 licenses issued to grain elevators. 200 grain buyers' licenses.
4/ Not including state-owned ferries.
5/ Three franchises, but one is not active.
6/ Under authority vested by the Dairy Board Act, Chapter D-I of the Revised Statutes of Alberta 1980, Board may prescribe for milk the minimum prices (a) that are to be paid to producers by processors or distributors; (b) that are to be charged by distributors, processors and sellers thereof; and (c) that a distributor carrying on business in a controlled area is to charge when furnishing, delivering, keeping for sale or selling milk outside a controlled area.
7/ Also liquefied petroleum gas bottling plants and distributors.
8/ Accepts delivery and sells provincial royalty share of petroleum.
9/ In conjunction with transportation companies.
10/ Authority to issue "Certificates of Public Convenience and Necessity", however, none issued to date. New Jersey Transit, the State operated public transit agency, currently conducts a street railway system exempt from DOT jurisdiction.
11/ Commission did not respond to requests for update information; this information may not be current.

TABLE 165 - SUMMARY OF UTILITY AND TRANSPORTATION REGULATION

AGENCY	FIELDS OF REGULATION COVERED BY THE AGENCY
FERC	Electric Utilities and Licenses (private), Electric (public-Federal Power Marketing agencies, confirmation and approval authority; interstate natural gas (private) and interstate oil pipelines (carriers).
ALABAMA PSC	Privately or investor-owned electric, gas, water and steam heating; radio common carriers, COCOTs, resellers; telephone, telegraph; intrastate air carriers; motor vehicle carriers of persons or property for hire; RRs.
ALASKA PUC	Electric; gas; telecommunications, cable television; refuse; radio common carriers; water; sewer; steam heating companies; common carrier petroleum and gas pipelines.
ARIZONA CC	Electric (private, cooperative); gas (private); telephone; cellular; telegraph; water (investor); sewer (investor); securities; street railways; railroad safety; gas and hazardous liquid pipelines safety; motor transportation (except railroads) deregulated effective 7/1/82. RCCs deregulated 7/2/87.
ARKANSAS PSC	Electric (private, cooperative); gas (private); telephone; water (investor); sewer (investor).
CALIF. PUC	Electric (private); gas (private); telephone; radio common carriers; telegraph; water (investor); sewer (investor); steam heating companies; toll bridge corporation; water carriers; motor passenger carriers; household goods movers (rates); parcel carriers (rates); motor freight carriers; freight forwarders; motor transportation brokers; railroads; pipelines (rates).
COLORADO PUC	Electric (private, municipal, cooperative); gas (private, municipal); telephone; radio common carriers; telegraph; water (investor); steam heating companies; intrastate air transportation; motor passenger carriers; parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); taxicabs (rates); motor freight carriers; railroads.
CONN. DPUC	Electric (private); gas (private); telephone; cable television; telegraph; water (investor).
CONN. DOT	Effective July 1, 1989, all jurisdiction over motor carriers transferred from DPUC to DOT.
DELAWARE PSC	Electric (private, cooperative); gas (private); telephone; cable television; water (investor).
DC PSC	Electric (private); gas (private); telephone; radio common carriers; telegraph; enforcement of blue sky laws; securities.
FLORIDA PSC	Electric (private, municipal); gas (private, municipal); cooperative electric (rate structure, territorial and power plant siting); telephone (LEC, IXC, STS and payphones); water (investor); sewer (investor); securities.
GEORGIA PSC	Electric (private); gas (private); telephone; radio common carriers; telegraph; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); motor freight carriers; railroads.
HAWAII PUC	Electric (private); gas (private); telephone; radio common carriers; water (investor); sewer (investor); water carriers; motor passenger carriers; household goods movers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); motor freight carriers.
IDAHO PUC	Electric (private); gas (private); telephone; water carriers; motor passenger carriers; parcel carriers (rates); baggage carriers (rates); motor freight carriers; railroads.
ILLINOIS CC	Investor-owned electric, gas, water and sewer utilities; telecommunication carriers; motor carriers of property; motor carriers of passengers; rail carriers; common carriers of oil and gas by pipeline; commercial relocators of trespassing motor vehicles.
INDIANA URC	Electric (private, municipal, cooperative); gas (private, municipal); telephone; telegraph; water (investor, municipal, not-for-profit); sewer (investor).
IOWA SUB	Electric (private, over 10,000 customers); gas (private, over 2,000 customers); gas & electric (municipal-plant siting and safety matters); electric (co-op, service rules, plant siting and safety matters); telephone (rates for over 15,000 customers or access lines); telegraph; water (investor-over 2,000 customers)
IOWA DOT	Motor passenger carriers; household goods carriers; parcel carriers; baggage carriers; emergency tow trucks (partial); motor freight carriers; railroads; liquid freight carriers.
KANSAS SCC	Electric (private, municipal, co-op); gas (private, municipal, coop); telephone; radio common carriers; telegraph; water (investor); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); emergency tow trucks (rates); taxicabs (rates); motor freight carriers; railroads.
KENTUCKY DVR	Driver and vehicle licensing, fuel tax, operating authority, oversize/overweight permits, hazardous materials, intrastate rates and safety of motor carriers.
KENTUCKY PSC	Electric (private); gas (private); cooperative electric and telephone utilities; telephone (private); radio-common carriers; water (investor); water districts; water associations; sewer (investor).
KENTUCKY RC	Commission has broad powers to regulate intrastate railroad, express and water transportation companies, including rate regulation, issuing certificates, authorizing/directing establishment or curtailment of service, receiving and filing carrier reports and enforcing Kentucky laws applicable to rail, express and water service.
LOUISIANA PSC	Electric; gas (private); telephone; radio common carriers; telegraph; water (investor); sewer (investor); water carriers; railway express agency; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); motor freight carriers; railroads.
MAINE PUC	Electric; gas; telephone; radio common carriers; telegraph; water utilities; water carriers (all utilities subject to MPUC jurisdiction, including investor-owned, municipal, quasi-municipal and cooperative).
MARYLAND PSC	Electric (cooperative, municipal and private); gas (private and municipal); telephone; water (investor and municipal - limited rate jurisdiction); sewer (investor); steam heating companies; motor passenger carriers; air terminal buses (rates); taxicabs (rates and service); motor freight and flammables carriers; railroads; ferry companies; tours; water taxis; bay pilots (rates only)
MASSACHUSETTS DPU	Electric (private, municipal); gas (private, municipal); telephone; radio common carriers; telegraph; water (investor); street railways; motor passenger carriers; household goods carriers (rates); baggage carriers (rates); tow trucks (rates); motor carriers in garbage collection; motor freight carriers; railroads; parcel carriers (rates).
MICHIGAN DOT	Railroads, air transportation, motor passenger carriers.

TABLE 165 - SUMMARY OF UTILITY AND TRANSPORTATION REGULATION (Continued)

AGENCY	FIELDS OF REGULATION COVERED BY THE AGENCY
MICHIGAN PSC	Electric (private, cooperative); gas (private); telephone; radio common carriers; water (investor); steam heating; water carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); emergency tow trucks (rates outside the exempt zone); motor freight carriers.
MINNESOTA DOT	Intrastate air transportation -limited; motor carriers of passengers and freight (safety, insurance, leasing, enforcement of rates and service); railroads (limited).
MINNESOTA PUC	Electric (private); gas (private); gas (municipal); electric (municipal, cooperative); telephone; telegraph.
MINNESOTA TRB	Motor passenger carriers, motor freight carriers; railroads (limited).
MISSISSIPPI PSC	Electric (private); gas (private); gas (municipal - safety); telephone; radio common carriers; telegraph; water (investor); sewer (investor); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); motor freight carriers; railroads.
MISSOURI DOT	Motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); motor freight carriers; railroads.
MISSOURI PSC	Electric (private); gas (private); gas (municipal - safety); telephone; radio common carriers; telegraph; water (investor); sewer (investor); steam heating companies.
MONTANA PSC	Electric (private, municipal); gas (private, municipal); telephone; radio common carrier; telegraph; water (investor, municipal); street railways; water carriers; motor passenger carriers; household goods carriers (rates);parcel carriers (rates); baggage carriers (rates); taxicabs (rates); motor carriers in garbage collection; motor freight carriers; railroads; water carriers.
NEBRASKA PSC	Telephone; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); taxicabs; motor freight carriers; grain warehouse licenses; railroads; siting of high voltage transmission lines.
NEVADA PSC	Electric (private); gas (private); cooperative electric; telephone; radio-common carriers; telegraph; water (investor); sewer (investor); warehouses; motor passenger carriers, household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); emergency tow trucks (rates); taxicabs (rates); motor freight carriers; railroads.
NEW HAMPSHIRE PUC	Electric (private, municipal, cooperative); gas (private); gas (municipal); telephone; telegraph; radio common carriers; water (investor, municipal); steam heating companies; sewer (private).
NEW HAMP. DOT	Bureau of Rail Safety - Railroads.
NEW HAMP. DOS	Department of Safety, Bureau of Common Carriers: Economic regulation of motor carriers; Division of Enforcement has jurisdiction over safety of motor carriers.
NEW JERSEY BPU	Electric (private); gas (private); gas (municipal - however, no municipal gas utilities in the state); electric municipal); telephone; cable television; telegraph; water (investor, municipal); sewer (investor); solid waste landfills and collectors.
NEW JERSEYDOT	Motor passenger carriers; railroads.
NEW MEXICO PSC	Electric (private); gas (private); gas and electric (municipal - but only if municipality petitions for such regulation); water (investor); water and sanitation districts.
NEW MEXICO SCC	Telephone; radio common carriers; telegraph; water carriers; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); ambulances (rates); tow trucks (rates); taxicabs (rates); motor freight carriers; freight forwarders; railroads.
NEW YORK PSC	Electric (private, municipal); gas (private, municipal); telephone; cellular radio carriers; water (investor); steam heating companies.
NEW YORK SDOT	Airfields; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses over eight passengers (rates); motor freight carriers; railroads.
NORTH CAROLINA UC	Electric (private); gas (private); telephone; radio common carriers; water (investor); sewer (investor); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); motor freight carriers; railroads; transportation brokers; flume companies exercising right of eminent domain.
NORTH DAKOTA PSC	Electric (private); gas (private); telephone; radio common carriers; weights and measures; warehouse; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); taxicabs (rates); motor freight carriers; railroads; grain elevators; auctioneers and auction clerks; pipelines; mined land reclamation.
OHIO PUC	Electric (private); gas (private); telephone; radio common carriers; telegraph; water (investor); sewer (investor); steam heating companies; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses outside exempt zones; motor freight carriers; railroads; bridge companies; water transportation; oil; natural gas; coal or derivatives pipelines.
OKLAHOMA CC	Electric (private, cooperative); gas (private); telephone; telegraph; street railways; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); tow trucks (rates); motor freight carriers; railroads (limited); private water carriers; cotton gins. RCCs deregulated 1987.
OREGON PUC	Electric (private); gas (private); telephone; water (investor); Motor passenger carriers; household goods carriers (rates); parcel carriers (rates); motor freight carriers; railroads.
PENNSYLVANIA PUC	Electric (private); gas (private); gas and electric (municipal - outside corporate limits); telephone; radio common carriers; telegraph; water (investor, municipal); sewer (investor, municipal - rates and services outside corporate limits); steam heating companies; docks and wharves; securities; water carriers; intrastate air transport; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); buses (rates); taxicabs (rates); motor freight carriers; freight forwarders; railroads; brokers.
PUERTO RICO PSC	Gas (private); cable television; water (investor); warehouses; water carriers; motor passenger carriers; ambulances (rates); emergency tow trucks (rates); taxicabs (rates); motor freight carriers.
RHODE ISLAND PUC	Electric (private, munipal, cooperative); gas (private, municipal); telephone; cable television; telegraph; water (investor, municipal); street railways; water carriers; intrastate air transportation; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); emergency tow trucks (rates); taxicabs (rates); motor freight carriers; railroads.

TABLE 165 - SUMMARY OF UTILITY AND TRANSPORTATION REGULATION (Continued)

AGENCY	FIELDS OF REGULATION COVERED BY THE AGENCY
SOUTH CAROLINA PSC	Electric (private); gas (private); telephone; radio common carriers; water (investor); sewer (investor); motor vehicle carriers for hire (territory and rates); motor vehicles (safety); railroads; street railways.
SOUTH DAKOTA PUC	Electric (private); gas (private); telephone; radio common carriers; warehouses (for license purposes); grain dealers; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); motor freight carriers.
TENNESSEE PSC	Electric (investor); gas (investor); telephone (co-op exempt); radio common carrier (not cellular); water (investor); sewer (investor); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); motor freight carriers; railroads (safety).
TEXAS PUC	Electric (private, cooperative); electric (municipal - appellate jurisdiction over rates outside city limits); telephone.
TEXAS RC	Gas (private, municipal); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); tow trucks (rates); motor freight carriers; railroads.
TEXAS WC	Water and sewer (private-area and rates), (Cooperative-area and appellate rates), (Water districts-appellate rates), (Municipals-appellate rates for out of city), (appellate jurisdiction over wholesale rates for surface water).
UTAH PSC	Electric (private, cooperative); gas (private); telephone; radio common carriers; telegraph; water (investor); sewer (investor); motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); motor freight carriers; railroads.
VERMONT PSB	Electric (private, municipal, cooperative); gas (private, municipal); telephone; CATV; water (investor).
VIRGIN ISL.	Electric (private); telephone; radio common carriers; water (investor); warehouses; docks and wharves; water carriers; motor passenger carriers.
VIRGINIA SCC	Electric (private); telephone; telephone and electric cooperatives; gas (private); water and sewer (private); radio common carriers; cellular radio carriers; motor carriers - common carriers of passengers and property, contract carriers, household goods carriers, parcel carriers, petroleum tank trucks, taxicabs and transportation brokers; railroads; harbor pilots; launch services; sight-seeing carriers by boat; pipelines; financial institutions; insurance; blue sky laws; trademarks and service marks, limited partnerships, corporations
WASHINGTON UTC	Electric (private); gas (private, municipal); telephone; radio common carriers; telegraph; water (investor); docks and wharves; water carriers; motor passenger carriers; household goods carriers; parcel carriers; baggage carriers (rates); air terminal buses; motor carriers engaged in garbage collection; motor freight carriers; freight forwarders; railroads; petroleum pipelines.
WEST VIRGINIA	Electric (private, municipal, cooperative); gas (private); telephone; radio common carriers; telegraph; water (investor, municipal); sewer (investor, municipal); water carriers; motor passenger carriers; household goods carriers (rates); parcel carriers (rates); baggage carriers (rates); air terminal buses (rates); emergency tow trucks (rates); taxicabs (rates); motor carriers engaged in garbage collection; motor freight carriers; railroads; pipeline transport of oil, water or gas.
WISCONSIN DOT	Vehicle registration, motor carrier licensing and regulation, suspension of vehicle registration, motor carrier insurance, vehicle sales fair trade practices, issuing vehicle trip permits and identification stamps.
WISCONSIN OCT	Created 1977, Ch. 29. Railroad safety, driver license revocation and suspension, driver safety, administrative suspension for OWI, automobile dealers, other highway matters.
WISCONSIN PSC	Electric (private, municipal); gas (private, municipal); telephone; radio common carriers; water (investor, municipal); steam heating companies.
WYOMING PSC	Electric (private, co-op); gas (private, co-op); gas and electric (municipal - outside corporate limits); telephone; radio common carriers; telegraph; water (investor); steam heating companies; intrastate air transport; pipelines; common, contract, interstate and private motor carriers of property and passengers; railroads.
CANADIAN RTC	Supervises all aspects of the Canadian broadcasting system, ie radio, television (cable, pay and educational); as well as federally regulated telecommunications common carriers,ie telephone and telegraph companies.
NATIONAL ENERGY BOARD	Licensing of oil, natural gas and electricity exports; certification of interprovincial and international pipelines and designated interprovincial and international power lines; and setting of tolls and tariffs for oil and gas pipelines.
ALBERTA PMC	Gas pipelines; gas.
ALBERTA PUB	Electric (private); gas (private); telephone; water (investor).
NOVA SCOTIA PUB	Electric; telephone; water; motor carriers (freight and passenger); gasoline and fuel oil pricing; automobile insurance; salvage yards.
ONTARIO EB	Gas (private).
ONTARIO TSC	Telephone.
QUEBEC NGB	Gas (private); jurisdiction over electric utilities and steam heating companies ended June 17, 1988.
QUEBEC TB	Telephone; television, cablevision and radio programming (educational for all three).

SECTION V

TERMS OF OFFICE AND PROVISIONS FOR RETIREMENT OF COMMISSIONERS
TIME REQUIREMENTS FOR AGENCY RATE DECISIONS AND APPEALS
RESTRAINTS PLACED UPON COMMISSIONERS DEPARTING COMMISSION

The number of commissioners, their terms of office, principal previous occupations, the methods of selection for commissioners and chairmen and minority party representation are shown in Tables 166, 167 and 168. As can be seen in the tables, the method of selection, terms of office and number of commissioners vary from State to State.

These tables also contain information on the time limitation within which a rate case must be decided, suspension of rates, interim rate increases and method of appeals for rate decisions.

Tables 169 and 170 provide information on restraints placed upon commissioners departing commission to work for regulated industry. Table 171 details codes of ethics adopted for Commissioners and Table 172 indicates whether commissioner positions are full-time or part-time and whether outside compensated employment is permitted for commissioners.

FOOTNOTES - TABLE 166 (Continued)

12/ Coincident with term of appointing Governor.
13/ Concurrent with appointment as commissioner.
14/ With council approval.
15/ Statute provides for staggered six-year term, but Supreme Court has held it meaningless.
16/ Statutory qualifications: No more than three Commissioners may be members of the same political party unless number of Commissioner exceeds five, then no more than four may be members of same political party. Statute provides for five Commissioners, unless need for additional Commissioners is certified, then two more members may be appointed. Public Service Law, Art 1, Sec 4, Subd 1 and 2.
17/ Appointment by the Governor with approval of the Senate.
18/ Chairman may be reappointed for successive four-year terms.
19/ Elected for unexpired term if Legislature in session; otherwise appointed by Governor to fill vacancy for a term ending thirty days after commencement of next legislative session; legislature elects successor for unexpired term.
20/ Commissioner, Executive Deputy Commissioner and Assistant Commissioners; no fixed term of office.
21/ Lieutenant-Governor in Council.
22/ New appointees are appointed for a specified term.

FOOTNOTES - TABLE 166 (Continued)

33/ Date of term established at date of appointment.
34/ New legislation in 1988, three is the maximum number; as of 5/1/89, due to transition, four commissioners are working at the Board. This number (as well as the maximum number) includes Chairman and Vice-Chairman. The Quebec Government also may appoint, for such time and with such remuneration as it fixes, up to two additional Commissioners.
35/ None specifically for Commissioners; if they served the State for at least 10 years, they would fall under the general state retirement plan.
36/ The Division of Transportation has Administrative Law Judges instead of Commissioners.
37/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 167

1/ For nonrail carrier rate increases decision must be issued within 7 months. For rail carrier rate increases, decision must be issued within 5 months, unless Congress grants additional 3-month extension.
2/ Subject to refund upon final agency action.
3/ Commission attempts to decide rate case within seven months.
4/ Commission attempts to decide rate cases within nine months.
5/ Since the "law" is a Rule of Practice and Procedure of Commission, it could be suspended in an appropriate case. This has not occurred.
6/ Agency can extend only if company and other parties agree.
7/ Suspension period in effect during Commission investigation. Utilities may apply to place rates in effect under bond.
8/ Applicable to public utilities except rail.
9/ PUC has 30 days to decide whether to let go into effect or suspend. Can suspend for 120 days and, by separate order, an additional 90 days.
10/ ORC Sec 4909.16 allows Commission to grant emergency increases on a temporary basis.
11/ Board may grant extension to party in the case for "good cause".
12/ But not subject to refund.
13/ No study made.
14/ Utility may place rates into effect if no order entered after 6 months upon notifying Commission of intent to do so, but Commission may require bond be posted. If no order issued after 9 months, rates become permanent.

FOOTNOTES - TABLE 167 (Continued)

15/ No rates may go into effect except after 30 days notice to Commission. Rates may be suspended for 5 months from proposed effective date, but this does not extend 10-month time limitation.
16/ Case law permission; no statutory authority.
17/ It could happen; would depend on the issues and relief sought.
18/ None in past few years.
19/ Unless waived by Applicant-Utility.
20/ Six months for gas, electric and telephone; all others ten months.
21/ Cases go directly to Supreme Judicial Court.
22/ Interim rates must be decided within 60 days of initial filing.
23/ Thirty-five days automatic, 150 days plus 2 days for every day a hearing on merit runs beyond 15 days.
24/ After notice is given to Commission, the public, and published in New York State Register in accordance with statutes; time for notices approximately 30 to 60 days, except where good cause shown. In major rate cases, suspension can apply for 120 days.
25/ Statute provides that if Commission has not issued order within 275 days of filing application, proposed increase can go into effect upon filing an undertaking containing promise to refund any amount collected in excess of increase granted by Commission. If no order issued within 545 days, utility has no obligation to refund amounts collected, after the 545th day, in excess of amounts authorized by final order.

TABLE 170 - RESTRAINTS PLACED UPON COMMISSIONERS

ALASKA PUC

AS 42.05.131(b). A member or employee of the commission may not, after leaving the position as a member or employee of the commission, act as agent for or on behalf of a public utility or in any matter before the commission that was before the commission during the employee's employment or the member's term of office. A violation of this subsection is a Class A misdemeanor (a defendant convicted of a Class A misdemeanor may be sentenced to a definite term of imprisonment of not more than one year).

ARIZONA CC

ARS §38.504 **Prohibited Acts.**

A. No public officer or employee may represent another person for compensation before a public agency by which he is or was employed within the preceding twelve months or on which he serves or served within the preceding twelve months concerning any matter with which such officer or employee was directly concerned and in which he personally participated during his employment or service by a substantial and material exercise of administrative discretion.

B. During the period of his employment or service and for two years thereafter, no public officer or employee may disclose or use for his personal profit, without appropriate authorization, any information acquired by him in the course of his official duties which has been clearly designated to him as confidential when such confidential designation is warranted because of the status of the proceedings or the circumstances under which the information was received and preserving its confidentiality is necessary to the proper conduct of government business. No public officer or employee shall disclose or use, without appropriate authorization, any information acquired by him in the course of his official duties which is declared confidential by law.

C. No public officer or employee may use or attempt to use his official position to secure any valuable thing or valuable benefit for himself that would not ordinarily accrue to him in the performance of his official duties, which thing or benefit is of such character as to manifest a substantial and improper influence upon him with respect to his duties.

CONNECTICUT DPUC

§16-2(K) CT Gen Stats. No commissioner of the Authority shall accept employment by a public service company for a period of one year following the termination of his or her service as a commissioner. No such commissioner who is also an attorney shall in any capacity, appear or participate in any matter, or accept any compensation regarding a matter, before the Authority, for a period of one year following the termination of his or her service as a commissioner. The prohibitions of this subsection shall not apply to any commissioner serving on October 1, 1980, who serves for the term to which he or she is currently appointed and is not thereafter reappointed.

§16-1-31 Regs of CT State Agencies. Except when specially authorized by the commissioners, no person who has served as a commissioner or employee of the commission shall practice or act as attorney, agent or representative in any contested case before the commission or by any means aid in the preparation or prosecution of any such contested case which was pending before the commission while that person was so serving, if such representation or other employment in the contested case does or may involve the disclosure of confidential information acquired while serving as such commissioner or employee of the commission. In all cases except upon individual application and showing that such subsequent employment is not contrary to the public interest, no former commissioner or employee of the commission shall appear before the commission or accept employment in connection with any contested case before the commission within six months after the termination of such employment. The restrictions of this rule are in addition to and are not a limitation upon the provisions of the general statutes and the canons of ethics of any profession.

FLORIDA PSC

§350.0605, FS, prohibits any former Commissioner from appearing and representing any client before the Commission for a period of two years after his term expires.

HAWAII PUC

§84-18 Restrictions on post employment.

(a) No former legislator or employee shall disclose any information which by law or practice is not available to the public and which he acquired in the course of his official duties or use the information for his personal gain or the benefit of anyone.

(b) No former legislator or employee shall, within twelve months after termination of his employment, assist any person business or act in a representative capacity for a fee or other consideration, on matters in which he participated as an employee.

(c) No former legislator or employee shall, within twelve months after termination of his employment, assist any person or business or act in a representative capacity for a fee or other consideration, on matters involving official action by the particular state agency or subdivision thereof with which he had actually served.

(d) This section shall not prohibit any agency from contracting with a former legislator or employee to act on a matter on behalf of the State within the period of limitations stated herein, and shall not prevent such legislator or employee from appearing before any agency in relation to such employment. (L 1972, c 163 pt of §1).

ILLINOIS CC

No former member of the Commission may accept any employment with any public utility subject to Commission regulations for one year following the termination of services with the Commission.

IOWA SUB AND DOT

68B.7 Ban for two-year period after service. No person who has served as an official or employee of a state agency shall within a period of two years after the termination of such service or employment appear before such state agency or receive compensation for any services rendered on behalf of any person, firm, corporation, or association in relation to any case, proceeding, or application with respect to which such person was directly concerned and in which he personally participated during the period of his service or employment.

No person who has served as the head of or on a commission or board of a regulatory agency or as a deputy thereof, shall within a period of two years after the termination of such service receive compensation for any services rendered on behalf of any person, firm, corporation, or association in any case, proceedings, or application before the department with which he so served wherein his compensation is to be dependent or contingent upon any action by such agency with respect to any license, contract, certificate, ruling, decision, opinion, rate schedule, franchise, or other benefit, or in promoting or opposing, directly or indirectly, the passage of bills or resolutions before either house of the general assembly.

LOUISIANA PSC

Restrained from working on matters which had been before the Commission.

MAINE PUC

5 MRSA §18(3): 3. Former executive employee. A former executive employee commits a civil violation if he, within one year after his employment has ceased, either knowingly acts as an agent or attorney for, or appears personally before, a state or quasi-state agency for anyone other than the State in connection with a proceeding in which: A. The State is a party or has a direct and substantial interest; and B. The particular matter at issue was

TABLE 170 - RESTRAINTS PACED UPON COMMISSIONERS (Continued)

pending before his agency and was directly within his official responsibilities as an executive employee at any time within one year prior to the termination of his employment.

MARYLAND PSC

Art 78, §16A(c) of the Ann Code of MD prohibits a commissioner from representing a public service company in any way or appearing before the Commission on behalf of any party to a Commission proceeding or in any matter within the jurisdiction of the Commission until at least two years after the commissioner has left the Commission.

MASSACHUSETTS DPU

MA Gen Laws, Ch 268A, §5: "A former state employee may not, within one year after his/her employment has ceased, either (a) act as agent or attorney for, or (b) appear personally before an agency or court of the Commonwealth for, anyone other than the Commonwealth in connection with a proceeding in which (a) the Commonwealth is a party or has a direct and substantial interest; and (b) the particular matter at issue was under his/her official responsibilities as a state employee at any time within two years prior to the termination of his/her employment.

MICHIGAN PSC

For six months after leaving the Commission, a commissioner shall not be retained or employed by any public utility or public service subject to the jurisdiction and control of the Commission.

MINNESOTA PUC

Minnesota Statutes, §216A.036. **Employment Restrictions.**

(a) A person who serves as (1) a commissioner of the public utilities commission, (2) commissioner of the department of public service, or (3) deputy commissioner of the department, shall not, while employed with or within one year after leaving the commission, or department, accept employment with, receive compensation directly or indirectly from, or enter into a contractual relationship with an entity, or an affiliated company of an entity, that is subject to rate regulation by the commission.

(b) An entity or an affiliated company of an entity that is subject to rate regulation by the commission, or a person acting on behalf of the entity, shall not negotiate or offer to employ or compensate a commissioner, the commissioner, or the deputy commissioner, while the person is so employed or within one year after the person leaves that employment.

Minnesota Rules, Part 7845.0800 [Emergency]. **Future Employment.**

Subpart 1. One-year restriction. While employed with the commission or within one year after leaving it, a commissioner shall not accept employment with, receive compensation directly or indirectly from, or enter into a contractual relationship with a public utility or telephone company subject to rate regulation by the commission.

Subpart 2. Commissioner communication with parties. A commissioner shall not communicate, directly or indirectly, with a party to a pending proceeding before the commission regarding past or future benefits or compensation to be received from that party. The commissioner shall disclose in writing to the commission any communication regarding past or future benefits or compensation within 48 hours after the communication is made. The commission may dismiss a proceeding if an applicant, petitioner, or complainant violates this subpart.

Minnesota Rules, Part 7845.0900 [Emergency]. **Postemployment Representation.**

Subpart 1. By commissioner. A commissioner shall not represent a public utility or telephone company subject to rate regulation by the commission, formally or informally, before the commission for one year after leaving the commission. At no time shall commissioner represent a party on a proceeding that was pending before the commission during that commissioner's term in office.

MISSOURI PSC

After termination of service as a commissioner, no former commissioner shall appear before the Commission in relation to any case, proceeding or application with respect to which he or she was directly involved and in which he or she personally participated or had substantial responsibility in during his or her tenure of service with the Commission.

MONTANA PSC

§2-2-105(3) states that a public officer should not, within the months following the voluntary termination of his office or employment, obtain employment in which he will take direct advantage, unavailable to others, of matters with which he was directly involved during his term or employment.

NEVADA PSC

Gen Order No. 3, Rules of Practice and Procedure before the PSC. Rule 5.060 states that no former employee of the PSC may produce or act as an expert or other representative with respect to a docket before the PSC if that person worked on that docket while with the Commission (NAC 703.515). The 1987 Legislature passed a bill establising a one-year cooling-off period before a Commissioner could work for a regulated industry.

NEW HAMPSHIRE PUC

Ch 494-363:12b. No Commissioner shall accept any employment with any utility under the control of the Commission until two years after separation from the Commission.

NEW JERSEY BPU and NEW JERSEY DOT

There are such restraints in the sense that a commissioner cannot appear before the agency as any representative for six months after he has left the agency's employment. There are no restrictions upon a commissioner if he wishes to work for private industry but not appear before the agency. Also, a commissioner may never appear before the agency in a matter in which he participated as a public official.

NEW YORK PSC

No work or appearances on matters pending while a commissioner; no appearances before the Commission for six months after departure. By regulation 16 NCRR §1.7. No practice or appearance within two years after termination of employment on any matter and none at all on a case in which the person was directly involved, Ethics in Government Act, NY Public Officers Law §83.

OHIO PUC

For twenty-four months after the conclusion of his service, a former commissioner of the Public Utilities Commission may not represent a public utility or act in a representative capacity on behalf of such a utility before any State board, commission, or agency. §102.03.

TABLE 170 - RESTRAINTS PACED UPON COMMISSIONERS (Continued)

OREGON PUC

Under Oregon Revised Statutes Chapter 244.045, the following restrictions apply to employment in industry formerly regulated: (1) For one year after leaving office, no former commissioner of the Public Utility Commission may accept employment with any private employer engaged in any activity, occupation or industry over which the Commission had authority; (2) For two years after leaving office, no former commissioner of the Public Utility Commission may be a lobbyist or appear as a representative before the Commission; attempt to influence the actions of the Commission; or disclose confidential information gained as a public official.

PENNSYLVANIA PUC

One year prohibition against accepting employment with any public utility subject to Rules and Regulations of the Pennsylvania PUC. Three-year prohibiton against appearing before the PUC on behalf of a utility subject to Rules and Regulations of the PUC.

RHODE ISLAND PUC

§1.4(c) of the Rules of Practice and Procedure of the Commission state: (1) No person who is a Public Utilities Commissioner or an employee or legal consultant of the Public Utilities Commission or the Division of Public Utilities and Carriers, or the Department of the Attorney General, or any business associate of such person, may represent himself or any other person or act as an expert witness before the Commission except in the performance of his official duties. (2) No person having been so employed may, within one year after his employment has ceased, represent himself of any other person or act as an expert witness before the Public Utilities Commission. (3) Subsection (2) shall not apply to any person whose employment has been solely as a technical consultant and/or expert witness or to any employee or legal consultant to the Department of the Attorney General who during his or her tenure has not engaged in the presentation or preparation of any matter before the Commission.

TEXAS PUC

"(i) No commissioner shall within two years, and no employee shall, within one year after his employment with the commission has ceased, be employed by a public utility which was in the scope of the commissioner's or employee's official responsibility while the commissioner or employee was associated with the commission.

"(j) During the time a commissioner or employee of the commission is associated with the commission or at any time after, the commissioner or employee may not represent a person, corporation, or other business entity before the commission or a court in a matter that was within the commissioner's or employee's official responsibility while the commissioner or employee was associated with the commission.

UTAH PSC

No Commissioners, commission personnel, nor Division of Public Utilities personnel can accept employment with a public utility or from any officer, agent or employee thereof. **54-1-11(1)(c) and 54-4a-5(3).**

WASHINGTON UTC

Cannot practice before Commission for two years or be compensated directly or indirectly for such practice.

WISCONSIN PSC and WISCONSIN COT

For twelve months following leaving office, commissioners may not appear before or negotiate with Commission or staff for pay in connection with any matter which was under his or her official responsibility.

NATIONAL ENERGY BOARD (CANADA)

Members cannot accept employmnt for a one-year period after leaving office with any entity with which they had significant official dealings during the period of one year immediately prior to their termination.

* *

QUESTIONNAIRE

The preceding tables describing restraints placed upon Commissioners was developed on the basis of the following questionnaire submitted to NARUC member agencies.

1. Are there any restraints placed upon Commissioners leaving the Commission to work for regulated industry: _____ Yes _____ No.

2. If the answer to Question 1 is yes, please describe such restraints.

3. If the answer to Question 1 is yes, what authority governs such restraints: Statutory? Commission regulation? Other? Please give citation.

Table 171 - Codes of Ethics for Commissioners

The following table on Codes of Ethics for Commissioners is derived from responses to the following questions.

1. Does the law prescribe a code of ethics governing the conduct of the commissioners of your commission?
2. If "yes" to Question 1, does the code of ethics:

(a) Require the commissioner to uphold the integrity of the commission and to avoid impropriety and the appearance of impropriety in all activities?

(b) Prohibit a direct financial interest by the commissioner or his or her family member in any company, including affiliates, regulated by the commission? ("Family member" means the spouse or a minor child of the commissioner residing in his or her household.)

(c) Require disqualification of the commissioner in any commission proceeding participated in by a private party who has provided compensation to the commissioner or his or her family member in the past?

(d) Prohibit, except as specified in (e) below, the acceptance by the commissioner or his or her family member of a meal, entertainment or other gift, of any value or value in excess of $_____, from a party who has, or likely may have, a special interest in decisions made by the commission?

(e) Permit the commissioner to accept inconsequential meals and entertainment at meetings publicized in advance and sponsored by private or governmental organizations for the open discussion of regulatory matters or for the recognition of individuals who have made outstanding contributions to regulation or regulated industry?

(f) Prohibit employment for a length of time of a person, formerly serving as commissioner, by a private party who had a special interest in decision-making by the commission while the person served as commissioner? If "yes", what is the length of time?_____.

The NARUC Code of Ethics was adopted by the 89th NARUC Annual Convention on November 17, 1977 (**Convention Proceedings**, Pages 315-318).

FOOTNOTES - TABLE 171 - CODES OF ETHICS FOR COMMISSIONERS

1/ 18 U.S.C., §207.
2/ Commissioner and spouse; other family members not mentioned.
3/ Law silent as to family member.
4/ NARUC Code of Ethics adopted.
5/ Transaction is prohibited, but disqualification is not specified.
6/ While no express prohibition, commissioners routinely abstain from participation in such matters.
7/ Nominal gifts are not prohibited.
8/ If in excess of aggregate value of $100 per year.
9/ May vote, but disclosure of interest required.
10/ A person is prohibited for two years after leaving Commission from acting as agent for any utility on any matter that was before Commission at the time of that person's employment.
11/ Gift prohibited which may cause conflict with discharge of duties.
12/ A person is prohibited for one year after leaving commission from appearing as an advocate or expert witness before commission.
13/ If gift is intended to influence commissioner.
14/ Meals may be accepted which are incident to discussion of regulatory matters.
15/ A person is prohibited for two years after leaving commission from representing a utility or in any way appearing before commission on behalf of any party.
16/ In excess of $250 per year.
17/ 49 C.F.R., Secs. 1000.735-1000.736; 49 U.S.C., Sec. 10301(d).
18/ Disqualified if "impartiality might reasonably be questioned."
19/ May accept food or refreshments of nominal value (less than $10.00).
20/ May accept food while attending a meeting scheduled for a general purpose other than lobbying the employee, or while on field trips where acceptance facilitates the progress of the visit.

OUTSIDE EMPLOYMENT BY COMMISSIONERS

In March 1988, the NARUC surveyed its member agencies as to whether the office of Commissioner is classified as full-time or part-time and whether Commissioners are permitted to engage in any other compensated employment while employed as Commissioners.

The questionnaire is reproduced below:

NARUC Questionnaire on
Outside Employment by Commissioners

1. Is the Office of Commissioner of your agency classified as:
(a) Full-time Service? Yes ( ) No ( )
(b) Part-time Service? Yes ( ) No ( )

2. Is a Commissioner of your agency permitted to engage in any other compensated employment, business or profession? Yes ___ No ___

Any Comments?

The results of this survey were compiled into the table on the following page for inclusion in the 1987 Annual Report. Regulatory agencies are annually requested to review the entire contents of the previous year's Annual Report and mark up pages which need changes or corrections, so that the 1988 edition reflects current conditions as of 12/31/88.

TABLE 172 - OUTSIDE EMPLOYMENT BY COMMISSIONERS

AGENCY	FULL TIME	PART TIME	OUTSIDE EMPLOYMENT?	COMMENT
FCC/ICC/NRC/SEC	YES		NO	
FERC/POSTAL RATE COMMISSION	YES		NO	Certain limited uncompensated outside activity permitted, subject to conflict of interest/interference w/official duties conditions. 39 CFR S 3000.735-307

SECTION W

STATE, FEDERAL AND OTHER COMMISSION OFFICIALS AND STAFF

Table 173 contains salary, method of selection, tenure of office and full- or part-time status information on the Chairman, Commissioners and staff members of State, Federal and Other regulatory Commissions, with state commissions listed alphabetically, followed by federal agencies, then Canadian agencies.

Table 174 lists chairmen and commissioners in descending order according to level of annual salary.

Table 175 breaks down which states elect, and which appoint, their commissioners.

** Part time positions.
Rankings in the table are based on high end of Chairperson salaries.

ANALYSIS

Of the 58 agencies reporting salaries for full-time chairpersons (or equivalent), 7 fall into the range of $80,000 and up; 9 in the range of $70-79,999; 18 in the range of $60-69,999; 11 in the range of $50-59,999; 10 in the range of $40-49,999; and 3 in the range of $30-39,999.

Median full-time Chairperson salary is $62,000, with 29 agencies reporting salaries higher and 29 reporting salaries lower. Reported salaries range between a high of $98,399 and a low of $35,000.

Of the 56 agencies reporting salaries for full-time commissioners (or equivalent), 4 fall into the range of $80,000 and up; 9 in the range of $70-79,999; 14 in the range of $60-69,999; 17 in the range of $50-59,999; 9 in the range of $40-49,999; and 3 in the range of $30-39,999.

Median full-time Commissioner salary is $60,000, with 28 agencies reporting salaries higher and 28 reporting salaries lower. Reported salaries range between a high of $90,000 and a low of $35,000.

Twenty-two agencies reported identical salaries (or salary ranges) for chairpersons as for commissioners.

Canadian Commissions*		
Canadian Radio-Television and Telecommunications Commission	$121,400-147,700	101,400-123,400 Vice Chairman
National Energy Board	111,100-135,100	85,400-100,600 Members
Quebec Telecommunications Board (Regie des telecommunications du Quebec)	90,000-100,000	65,000-75,000 Members
Ontario Energy Board	66,050-95,755	51,040-67,756 Members
Alberta Public Utilities Board	59,800-88,600	54,500-74,800 Members
Nova Scotia Board of Commissioners of Public Utilities	70,397	62,045-68,387

* Quoted in Canadian dollars.

SECTION X

ASSESSMENT OF COSTS OF REGULATION

This Section contains information on the assessment of the costs of regulation and the annual budgets of the regulatory agencies.

The ability of the agencies to assess the cost of regulatory activities against the regulated utilities within their jurisdiction is shown in Table 176. Very few of the agencies listed receive 100 percent of their funding from general tax receipts. The majority receive at least part of their budget requirement from levies and charges made against the activities they regulate. Even when an agency claims 100% of their budget comes from general tax fund appropriations, there are usually fees levied against the regulated entities which are paid back into that fund.

The annual budgets and their sources of funding of the various agencies are in Table 177; analysis of expenditures is in Table 178.

TABLE 176 - AGENCY AUTHORITY TO ASSESS UTILITIES FOR THE COSTS OF REGULATION

FOOTNOTES - TABLE 176

1/ No specific statute on this matter.
2/ Not for consumer counsel.
3/ General Tax Fund appropriations are completely reimbursed by assessments on utilities.
4/ Includes both Commission and Public Staff costs of regulation.
5/ If office is out of state.
6/ The costs of Administrative Hearings are paid from a special income revolving account.
7/ Approximately one-half of Agency operations financed by levy on oil and gas production. The Transportation Division is entirely funded by motor carrier enforcement fees.
8/ Entire Commission expenses are paid from advanced assessment on regulated utilities.
9/ All fees received are reimbursed to General Tax Funds.
10/ Assessment of 1/6 of one percent levied by State; Legislature then appropriates from fund.
11/ Hearing costs may be taxed against parties in interest. Cost of reorganization approval is billed to applying utility.
12/ Filing Fee required in cases for approval of: erection of generating or transmission facilities (35 MRSA Sec 13-A), energy or capacity purchases or conversions (Sec 13-B), requests for recovery of cancelled or abandoned plants in rates (Sec 52-B), and decommissioning financing plans (Sec 3358).
13/ Ontario Energy Board is funded from general tax funds; professional and legal fees and miscellaneous hearing expenses are billed to each utility after a hearing, along with certain overhead and administrative costs. About 75% of annual expenses are recovered this way; payments from utilities reimburse the Consolidated Revenue Fund.
14/ 100% of Railroad Safety Section's budget comes from general tax funds; 100% of Utilities Division, Pipeline Safety Section and Legal Division's budget comes from a regulatory assessment levied on utilities.
15/ MPUC has authority to charge utility the cost of a management audit ordered by the MPUC.
16/ Beginning with FY 87, all general tax funds are replaced with taxes and fees specifically levied on utilities (§69-1-402 MCA).
17/ Carriers may be assessed costs of some proceedings.
18/ Special transportation fund.
19/ Board is contemplating moving towards a full cost recovery system.
20/ Commission did not respond to requests for update information; this data may not be current.

FOOTNOTES - TABLE 177 - AGENCY SOURCE OF FUNDING

1/ Total includes amount actually spent plus any excess amounts transferred to State Treasury and/or put into Revolving Fund.
2/ FERC collected $111,685,000 in fees and charges during FY 1987. However, only $49,620,000 are considered offsetting revenues and are used to reduce appropriation, since the balance of $62,065,000 was filed by regulated companies under protest.
3/ For Railroad Safety Section.
4/ For Utilities Division, Pipeline Safety Section, and Legal Division.
5/ Unspent funds are returned to utilities.
6/ Portions of the Department of Energy Budget are funded from assessments.
7/ Total amount assessed utilities under Commission regulation is reduced by the amount collected in fees.
8/ Includes the budgets of the Commission Staff and Public Staff.
9/ Gas Utilities Division.
10/ Fees collected are reimbursed to the General Fund. Fees collected are not for Agency's use.
11/ Represents fees collected against which the agency can make expenditures.
12/ Represents fees collected against which the agency cannot make expenditures.
13/ Includes utilities and Consumer Advocate.
14/ "Other Receipts" includes $3,892,427, plus interest earnings, Oil Overcharge Settlement.
15/ Motor Carrier Safety and Compliance Office only.
16/ Dedicated Truck Highway Fund.
17/ These funds represent the balance of oil overcharge settlement funds reappropriated and interest earned during the 1984-85 biennium on oil overcharge settlement funds. Also includes prior year balances and conference fees.
18/ INS fees not included in operating budget.
19/ Unspent funds remain available for use in later years.

FOOTNOTES - TABLE 178 - ANALYSIS OF AGENCY EXPENSES

1/ Combined salaries and benefits.
2/ Transportation of items, rents, communications, utilities, printing, equipment and other services.
3/ Repairs and maintenance, rentals and leases, utilities and communications, transportation equipment operations, equipment purchases.
4/ Permanent property only.
5/ Budget shown here is for Utilities and Legal Divisions and Pipeline and Railroad Safety Sections.
6/ Includes equipment rental, data processing, telephone, microfilming, postage, repair services, building rental, funding for the Office of Consumer Counsel (separate agency) and other miscellaneous fees.
7/ Includes $582,186 transferred to other State agencies for providing educational services related to energy conservation and telecommunication devices.
8/ Includes rentals, communications, data processing, facilities operation, printing, and funds transferred to State General Revenue.
9/ In addition, transfer of funds to General Fund made.
10/ Employee benefits are handled as a Treasury Department account.
11/ Rental of buildings; plus Central Support Services.
12/ Includes the budgets of the Commission Staff and Public Staff.
13/ Includes office equipment and vehicles.
14/ Includes automobile expenses.
15/ Gas Utilities Division.
16/ Includes costs of administering state Pipeline Safety Grant Program.
17/ Includes benefits for the federally funded employees.
18/ Includes salaries, benefits, travel and other current expenses.

REVIEW OF AGENCY DECISIONS, LEGAL STATUS OF AGENCY
ELIGIBILITY TO PRACTICE BEFORE THE AGENCY
ASSISTANCE TO INTERVENORS AND FILING REQUIREMENTS
ADMINISTRATIVE LAW JUDGES

The courts authorized to review agency decisions and types of procedures are listed in Table 179.

Table 180 describes in detail the legal status of the various agencies.

Eligibility to practice before the regulatory agency is shown in Table 181; limitations or requirements on appearance/representation are shown in Table 182.

The policies for providing assistance to intervenors in regulatory proceedings are listed in Table 183. The assistance provided on behalf of the agencies includes providing copies of transcripts, providing duplication facilities, allowing access to agency records and providing aid and advice in obtaining information from agency files.

Table 184 lists the requirements for filing and distribution of intervenors' testimony and documents.

Table 185, Administrative Law Judges or Hearing Examiners, includes a detailed introduction.

Table 186 details each agency's legal representation, whether the agency is required to use staff from the Attorney General's Office, may hire their own staff attorneys and/or may retain outside legal counsel.

FOOTNOTES - TABLE 179 - COURTS AUTHORIZED TO REVIEW AGENCY DECISIONS

1/ An appeal of Commissioner's order shall lie to the Supreme Court in like manner as an appeal lies from an order of decision of a circuit judge at chambers.
2/ Can apply to court for leave to present additional evidence which, if shown to be material and good reason exists for failure to present it in the proceeding before the Agency, may be ordered to be presented before the Agency.
3/ The court can remand to the Commission for further evidence.
4/ Court may take additional testimony in which case the matter is remanded back to Commission for consideration of such testimony.
5/ Statute allows introduction of additional evidence in District Court; but if such evidence is introduced, the matter is remanded to Congress.
6/ Review by Appeals Court only upon referral by Supreme Court.
7/ Under Section 350.128, FS, review of all commission decisions EXCEPT rates and service of gas, electric and telephone utilities is vested in the District Court of Appeals (usually First District).
8/ De Novo review of NGPA Civil Penalties by US Circuit Court.
9/ Pursuant to a 1983 Constitutional Amendment, general rate cases are appealable as a matter of right directly to the Supreme Court.
10/ Public Utilities-Appellate and Supreme Court; motor carrier and railroad - Circuit Court.

1/ Independent agency within DOE and Executive Branch.
2/ Independent agency within Department of Economic Development.
3/ But, the Railroad Safety & Tariffs Division of the DOT is a statutory body.

TABLE 181 - ELIGIBILITY TO PRACTICE BEFORE THE REGULATORY AGENCY

"L" (column 1) indicates that members of the state bar (lawyers) are eligible to practice in a representative capacity. "E" (column 2) indicates employees of a company which is a party-in-interest, whether or not lawyers, may appear. "P" (column 3) indicates that non-lawyer practitioners who are not employees of party-in-interest may represent others before the agency. A blank space indicates no response to the question was received. Those agencies which responded in the negative to questions 2 and 3 (columns 2 and 3) are so noted.

TABLE 182A - LIMITATIONS OR REQUIREMENTS ON APPEARANCE OR REPRESENTATION BEFORE THE AGENCY - Question 2

(2) Are employees of a company which is a party-in-interest, whether or not lawyers, allowed to appear before the agency? Are there any limitations or requirements placed upon such a practice?

FERC	Any person appearing before or transacting business with the Commission in a representative capacity may be required to file evidence of his authority to act in such capacity.
ALABAMA PSC	Must be an officer of the company or employee that can speak for the company.
ALASKA PUC	Representation may be by a partner in a partnership, officer or employee of corporation or association, or officer, agent or employee of political subdivision.
ARIZONA CC	By statute only a utility may be represented by a non-lawyer.
ARKANSAS PSC	Any person, except a corporation, may enter an appearance on his/her own behalf in any formal proceeding before the Commission. A formal proceeding is one in which Secretary of Commission has assigned a docket number. No one but licensed attorney may represent a person or corporation in any formal proceeding before Commission. Attorney need not be licensed in Arkansas, but must be licensed by the highest state court of another state. Provided that any person not including a corporation, may represent himself, pro se.
CALIFORNIA PUC	Legitimate party and interest.
CONNECTICUT PUC	Any person other than an attorney who appears before the commission in any contested case shall be deemed to have appeared as the agent or representative of a person, firm, corporation or association and, as such shall file with the written notification of appearance the written authorization of the person, firm, corporation, or association being represented and shall be fully bound to proceed in accordance with these rules in the contested case.
D.C. PUC	An individual, receiver, trustee, or official may appear in his own behalf, a member of the partnership may represent the partnership, an officer of a corporation or association may represent the corporation or association, and an officer or employee of a Federal, District, or State Commission or other governmental agency may represent the commission or governmental agency.
FLORIDA PSC	A non-lawyer corporate officer may represent the interests of his corporation if he qualifies as a Class B practitioner, by satisfying Commission that he has legal skills and knowledge of the law and utility regulatory matters which is greater than that possessed by the average person.
GEORGIA PSC	A party may represent himself. If a corporation/partnership, a duly authorized representative may appear.
INDIANA URC	Employee must be called as a witness by the attorney representing the company, or counsel of one of the other parties in the case.
IOWA SUB	Employees of a company which is a party-in-interest can present evidence; only attorneys may represent a party in any matter involving legal skill or knowledge.
KENTUCKY PSC	In any formal proceeding: an individual may appear on his own behalf; corporation must be represented by counsel of record authorized to practice law in Kentucky; non-lawyer employees appear as witnesses only when called by attorney of record.
MAINE PUC	Authorized officer, employee or representative of a party may represent party in hearings. Commission may, in its discretion, require appearance of lawyer on behalf of the party to facilitate efficient processing of case. 35-A MRSA Sec. 1317.
MASSACHUSETTS DPU	Decision made on case-by-case basis at discretion of Department.
MICHIGAN PSC	Licensed attorney must represent a corporation; sole proprieter may represent self.
MISSISSIPPI PSC	Employees appearing before the agency, as a rule, are officers for the company.
MISSOURI DOT	Corporations and partnerships must be represented by an attorney.
MISSOURI PSC	Individuals may appear pro se on their own behalf, but not in a representative capacity. A partnership or corporation must be represented by an attorney. Employees of a company which is a party-in-interest, who are also attorneys, are allowed to appear before the Commission.
MONTANA PSC	38.2.314 Practice Before the Commission (1) Any person may appear at hearings before the Commission in his own behalf; only attorney authorized to practice in this State; may represent others.
NEBRASKA PSC	Employees of a company which is a party-in-interest may appear for the company when accompanied by a person admitted to practice before State Supreme Court, only to make a statement on behalf of such entity.
NEVADA PSC	A party may represent himself. If a corporation/partnership, a duly authorized representative may appear.
NEW JERSEY BPU & DOT	Appearances in formal hearings in a representative capacity must be made by an attorney at law. Individuals may appear pro se. Staff members may appear if the Attorney General has declined representation.
NEW MEXICO PSC	In rulemaking proceedings attorneys are not required. In rate proceedings attorneys are required unless consumer is representing himself pro se.
NEW MEXICO SCC	Employees of a company which is a party-in-interest are allowed to appear before the Commission only at informal proceedings. To appear during formal proceedings, employees must have an attorney who is licensed to practice in New Mexico.
NEW YORK PSC	No rules or regulations barring this, but anyone appearing before Commission must conform to standards of conduct required of attorneys appearing before State courts.
NORTH CAROLINA UC	Only lawyers and individuals pleading their own cases are allowed to call and examine witnesses.
NORTH DAKOTA PSC	69-02-01-05. Personal and Representative Appearances. Participants may appear in any proceeding in person or by an attorney or other qualified representative. The following persons may appear in any proceeding: (1) an individual in the individual's own behalf; (2) a member of a partnership; (3) a bona fide officer or duly authorized employee of the corporation, association, or group; and (4) an officer or employee of a state agency, department or political subdivision of the state or other governmental authority representing the state agency, department, or political subdivision in any proceeding. General Authority NDCC 28-32-02. Law implemented NDCC 49-01-07.

TABLE 182A - LIMITATIONS OR REQUIREMENTS ON APPEARANCE OR REPRESENTATION BEFORE THE AGENCY - Question 2 (Continued)

(2) Are employees of a company which is a party-in-interest, whether or not lawyers, allowed to appear before the agency? Are there any limitations or requirements placed upon such a practice?

OHIO PUC	Sec 4901.14, Ohio Revised Code, allows an employee to appear before the Commission under certain circumstances "in the determination of transportation matters involving questions of fact only".
OREGON PUC	Individual may represent himself or other persons in transportation matters. ORS 756.519; in other cases, a participating party have an authorized representative -OR Laws 1987, Ch 833(3); (ORS 183.413-470).
PENNSYLVANIA PUC	Parties may be represented by non-attorneys only in non-adversarial proceedings.
SOUTH CAROLINA PSC	Summarize R.103-804(5)(a) & (b).
TEXAS PUC	An individual may represent himself or others.
VERMONT PSB	Allowed only upon written designation by an officer of the company.
VIRGINIA SCC	Appearances in a representative capcity can only be made by an attorney, however, company employees may appear as witnesses; individuals may always appear pro se.
WASHINGTON UTC	The Commission urges representation by Counsel for company employees.
WEST VIRGINIA PSC	Representation or appearance in all formal proceedings pending before the Commission shall be only by attorneys admitted to practice before the Courts of this State, before the Courts of last resort of other states, or before the Supreme Court of the United States; provided attorneys appearing before the Commission who are not licensed to practice in West Virginia are associated with an active member in good standing of the West Virginia State Bar who is a responsible attorney in the action before the Commission and service of notices and other papers upon such responsible local attorney shall be binding upon the client. A party may appear for and represent himself, a partner may represent his partnership upon permission granted in the discretion of the presiding officer. A corporation must be represented by attorney.
WYOMING PSC	Full time employee or bona fide general officer; partner may represent partnership.
NATL ENERGY BOARD	Yes. No limitations.
QUEBEC TB	In most proceedings, a company or a cooperative association can only be represented by one of its officers or a lawyer. Legal arguments before the Regie must be made by lawyers.

TABLE 182B - LIMITATIONS OR REQUIREMENTS ON APPEARANCE OR REPRESENTATION BEFORE THE AGENCY
Question 3

(3) Are non-lawyer practitioners, who are not employees of a party-in-interest, allowed to represent others before the agency? If the answer is yes, are there any limitations or requirements placed upon them?

FERC	Participants may appear in any proceeding in person or by an attorney or other qualified representative. An individual may appear in his own behalf, a member of a partnership may represent the partnership, a bona fide officer of a corporation, trust, association or organized group may represent the corporation, trust, association or group, and an officer or employee of a State commission, or a department or political subdivision of a State or other governmental authority, may represent the State commission or the department or political subdivision of the State or other governmental authority, in any proceeding. 18 CFR 385.2102. Any person appearing before or transacting business with the Commission in a representative capacity may be required to file evidence of his authority to act in such capacity.
ICC	Practitioners are required to pass a qualification examination. See 49 CFR 1100.9.
ALABAMA PSC	This has been allowed on occasion but such practice is not encouraged. The person so appearing is usually an ICC practitioner.
ALASKA PUC	The person must satisfy the Commission that they possess the qualifications necessary to render service and are competent to advise or assist in the presentation of matters before the Commission.
CALIFORNIA PUC	Legitimate party and interest.
CONNECTICUT PUC	Any person other than an attorney who appears before the commission in any contested case shall be deemed to have appeared as the agent or representative of a person, firm, corporation or association and, as such, shall file with the written notification of appearance the written authorization of the person, firm, corporation or association being represented and shall be fully bound to proceed in accordance with these rules in the contested case.
DC PSC	A member of the partnership may represent the partnership, an officer of a corporation or association may represent the corporation or association, and an officer or employee of a Federal, District, State commission or other governmental agency may represent the commission or governmental agency.
FLORIDA PSC	See Rule 25-22.008(3) - Class B Practitioners.
GEORGIA PSC	No restrictions.
IOWA SUB	Must have express consent of Board.
KENTUCKY PSC	Requires that attorneys appearing before the Commission be licensed in Kentucky, or, as an alternative, that they engage a Kentucky attorney as co-counsel.
LOUISIANA PSC	Must have five years experience; permission of Commission.
MAINE PUC	Authorized officer, employee or representative of a party may represent party in hearings. Commission may, at its discretion, require appearance of a lawyer on behalf of the party to facilitate efficient processing of case. 35-A MRSA Sec 1317.
MASS. DPU	On occasion an accountant may represent a small company.
MICHIGAN PSC	Not in contested case proceedings.
MINNESOTA PUC	Allowed subject to rules of the Office of Administrative Hearings.
MISSISSIPPI PSC	Must have permission of Commission.
MONTANA PSC	38.2.314 Practice Before the Commission (1) Any person may appear at hearings before the Commission in his own behalf; only attorney authorized to practice in this State may represent others.
NEW HAMP. PUC	Consumer groups (New Hampshire Energy Coalition is an example); usually it is a limited appearance.
NEW JERSEY BPU	Under Admin. Law Rule 1:1-5.4(a), the following non-lawyers may apply for permission to represent a party: Persons whose application is required by federal law; state agency employees; county or municipal welfare agency employees; legal service paralegals or assistants; close corporation principals; union representatives civil service cases.
NEW YORK PSC	There are no rules or regulations barring such practice. However, all persons appearing before the Commission must conform to standards of conduct required of attorneys appearing before State courts.
NEW YORK SDOT	Any individual may represent others before the Department; there are no limitations or requirements to be met.
NORTH DAKOTA PSC	69-02-01-05. Personal and Representative Appearances. Participants may appear in any proceeding in person or by an attorney or other qualified representative. The following persons may appear in any proceeding: (1) an individual in the individual's own behalf; (2) a member of a partnership; (3) a bona fide officer or duly authorized employee of a corporation, association, or group; and (4) an officer or employee of a state agency, department, or political subdivision of the state or other governmental authority representing the state agency, department, or political subdivision in any proceeding. General Authority NDCC 28-32-02, Law Implemented NDCC 49-01-07.
OREGON PUC	ORS 756.519 limits representation to transportation matters - any individual. OR Laws 1987 Ch 833 (amending ORS 183.413-470) limits representation in other cases to authorized representatives.
PENNSYLVANIA PUC	Parties may be represented by non-attorneys only in non-adversarial proceedings.
QUEBEC PSB	In most proceedings only an officer of a company or of a cooperative association and/or a lawyer can represent a company or cooperative association. Legal arguments can only be made by a lawyer.
TENNESSEE PSC	Must be officer of company.
TEXAS PUC/RC	An individual may represent himself or others.
UTAH PSC	Seldom done; no special restrictions.
NATL ENERGY BD.	Yes. No limitations.

FOOTNOTES - TABLE 183 - AGENCY PROVISION OF ASSISTANCE TO INTERVENORS

1/ Purchase from Court Reporter.
2/ Transcripts may be purchased from reporting service or from Commission directly, at prescribed prices.
3/ Charges by the page.
4/ Purchase from Court Reporter - $2.30 per page for complete transcript or miscellaneous pages. Additional copies at time of original order–90 cents per page.
5/ Public records only.
6/ At a cost of $.25 per page–minimum of $1.00.
7/ Seldom done, but would do so when required.
8/ Through People's Counsel.
9/ To a limited extent.
10/ Purchaser may have transcript reproduced at lower cost at a commercial copier.
11/ Transcripts of hearings affected by PURPA available from Commission at $.15 per page reproduction cost to all parties. In other instances, $1.50 to $2.50 per page; $.40-$.50 for additional copies.
12/ Transcript available for review in Commission Office; copy can be purchased from court reporting firm.
13/ Original–$1.50.
14/ After ten days of receipt by the Commission. Various other rates available depending on delivery services and location, ranging from $.95 to $6.30 plus postage and delivery costs.
15/ Five dollars minimum.
16/ The Commission charges sixty cents per transcript page, although microfilm is free. Transcript copies are also available directly from Alderson Reporting Company.
17/ Twenty-five cents/page; $1.00 minimum; transcripts reproduced at $.50/page; $1.00 per certification.
18/ Price of single copy–plus 25 cents per page for each additional copy bought by same party.
19/ Up to 10 pages–$.25/page; 11-20 pages–$.20/page; 21 or more pages–$.15/page.
20/ Regulatory determinations and library material available.
21/ Municipal assistance is allowed by statute; however, requests for funding have not been approved by the Legislature. Office of Public Utility Counsel is authorized to intervene in Railroad Commission proceedings under certain conditions.
22/ Statutory procedure as to Consumers' Counsel.
23/ Fifteen cents per 100 words or fraction thereof.
24/ One microfiche with 60 pages at $.45.
25/ First 100 pages, $20.00; over 100 pages, $.25 per page.
26/ The Iowa UB and DOT provide the same assistance to intervenors except that DOT can coordinate experts from the appropriate DOT divisions.
27/ Copies of transcripts cost $.25 per page uncertified, $.35 per page certified, plus $1.00 for certification. Copies of Commission orders, etc., cost $.30 per page uncertified, $.40 per page certified, plus $1.00 for certification.
28/ Commission did not respond to requests for update information; this data may not be current.

TABLE 184 - FILING AND DISTRIBUTION REQUIREMENTS FOR INTERVENORS

AGENCY	REQUIREMENTS FOR FILING AND DISTRIBUTION BY INTERVENORS
FCC	One copy each to all parties on official service list and 6 to 20 copies to Commission.
FERC	Pleadings, documents, or other papers filed with Commission require original & 14 conformed copies to FERC. When service done by Intervenor, one copy to each party of record and 14 copies to Commission. Commission may order various numbers of copies of pleadings or documents filed. Except where different number is permitted or directed by Commission, 20 copies of each brief filed with Commission and at least one copy to each party of record. 14 copies of Briefs on Exceptions filed with Commission, one copy to each party of record. Original and 14 copies to Hydro Power Applications. See also 18 CFR Sec 1.17
ICC	Same requirements as other parties.
ALABAMA PSC	Copies to Commission and a copy to party of record.
ALASKA PUC	Original and 6 copies to Commission, one copy to each party of record.
ARIZONA CC	Set by procedural order, otherwise one copy to each party of record, original and 9 copies to Commission.
ARKANSAS PSC	Original and 13 copies to Commission and one copy each to all parties of record.
CALIFORNIA PUC	Permission to intervene not granted unless pertinent to issues already presented, otherwise same as applicant
COLORADO PUC	Original and 1 copy to Commission; 1 to each party in proceeding.
CONN. DPUC	Original and 22 copies to Commission.
DELAWARE PSC	Nine copies to Commission and one copy to each party of record.
DC PSC	Number of copies varies; distributed by the Commission.
FLORIDA PSC	Original to Commission pursuant to Rule 25-22.039 and 25-22.036(7)(a).
GEORGIA PSC	Fifteen copies of testimony/exhibits to Commission.
HAWAII PUC	Copies served and furnished to all interested parties.
IDAHO PUC	Petition to intervene must be filed, with proof of service of copies, to all parties no less than 5 days prior to hearing or within 10 days after receipt of notice of application.
ILLINOIS CC	File 3 copies on or before first day of hearing and serve copy on all parties, unless it is initial pleading under the Public Utilities Act, then it is four copies.
INDIANA URC	Five days prior to hearing a petition to intervene must be filed; 7 copies of filings required.
IOWA SUB	File petition to intervene (original & 10 copies) within 20 days after order sets procedural schedule.
IOWA DOT	Three copies and original to the Department and certificate of service to all parties of record; sufficient copies for all parties represented at hearing - one for the Department if intervention is sought at hearing.
KANSAS SCC	Set forth in detail in "Rules of Practice and Procedure before the State Corporation Commission".
KENTUCKY PSC	Original and 10 copies to Commission and one copy to each party of record.
LOUISIANA PSC	Copy of pleading to known parties plus statement of interest and list of witnesses, if known.
MAINE PUC	Intervenors are required to file petitions to intervene in accordance with notice published by Commission.
MARYLAND PSC	Intervenors are required to file petitions to intervene in accordance with notice published by company.
MASS. DPU	Nine copies filed with the Department and one copy to each intervenor.
MICHIGAN PSC	Same as for all other parties.
MINNESOTA PUC	To parties of record, Administrative Law Judge and Commission - 13 copies.
MINNESOTA TRB	To parties of record, Administrative Law Judge - 6 copies.
MISS. PSC	File original and 7 copies with Commission, copies to all parties of record.
MISSOURI DOT	Original to Law Judge and copy to parties of record.
MISSOURI PSC	File original and 14 copies with Commission, serve all parties of record and Office of Public Counsel (Original and 10 copies in formal complaints).
MONTANA PSC	Original plus 10 copies to Commission and parties of record.
NEBRASKA PSC	Copy of petition to be served on all parties or attorneys of record.
NEVADA PSC	To all parties of record and 10 copies to Commission.
NEW HAMP. PUC	Must have standing to participate, either pro se or by attorney.
NEW JERSEY BPU	Pay statutory fee and distribute at own expense.
NEW MEXICO PSC	Motion to intervene must be filed in original plus 10 copies.
NEW MEXICO SCC	File notice of intervention with copies to all intervenors.
NEW YORK DOT	Three copies for DOT and one each for other parties to proceeding.
NEW YORK PSC	Minimum for exhibits/testimony: one each Commissioner, ALJ, Staff Counsel, Petitioner, active party. Briefs: 25 to Commission, one to each active party.
N. CAROLINA UC	Original & 25 copies of all pleadings filed with Commission, with certificate of service to parties of record.
N. DAKOTA PSC	Five copies of pleading and serve all parties.
OHIO PUC	File formal petition for leave to intervene. Subsequent motions, pleadings, etc. must be served on all parties of record. Number of copies depends on type of case. Original and 15 copies in general & emergency rate cases.
OKLAHOMA CC	Same requirement for all parties of record.
OREGON PUC	File notice of intervention with copies to all parties of record.
PENNA. PUC	Same requirements for all parties.
PUERTO RICO PSC	None
RHODE ISL. PUC	Ten copies unless waived by Chairman.
S. CAROLINA PSC	File Notice of Intervention with copies to all parties of record.
SOUTH DAKOTA PUC	File notice of intervention with copies to all parties of record.
TENNESSEE PSC	May file intervention 7 days before hearing with copies to all parties, along with filing fee.
TEXAS PUC	All parties of record and an original and 5 copies to the PUC.
TEXAS RC	All parties of record and 3 copies to RC of all pleadings except briefs, exceptions and replies to examiner's report and proposals for decision which require the filing of 5 copies.

TABLE 184 - FILING AND DISTRIBUTION REQUIREMENTS FOR INTERVENORS (Continued

AGENCY	REQUIREMENTS FOR FILING AND DISTRIBUTION BY INTERVENORS
UTAH PSC	All parties of record and 20 to Commission.
VERMONT PSB	Original and 6 copies of Motion to Intervene to Board and one copy to each party of record.
VIRGIN ISL.	Must file a formal request to intervene.
VIRGINIA SCC	Parties with right to fully participate in hearing must file original and 15 copies of notices and prefiled testimony with Commission and serve copies on all parties of record as set forth in scheduling orders. Public witnesses may appear without filing prehearing notices.
WASHINGTON UTC	Three copies to Commission and one copy to each party of record.
W. VIRGINIA PSC	File motion to intervene.
WISCONSIN PSC	Original and three copies, plus copy to all other parties and staff.
WISCONSIN OCT	Register as a party of record.
WYOMING PSC	Original and 7 copies required by Commission with copies to all parties of record.
CANADIAN RTC	Section 14 of the Broadcasting Rules of Procedures and Section 40 of Telecommunications Rules of Procedure.
NATL ENERGY BD.	30 copies to Board, copies to all parties to proceeding. Number of copies may vary; parties may seek relief if requirements are unduly onerous.
ALBERTA PNC	Copies to all interested parties. Petition to intervene must be filed within 20 days for special applications.
ALBERTA PUB	Copies to all parties of record.
NOVA SCOTIA PUB	Original for file and copy for each Board Member and Party.
ONTARIO EB/TSC	File notice of intervention with copies to all parties of record.
QUEBEC HGB	Seven copies to Board and one copy to other parties to proceeding.
QUEBEC TB	Service to all parties and filing of 2 copies of intervention.

INTRODUCTION

ADMINISTRATIVE LAW JUDGES AND HEARING EXAMINERS

Table 185 shows which agencies use examiners,[1] what types of proceedings examiners are used in, what qualifications are required of examiners, and what the scope of an examiner's authority is. The table also shows how many examiners the agencies use on a full-time basis and how many on a part-time basis and what the professional backgrounds of examiners are.

In most agencies, examiners are full-time employees of the agency; a few agencies employ examiners on a part-time basis. The most frequently required qualification of an examiner is a background in law.

[1]Administrative law judges and hearing examiners are hereinafter referred to collectively as "examiners".

FOOTNOTES - TABLE 185 - ADMINISTRATIVE LAW JUDGES OR HEARING EXAMINERS

1/ Administrative law judges and hearing examiners are hereinafter referred to collectively as "examiners".
2/ The agency does not use examiners.
3/ Administrative law judges chosen from Office of Personnel Management Register of qualified persons.
4/ Commission selects part-time administrative law judges, licensed attorneys, to preside during specific rate cases.
5/ ALJs issue advisory opinions in the form of orders (considered part of Commissioner's Staff); Legal Section attorneys are Hearing Examiners who issue orders in uncontested cases. Both issue orders that are technically advisory because one of three things must happen before they become bona fide Orders: 1) Order is confirmed by Commissioner; 2) Order is modified by Commissioner; 3) Automatic approval after 30 days if no action.
6/ Gas Utilities Division only.
7/ In practice all Examiners are Bar members, but not required.
8/ Some hearing officers without legal training or experience, but employed prior to 1976, are "grandfathered".
9/ For attorneys, membership in the State Bar is required plus five years experience, including two years of public utilities work or judicial or quasi-judicial hearing experience. For non-lawyers, such as accountants, engineers and rate experts, requirements are degrees and certification and an extensive public utilities background, including participation in formal proceedings before the Commission.
10/ Examiners are senior staff members of Commission's Accounting, Engineering and Transportation Divisions, and member of the Bar.
11/ Undergraduate degree in accounting, economics, or finance.
12/ Does not include engineers and accountants who sometimes serve as examiners.
13/ Administrative Law Judges available for assignment to any agency, but provide primary support for one agency.
14/ Examiners are available for rulemaking proceedings but have not been requested since a central office (OAH) was established in 1982.
15/ Other qualifications are expertise in subject, judicial temperament, objectivity, ability to recognize and rule on admissibility of evidence and a working knowledge of Commission policy.
16/ In addition to undergraduate degree, three years experience at a professional level in interpretation of laws, rules and regulation is required. A law degree may be substituted for experience.
17/ Any employee designated by the Commission.
18/ Attorneys serving as Examiners also are Staff Advocates in other cases; time roughly divided 50-50.
19/ Number of days varies.
20/ A Commissioner or staff attorney performs this duty when necessary.
21/ Appointed by the Governor with the advice and consent of the Senate. Most are attorneys.
22/ Transportation hearings are scheduled by ALJs (docket clerk); utility hearings scheduled by Commission. ALJ rules on continuances in all cases.
23/ Individual applicants are judged on overall basis in terms of education, temperament, character and experience. Generally, they are attorneys.
24/ There are three engineers two of whom are also attorneys.
25/ In all cases except those involving rates, rail safety and other Commission-designated proceedings, if no exceptions are filed or Commission review is not requested, the Administrative Law Judges decision becomes final.
26/ No limit on challenges to rules.
27/ Special Assistant Attorney General assigned to Wyoming PSC.
28/ Sec 350.125, FS, requires the use of DOAH hearing officers in all cases not heard by Commission; however Commission policy is to conduct all its own hearings.
29/ Full-time hearing examiners employed by the Department exercise jurisdiction only in regard to matters of driver's license suspensions, revocations and a limited number of other agency hearings.
30/ Thirty days for appeal; 20 days for rehearing.
31/ Commission did not respond to requests for update information; this data may not be current.

The following table regarding legal representation of state agencies was compiled from responses to a NARUC questionnaire sent out in February 1989. The questionnaire is reproduced below:

Is your agency:
1. Required to use attorneys from the Office of the State Attorney General?
2. Permitted to use attorneys hired as part of your Agency's staff?
3. Permitted to retain outside legal counsel on a case-by-case basis?
4. Other (please explain briefly).
5. Comments.

TABLE 186 - AGENCY LEGAL REPRESENTATION

AGENCY NAME	State Atty. General	Own staff Attorneys	Outside Counsel	Comments
ALABAMA PSC	YES	YES	YES	
ALASKA PSC	YES	NO	YES *	But only if AG has conflict of interest.

SECTION Z

STATE AGENCY LIBRARIES AND INFORMATION RESOURCE CENTERS

REPRODUCTION OF RECORDS

PUBLIC INFORMATION OFFICES AND DISSEMINATION OF INFORMATION

MEDIUM USED TO ALERT CONSUMERS OF AGENCY ACTION

NEWS MEDIA COVERAGE OF REGULATORY PROCEDURES

STATE FREEDOM OF INFORMATION STATUTES

REPRESENTATION OF CONSUMER INTEREST AND STATE ENERGY OFFICES

Table 187 contains information on the number of agencies with library resources, library staff, services offered, number of volumes, number of journals, type of library organization and subjects contained in their collections. It should be noted that the Headquarters Office of the NARUC in Washington, DC, among other items, maintains a complete set of the Proceedings of the Annual Conventions, beginning with the first one in 1889, as well as the NARUC Annual Report on Utility and Carrier Regulation, beginning with the first one in 1973.

Table 188 shows that many of the agencies permit microfilming or other reproduction of agency records.

Table 189 shows detailed information concerning public information offices and operations. The table includes the number of special public information officers, number of personnel, main channels for disseminating information, news releases, brochures and/or other publications issued; Table 190 shows the agencies' means of keeping the public informed.

Table 191 shows the extent to which regulatory agencies permit news media coverage of public proceedings. Data presented in this table includes the agency's definition of "news media", method of recording events and the agency's policy on whether presiding officers may discuss the subject matter or conduct of the proceeding with the news media. An X in the column entitled "Educational Non-preferential Comments" denotes that the agency's presiding officers may explain the subject matter or conduct of a proceeding with the news media only for the purpose of educating the media as to the subject matter and issues involved, without in any way predicting outcome or implying preference. Table 191 also shows the extent to which non-news media members of the public may record events of regulatory proceedings.

Table 192 shows information obtained from a NARUC survey of State freedom of information (Sunshine) statutes, including the text of many of these statutes, indicating whether agency proceedings and records must be public and/or whether some may be considered private or proprietary information.

Table 193 lists the state representatives of consumer interest other than the regulatory agencies, such as consumers' counsel, public advocate or the like. The information, originally compiled by the National Association of State Utility Consumer Advocates (NASUCA), is now updated annually by the state agencies.

Table 194 lists the State Energy Offices.

AGENCY LIBRARY RESOURCES AND FACILITIES

The following table displays the results of a survey conducted by the Information Resources Network, an Ad Hoc committee of the NARUC Subcommittee on Executive Directors, and compiled during the Summer of 1988.

Many regulatory agencies have developed extensive and sophisticated research facilities.

The following KEY will aid in understanding the abbreviations used:

KEY

SERVICES: A = Acquisitions; AV = Audiovisual services; GR = General Reference; I = Interlibrary Loan; O = Online Searching; R = Research

SUBJECTS: EC = Economics; EL = Electric; EN = Environment; G = Natural gas; L = Law; M = Multi-utility/regulation; N = Nuclear; T = Telecommunications; TR = Transportation

METHOD OF ORGANIZATION: LC = Library of Congress classification

FOOTNOTES - TABLE 189 - PUBLIC INFORMATION OFFICES AND DISSEMINATION OF INFORMATION OTHER THAN BY NEWS MEDIA

1/ Requires utility to provide advertising on certain matters.
2/ Public information released by Nova Scotia Communication Centre and notice of hearings advertised.
3/ Railroad employee safety, health and truck accident reporting; gas, electric, water and telephone consumer complaints.
4/ Biennial report.
5/ Newsletter issued by Public Service District Division.
6/ Commission did not respond to requests for update information; this data may not be current.

TABLE 190 - MEDIUM USED TO ALERT PUBLIC OF PROCEEDINGS OF SUBSTANTIAL CONSUMER CONCERN

FCC	Public notices, Federal Register, news releases, special public interest publications, Feedback, Actions Alert
FERC	Federal Register, news releases. Telephone to news media. Direct mail to affected parties
ICC	Federal Register, ICC Register, news releases
ALABAMA PSC	Public notices to news media
ALASKA PUC	Public notices and decisions to news media, paid ads at utilities' expense
ARIZONA CC	Public notices to news media. Paid ads are at utilities' expense
ARKANSAS PSC	Orders made available to news media and interested parties
CALIFORNIA PUC	Daily calendar, bill insert for rate increases, publication in newspapers of general circulation, news releases, telephone calls
COORADO PUC	Public notices, new releases
CONNECTICUT DPUC	Legal notices, news releases, companies required to send notice to all consumers
DELAWARE PSC	Legal notices, news releases
DC PSC	DC Register, public notices, press releases
FLORIDA PSC	Newspapers, radio, television, bill-stuffers
GEORGIA PSC	At least two newspaper publications before each rate case
HAWAII PUC	Newspaper coverage
IDAHO PUC	News release to all daily and weekly newspapers, radio and TV stations in service area; notice to chambers of commerce, city and county governments in service area
ILLINOIS CC	Legal notices, notice to public officials and others, news releases
INDIANA URC	Newspaper publication, radio, television, news releases
IOWA SUB	Provide news media with copies of all Decisions and Orders of the Board, Hearing Calendars and Decision meeting agendas, press conferences; consumer comment hearings on major rate cases; news releases
IOWA DOT	Direct mail to concerned parties; public information released by and through Office of Public Affairs
KANSAS SCC	Newspaper publication, news releases, weekly schedules of hearing posted and distributed, billing inserts
KENTUCKY DVR	Newspapers, official notice, news releases
KENTUCKY PSC	Newspaper publication, direct notice by utility, press releases by Commission
LOUISIANA PSC	Direct mail to parties and public officials, news releases
MAINE PUC	News releases, legal notices in newspapers, service of orders to local governments
MARYLAND PSC	News releases, newspaper ads, direct mail to interested parties, utility bill inserts, weekly schedules of Commission hearings.
MASSACHUSETTS DPU	News releases, utilities required to pay for legal notices in newspapers and bill inserts to utility customers
MICHIGAN DOT	News releases
MICHIGAN PSC	Notice to municipalities, newspaper ads, in some cases bill inserts, news releases, consumer advisories
MINNESOTA PUC	Weekly calendar, news releases to utility service area legislators, media and local government officials. Utility required to provide notice through bill enclosures and paid advertising
MINNESOTA TRB	Weekly calendar, media and local government officials.
MISSISSIPPI PSC	News releases, legal notices in newspapers
MISSOURI DOT	Weekly docket, direct mail to concerned parties, truck register, notice to newspapers.
MISSOURI PSC	Notice to news media, mayors, State legislature, county officials in utility service area, utilities required to give notice via bill inserts
MONTANA PSC	News media, legal notices
NEBRASKA PSC	Notices to mayors, commercial clubs, concerned parties and newspapers, statutory notice in legal newspapers
NEVADA PSC	Newspapers ads in areas affected, notices to news wire services, personal contact with journalists
NEW HAMPSHIRE PUC	Newspaper publication, newsletter, news releases
NEW JERSEY BPU & DOT	News releases, direct mail, notice to affected parties, notices published in newspaper in service area.
NEW MEXICO PSC	Notices published in newspapers in service area, news releases and radio and TV
NEW MEXICO SCC	Notices published in newspapers in area of rate increase requests, news releases
NEW YORK DOT	News releases, direct mail, State Register
NEW YORK PSC	News releases, radio and television, interviews, press conferences
NORTH CAROLINA UC	Formal notice of hearing in newspapers, other releases to all media, bill inserts as direct notices
NORTH DAKOTA PSC	Notice to statewide news media, bill inserts via utilities, legal notices, press conferences
OHIO PUC	News releases, legal notices in newspapers, weekly calendar, press conferences, direct dissemination of information through press contacts
OKLAHOMA CC	News releases, legal notices in newspapers
OREGON PUC	Direct mailing, newspapers, radio, television, advertising, bill-stuffers
PENNSYLVANIA PUC	Close, daily contact with State and Regional news media (newspapers, TV and radio). Our public information office directed by a public utility information specialist. Such contact is through issuance of news releases, telephone and personal discussion. Newsletter prepared by Bureau of Consumer Services.
RHODE ISLAND PUC	News releases, legal notices in daily newspapers
SOUTH CAROLINA PSC	Legal notices in daily newspapers, news releases, bill inserts.
SOUTH DAKOTA PUC	News releases, legal notices
TENNESSEE PSC	Notices to news media
TEXAS PUC	News releases, PUC Bulletin.

TABLE 190 - MEDIUM USED TO ALERT PUBLIC OF PROCEEDINGS OF SUBSTANTIAL CONSUMER CONCERN (Continued)

TEXAS RC	News releases, newspaper, Commission Bulletins, personal mail and Texas Register
UTAH PSC	Legal ads in newspaper of general statewide circulation and a mailed notice from the utility to each of its regular customers
VERMONT PSB	Public notices and decisions to news media
VIRGIN ISLANDS PSC	Legal notices in newspapers, news releases
VIRGINIA SCC	Display ads in newspapers, news releases, service of orders on local governments, telephone to new media, direct mail to affected parties, distribute bi-monthly calendar of cases
WASHINGTON UTC	Notice to news media, utilities notify customers by mail of rate filings
WEST VIRGINIA PSC	Legal notices in newspapers, notices including press releases as statements to news media, frequent bill inserts and personal contact when possible
WISCONSIN OCT, PSC & DOT	News releases, legal notices (not paid ads), mandatory bill inserts, personal mail for names on case list
WYOMING PSC	Legal notice in newspapers, news releases to interested governmental and consumer groups and to all communications media. Personal contact when possible.
CANADIAN RTC	Public notices, news releases, telephone to news media, direct mail to affected parties, paid advertising in newspapers (ie notices published in newspapers of areas affected)
NATIONAL ENERGY BD.	Quarterly Regulatory Agenda, Press releases, public notices in national and local newspapers, trade journals, active media relations programs.
ALBERTA PMC	Public notices in newspapers and trade journals

FOOTNOTES - TABLE 191 - NEWS MEDIA COVERAGE OF REGULATORY PROCEEDINGS

1/ No agency definition has been adopted.
2/ No request has been made.
3/ Cannot be taken of a witness while testifying.
4/ Short segments only.
5/ Wyoming Commission has not established rules or guidelines in this area but allows any reasonable approach by news media. To date news media have not been disruptive in covering Commission hearings.
6/ If proceedings are not disrupted.
7/ Permitted before and after actual proceedings, but not during public hearings or meetings.
8/ Permitted during course of public Commission meetings, but special permission is required for public hearings conducted by Administrative Law Judges. No flash or special lighting permitted. Proceedings must not be disrupted.
9/ By special arrangement, on a conditional basis.
10/ Opening statement to participants at the hearing often recorded by the Press.
11/ If requested.
12/ Commission did not respond to requests for update information; this data may not be current.

Freedom of Information Statutes

The following table, Table 192, which details the existence of Freedom of Information ("Sunshine") Statutes, was developed from the answers given to the questions in the following questionnaire. The letter at the top of each column refers to the question bearing the same letter.

NARUC QUESTIONNAIRE REGARDING FREEDOM OF INFORMATION STATUTES

A. Does your state have a sunshine statute?
B. If so, does it apply to your agency?
C. If not, has your agency adopted sunshine regulations on its own initiative?
D. If the statute applies, does it require your agency to issue regulations?
E. If so, have such regulations been issued?
F. Has the statute been interpreted by the state Attorney General?
G. Have the courts reviewed the statute?
H. Are any court cases pending which involve your agency?

Does the statute or regulation require:

I. That all proceedings be public?
J. That most proceedings be public but that some may be closed to the public (ie, for discussion of personnel matters)?
K. That all documents are open to the public?
L. That most documents are open to the public, but that some may be classified as confidential?
M. Has the state attorney general interpreted your regulations?
N. Have the regulations been subject to judicial review?
O. Are any court cases pending concerning such issues?

FOOTNOTES - TABLE 192 - STATE AND FEDERAL FREEDOM OF INFORMATION (SUNSHINE) STATUTES

1/ **Title 14, Alabama Code, §393-394**, prohibit executive sessions by the PSC and other State or local boards except "where the character or good name of a man or woman is involved". Violation is a misdemeanor with a fine of no less than $10 nor more than $500. Any person who remains in attendance of any secret or executive session shall be deemed guilty of violating the Code. PSC is subject to other State laws, as well as rules and regulations, pertaining to promulgation and publication of rules. Any official record, such as transcripts and docket files, is open to public inspection.

2/ Formal hearings open to the public. All documents, except those designated by regulation as nonpublic, are open to public inspection at reasonable times. **Alaska PUC Act (AS 42.05.671)**. **Alaska Admin. Code, Title 3, §48.040** provides in part that, except for specifically designated subjects, all facts, information, orders, memoranda, accounts and papers of every nature in the possession of the PUC are available for public examination. Designated exceptions include certain personnel matters, including medical records, which under governing personnel practices are not public information; staff papers unless entered as evidence in adjudicatory proceedings; intraorganizational written drafts of orders and findings and communications concerning such drafts; staff notes and memoranda summarizing routine telephone calls and conferences; budgetary and contractual documents pending formal publication; tape recordings, transcripts, notes, minutes and other information on conferences which are privileged either by order of the commissioner or by mutual agreement of the parties; confidential legal advice or assistance; any information which the commission may, for good cause, specifically designate as privileged. Provision is made for Commission determination as to release of information requested by subpoena duces tecum.

3/ Commission must abide by the Canadian Access to Information and Privacy Law.

4/ **Arizona Revised Statutes 38-431**, the Arizona Open Meeting Law provides: "All meetings at which any legal action is taken by governing bodies shall be open meetings and all persons so desiring shall be permitted to attend and listen to the deliberations and proceedings". Par B states: "Governing bodies, except for subcommittees shall provide for the taking of written minutes of all their meetings. Such minutes shall be properly and accurately recorded as to all legal action taken and open to public inspection except as otherwise specifically provided by statute". Public notice of all regular meetings is required. §38-431 permits executive sessions for specific purposes, such as personnel matters, discussion or consideration of records exempt by law from public inspection, legal advice and international or interstate negotiations. Final actions or final decisions must be made in public session.

5/ Arkansas PSC is subject to Arkansas Freedom of Information Act, **AR Stat Ann §12-2801 to 12-2807 (Repl 1979 & Supp 1985)**. §12-2804 provides that all public records are open to the public unless exempted by this Act or another statute. The specific statute [**AR Stat Ann §73-226 (Supp 1985)**] applicable to the PSC provides that Commission records are open to the public, unless the PSC finds it in the public interest to withhold information. "The Commission may take such action in the nature of but not limited to issuing protective orders, temporarily or permanently sealing records or making other appropriate orders to prevent or otherwise limit public disclosure of said facts and information." **AR Stat. Ann. §12-2805** provides that "all meetings ... of the governing bodies of all ... commissions ... of the State ... shall be public meetings", except as otherwise specifically provided by law.

6/ §306(b) of the **Public Utilities Code** provides that meetings of the Commission shall be open and public in accordance with **Title 2, Div 3, Part I, Ch I, Article 9 (§11210 et seq)** of the Government Code. §11126 provides that a State agency may hold executive sessions during a regular or special meeting to consider the appointment, employment or dismissal of a public employee or to hear complaints or charges brought against such employee by another person or employee unless such employee requests a public hearing. **Chapter 3.5, (§6250-6260)** states requirements for inspection of public records and authorizes state agencies, including the PUC, to establish guidelines and regulations consistent with it.

7/ Colorado Sunshine Act of 1972, effective 1/1/73, **Chap. 3, Colorado Rev. Stats 1963, Article 37**, Colorado Sunshine Law, among other things, provides that all meetings of two or more members of any policy- or rule-making body of any state agency or authority at which public business is discussed or at which formal action is taken, are declared to be open to the public at all times, except as otherwise provided in the constitution. In order to be valid, formal action must be made at an open meeting that is held after timely notice to the public. In Opinion No. 73-0003, dated 1/18/73, the Attorney General ruled, that the PUC is a rule-making authority within the intent of the Sunshine Act. **CO Revised Stats, Chapter 113, Art 2**, provides that all public records be open to inspection at reasonable times; exceptions include certain personnel and medical records, trade secrets and addresses and telephone numbers of public elementary and secondary school students. Although the Act does not require the PSC to issue regulations to fulfill the intent of the law the PSC issued regulations on its own initiative. Decision 84540, dated 2/22/74, in Case No. 5409, amended PSC Rule 32 to clarify its policy on open meetings.

8/ CT has Right to Know law which affords public access to State records (**CT Gen Stat §1-19**).

9/ Statute requires the DC PSC, through rulemaking, to adopt regulations. However, until the agency issues regulations, those promulgated by the Office of the Mayor governing the flow of information from the Executive Department apply.

10/ **Florida Stats, §286.011** (Government in Sunshine law) requires all meetings at which official acts are taken, except as otherwise provided by the constitution, to be open to the public at all times and requires the minutes of such meetings to be open to public inspection. Violations are misdemeanors of the second degree. **Chapter 119** provides that all public records of the State or any county or municipality be open at all times to public inspection by Florida citizens. Violations of the statute are misdemeanors of the first degree. By letter of 9/13/73, 073-344, the Attorney General interpreted the statutes to prohibit executive sessions to discuss personnel matters, and to require prompt publication of decisions. **Times Publishing C., et al v. Williams, et al (1969) 222 So 2d 470, Board of Public Instruction of Broward County v. Doran (1969) 224 So 2d 693 and Conney v. Board of Public Instruction of Alachua County (1973) 278 So 2d 260**, involve court decisions that, as public agencies, School Boards must hold public meetings. As provided in the statute, all official "filings" and the PSC minute book are public records. Staff recommendations are also public records.

11/ Meetings dealing with personnel matters may be closed to the public.

12/ Indiana Open Door Law basically requires that "all meetings of the governing bodies of public agencies must be open at all times for the purpose of permitting members of the public to observe and record them". The main points are as follows: (1) An agenda must be posted at the entrance to the location of the meeting prior to the meeting. (2) Minutes of meetings must be taken and must include the date, time and place of the meeting, the general substance of all the matters proposed, discussed or decided, and must contain a record of all votes taken. These minutes must be available to the public within a reasonable period of time. (3) Notice to the news media who annually and in writing request notice, must be posted and delivered at least 48 hours prior to the meeting. (4) If regular meetings are held, notice need only be given once each year. In addition, all files, records, or other information at the Utility Regulatory Commission of Indiana not determined to be confidential by their nature are open for public review during business hours.

13/ Iowa has two freedom of information statutes. **Chapter 21 of the Iowa Code** is the "open meetings" statute and **Chapter 22** is the "public records" statute. Chapter 22 states that "public records" include all records and documents of or belonging to the State or any political subdivision; grants citizens and news media the right to examine and copy such records, and authorizes news media to publish them unless expressly prohibited elsewhere in the Code. Violation of Chapters 21 and 22 results in a $500 fine and payment of all costs and attorney fees. Three violations in which damages were assessed constitute removal from office. Violation of Chapter 22 is misdemeanor. Certain information is considered confidential, including the work product of any attorney related to litigation or claim made by or against a public body and personnel records. Only the work product of attorneys for the Board are not open to public inspection. Chapter 21 requires that all meetings of public agencies, but excluding any court, jury or military organizations, be public with advance public notice, unless closed meetings are expressly permitted by law. By a vote of two-thirds members present a public agency may hold a closed (executive) meeting concerning personnel matters, procurement of property or "for

FOOTNOTES - TABLE 192 - STATE AND FEDERAL FREEDOM OF INFORMATION (SUNSHINE) STATUTES

some other exceptional reason so compelling as to override the general public policy in favor of public meetings".

14/ The Kansas "Open Meeting" law, **Chapter 319, 1972 Session Law of Kansas** provides for public meetings and for no binding action by secret ballot. Executive sessions are permitted if the purpose is stated but no binding action may be taken, nor can executive sessions be used to defeat the purposes of the Act. By letter of 9/13/72, the Attorney General informed the Executive Officer, Kansas State Board of Regents, that the Board cannot exclude audio or visual equipment unless its operation "so seriously and substantially disrupts the meeting as to thwart the very purpose of the meeting". Official files are open to the public; correspondence is not considered part of official files.

15/ Kentucky House Bill 100, enacted 6/21/74, needs further clarification. The statutory definition of "public agency" specifically excludes judicial or quasi-judicial bodies; otherwise, all public bodies are required to hold public meetings when any public business is discussed or action taken, or any subject other than such matters as proposed or pending litigation involving the body, collective bargaining between public employers and employee representatives, personnel matters, meetings between public agencies and industry prospects, meetings which Federal or State law specifically require to be conducted in privacy and meetings which the State Constitution provides shall be held in secrecy.

16/ PSC procedures; records are open to public; hearings are public.

17/ **Maine Rev Stats Ann., Title I, §401-406**, requires all public proceedings be open to the public, and permits written, taped or filmed records so long as it does not interfere with the orderly conduct of the proceedings. Executive sessions are permitted but are not be used to defeat the purposes of the statute; no official final action can be taken in executive session. Written decisions are required and are open to public inspection. Willful removal, alteration, mutilation or secretion of such public records is subject to a fine of not more than $5,000 and by a prison term of one to three years. On 6/6/74, the Attorney General expressed the opinion that although the Guarantee Authority is not required to tape record its meetings or to keep any record other than such minutes as are required by law (such minutes are expressly open to the public), it would be capricious to hold that the public may not hear the tapes of a public meeting not properly held as an executive meeting, under reasonable conditions to safeguard the tapes. He added: "Maine's Freedom of Access Law, one of the broadest and most liberal of any state, was designed to subject the workings of public agencies to public scrutiny as fully as possible and to limit strictly the records that could be withheld from public view. The importance of this objective is particularly evident when an agency has the Guarantee Authority's extraordinary power to pledge the credit of the State in guaranteeing a loan to a private enterprise and thereby commit substantial public funds. Not only is its business the peoples' business, its money is the peoples' money." In Sulloway v. Town of Kittery (1973), Docket 60/73, Maine Superior Court held on 5/21/74, that in holding closed meetings the Kittery Town Council and the Board of Zoning Appeals violated the statutes.

18/ **Maryland State Government Article, Title 10, Code Ann.** makes provision for public information. §22(b), of Article 78, provides: "All proceedings of the Commission, and all records in its possession, shall be public records open to inspection by the public at all reasonable times."

19/ **Minnesota Statutes, §15.17** provides for recordkeeping by all State and local officers and requires easy access to them. Except as otherwise expressly provided by law, all public records are open to public inspection under reasonable rules and regulations. Agency may request "non-public" classification of certain documents, which can be granted by Department of Administration and the Attorney General (**MS §15.1611-15.1699**). §471.705, the Minnesota Open Meeting Law, provides that all meetings of State and local public bodies for transacting public business including executive sessions, shall be open to the public. The statute does not apply to the board of pardons, the adult corrections commission and the youth commission, or to any State agency when exercising quasi-judicial functions involving disciplinary proceedings. Recorded votes are required. Violations are subject to a civil penalty not to exceed $100 for a single occurrence. Upon a third violation by the same person, such person forfeits the right to hold office.

20/ Laws governing jurisdiction of the PSC provide for public hearings on all matters that require any type of hearing or taking of testimony; and that all records of the PSC are available for public inspection.

21/ **Chapter 610, Revised Statutes of Missouri (Supp 1973) (Sunshine Law)**: (1) applies to any constitutional or statutory governmental body of the State or any local subdivision and any other governmental deliberative body under direction of three or more elected or appointed members having rulemaking or quasi-judicial power; (2) requires any meeting at which public business is discussed, decided or public policy formulated to be open to the public, subject to certain statutory exceptions (generally applicable to legal actions or litigation, land purchases or sales; and other meetings, records or votes which as otherwise provided by law may be closed, have a closed record or a closed vote); and (3) requires reasonable notification of special meetings. The Commission on 11/15/74 adopted General Order 62 (4 CSR 240-2.010) providing for regular open meetings of the Commission. There is also a statute which states that information provided to the Commission shall not be open to public inspection unless specifically authorized by statute or Commission order.

22/ Commission can limit public access to trade secrets.

23/ **Nebraska Revised Statutes §84-902** requires each State agency to file, in the office of the Secretary of State, a certified copy of the rules and regulations in force and in effect in such agency. The Secretary of State shall keep permanent file of all such rules and regulations, which shall be open to public inspection during regular business hours of his or her office. §84-1401 et seq provide that, except as otherwise expressly provided by the State constitution or statutes, all State and local public bodies shall hold public meetings and give reasonable public notice concerning them. Notes, abstracts and broadcast of meetings are permitted. Executive sessions may be called by vote taken in open session. Votes taken in executive session need not be recorded. Only actions taken in public sessions are legal.

24/ **NRS §703.190**: all biennial reports, records, proceedings, paper and files of the PSC shall be open at all reasonable times to the public, but when it is necessary in the public interest the PSC may withhold any facts or information in its possession for no more than 90 days. **NRS §704.190** provides that accident reports filed with the PSC, or reports of any accident investigation made by the PSC are not open to public inspection and may not be disclosed to any person except on PSC order. None of such reports, or any portion thereof may be used in civil actions for damage. PSC posts on public bulletin board in its offices one week advance notice of meetings, informal conferences, etc that are scheduled.

25/ **New Hampshire Revised Statutes Annotated, Vol 2 (1973 Cumulative Supplement), §91-A: 1 et seq** requires all public proceedings of the State and local boards or commissions to be open to the public. Minutes of such meetings are open to public inspection. Reasonable notice of meetings is required, except in emergencies. Executive sessions are permitted for consideration of personnel matters, land acquisition or sale, or for matters affecting the character of any person. Any body or agency violating the statute may be charged attorney's fees and court costs incurred in making the information available. Governor Thomson issued Executive Order No. 74-1, dated 1/10/74, to implement the statute. The New Hampshire Attorney General has issued guidelines designed to aid fulfillment of the statutory objectives. In Herron v. Northwood (1971) 111 NH 324, the court ruled a town's budget committee cannot approve its recommendations in secret executive sessions. The ruling was prospective only and did not invalidate earlier action. In Mann v. Lebanon School Board (1972) 112 NH 160, the court ruled, with one dissent, that teachers salaries are subject to disclosure.

26/ **New Jersey Statutes Annotated 47: 1A-1, et seq** (Right to Know Law) provides that "all records which are required by law to be made, maintained or kept on file..." by any State or local body are deemed to be public records that are subject to public inspection and copying. It establishes copying prices to be applied where none have been established. Records of investigations in progress need not be disclosed if inimical to the public interest. BPUC regulations (§14.3-6.5) require disclosure of all BPUC records.except reports of accidents, investigations of accidents, safety inspections and surveys of utility property and equipment. However, in Irval Realty v. NJBPUC, 1971, the Supreme Court of New Jersey held that owners of property damaged by a gas explosion had legitimate interest and were entitled to inspect and copy accident report records the gas supplier was required to file with the BPUC, notwithstanding the agency's regulation that accident reports are not deemed public records for purpose of public inspection. 115 New Jersey Super 338. In Bzozowski v. Pennsylvania-Reading Seashore Lines (1969) the Superior Court of New

FOOTNOTES - TABLE 192 - STATE AND FEDERAL FREEDOM OF INFORMATION (SUNSHINE) STATUTES

Jersey, Law Division, ordered the BPUC to open its grade crossing records for inspection under the "Right to Know Law". The Open Public Meetings Act, **New Jersey Statutes 10:4-6 et seq.**: "The right of the public to be present at all meetings of public bodies, and to witness in full detail all phases of the deliberation, policy formulation, and decision-making of public bodies, is vital to the enhancement and proper functioning of the democratic process." It requires that public bodies hold open meetings with adequate notice to the public. Notice waivers are permitted for meetings on urgent matters. Public bodies are permitted to meet in closed session, upon resolution to do so, for the discussion of matters deemed confidential by law or court ruling, individual privacy, an individual's personal or family circumstances, collective bargaining agreements, purchase or lease of property or the investment of public funds, matters affecting public safety, litigation and employment of personnel.

27/ The New York Freedom of Information Law became effective 9/1/74. §87-1 requires each agency to publish rules, and §87-2 requires each agency, in accordance with its published rules, make available for public inspection and copying all records, except that the agency may deny access to records or portions thereof that: (a) are specifically exempted from disclosure by state or federal statute; (b) would constitute an unwarranted invasion of personal privacy under present or imminent contract awards or collective bargaining negotiations; (d) are trade secrets; (e) are compiled for law enforcement purposes and which, if disclosed, would: (i) interfere with law enforcement investigations or judicial proceedings; (ii) deprive a person of a right to a fair trial or impartial adjudication; (iii) identify a confidential source or disclose confidential information relating to a criminal investigation; or (iv) reveal criminal investigative technique or procedures, except routine techniques and procedures; (f) would endanger the life or safety of any person; (g) are interagency or intra-agency materials which are not: (i) statistical or factual tabulations or data; (ii) instructions to staff that affect the public; or (iii) final agency policy or determinations; or (h) are examination questions or answers which are requested prior to the final administration of such questions. The Committee on Open Government interprets the statute.

28/ North Carolina Code, Chapter 132, gives requirements for retaining public records, all written and printed material made and received in pursuance of law by the State and its political subdivisions. It requires public inspection at reasonable times. **Chapter 143, Article 33B**, declares open meetings as public policy; permits executive session while considering, among other things, personnel matters and conferences with legal counsel. Exceptions include State agencies, commissions or boards exercising quasi-judicial functions during any meeting or session held solely for the purpose of making decisions in adjudicatory actions or proceedings, and other specifically identified exceptions. NCUC can meet in executive session to make decisions in adjudicatory proceedings and in performing law enforcement and investigation.

29/ **§4901.12, Ohio Rev Code**, says that all proceedings of the PUCO and all documents in its possession are public records. **§4901.13** requires all hearings to be open to the public. **§121.22** requires public bodies to conduct deliberations and take official action in open meetings, with certain exceptions.

30/ The Oregon Attorney General's Public Meetings and Records Manual (Attorney General's Opinion 6996), dated 8/15/73, cites Oregon Laws 1973, Chapters 172, 194 and Oregon Revised Statutes, Chapter 192, as the Public Meeting Law and the Public Records Law, respectively. Executive sessions are permitted for personnel matters, labor negotiations, real property procurement, consideration of records exempt from public inspection and certain preliminary negotiations involving trade or commerce in which the governing body is in competition with governing bodies of other States or nations. The statute encourages agencies to permit the press to attend executive sessions with the understanding that sensitive matters will not be reported.

31/ The Pennsylvania Sunshine Act **(Act 84 of 1986, 65 PS §271, et seq)** declares that official actions and deliberations by the members of an agency shall take place at a meeting open to the public, unless specifically exempted. Official action includes recommendations made, policy established, or votes taken on agency business. The act permits private discussions of personnel problems, collective bargaining issues, acquisition or lease of real property, matters in litigation or under investigation, and privileged or confidential information. Public notice must be given in advance of each meeting.

32/ **South Dakota Statutes, Chapter I-27**, provides for retention and reproduction of public records; and requires that they be open to public inspection during regular business hours. Opinions of the Attorney General state that officials may establish reasonable regulations on inspection of public records in the office (9/4/40); use of office space and equipment (6/7/46); that public records are open to inspection by a person during office hours (3/27/40); and that County Commissioners may not refuse access to public records in the custody of a county official (August 1938).

33/ Tennessee Sunshine Law, **Chapter 442, Public Acts of 1974**, effective 5/1/74, specifies that all meetings of any governing body (consisting of two or more members with authority to make decisions for or recommendations to a public body on policy or administration) be open at all times; that advance notice of meetings be given, and that minutes be taken. On 4/8/74 the Attorney General suggested minor revisions to a proposed order which were incorporated in PSC Admin. Order A-1-74, issued 4/17/74.

34/ **VTCS, Art. 6252-17**, gives requirements for open meetings, including public notice, by State and local governmental bodies, and permits executive sessions for such matters as legal advice on pending or contemplated litigation, real property procurement, or personnel matters. **VTCS, Art. 6252-17a**, gives requirements for public access to information and records in the custody of governmental agencies and bodies. Exceptions are similar to those applicable to public meetings.

35/ Virginia Freedom of Information Act (FOIA), **§2.1-340 - 2.1-346, Code of 1950, as amended** ... the State Corporation Commission is not specifically exempted but believes that the Act does not apply to SCC records and proceedings. The Commission conducts hearings, within a framework of public sessions, following proper notice, and there are Constitutional provisions and numerous statutes relating solely to the Commission which are intended to protect the public from secret, arbitrary or capricious acts of the Commission, to assure fair and open hearings, and to provide access to all records with certain statutory exceptions. A recent State Supreme Court decision held that the enforcement provisions of the FOIA cannot be properly applied to the SCC under the State Constitution, but did not decide whether other provisions of the FOIA apply.

36/ Washington Open Meetings Act **(Chapter 43.20, Revised Code of Washington)** and Washington Public Disclosure Law **(Chapter 1, Washington Session Laws, 1973)** are in Chapter 480-04; and related provisions of other chapters under the same title of the Washington Administrative Code. Executive sessions are permitted for consideration of national security matters and personnel matters, unless the employee involved requests a public hearing. Any writing containing information relating to the conduct of the government or the performance of any governmental or proprietary function prepared, owned, used or retained by any State or local agency regardless of physical forms or characteristics is required to be open to public inspection unless specifically exempted by §31, Chap 1, Laws of 1973. The exceptions include such subjects as personal and medical data; personnel files; preliminary drafts, notes, recommendations and intra-agency memoranda in which opinions are expressed or policies formulated, except that a specific record shall not be exempt when publicly cited by an agency in connection with any agency action; certain legal documents; and specific intelligence or investigative files compiled by law enforcement agencies, including identity of complainants unless authorized by the individual.

37/ West Virginia PSC General Order No. 165 calls for public sessions for hearing motions, evidence or oral arguments, or for public conferences. The PSC Secretary, upon request, will advise any party as to the form of petition, complaint, answer or other paper the party desires to file; and will furnish from the PSC files any information required for a full presentation of the facts material to any controversy, investigation or other proceedings. Public utilities are required to file tariffs with the PSC, and its Secretary shall keep all tariffs open to public inspection. Upon payment of fees fixed by law, any person may obtain certified copies of papers on file in the Secretary's office. **West Virginia Code §24-2-9** authorizes the PSC to require utilities to file information concerning rates, service charges and practices; and §24-3-5 requires every public utility to file with the PSC, and keep open to public inspection, schedules showing rates, charges and tolls for services rendered. West Virginia General Order No. 190 states "Television, radio and still picture photography coverage is permitted in all hearings ...".

38/ Wisconsin amended its Open Records Law **(Chapter 335, Laws of 1981)** to create a strong presumption in favor of complete public access and

FOOTNOTES - TABLE 192 - STATE AND FEDERAL FREEDOM OF INFORMATION (SUNSHINE) STATUTES

establish procedures for access to, and copying of, records. The law also codifies various court opinions and establishes enforcement procedures. The law is found previously at §19.2-39, Wisconsin Statutes. §196.14, WI Stats, applies only to the PSC: "196.14 Records public; exceptions. All facts and information in the possession of the commission shall be public, and all reports, records, files, books, accounts, papers and memoranda of every nature whatsoever in its possession shall be open to inspection by the public at all reasonable times" except when the Commission finds it to be necessary in the public interest, it may withhold information, but for no longer than 90 days. §196.72, WI Stats exempts utility accident reports from public disclosure. Commission may deliberate in closed session on certain specified matters, such as litigation strategy.

39/ Wyoming Freedom of Information Act, WS 16-4-401, et seq, requires agencies of the State and local subdivisions to hold meetings, including special meetings, open to the public based on public notice. Executive sessions not open to the public may be held for specific purposes, such as personnel matters, litigation, national security, information classified as confidential by law, and disciplinary actions affecting students as provided by law. Persons disrupting any public meeting can be removed. In Opinion No. 17, 8/3/73, the Attorney General concluded that the enactment applies to the PSC and other State agencies, as well as to many local agencies. Even before that opinion was expressed, on 5/29/73 the PSC adopted a resolution setting forth its policy concerning meetings in conformity with the statute. The Wyoming Freedom of Information Act spells out requirements for public inspection of public records and identifies certain exceptions.

40/ 5 USC §52b, adopted 1976.

41/ §9 of the Statutory Powers Procedures Act requires, subject to limited exceptions, hearings shall be open to the public.

42/ Quebec Charter of Rights and Freedoms (RSQ, c.C-12) requires certain proceedings be held in public.

43/ North Dakota Admin. Code §69-02-08-01 provides in part: "As permitted by law, the Commission may conduct closed meetings to consider quasi-judicial proceedings, which include major rate cases and certificate proceedings for transmission lines and energy conversion plants. The Commission will continue to report the results of these deliberations in written opinions and orders resolving each case."

44/ Commission did not respond to requests for update information; this data may not be current.

Glossary of Terms

The following Glossary was produced using many different information sources: textbooks, references, etc. The objective is to explain in simple terms some of the complex terminology used in this Annual Report and in discussions of utility regulation in general. Thus, some of these definitions become necessarily over-simplified. Use of these terms in specific cases should be clarified with the regulatory body concerned. This Glossary should not be considered complete, as new phrases, acronyms and words are developed daily.

AFUDC (Allowance for Funds Used During Construction): A percentage amount added to Construction Work in Progress (CWIP) to compensate the utility for funds used to finance new plant under construction prior to its inclusion in rate base.

ALJ: See Administrative Law Judge

ANI (Automatic Number Identification)-communications: Automatically identifies the calling party by accessing a database containing names and addresses of subscribers. Used for billing and other purposes (such as identifying the location of an emergency 911 caller).

ANSI: American National Standards Institute.

AOS: See Alternative Operator Service.

ASCII (American Standard Code of Information Interchange). Computer machine language recognized by many different software packages.

Abandonment: Retirement of a utility plant on the books without its physical removal from its installed location.

Above-the-Line: Expenses incurred in operating a utility that are charged to the ratepayer. They are written above a line drawn on the income statement separating them from costs paid by investors. See also Below-the-Line.

Accelerated Depreciation: Accounting method allowing company to write off asset more quickly in early years, with progressively smaller increments in later years.

Access: Ability of user to enter a given network.

Access charge: Payment made to local telephone company for use of local exchange facilities. Funds collected from access charges are used to offset fixed (non-traffic-sensitive) costs incurred by local telephone companies.

Access Line: Communications circuit that connects a customer location to a switching center.

Accrued Depreciation: Monetary difference between the original cost of an article and its remaining value.

Accumulated Deferred Income Taxes: Income taxes collected by utilities through their rates in advance of the time they are actually owed to the government.

Accumulated Deferred Investment Tax Credit: The net unamortized balance of investment tax credits spread over the average useful life of the related property, or some other shorter period. This balance sheet account is built up by charges against income in the years in which such credits are realized and is reduced subsequently through credits to income.

Acquisition Adjustment: The difference between the price paid to acquire an operating unit or system of a utility and the rate base of the acquired property. (See also Plant Acquisition Adjustment).

Administrative Law Judge (ALJ): A Commission staff member who serves as a hearing officer at formal PUC proceedings. He or she may conduct public hearings, issue subpoenas, question witnesses, and prepare draft decisions and orders for the Commission's consideration.

Advice Letter: A filing by letter made by a utility to change rates or services. An advice letter filing usually does not require public hearings.

Allocation of Costs: See Cost Allocation.

Allowance for Funds Used During Construction: see AFUDC.

Alternate Energy Production: Means of producing energy other than those in common use by large companies. Generally include solar, wind, water, photovoltaics and other technologies.

Alternative Operator Services (AOS): Telecommunications operator services provided by other than the Bell companies, generally under contract. Also known as Operator Service Providers (OSPs).

Amortization: Similar to depreciation. A method by which costs for non-tangible assets, such as a patent, are charged to ratepayers over a number of years until the costs have been recovered by the utility.

Amp (Ampere): Unit of measurement of electric current; proportional to the quantity of electrons flowing through a conductor past a given point in one second.

Audiotex: See Dial-It.

Automatic Adjustment Clause: Allows a utility to increase or decrease its rates to cover costs of specific items without a formal hearing before a Commission. Utility can automatically raise its rates only when the price it pays for those specified items goes up. Rising fuel costs are the primary example of such clauses.

Automatic Number Identification: see ANI.

Average Demand: The demand on, or power output of, an electric system over any interval of time, as determined by

dividing the total number of kilowatt hours by the number of units of time in the interval.

Average Service Life: Used in determining depreciation, the average expected life of all the units in a group of assets.

Avoided Cost: The cost an electric utility would otherwise incur to generate power if it did not purchase electricity from another source.

BETRS: See Basic Exchange Telecommunications Radio Service

BOC (Bell Operating Company): Bell company that provides local exchange telephone service under one of the seven Regional Holding Companies (RHCs). Also referred to as RBOCs.

BTU: See British Thermal Unit

Backup Power: Electric energy supplied by a utility to replace power and energy lost during an unscheduled equipment outage.

Base Load: The minimum quantity of electric power or gas delivered over a given period of time.

Base Load Station: A generating station which operates to take all or most of the base load of a system and therefore operates at a nearly constant output. See also Peak Load Station.

Base Rate: A fixed amount charged each month for any of the classes of utility service provided to a customer.

Basic Exchange Service (Telephone): Standard telephone service -local calling, long distance access, custom calling, etc.

Basic Exchange Telecommunications Radio Service (BETRS): Telephone service through radio connections between subscribers and central offices; authorized by the FCC in January 1988 to facilitate universal telephone service especially in areas where potential subscribers are widely separated in remote areas.

Baud: A measure of the speed of transmission of data; number of elements transmitted per second.

Below-the-line: Expenses incurred in operation of utility that are charged to the investor, not the ratepayer. See also Above-the-Line.

Bill of Lading (B/L): An itemized list of goods contained in a shipment. See also Waybill.

Blue Sky Law: Law providing for the regulation of the sale of stocks or other securities.

Bonds (Mortgage): Certificates of indebtedness representing long-term borrowing of capital funds, the terms of which contain an indenture pledging the property as security for the loan.

Book Value: The accounting value of an asset. The book value of a capital asset equals its origtinal cost minus accumulated depreciation. The book value of a share of common stock equals the net worth of the company divided by the number of shares of stock outstanding.

British Thermal Unit (BTU): The standard unit for measuring quantity of heat energy; The amount of heat energy needed to raise the temperature of one pound of water one degree Fahrenheit.

Bundled Rate: Several services combined into one tariff offering for single charge. See also Unbundled Rate.

Bypass: Use of transmission facilities which avoid local utility company network.

CCLC (Carrier Common Line Charge): A charge that interexchange carriers pay for access to the local exchange common line facilities for the provision of interstate or foreign communications service.

CEI (Comparably Efficient Interconnection): Requirement that allows non-telcos to have an equal opportunity to utilize the network for a specific service.

CIAC (Contributions In Aid of Construction): Nonrefundable donations or contributions in cash or properties from individuals which do not become part of the rate base on which the utility may earn an approved return.

COCOT (Customer-Owned Coin-Operated Telephone): Privately-owned pay telephones that accept payment in the form of coins.

COMPTEL (Competitive Telecommunications Association): Industry association representing long-distance telephone companies.

COPT (Customer-Owned Pay Telephone): Privately-owned pay telephones that accept payment in any form, eg, credit card, phone card.

CPCN (Certificate of Public Convenience and Necessity, also known as CCN): License proving that a proposed new facility is in the public interest; often required before a utility can start doing business.

CPE (Customer Premises Equipment): All telecommunications equipment located on customer premises.

CWIP (Construction Work in Progress): A subaccount in the utility plant section of the balance sheet representing the costs of utility plant construction but not yet placed in service.

CWT (Hundred weight): One hundred pounds.

Glossary of Terms

Cab Card: A certificate, required by many states to be carried in the cab of any commercial truck, which identifies the vehicle and its owner and carries the stamps of the states where it is authorized and registered to travel. Also called a "bingo" card.

Cable Television (CATV): The transmission of television signals, including signals that originate at over-the-air television stations, to subscribers on a wired network.

Call: (1) An option to buy (or "call") a share of stock at a specified price within a specified period. (2) The process of redeeming a bond or preferred stock issue before its normal maturity.

Call Premium: The amount in excess of par value that a company must pay when it calls a security. See Call Protection Provision.

Call Privilege: A provision incorporated into a bond or a share of preferred stock that gives the issuer the right to redeem (call) the security at a specified price.

Call Protection Provision: Protection given to the holder of stocks or bonds against the possibility of the issuer of the stock or bond desiring to call (or buy back) the security. The protection may take the form of a minimum amount of notice given to the security holder and/or payment of an additional amount of money. See also Call Premium.

Capital Structure: The permanent long-term financing of the firm represented by long-term debt, preferred stock and net worth.

Capitalized Costs: Costs are capitalized when they are expected to provide benefits over a period longer than one year. Capitalized costs are considered investments and are included in rate base to be recovered from customers over a number of years.

Cellular Mobile Radio Telephone System: A land-based mobile telephone system in which the channels assigned to the system can be divided among several geographical "cells" covering a defined service area. Each cell "hands off" a traveling user's call to the next cell as the caller moves in and out of the defined service area of the cell.

Central Office: Independent switching unit which may provide up to 10,000 local access lines in a telecommunications system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting customer lines and trunks or trunks only.

Centrex: A communications service provided by the local telephone company to large users which allows direct connection to individual telephones on customer premises without going through a switchboard.

Certificate of Public Convenience and Necessity: see CPCN.

Class I Motor Carrier: Common or contract motor carrier of property with average annual gross operating revenue of $1,000,000 or more from motor carrier operations.

Class II Motor Carriers: Those with average annual gross operating revenue of at least $300,000 but less than $1,000,000.

Class III Motor Carriers: Those with average annual gross operating revenue of less than $300,000.

Classification of Service: A group of customers with similar characteristics (ie, residential, commercial, etc.) which are identified for the purpose of setting a rate for utility service.

Cogeneration: Production of electricity from steam, heat, or other forms of energy produced as a by-product of another process.

Coincident Peak: Any demand for electricity that occurs simultaneously with any other demand for electricity on the same system. See also Non-Coincident Peak.

Combined Cycle: The increased thermal efficiency produced by a steam electric generating system when otherwise-waste-heat is converted into electricity rather than discharged into the atmosphere. One of the technologies of cogeneration in which electricity is sequentially produced from two or more generating technologies.

Common carrier: A transportation company that offers service to the general public. (See also Regular Common Carrier). In telecommunications, a company that holds itself out to the public for hire to provide communication transmission services.

Common Costs: Costs incurred jointly for two or more types of operations that must be allocated among the operations. (See also Cost Allocation).

Common Stock Equity: The funds invested in the business by the residual owners whose claims to income and assets are subordinate to all other claims. This includes common capital stock, other paid-in capital, and retained earnings.

Comparable Earnings Method: The average rate of return of a group of companies having comparable characteristics.

Comparably Efficient Interconnection (CEI): Requirement that allows non-telcos to have an equal opportunity to utilize the network for a specific service.

Completion Location: Any subsurface location from which natural gas is being, or has been produced in commercial quantities.

Consolidated Adjustment Mechanism: The combination of Purchased Gas Adjustment and Supply Adjustment Mechanism. This is a method of adjusting rates to reflect fuel costs for gas utilities. See also Automatic Adjustment Clause.

Construction Work in Progress: see CWIP.

Glossary of Terms

Contract Carrier: A transport company which offers its services to other parties under contract. See also Common Carrier.

Contributions in Aid of Construction: see CIAC.

Cooperative (Co-op): A group of persons organized in a joint venture to supply services to a specified area.

Cost Allocations: Method of separating and assigning different costs to interstate or intrastate operations. See also Separations.

Cost of Service Pricing: Method of pricing service strictly in accordance with the costs (expenses and allowable profit) that are attributable to it. Customers of services priced below cost are generally subsidized by customers paying above cost for their services.

Cross-subsidization: Practice of using revenues generated from one (often unregulated) product or service to support another (often regulated) one.

Cushion Gas: The volume of gas kept in a reservoir to maintain adequate pressure and deliverability; the quantity of gas that would not be withdrawn during operation of the storage field.

Customer Advances for Construction: A deferred credit account representing cash advances paid to the utility by customers requiring the construction of facilities in their behalf. These advances are refundable - the time or extent of refund depends on revenues from the facilities. This is not the same as Contributions in Aid of Construction (CIAC).

Customer premises equipment (CPE): All telecommunications equipment (such as handsets and PBXs) located on customer premises.

DOE (Department of Energy): The Federal agency responsible for energy policy.

DSM: See Demand Side Management

Debentures: Certificates of indebtedness issued under an indenture agreement representing long-term borrowings of capital funds, secured only by the general credit of the issuing corporation.

Debt/Equity Ratio: A comparison of the amount of debt to the amount of equity invested in a utility. When the debt is much greater than equity it is referred to as a "highly leveraged" situation.

Declining Balance Method of Depreciation: Greater depreciation expense is charged during the early years of an asset's service life, reducing this charge as the asset ages.

Declining Block Rates: As more energy is consumed the unit price goes down. For example, the first 500 kilowatt hours cost 8 cents each; the next block of 500 Kwh is priced at 6 cents each; etc.

Deferred Fuel Costs: Those fuel costs spent in one accounting period which are not reflected in billings to customers until a later billing period.

Deferred Tax Treatment: Actual taxes plus deferred taxes are included in the income statement.

Demand: The maximum rate at which energy is delivered to a specific point at a given moment. Demand is created by a customer's power consuming equipment and differs from load in that load is a measurement of the amount of energy delivered.

Demand/Capacity Cost: The expenses incurred by a utility on behalf of an individual customer in providing sufficient capacity to meet that customer's maximum demand on an as-needed basis.

Demand Change Credit: A credit applied against the buyer's demand charges when the delivery terms of the contract cannot be met by the seller.

Demand Factor: The ratio of the maximum demand over a specified time period to the total connected load on any defined system.

Demand Rate: A method of pricing under which prices vary according to differences in usage or costs.

Demand Side Management (DSM): Generally refers to reducing a consumer's demand for energy through many means, including conservation, more efficient appliances, weatherization, etc. Demand and Supply Side Planning are combined in Least Cost Utility Planning (LCUP).

Depletion: The loss in service value incurred in connection with the exhaustion of the natural resource in the course of service.

Depreciation: Accounting procedure used to set aside the difference between the first cost of an item of plant (capital) and its estimated net salvage at the end of its expected life. This "amount to be depreciated" is treated as an expense to offset revenues for tax purposes over the years of expected life.

Dial-it, or 976 service: Information service where a caller dials a number to listen to a recorded message, join in an ongoing conference call, record their opinion, etc., for a fee set by the information service provider. 976 is the prefix set aside for this use in local exchange service; interstate dial-it service uses area code 900.

Dial-Tone-First: Coin telephone service which enables calls to be completed to emergency services (911) and operator (0) without first depositing a coin.

Discounted Cash Flow: Method of determining the cost of

common equity where the cost of common equity is equal to the dividends per share divided by the market price per share plus an assumed growth rate.

Diversification: Entry into a line of business different from a company's traditional functions.

Divestiture: US District Judge Harold Greene's order which divided assets of AT&T so that 22 local telephone operating companies were spun off into 7 Regional Holding Companies (RHCs), while AT&T retained control of its long distance, manufacturing and research capabilities. The seven RHCs manage the operations of the Bell Operating Companies (BOCs). It is the Modified Final Judgment (MFJ) which governs permitted and prohibited activities by the BOCs.

Docket: Formal regulatory proceeding; may also be referred to as a case.

Dominant carrier: Service provider which dominates a particular market, and so may be subject to more stringent regulations than other companies which don't have control over that market. See also Non-Dominant Carrier.

EAS (Extended Access Service): The result of broadening the telephone service area in which no long distance charges are assessed.

EPA (Environmental Protection Agency): A Federal agency created in 1970 to permit coordinated and effective governmental action for protection of the environment.

Earnings/Price Ratio: The annual earnings per share of common stock divided by the market price per share of common stock.

Embedded Costs: Money already spent for investment in plant and in operating expenses.

Eminent Domain: Right of the government to take private property for public use.

En Banc (Argument): An oral argument before the Commissioners.

Energy Cost Adjustment Clause: The utility may adjust its rates to offset changes in the cost of fuel used to produce electricity. See also Automatic Adjustment Clause.

Enhanced Nine One One (E-911): An emergency (911) system which incorporates additional features, such as Automatic Number Identification, Automatic Call Distribution, connection to database(s), etc.

Enhanced Telephone Services: More technologically advanced telephone service, including voice messaging, protocol conversion, data base services, etc.

Environmental Impact Statement: Analysis of costs versus benefits with regard to the effect on the environment of a decision.

Equal Life Group Method of Depreciation: Utility plant items with the same life expectancy are depreciated under a common formula.

Equity: The utility investment supplied by the sale of common stock. There is no fixed interest on these common stocks.

Ex Parte: A Commission order or decision issued without a public hearing.

Exchange: A unit established by the telephone utility which is served under a single 3-digit prefix. A single rate schedule applies to the entire area.

Exchange Service Area: The geographical territory served by an exchange, usually embracing a city, town or village and its environs.

Exhibit: A physical object offered as evidence at a hearing.

Extraordinary Property Losses: An amortizable account which includes the depreciated value of property abandoned or damaged by circumstances that could not reasonably have been anticipated and which is not covered by insurance.

FAA (Federal Aviation Administration)

FAC (Fuel Adjustment Clause): See Automatic Adjustment Clause.

FASB: Financial Accounting Standards Board. An independent professional body which establishes standards for financial accounting and reporting for all industries.

FCC (Federal Communications Commission): Federal agency established in 1934, empowered by law to regulate all interstate and foreign radio and wire communications services originating in the United States, including radio, television, facsimile, telegraph, telephone and satellite systems.

FERC (Federal Energy Regulatory Commission): Federal agency established in 1976 charged with regulating the sale, transportation and price of natural gas and of wholesale electric power moved in interstate commerce.

FGA, FGB, FGC, FGD (Feature Groups A, B, C and D): telecommunications: Method of designating types of service according to the technology involved, with FGA the least advanced.

FRA (Federal Railroad Administration): Agency set up to develop standards for, and administer, the Federal Railroad Safety Program.

Facilities Based Carrier: Telephone utility which owns its own transmission facilities.

Fair Value Method of Valuation: The value which would be

ascertained by a prudent purchaser making thorough inquiry relating to all circumstances affecting value.

Federal Communications Commission: See FCC

Federal Energy Regulatory Commission: See FERC

Federal Gas Pipeline Safety Act: See Natural Gas Pipeline Safety Act

Federal Railroad Safety Act: Enacted in 1970, 45 USCA, Section 435. States which participate in the program are eligible to apply for federal reimbursement of up to 50% of the cost of enforcing federal safety standards.

Fiber Optic (FO) Systems: Telephone transmission media using strands of clear glass fibers to carry hundreds of thousands of voice circuits. The signals are transmitted as light pulses.

Firm Power: Delivery of utility service on a non-interruptible, always-available basis. A utility must supply its firm power customers whenever they demand it, despite conditions. See also Interruptible Rates.

Fixed Costs: Business costs that remain unchanged regardless of quantity of output or traffic. See also Non-Traffic-Sensitive Plant.

Flat rate: A rate structure in which everyone within a customer class pays the same price per unit for all energy consumed; method of pricing local telephone service so that customers pay a fixed charge each month for unlimited number of calls. See also Metered Service and Local Measured Service.

Flow-Through Tax Treatment: Only actual taxes to be paid for the period are included in the income statement and collected from ratepayers.

Forecast Test Year: Use of future 12-month period projected utility financial data to evaluate a proposed tariff revision. See also Test Year.

Fossil Fuel: Any fuel, such as coal, oil and natural gas, derived from the remains of ancient plants or animals.

Franchise: A privilege to do business which may be limited to a specified period of time or geographical area and may or may not be exclusive.

Freedom of Information (Sunshine) Statutes: Any laws designed to guarantee public access to governmental actions.

Fuel Adjustment Clause: See Automatic Adjustment Clause.

Fully Distributed Costs (FDC): Regulatory accounting procedure that directly assigns, or arbitrarily allocates to specific service categories, total costs of providing that service.

GAAP (Generally Accepted Accounting Principles): Those accounting principles in general use by all accountants.

GAB (Group Access Bridging): see Group Bridging Service.

GBS: see Group Bridging Service.

Gas Exploration and Development Adjustment (GEDA): The right to recover the costs of approved gas exploration and development projects through the utility's rates.

Gas Pipeline Companies: Firms that transport gas from producing areas to consuming markets.

Gas Pipeline Safety Act: See Natural Gas Pipeline Safety Act.

Generating Plant: A facility where electricity is generated.

Geothermal Energy: The natural heat available in the rocks, hot water and steam of the earth's subsurface. Geothermal energy can be used to generate electric power.

Group Bridging Service (GBS): Recent telecommunications technology that permits a number of callers access to the same conference call, generally for a fee. Also known as Group Access Bridging (GAB). This is one aspect of Dial-It or 976 services.

Hearing Examiner: A person appointed by a Commission to preside throughout hearings and make findings of fact and conclusions of law, all of which are subject to review by the Commission in its final determination. (See also Administrative Law Judge).

Historic Test Year: Use of a past 12-month period (usually the immediately preceding period) utility financial data to evaluate a proposed tariff revision. See also Test Year.

Historical Cost: Original cost minus any expenditures deemed by a Commission to be fraudulent, unwise or extravagant.

Hydroelectric: A generating station driven by water power.

ICC (Interstate Commerce Commission): Federal agency, created in 1898, charged with enforcing acts of Congress affecting interstate commerce.

IOU: See Investor-Owned Utility

IPP (Independent Power Producer): As defined by FERC in a 1988 NOPR, a generating entity, other than a qualifying facility (QF) that is: (1) unaffiliated with the utility purchaser and (2) lacks significant market power. The facility must not be in the utility's rate base. See also QF.

ISDN (Integrated Services Digital Network)

IXC (Interexchange Carrier): company that provides long-distance telephone service.

Glossary of Terms

Imminence Test: The determination of how soon a capital asset will be put into actual use in providing utility service, ie how soon will it be "used and useful".

Incremental Costs: The additional amount of money it takes to generate or transmit energy above a previously determined base amount.

Incremental Pricing: A method of charging customers for energy consumption based on the incremental costs involved in energy production.

Informal Complaint: Informal request for assistance from a Commission where resolution is attempted without public hearing or Commission order.

Information Access Service (IAS): See Dial-It.

Inside Wiring: The wiring installed inside a residence or business to provide telephone service.

Interconnect: Company which sells customer premises equipment, such as private branch exchange (PBX) and office telephone systems.

Interconnection: The connection of a piece of telephone equipment to the nationwide telephone network. Also applies to the network connection of telecommunications carriers to each other.

Interexchange Carrier: See IXC

Interim Relief Request: An application to a Commission showing that the applicant will suffer irreparable injury, immediate special hardship or inequity if relief from a regulation is denied.

InterLATA: Telecommunications services that originate and terminate in different Local Access and Transport Areas (LATA).

Interruptible Rates: Special rates for energy consumers who are willing to have their energy delivery service interrupted by the utility when necessary. This is a low-priority service with generally lower unit rates. See also Firm Power.

Interstate: From one state to another, or across state lines. Interstate activities generally fall under the jurisdiction of the Federal government.

Intervenor: A third party who receives permission from a Commission to participate in a rate case.

IntraLATA: Telecommunications services that originate and terminate in the same Local Access and Transport Areas (LATA).

Intrastate: Completely within the borders of a single state. Intrastate activities generally fall under the jurisdiction of the State government.

Inverted Rate Structure: A rate design in which the unit price increases with usage.

Investor-Owned Utility (IOU): A private utility owned by and responsible to its shareholders.

Kilowatt-Hour (Kwh): 1000 watts of consumption for one hour. Electric bills are measured in kilowatt hours.

LATA - Telecommunications - (Local Access and Transport Area): Contiguous local exchange areas that include every point served by a local exchange telephone company within an existing community of interest and that serve as the dividing line for the allocation of assets and liabilities between long-distance companies and Local Exchange Companies (LECs).

LCUP (Least-Cost Utility Planning: See Least Cost Planning.

LIHEAP: Low Income Home Energy Assistance Program. Federally-funded program to help low-income customers afford basic energy utility service.

LNG (Liquefied Natural Gas): Natural gas cooled to 259 degrees F to form a liquid. As natural gas becomes liquid it is reduced in volume nearly 600-fold, making both storage and long distance transportation more economical.

LPG (Liquefied Petroleum Gas): A gas containing certain hydrocarbons which are gaseous under normal atmospheric conditions, but can be liquefied under moderate pressure a normal temperatures. Propane and butane are the principal examples of LPG.

LTL (Less than Truck Load): Quantity of freight less than that required for the application of truckload rate.

Lead-Lag Study: Analysis of the amount of time (lead) between rendering service to receiving payment from customers and the amount of time (lag) between incurring expenses and paying for them.

Least Cost Planning: Effort to identify all possible options of satisfying end-use energy needs at the lowest possible cost to all ratepayers while minimizing external costs to society.

Life Expectancy: Time period during which an article is expected to render efficient service.

"Lifeline" Rates: Special local telephone rates for low-income customers. As approved by the FCC, customers meeting certain eligibility tests may apply to have an amount equal to the Subscriber Line Charge (SLC) deducted from their monthly bills. Also used generically to designate special rate plans offering very basic utility service at low rates to eligible customers.

"Link Up America": A federally funded program, co-sponsored by the FCC, USTA and other groups, designed to allow low income customers to receive a 50% (up to $30) discount off

telephone service connection charges, developed to encourage universal basic telephone service.

Liquefied Natural Gas: See LNG.

Liquefied Petroleum Gas: See LPG.

Load: The amount of electric power or gas delivered at any specified point or points on a system. Load originates primarily at the power-consuming equipment of customers.

Load Factor: The ratio of the average load supplied during a designated period to the peak load occurring during that period.

Load Management: Techniques designed to reduce the demand for electricity at peak times, such as remote devices to temporarily turn off appliances.

Local Measured Service (LMS): Method of pricing local telephone service on the basis of length of call, distance called, time of day and/or number of calls made during the billing period. See also Flat Rate.

Long-term Debt: Indebtedness (notes, drafts, bonds, etc.) payable over a period of time longer than one year. See also Short-Term Debt.

Mcf: 1000 cubic feet; used as a measurement of gas.

MCSAP: See Motor Carrier Safety Assistance Program.

MFJ (Modified Final Judgment)

Maintenance Expenses: Part of operating expenses, including labor, materials, and other expenses, incurred for preserving the operating efficiency and/or physical condition of utility plant.

Management Audit: Analysis of the management practices of a company with an eye toward improving efficiency and effectiveness.

Marginal Cost: The extra cost of producing one more unit at any production level. Marginal Cost of Capital is the cost of an additional dollar of new funds.

Market-Based Prices: Prices fixed in the free market under conditions of pure competition.

Market-to-Book Ratio: Comparison of the market and book value of stock. A one-to-one market-to-book ratio means the stock is selling on the market at book value.

Master Metering: Installation of one bulk power meter for multiple tenants.

Message Telecommunications Service (MTS): Also known as long distance or Message Toll Service. Subscribers are charged per message, based on the time, duration and distance of the call.

Metered Service: Meters record actual energy use in order to accurately bill a customer. See also Flat Rate.

Midpoint Approach: Method of determining rate of return, no longer used widely, that determines the point halfway between the earnings to price ratio and the earnings to book ratio.

Modified Final Judgment (MFJ): Judge Greene's 1983 decision divesting AT&T of its local exchange carriers; the MFJ governs activities of the Bell Operating Companies (BOCs). See also Divestiture.

Motor Carrier Safety Assistance Program (MCSAP): States which participate are eligible to apply for federal reimbursement of up to 80% of the cost of enforcing federal safety standards.

Municipal Utility: Utility (electric, gas, sewer, water) owned and operated by a city, town or other municipality. Rates charged by a municipal utility within its municipal boundaries are usually exempt from state agency regulation. See also Public Power.

NARUC (National Association of Regulatory Utility Commissioners): Represents state regulatory agencies in Washington, DC.

NATA (North American Telecommunications Association). Trade association that represents telecommunications equipment industry.

NCTA (National Cable Television Association): Represents local cable TV companies.

NECA (National Exchange Carriers Association): Set up by the FCC to administer costs of BOCs.

NOI (Notice of Intent, also Notice of Inquiry)

NOPR (Notice of Proposed Rulemaking). Also known as NPRM.

NTCA (National Telephone Cooperative Association): Represents small telephone cooperative associations.

NTIA (National Telecommunications and Information Administration): Part of Department of Commerce responsible for research and advice on improving national telecommunications policy.

NTIS (National Technical Information Service)

Natural Gas Pipeline Safety Act: 49 USCA Section 1674 (a)(b), 1968. States which participate in the program are eligible to apply for federal reimbursement of up to 50% of the cost of enforcing federal safety standards.

Net Worth: Capital plus capital surplus plus retained earnings.

Nine one one (911): The telephone prefix set aside nationwide for access to emergency services.

Nine Seven Six (976): The prefix set aside nationwide for local exchange dial-it service. See Dial-It.

Nine Hundred (900): The area code set aside nationwide for interstate dial-it service. See Dial-It.

Non-Coincident Peak: When one customer class reaches maximum energy use. This peak may or may not coincide with the peak for the total system. See also Coincident Peak.

Non-Dominant Carrier: Service provider which does not dominate its particular market. In many states, a non-dominant carrier is subject to less stringent regulation than the dominant carrier.

Non-Firm Power: See Interruptible.

Non-Traffic-Sensitive (NTS) Plant: Facilities used in providing inter- and intra-state service whose cost characteristics do not change with variations in traffic levels. See also Fixed Costs.

Normalization: An accounting method that allows a utility to recover from its customers income taxes that it must pay evenly over its years of operation.

Notice of Inquiry (NOI): FCC public notice soliciting information and comments on a specific subject.

Notice of Intent (NOI): A filing of preliminary data which indicates the applicant's intent to pursue a formal proceeding.

Notice of Proposed Rulemaking (NOPR)

OCC (Other Common Carrier): Any telecommunications provider other than AT&T or Bell companies.

ONA (Open Network Architecture)

OPASTCO (Organization for the Protection and Advancement of Small Telephone Companies): Represents small telephone companies.

OSP (Operator Service Provider): see Alternative Operator Service.

OSPA (Operator Service Providers of America): Trade association representing the interests of independent operator service providers.

Off-Peak Period: Period of relatively low system demands.

On-Peak: Period of relatively high system demands.

On-Site Audit: Audit performed on the company's premises.

Operating Costs: Expenses related to maintaining day-to-day utility functions, including operation and maintenance expenses, taxes and depreciation and amortization costs, but not interest payments or dividends. Operating costs are recovered from customers on a current basis, as opposed to capitalized costs.

Operating Ratio: The ratio, generally expressed as a percentage, of operating expenses to operating revenues.

Operating Revenues: Amounts billed by the utility for utility services rendered.

Operating Unit or System: Complete and self-sustaining facility or group of facilities acquired and operated intact.

Original Cost Method of Valuation: The cost of the property to the person first devoting it to public service.

Outage: The period during which a generating unit, transmission line, or other facility, is out of service.

Overall Rate of Return: The monetary allowance for shareholders and bondholders granted by a Commission. It consists of the fixed rate of return in the bondholders' contracts and the Commission's determination of a fair market return to the shareholders' investment.

Overhead Expenses: Expenditures connected with the development and operation of any revenue-producing property.

PBX (Partitioned - or Private - Branch Exchange): Switchboard, or switching system, on premises of large users.

PGA (Purchased Gas Adjustment): See Automatic Adjustment Clause and Purchased Gas Adjustment.

POTS (Plain Old Telephone Service): No whistles or bells.

PURPA (Public Utility Regulatory Policy Act): Part of the National Energy Act of 1978, it requires State regulatory agencies to consider a variety of issues affecting electric and gas utility customers. The intent is to establish standards and policies that promote energy conservation, encourage the efficient use of facilities and resources, and provide equitable rates for consumers.

Par Value: The face value of a stock or bond.

Partial Forecast Test Year: A 12-month period, comprised of the immediately preceding 6 months and the immediately following 6 months, utility financial data used to evaluate a proposed tariff revision. See also Test Year.

Party-in-Interest: An individual or group appearing in a formal proceeding.

Peak Demand: The maximum level of operating requirements placed on the system by customer usage during a specified period of time.

Peak Load Pricing: Pricing which reflects different prices for system peak periods or for hours of the day during which loads are normally high.

Peak Load Station: Generating station normally in operation only to provide power during maximum load periods. See also Base Load Station.

Petitioner: Any party to a proceeding who seeks to appeal a Commission decision, modify a proposed decision, or intervene during a Commission hearing.

Plant Acquisition Adjustment: The difference between the cost to the utility of acquired plant and the original cost of the plant less the amount credited at the time of acquisition for depreciation and amortization and contributions in aid of construction. See also Acquisition Adjustment.

Plant Held for Future Use: Costs of land or other property acquired by a utility but not yet used for generation, transmission or distribution purposes.

Plant in Service: The land, facilities and equipment used to generate, transmit and/or distribute utility service. See also Utility Plant.

Pole Attachment: An attachment by a cable television system to a pole, duct or conduit owned or controlled by a utility.

Pool Capacity: Capacity provided by a power pool member in order for the member to meet installed or reserve capacity obligations.

Pooling: Different utilities share their physical plants or resources to increase their efficiency and conserve energy.

Power Pool: Two or more interconnected electric systems planned and operated to supply power in the most reliable and economical manner for their combined load requirements and maintenance program.

Preferential Tariff: A tariff in which a specified class of customers is given special treatment, for example a "lifeline" rate to provide very basic service to low-income customers.

Price/Earnings Ratio (P/E): The market price per share of common stock divided by the annual earnings per share of common stock.

Private Carrier: A company which maintains its own trucks to transport its own freight.

Private Line Service: Dedicated telecommunications channels provided between two points or switched among multiple points without connecting to central office switching apparatus; leased for high volume voice, data, audio or video transmissions.

Prudent Investment Method of Valuation: Historical cost less any amounts found to be dishonest or obviously wasteful.

Public Power: Electric utility owned by a government entity such as a municipality or utility district. See also Municipal Utility.

Public Utility: A business or service engaged in regularly supplying the public with some commodity or service which it needs.

Public Utility District: Publicly owned energy producer or distributor. Normally districts incorporate areas larger than a single municipality and operate as special government districts, independent of State regulatory agencies.

Purchased Gas Adjustment (PGA): The difference between the estimated price that would be paid for gas purchased during a test period, and the actual price paid. See also Automatic Adjustment Clause.

QF (Qualifying Facility): Small power producer or cogenerator who satisfies section 201 of PURPA (among other things, the owner must not be primarily engaged in generation or sale of electric power, the facility also must meet certain size, fuel use and fuel efficiency requirements).

RBOC (Regional Bell Operating Company): See BOC.

RCC: See Radio Common Carrier or Regular Common Carrier.

REC (Rural Electric Cooperative)

REA (Rural Electrification Authority): Part of Department of Agriculture established in 1935 and authorized in 1949 to make loans for extending telephone service into rural areas. It also finances construction of rural electric facilities.

RHC (Regional Holding Company): One of the seven regional companies spun off from AT&T upon divestiture in 1984 - Ameritech, NYNEX, Bell Atlantic, BellSouth, Pacific Telesis, Southwestern Bell and US West.

Radio Common Carrier (RCC): Common carrier in domestic public land mobile radio service licensed by FCC to receive and transmit signals from mobile transmitters, eg, land mobile, air-to-ground, marine, coastal harbor, within specified geographic area.

Railroad Safety Act of 1970: 45 USCA, Section 435. See Federal Railroad Safety Act.

Rate base: Investment in operating plant, less depreciation, upon which regulated utility is entitled to earn profit.

Rate base regulation: Method of regulation in which utility is limited in operations to revenue level which will recover no more than its expenses plus an allowed rate of return on its rate base.

Rate Case: Procedures followed by a regulatory authority so that a utility may present and justify its need for a rate change.

Rate Case Audit: Audit performed in the course of a rate case.

Rate of Return: Percentage allowed by the Commission as a fair and reasonable return on rate base.

Rate Structure: The design and organization of billing charges by customer class to distribute the revenue requirement among customer classes and rating periods.

Regional Holding Company: See RHC

Regular Common Carrier (RCC): Any company authorized to serve the public and to transport general commodities over set routes.

Regulatory Lag: The time between the filing of an application for a rate change and the issuance of a final decision.

Relay Message Service: A service which relays messages between TDD-users and non-TDD-users.

Remaining Life: The expected future service life of an asset at any given age.

Removal Costs: The costs of disposing of plant, whether by demolishing, dismantling, abandoning, sale or other. Removal costs increase the amount to be recovered as depreciation expense.

Reproduction Cost: Estimated cost to reproduce existing properties in their current form and capability at current cost.

Resale Carrier (or Reseller): A telecommunications carrier that does not own transmission facilities, but obtains services from another carrier for resale to the public for profit.

Reserve Generating Capacity: A utility's back-up ability to insure sufficient energy supply despite occasional loss of some production capability due to mechanical failures, low water or other problems.

Residual Value: Value of property after its useful life is over; see Salvage.

Retained Earnings: Corporate earnings that are not paid out in dividends.

Return on Common Stock Equity: Shareholders' earnings based on Commission's determination of a fair market return on shareholder's investment.

Revenue Requirement: Amount of return (rate base times rate of return) plus operating expenses.

Right-of-Way: The land on which is built a public road, railroad or public utility (as for a transmission line).

Risk Premium: The difference between the required rate of return on a risky asset and the rate of return on a non-risky asset with the same expected life. A method of determining rate of return.

Rolled-in Rates: The averaging of costs (usually for a natural gas distribution company), including purchased gas costs, to arrive at a uniform rate schedule for all customers.

Run-of-River Plant: A hydroelectric power plant which uses the flow of the stream as it occurs.

SCPE (Specialized Customer Premises Equipment). Specialized telecommunications equipment located on customer's premises; includes such items as TDD (Telecommunications Device for the Deaf) and TTY (Teletype-writer, also used by the hearing-impaired).

SEC (Securities and Exchange Commission): The federal agency which supervises the operation of securities exchanges and related aspects of the securities business.

SNG (Synthetic Natural Gas): The conversion of other gases, liquids, or solid hydrocarbons to a gaseous fuel of quality e-quivalent to that of natural gas.

STS: See Shared Tenant Services

Salvage: The value realized from plant removed or otherwise disposed. This may be in the form of cash, debits to the materials and supplies accounts, trade-in allowance or other consideration. Salvage reduces the amount of plant costs required to be recovered as depreciation expense.

Scrubber: A device at an electric generating plant to remove air contaminants produced by burning fossil fuels.

Seasonal Rates: Rates designed to encourage conservation during time of the year when energy consumption is high.

Separations: Process by which a utility's expenses and investment in plant are divided between interstate operations and intrastate operations. See also Cost Allocation.

Service Area: Territory in which a utility is required or has the right to supply service to ultimate customers.

Service Life: The period of time from the date a unit of property is placed in service until it is taken out of service. Average service life is the weighted average of the lives for all units within a plant account or group.

Service Value: The difference between original cost and net salvage value of utility plant.

Shared Tenant Services (STS): Means of aggregating and providing centralized telecommunications needs of tenants within a building or complex of buildings.

Short-term Debt: Indebtedness (notes, drafts, bonds, etc.) payable within one year. See also Long-Term Debt.

Glossary of Terms

Small Power Producer: One that has production capacity of no more than 80 megawatts and uses biomass, waste, or renewable resources (such as wind, water, or solar energy) to produce electric power.

Stack: A chimney or conduit for smoke.

Statement: Opinion or viewpoint made at a public hearing, not under oath, which is made part of the file but is not subject to cross-examination.

Stipulation: Prior to a rate increase hearing, the different parties may agree on the resolution of one or more issues. The resulting agreement (stipulation) is presented at the hearing.

Straight Line Method of Depreciation: The cost of an asset is spread equally over the number of years the asset is estimated to be useful.

Straight Line Average Service Life: Principal objective is the determination for each year of the expenses of depreciation attributable to that year's operation.

Straight Line Remaining Life: Depreciation reserve is reviewed before applying this method; only the rate is reviewed thereafter.

Subscriber Line Charge (SLC): A charge which produces revenues for the telephone company. The money collected from the subscriber line charge is used to compensate the local telephone company for a part of the cost of the installation and maintenance of the telephone wire, poles and other facilities that link the individual telephone (or communications device) to the telephone network.

Substation: An assemblage of equipment for the purpose of switching and/or changing or regulating the voltage of electricity.

Sunshine (Freedom of Information) Statutes: Any laws designed to guarantee public access to governmental actions.

Supply Side Management: Generally refers to the utility's management of its generating and transmission facilities for maximum efficiency. Demand and Supply Side Management techniques are combined in Least Cost Utility Planning (LCUP).

TDD (Telecommunications Device for the Deaf): A device with a keyboard which attaches to the telephone by a coupler enabling the hearing-impaired to "converse", keyboard to keyboard, over the telephone network. Newer models include a video display terminal (VDT) similar to those used with personal computers.

TFP: See Total Factor Productivity

TL: See Truckload

TOD: See Time-of-Day

TOP: See Take or Pay

TTY: **Teletypewriter.** See TDD.

TVA (Tennessee Valley Authority)

Tail Block: The last priced block of energy in a stepped rate structure.

Take and Pay: Energy sales contract which requires payment only for energy actually delivered.

Take or Pay (TOP): Energy sales contract which requires payment for a given amount of energy whether the customer takes it or not.

Tariff: A statement by a utility company that sets forth the services offered and the rates, terms and conditions for the use of those services. Tariffs must often be submitted to, and approved by, the agency with jurisdiction over the utility.

Test Year: A 12-month period used by a utility to evaluate a tariff revision. There are historic, partial forecast and fully forecasted test years.

Testimony: A declaration, oral or written, given under oath at a public hearing and subject to cross-examination.

Therm: Heat measurement equal to 100,000 British Thermal Units (BTUs).

Time-of-Day (TOD) Rates: Rate design which prices energy consumption higher during peak usage times of the day. Used to encourage energy conservation. In telecommunications, TOD rates are used to encourage calling during off-peak times.

Time-of-Use Rates: Rate design which prices energy consumption higher during peak usage times. Used to encourage energy conservation.

Total Factor Productivity (TFP): A method of measuring an electric utility's overall productivity.

Traffic-Sensitive Costs: See Variable Costs.

Transmission: The movement or transfer of electric energy in bulk. Ordinarily, transmission ends when the energy is transformed for distribution to the ultimate customer.

Truckload (TL): (a) Quantity of freight required to fill a truck. (b) Quantity of freight necessary to qualify for a truckload rate.

USOA (Uniform System of Accounts)

USTA (United States Telephone Association): Industry association representing all local service telephone companies.

Glossary of Terms

Unbundled Rate: Individual services are listed and priced separately. See also Bundled Rate.

Uniform System of Accounts (USOA): A list of accounts for the purpose of classifying all plant and expenses associated with a utility's operations. The USOA specifies a number for each account, together with a title and a description of content, and prescribes the rules and regulations governing the use of such accounts. Systems of accounts may be prescribed by Federal and/or State regulatory authorities.

Unit of Production Method of Depreciation: The cost of the property is distributed over the number of units produced.

Universal Service Fund: Fund designed to offset high operating costs of smaller telephone companies servicing customers in low traffic, low density areas. Generally funded by a small surcharge.

Unmetered Service: Energy used and billed without being recorded by a meter; usually where the use is constant, such as a light on an automatic timer.

Used and Useful Test: Criteria for determining the admissibility of utility plant as a component of rate base. Plant must be in use (not under construction or standing idle awaiting abandonment) and useful (actively helping the utility provide efficient service). See also Imminence Test.

Utility Plant: All equipment used for the generation, transmission and/or distribution of utility service, or an account in which record is kept of this equipment. See also Plant in Service.

Variable Costs: Costs which change with the increase or decrease of output or traffic. Also called Traffic-Sensitive Costs.

Vertical Service: The utility company performs all major utility services for its customers, including production, transforming, transmittal and distribution. Electric, telephone and water utilities usually provide vertical service, while natural gas companies do not, since gas producers and transmitters do not deal in retail sales.

Voice Mail: Also known as Voice Messaging.

Volt: Unit of electromotive force or electric pressure which, if steadily applied to a circuit having a resistance of one ohm, will produce a current of one ampere.

WATS: See Wide Area Telecommunications Service

Watt: The electrical unit used to measure power.

Waybill: Description of goods sent with a freight shipment. See also Bill of Lading.

Weighted Cost of Capital: A weighted average of the component costs of debt, preferred stock and common equity. It reflects the cost of each additional dollar raised, not the average cost of all capital the company has ever raised.

Wellhead Price: The price received by the producer of oil or gas for sales taking effect at the oil or gas well.

Wheeling: Sale of electricity from a utility to a customer by way of a second utility.

Wide Area Telecommunications Service (WATS): Service designed to meet needs of customers having substantial volumes of long distance calls over a wide area; similar intrastate service is available. Outward WATS enables customers to place calls within selected service areas; 800 service enables customers to receive calls from selected service areas, without charge to calling party.

Windfall Profits Tax: A tax imposed on sales at prices in excess of a specified base price.

Working Capital: The amount of cash or other liquid assets (including materials and supplies) that a company must have on hand to meet the current cost of operations until it is reimbursed by its customers.

Year-End Rate Base: Amount of rate base at the end of a particular year.

Yield: Rate of return on an investment; internal rate of return.
